**concerning the accession of the Kingdom of Spain and the Portuguese
Republic to the European Communities**

COMMISSION OPINION**of 31 May 1985****on the applications for accession to the European Communities by the Kingdom of Spain and the Portuguese Republic**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Coal and Steel Community, and in particular Article 98 thereof,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 237 thereof,

Having regard to the Treaty establishing the European Atomic Energy Community, and in particular Article 205 thereof,

Whereas the Kingdom of Spain and the Portuguese Republic have applied to become members of those Communities;

Whereas, in its opinions of 19 May and 20 November 1978, the Commission has already had an opportunity of expressing its views on certain essential aspects of the problems arising in connection with these applications;

Whereas the terms for the admission of these States and the adjustments to the Treaties necessitated by their accession have been negotiated in conferences between the Communities and the applicant States; whereas the uniqueness of Community representation was ensured with due regard for the institutional dialogue provided for by the Treaties;

Whereas, on the completion of those negotiations, it is apparent that the provisions so agreed are fair and proper; whereas, this being so, the Community's enlargement, while preserving its internal cohesion and dynamism, will enable it to take a fuller part in the development of international relations;

Whereas, in joining the Communities, the applicant States accept, without reserve, the Treaties and their political objectives, all decisions taken since their entry into force and the options taken in respect of the development and strengthening of the Communities;

Whereas it is an essential feature of the legal order introduced by the Treaties establishing the Communities that certain of their provisions and certain acts adopted by the institutions of the Communities are directly applicable, that Community law takes precedence over any national provisions which might conflict with it, and that procedures exist for ensuring the uniform interpretation of Community law; whereas accession to the Communities implies recognition of the binding nature of these rules, observance of which is indispensable to guarantee the effectiveness and unity of Community law;

Whereas the principles of pluralist democracy and respect for human rights form part of the common heritage of the peoples of the States brought together in the European Communities and constitute therefore essential elements of membership of the said Communities;

Whereas enlargement of the Communities through the accession of the Kingdom of Spain and the Portuguese Republic will help to strengthen safeguards for peace and freedom in Europe,

HEREBY DELIVERS A FAVOURABLE OPINION:

on the accession to the European Communities of the Kingdom of Spain and the Portuguese Republic.

This opinion is addressed to the Council.

Done at Brussels, 31 May 1985.

For the Commission

Article 3

1. The new Member States accede by this Act to the decisions and agreements adopted by the representatives of the Governments of the Member States meeting in Council. They undertake to accede from the date

of accession to all other agreements concluded by the present Member States relating to the functioning of the Communities or connected with the activities thereof.

2. The new Member States undertake to accede to the conventions provided for in Article 220 of the EEC Treaty and to those that are inseparable from the attainment of the objectives of that Treaty and thus linked to the Community legal order, and also to the protocols on the interpretation of those conventions by the Court of Justice, signed by the Member States of the Community as originally constituted or as enlarged and to this end they undertake to enter into negotiations with the present Member States in order to make the necessary adjustments thereto.

3. The new Member States are in the same situation as the present Member States in respect of declarations or resolutions of, or other positions taken up by, the Council and in respect of those concerning the European Communities adopted by common agreement of the Member States; they will accordingly observe the principles and guidelines deriving from those declarations, resolutions or other positions and will take such measures as may be necessary to ensure their implementation.

2. The new Member States undertake to accede, under the conditions laid down in this Act, to the agreements or conventions concluded by the Member States of the Community as originally constituted or as enlarged and any of the Communities, acting jointly, and to the agreements concluded by those States which are related to those agreements or conventions. The Community and the present Member States shall assist the new Member States in this respect.

3. The new Member States accede by this Act and under the conditions laid down therein to the internal agreements concluded by the Member States of the

4. The new Member States shall take appropriate measures, where necessary, to adjust their position in relation to international organizations and to those international agreements to which one of the Communities or to which other Member States are also parties, to the rights and obligations arising from their accession to the Communities.

Article 5

Article 234 of the EEC Treaty and Articles 105 and 106 of the Euratom Treaty shall apply for the new Member States to agreements or conventions concluded before their accession.

Article 6

The provisions of this Act may not, unless otherwise provided herein, be suspended, amended or repealed other than by means of the procedure laid down in the original Treaties enabling those Treaties to be revised.

Article 7

Acts adopted by the institutions of the Communities to which the transitional provisions laid down in this Act relate shall retain their status in law; in particular, the procedures for amending those acts shall continue to apply.

Article 8

Provisions of this Act the purpose or effect of which is to repeal or amend acts adopted by the institutions of the Communities, otherwise than as a transitional measure, shall have the same status in law as the provisions which they repeal or amend and shall be subject to the same rules as those provisions.

Article 9

The application of the original Treaties and acts adopted by the institution shall, as a transitional measure, be subject to the derogations provided for in this Act.

Article 2

The number of representatives elected in each Member State is as follows:

Belgium	24

Germany	81
Greece	24
Spain	60

France	81
Ireland	15
Italy	81
Luxembourg	6
Netherlands	25

— for a first cycle of six years: Belgium, Denmark, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, Netherlands, Portugal, United Kingdom,

- for the following cycle of six years: Denmark, Belgium, Greece, Germany, France, Spain, Italy, Ireland, Netherlands, Luxembourg, United Kingdom, Portugal.'

Article 12

The following is substituted for Article 28 of the ECSC Treaty:

'Article 28

When the Council is consulted by the High Authority, it shall consider the matter without necessarily taking a vote. The minutes of its proceedings shall be forwarded to the High Authority.

Wherever this Treaty requires that the assent of the Council be given, that assent shall be considered to have been given if the proposal submitted by the High Authority receives the approval:

- of an absolute majority of the representatives of the Member States, including the votes of the representatives of two Member States which each produce at least one-ninth of the total value of the coal and steel output of the Community, or
- in the event of an equal division of votes and if the High Authority maintains its proposal after a second discussion, of the representatives of three Member States which each produce at least one-ninth of the total value of the coal and steel output of the Community.

Wherever this Treaty requires a unanimous decision or unanimous assent, such decision or assent shall have been duly given if all the members of the Council vote in favour. However, for the purposes of applying Articles 21, 32, 32a, 78e and 78h of this Treaty, and Article 16, the third paragraph of Article 20, the fifth paragraph of Article 28 and Article 44 of the Protocol on the Statute of the Court of Justice, abstention by members present in person or represented shall not prevent the adoption by the Council of acts which require unanimity.

Decisions of the Council, other than those for which a qualified majority or unanimity is required, shall be taken by a vote of the majority of its members; this majority shall be considered to be attained if it represents an absolute majority of the representatives of the Member States, including the votes of the representatives of two Member States which each produce at least one-ninth of the total value of the coal and steel output of the Community. However, for the purpose of applying

Articles 78, 78b and 78e of this Treaty which require a qualified majority, the votes of the members of the Council are weighted as follows:

Denmark	3
Germany	10
Greece	5
Spain	8
France	10
Ireland	3
Italy	10
Luxembourg	2
Netherlands	5
Portugal	5
United Kingdom	10

For their adoption, acts shall require at least 54 votes in favour, cast by not less than eight members.

Where a vote is taken, any member of the Council may act on behalf of not more than one other member.

The Council shall deal with the Member States through its President.

The acts of the Council shall be published in such a manner as it may decide.'

Article 13

The following is substituted for the fourth paragraph of Article 95 of the ECSC Treaty:

'These amendments shall be proposed jointly by the High Authority and the Council, acting by a ten-twelfths majority of its members, and shall be submitted to the Court for its opinion. In considering them, the Court shall have full power to assess all points of fact and of law. If, as a result of such consideration, it finds the proposals compatible with the provisions of the preceding paragraph, they shall be forwarded to the Assembly and shall enter into force if approved by a majority of three-quarters of the votes cast and two-thirds of the members of the Assembly.'

Article 14

The following is substituted for Article 148 (2) of the EEC Treaty and Article 118 (2) of the Euratom Treaty:

In no case shall customs duties higher than those applied to third countries enjoying most-favoured-nation treatment be applied within the Community.

In the event of the Common Customs Tariff duties being amended or suspended, or the Kingdom of Spain applying Article 40, the Council, acting by a qualified majority on a proposal from the Commission, may take the necessary measures for the maintenance of Community preference.

In the event of ECSC unified tariff duties being amended or suspended, or the Kingdom of Spain applying Article 40, the Commission may take the necessary measures for the maintenance of Community preference.

From 1 January 1986, the Kingdom of Spain shall open annual tariff quotas subject to reduced duty for the import of motor vehicles for the transport of persons, with either a spark ignition or a compression ignition engine, other than motor coaches and buses, falling within subheading ex 87.02 A I b) of the Common Customs Tariff, originating in the Community as at present constituted. The admission of such motor vehicles to those tariff quotas shall be governed by the provisions of Protocol 6.

Article 35

No customs duty of a fiscal nature shall be applied from 1 March 1986.

Article 36

Customs duties on exports and charges having equivalent effect in trade between the Community as at present constituted and Spain shall be abolished on 1 March 1986.

Article 37

1. For the purpose of the progressive introduction of the Common Customs Tariff and the ECSC unified tariff, the Kingdom of Spain shall amend its tariff applicable to third countries as follows:

From 1 March 1986:

- (a) in the case of tariff headings in respect of which the basic duties do not differ by more than 15 % in either direction from the duties in the Common Customs Tariff or the ECSC unified tariff, these latter duties shall be applied;
- (b) in other cases, the Kingdom of Spain shall apply a duty reducing the difference between the basic duty and the duty in the Common Customs Tariff or the ECSC unified tariff in accordance with the following timetable:
 - on 1 March 1986, a reduction of 10 %,
 - on 1 January 1987, a reduction of 12,5 %,
 - on 1 January 1988, a reduction of 15 %,
 - on 1 January 1989, a reduction of 15 %,

2. Notwithstanding paragraph 1, for the products listed in the Annex to the Agreement on trade in civil aircraft concluded in the context of the 1973 to 1979 trade negotiations of the General Agreement on Tariffs and Trade, the Kingdom of Spain shall apply the Common Customs Tariff from 1 March 1986 in its entirety.

Article 38

The autonomous duties entered in the Community Common Customs Tariff shall be the autonomous duties of the Community as at present constituted. The conventional duties of the EEC Common Customs Tariff and of the ECSC unified tariff shall be the conventional duties of the EEC and of the ECSC, as at present constituted, with the exception of the adjustments to be made to take into account the fact that the duties in force in the Spanish and Portuguese tariffs are, on the whole, higher than the duties in force in the tariffs of the EEC and ECSC as at present constituted.

That adjustment which will be the subject of negotiation within the General Agreement on Tariffs and Trade, shall remain within the limits of the possibilities opened by Article XXIV of that Agreement.

Article 39

1. Where duties in the customs tariff of the Kingdom of Spain differ in nature from the corresponding duties in the Common Customs Tariff or the ECSC unified tariff, the progressive alignment of the former on the latter shall be effected by adding the components of the Spanish basic duty to those of the duty in the Common Customs Tariff or the ECSC unified tariff, the Spanish basic duty being reduced to zero progressively, in accordance with the timetable set out in Articles 37 and 75 (2), and the duty in the Common Customs Tariff or ECSC unified tariff increasing from zero to reach the full amount progressively in accordance with the same timetable.

2. From 1 March 1986, if certain duties in the Common Customs Tariff or the ECSC unified tariff are altered or suspended, the Kingdom of Spain shall simultaneously amend or suspend its tariff in the proportion resulting from the implementation of Article 37.

3. The Kingdom of Spain shall apply the Common Customs Tariff and ECSC unified tariff nomenclatures from 1 March 1986.

The Kingdom of Spain may include within these nomenclatures national subdivisions existing at the time of accession which are indispensable in order that the progressive alignment of its customs duties on those in the Common Customs Tariff and the ECSC unified tariff be carried out under the conditions laid down in this Act.

Where amendments are made to the nomenclature of the Common Customs Tariff or the ECSC unified tariff

in respect of products referred to in this Act, the Council may, acting by a qualified majority on a proposal from the Commission, adapt the nomenclature of those products as indicated in this Act.

4. With a view to implementing paragraph 3 and to facilitating the progressive introduction of the Common Customs Tariff and the ECSC unified tariff by the Kingdom of Spain and the progressive abolition of customs duties between the Community as at present constituted and the Kingdom of Spain, the Commission shall determine, if necessary, the implementing provisions whereby the Kingdom of Spain alters its customs duties; those implementing provisions may not however entail any amendment to Articles 31 and 37.

5. The rate of duty calculated in accordance with Article 37 shall be applied by rounding up or down to the first decimal place.

Rounding down shall be effected by deleting the second decimal where Spanish duties are being aligned on Common Customs Tariff or ECSC unified tariff duties which are less than the Spanish basic duties. In other cases rounding up shall be effected by applying the higher decimal.

Article 40

In order to bring its tariff into line with the Common Customs Tariff and the ECSC unified tariff, the Kingdom of Spain shall remain free to alter its customs duties more rapidly than is provided for in Article 36. It shall inform the other Member States and the Commission thereof.

Article 41

During the period of elimination of customs duties between the Community as at present constituted and the Kingdom of Spain and the period of alignment of the Spanish Customs Tariff duties on those of the Common Customs Tariff and of the ECSC unified tariff, the Kingdom of Spain shall enjoy the option of opening to third countries tariff quotas actually applied on 1 January 1985.

If such quotas are opened, Article 37 shall apply during such time as these quotas remain open, to determine the duties applicable to products imported from third countries. The quantities or value subject to these duties shall be limited to the amounts actually imported under the same quotas opened on 1 January 1985. Products imported from the Community as at present constituted shall be subject to reduced duties in accordance with the provisions of Article 31, without limit as to quantify or value, whilst such quotas remain open.

If such quotas are not opened, the Kingdom of Spain shall apply to products imported from the Community as at present constituted the duties applied in the case

of such quotas being opened. The quantities or value subject to those duties shall be limited to the amounts actually imported from the Community as at present constituted under the same quotas opened on 1 January 1985.

Section II

Elimination of quantitative restrictions and measures having equivalent effect

Article 42

Quantitative restrictions on imports and exports and any measures having equivalent effect shall be abolished on 1 January 1986 between the Community as at present constituted and the Kingdom of Spain.

Article 43

1. Notwithstanding Article 42, the Kingdom of Spain may retain quantitative restrictions on imports:

- until 31 December 1988 for products referred to in Annex III,
- until 31 December 1989 for products referred to in Annex IV.

2. The restrictions referred to in paragraph 1 shall take the form of quotas.

3. The quotas for 1986 are listed in Annexes III and IV respectively.

The rate of progressive increase for quotas referred to in Annex III and for quotas 1 to 5 and 10 to 14 referred to in Annex IV shall be 25 % at the beginning of each year for quotas expressed in ECU, and 20 % at the beginning of each year for quotas expressed in terms of volume. Such increase shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

For the quotas 6 to 9 listed in Annex IV, the annual rate of progressive increase shall be as follows:

- first year: 13 %,
- second year: 18 %,
- third year: 20 %,
- fourth year: 20 %.

4. Where the Commission records by a Decision that imports into Spain of a product listed in Annexes III and IV have for two consecutive years been less than 90 % of the quota, imports of that product from the

present Member States shall be liberalized as from the beginning of the year following those two years.

5. Protocol 7 shall define the principles which shall be applied by the Kingdom of Spain for the administration of the quotas laid down in paragraph 2 of this Article.

Article 44

1. Notwithstanding Article 42 the Kingdom of Spain may retain until 31 December 1989 a rate of national incorporation that shall not exceed 60 % for the parts and accessories used in the manufacture of motor vehicles for the transport of persons, with either a spark ignition or a compression ignition engine, other than motor coaches and buses, falling within subheading ex 87.02 A I b) of the Common Customs Tariff.

2. The rate of national incorporation provided for in paragraph 1 shall be the same for manufacturers who are nationals of the other Member States established in Spain and for all manufacturers from the Kingdom of Spain. The treatment accorded to the abovementioned manufacturers shall not be less favourable than that accorded to manufacturers from third countries.

Article 45

1. Notwithstanding Article 42, the Community may retain until 31 December 1988 quantitative restrictions on exports to Spain for the following products:

CCT heading No	Description
ex 26.03	Copper ash and residues and alloys thereof
ex 74.01	Copper waste and scrap and alloys thereof

2. The restrictions referred to in paragraph 1 shall consist of annual quantitative quotas.

3. The quotas for 1986 shall be respectively 5 000 tonnes for copper ash and residues and alloys thereof falling within heading No ex 26.03 of the Common Customs Tariff and 14 000 tonnes for copper waste and scrap and alloys thereof falling within heading No ex 74.01 of the Common Customs Tariff.

The rate of annual progressive increase for the initial quotas applicable as from the beginning of the second year shall be 10 % at the beginning of each year. Such increase shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

4. Where exports from the Community of a product referred to in paragraph 1 have, for 1986 and 1987,

been less than 90 % of the quota opened, the restrictions in question shall be abolished from 1 January 1988.

5. The arrangements applied by the Community with regard to Spain, as provided for in paragraphs 1 to 4, shall not be less favourable than those applied to third countries.

Article 46

Notwithstanding Article 42 the present Member States may, until the end of the period referred to in Article 52, retain quantitative restrictions on exports of waste and scrap metal of iron or steel falling within heading No 73.03 of the Common Customs Tariff, which they applied to the Kingdom of Spain prior to the date of accession, insofar as these arrangements are not more restrictive than those applied to exports to third countries.

Article 47

1. Notwithstanding Article 42, the holder, or his beneficiary, of a patent for a chemical or pharmaceutical product or a product relating to plant health, filed in a Member State at a time when a product patent could not be obtained in Spain for that product may rely upon the rights granted by that patent in order to prevent the import and marketing of that product in the present Member State or States where that product enjoys patent protection even if that product was put on the market in Spain for the first time by him or with his consent.

2. This right may be invoked for the products referred to in paragraph 1 until the end of the third year after Spain has made these products patentable.

Article 48

1. Without prejudice to paragraphs 2 and 3 of this Article, the Kingdom of Spain shall, from 1 January 1986, progressively adjust State monopolies of a commercial character within the meaning of Article 37 (1) of EEC Treaty, bearing in mind, where appropriate, Article 90 (2) of the EEC Treaty, so as to ensure that by 31 December 1991 at the latest no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States.

The present Member States shall have equivalent obligations in relation to the Kingdom of Spain.

The Commission shall make recommendations as to the manner in which and the timetable according to which the adjustment must be carried out, it being understood that the manner and timetable must be the same for the Kingdom of Spain and the present Member States.

2. The Kingdom of Spain shall, from 1 January 1986, abolish all exclusive export rights.

3. With regard to products indicated in the list appearing in Annex V, the exclusive import rights shall be abolished not later than 31 December 1991. The abolition of these exclusive rights shall be made by progressively opening, from 1 January 1986, import quotas for products from the present Member States. Quota volumes for 1986 are indicated in the said list.

The Kingdom of Spain shall increase the quota volumes in the manner set out in the annex referred to in the first subparagraph.

The increases expressed in percentage terms shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

The quotas referred to in the first subparagraph shall be opened for all operators without restriction and goods imported under these quotas may not be subject in Spain to exclusive marketing rights at the wholesale level; as regards retail sales of certain goods imported under quotas, the marketing of such goods to consumers will have to be on a non-discriminatory basis.

4. The adjustment of the monopoly of products indicated in the list appearing in Annex VI may not necessarily affect the functioning of the Spanish petroleum monopoly with regard to third countries. This monopoly may continue to determine the origin and the conditions of acquisition of a share of crude oil imports, from third countries, necessary to ensure availability of supply on the Spanish market, whilst complying with the provisions of the EEC Treaty, and in particular those relating to free movement contained in Articles 30 and 37 of that Treaty.

Article 49

Notwithstanding Article 42, the arrangements described in Protocol 9 shall be applied to trade in certain textile products between the Community as at present constituted and Spain.

Section III

Other provisions

Article 50

1. The Commission shall, with due regard for the provisions in force, in particular those relating to Com-

munity transit, determine the methods of administrative cooperation designed to ensure that goods, fulfilling the requisite conditions, benefit from the abolition of customs duties and charges having equivalent effect, and quantitative restrictions and measures having equivalent effect, laid down by this Act.

2. Until 28 February 1986 the provisions of the 1970 Agreement between the European Economic Community and Spain on customs arrangements shall continue to apply to trade between the Community as at present constituted and Spain.

3. The Commission shall lay down the provisions applicable from 1 March 1986 to trade within the Community in goods obtained in the Community in the manufacture of which have been incorporated:

- products on which the customs duties or charges having equivalent effect which were applicable to them in the Community as at present constituted or in Spain have not been levied, or which have benefited from a total or partial drawback of such duties or charges,
- agricultural products, which do not fulfil the required conditions to be released for free circulation in the Community as at present constituted or in Spain.

In adopting these provisions, the Commission shall take into account the rules laid down in this Act for the elimination of customs duties between the Community as at present constituted and Spain, and for the progressive application by the Kingdom of Spain of the Common Customs Tariff and provisions concerning the common agricultural policy.

Article 51

1. Save as otherwise provided in this Act, the provisions in force with regard to customs legislation for trade with third countries shall apply under the same conditions to trade within the Community for such time as customs duties are levied in that trade.

For the purpose of establishing the customs value in respect of trade within the Community, and trade with third countries, until:

- 31 December 1992 for industrial products,
- 31 December 1995 for agricultural products,

the customs territory to be taken into consideration shall be that defined by the provisions existing in the Community and in the Kingdom of Spain on 31 December 1985.

2. The Kingdom of Spain shall apply the Common Customs Tariff and ECSC unified tariff nomenclatures in trade within the Community from 1 March 1986.

The Kingdom of Spain may include within these nomenclatures national subdivisions existing at the time of accession which are indispensable in order that the progressive elimination of its customs duties within the Community be carried out under the conditions laid down in this Act.

Article 52

During a period of three years from the date of accession, the Kingdom of Spain shall complete the restructuring of its iron and steel industry under the conditions defined in Protocol 10 annexed hereto.

The period indicated above may be shortened and the detailed rules set out in the said Protocol may be amended by the Commission with the assent of the Council on the basis of:

- the state of progression of the Spanish restructuring plans, taking into account significant factors in the re-establishment of the viability of the undertakings,
- iron and steel measures in force in the Community after the date of accession; in that case, the arrangements applicable after accession to Spanish deliveries to the Community as at present constituted should not lead to major differences in treatment between Spain and the other Member States.

Article 53

1. Where the compensatory amounts referred to in Article 72 are applied in trade between the Community as at present constituted and the Kingdom of Spain to one or more of the basic products considered as having been used in the manufacture of goods covered by Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products, the following transitional measures shall be applied:

- A compensatory amount calculated on the basis of the compensatory amounts referred to in Article 72 and in accordance with the rules laid down by Regulation (EEC) No 3033/80 for calculating the variable component applicable to the goods covered by this Regulation shall be applied on importation of those goods into the Community as at present constituted from Spain.

- When the goods covered by Regulation (EEC) No 3033/80 are imported from third countries into Spain the variable component laid down by this Regulation shall be increased or reduced as the case may be by the compensatory amount referred to in the first indent.

- A compensatory amount determined on the basis of the compensatory amounts fixed for the basic products and in accordance with the rules applicable for the calculation of the refunds provided for in Council Regulation (EEC) No 3035/80 of 11 November 1980 laying down general rules for granting export refunds on certain agricultural products exported in the form of goods not covered by Annex II to the Treaty, and the criteria for fixing the amount of such refunds, shall, for the goods covered by this Regulation, be applied on exportation of those goods from the Community as at present constituted into Spain.

- Where products covered by Regulation (EEC) No 3035/80 are exported from Spain to third countries they shall be subject to the compensatory amount referred to in the third indent.

2. The customs duty constituting the fixed component of the charge applicable, as from the date of accession, to imports into Spain of goods covered by Regulation (EEC) No 3033/80 shall be determined by deducting from the basic customs duty applied by the Kingdom of Spain to products originating in the Community as at present constituted a variable component equal to the variable component laid down in application of Regulation (EEC) No 3033/80, increased or reduced, as the case may be, by the compensatory amount referred to in the first and third indents of paragraph 1.

For the products falling within the headings of the Common Customs Tariff mentioned in Annex VII, the fixed component shall be equal to the duties which appear in the said Annex.

Spain may submit the products listed in Annex VII and the spirituous beverages falling within subheading 22.09 C of the Common Customs Tariff to Community surveillance for a seven-year transitional period for exclusively statistical purposes. Nevertheless imports of those products may not be delayed in any way as a result of this statistical surveillance being applied.

3. The customs duty constituting the fixed component of the charge applicable as from the date of accession to imports into Spain from third countries of the goods covered by Regulation (EEC) No 3033/80 shall be equal to the higher of the two amounts determined as follows:

- The amount obtained by deducting from the basic customs duty applied by the Kingdom of Spain to imports from third countries a variable component equal to the variable component fixed pursuant to

Regulation (EEC) No 3033/80, increased or decreased, as the case may be, by the compensatory amount referred to in the first and third indents of paragraph 1.

- The amount obtained by adding together the fixed component applicable to imports into Spain from the Community as at present constituted and the fixed component of the Common Customs Tariff duty (or with regard to third countries benefiting from the Community generalized system of preferences, the fixed preferential component which the Community applies, where appropriate, to imports from those countries).

4. By way of derogation from Article 30, the customs duties applied by the Kingdom of Spain to imports from the Community and third countries shall be converted, as from the date of accession, into the type of duty and the units entered in the Common Customs Tariff. Conversion shall be made on the basis of the value of the goods imported into Spain during the last four three-month periods for which information is available or, in the absence of imports of the goods concerned into Spain, on the basis of the unit value of the same goods imported into the Community as at present constituted.

5. Every fixed component applied in trade between the Community as at present constituted and the Kingdom of Spain shall be eliminated in accordance with Article 31.

Every fixed component applied by the Kingdom of Spain to imports from third countries shall be aligned on the fixed component of the Common Customs Tariff duty (or, where appropriate, on the fixed preferential component provided for in the Community generalized system of preferences), in accordance with Articles 37 and 40.

6. Where a reduction in the variable component of the Common Customs Tariff duty is granted to third countries benefiting from the Community generalized system of preferences, the Kingdom of Spain shall apply this variable preferential component as from the date of accession.

Section IV

Trade between the Kingdom of Spain and the Portuguese Republic

Article 54

Article 55

Article 48 of the EEC Treaty shall only apply, in relation to the freedom of movement of workers between Spain and the other Member States, subject to the transitional provisions laid down in Articles 56 to 59 of this Act.

Article 56

1. Articles 1 to 6 of Regulation (EEC) No 1612/68 on the freedom of movement of workers within the Community shall apply in Spain with regard to nationals of the other Member States and in the other Member States with regard to Spanish nationals, only as from 1 January 1993.

The Kingdom of Spain and the other Member States may maintain in force until 31 December 1992, with regard to nationals of the other Member States and to Spanish nationals respectively, national provisions, or those resulting from bilateral arrangements, making prior authorization a requirement for immigration with a view to pursuing an activity as an employed person and/or taking up paid employment.

However the Kingdom of Spain and the Grand Duchy of Luxembourg may maintain in force until 31 December 1995 the national provisions referred to in the preceding subparagraph with regard to Luxembourg nationals and Spanish nationals respectively.

2. As from 1 January 1991 the Council shall, after receiving a report from the Commission, examine the results of the application of the measures of derogation referred to in paragraph 1.

On completion of this examination, the Council, acting unanimously on a proposal from the Commission may, on the basis of new data, adopt provisions intended to adjust the said measures.

Article 57

1. Article 11 of Regulation (EEC) No 1612/68 shall apply until 31 December 1990 in Spain with regard to

nationals of the other Member States and in the other Member States with regard to Spanish nationals under the conditions indicated hereinafter:

However, eligibility for the right referred to above may be limited to the members of Spanish workers' families, installed in another Member State at a previous date defined pursuant to special bilateral arrangements concluded before the date of signature of this Act, concerning the conditions for access to employment of members of the families of Spanish workers after accession.

- (b) The members of workers' families, referred to in Article 10 (1) (a) of the said Regulation, installed in accordance with regulations with the worker in the territory of a Member State after the date of signature of this Act, shall have the right to take up any paid employment there if they have been resident there for at least three years. This period of residence shall be reduced to 18 months as from 1 January 1989.

This paragraph shall be without prejudice to more favourable national provisions or those resulting from bilateral arrangements.

2. The arrangements provided for in paragraph 1 shall also apply to members of the family of a self-employed person installed with him in a Member State.

Article 58

In so far as certain provisions of Directive 68/360/EEC on the abolition of restrictions on movement and residence within the Community for workers of Member States and their families may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to Article 56, the Kingdom of Spain and the other Member States may derogate from those provisions to the extent necessary for the application of the provisions for derogation which are laid down in Article 56 in connection with the said Regulation.

Article 59

The Kingdom of Spain and the other Member States shall take, with the assistance of the Commission, the necessary measures so that the application of the Commission Decision of 8 December 1972 on the uniform system established pursuant to Article 15 of Council Regulation (EEC) No 1612/68, known as 'Sedoc' and

CHAPTER 3

Agriculture

Section I

General provisions

Article 67

1. This Chapter concerns agricultural products with the exception of products falling within Regulation (EEC) No 3796/81 on the common organization of the market in fishery products.

2. Save as otherwise provided for in this Chapter, the rules laid down in this Act shall apply to the agricultural products referred to in paragraph 1.

3. Subject to the specific provisions of this Chapter laying down different dates or shorter time limits, the application of the transitional measures for the agricultural products referred to in paragraph 1 shall terminate at the end of 1995.

Sub-section 1

Price compensation and moves towards price alignment

Article 68

Before the first move towards price alignment referred to in Article 70, the prices to be applied in Spain shall be fixed, in accordance with the rules provided for in the common organization of the market in the sector in question, at a level corresponding to that of prices fixed in Spain under the previous national system, for a representative period to be determined for each product.

If, for a given product, no definition of the Spanish price exists, the price to be applied in Spain shall be calculated on the basis of the prices actually recorded on Spanish markets during a representative period to be determined.

However, in the absence of price data in respect of certain products on the Spanish market, the price to be applied in Spain shall be calculated on the basis of the prices obtaining in the Community as at present constituted of similar products or groups of similar products, or products with which they are in competition.

Article 69

1. In the event that, on accession, it is found that the variation between the price level for a product in Spain

and the common price level is minimal, the common price may be applied in Spain for the product in question.

2. The variation referred to in paragraph 1 shall be considered as minimal where it is less than or equal to 3 % of the common price.

Article 70

1. If the application of Article 68 in Spain results in a price level different from that of the common prices, the prices in respect of which, in Section II, reference is made to this Article shall, subject to paragraph 4, be aligned with the common prices each year at the beginning of the marketing year in accordance with the provisions of paragraphs 2 and 3.

2. Where the price of a product in Spain is lower than the common price, the move towards alignment shall be made in seven stages, the price in Spain, at the time of the first six moves towards alignment, being increased successively, by a seventh, a sixth, a fifth, a quarter, a third and a half of the difference between the price level in that Member State and the common price level which are applicable before each move towards alignment; the price resulting from that calculation shall be increased or reduced proportionately to any rise or fall in the common price for the next marketing year; the common price shall be applied in Spain at the time of the seventh move towards alignment:

3. (a) Where the price of a product in Spain is higher than the common price, the price in that Member State shall be maintained at the level resulting from the application of Article 68, the moves towards alignment resulting from the development of common prices during the seven years following accession.

However, the price in Spain shall be adjusted to the extent necessary to avoid an increase in the variation between that price and the common price.

Moreover, if the Spanish prices, expressed in ECU, fixed under the previous national arrangements for the 1985/86 marketing year have led to an overrun in the variation existing for the 1984/85 marketing year between the Spanish prices and the common prices, the price in Spain resulting from the application of the two preceding subparagraphs shall be reduced by an amount to be determined, equivalent to part of the overrun, so that the overrun is totally absorbed over the first seven marketing years following accession.

Without prejudice to point (b), the common price shall be applied when the seventh move towards adjustment takes place.

- (b) Where the price of a product in Spain is significantly higher than the common price, the Council shall, at the end of the fourth year following accession, carry out an analysis of the development of moves towards price alignment, on the basis of an opinion from the Commission accompanied, where appropriate, by suitable proposals.

The Council, acting by a qualified majority on a proposal from the Commission and after consulting the Assembly, may, in particular, prolong the period for moves towards price alignment within the limits of the maximum duration of the period of application of the transitional measures and decide on other methods of accelerated moves towards price alignment.

4. In the interests of the smooth functioning of the process of integration, it may be decided that, notwithstanding paragraph 2, the price of one or more products in Spain shall, for one marketing year, vary from the prices resulting from the application of that paragraph.

That variation may not exceed 10 % of the amount of the price move to be made.

In that event, the price level for the following marketing year shall be that which would have resulted from applying paragraph 2 if the variation had not been decided upon. A further variation from that price level may, however, be decided upon for that marketing year under the conditions laid down in the first and second subparagraphs.

The derogation laid down in the first subparagraph shall not apply to the last move towards alignment referred to in paragraph 2.

Article 71

Where, on the date of accession or during the period of application of the transitional measures, the price on the world market for a certain product exceeds the common price, the common price may be applied in Spain for the product in question, unless the price applied in Spain is higher than the common price.

Article 72

The differences in price levels in respect of which, in Section II, reference is made to this Article shall be compensated for as follows:

1. For products in respect of which prices are fixed in accordance with Articles 68 and 70, the compensatory amounts applicable in trade between the Community as at present constituted and Spain, and between Spain and third countries, shall be equal

to the difference between the prices fixed for Spain and the common prices.

However, the compensatory amount established in accordance with the rules referred to above shall, where appropriate, be corrected to take into account also the incidence of national aid that the Kingdom of Spain is authorized to maintain under Article 80.

2. No compensatory amount shall, however, be fixed if the application of paragraph 1 results in a minimal amount.

3. (a) In trade between Spain and the Community as at present constituted, compensatory amounts shall be levied by the importing State or granted by the exporting State.

- (b) In trade between Spain and third countries, levies or other import charges applied under the common agricultural policy, and, save for express derogation, export refunds, shall be reduced or increased, as the case may be, by the compensatory amounts applicable in trade with the Community as at present constituted.

Customs duties may not, however, be reduced by the compensatory amount.

4. For products in respect of which the duty in the Common Customs Tariff is bound under the General Agreement on Tariffs and Trade, the binding shall be taken into account.

5. The compensatory amount levied or granted by a Member State in accordance with paragraph 1 may not exceed the total amount levied by that same Member State on imports from third countries, benefiting from the most-favoured-nation clause.

The Council, acting by a qualified majority on a proposal from the Commission, may derogate from this rule, in particular in order to avoid deflections of trade and distortions of competition.

6. The Council, acting by a qualified majority on a proposal from the Commission, may derogate, in so far as is necessary for the proper functioning of the common agricultural policy, from the first subparagraph of Article 53 for products to which compensatory amounts apply.

Article 73

If the world market price for a product is higher than the price used in calculating the import charge introduced under the common agricultural policy, less the compensatory amount deducted from the import

charge in accordance with Article 72 or, if the refund on exports to third countries is less than the compensatory amount or, if no refund is applicable, appropriate measures may be taken with a view to ensuring the proper functioning of the common organization of the market.

Article 74

1. The compensatory amounts granted shall be financed by the Community from the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

2. Expenditure to be made by the Kingdom of Spain with regard to intervention on its internal market and to the granting of refunds or subsidies for exports to third countries and the other Member States shall remain national until 31 December 1989 for products falling under Regulation (EEC) No 1035/72 on the common organization of the market in fruit and vegetables.

However, the Community shall participate in financing intervention operations carried out by the Kingdom of Spain during the verification of convergence phase applicable to those products under the conditions set out in Article 133.

As from the second phase, expenditure on intervention in the Spanish domestic market and on the granting of refunds for exports to third countries shall be financed by the Community under the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

- abolish the customs duties referred to in paragraph 1 or move towards the alignment with customs duties applicable to products other than those referred to in paragraph 2 (a) at a more rapid rate than laid down there,
- suspend in whole or in part the customs duties on products imported from the present Member States,
- suspend in whole or in part the customs duties on products imported from third countries for products other than those referred to in paragraph 2 (a);

(b) the Community as at present constituted shall:

- abolish the customs duties referred to in paragraph 1 at a more rapid rate than laid down there,
- suspend in whole or in part the customs duties on products imported from Spain.

For products which are not subject to the common organization of markets:

(a) no decision is required for the Kingdom of Spain to apply the measures referred to in the first and second indents of point (a) of the first subparagraph; the Kingdom of Spain shall inform the other Member States and the Commission of the measures taken;

(b) the Commission may suspend in whole or in part the customs duties applicable to products imported from Spain.

The customs duties resulting from an accelerated alignment or suspended customs duties may not be less than the customs duties on imports of the same products from other Member States.

5. Should special difficulties arise on the market of products falling within subheadings 15.17 B II and 23.04 B of the Common Customs Tariff, the Kingdom of Spain may be authorized, in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC to:

- (a) defer the reduction to be made, under point 1 (c), to import duties in the Community as at present constituted;
- (b) defer the reduction to be made, under point 2 (b), to the variation existing between its

basic duties and the Common Customs Tariff duties;

- (c) increase, during such time as is strictly necessary to eliminate the difficulties encountered, the import duties referred to above in points (a) and (b).

Article 76

1. The system applicable in the Community as at present constituted in respect of customs duties and charges having equivalent effect and quantitative restrictions and measures having equivalent effect in trade between Spain and the other Member States and between Spain and third countries shall apply in Spain from 1 March 1986, subject to any provision to the contrary in this Chapter, in respect of products covered, on the date of accession, by the common organization of markets.

2. In respect of products not covered, on 1 March 1986, by the common organization of markets, the provisions of Title II of Part Four concerning the elimination of charges having equivalent effect to customs duties and the progressive abolition of quantitative restrictions and measures having equivalent effect shall not apply to those charges, restrictions and measures if they form part of a national market organization in Spain or in another Member State on the date of accession.

This provision shall only apply until the common organization of the market for these products is implemented and not later than 31 December 1995 and to the extent strictly necessary to ensure the maintenance of the national organization.

3. The Kingdom of Spain shall apply the Common Customs Tariff nomenclature as from 1 March 1986.

To the extent that no difficulties arise in the application of the Community rules and, in particular, in the functioning of the common organization of markets and of the transitional mechanisms provided for in this Chapter, the Council, acting by a qualified majority on a proposal from the Commission, may authorize the Kingdom of Spain to include within this nomenclature such existing national subdivisions as would be indispensable for carrying out the progressive moves towards alignment with the Common Customs Tariff or the elimination of the duties within the Community under the conditions laid down in this Act.

Article 77

Without prejudice to Article 94, the Kingdom of Spain may, in accordance with detailed rules to be determined, maintain quantitative restrictions on the import from third countries:

Article 78

1. The component for protection of the processing industry which is used in calculating the charge on imports from third countries of products covered by the common organization of the markets in cereals and rice

shall be levied on imports from Spain into the Community as at present constituted.

2. For imports into Spain, the amount of that component shall be determined by separating out, from the protection applied on 1 January 1985, the component

or components designed to ensure the protection of the processing industry; however, this amount may not exceed the level of the Community protection component fixed for that product. If specific difficulties of quantification do not allow the determination of the protection component applicable in Spain, that Member State shall immediately apply the Community protection component.

Such components shall be levied on imports from other Member States; they shall replace, as regards the charge on imports from third countries, the Community protection component.

3. Article 75 shall apply to the component referred to in paragraphs 1 and 2, which shall be considered as the basic component. The reductions or alignments in question shall, however, be made in eight stages by 12,5 % at the beginning of the eight marketing years following accession fixed for the basic product concerned.

Sub-section 3

Aid

Article 79

1. The provisions of this Article shall apply to aids, premiums or other similar amounts set up under the common agricultural policy in respect of which reference is made to this Article in Section II.

2. For the purposes of applying Community aid in Spain, the following provisions shall apply:

- (a) The level of Community aid to be granted for a given product in Spain from 1 March 1986 shall be equal to an amount defined on the basis of aids granted by the Kingdom of Spain, during a representative period to be determined, under the previous national arrangements.

However, that amount may not exceed the amount of aid granted on 1 March 1986 to the Community as at present constituted.

If no similar aid was granted under the previous national arrangements, and subject to the following provisions, no aid shall be granted in Spain on 1 March 1986.

- (b) At the start of the first marketing year, or in absence thereof, of the first period of application of the aid following accession:

- either Community aid shall be introduced in Spain at a level representing one-seventh of the amount of Community aid applicable for the ensuing marketing year or period,

- or the level of Community aid in Spain shall, where a difference exists, be aligned on the level of aid applicable in the Community as at present constituted for the ensuing marketing year or period by one-seventh of the difference existing between those two aids.

- (c) At the start of the following marketing years or periods of application, the level of Community aid in Spain shall be aligned on the level of aid applicable in the Community as at present constituted for the ensuing marketing year or period successively by one-sixth, one-fifth, one-quarter, one-third and half the difference existing between those two aids.

- (d) The level of Community aid shall be applied in its entirety in Spain at the start of the seventh marketing year or period of application of the aid following accession.

Article 80

1. Without prejudice to Article 79, the Kingdom of Spain shall be authorized to maintain national aids, the abolition of which would not fail to have serious consequences both for producer and consumer prices. However, such aids can only be maintained on a transitional and, in principle, degressive basis, until not later than the end of the period of application of the transitional measures.

2. The Council, acting under the conditions set out in Article 91, shall adopt the necessary measures for the implementation of the provisions of this Article. These measures shall include in particular the list and the exact wording of the aids referred to in paragraph 1, the amount of the aids, the timetable of their abolition, any degressivity scale and the detailed rules necessary to ensure the proper functioning of the common agricultural policy; these detailed rules must, in addition, ensure equal access to the Spanish market.

3. Should the need arise, a derogation may be made, during the period of application of the transitional measures, from the degressivity scale referred to in paragraph 2.

Sub-section 4

Supplementary trade mechanism

Article 81

1. A supplementary mechanism applicable to trade between the Community as at present constituted and Spain shall be set up, hereinafter referred to as 'the STM'.

The STM shall apply from 1 March 1986 to 31 December 1995, with the exception of the products referred to in the first indent of paragraph 2 (a) and point (b) (cc) to which it shall apply from 1 January 1990 to 31 December 1995.

- (a) Products from the wine sector, new potatoes and milk in powder or granules intended for human consumption at the start of the second year following accession and at the start of each of the following years.
- (b) Fruit and vegetables, at the latest nine months before the expiry of the fourth year following accession and of the start of each of the following years.
- (c) The other products referred to in paragraph 2 (b), as from the fifth year following accession and at the start of each following year.

With regard to those products, account will be taken in particular of the situation at the level of the production and marketing structure of the products in question.

4. A decision may be made, in accordance with the procedure laid down in Article 11 of Regulation (EEC) No 2358/71 on the common organization of the market in seeds, the Management Committee set up by that Regulation having competence in the matter, to submit to the STM, for the period 1 March 1986 to 31 December 1989, imports into Spain of certified seed potatoes of lesser quality falling within subheading ex 07.01 A I of the Common Customs Tariff.

5. Should especial difficulties be experienced a decision may be made, at the request of the Kingdom of Spain and in accordance with the procedure laid down in Article 82, to supplement the list of products subject to the STM on import into Spain with regard to those products falling within Regulation (EEC) No 1035/72 not referred to in paragraph 2 (b).

6. The Commission shall submit at the beginning of each year a report to the Council on the functioning of the STM during the previous year.

Article 82

1. An *ad hoc* Committee shall be established consisting of representatives of the Member States and presided over by a representative of the Commission.

2. Within the *ad hoc* Committee the votes of Member States shall be weighted in accordance with Article 148 (2) of the EEC Treaty. The chairman shall not vote.

3. Where the procedure laid down in this Article is to be followed, the chairman shall refer the matter to the *ad hoc* Committee, either on his own initiative or at the request of the representative of a Member State.

4. The representative of the Commission shall submit a draft of the measures to be adopted. The Committee shall deliver its opinion on the draft within a time limit set by the chairman according to the urgency of the matter. An opinion shall be delivered by a majority of 54 votes.

5. The Commission shall adopt the measures and shall apply them immediately, where they are in accordance with the opinion of the Committee. If they are not in accordance with the opinion of the Committee or in the absence of any opinion, the Commission shall forthwith submit to the Council a proposal relating to the measures to be taken. The Council shall adopt the measures on a qualified majority.

If, on the expiry of one month from the date on which the matter was referred to it, the Council has not adopted any measures, the Commission shall adopt the proposed measures and apply them immediately, save in the case where the Council has decided by a simple majority against the said measures.

Article 83

1. At the start of each marketing year, a forward estimate shall be drawn up, following the procedure set out in Article 38 of Regulation No 136/66/EEC or, as the case may be, the corresponding Articles of the other Regulations on the common organization of agricultural markets, for each of the products subject to the STM. For new potatoes the estimate shall be drawn up in accordance with procedure set out in Article 33 of Regulation (EEC) No 1035/72, the Management Committee set up by that Regulation having competence in the matter.

This estimate shall be drawn up on the basis of production and consumption estimates in Spain or in the Community as at present constituted; on the basis of this estimate, a forward timetable shall be drawn up for the marketing year in question in accordance with the same procedure on development in trade and on fixing an indicative import ceiling in the market in question.

A specific estimate shall be drawn up for the period running from 1 March 1986 until the beginning of the 1986/87 marketing year for each of the products or groups of the products.

2. The successive fixing of indicative ceilings must reflect a certain steady progress in relation to traditional trade flows, so as to ensure a harmonious and gradual opening up of the market and the full realization of free movement within the Community on the expiry of the period of application of transitional measures.

To that end, an annual rate of progress for the ceiling shall be determined in accordance with the procedure referred to in paragraph 1. Within the framework of the overall indicative ceiling, ceilings may be fixed corresponding to the different periods of the marketing year in question.

Article 84

1. Until 31 December 1989, when the timetable referred to in Article 83 is drawn up, a 'guide' quantity shall be determined, for imports into Spain:

- of the products referred to in Article 81 (2) (b) (bb), with the exception of those falling within heading ex 04.02 of the Common Customs Tariff,
- the products referred to in Article 81 (2) (b) (dd).

2. The 'guide' quantity applicable to 1986 and its progress for each of the following three years in relation to the previous year shall be:

A decision may be made, in accordance with the procedure laid down in Article 30 of Regulation (EEC) No 804/68 on the common organization of the market in milk and milk products or, as the case may be, in the corresponding Articles of other common organizations of the market concerned, that the 'guide' quantities referred to above shall be expressed in compliance with the requirements of each common organization of the market taking into account the detailed rules for drawing up the forward estimate referred to in Article 83.

3. If necessary, a division of the 'guide' quantities referred to above between the various products shall be carried out, as the case may be, by following the procedure set out in paragraph 2.

4. During the period concerned, the 'guide' quantity may not be exceeded, unless it is so decided in accordance with, as the case may be, the procedure referred to in paragraph 2.

When such a decision is taken, account shall in particular be taken, in the light of the forward estimate for the product in question, of the trends in the internal

Spanish demand and of the development of market prices in Spain.

Article 85

1. Without prejudice to Article 84 (4), should the examination of developments in intra-Community trade show that a significant increase in imports has taken place or is forecast and if that situation should result in the indicative import ceiling for the product being reached or exceeded for the current marketing year or part thereof, the Commission, at the request of a Member State or on its own initiative, shall decide, in accordance with emergency procedures, on:

- the interim protective measures that are necessary and which shall apply until the entry into force of the definitive measures provided for in paragraph 3,
- convening the Management Committee of the sector concerned, with a view to examining appropriate measures.

2. Should the situation referred to in the preceding paragraph cause a serious disturbance on the market, a Member State may request the Commission to take the interim protective measures referred to in paragraph 1 immediately. To that end, the Commission shall take a decision within 24 hours of receiving the request.

If the Commission does not take a decision within that period, the requesting Member State may take interim protective measures, which shall be immediately notified to the Commission.

These measures shall remain applicable until such time as the Commission has acted on the request referred to in the first subparagraph.

3. Definitive measures shall be adopted as soon as possible in accordance with the procedure set out in Article 38 of Regulation No 136/66/EEC or, as the case may be, in the corresponding Articles of other Regulations on the common organization of agricultural markets.

These measures may include:

- (a) either, the revision of the indicative ceiling, if the market in question has not suffered significant disturbances following the development of imports;
- (b) or, based on the seriousness of the situation, assessed in particular on the basis of the trend in market prices and the quantities forming the subject of trade, the limitation or suspension of imports on to the market of the Community as at present constituted or on to the Spanish market.

The restrictive measures referred to in (b) may only be taken to the extent and for such time as is strictly necessary to put an end to the disturbance. With regard to the Community as at present constituted, those measures may be limited to imports intended for certain of its regions, provided that they include appropriate provisions to avoid deflections of trade.

4. The application of the STM may in no event lead to products coming from Spain or from the Community as at present constituted being treated in a less favourable manner than those coming from third countries benefiting from the most-favoured-nation clause, which are sold in the regions concerned.

Sub-section 5

Other provisions

Article 86

Any stock of products in free circulation in Spanish territory on 1 March 1986 which in quantity exceeds what

may be considered representative of a normal carry-over stock must be eliminated by and at the expense of the Kingdom of Spain under Community procedures to be specified and within time limits to be determined under the conditions provided for in Article 91. The concept of normal carry-over stock shall be defined for each product on the basis of criteria and objectives particular to each common organization of the market.

Article 87

In fixing the level of the various amounts laid down within the common agricultural policy, except for the prices referred to in Article 68, account shall be taken of the compensatory amount applied or, in the absence thereof, of the difference in prices recorded or economically justified and, where appropriate, of the incidence of customs duties, except in the following circumstances:

- where there is no likelihood that trade will be disturbed, or
- where the smooth running of the common agricultural policy requires that this amount, difference or incidence be not taken into account or renders such taking into account undesirable.

Article 88

1. The Council, acting in accordance with the conditions provided for in Article 91, shall adopt the arrangements applicable by the Kingdom of Spain with regard to the Portuguese Republic.

2. The measures necessary in trade between the new Member States and the Community as at present constituted, for the implementation of the arrangements referred to in paragraph 1, shall be adopted, as the case may be, under the conditions laid down in Article 91 or following the procedure laid down in Article 89 (1).

Article 89

1. Except where otherwise provided for in specific cases, the Council, acting by a qualified majority on a proposal from the Commission, shall adopt the provisions necessary for implementing this Chapter.

These provisions may in particular lay down adequate measures to avoid deflection of trade in trade between Spain and the other Member States.

2. The Council, acting unanimously on a proposal from the Commission and after consulting the Assembly, may make the adaptations to the provisions appearing in this Chapter which may prove to be necessary as a result of a modification in Community rules.

Article 90

1. If transitional measures are necessary to facilitate the passage from the existing arrangements in Spain to those resulting from the application of the common organization of the markets as provided for in this Chapter, particularly if for certain products the implementation of the new arrangements on the scheduled date meets with appreciable difficulties in the Community, such measures shall be adopted following the procedure provided for in Article 38 of Regulation No (EEC) 136/66 or, as the case may be, in the corresponding Articles of the other Regulations on the common organization of agricultural markets. Such measures may be taken during the period up to 31 December 1987, but their application may not extend beyond that date.

2. The Council may, acting unanimously on a proposal from the Commission and after consulting the Assembly, extend the period referred to in paragraph 1.

Article 91

1. The transitional measures concerning the application of the acts relating to the common agricultural policy and not specified in this Act of Accession, including structures, which are rendered necessary by accession, shall be adopted before accession in accordance with the procedure provided for in paragraph 3 and shall enter into force at the earliest on the date of accession.

2. The transitional measures referred to in paragraph 1 shall be those mentioned in Articles 75 (3), 80, 86, 88, 126 and 144.

3. The Council, acting by a qualified majority on a proposal from the Commission, or the Commission, taking a decision in accordance with the procedure referred to in Article 90 (1), shall adopt the transitional measures referred to in paragraph 1 according to which of these two institutions adopted the original acts to which they refer.

*Section II**Provisions relating to certain common organizations of markets**Sub-section 1**Oils and fats**Article 92*

1. For olive oil, the provisions of Articles 68 and 72 shall apply to the intervention price.

2. During the transitional period of 10 years, the price thus fixed for Spain shall be aligned on the level of the common price each year at the beginning of each marketing year in accordance with the following procedures:

- Until the entry into force of the adjustment of the 'acquis communautaire', the price in Spain shall be aligned each year by one-twentieth of the original variation between this price and the common price.
- As from the entry into force of the adjustment of the 'acquis communautaire', the price in Spain shall be corrected by the difference existing between the price in that Member State and the common price, as applicable before each move towards alignment, divided by the number of marketing years still to run until the end of the period of application of the transitional measures; the price resulting from this calculation shall be adapted in proportion to any change in the common price for the marketing year to come.

3. The Council, acting in accordance with the procedure provided for in Article 43 (2) of the EEC Treaty, shall establish that the condition required for the application of the second indent of paragraph 2 is fulfilled. The move towards alignment of the price shall be effected in accordance with the latter provision from the beginning of the marketing year following such establishment.

4. The compensatory amount resulting from application of Article 72 shall be adapted, should the need arise, on the basis of the difference between Community aid for consumption applicable in the Community as at present constituted and in Spain.

Article 93

1. For oil seeds, Article 68 shall apply to the target prices for colza, rape and sunflower seeds and to the guide price for soya beans.

For linseed, the guide price applicable in Spain on 1 March 1986 shall be fixed on the basis of the variation existing between the prices of competitive products in rotation cropping in Spain and in the Community as at present constituted, over a reference period to be determined. However, the guide price to be applied in Spain may not be higher than the common price.

2. For the period during which the transitional measures are applied, the prices thus fixed for Spain shall be aligned on the level of the common prices each year at the beginning of the marketing year. The move towards alignment shall take place in 10 stages, the provisions of Article 70 being applied *mutatis mutandis*.

3. The intervention prices for colza, rape and sunflower seeds and the minimum price for soya beans, applicable in Spain, shall be derived respectively from the target price and the guide price, as referred to in the paragraphs 1 and 2, in accordance with the provisions of the common organization of the market concerned.

4. Until 31 December 1990, in trade in processed oil products falling within Regulation No 136/66/EEC, with the exception of processed olive oil products and with the exception of products falling within heading No 15.13 of the Common Customs Tariff, appropriate measures shall be adopted to take account of the difference in the prices of these oils in Spain and in the Community as at present constituted.

Article 94

1. The Kingdom of Spain shall apply, until 31 December 1990 and in accordance with detailed rules to be determined, a system for the control of:

(a) quantities of products referred to in:

- point (a), excluding soya beans falling within subheading ex 12.01 B of the Common Customs Tariff,
- point (b), excluding products falling within subheadings 15.17 B II and 23.04 B of the Common Customs Tariff,

of Article 1 (2) of Regulation No 136/66/EEC, on the Spanish domestic market, in order to maintain those quantities at a level established on the basis of average consumption reached in Spain during the years 1983 and 1984, that level being adjusted on the basis of foreseeable trends in supply requirements;

(b) the level of consumer prices for the oils referred to in (a) and for margarine, in such a way as to maintain — until 31 December 1990 — in principle the price level, expressed in ECU, reached during the 1984/85 marketing year.

The control system referred to in (a) consists in the replacement on 1 March 1986 of the trade arrangements applied to imports in Spain by a system of quantitative restrictions on imports opened without discrimination between economic operators, both with regard to the Community as at present constituted and to third countries.

2. Until 31 December 1990, the import of soya beans into Spain shall be subject to an undertaking to export the oils obtained from their crushing and products

beyond the quantity admitted on the Spanish market under paragraph 1 (a).

3. Should exceptional circumstances arise, the control system defined in this Article may be amended, for the products subject thereto, to the extent necessary to avoid imbalances on the markets for the various oils.

These amendments shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC;

Article 95

1. Community aid for the production of olive oil shall apply in Spain as from 1 March 1986. This aid shall be fixed for the first time and shall be aligned, for the period during which the transitional measures are applied, on the level of aid granted in the Community as at present constituted, the provisions of Article 79 being applied *mutatis mutandis*.

Community aid for the consumption of olive oil shall be introduced in Spain, from 1 January 1991, following a timetable to be determined, to the extent necessary to reach the common level by the end of the period during which transitional measures are applied.

2. Aid for colza, rape and sunflower seeds, for soya beans and for linseed, produced in Spain, shall be:

- introduced in Spain as from the beginning of the first marketing year following accession, and
- increased thereafter, during the period of application of the control mechanism referred to in Article 94 (1),

on the basis of the move towards alignment, as the case may be, of the target price or the guide price applicable in Spain on the level of the common price.

On expiry of the period referred to in the foregoing subparagraph, the aid granted in Spain shall be equal to the difference between the target price or the guide price applicable in that Member State and the price on the world market, with this difference being reduced by the incidence of the customs duties applied by the Kingdom of Spain on the import of products from third countries.

3. Aid for the seeds and beans referred to in paragraph 2, produced in Spain and processed in the Community as at present constituted, and the aid for the same seeds and beans produced in the Community as at present constituted and processed in Spain, shall be

adjusted to take account of the respective difference between the level of the prices of these seeds and beans and that of seeds and beans imported from third countries.

4. Furthermore, when the aid for colza, rape and sunflower seeds is calculated, account shall be taken of any differential amount which may be applicable.

Article 96

During the 1986/87 to 1994/95 marketing years, specific guarantee thresholds shall be fixed for colza and rape seeds and for sunflower seeds produced in Spain.

These specific guarantee thresholds shall be determined on the basis of criteria actually comparable to those adopted for the fixing of guarantee thresholds in the Community as at present constituted, taking into consideration the highest level of production recorded during one of the following marketing years: 1982/83, 1983/84 and 1984/85.

Where a specific guarantee threshold is exceeded, the co-responsibility penalties shall be applied according to procedures which are similar to those applied in the Community as at present constituted and with the same ceiling.

Article 97

1. Once the control system referred to in Article 94 has expired, the Kingdom of Spain shall apply the preferential, contractual or autonomous arrangements applied by the Community with regard to third countries in the olive oil sector, the oil seeds and oil fruits sector and in that of products derived therefrom.

2. From 1 January 1991, the Kingdom of Spain shall apply a duty reducing the variation between the rate of duty actually applied on 31 December 1990 and the preferential rate of duty in accordance with the following timetable:

- on 1 January 1991, the variation shall be reduced to 83,3 % of the initial variation,
- on 1 January 1992, the variation shall be reduced to 66,6 % of the initial variation,
- on 1 January 1993, the variation shall be reduced to 49,9 % of the initial variation,
- on 1 January 1994, the variation shall be reduced to 33,2 % of the initial variation,

- on 1 January 1995, the variation shall be reduced to 16,5 % of the initial variation.

The Kingdom of Spain shall apply the preferential rates in their entirety from 1 January 1996.

Subsequently the difference which exists between these prices and the corresponding prices calculated according to the rules provided for in the common organization of the markets on the basis of the guaranteed price for milk applicable in Spain throughout the representative period referred to in the first subparagraph shall be progressively reduced so that it is equal to half the initial difference on the fourth move towards alignment and totally eliminated on the seventh such move.

For the products benefiting from the aid arrangements provided for in Article 3 of Regulation (EEC) No 516/77 on the common organization of the market in fruit and vegetable processed products, the following provisions shall apply in Spain:

1. Until the first move towards alignment of the prices referred to in Article 70, the minimum price referred to in Article 3b of Regulation (EEC) No 516/77 shall be established on the basis:
 - of the price fixed in Spain under the previous national arrangements for the product intended for processing, or

- in the absence of such a price, of the prices paid in Spain to producers for the product intended for processing, as recorded during a representative period to be determined.

2. Where the minimum price referred to in paragraph 1 is:

- lower than the common price, the price in Spain shall be modified at the beginning of each marketing year following accession, according to the procedures provided for in Article 70,
- higher than the common price, the common price shall be adopted on accession for Spain.

3. (a) For processed tomato products for the first four marketing years following accession, the amount of Community aid granted in Spain shall be derived from the aid calculated for the Community as at present constituted, bearing in mind the difference of the minimum producer prices resulting from the application of paragraph 2, before this last mentioned aid is reduced possibly as a result of the guarantee threshold fixed for these products in the Community as at present constituted being exceeded.

Where the threshold in the Community as at present constituted is exceeded, if this proves necessary to ensure normal conditions for competition between Spanish industries and those of the Community, it shall be decided, in accordance with the procedure provided for in Article 20 of Regulation (EEC) No 516/77, that a compensatory amount, at the most equal to the difference between the aid fixed for Spain and that which would have been derived from the fixed Community aid, will be applied in accordance with Article 72 (3) (a) and levied by the Kingdom of Spain on exports to third countries. However, on the expiry of the arrangements referred to in Regulation (EEC) No 1320/85, no compensatory amount shall be levied where it is proved that the Spanish product did not benefit from Community aid granted in Spain.

In no case may the aid applicable in Spain exceed the amount of aid granted in the Community as at present constituted.

(b) During the first four marketing years following accession, the grant of Community aid in Spain shall be limited, for each marketing year, to a quantity of processed products corresponding to a quantity of fresh tomatoes of:

- 370 000 tonnes for the manufacture of tomato concentrate,

- 209 000 tonnes for the manufacture of whole peeled tomatoes,
- 88 000 tonnes for the manufacture of other tomato products.

At the end of this period, the quantities fixed above, adjusted on the basis of any alteration to Community thresholds made during that period, shall be taken into consideration for fixing Community thresholds.

4. During the fifth and sixth marketing years following accession, for tomato based products, and for the other products during the six marketing years following accession, the amount of the Community aid granted in Spain shall be derived from the aid fixed for the Community as at present constituted, bearing in mind the difference of the minimum prices resulting from the application of paragraph 2.

However, for products other than tomato products, in cases where the processing costs recorded in Spain for a product during a representative period to be determined, under the previous national arrangements, are lower by at least 10 % than the processing costs obtaining in the Community as at present constituted, the aid granted in Spain for this product shall be derived bearing in mind also the difference in the processing costs recorded. The processing costs recorded in Spain shall be progressively aligned on the costs recorded in the Community as at present constituted, in accordance with the same rules as those referred to in Article 70 for the move towards alignment of prices.

5. Community aid shall be applied in full in Spain as from the beginning of the seventh marketing year following accession.
6. For peaches in syrup, for the first four marketing years following accession, the grant of Community aid in Spain shall be limited to a quantity of 80 000 tonnes of the finished product expressed in net weight.

The financial compensation shall be that of the Community as at present constituted less, where appropriate, the difference between on the one hand the common minimum price and on the other the minimum price applicable in Spain.
2. For subsequent price fixing, the minimum price applicable in Spain shall be aligned on the common minimum price according to the provisions of Article 70. The financial compensation applicable in Spain at each stage of the move towards alignment shall be that of the Community as at present constituted less, where appropriate, the difference between on the one hand the common minimum price and on the other the minimum price applicable in Spain.
3. However, where the minimum price resulting from the application of paragraph 1 or 2 is higher than the common minimum price, the latter price may be adopted definitively for Spain.
4. For the first four marketing years following accession, the quantities eligible for aid for processing shall be limited to a quantity of processed products corresponding to a quantity of raw materials amounting to:

Without prejudice to the application of the first subparagraph, the amount of the aid concerned for a product processed in Spain shall be reduced by the incidence of the customs duties applied in Spain on the import of soya cake from third countries.

The deductions referred to in the first and second subparagraphs shall be the result of the application of the percentages referred to in Article 3 (1) of Regulation (EEC) No 1431/82.

3. The amount of the aid referred to in Article 3 (2) of Regulation (EEC) No 1431/82 for peas and field beans harvested in Spain and used in human or animal consumption otherwise than as provided for in paragraph 1 of that Article, shall be reduced by an amount equal to the difference which exists, where one arises, between the guide price applied in Spain and the common guide price.

Without prejudice to the application of the first subparagraph, the amount of the aid concerned for a product processed in Spain shall be reduced by the incidence of the customs duties applied in Spain on the import of these products from third countries.

Article 122

1. Until the first move towards alignment of the prices referred to in Article 70:

- the guide price applicable in Spain for red table wine shall be derived from the guide price for white table wine by applying the same relationship as that existing in the Community as at present constituted between the guide prices of table wines of types A I and R I,
- the purchase price for the table wines referred to in the first indent shall be fixed at the level of the regulatory compulsory distillation price applied in Spain under the previous national arrangements over a representative period to be determined,

- without prejudice to the first indent of Article 41 (6) of Regulation (EEC) No 337/79, as concerns the relationship between the guide price and the price referred to in the third indent of paragraph 1, the level of the price corresponding to the 40 % referred to in the second indent of Article 41 (6) of Regulation (EEC) No 337/79 shall be attained in accordance with the rate referred to in the first indent of this paragraph.

2. This mechanism shall be governed by the following rules:

- (a) For table wines, a regulatory amount equal to the difference between the guide prices in Spain and in the Community as at present constituted shall be levied. However, the level of this amount may be adapted according to the procedure provided for in Article 67 of Regulation (EEC) No 337/79 to take account of the situation of market prices as assessed according to the different categories of wines and on the basis of their quality.
- (b) For wines with an appellation as to origin and for the other products likely to create disturbances on the market, a regulatory amount may be fixed according to the procedure provided for under (a). This regulatory amount shall be derived from that applicable to table wines according to procedures to be determined.

3. The regulatory amount shall be fixed at a level which ensures conditions under which treatment is no less favourable than those in force under the arrangements prior to accession. To this end, this amount shall be calculated in such a way that the amount obtained by increasing the guide price in Spain for the product concerned by the regulatory amount and by the customs duty applicable to it does not exceed the reference price in force for the product during the wine growing year concerned.

4. Bearing in mind the special situation of the market in the various products referred to in paragraph 2, a decision may be taken according to the procedure provided for in Article 67 of Regulation (EEC) No 337/79, to fix a regulatory amount for the export of

one or more of these products from the Community as at present constituted to Spain.

The amount shall be fixed at a level ensuring a normal trade pattern between the Community as at present constituted and Spain, which does not create any disturbances on the Spanish market for the products concerned.

5. The regulatory amount granted shall be financed by the Community by means of the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

Article 124

For the purposes of applying, until the 1989/90 marketing year expires, the compulsory distillation referred to in Article 41 of Regulation (EEC) No 337/79, the amount of average production of table wines and of products upstream of the table wine intended for the wine making stage, obtained in the various production regions in Spain over the three consecutive reference years, shall be fixed at 27,5 million hectolitres.

The product of this coupage may circulate only in Spanish territory.

2. For the period referred to in paragraph 1, coupage, in the Community as at present constituted, of Spanish wines other than white table wines, with wines of the other Member States, shall be prohibited, save in exceptional cases to be determined.

1. Until the end of 1995, table wines coming from areas under vines on 1 January 1985 in the regions of Asturias, Cantabria, Galicia, Guipúzcoa and Vizcaya, and for which the list is to be determined under the conditions laid down in Article 91, may have an actual alcoholic strength of not less than 7 % vol.

For wines whose actual alcoholic strength is less than 9 % vol, an indication of that strength must appear on the labelling.

2. Table wines referred to in paragraph 1 may circulate only in Spanish territory.

1. In order that the Spanish fruit and vegetables sector may be harmoniously and completely integrated into the framework of the common agricultural policy at the end of the first phase, the Kingdom of Spain shall progressively adjust the organization of its domestic market on the basis of the general objectives defined in paragraph 2.

2. The general objectives to be achieved shall be the following:

- the progressive application of quality standards to all the products concerned and strict application of the requirements arising therefrom,
- the development of producer groups within the meaning of Community rules,

- the setting up of a body and creation of a material and human infrastructure suitable for carrying out public intervention operations provided for under Community rules,
- the setting up of a network for the daily recording of prices on representative markets to be defined on the basis of the various products,
- the liberalization of trade with a view to introducing a system of free competition and of free access to the Spanish market and of adaptation of the 'sectoral trade adjustments' to exports in order to make them compatible with the requirements of freedom of movement.

3. In order to favour the realization of the general objectives:

- (a) the Community rules in the socio-structural field, including those relating to producer organizations shall apply in Spain from accession;
- (b) the Community shall participate in financing intervention operations carried out in Spain during the first phase by producer organizations for products complying with common quality standards.

However, the rate of this Community financial participation shall be limited for each product to the rate of production covered by producer organizations in Spain, which are recognized by the Commission as complying with Community rules both with regard to the terms of their constitution and the conditions of their operation.

The Commission shall record for each marketing year the rate of cover referred to in the previous subparagraph; to that end it shall carry out on-the-spot checks in cooperation with the Spanish authorities.

Article 134

1. In order to realize the general objectives, the Commission shall, during the interim period and in close cooperation with the Spanish authorities, draw up an action programme.

2. Thereafter the Commission shall closely follow the development of the situation in Spain in the light of:

- progress made in the realization of the objectives fixed,
- results obtained by the implementation of horizontal or specific structural measures.

3. The Commission shall express its opinion on that development in reports that it shall forward to the Council:

- at the end of the interim period with a view to establishing a record of the development that occurred before the date of accession,

- in good time before the end of the fourth year following accession,
- at any other time it may deem it useful or necessary.

4. Taking special account of the Council's discussions on the reports referred to in paragraph 3, the Commission may, if necessary, make recommendations to the Kingdom of Spain with regard to measures that should be undertaken in order to achieve the objectives in question.

Article 135

During the first phase, the Kingdom of Spain shall apply the following disciplines:

1. A price discipline:

(a) The Kingdom of Spain shall fix, on accession, institutional prices for the products for which common prices exist in accordance with criteria that are as close as possible to those defined under the common organization of markets on the basis of a reference period to be determined at a level corresponding to economic realities.

(b) Where these Spanish prices, expressed in ECU, are less than or equal to the common prices, the annual price increases may not, as a rule, exceed in value the increase in common prices.

In no event may the Spanish prices exceed the level of common prices.

(c) Where the Spanish prices, expressed in ECU, are higher than the common prices, they may not be increased in relation to their previous level. Furthermore the Kingdom of Spain shall adjust its prices to the extent necessary to avoid an increase in the variation between its prices and the common prices.

(d) The Kingdom of Spain may adjust its prices where market interventions reach an unjustified volume. In that case the adjusted price shall replace the original price for the application of the rules appearing in (b) and (c).

(e) The Commission shall ensure the observance of the rules referred to above. Any overrun of the price level resulting from the application of these rules shall not be taken into consideration for the determination of the price level to be adopted as the starting level for moves towards price alignment during the second phase referred to in Article 148.

2. An aid discipline:

Under this discipline, the Kingdom of Spain shall be authorized to maintain its national aid during the first phase.

However, during that period, the Kingdom of Spain shall ensure that a certain dismantling of national aids which do not comply with Community law takes place and that the Community aid plan is progressively introduced in the organization of its domestic market without the level of such aids exceeding the common level.

3. A production discipline:

Under this discipline, the Kingdom of Spain shall apply the same production disciplines as those which are, where appropriate, applicable in the other Member States or in those Member States which find themselves in a comparable situation with regard to such a discipline.

B. *Arrangements applicable in trade between the Community as at present constituted and Spain*

Article 136

1. Subject to Articles 75 and 137 to 139, the Kingdom of Spain shall be authorized to apply in its trade with the Community as at present constituted, during the first phase, for the products referred to in Article 131, the arrangements in force before its accession for that trade, both with regard to imports and exports.

2. During the first phase, and subject to Articles 75 (2) and 140, the Community as at present constituted shall apply, to the import of the products referred to in Article 131 coming from Spain, the arrangements which it applied to Spain before accession.

application of all quantitative restrictions and all measures having equivalent effect and all charges having equivalent effect to customs duties on imports of products referred to in Article 131 coming from the Community as at present constituted.

2. Until 31 December 1989, the Kingdom of Spain may maintain quantitative restrictions on imports coming from the Community as at present constituted of the following products and for periods of application during the marketing year to be determined:

- either at 3% of the average of Spanish production, over the past three years before accession for which statistics are available,
- or at the average of Spanish imports made over the past three years before accession for which statistics are available, if this latter criterion results in a greater volume.

(c) The minimum rate of progressive increase of the quotas shall be 10 % at the beginning of each year.

The increase shall be added to each quota and the following increase shall be calculated on the total figure obtained.

(d) Where imports into Spain during two consecutive years are less than 90 % of the annual quota opened, the Kingdom of Spain shall abolish the quantitative restrictions in force.

2. In trade between the Community as at present constituted and third countries, during the first phase, the prices of Spanish products shall not be used for the purpose of calculating reference prices.

Article 141

1. During the first phase, the Community as at present constituted shall not, in principle grant export refunds on exports of products referred to in Article 131 to Spain.

However, where the granting of such refunds appears necessary the amount thereof shall be limited to not more than the variation between institutional prices or, in the absence thereof, to the variation between prices recorded in the Community as at present constituted and Spain and, where appropriate, to the amount of customs duty.

Such refunds may not be fixed until the consultation procedure referred to in Article 142 has taken place.

2. The refunds referred to in this Article shall be financed by the Community under the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

Article 142

The implementation by the Kingdom of Spain of the aids or subsidies referred to in Article 138 or by the Community of the refunds referred to in Article 141 shall be subject to prior consultations which shall take place in accordance with the following procedure:

1. Any proposal for fixing:
 - a subsidy for exports from Spain to the Community as at present constituted or to third countries, or
 - a refund for exports from the Community as at present constituted to Spain,

shall form the subject of an exchange of views within the framework of periodical meetings of the Management Committee set up by Regulation (EEC) No 1035/72.

2. The Commission representative shall submit the proposal referred to in point 1 for examination; this examination shall concern itself in particular with the economic aspect of the exports envisaged and with the situation and the level of prices on the Spanish market, on that of the Community as at present constituted or on the world market.
3. The Committee shall deliver an opinion on the proposal within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by a majority of 54 votes.

The opinion shall be forthwith forwarded to the competent authority for fixing, namely the Kingdom of Spain or the Commission, as the case may be.

*C. Arrangements applicable in trade between Spain and third countries**Article 143*

For the products referred to in Article 131 and subject to the provisions referred to in Article 137, the Kingdom of Spain shall apply, from 1 March 1986, the Community rules on the arrangements applicable to importation into the Community of products imported from third countries.

However, in respect of reference prices, the Kingdom of Spain shall apply to imports from third countries the arrangements applied to it by the Community — as at present constituted under Article 140 (1).

Article 144

Until 31 December 1989, the Kingdom of Spain may maintain, in accordance with detailed rules to be determined following the procedure referred to in Article 91, quantitative restrictions on imports from third countries of the products referred to in Article 137 (2).

Article 145

For the products referred to in Article 131, the Kingdom of Spain shall be authorized to postpone until the beginning of the second phase the progressive application, to imports, of preferences granted, unilaterally or by agreement, by the Community to certain third countries.

Article 146

1. For the products referred to in Article 131 and subject to the provisions referred to in paragraph 2, the Kingdom of Spain shall be authorized to maintain, during the first phase, for exports to third countries, the arrangements in force before its accession for such trade.

2. The amount of aids or subsidies granted, where appropriate, by the Kingdom of Spain for exports to third countries must be limited to the amount that is strictly necessary in order to ensure the disposal of the product in question on the market of destination.

Such aid or subsidies may not be implemented until the procedure referred to in Article 142 has taken place. These consultations shall concern, in particular, the economic aspects of the envisaged exports, the prices adopted for their calculation and the situation of the markets of origin and of destination.

Sub-section 2

Second phase

Article 147

As from the second phase, Community rules relating to the products referred to in Article 131 shall apply in full in Spain subject to Articles 75, 81, 82, 83, 85 and 148 to 153.

Article 148

1. Until the first move towards alignment, without prejudice to Article 135 (1) (e), of the prices referred to in Article 149, the prices to be applied in Spain as from 1 January 1990 shall be fixed in accordance with the rules provided for in the common organization of the markets concerned at the level of the prices fixed in Spain at the end of the first phase.

2. Where, at the beginning of the second phase, it is noted that the variation between the price level for a product in Spain and that of the common price is minimal, the common price may be applied in Spain for the product concerned.

Price variation shall be deemed to be minimal when it is lower than, or equal to, 3 % of the common price.

Article 149

If application of the provisions of Article 148 (1) results, in Spain, in a price level which is different from that of the common prices, the prices applicable in Spain shall be aligned on the common prices as from the beginning of the 1990/91 marketing year in six stages and the provisions of Article 70 shall be applied *mutatis mutandis*.

The common prices shall be applied in Spain when the sixth move towards alignment occurs.

Article 150

Articles 76 (1), 80, 87 and 90 shall apply in Spain as from 1 January 1990.

However, '31 December 1987' in Article 90 shall be replaced by '31 December 1991'.

Article 151

Where an aid is instituted in the context of the common agricultural policy during the first phase, it shall

be introduced in Spain or the level of the similar aid existing in Spain shall be aligned on the common level in six stages applying, by analogy, the provisions of Article 79.

Article 152

1. During the second phase, a compensation mechanism shall be introduced on import into the Community as at present constituted for those fruit and vegetables coming from Spain for which a reference price is fixed with regard to third countries.

2. This mechanism shall be governed by the following rules:

(a) A comparison shall be made between an offer price of the Spanish product, as calculated under (b), and a Community offer price. This latter price shall be calculated annually:

- on the basis of the arithmetic mean of the producer prices of each Member State of the Community as at present constituted, plus transport and packaging costs incurred by the products from the production regions to the representative consumption centres of the Community,
- bearing in mind developments in the cost of production.

The above producer prices shall correspond to the average of the rates recorded during the three years which precede the date on which the Community offer price is fixed.

The Community offer price may not exceed the level of the reference price applied with regard to third countries.

(b) The Spanish offer price shall be calculated every marketing day, on the basis of the representative rates recorded or reduced to the importing-wholesale stage in the Community as at present constituted. The price for a product coming from Spain shall be equal to the lowest representative rate or to the average of the lowest representative rates recorded for at least 30 % of the quantities of the provenance concerned marketed on all the representative markets for which rates are available. This rate or these rates shall be reduced beforehand:

- by the customs duties calculated in accordance with the provisions of (c),
- by any correcting amount introduced in accordance with the provisions of (d).

(c) The customs duty to be deducted from the rates of the Spanish product shall be the Common Customs Tariff duty progressively reduced each year at the

beginning of the marketing year by one-sixth of its amount. However, for 1990, the reduction shall be taken place on 1 January.

- (d) If the price of the Spanish product, calculated in accordance with the provisions of (b), is lower than the Community offer price referred to in (a), a correcting amount equal to the difference between these two prices shall be levied on import into the Community as at present constituted by the importing Member State.
- (e) The correcting amount shall be levied until the assessment carried out shows that the price of the Spanish product is equal to, or higher than, the Community price referred to in (a).

3. Should the Spanish market be disturbed as a result of imports from the Community as at present constituted, appropriate measures which may make provision for the application of a compensatory amount in accordance with detailed rules to be determined, may be decided upon with regard to imports into Spain of those fruit and vegetables coming from the Community as at present constituted for which a reference price is fixed.

Article 153

1. The Kingdom of Spain shall apply progressively, to imports of the products referred to in Article 131 as from 1 January 1990, the preferences accorded, either autonomously or by agreement, by the Community to certain third countries.

2. To this end the Kingdom of Spain shall apply a duty reducing the variation between the rate of duty actually applied on 31 December 1989 and the preferential rate of duty according to the following rates:

- on 1 January 1990, the variation shall be reduced to 85,7 % of the original variation,
- on 1 January 1991, the variation shall be reduced to 71,4 % of the original variation,
- on 1 January 1992, the variation shall be reduced to 57,1 % of the original variation,
- on 1 January 1993, the variation shall be reduced to 42,8 % of the original variation,
- on 1 January 1994, the variation shall be reduced to 28,5 % of the original variation,
- on 1 January 1995, the variation shall be reduced to 14,2 % of the original variation.

The Kingdom of Spain shall apply the preferential rates in their entirety from 1 January 1996.

CHAPTER 4

Fisheries

Section I

General provisions

Article 154

1. Unless any provision of this Chapter states otherwise, the rules laid down by this Act shall apply to the fisheries sector.

2. Articles 89 (2) and 90 shall apply to fishery products.

Article 155

1. Subject to paragraph 2 and without prejudice to Protocol 2, the common fisheries policy shall not apply to the Canary Islands nor to Ceuta and Melilla.

2. The Council, acting by a qualified majority on a proposal from the Commission:

- (a) shall determine the Community structural measures which may be adopted in favour of the territories referred to in paragraph 1;
- (b) shall determine the procedures appropriate to take into consideration all or part of the interests of the territories referred to in paragraph 1 when it adopts decisions, case by case, with a view to the negotiations by the Community aimed at the resumption or conclusion of fisheries agreements with third countries and to the specific interests of these territories within international conventions concerning fisheries, to which the Community is a contracting party.

3. The Council, acting unanimously on a proposal from the Commission, shall determine, where appropriate, the possibilities and conditions of mutual access to respective fishing zones and to the resources thereof.

Section II

Access to waters and resources

Article 156

For the purposes of their integration into the Community system for the conservation and management of fishery resources established by Regulation (EEC) No 170/83, access to the waters falling under the

sovereignty or within the jurisdiction of the present Member States and covered by the International Council for the Exploration of the Sea (ICES) by vessels flying the flag of Spain and recorded and/or registered in a port situated in the territory to which the common fisheries policy applies shall be subject to the system defined in this section.

Article 157

Only those vessels referred to in Articles 158, 159 and 160 may engage in fishing activities and may do so solely in the zones and under the conditions that are specified in those Articles.

Article 158

1. 300 vessels, specified together with their technical characteristics in the list of names in Annex IX, known as the 'basic list', may be authorized to fish in ICES divisions V b, VI, VII, VIII a, b, d, excluding, during the period from the date of accession to 31 December 1995, the zone situated to the south of latitude 56° 30' N, to the east of longitude 12° W and to the north of latitude 50° 30' N.

2. Only 150 standard vessels, of which five may be allocated only for fishing for species other than demersal, taken from the basic list, shall be authorized to fish at the same time provided that they appear on a periodical list adopted by the Commission, up to the following limits:

- (a) 23 in ICES divisions V b and VI,
- (b) 70 in ICES division VII,
- (c) 57 in ICES division VIII a, b, d.

'Standard vessel' means a vessel having a brake horsepower equal to 700 horsepower (bhp). The conversion rates for vessels having a different engine power shall be as follows:

- less than 300 hp: 0,57,
- equal to or more than 300 hp, but less than 400 hp: 0,76,
- equal to or more than 400 hp, but less than 500 hp: 0,85,
- equal to or more than 500 hp, but less than 600 hp: 0,90,
- equal to or more than 600 hp, but less than 700 hp: 0,96,
- equal to or more than 700 hp, but less than 800 hp: 1,00,
- equal to or more than 800 hp, but less than 1 000 hp: 1,07,
- equal to or more than 1 000 hp, but less than 1 200 hp: 1,11,

- more than 1 200 hp: 2,25,
- long liners other than those referred to in Article 160 (b): 1,00,
- long liners other than those referred to in Article 160 (b) and equipped with gear allowing the automatic baiting or mechanical lifting of long lines: 2,00.

For the purposes of applying these conversion rates to vessels carrying out fishing operations known as 'parejas' and 'trios', the engine power of the participating vessels shall be added together.

3. Any adjustments to the basic list resulting from the laying up, occurring before accession, of a vessel for reasons of *force majeure* shall be adopted at the latest by 1 January 1986 according to the procedure of Article 14 of Regulation (EEC) No 170/83. These adjustments may not affect the number of vessels and their allocation between each of the categories, nor bring about an increase in overall tonnage or total power for each category. Further, vessels designated as replacements may be chosen only from among those listed in Annex X.

Article 159

1. The number of standard vessels referred to in Article 158 (2) may be increased on the basis of the development of overall fishing possibilities allocated to Spain for stocks subject to the total allowable catch system, hereinafter referred to as 'TAC', in accordance with the procedure laid down in Article 11 of Regulation (EEC) No 170/83.

2. As and when vessels referred to in the basic list are laid up and deleted from the basic list, they may be replaced by vessels of the same category having half the engine power of the vessels thus deleted from the basic list, until the basic list is established at such a level with respect to the allocated fish resources as to ensure normal exploitation.

The conditions of replacement referred to in the first subparagraph shall only apply in so far as the capacity of the fleet of the Community as at present constituted is not increased in the Community waters of the Atlantic.

Article 160

1. The following forms of specialized fishing shall be authorized:

Type of fishing	Zone	Total number of authorized vessels (basic list)	Number of vessels authorized to fish at the same time (periodical list)	Period of fishing authorization
(a) Sardine boats (using Seine nets, less than 100 grt)	VIII a, b, d	71	40	1 January to 28 February and 1 July to 31 December

(f) Tuna fishing	All zones	—	Unlimited	Year round
(g) Vessels fishing for Ray's bream	VII g, h, j, k	—	25	1 October to 31 December

2. As from 1 January 1986, all the provisions concerning fishing activities referred to in paragraph 1 shall remain identical to those applicable immediately before entry into force of this Act.

However, the fishing activities referred to in paragraph 1 (c) may be exercised in the ICES divisions concerned everywhere beyond the 12 nautical-mile limit calculated from the base lines.

Article 161

1. The TAC share, for species subject to TAC and quotas, to be allocated to Spain shall be fixed by species and by zone as follows:

Species	ICES division	Spanish share (%)
(a) Hake	V b, VI, VII, VIII a, b	30

	VIII a, b	17
	VIII c	90
	VIII d	0
(f) Anchovy	VIII	90

⁽¹⁾ Including the share to be allocated to Portugal.

2. In addition to the TAC shares for hake referred to in paragraph 1 (a), an additional flat rate quantity of 4 500 tonnes shall be allocated annually for a period of three years as from 1 January 1986.

Should the overall level of these TAC exceed 45 000 tonnes, this additional flat rate quantity shall be reduced so as to bring the overall quota allocated to Spain to a level not exceeding 18 000 tonnes.

3. The quantity to be allocated to Spain of species subject to TAC without apportionment of quotas shall be fixed on a flat rate basis as follows by species and by division:

Species	ICES division	Spanish share
(a) Blue whiting	V b, VI, VII, VIII a, b, d	30 000 tonnes
(b) Horse mackerel	V b, VI, VII, VIII a, b, d	31 000 tonnes

4. The fishing possibilities laid down for Spain and the resulting quotas for the other Member States of the Community shall be fixed annually and for the first time before 1 January 1986, in accordance with Article 11 of Regulation (EEC) No 170/83.

Article 162

Before 31 December 1992, the Commission shall submit to the Council a report concerning the situation and prospects with regard to fishing in the Community on the basis of the application of Articles 158 and 161. On the basis of that report, the adjustments to the arrangement provided for in Article 158, the first subparagraph of Article 159 (2) and in Article 161 (1), (2) and (3) which prove to be necessary, including those concerning access to zones other than those mentioned in Article 158 (1), shall be adopted before 31 December 1993 in accordance with the procedure laid down in Article 43 of the EEC Treaty and shall take effect on 1 January 1996.

Article 163

1. The Spanish authorities shall draw up basic lists for the fishing activities referred to in Article 160 (1) (a) and (b) and a list indicating the technical characteristics of each vessel for the other fishing activities referred to in Article 160 (1).

They shall submit to the Commission drafts of the periodical lists referred to in Articles 158 (2) and 160 (1).

2. For the vessels referred to in Articles 158 and 160 (1) (g), the periodical lists shall cover a period of at least one month.

For the other categories of vessels, fishing activity procedures shall be fixed in accordance with Article 160 (2) and pursuant to the procedure referred to in the second subparagraph of paragraph 3 of this Article.

After having been checked, these lists shall be approved by the Commission which shall forward them to the Spanish authorities and to the supervisory authorities of the other Member States concerned.

3. Provisions aimed at ensuring that operators comply with the rules provided for in this Article, including those aimed at the possibility of not authorizing the vessel concerned to fish for a certain period shall be adopted before 1 January 1986 according to the procedure provided for in Article 11 of Regulation (EEC) No 170/83.

The technical procedures which prove necessary in order to ensure the application of Articles 156 to 162, and those contained in Annex XI, shall be adopted before 1 January 1986 according to the procedure provided for in Article 14 of Regulation (EEC) No 170/83.

Article 164

1. The number of vessels flying the flag of a present Member State authorized to fish in the waters of the Atlantic Ocean falling under the sovereignty or within the jurisdiction of the Kingdom of Spain and covered by the ICES shall be fixed each year:

- (a) for the species subject to TAC and quotas, on the basis of the fishing possibilities allocated;
- (b) for the species not subject to TAC and quotas, taking into account the relative stability and the necessity of ensuring the conservation of stocks.

2. The specialized fishing activities of vessels flying the flag of a present Member State in the waters referred to in paragraph 1 shall be carried out within the same quantitative limits and in accordance with the same access and control procedures as those specified for Spanish vessels authorized to carry out their fishing activities in the fishing zones of the present Member States, and in compliance with other provisions concerning the conservation of resources.

3. The general rules for implementing this Article, and in particular the annual fixing of the number of vessels, shall be adopted in accordance with the procedure laid down in Article 11 of Regulation (EEC) No 170/83 and for the first time before 1 January 1986.

4. The procedures for applying this Article shall be adopted before 1 January 1986 in accordance with the procedure of Article 14 of Regulation (EEC) No 170/83.

Article 165

1. For the purposes of their integration into the Community system for the conservation and management

of fishery resources established by Regulation (EEC) No 170/83, access of vessels flying the flag of Portugal to waters falling under the sovereignty or within the jurisdiction of the Kingdom of Spain covered by the ICES and the Fishery Committee for the Eastern Central Atlantic (CECAF) shall be subject until 31 December 1995 to the regime referred to in paragraphs 2 to 8, without prejudice to the specific provisions referred to in Article 155.

2. The following activities may be carried out by the vessels referred to in paragraph 1 as their main activity:

products not yet liberalized with regard to the Community as at present constituted. It shall not grant to third countries any other advantage in relation to the Community as at present constituted with respect to the quotas fixed for those products.

These quantitative restrictions shall remain in force for at least such time as quantitative restrictions obtain for the same products with regard to the Community as at present constituted.

2. The Kingdom of Spain shall retain, with regard to the State-trading countries referred to by Regulations (EEC) No 1765/82, (EEC) No 1766/82 and (EEC) No 3420/83, quantitative restrictions on imports for products not yet liberalized with regard to countries to which Regulation (EEC) No 288/82 applies. It shall not grant the State-trading countries any other advantage in relation to the countries to which Regulation (EEC) No 288/82 applies with regard to the quotas fixed for those products.

These quantitative restrictions shall remain in force for at least such time as quantitative restrictions obtain for the same products with regard to the countries referred to in Regulation (EEC) No 288/82.

Any amendments to the import arrangements in Spain for products which are not liberalized by the Community with regard to State-trading countries must be made in accordance with the rules and procedures laid down in Regulation (EEC) No 3420/83, and without prejudice to the first subparagraph.

Imports of those products shall be subject in their entirety to the common liberalization lists in force on 1 January 1992. The quotas shall be progressively increased until that date, in accordance with paragraph 4.

4. The minimum rate of progressive increase of quotas referred to in paragraph 3 shall be 17 % at the beginning of each year for quotas expressed in ECU and 12 % at the beginning of each year for quotas expressed in terms of volume. 2. These transitional measures, shall be designed to ensure, on their expiry, the application by the Community of a common system for its relations with each co-contracting third country as well as the identity of the rights and obligations of the Member States.

3. These transitional measures applicable to the countries listed in Article 181 shall not, in any field, result in the Kingdom of Spain granting from more favourable treatment than will apply to the Community as at present constituted.

In particular, all products subject to transitional measures in respect of quantitative restrictions applicable to the Community as at present constituted shall be subject to such measures *vis-à-vis* all the countries listed in Article 181, and for an identical period of time.

4. These transitional measures applicable to the countries listed in Article 181 shall not result in the Kingdom of Spain giving less favourable treatment to those countries than to other third countries. In particular, transitional measures in respect of quantitative restrictions cannot be envisaged for the countries listed in Article 181 in respect of products which will be free of such restrictions when imported into Spain from other third countries.

Article 180

1. If the protocols referred to in Article 179 (1) are not concluded by 1 January 1986, the Community shall take the necessary measures to deal with this situation on accession.

2. With regard to the measures referred to in paragraph 1 the following arrangements shall apply:

- (i) Should the abovementioned protocols not be concluded by the date of accession, for reasons outside the control of the Community or the Kingdom of Spain, the measures to be taken by the Community shall in any event provide for the application by the Kingdom of Spain, from the date of accession, of most-favoured-nation treatment to the preferential co-contracting countries or those associated with the Community and shall also take into account the arrangements that the third countries in question will apply to the Kingdom of Spain on that date.
- (ii) Should the abovementioned protocols not be concluded by the date of accession, for reasons other than those referred to in point (i), the Community, in order to adopt the measures referred to in paragraph 1, shall take as its basis the transitional measures and the adjustments agreed within the Conference and shall take into account, where appropriate, the result arrived at in negotiations with the third countries concerned.

Article 181

1. Articles 179 and 180 shall apply to:

- the Agreements concluded with Algeria, Austria, Cyprus, Egypt, Finland, Iceland, Israel, Jordan, Lebanon, Malta, Morocco, Norway, Sweden, Switzerland, Syria, Tunisia, Turkey and Yugoslavia, and to other Agreements concluded with third countries and concerning exclusively trade in the products of Annex II of the EEC Treaty,

Protocol of adjustment of those agreements shall be negotiated by the Community with third countries, that are parties to the agreements, in order to provide for voluntary restraint on exports to Spain in the case of products and origins for which there are limitations on exports to the Community.

2. Should these protocols not have been concluded by 1 January 1986, the Community shall take measures designed to deal with this situation and concerning the necessary transitional adjustments to ensure that the agreements are implemented by the Community.

2. Any reference to the Decision of 21 April 1970 made in the Articles of this Chapter shall be understood as referring to the Council Decision of 7 May 1985 on the Communities' system of own resources, as from the entry into force of that Decision.

Article 185

The revenue designated as 'agricultural levies' referred to in the first paragraph of Article 2 (a) of the Decision

of 21 April 1970 shall also include the revenue from any amount recorded on import in trade between Spain and the other Member States and between Spain and third countries under Articles 67 to 153, 50 (3) and 53.

However, that revenue shall include only from 1 January 1990 the compensatory charges recorded for the fruit and vegetables falling within Regulation (EEC) No 1035/72 imported into Spain.

Where the provisions adopted by the Commission under Article 50 (3) of this Act are applied, and by way of derogation from the first subparagraph, the customs duties shall correspond to the amount calculated in accordance with the rate of the compensatory levy fixed by those provisions for third country products incorporated in the manufacture.

That revenue shall not include any amounts levied on imports into the Canary Islands or Ceuta and Melilla.

The Kingdom of Spain shall make a monthly calculation of these customs duties on the basis of customs declarations of a single month. The calculation thus obtained for the customs duties on the basis of recordings during the month in question shall be made available to the Commission under the conditions defined in Regulation (EEC, Euratom, ECSC) No 2891/77.

From 1 January 1993, the total amount of the customs duties recorded shall be due in its entirety. 2. The basic duty used for the moves towards alignment on the Common Customs Tariff and the ECSC unified tariff provided for in Articles 197, 243 (2) and 360 (4) shall, for each product, be the duty actually applied by the Portuguese Republic on 1 January 1985.

3. However, if after that date and before accession a tariff reduction is applied, such reduced duty shall be considered as a basic duty.

4. The Portuguese Republic shall take the necessary measures to ensure that, upon accession, its maximum customs tariff and the occasional suspensions of its customs duties are abolished.

The customs duties of the maximum tariff and the customs duties of the occasional suspensions are not the basic duties referred to in paragraphs 1 and 2. Where such duties are actually supplied, the basic duties are the minimum customs tariff duties, or, where applicable, conventional duties.

5. The Community as at present constituted and the Portuguese Republic shall inform each other of their respective basic duties.

6. Notwithstanding paragraph 1, for the products appearing in Protocol 15, the basic duties shall be those set out in the said Protocol opposite each product.

2. Notwithstanding paragraph 1, duty-free entry shall apply from 1 March 1986 to:

- (a) imports which benefit from the provisions relating to tax exemptions applicable to persons travelling from one Member State to another;
- (b) imports of goods sent in small consignments, not of a commercial nature, which benefit from the provisions relating to tax exemptions applicable between Member States.

3. The rate of duty calculated in accordance with paragraph 1 shall be applied by rounding down to the first decimal place by deleting the second decimal.

Article 191

In no case shall customs duties higher than those applied to third countries enjoying most-favoured-nation treatment be applied within the Community.

In the event of the Common Customs Tariff duties being amended or suspended, or the Portuguese Republic applying Article 201, or of the coexistence in Portugal of specific duties *vis-à-vis* the Community as at present constituted and *ad valorem* duties with regard to third countries for the same tariff heading or subheading, the Council, acting by a qualified majority on a proposal from the Commission, may take the necessary measures for the maintenance of Community preference.

In the event of the ECSC unified tariff duties being amended or suspended, or the Portuguese Republic applying Article 201, or of the coexistence in Portugal

of specific duties *vis-à-vis* the Community as at present constituted and *ad valorem* duties with regard to third countries for the same tariff heading or subheading, the Commission may take the necessary measures for the maintenance of Community preference.

Article 192

The Portuguese Republic may suspend in whole or in part the levying of duties on products imported from the Community as at present constituted. It shall inform the other Member States and the Commission thereof.

The Council, acting by a qualified majority on a proposal from the Commission, may suspend in whole or in part the levying of duties on products imported from Portugal.

Any charge having equivalent effect to a customs duty on imports in trade between the Community as at present constituted and Portugal shall be abolished on 1 March 1986.

Article 194

The following charges applied by Portugal in trade with the Community as at present constituted shall be progressively abolished in accordance with the following timetable:

(a) The *ad valorem* charge of 0,4 % applied to:

- goods imported temporarily,
- goods reimported (excluding containers),

- goods imported under the inward processing arrangements characterized by the rebate of duties levied on the import of goods used after export of the products obtained ('drawback'),

shall be:

- reduced to 0,2 % on 1 January 1987, and
- abolished on 1 January 1988.

(b) The *ad valorem* charge of 0,9 % applied to goods imported for home use shall be:

If the Portuguese Republic exercises this option, any component that may not be covered by the internal charge shall represent the basic duty provided for in Article 189. This component shall be abolished in trade with the Community and shall be aligned on the Common Customs Tariff and the ECSC unified tariff in accordance with the timetable set out in Articles 190 and 197.

Article 197

1. For the purpose of the progressive introduction of the Common Customs Tariff and the ECSC unified tariff, the Portuguese Republic shall amend its tariff applicable to third countries as follows:

— From 1 March 1986, the Portuguese Republic shall apply a duty reducing by 10 % the difference between the basic duty and the duty in the Common Customs Tariff or the ECSC unified tariff.

— From 1 January 1987:

(a) in the case of tariff headings in respect of which the basic duties do not differ by more than 15 % in either direction from the duties in the Common Customs Tariff or the ECSC unified tariff, these latter duties shall be applied;

(b) in other cases, the Portuguese Republic shall apply a duty reducing the difference between the basic duty and the duty in the Common Customs Tariff or the ECSC unified tariff in accordance with the following timetable:

- on 1 January 1987, a reduction of 10 %,
- on 1 January 1988, a reduction of 15 %,
- on 1 January 1989, a reduction of 15 %,
- on 1 January 1990, a reduction of 10 %,
- on 1 January 1991, a reduction of 10 %,
- on 1 January 1992, a reduction of 15 %.

The Portuguese Republic shall apply the Common Customs Tariff and the ECSC unified tariff as from 1 January 1993 in their entirety.

2. Notwithstanding paragraph 1, for the products listed in the Annex to the Agreement on trade in civil aircraft concluded in the context of the 1973 to 1979 trade negotiations of the General Agreement on Tariffs and Trade, the Portuguese Republic shall apply the Common Customs Tariff from 1 March 1986 in its entirety.

Article 198

The autonomous duties entered in the Community Common Customs Tariff shall be autonomous duties of the Community as at present constituted. The con-

ventional duties of the EEC Common Customs Tariff and of the ECSC unified tariff shall be the conventional duties of the EEC and of the ECSC, as at present constituted, with the exception of the adjustments to be made to take into account the fact that the duties in force in the Spanish and Portuguese tariffs are, on the whole, higher than the duties in force in the tariffs of the EEC and ECSC as at present constituted.

That adjustment which will be the subject of negotiation within the General Agreement on Tariffs and Trade, shall remain within the limits of the possibilities opened by Article XXIV of that Agreement.

Article 199

1. Where duties in the customs tariff of the Portuguese Republic differ in nature from the corresponding duties in the Common Customs Tariff or the ECSC unified tariff, the progressive alignment of the former on the latter shall be effected by adding the components of the Portuguese basic duty to those of the Common Customs Tariff or the ECSC unified tariff, the Portuguese basic duty being reduced to zero progressively, in accordance with the timetable set out in Articles 197 and 243 (2) and the duty in the Common Customs Tariff or ECSC unified tariff increasing from zero to reach the full amount progressively in accordance with the same timetable.

2. From 1 March 1986, if certain duties in the Common Customs Tariff or the ECSC unified tariff are altered or suspended, the Portuguese Republic shall simultaneously amend or suspend its tariff in the proportion resulting from the implementation of Article 197.

3. The Portuguese Republic shall apply the Common Customs Tariff and ECSC unified tariff nomenclatures from 1 March 1986.

The Portuguese Republic may include within these nomenclatures national subdivisions existing at the time of accession which are indispensable in order that the progressive alignment of its customs duties with those in the Common Customs Tariff and the ECSC unified tariff be carried out under the conditions laid down in this Act.

Where amendments are made to the nomenclature of the Common Customs Tariff or the ECSC unified tariff in respect of products referred to in this Act, the Council may, acting by a qualified majority on a proposal from the Commission, adapt the nomenclature of those products as indicated in this Act.

4. With a view to implementing paragraph 3 and to facilitating the progressive introduction of the Com-

mon Customs Tariff and the ECSC unified tariff by the Portuguese Republic and the progressive abolition of customs duties between the Community as at present constituted and the Portuguese Republic, the Commission shall determine, if necessary, the implementing provisions whereby the Portuguese Republic alters its customs duties; those implementing provisions may not however entail any amendment to Articles 189 and 197.

5. The rate of duty calculated in accordance with Article 197 shall be applied by rounding up or down to the first decimal place.

Rounding down shall be effected by deleting the second decimal where Portuguese duties are being aligned on Common Customs Tariff or ECSC unified tariff duties which are less than the Portuguese basic duties. In other cases rounding up shall be effected by applying the higher decimal.

Article 200

1. For the products contained in the list appearing in Annex XVIII, the basic duties adopted for alignment on the Common Customs Tariff and the ECSC unified tariff shall be the duties resulting from the application by the Portuguese Republic, on 1 January 1985, of tariff exemptions (total suspensions) and tariff reductions (partial suspensions).

2. From 1 March 1986, the Portuguese Republic shall apply a duty reducing the difference between the basic duties referred to in paragraph 1 and the duties in the Common Customs Tariff or the ECSC unified tariff in accordance with the timetable set out in Article 197.

3. The Portuguese Republic may waive tariff abolition or adopt the Common Customs Tariff rate of duty more rapidly.

4. Upon accession, no remaining customs duty shall continue to be applied by the Portuguese Republic to the products in question imported from the Community as at present constituted and no customs duty on these products shall be reintroduced with regard to the Community.

5. Upon accession, the Portuguese Republic shall apply without discrimination the exemptions and tariff reductions that are progressively aligned on the Common Customs Tariff and on the ECSC unified tariff.

Article 201

In order to bring its tariff into line with the Common Customs Tariff and the ECSC unified tariff, the Portuguese Republic shall remain free to alter its customs duties more rapidly than is provided for in Article 197. It shall inform the other Member States and the Commission thereof.

Section II

Elimination of quantitative restrictions and measures having equivalent effect*Article 202*

Quantitative restrictions on imports and exports and any measures having equivalent effect shall, from 1 January 1986, be abolished between the Community as at present constituted and the Portuguese Republic.

Article 203

Notwithstanding Article 202, the present Member States and the Portuguese Republic may retain restrictions on exports of waste and scrap metal of iron or steel falling within heading No 73.03 of the Common Customs Tariff in their mutual trade.

These arrangements may be retained until 31 December 1988 with regard to exports from the Member States of the Community as at present constituted to Portugal and until 31 December 1990 with regard to exports from Portugal to the present Member States, provided that these arrangements are not more restrictive than those applied to exports to third countries.

Article 204

1. Notwithstanding Article 202, the Portuguese Republic may, until 31 December 1988, continue to require on imports or exports, exclusively for statistical purposes, the prior registration of products other than those covered by Annex II of the EEC Treaty and those covered by the ECSC Treaty.

2. The registration note shall be issued automatically within a period of five working days from the submission of the request. Should it not be issued within this period, the goods in question may be freely imported or exported.

3. The requirement of any prior recording by the importer or exporter shall be abolished upon accession.

Article 205

Notwithstanding Article 202, the Portuguese Republic shall abolish the discriminatory variation existing between the rate of reimbursement by the Social Security institutions for pharmaceutical products produced in Portugal and the rate of reimbursement for pharmaceutical products imported from the present Member States in three annual stages of equal size occurring on the following dates:

- 1 January 1987,
- 1 January 1988,
- 1 January 1989.

Article 206

Notwithstanding Article 202, trade in certain textile products between Portugal and the other Member States of the Community shall be subject to the arrangements described in Protocol 17.

Article 207

Notwithstanding Article 202, the Portuguese Republic shall be authorized to retain until 31 December 1987 the quantitative restrictions on imports from the other Member States of motor vehicles referred to in Protocol 18 and within the limits of the import quota system described in that Protocol.

Article 208

1. Without prejudice to paragraph 2 of this Article, the Portuguese Republic shall, from 1 January 1986, progressively adjust State monopolies of a commercial character within the meaning of Article 37 (1) of the EEC Treaty so as to ensure that by 1 January 1993 no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States.

The present Member States shall have equivalent obligations in relation to the Portuguese Republic.

The Commission shall make recommendations as to the manner in which and the timetable according to which the adjustment provided for in the first paragraph must be carried out, it being understood that the manner and timetable must be the same for the Portuguese Republic and the present Member States.

2. With regard to motor spirit, kerosene, gas oils and fuel oils falling within subheadings 27.10 A III, 27.10 B III, 27.10 C I and 27.10 C II of the Common Customs Tariff, the adjustment of the exclusive marketing right shall begin from the date of accession. The existing Portuguese marketing quotas allocated to current beneficiary companies other than the public undertaking Petrogal shall be abolished on 1 January 1986. The total liberalization of the markets for these products shall be completed on 31 December 1992.

The Commission shall make its recommendations for adjustment concerning the execution of this liberalization by taking as the starting reference point the lowest annual market share per product held by the public undertaking Petrogal during the period 1 January 1981 to 31 December 1985.

Upon accession the Portuguese Republic shall open for each product concerned a quota equal to the total marketing quotas held before that date by undertakings other than Petrogal. This quota shall be progressively increased by the quantities liberalized following the Commission's recommendations.

Article 209

1. Notwithstanding Article 202, the holder, or his beneficiary, of a patent for a chemical or pharmaceutical product or a product relating to plant health, filed in a Member State at a time when a product patent could not be obtained in Portugal for that product may rely upon the rights granted by that patent in order to prevent the import and marketing of that product in the Member State or States where that product enjoys patent protection even if that product was put on the market in Portugal for the first time by him or with his consent.

2. This right may be invoked for the products referred to in paragraph 1 until the end of the third year after Portugal has made these products patentable.

*Section III**Other provisions**Article 210*

1. The Commission shall, with due regard for the provisions in force, in particular those relating to Community transit, determine the methods of administrative cooperation designed to ensure that goods fulfilling the requisite conditions benefit, from 1 March 1986, from the abolition of customs duties and charges having equivalent effect and quantitative restrictions and measures having equivalent effect, laid down by this Act.

2. Until 28 February 1986, the provisions of the 1972 Agreement between the European Economic Community and the Portuguese Republic and subsequent Protocols, relating to customs arrangements, shall continue to apply to trade between the Community as at present constituted and Portugal.

3. The Commission shall lay down the provisions applicable from 1 March 1986 to trade within the Community, in goods obtained in the Community in the manufacture of which have been incorporated:

- products on which the customs duties or charges having equivalent effect which were applicable to them in the Community as at present constituted or in Portugal have not been levied, or which have benefited from a total or partial drawback of such duties or charges,
- agricultural products which do not fulfil the required conditions to be released for free circulation in the Community as at present constituted or in Portugal.

In adopting these provisions, the Commission shall take into account the rules laid down in this Act for the

elimination of customs duties between the Community as at present constituted and Portugal, and for the progressive application by the Portuguese Republic of the Common Customs Tariff and provisions concerning the common agricultural policy.

Article 211

1. Save as otherwise provided in this Act, the provisions in force with regard to customs legislation for trade with third countries shall apply under the same conditions to trade within the Community, for such time as customs duties are levied in that trade.

For the purpose of establishing the customs value in respect of trade within the Community, and trade with third countries, until:

- 31 December 1992 for industrial products, and
- 31 December 1995 for agricultural products,

the customs territory to be taken into consideration shall be that defined by the provisions existing in the Community and in the Portuguese Republic on 31 December 1985.

2. The Portuguese Republic shall apply the Common Custom Tariff and ECSC unified tariff nomenclatures in trade within the Community from 1 March 1986.

The Portuguese Republic may include within these nomenclatures national subdivisions existing at the time of accession which are indispensable in order that the progressive elimination of its customs duties within the Community be carried out under the conditions laid down in this Act.

Article 212

During a period of five years from the date of accession, the Portuguese Republic shall complete the restructuring of its iron and steel industry under the conditions defined in Protocol 20.

The period indicated above may be shortened and the detailed rules set out in the said Protocol may be amended by the Commission with the assent of the Council on the basis of:

- the state of progression of the Portuguese restructuring plan, taking into account significant factors in the reestablishment of the viability of the undertaking,
- iron and steel measures in force in the Community after the date of accession; in that case, the arrangements applicable after accession to Portuguese deliveries to the Community as at present constituted should not lead to major differences in treatment between Portugal and the other Member States.

Article 213

1. Where the compensatory amounts referred to in Article 240 or the compensatory mechanism referred to in Article 270 are applied in trade between the Community as at present constituted and the Portuguese Republic to one or more of the basic products considered as having been used in the manufacture of goods covered by Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products, the following transitional measures shall be applied:

- A compensatory amount calculated on the basis of the compensatory amounts referred to in Article 240 or of the compensatory mechanism referred to in Article 270 and in accordance with the rules laid down by Regulation (EEC) No 3033/80 for calculating the variable component applicable to the goods covered by this Regulation shall be applied on importation of those goods into the Community as at present constituted from Portugal.
- When the goods covered by Regulation (EEC) No 3033/80 are imported from third countries into Portugal the variable component laid down by this Regulation shall be increased or reduced as the case may be by the compensatory amount referred to in the first indent.
- A compensatory amount determined on the basis of the compensatory amounts referred to in Article 240 or of the compensatory mechanism referred to in Article 270 fixed for the basic products and in accordance with the rules applicable for the calculation of the refunds provided for in Council Regulation (EEC) No 3035/80 of 11 November 1980 laying down general rules for granting export refunds on certain agricultural products exported in the form of goods not covered by Annex II to the Treaty, and the criteria for fixing the amount of such refunds shall, for the goods covered by this Regulation, be applied on exportation of those goods from the Community as at present constituted into Portugal.
- Where products covered by Regulation (EEC) No 3035/80 are exported from the Portuguese Republic to third countries, they shall be subject to the compensatory amount referred to in the third indent.

2. The customs duty constituting the fixed component of the charge applicable, as from the date of accession, to imports into Portugal from the Community as at present constituted of goods covered by Regulation (EEC) No 3033/80 shall be determined by deducting from the basic customs duty applied by the Portuguese Republic to products originating in the Community as at present constituted a variable component equal to

the variable component laid down in application of Regulation (EEC) No 3033/80, increased or reduced, as the case may be, by the compensatory amount referred to in the first and third indents of paragraph 1.

However, in cases where, for the products mentioned in Annex XIX, the customs duty constituting the fixed component of the charge, calculated in accordance with the foregoing subparagraph, is lower than the duties listed in the said Annex, the latter duties shall apply.

3. The customs duty constituting the fixed component of the charge applicable as from the date of accession to imports into Portugal from third countries of the goods covered by Regulation (EEC) No 3033/80 shall be equal to the higher of the two amounts determined as follows:

- The amount obtained by deducting from the basic customs duty applied by the Portuguese Republic to imports from third countries a variable component equal to the variable component fixed in application of Regulation (EEC) No 3033/80, increased or decreased, as the case may be, by the compensatory amount referred to in the first and third indents of paragraph 1.
- The amount obtained by adding together the fixed component applicable to imports into Portugal from the Community as at present constituted and the fixed component of the Common Customs Tariff duty (or with regard to third countries benefiting from the Community generalized system of preferences, the fixed preferential component which the Community applies, where appropriate, to imports from those countries).

4. By way of derogation from Article 189, the customs duties applied by the Portuguese Republic to imports from the Community and third countries shall be converted, as from the date of accession, into the type of duty and the units entered in the Common Customs Tariff. Conversion shall be made on the basis of the value of the goods imported to Portugal during the last four three-month periods for which information is available or, in the absence of imports of the goods concerned into Portugal, on the basis of the unit value of the same goods imported into the Community as at present constituted.

5. Every fixed component applied in trade between the Community as at present constituted and the Portuguese Republic shall be eliminated in accordance with Article 190.

Every fixed component applied by the Portuguese Republic to imports from third countries shall be aligned on the fixed component of the Common Customs Tariff duty (or, where appropriate, on the fixed preferential component provided for in the Community generalized system of preferences), in accordance with Article 197 and 201.

6. Where a reduction in the variable component of the Common Customs Tariff duty is granted to third countries benefiting from the Community generalized system of preferences, the Portuguese Republic shall apply this variable preferential component as from the date on which, during the first year of the second stage of the transitional arrangements, the rules of the second stage begin to be applied to the basic products whose marketing year starts the last.

Section IV

Trade between the Portuguese Republic and the Kingdom of Spain

Article 214

The Portuguese Republic shall apply Articles 189 to 213 in its trade with the Kingdom of Spain, subject to the conditions set out in Protocol 3.

Section I

Workers

Article 215

Article 48 of the EEC Treaty shall only apply, in relation to the freedom of movement of workers between Portugal and the other Member States, subject to the traditional provisions laid down in Articles 216 to 219 of this Act.

Article 216

1. Articles 1 to 6 of Regulation (EEC) No 1612/68 on the freedom of movement of workers within the Community shall apply in Portugal with regard to nationals of the other Member States and in the other Member States with regard to Portuguese nationals only as from 1 January 1993.

The Portuguese Republic and the other Member States may maintain in force until 31 December 1992, with regard to nationals of the other Member States and to Portuguese nationals respectively, national provisions or those resulting from bilateral arrangements making prior authorization a requirement for immigration with a view to pursuing an activity as an employed person and/or taking up paid employment.

However, the Portuguese Republic and the Grand Duchy of Luxembourg may maintain in force until 31 December 1995 the national provisions referred to in the preceding subparagraph in force on the date of signing of this Act with regard to Luxembourg nationals and Portuguese nationals respectively.

2. As from 1 January 1991 the Council shall, after receiving a report from the Commission, examine the results of the application of the measures of derogation referred to in paragraph 1.

On completion of this examination, the Council, acting unanimously on a proposal from the Commission may, on the basis of new data, adopt provisions intended to adjust the said measures.

Article 217

1. Article 11 of Regulation (EEC) No 1612/68 shall apply until 31 December 1990 in Portugal with regard to nationals of the other Member States and in the other Member States with regard to Portuguese nationals under the conditions indicated hereinafter:

- (b) The members of workers' families, referred to in Article 10 (1) (a) of the said Regulation, installed in accordance with regulations with the worker in the territory of a Member State after the date of signature of this Act, shall have the right to take up any paid employment there if they have been resident there for at least three years. This period of residence shall be reduced to 18 months as from 1 January 1989.

This paragraph shall be without prejudice to more favourable national provisions, or those resulting from bilateral arrangements.

2. The arrangements provided for in paragraph 1 shall also apply to members of the family of a self-employed person installed with him in a Member State.

Article 218

In so far as certain provisions of Directive 68/360/EEC on the abolition of restrictions on movement and residence within the Community for workers of Member States and their families, may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to Article 216, the Portuguese Republic and the other Member States may derogate from those provisions, to the extent necessary

for the application of the provisions for derogation which are laid down in Article 216 in connection with the said Regulation.

Article 219

The Portuguese Republic and the other Member States shall take, with the assistance of the Commission, the necessary measures so that the application of the Commission Decision of 8 December 1972 on the uniform system established pursuant to Article 15 of Council Regulation (EEC) No 1612/68, known as 'Sedoc' and the Commission Decision of 14 December 1972 on the 'Community plan' for the collection and circulation of information provided for in Article 14 (3) of Council Regulation (EEC) No 1612/68 may be extended to Portugal by 1 January 1993 at the latest.

Articles 73 (2), 74 (2), 75 (2) and 94 (9) of Regulation (EEC) No 1408/71, and Articles 87, 89, 98 and 120 of Regulation (EEC) No 574/72 shall apply by analogy to these workers.

However, the foregoing is without prejudice to legislative provisions of a Member State whereby family benefits are to be payable in respect of members of the family, whatever their country of residence.

2. Notwithstanding Article 6 of Regulation (EEC) No 1408/71, the following provisions of Social Security Conventions shall continue to apply to Portuguese workers during the period referred to in paragraph 1:

Until 31 December 1989, the Portuguese Republic may maintain a system of advance authorization for direct investments, within the meaning of the First Council Directive of 11 May 1960 for the implementation of Article 67 of the EEC Treaty, as amended and added to by Second Council Directive 63/21/EEC of 18 December 1962 and by the 1972 Act of Accession, carried out in Portugal by nationals of other Member States and connected with the exercise of the right of

establishment and the freedom to provide services and whose overall value exceeds the following amounts:

- during 1987: 1,8 million ECU,
- during 1988: 2,1 million ECU,
- during 1989: 2,4 million ECU.

2. The provisions of paragraph 1 shall not apply to direct investments concerning the credit institutions sector.

3. For every investment project subject to advance authorization pursuant to paragraph 1, the Portuguese authorities must take a decision at the latest two months after the application has been made. If no decision is taken within this time limit, the proposed investment shall be deemed to be authorized.

4. The investors covered by paragraph 1 may not be treated differently from one another nor be granted less favourable treatment than that granted to nationals of third countries.

Article 223

1. The Portuguese Republic may, under the conditions and within the time limits set out in Articles 224 to 229, postpone the liberalization of capital movements set out in Lists A and B of the First Council Directive of 11 May 1960 for the implementation of Article 67 of the EEC Treaty and of the Second Council Directive of 18 December 1962 adding to and amending the First Directive for the implementation of Article 67 of the EEC Treaty.

2. Appropriate consultations shall take place in due course between the Portuguese authorities and the Commission on procedures for applying measures of liberalization or relaxation, the implementation of which may be postponed under the following provisions.

Article 224

The Portuguese Republic may postpone until 31 December 1992 the liberalization of direct investments in the other Member States made by persons resident in Portugal.

cultural land under Portuguese legislation on the date of accession.

2. The temporary derogation referred to in paragraph 1 shall not apply:

- to residents of the other Member States who fall within the category of those emigrating as part of the free movement of employed or self-employed workers,
- to the purchases referred to in paragraph 1 which are connected with the exercise of the right of establishment by self-employed workers who are residents of the other Member States and who emigrate to Portugal.

(b) In the case of a liquidation which exceeds the amount defined under (a), the transfer of the balance shall be liberalized by five equal annual instalments, the first instalment at the time when transfer of the proceeds of liquidation is applied for and the other four in the four following years.

3. Throughout the period of application of this transitional measure, any special or general facilities concerning the free transfer of the proceeds of the liquidation of the real estate investments defined in paragraph 1 which may exist pursuant to Portuguese provisions or agreements governing the relations between the Portuguese Republic and any of the other Member States or third countries shall be maintained and applied on a non-discriminatory basis to all the other Member States.

Article 227

The Portuguese Republic may postpone, until 31 December 1992, the liberalization of transfers relating to real estate investment in another Member State:

- by persons resident in Portugal who do not fall within the category of those emigrating in the context of the free movement of employed and self-employed workers;
- by self-employed workers who are residents of Portugal and who emigrate, to the extent that the investments in question are not concerned with their establishment.

Article 228

1. The Portuguese Republic may, until 31 December 1990 and under the conditions defined in paragraph 2, maintain restrictions on the transactions listed in Section X under B, C, D, E, F and H of List A annexed to the Directives referred to in Article 223 and carried out towards the other Member States.

2. On 1 January 1986, transfers shall be liberalized up to an amount of 25 000 ECU for the transactions under C, D and F, and 10 000 ECU for the transactions under B, E and H. Each of these amounts shall be fixed respectively:

- from 1 January 1987, at 30 000 and 12 000 ECU,

Article 232

For the purpose of applying Articles 223 to 231, the Commission may consult the Monetary Committee and submit appropriate proposals to the Council.

CHAPTER 3

Agriculture

Section I

General provisions

Article 233

1. This Chapter concerns agricultural products with the exception of products falling within Regulation (EEC) No 3796/81 on the common organization of the market in fishery products.

2. Save as otherwise provided for in this Chapter, the rules laid down in this Act shall apply to the agricultural products referred to in paragraph 1.

3. Subject to the specific provisions of this Chapter laying down different dates or different time limits, the application of the transitional measures for the agricultural products referred to in paragraph 1 shall terminate at the end of 1995.

Article 234

1. The application of Community rules to products covered by this Chapter shall be carried out in accordance with a 'classic' transition or a transition by 'stages', the general rules of which are defined in Sections II and III respectively and the specific detailed rules of which, depending on product sector, in Sections IV and V.

2. Unless otherwise provided for in specific cases, the Council, acting by a qualified majority on a proposal from the Commission, shall adopt the provisions necessary to implement the provisions of this Chapter.

These provisions may in particular comprise adequate measures to avoid deflections of trade in the trade between Portugal and the other Member States.

3. The Council, acting unanimously on a proposal from the Commission after consulting the European Parliament, may make the adjustment to the provisions appearing in this Chapter which may prove to be necessary as a result of an amendment to Community rules.

Section II

Classic transition

Sub-section 1

Scope

Article 235

All the agricultural products referred to in Article 233, with the exception of those referred to in Article 259, shall be subject to the provisions of this Section.

Sub-section 2

Price compensation and moves towards price alignment

Article 236

Before the first move towards price alignment referred to in Article 238, the prices to be applied in Portugal shall be fixed, in accordance with the rules provided for in the common organization of the market in the sector in question, at a level corresponding to that of prices fixed in Portugal under the previous national system, for a representative period to be determined for each product.

However, should application of the foregoing subparagraph lead to Portuguese prices being fixed at a level higher than that of the common prices, the level to be adopted for fixing Portuguese prices shall be that corresponding to the prices fixed in Portugal, under the previous national arrangements, for the 1985/86 marketing year, converted by means of the conversion rate into ECU which obtained at the beginning of the marketing year of the product concerned.

If, for a given product, there is no definition of the Portuguese price, the price to be applied in Portugal shall be fixed on the basis of the prices actually recorded on Portuguese markets over a representative period to be determined.

However, in the absence of price data in respect of certain products on the Portuguese market, the price to be applied in Portugal shall be calculated on the basis of the prices obtaining in the Community as at present constituted of similar products or groups of similar products, or products with which they are in competition.

Article 237

1. Should it be found, on accession, that the variation between the price level for a product in Portugal and the common price level is minimal, the common price may be applied in Portugal for the product in question.

2. The variation referred to in paragraph 1 shall be considered as minimal where it is less than, or equal to, 3 % of the common price.

Article 238

1. If the application of the provisions of Article 236 in Portugal results in a price level different from that of the common prices, the prices in respect of which, in Section IV, reference is made to this Article shall, subject to paragraph 4, be aligned on the common prices each year at the beginning of the marketing year in accordance with paragraphs 2 and 3.

2. Where the price of a product in Portugal is lower than the common price, the move towards alignment shall be made in seven stages, the price in Portugal, at the time of the first six moves towards alignment, being increased successively, by a seventh, a sixth, a fifth, a quarter, a third and a half of the difference between the price level in that Member State and the common price level which is applicable before each move towards alignment; the price resulting from that calculation shall be increased or reduced proportionately to any rise or fall in the common price for the next marketing year; the common price shall be applied in Portugal at the time of the seventh move towards alignment.

3. (a) Where the price of a product in Portugal is higher than the common price, the price in that Member State shall be maintained at the level resulting from the application of Article 236, the moves towards alignment resulting from the development of common prices during the seven years following accession.

However, the price in Portugal shall be adjusted to the extent necessary to avoid an increase in the variation between that price and the common price.

Furthermore, if the Portuguese prices, expressed in ECU, fixed under the previous national arrangements for the 1985/86 marketing year, lead to the variation existing for the 1984/85 marketing year between the Portuguese prices and the common prices being exceeded, the price in Portugal resulting from the application of the two preceding subparagraphs shall be reduced by an amount to be determined which is equivalent to a part of the excess, in such a way that the excess is absorbed in full at the latest at the beginning of the fifth marketing year following accession.

Without prejudice to point (b), the common price shall be applied in Portugal at the time of the seventh move towards alignment.

- (b) At the end of the fifth year from the date of accession, the Council shall carry out an analysis of the development of moves towards price alignment. To that end, the Commission shall forward to the Council, within the framework of the reports referred to in Article 264 (2) (c), an opinion together with, where appropriate, adequate proposals.

If this analysis shows:

- that the variation between Portuguese prices and common prices, while being too great to be absorbed over the period still to run for price alignment under paragraph 2, can, nevertheless, seemingly be made up within a limited timespan, the period for price alignment initially laid down may be extended; in that case, prices shall be maintained at their previous level in accordance with the rule set out in (a) above,
- that the variation between Portuguese prices and common prices is too great to be made up solely by extending the period for price alignment initially laid down, it may be decided that, in addition to that extension, alignment shall be made by a progressive reduction in Portuguese prices, expressed in real terms, accompanied, if necessary, by indirect, temporary and degressive aid in order to alleviate the

degressive effect of those prices. The burden of financing such aid shall fall upon the Portuguese budget.

The Council, acting by a qualified majority and on a proposal from the Commission after consulting the Assembly, shall adopt the measures referred to in the subparagraph.

4. In the interests of the smooth functioning of the process of integration, it may be decided that, notwithstanding paragraph 2, the price of one or more products in Portugal shall for one marketing year vary from the prices resulting from the application of that paragraph.

The variation may not exceed 10 % of the amount of the price move to be made.

In that event, the price level for the following marketing year shall be that which would have resulted from applying paragraph 2 if the variation had not been decided upon. A further variation from that price level may, however, be decided upon for that marketing year in accordance with the conditions in the first and second subparagraphs.

The derogation laid down in the first subparagraph shall not apply to the last move towards alignment referred to in paragraph 2.

Article 239

Where, on the date of accession or during the period of application of the transitional measures, the price on the world market for a certain product exceeds the common price, the common price may be applied in Portugal for the product in question except where the price applied in Portugal is higher than the common price.

Article 240

The differences in price levels in respect of which, in Section IV, reference is made to this Article shall be compensated for as follows:

1. For products in respect of which prices are fixed in accordance with Articles 236 and 238, the compensatory amounts applicable in trade between the Community as at present constituted and Portugal, and between Portugal and third countries, shall be equal to the difference between the prices fixed for Portugal and the common prices.

However, the compensatory amount established pursuant to the rules referred to above shall, should the need arise, be corrected by the incidence of national aids which the Portuguese Republic is authorized to maintain by virtue of Articles 247 and 248.

2. No compensatory amount shall be fixed if the application of paragraph 1 results in a minimal amount.
 3. (a) In trade between Portugal and the Community as at present constituted, compensatory amounts shall be levied by the importing State or granted by the exporting State.
 - (b) In trade between Portugal and third countries, levies or other import charges applied under the common agricultural policy, and, save for express derogation, export refunds, shall be reduced or increased, as the case may be, by the compensatory amounts applicable in trade with the Community as at present constituted.
- Customs duties may not, however, be reduced by the compensatory amount.

4. For products in respect of which the duty in the Common Customs Tariff is bound under the General Agreement on Tariffs and Trade, the binding shall be taken into account.
 5. The compensatory amount levied or granted by a Member State in accordance with paragraph 1 may not exceed the total amount levied by that same Member State on imports from third countries, benefiting from the most-favoured-nation clause.
- The Council, acting by a qualified majority on a proposal from the Commission, may derogate from this rule, in particular in order to avoid deflections of trade and distortions of competition.
6. The Council, acting by a qualified majority on a proposal from the Commission, may derogate, in so far as is necessary for the proper functioning of the common agricultural policy, from the first subparagraph of Article 211 (1) for products to which compensatory amounts apply.

Article 241

If the world market price for a product is higher than the price used in calculating the import charge introduced under the common agricultural policy, less the compensatory amount deducted from the import charge in accordance with Article 240, or if the refund on exports to third countries is less than the compensatory amount, or if no refund is applicable, appropriate measures may be taken with a view to ensuring the proper functioning of the common organization of the market.

Article 242

1. The compensatory amounts granted shall be financed by the Community from the Guarantee Sec-

tion of the European Agricultural Guidance and Guarantee Fund.

2. Expenditure to be made by the Portuguese Republic with regard to intervention on its internal market and to the granting of refunds or subsidies for exports to third countries and other Member States shall remain national until the end of the first stage for the products referred to in Article 259.

From the second stage, this expenditure on intervention on the Portuguese internal market and on the granting of export refunds to third countries shall be financed by the Community from the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

Sub-section 3

- on 1 March 1986, each duty shall be reduced to 90,9 % of the basic duty,

(d) Without prejudice to point 4, for vegetable oils, other than olive oil, intended for human consumption, the Community as at present constituted and the Portuguese Republic shall apply without change their respective basic duties during the period of application to Portugal of certain control mechanisms referred to in Article 292. On expiry of that period, the basic duties shall be progressively abolished in accordance with the following timetable:

- on 1 January 1996, every duty shall be abolished.

2. For the purposes of introducing the Common Customs Tariff, the Portuguese Republic shall apply in full Common Customs Tariff duties as from 1 March 1986, except for:

(a) Without prejudice to point 4, products referred to in Annex XX and products for which Portuguese basic duties are higher than those of the Common Customs Tariff, for which, for the purpose of the progressive introduction of the Common Customs Tariff, the Portuguese Republic shall amend its tariff applicable to third countries as follows:

(aa) For the tariff positions for which the basic duties do not vary by more than 15 % from the Common Customs Tariff duties, these latter duties shall apply.

(bb) In the other cases, the Portuguese Republic shall apply a duty reducing the variation between the basic duties and the Common Customs Tariff duties in eight equal instalments of 12,5 % on the following dates:

- (b) Without prejudice to point 4, oil seeds and oleaginous fruit and products derived therefrom falling under Regulation No 136/66/EEC — except for vegetable oils, other than olive oil, intended for human consumption — for which, so that the Common Customs Tariff may be progressively introduced, the Portuguese Republic shall amend its tariff applicable to third countries as follows:

- (aa) For the tariff headings for which the basic duties do not vary by more than 15 % from the Common Customs Tariff duties, these latter duties shall apply.

- (bb) In the other cases, the Portuguese Republic shall apply a duty reducing the variation between the basic duty and the Common Customs Tariff duty in accordance with the following timetable:

4. For products subject to the common organization of markets, it may be decided, following the procedure laid down in Article 38 of Regulation No 136/66/EEC or, as the case may be, in the corresponding Articles of other Regulations setting up the common organization of agricultural markets, that:

- (a) the Portuguese Republic, at its request, shall:
- abolish the customs duties referred to in point 1 (b), (c) and (d) or move towards the alignment referred to in point 2 (a), (b) and (c) at a more rapid rate than laid down therein,
 - suspend in whole or in part the customs duties referred to in point 1 (b), (c) and

- (d) applicable to products imported from the present Member States,
- suspend in whole or in part the customs duties on products imported from third countries as referred to in point 2 (a), (b) and (c):
- (b) the Community as at present constituted shall:

 - suspend in whole or in part the customs duties referred to in point 1 (a), (c) and (d) applicable to products imported from Portugal.

For products which are not subject to the common organization of markets:

- (a) no decision is required for the Portuguese Republic to apply the measures referred to in the first and second indents of point (a) of the first subparagraph; the Portuguese Republic shall inform the other Member States and the Commission of the measures taken;
- (b) the Commission may suspend in whole or in part the customs duties applicable to products imported from Portugal.

The customs duties resulting from an accelerated alignment or the suspended customs duties may not be less than the customs duties on imports of the same products from other Member States.

Article 244

1. In trade between Portugal and the other Member States and between Portugal and third countries the system applicable in the Community as at present constituted in respect of customs duties and charges having equivalent effect and quantitative restrictions and measures having equivalent effect shall apply in Portugal from 1 March 1986, subject to any provision to the contrary in this Chapter in respect of products covered, on the date of accession by the common organization of markets.

2. In respect of products not covered, on 1 March 1986, by the common organization of markets, the abolition of charges having equivalent effect to customs duties and of quantitative restrictions and measures having equivalent effect shall take place on that date, unless they form an integral part of a national market organization in Portugal or in another Member State on the date of accession.

This provision shall apply only until the common organization of the market for these products is implemented and not later than 31 December 1995 and to

the extent strictly necessary to ensure the maintenance of the national organization.

3. The Portuguese Republic shall apply the Common Customs Tariff nomenclature as from 1 March 1986.

To the extent that no difficulties arise in the application of the Community rules and, in particular, in the functioning of the common organization of markets and of the transitional mechanisms provided for in this Chapter, the Council, acting by a qualified majority on a proposal from the Commission, may authorize the Portuguese Republic to include within this nomenclature such existing national subdivisions as would be indispensable for carrying out the progressive moves towards alignment with the Common Customs Tariff or the elimination of the duties in the Community under the conditions laid down in this Act.

Article 245

1. Until 31 December 1992, the Portuguese Republic may apply quantitative restrictions to the import from third countries of products referred to in Annex XXI.

- 2. (a) The quantitative restrictions referred to in paragraph 1 shall consist of annual quotas opened without discrimination between economic operators.
- (b) The initial quota in 1986 for each product, expressed, as the case may be, in ECU, shall be fixed:
 - either at 3 % of the average of Portuguese annual production over the last three years before accession for which statistics are available,
 - or at the average of Portuguese imports realized over the last three years before accession for which statistics are available, if this latter criterion were to lead to a higher volume or amount.

3. The minimum rate of progressive increase of the quotas shall be 20 % at the beginning of each year with respect to the quotas expressed in terms of value, and 15 % at the beginning of each year with respect to the quotas expressed in terms of volume.

The increase shall be added to each quota and the subsequent increase shall be calculated on the basis of the total figure obtained.

4. Where imports made to Portugal over two consecutive years are less than 90 % of the annual quota opened, the quantitative restrictions in force in Portugal shall be abolished.

5. For the period 1 March to 31 December 1986 the applicable quota shall be equal to the initial quota reduced by one-sixth.

Sub-section 4

Aid

Article 246

1. The provisions of this Article shall apply to aid, premiums or other similar amounts set up under the common agricultural policy in respect of which reference is made to this Article in Section IV.

2. For the purposes of applying Community aid in Portugal, the following provisions shall apply:

- (a) The level of Community aid to be granted for a given product in Portugal from 1 March 1986 shall be equal to an amount defined on the basis of aids granted by the Portuguese Republic, during a representative period to be determined, under the previous national arrangements. However, that amount may not exceed the amount of aid granted on 1 March 1986 to the Community as at present constituted. If no similar aid was granted under the previous national arrangements, and subject to the following provisions, no aid shall be granted in Portugal on 1 March 1986.
- (b) At the start of the first marketing year or, in the absence thereof, during the first period of application of the aid following accession:
 - either Community aid shall be introduced in Portugal at a level representing one-seventh of the amount of Community aid applicable for the ensuing marketing year or period,
 - or the level of Community aid in Portugal shall, where a difference exists, be aligned on the level of aid applicable in the Community as at present constituted for the ensuing marketing year or period by one-seventh of the difference existing between those two aids.
- (c) At the start of the following marketing years or periods of application, the level of Community aid in Portugal shall be aligned on the level of aid applicable in the Community as at present constituted for the ensuing marketing year or period successively by one-sixth, one-fifth, one-quarter, one-third and half the difference existing between those two aids.
- (d) The level of Community aid shall be applied in its entirety in Portugal at the start of the seventh marketing year or period of application of the aid following accession.

Article 247

1. Without prejudice to Article 246, the Portuguese Republic shall be authorized to maintain national aids, the abolition of which would not fail to have serious consequences for both producer and consumer prices. However, such aids can only be maintained on a transitional and, in principal, degressive basis, until not later than the end of the period of application of the transitional measures.

2. The Council, acting in accordance with Article 258, shall adopt the necessary measures for the implementation of the provisions of this Article. These measures shall include, in particular, the list and the exact wording of the aids referred to in paragraph 1, the amount of the aids, the timetable of their abolition, any degressivity scale and the detailed rules necessary to ensure the proper functioning of the common agricultural policy; these detailed rules must, in addition, ensure equal access to the Portuguese market.

3. Should the need arise, a derogation may be made, during the period of application of the transitional measures, from the degressivity scale referred to in paragraph 2.

Article 248

1. In exceptional and duly substantiated cases, the Portuguese Republic shall be authorized to reintroduce, chargeable to its budget, temporary production aids, provided that such aids were granted under the previous national arrangements and that abolition thereof before accession proves to have had serious consequences on production.

2. The national aids referred to in paragraph 1 may only be re-introduced on a temporary and, in principle, degressive basis until the end of the period of application of the transitional measures at the latest.

The Council, acting by a qualified majority on a proposal from the Commission shall adopt, where necessary, the necessary measures which should contain the same detailed rules and elements as those referred to in Article 247 (2).

Sub-section 15

Supplementary trade mechanism

Article 249

1. A supplementary mechanism applicable to trade between the Community as at present constituted and

Portugal shall be set up, hereinafter referred to as 'the STM' (supplementary trade mechanism).

The STM shall apply from 1 March 1986 to 31 December 1995.

2. Products appearing on the list in Annex XXII shall be subject to the STM.

The list referred to in Annex XXII may be supplemented, in accordance with the procedure laid down in Article 250, during the first three years following accession.

3. The Commission shall submit at the beginning of each year a report to the Council on the functioning of the STM during the previous year.

Article 250

1. An *ad hoc* Committee shall be established consisting of representatives of the Member States and chaired by a representative of the Commission.

2. Within the *ad hoc* Committee the votes of Member States shall be weighted in accordance with Article 148 (2) of the EEC Treaty. The chairman shall not vote.

3. Where the procedure laid down in this Article is referred to, the chairman shall forthwith refer the matter to the Committee, either on his own initiative or at the request of a Member State.

4. The representative of the Commission shall submit a draft of the measures to be adopted. The Committee shall deliver its opinion on those measures within a time limit set by the chairman according to the urgency of the issues submitted to him for examination. The Committee shall take a decision by a majority of 54 votes.

5. The Commission shall adopt measures and shall apply them immediately where they are in accordance with the opinion of the Committee. If they are not in accordance with the opinion of the Committee, or in the absence of any opinion, the Commission shall forthwith submit to the Council a proposal relating to the measures to be taken. The Council shall adopt the measures on a qualified majority.

If, on the expiry of one month from the date on which the matter was referred to it, the Council has not adopted any measures, the Commission shall adopt the proposed measures and apply them immediately, save in the case where the Council has decided by a simple majority against the said measures.

Article 251

1. As a general rule, at the start of each marketing year, a forward estimate shall be drawn up, in accordance

with the procedure set out in Article 38 of Regulation No 136/66/EEC or, as the case may be, in the corresponding Articles of the other Regulations on the common organization of agricultural markets, for each of the products or groups of products subject to the STM.

This estimate shall be drawn up on the basis of production and consumption estimates in Portugal or in the Community as at present constituted; on the basis of this estimate, a forward timetable shall be drawn up for the marketing year in question in accordance with the same procedure on development in trade and on fixing a target import ceiling in the market in question.

For the period 1 March 1986 until the beginning of the 1986/87 marketing year, for each of the products or groups of products, a specific estimate shall be drawn up.

2. The successive fixings of target ceilings must reflect a certain progress in relation to traditional trade flows, so as to ensure a harmonious and gradual opening up of the market and the full realization of free movement within the Community on the expiry of the period of application of transitional measures.

To that end, an annual rate of progress for the ceiling shall be determined in accordance with the procedure referred to in paragraph 1. Within the framework of the overall target ceiling, ceilings may be fixed corresponding to the different periods of the marketing year in question.

Article 252

1. Should the examination of developments in intra-Community trade show that a significant increase in imports has taken place or is forecast and if that situation should result in the target import ceiling for the product being reached or exceeded for the current marketing year or part thereof, the Commission, at the request of a Member State or on its own initiative, shall decide, in accordance with emergency procedures, on:

- the interim protective measures that are necessary and which shall apply until the entry into force of the definitive measures provided for in paragraph 3,
- convening the Management Committee of the sector concerned, with a view to examining appropriate measures.

2. Should the situation referred to in paragraph 1 cause a serious disturbance on the market, a Member State may request the Commission to take the interim protective measures referred to in paragraph 1 immediately. To that end the Commission shall take a decision within 24 hours of receiving the request.

Should the Commission not take a decision within that period, the requesting Member State may take interim protective measures, which shall be immediately notified to the Commission.

These measures shall remain applicable until such time as the Commission has acted on the request referred to in the first subparagraph.

3. Definitive measures shall be adopted as soon as possible following the procedure set out in Article 38 of Regulation No 136/66/EEC or, as the case may be, in the corresponding Articles of other Regulations on the common organization of agricultural markets.

These measures may include, in particular:

- (a) the revision of the target ceiling, if the market in question has not suffered significant disturbances following the development of imports;
- (b) based on the seriousness of the situation, assessed in particular on the basis of the trend in market prices and in the quantities which form the subject of trade, the limitation or suspension of imports on to the market of the Community as at present constituted or on to the Portuguese market.

The restrictive measures referred to in (b) may be taken only to the extent, and for such time as is strictly necessary, to put an end to the disturbance. With regard to the Community as at present constituted, those measures may be limited to imports intended for certain of its regions, provided that they include appropriate provisions to avoid deflections of trade.

4. The application of the STM may in no event lead to products coming from Portugal or from the Community as at present constituted being treated in a less favourable manner than those coming from third countries benefiting from the most-favoured-nation clause, which are sold in the regions concerned.

Sub-section 6

Other provisions

Article 253

In order to improve the structural situation in Portugal the following measures shall apply:

- (a) the implementation, from the interim period, of definite preparatory measures for adopting and applying the 'acquis communautaire' particularly in the field of production, processing and marketing structures and in that of producers' associations;

- (b) the application in Portugal, from the date of accession, of Community rules in the socio-structural field including those relating to producers' associations;
- (c) the extension, to the advantage of Portugal, within the framework of the rules referred to in (b), of the most favourable specific provisions existing at that date, in horizontal Community rules, to the least-favoured areas of the Community as at present constituted;
- (d) in addition, the implementation of additional structural measures in favour of Portugal in the form of a specific programme for the development of Portuguese agriculture.

The Council, acting under the conditions laid down in Article 258, shall adopt, if necessary, the measures or the detailed rules of such measures referred to in the first paragraph.

Article 254

Any stock of products in free circulation in Portuguese territory on 1 March 1986 which in quantity exceeds what may be considered representative of a normal carry-over stock must be eliminated by and at the expense of the Portuguese Republic under Community procedures to be specified, and within the time limits to be determined, under the conditions provided for in Article 258. The concept of normal carry-over stock shall be defined for each product on the basis of the criteria and objectives particular to each common organization of the markets.

Article 255

In fixing the level of the various amounts laid down within the common agricultural policy, except for the prices referred to in Article 236, account shall be taken of the compensatory amount applied or, in the absence thereof, of the difference in prices recorded or economically justified and, where appropriate, of the incidence of customs duties, except in the following circumstances:

- where there is no likelihood that trade will be disturbed, or
- where the smooth running, of the common agricultural policy requires that this amount, difference or incidence be not taken into account or renders such taking into account undesirable.

Article 256

1. The Council, acting in accordance with the conditions provided for in Article 258, shall adopt the arrangements applicable by the Portuguese Republic with regard to the Kingdom of Spain.

2. The measures made necessary in trade between the new Member States and the Community as at present constituted, for the implementation of the arrange-

ments referred to in paragraph 1, shall be adopted, as the case may be, under the conditions laid down in Article 258 or following the procedure laid down in Article 234 (2).

Article 257

1. If transitional measures are necessary to facilitate the passage from the existing arrangements in Portugal to those resulting from the application of the common organization of the markets as provided for in this Title, particularly if for certain products the implementation of the new arrangements on the scheduled date meets with appreciable difficulties in the Community, such measures shall be adopted following the procedure provided for in Article 38 of Regulation No 136/66/EEC or, as the case may be, in the corresponding Articles of the other Regulations on the common organization of agricultural markets. Such measures may be taken during the period up to 31 December 1987, but their application may not extend beyond that date.

2. The Council may, acting unanimously on a proposal from the Commission and after consulting the Assembly, extend the period referred to in paragraph 1.

Article 258

1. The transitional measures relating to the application of acts concerning the common agricultural policy and not specified in this Act, including the field of structures, which are rendered necessary by the accession shall be adopted before accession in accordance with the procedure laid down in paragraph 3 and shall enter into force on the date of accession at the earliest.

2. The transitional measures referred to in paragraph 1 shall be those indicated in Articles 247, 253, 254, 256, 263 (2) and 280.

3. The Council, acting by a qualified majority on a proposal from the Commission, or the Commission, deciding in accordance with the procedure referred to in Article 257 (1), shall adopt the transitional measures referred to in paragraph 1 of this Article depending on which of those institutions adopted the initial acts, affected by those measures.

Section III

Transition by stages

Sub-section 1

Article 259

1. Products falling within the following acts shall be subject to a transition by stages:

- Regulation (EEC) No 804/68 on the common organization of the market in milk and milk products,
- Regulation (EEC) No 805/68 on the common organization of the market in beef and veal,
- Regulation (EEC) No 1035/72 on the common organization of the market in fruit and vegetables,

2. Glucose and lactose falling under Regulation (EEC) No 2730/75 and ovalbumin and lactalbumin falling under Regulation (EEC) No 2783/75 shall be subject to the same transitional arrangements as those applicable to the corresponding agricultural products.

Article 260

1. The transition by stages shall consist of two periods of five years:

- the first stage shall begin on 1 March 1986 and end on 31 December 1990,
- the second stage shall begin on 1 January 1991 and end on 31 December 1995.

The transition from the first to the second stage shall take place automatically.

2. Notwithstanding paragraph 1, the Council, acting by a qualified majority on a proposal from the Commission and after consulting the Assembly, may reduce the length of the first stage to a period of three years expiring on 31 December 1988. In that case the second stage shall begin on 1 January 1989 and end on 31 December 1995.

Sub-section 2

First stage

A. *Portuguese domestic market**Article 261*

1. During the first stage, the Portuguese Republic shall be authorized to maintain, for the products referred to in Article 259, the rules in force under its previous national arrangements for the organization of its domestic agricultural market, under the conditions laid down in Articles 262 to 265 and subject to the special provisions of the section concerning certain products.

2. As a consequence thereof, and by way of derogation from Article 394, the application to Portugal of the Community rules on the organization of the internal market shall be postponed until the end of the first stage.

Furthermore, and unless provision is made otherwise in specific cases, the application to the Community as at present constituted and to Portugal of amendments made to the Community rules under Article 396 shall be postponed until the end of the first stage.

Article 262

In order that Portuguese agriculture may be harmoniously integrated into the framework of the common agricultural policy at the end of the first stage, the Portuguese Republic shall progressively adjust the organization of its market on the basis of a certain number of general objectives supplemented by variable specific objectives according to the sectors concerned.

Article 263

1. The general objectives referred to in Article 262 consist in achieving:

- an appreciable improvement in the conditions of production, processing and marketing of agricultural products in Portugal,
- an overall improvement in the structural situation of the Portuguese agricultural sector.

2. In order to further the achievement of the general objectives, the following measures shall apply for the products referred to in Article 259:

- (a) the implementation, from the interim period, of concrete preparatory measures for adopting and applying the 'acquis communautaire' particularly in the field of production, processing and market-

ing structures and in that of producers' organizations;

- (b) the application in Portugal, from the date of accession, of Community rules in the socio-structural field, including those relating to producers' organizations;
- (c) the extension, to the advantage of Portugal, within the framework of the rules referred to under (b), of the most favourable specific provisions existing at that date, in horizontal Community rules, to the least-favoured areas of the Community as at present constituted;
- (d) in addition, the implementation of structural measures in favour of Portugal in the form of a specific programme for the development of Portuguese agriculture.

The Council, acting under the conditions laid down in Article 258, shall adopt, if necessary, the measures or the detailed rules of such measures referred to in the first paragraph.

Article 264

1. The specific objectives referred to in Article 262 appear, according to the product sector concerned, in Section V.

- 2. (a) For the purposes of achieving the specific objectives, the Commission shall draw up during the interim period, in close cooperation with the Portuguese authorities, an action programme.
- (b) Thereafter the Commission shall follow closely the development of the situation in Portugal in the light of:
 - progress made towards achievement of the set objectives,
 - results obtained through the implementation of horizontal specific structural measures.
- (c) The Commission shall express its opinion on this development in reports which it shall forward to the Council:
 - at the end of the interim period with a view to establishing a record of the developments that occurred before the date of accession,
 - in good time before the end of the third year following accession,
 - at any other time it may deem it useful or necessary.
- (d) Taking into account, in particular, Council discussions on the reports referred to in (c), the Commission may formulate, if necessary, recommendations to the Portuguese Republic with regard to measures which should be taken with a view to achieving the objectives in question.

Article 265

During the first stage the Portuguese Republic shall apply the following disciplines:

1. A price discipline:

- (a) Where Portuguese prices, expressed in ECU, are less than or equal to the common prices:

— without prejudice to price harmonization in the milk and milk products sector referred to in Article 309 (d), annual increases in prices may not exceed, in value, the increase in common prices,

— however:

- (aa) in the event that Portuguese prices are lower than the common prices and where, in accordance with the aid discipline referred to in (c), the abolition of certain aids — either granted directly to products at primary production level, or granted to the means of production — leads to a reduction in income for Portuguese producers, an increase supplementary to that referred to in the first indent, limited to the impact, on the producers' income, of the abolished aids, may be applied;
- (bb) with regard to products falling within heading No 22.05 of the Common Customs Tariff, for which institutional prices are fixed, the annual increase in Portuguese prices may reach, without exceeding it, the level of the instalment resulting from a price alignment made over 10 years.

In no event may Portuguese prices exceed the level of common prices.

For the purposes of applying the price discipline defined in this paragraph (a), the level of Portuguese prices to be taken into account in the first marketing year following accession shall be the level of Portuguese prices fixed for the 1985/86 marketing year, converted into ECU at the rate valid at the start of that marketing year for the products in question.

- (b) Should the length of the first stage not be reduced in accordance with Article 260 (2), and where Portuguese prices are less than common prices, the Portuguese Republic shall, during the fifth year of the first stage, at the start of the marketing year of the product in question, make a price alignment move towards the level of common prices applicable for the same year, following detailed rules to be determined.

To that end, the Portuguese prices to be aligned shall be the prices expressed in ECU, at the level reached on 31 December 1989, in accordance with the rules of the price discipline referred to in paragraph (a).

- (c) Where the level reached by Portuguese prices for the 1985/86 marketing year, expressed in ECU by means of the conversion rate which was valid at the start of the marketing year of the product concerned, is higher than the level of the common prices, the level of the Portuguese prices may not be increased in relation to its previous level.

Furthermore, if the Portuguese prices, expressed in ECU, fixed under the previous national arrangements for the 1985/86 marketing year, lead to the variation existing for the 1984/85 marketing year between the Portuguese prices and the common prices being exceeded, the Portuguese Republic shall fix its prices for subsequent marketing years in such a way that this variation is totally absorbed during the first seven marketing years following accession.

Furthermore, Portugal shall adjust its prices to the extent necessary to avoid an increase in the variation between its prices and the common prices.

- (d) The Commission shall ensure the observance of the rules referred to above. Any price movement overrun which may arise therefrom shall not be taken into consideration when determining the price level to be adopted as the starting level for moves towards price alignment during the second phase referred to in Article 285.

2. An aid discipline:

Under this discipline, and without prejudice to Article 248, the Portuguese Republic shall be authorized to maintain its national aid during the first stage.

However, during that period, the Portuguese Republic shall ensure that a certain dismantling of national aid, which does not comply with Community law, takes place and that the Community aid plan is progressively introduced in the organization of its domestic market without the level of that aid exceeding the common level.

3. A production discipline:

Under this discipline the Portuguese Republic shall take the necessary measures to avoid a situation whereby, in sectors for which Community regulations establish production discipline rules:

- any production increases occurring in its territory during the first stage lead to a worsening of the overall Community production situation,
- the adoption of the 'acquis communautaire' from the start of the second phase is made more difficult.

Article 266

1. Before the end of the first stage at the latest:
 - the Commission shall, if necessary, forward a report to the Council, together with proposals, on the development of the situation in one or several sectors referred to in Article 259 in relation to the objectives set for the duration of the first stage,
 - the Council, acting unanimously on proposals from the Commission and after consulting the Assembly, shall decide on any necessary adjustments to the transition procedure within the maximum period of ten years laid down for the application of the transitional measures, and for such period of time as is strictly necessary in order to ensure the functioning of the common organization of the markets.
2. Paragraph 1 shall not affect the automatic nature of the transition from the first to the second stage provided for in Article 260(1) and may not lead to an amendment of Articles 371 to 375.

B. Arrangements applicable in trade between the Community as at present constituted and Portugal

Article 267

Subject to Articles 268 to 276 and Section V, the Portuguese Republic shall be authorized to apply in its trade with the Community as at present constituted, during the first stage and for the products referred to in Article 259, the arrangements in force before its accession for that trade, both with regard to imports and exports.

Article 268

1. Subject to paragraph 2, the Portuguese Republic shall eliminate, from 1 March 1986, any levy of customs duties and of charges having equivalent effect on the import of products from the Community as at present constituted.
2. For the products referred to in Article 259, for which imports from third countries into the Community as at present constituted are subject to the

application of customs duties, the following provisions shall apply with a view to a progressive abolition of those duties over the first and second stages:

- (a) Customs duties applicable to imports into the Community as at present constituted of products from Portugal shall be abolished in accordance with the following timetable:

- on 1 March 1986, each duty shall be reduced to 88,9 % of the basic duty,
- on 1 January 1987, each duty shall be reduced to 77,8 % of the basic duty,
- on 1 January 1988, each duty shall be reduced to 66,7 % of the basic duty,
- on 1 January 1989, each duty shall be reduced to 55,6 % of the basic duty,
- on 1 January 1990, each duty shall be reduced to 44,5 % of the basic duty,
- on 1 January 1991, each duty shall be reduced to 33,4 % of the basic duty,
- on 1 January 1992, each duty shall be reduced to 22,3 % of the basic duty,
- on 1 January 1993, each duty shall be reduced to 11,2 % of the basic duty,
- on 1 January 1994, every duty shall be abolished.

However:

- for quality liqueur wines produced in specified regions, falling within heading No 22.05 of the Common Customs Tariff, the Community as at present constituted shall reduce its basic duties in three instalments in accordance with the following timetable:
 - on 1 March 1986, each duty shall be reduced to 66,7 % of the basic duty,
 - on 1 January 1987, each duty shall be reduced to 33,4 % of the basic duty,
 - on 1 January 1988, every duty shall be abolished,
- for 'vinhos verdes' and Dão wines falling within heading No 22.05 of the Common Customs Tariff, the Community as at present constituted shall reduce its basic duties in four equal successive instalments of 25 % on the following dates:
 - 1 March 1986,
 - 1 January 1987,
 - 1 January 1988,
 - 1 January 1989,
- for other wines treated in the same way as quality wines psr, falling within heading No 22.05 of the Common Customs Tariff, the Community as at present constituted shall

reduce its basic duties in six instalments in accordance with the following timetable:

- on 1 March 1986, each duty shall be reduced to 83,3 % of the basic duty,
- on 1 January 1987, each duty shall be reduced to 66,6 % of the basic duty,
- on 1 January 1988, each duty shall be reduced to 49,9 % of the basic duty,
- on 1 January 1989, each duty shall be reduced to 33,2 % of the basic duty,
- on 1 January 1990, each duty shall be reduced to 16,5 % of the basic duty,
- on 1 January 1991, every duty shall be abolished.

(b) Customs duties applicable to imports into Portugal of products referred to in Article 259 from the Community as at present constituted shall be progressively abolished in accordance with the following timetable:

- on 1 March 1986, each duty shall be reduced to 90,9 % of the basic duty,
- on 1 January 1987, each duty shall be reduced to 81,8 % of the basic duty,
- on 1 January 1988, each duty shall be reduced to 72,7 % of the basic duty,
- on 1 January 1989, each duty shall be reduced to 63,6 % of the basic duty,
- on 1 January 1990, each duty shall be reduced to 54,5 % of the basic duty,
- on 1 January 1991, each duty shall be reduced to 45,4 % of the basic duty,
- on 1 January 1992, each duty shall be reduced to 36,3 % of the basic duty,
- on 1 January 1993, each duty shall be reduced to 27,2 % of the basic duty,
- on 1 January 1994, each duty shall be reduced to 18,1 % of the basic duty,
- on 1 January 1995, each duty shall be reduced to 9 % of the basic duty,
- on 1 January 1996, every duty shall be abolished.

However:

- where, during the first stage, for one of the products referred to in Annex XXIII, a ceiling is placed on the duty resulting from the application of the preceding subparagraph in accordance with Article 191 at the level of duty applicable on import into Portugal from a third country benefiting from the most-favoured nation clause, and
- where the situation persists at the beginning of the second stage,

the progressive abolition of the residual duty shall take place during the second stage starting from the

level of duty actually applied at the beginning of the second stage in accordance with a timetable to be determined.

3. Within the meaning of paragraphs 1 and 2, the basic duty shall be that defined in Article 189.

However:

- for the application of paragraph 2 (b), and with the exception of the basic duty applicable to products referred to in Annex XXIII, the basic duty may not exceed the level of the Common Customs Tariff duty,
- for quality liqueur wines produced in specified regions for 'vinhos verdes' and Dão wines, the basic duties shall be those actually applied under the tariff quotas of the previous arrangements. The tariff quotas applied under these previous arrangements shall be abolished from 1 March 1986.

4. The provisions of Article 243 (4) shall apply *mutatis mutandis* during the period of abolition of the customs duties referred to in paragraph 2. However, where Article 243 (4) makes provision, with regard to the Portuguese Republic, for a decision following the procedure described in the first subparagraph of that paragraph, the Portuguese Republic may act without that procedure; in that case it shall inform the other Member States and the Commission of the measures taken.

Unless this Article or Article 243 (4) provide otherwise, Articles 189 to 195 shall also apply.

Article 269

1. Subject to paragraph 2, the Portuguese Republic shall, from 1 March 1986, eliminate the application of all quantitative restrictions and all measures having equivalent effect on imports of products referred to in Article 259 coming from the Community as at present constituted.

2. (a) Until the end of the first stage, the Portuguese Republic may maintain quantitative restrictions on imports coming from the Community as at present constituted of the products referred to in Annex XXIII.
- (b) The quantitative restrictions referred to in (a) shall consist of annual quotas opened without discrimination between economic operators.

The initial quota in 1986 for each product, expressed as the case may be in terms of volume or in ECU, shall be fixed:

- either at 3 % of the average of Portuguese annual production during the last three

years before accession for which statistics are available,

- or at the average of Portuguese imports made over the last three years before accession for which statistics are available, where this criterion results in a greater volume or amount.

- (c) The minimum rate of progressive increase of the quotas shall be 15 % at the beginning of each year with respect to the quotas expressed in terms of value, and 10 % at the beginning of each year with respect to the quotas expressed in terms of volume.

The increase shall be added to each quota and the following increase shall be calculated on the basis of the total figure obtained.

- (d) Where imports into Portugal during two consecutive years are less than 90 % of the annual quota opened, Portugal shall abolish the quantitative restrictions in force.
- (e) For the period running from 1 March to 31 December 1986 the applicable quota shall be equal to the initial quota reduced by one-sixth.

Article 270

1. During the first stage, the Portuguese Republic shall apply to the import of products referred to in Article 259 from the Community as at present constituted a system of price equalization or, of specific protection, such as that laid down by Community rules for imports from third countries. This system must be based on criteria identical to those adopted by Community rules to determine the parameters of price equalization or of the level of specific protection.

2. For those of the products referred to in Article 259 which are not subject to restrictions in trade between Portugal and the present Member States or between Portugal and third countries under Articles 269 and 280 respectively, the Portuguese Republic may apply until 31 December 1988 a system of statistical information prior to import. However, this system, which includes the issue of a national import document, must provide for the automatic issue of that document within a time limit of four working days from the date of lodging the request; should the document not be delivered within the set time limit, the import may take place without let or hindrance.

Within the framework of the report referred to in the second indent of Article 264 (2) (c), the Commission shall, where appropriate, submit proposals to the Council regarding the retention of that system during the remaining period of the first stage for products for which such retention proves necessary.

3. The Portuguese Republic shall communicate to the Commission, at the latest three months before the date of accession, the detailed rules of the systems referred to in paragraphs 1 and 2.

After having examined it, the Commission shall forward this communication to the other Member States.

Article 271

During the first stage, the Portuguese Republic may grant, for the products referred to in Article 259 exported to the present Member States, export aids or subsidies.

However, the amount of any such aids or subsidies shall be limited to not more than the variation between prices recorded in Portugal and in the Community as at present constituted and, where appropriate, to the amount of customs duty.

Such aids or subsidies may not be fixed until the consultation procedure referred to in Article 276 has taken place.

Article 272

1. During the first stage and subject to the provisions of Articles 268 (2) (a) and 316, the Community as at present constituted shall apply to the import of products referred to in Article 259 from Portugal the arrangements that it applied to Portugal before accession.

2. However, for products subject to a Community system of import levies, account shall be taken, when levies applicable to products imported from Portugal are fixed, of any price alignment that may have taken place and, where appropriate, the amount of national aid granted in Portugal.

3. In trade between the Community as at present constituted and third countries, during the first stage, statistics relating to the Portuguese market shall not be adopted for the purposes of calculating the common prices which serve to determine the amounts levied on imports.

Article 273

1. During the first stage, the fixed component intended to ensure the protection of the processing industry which forms part of the calculation of the charge on imports from third countries of products falling under the common organization of the markets in the cereals and rice sectors shall be levied on the import into Portugal of products coming from the present Member States.

2. Notwithstanding paragraph 1, the protection component to be levied during the first stage on the import into Portugal of the products referred to in Annex XXIV shall be fixed opposite each entry.

Article 274

1. Without prejudice to the application of the general protective clause referred to in Article 379, the Portuguese Republic shall be authorized to adopt protective measures against the import of products referred to in Article 259 coming from the present Member States under the conditions and on the basis of criteria comparable to those existing under the framework of each common organization of markets for the application of protective measures with regard to third countries.

2. The Portuguese Republic shall, without delay, notify the Commission of these measures so as to allow it to make, where appropriate, remarks as to the justification, the nature or the duration of the protective measures decided upon.

The procedure shall be without prejudice to the applicability of the means of redress provided under the EEC Treaty.

3. No protective measure may be adopted if, at least, the same measure is not, at the same time, applicable to imports into Portugal of the same products from third countries.

Article 275

1. During the first stage the Community as at present constituted shall apply to the export of products referred to in Article 259 to Portugal the arrangements that it applies to exports with regard to third countries.

2. However, the amount of any applicable refund shall be limited to not more than the variation between prices recorded in the Community as at present constituted and Portugal and, where appropriate, to the amount of customs duty.

Such refunds may not be fixed until the consultation procedure referred to in Article 276 has taken place.

3. The refunds referred to in this Article shall be financed by the Community under the Guarantee Section of the European Agricultural Guidance and Guarantee Fund.

Article 276

The implementation by the Portuguese Republic of the aids or subsidies referred to in Article 271 or by the

Community of the refunds referred to in Article 275 shall be subject to prior consultations which shall take place in accordance with the following procedure:

1. Any proposal for fixing:

- a subsidy for exports from Portugal to the Community as at present constituted or to third countries, or
- a refund for exports from the Community as at present constituted to Portugal

shall form the subject of an exchange of views within the framework of periodical meetings of the Management Committee set up by the common organization of the market within which the product in question falls.

2. The Commission representative shall submit the proposal referred to in point 1 for examination; this examination shall concern itself in particular with the economic aspects of the envisaged exports and with the situation and the level of prices on the Portuguese market, on that of the Community as at present constituted and on the world market.

3. The Committee shall deliver an opinion on the proposal within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by a majority of 54 votes.

The opinion shall be forthwith forwarded to the authority competent for fixing, namely the Portuguese Republic or the Commission, as the case may be.

4. In the event of a negative opinion the competent authority:

- may not apply a fixing measure which does not comply with the opinion until after the expiry of a period of 10 working days calculated from the date on which the Committee delivered its opinion.
- shall immediately communicate the fixing measure to the Council, which may discuss it and recommend the competent authority to amend its fixing proposal or decision.

C. Arrangements applicable in trade between Portugal and third countries

Article 277

1. For the products referred to in Article 259 and, subject to Articles 278 to 282, the Portuguese Republic shall apply, from 1 March 1986, the Community rules on the arrangements applicable to importation into the Community of products imported from third countries, as defined in Article 272 (3).

2. However, the levies applicable on import shall, where appropriate, be increased by the variation which exists between the prices applicable in Portugal and the common prices.

Article 278

1. The Portuguese Republic shall apply the Common Customs Tariff duties in their entirety from 1 March 1986 for the products referred to in Article 259 with the exception of products appearing in Annex XXV to which the Common Customs Tariff shall be applied at the beginning of the second stage at the latest.

2. Point 4 of Article 243 shall apply *mutatis mutandis* during the first stage to products appearing in Annex XXV.

Unless this Article or point 4 of Article 243 provides otherwise, Articles 197 to 201 shall also apply.

Article 279

The components intended to ensure the protection of the processing industry referred to in Article 273 and appearing in Annex XXIV shall replace, during the first stage, with regard to the charge levied by Portugal on imports from third countries, the Community protection component.

Article 280

Until 31 December 1995 the Portuguese Republic may maintain, in accordance with detailed rules to be determined by the Council acting under the conditions laid down in Article 258, quantitative restrictions on imports from third countries of the products referred to in Annex XXVI.

Article 281

Articles 270 (2) and 274 shall apply *mutatis mutandis* to trade between Portugal and third countries.

Article 282

The Portuguese Republic shall be authorized to postpone until the beginning of the second stage the progressive application to imports of preferences granted, unilaterally or by agreement, by the Community to certain third countries.

Article 283

1. For the products referred to in Article 259, and subject to paragraph 2 of this Article, the Portuguese

Republic shall be authorized to maintain, during the first stage, for exports to third countries, the arrangements in force before its accession for such trade.

2. The amount of aid or subsidies granted, where appropriate, by the Portuguese Republic for exports to third countries must be limited to the amount that is strictly necessary in order to ensure the disposal of the product in question on the market of destination.

Such aid or subsidies may not be implemented until the procedure referred to in Article 276 has taken place. These consultations shall concern, in particular, the economic aspects of the envisaged exports, the prices adopted for their calculation and the situation of the markets of origin and of destination.

Sub-section 3

Second stage

Article 284

1. As from the second stage, Community rules relating to the products referred to in Article 259 shall apply in full subject to Articles 239, 240, 241, 242 (1), 249 to 253, 255, 256, 268, 279, 285 to 288 and to the specific provisions applicable to certain products, referred to in Section V.

2. However, the compensatory amount established in accordance with the rules of Article 240 shall, where appropriate, be corrected by the amount of national aid which the Portuguese Republic is authorized to maintain pursuant to Article 286.

Article 285

1. (a) Where, in accordance with Article 260 (1), the second stage is of five years' duration, the prices to be applied in Portugal shall be fixed, until the first of the moves towards alignment referred to in paragraph 2 of this Article, at the same level as that resulting from application of Article 265 (1).
- (b) Where, in accordance with Article 260 (2), the second stage is of seven years' duration, the prices to be applied in Portugal shall be, until the first of the moves towards alignment referred to in paragraph 2 of this Article, the prices, expressed in ECU, fixed in accordance with the rules provided for under the common organization of the markets in the sector concerned, at the level reached on 31 December 1988 in accordance with the rules for prices discipline set out in point 1 of Article 265.

2. If application of paragraph 1 results in Portugal in a price level which is different from that of the common prices, the prices for which reference is made in Section V to this Article shall, subject to paragraph 6, be aligned on the common prices, each year at the beginning of the marketing year pursuant to paragraphs 3 and 4.

3. Where, for a given product, the price in Portugal is lower than the common price, the move towards alignment shall be carried out:

- in five years, when the second stage is of five years' duration; in this case, the price in Portugal shall be increased during the four first moves to alignment successively by one-fifth, one-quarter, one-third and by one-half of the difference between the level of the Portuguese price and the level of the common prices which are applicable before each move to alignment,
- in seven years, when the second stage is of seven years' duration; in this case, the price in Portugal shall be increased during the first six moves to alignment successively by one-seventh, one-sixth, one-fifth, one-quarter, one-third and by one-half of the difference between the level of the Portuguese price and the level of the common prices which are applicable before each move to alignment.

The price resulting from the calculation carried out under one of the foregoing two indents shall be increased or decreased in proportion to the increase or decrease, if any, in the common price for the marketing year to come.

The common price shall be applied in Portugal in 1995 at the beginning of the marketing year for the product concerned.

4. (a) Where, for a given product, the price in Portugal is higher than the common price, the price in that Member State shall be maintained at the level referred to in paragraph 1, with the move to alignment resulting from the development in common prices, as the case may be, over the five or seven years respectively of the second stage.

However, the price in Portugal shall be adjusted to the extent necessary to avoid any increase in the variation between this price and the common price.

Without prejudice to paragraph (b), the common price shall be applied in Portugal in 1995, at the beginning of the marketing year for the product concerned.

- (b) Before the end of the eighth year following the date of accession, the Council shall carry out an analysis of the development in the moves to price alignment. To this end, the Commission shall forward to the Council, within the framework of the reports referred to in Article 264 (2) (c), an opinion accompanied, where appropriate, by adequate proposals.

If this analysis shows:

- that the variation between the Portuguese prices and the common prices, while being too great to be absorbed over the period still to be run for the move to the alignment of prices pursuant to paragraph 2, nevertheless appears capable of being made up within a limited period of time, the period of the move towards alignment of prices, as originally envisaged, may be extended; in this case, the prices shall be maintained at their previous level in accordance with the rule provided for in paragraph (a),
- that the variation between the Portuguese prices and the common prices is too great to be made up solely by extending the period of the move towards alignment of prices, as originally envisaged, a decision may be taken that, in addition to this extension, the move towards alignment will take place by a progressive lowering of the Portuguese prices, expressed in real terms, accompanied, if necessary, by indirect, temporary and degressive aid in order to mitigate the effect of the phased price reduction. Such aid shall be financed by the Portuguese budget.

The Council, acting on a qualified majority on a proposal from the Commission and after consulting the Assembly, shall adopt the measures referred to in the previous subparagraph.

5. When, at the beginning of the second stage, it is noted that the variation between the level of the price for a product in Portugal and that of the common price does not exceed 3 % of the common price, the common price may be applied to Portugal for the product concerned.

6. In the interests of the harmonious operation of integration, it may be decided that, by way of derogation from paragraph 3, the price of one or more products for Portugal shall vary, for one marketing year, as compared with the prices resulting from application of this paragraph.

Such variation may not exceed 10 % of the amount of the price movement to be carried out.

In this case the price level for the following marketing year shall be that which would have resulted from application of paragraph 3 had variation not been decided upon. However, for this marketing year, a new variation may be decided upon as compared with this level, under the conditions provided for in the first and second subparagraphs.

The derogation provided for in the first subparagraph shall not apply to the last move to alignment referred to in paragraph 3.

Article 286

1. From the beginning of the second stage the following provisions shall be applicable in Portugal:

- Article 244 (1), subject to Articles 268, 280 and 285 and to specific provisions applicable to certain products referred to in Section V,
- Article 247, with Council decisions being adopted according to the procedure referred to in Article 234 (2),
- Article 248,
- Article 254, with the date 1 March 1986 being replaced by that on which the second stage begins,
- Article 257, with the date 31 December 1987 being replaced by that of 31 December of the second year of the second stage.

2. The STM referred to in Article 249 shall apply under the conditions laid down in Articles 250 to 252 from the beginning of the second stage until 31 December 1995. The list of products to be submitted to the STM shall be drawn up before the end of the first stage. This list may be added to, in accordance with the procedure laid down in Article 250, during the first two years of the second stage.

At the beginning of each year, the Commission shall submit a report to the Council on the operation of the STM during the previous year.

3. The fixed components intended to ensure the protection of the processing industry referred to in Article 273 (1) and (2) shall be progressively abolished from the beginning of the second stage in accordance with the following timetable:

- on 1 January 1991, each fixed component shall be reduced to 83,3 % of the basic fixed component,
- on 1 January 1992, each fixed component shall be reduced to 66,6 % of the basic fixed component,
- on 1 January 1993, each fixed component shall be reduced to 49,9 % of the basic fixed component,
- on 1 January 1994, each fixed component shall be reduced to 33,2 % of the basic fixed component,
- on 1 January 1995, each fixed component shall be reduced to 16,5 % of the basic fixed component,
- on 1 January 1996, every fixed component shall be abolished.

Article 287

1. By way of derogation from Articles 240 (3) (b) and 284, in trade between Portugal and third countries, levies or other import charges applied under the common agricultural policy shall not be reduced by compensatory amounts applicable in trade with the Community as at present constituted.

2. From the beginning of the second stage, the variation between the fixed components intended to ensure the protection of the processing industry referred to in Article 279 and those which form part of the calculation of the charge on imports from third countries shall be reduced in accordance with the same timetable as that given in Article 286 (3).

From 1 January 1996 the Portuguese Republic shall apply the fixed component intended to ensure the protection of the processing industry which forms part of the calculation of the charge on imports from third countries of products covered by the common organization of the markets in the cereals and rice sectors.

Article 288

Aid, premiums or other similar amounts instituted under the common agricultural policy for which reference is made to this Article in Section V shall be applied to Portugal according to the following provisions:

- (a) The level of Community aid to be granted for a given product to Portugal at the beginning of the second stage shall be equal to the amount of the aid granted at the end of the first stage.

If no similar aid was granted during the first stage, and subject to the following provisions, no aid shall be granted to Portugal at the beginning of the second stage.

- (b) At the beginning of the first marketing year or, failing this, of the first period of application of aid following the beginning of the second stage, the following conditions shall apply:

(aa) either Community aid shall be introduced in Portugal at a level which represents:

- a fifth of the amount of Community aid applicable for the coming marketing year or period when the second stage is of five years' duration,
- a seventh of the amount of Community aid applicable for the coming marketing year or period when the second stage is of seven years' duration;

(bb) or, Community aid for Portugal shall be, where there is a difference, aligned on the level of the aid applicable in the Community as at present constituted for the coming marketing year or period:

- by one-fifth of the difference which exists between these two types of aid when the second stage is of five years' duration,

- by one-seventh of the difference which exists between these two types of aid when the second stage is of seven years' duration.
- (c) At the beginning of the following marketing years or periods of application, the level of Community aid to Portugal shall be aligned on the level of the aid applicable in the Community as at present constituted, for the coming marketing year or period, successively:
- by one-quarter, one-third and by half the difference which exists between these two types of aid when the second stage is of five years' duration,
 - by one sixth, one-fifth, one-quarter, one-third and by half the difference which exists between these two types of aid when the second stage is of seven years' duration.
- (d) The level of Community aid shall be applied in full to Portugal in 1995 at the beginning of the marketing year or period during which aid is applied.
- on 1 January 1992, the variation shall be reduced to 50 % of the original variation,
 - on 1 January 1993, the variation shall be reduced to 37,5 % of the original variation,
 - on 1 January 1994, the variation shall be reduced to 25 % of the original variation,
 - on 1 January 1995, the variation shall be reduced to 12,5 % of the original variation.
- (c) The Portuguese Republic shall apply the preferential rates in full on 1 January 1996.

Section IV

Provisions relating to certain common organizations of markets subject to classic transition

Sub-section 1

Oils and fats

Article 289

1. The Portuguese Republic shall apply progressively to imports, as from the beginning of the second stage, the preferences accorded, either autonomously or by agreement, by the Community to certain third countries.

2. To this end, the Portuguese Republic shall apply a duty reducing the variation between the rate of duty actually applied at the end of the first stage and the preferential rate of duty according to the following timetable:

- (a) When the second stage is of five years' duration:
- on 1 January 1991, the variation shall be reduced to 83,3 % of the original variation,
 - on 1 January 1992, the variation shall be reduced to 66,6 % of the original variation,
 - on 1 January 1993, the variation shall be reduced to 49,9 % of the original variation,
 - on 1 January 1994, the variation shall be reduced to 33,2 % of the original variation,
 - on 1 January 1995, the variation shall be reduced to 16,5 % of the original variation.
- (b) When the second stage is of seven years' duration:
- on 1 January 1989, the variation shall be reduced to 87,5 % of the original variation,
 - on 1 January 1990, the variation shall be reduced to 75 % of the original variation,
 - on 1 January 1991, the variation shall be reduced to 62,5 % of the original variation,

Article 290

1. For olive oil, Articles 236 and 240 shall apply to the intervention price.

2. During the transitional period of 10 years, the price thus fixed for Portugal shall be aligned on the level of the common price each year at the beginning of each marketing year in accordance with the following procedures:

- Until the entry into force of the adjustment of the 'acquis communautaire', the price in Portugal shall be aligned each year by one-twentieth of the original variation between this price and the common price.
- As from the entry into force of the adjustment of the 'acquis communautaire', the price in Portugal shall be corrected by the difference between the price in this Member State and the common price, as applicable before each move towards alignment, divided by the number of marketing years still to run until the end of the period of application of the transitional measures; the price resulting from this calculation shall be adapted in proportion to any change in the common price for the marketing year to come.

3. The Council, acting in accordance with the procedure provided for in Article 43 (2) of the Treaty establishing the European Economic Community, shall note that the condition required for the application of the second indent of paragraph 2 of this Article is fulfilled. The move towards alignment of the price shall be effected in accordance with the said provision, as from the beginning of the marketing year following this finding.

4. The compensatory amount resulting from application of Article 240 shall be adapted, should the need arise, on the basis of the difference between Community aid for consumption applicable in the Community as at present constituted and in Portugal.

Article 291

1. Article 236 shall apply to the target price for sunflower seeds.

For colza and rape seeds, for soya beans and linseed, the target or guide price applicable in Portugal on 1 March 1986 shall be fixed on the basis of the variation existing between the prices of competitive products in rotation cropping in Portugal and in the Community as at present constituted, over a reference period to be determined. However, the target or guide price to be applied to Portugal may not be higher than the common price.

2. For the period during which the transitional measures are applied, the prices thus fixed for Portugal shall be aligned on the level of the common prices each year at the beginning of the marketing year. The move towards alignment shall take place in 10 stages, Article 238 being applied *mutatis mutandis*.

3. The intervention prices of colza, rape and sunflower seeds and the minimum price of soya beans, applicable in Portugal, shall be derived respectively from the target price and the guide price, as referred to in paragraphs 1 and 2, in accordance with the provisions of the common organization of the market concerned.

4. Until 31 December 1990, in trade in processed vegetable oil products intended for human consumption, with the exception of olive oil products, appropriate measures shall be adopted to take account of the differences in the prices of these oils in Portugal and in the Community as at present constituted.

Article 292

1. The Portuguese Republic shall apply, until 31 December 1990 and according to procedures to be determined, a mechanism for the control of:

- (a) the quantities of oil seeds and oil fruits, as well as of flour from which the oil has not been extracted and of all vegetable oils, with the exception of olive oil, intended for human consumption on the Portuguese domestic market, in order to avoid any worsening of the conditions for competition between the various vegetable oils. The volume of the quantities placed on the Portuguese market for consumption shall be established on the basis of consumption in Portugal and the level of this consumption will be assessed within the framework of

a report drawn up for each marketing year according to the procedure provided for in Article 38 of Regulation No 136/66/EEC on the basis of:

- Portuguese consumption recorded over the period 1980 to 1983,
- the foreseeable trend in demand.

Following the same procedure, this report may be updated during the marketing year;

- (b) the level of consumer prices for the vegetable oils referred to in paragraph (a), in such a way as to maintain — until 31 December 1990 — in principle the price level, expressed in ECU, reached during the 1984/85 marketing year.

The control mechanism referred to in paragraph (a) shall include the replacement, on 1 March 1986, of the trade arrangements applied on imports into Portugal by a system of quantitative import restrictions opened without discrimination between economic operators, both with regard to the Community as at present constituted and with regard to third countries.

- 2. In exceptional circumstances, the control mechanism defined in this Article may be modified, for those products subjected to it, as far as necessary to avoid imbalances in the markets for the different oils.

These modifications shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC.

Article 293

1. Community aid for the production of olive oil shall be instituted in Portugal at the beginning of the first marketing year following accession and shall be aligned, during the period of application of the transitional measures, on the level of the aid granted in the Community as at present constituted. Article 246 shall apply *mutatis mutandis*.

Community aid for the consumption of olive oil shall be instituted in Portugal as from 1 January 1991, according to a timetable to be determined, to the extent necessary to reach a common level at the end of the period of application of the transitional measures.

- 2. Aid for colza, rape and sunflower seeds, for soya beans and for linseed, produced in Portugal, shall be:

- introduced in Portugal as from the beginning of the first marketing year following accession, and
- increased thereafter, during the period of application of the control mechanism referred to in Article 292 (1),

on the basis of the move towards alignment, as the case may be, of the target price or the guide price applicable in Portugal, on the level of the common price.

On expiry of the period referred to in the foregoing subparagraph, the aid granted to Portugal shall be equal to the difference that exists between the target price or the guide price applicable in that Member State and the price on the world market, with this difference being reduced by the incidence of the customs duty applied by Portugal on imports of products from third countries.

3. Aid for the seeds and beans referred to in paragraph 2 produced in Portugal and processed in the Community as at present constituted, and the aid for the same seeds and beans produced in the Community as at present constituted and processed in Portugal, shall be adjusted to take account of the difference between the level of the prices of these seeds and beans and that of seeds and beans imported from third countries.

4. Furthermore, when the aid for colza, rape and sunflower seeds is calculated, account shall be taken of any differential amount which may be applicable.

Article 294

During the 1986/87 to 1994/95 marketing years, specific guarantee thresholds shall be fixed for colza and rape seeds and for sunflower seeds produced in Portugal.

For the 1986/87 marketing year these thresholds shall be fixed at:

- 1 000 tonnes for colza and rape seeds,
- 48 000 tonnes for sunflower seeds.

For the following marketing years these specific guarantee thresholds shall be determined according to criteria comparable to those adopted for fixing the guarantee thresholds in the Community as at present constituted.

When a specific guarantee threshold is exceeded, the co-responsibility penalties shall be applied according to procedures which are similar to those applied in the Community as at present constituted and with the same ceiling.

Article 295

1. The Portuguese Republic shall postpone, until the control mechanism referred to in Article 292 expires, the application of preferential arrangements, be they contractual or autonomous, applied by the Community

with regard to third countries in the olive oil sector, the oil seeds and oil fruits sector and in that of products derived therefrom.

2. As from 1 January 1991, the Portuguese Republic shall apply a duty reducing the variation between the rate of duty actually applied on 31 December 1990 and the rate of preferential duty according to the following timetable:

- on 1 January 1991, the variation shall be reduced to 83,3 % of the original variation,
- on 1 January 1992, the variation shall be reduced to 66,6 % of the original variation,
- on 1 January 1993, the variation shall be reduced to 49,9 % of the original variation,
- on 1 January 1994, the variation shall be reduced to 33,2 % of the original variation,
- on 1 January 1995, the variation shall be reduced to 16,5 % of the original variation.

The Portuguese Republic shall apply the preferential rates in full from 1 January 1996.

Article 236 and, where appropriate, Article 238 shall apply to the intervention price fixed for each variety or group of varieties.

Article 297

The norm price corresponding to the intervention price referred to in Article 296 shall be fixed in Portugal for the first harvest following accession at a level that shall reflect the relationship existing between the norm price and the intervention price, in accordance with the second subparagraph of Article 2 (2), of Regulation (EEC) No 727/70 on the common organization of the market in raw tobacco.

Sub-section 3

Flax and hemp

Article 298

Article 246 shall apply to aid for fibre flax and hemp.

Sub-section 4

Hops

Article 299

The aid to hop producers referred to in Article 12 of Regulation (EEC) No 1696/71 shall be applied in full in Portugal as from the first harvest following accession.

Sub-section 5

Seeds

Article 300

Article 246 shall apply to the aid for the seeds referred to in Article 3 of Regulation (EEC) No 2358/71.

Sub-section 6

Article 301

Article 246 shall apply to aid for silkworms.

Sub-section 7

Sugar and isoglucose

Article 302

1. Articles 236, 238 and 240 shall apply to the intervention price for white sugar and to the basic price for beet.

However, the accession compensatory amount shall be corrected, to the extent necessary for the smooth running of the common organization of the markets, by the incidence of the compensatory levy for storage costs.

2. For raw sugar and for products other than fresh beet, appearing in Article 1 (b), and for the products appearing in Article 1 (1) (d) and (f) of Regulation (EEC) No 1785/81 on the common organization of the markets in the sugar sector, compensatory amounts may be fixed to the extent necessary to avoid all risk of disturbance in trade between the Community as at present constituted and Portugal.

In this case, the compensatory amounts shall be derived from the compensatory amount applicable to the primary product in question, with the help of coefficients to be determined.

Article 303

During the period of seven years following accession, the levy on raw cane sugar originating in the Ivory Coast, Malawi, Zimbabwe and Swaziland, which is imported into Portugal up to a maximum quantity annually of 75 000 tonnes expressed as white sugar, shall be equal to the amount of the levy on raw sugar calculated in accordance with the rules of the common organization of the markets, reduced by the difference between the threshold price and the intervention price for raw sugar.

For the period 1 March to 1 July 1986 and for the period 1 July to 31 December 1992, the maximum annual quantity referred to above shall be reduced in proportion to the length of those periods.

Where, during the above periods:

- (a) the Community forward estimate for raw sugar for a given marketing year or part thereof shows that the availability of raw sugar is insufficient to ensure adequate supply of Portuguese refineries, or
- (b) exceptional and unforeseeable circumstances justify it during the marketing year or part thereof,

Processed fruit and vegetables

Article 304

For the products benefiting from the aid arrangements provided for in Article 3 of Regulation (EEC) No 516/77 on the common organization of the markets in fruit and vegetable processed products, the following provisions shall apply to Portugal:

- 1. Until the first move towards alignment of the prices referred to in Article 238, the minimum price

referred to in Article 3b of Regulation (EEC) No 516/77 shall be established on the basis:

- of the price fixed in Portugal under the preceding national arrangements for the product intended for processing, or
- in the absence of such a price, of the prices paid in Portugal to producers for the product intended for processing, as recorded during a representative period to be determined.

2. Where the minimum price referred to in paragraph 1 is:

- lower than the common price, the price in Portugal shall be modified at the beginning of each marketing year following accession, according to the procedures provided for in Article 238,
- higher than the common price, the common price shall be adopted on accession for Portugal.

3. (a) For processed tomato products, for the first five marketing years following accession or, where Article 260 (2) is applied during the first three marketing years following accession, the amount of Community aid granted to Portugal shall be derived from the aid calculated for the Community as at present constituted, bearing in mind the difference of the minimum producer prices resulting from the application of point 2 of this Article, before this last-mentioned aid is reduced, possibly as a result of the guarantee threshold fixed for these products in the Community as at present constituted being exceeded.

Where the threshold in the Community as at present constituted is exceeded, if this proves necessary to ensure normal conditions for competition between Portuguese industries and those of the Community, it shall be decided, in accordance with the procedure provided for in Article 20 of Regulation (EEC) No 516/77, that a compensatory amount, at the most equal to the difference between the aid fixed for Portugal and that which would have been derived from the Community aid fixed, will be applied in accordance with Article 240 (3) (a) and levied by the Portuguese Republic on exports to third countries.

However, on expiry of the arrangements under Regulation (EEC) No 1320/85, no compensatory amount shall be levied where it is proved that the Portuguese product has not benefited from Community aid granted to Portugal.

In no case may the aid applicable to Portugal exceed the amount of aid granted in the Community as at present constituted.

- (b) During the period referred to in (a), the grant of Community aid to Portugal shall be limited, for each marketing year, to a quantity of processed products corresponding to a quantity of fresh tomatoes of:

- 685 000 tonnes for the manufacture of tomato concentrate,
- 9 600 tonnes for the manufacture of whole peeled tomatoes,
- 137 tonnes for other tomato products.

At the end of that period, the quantities fixed above, adjusted to accommodate any changes made to Community thresholds during the same period, shall be taken into consideration when fixing Community thresholds.

4. For tomato products on expiry of the period referred to in point 3 (a) and for the other products during the six marketing years following accession, the amount of the Community aid granted to Portugal shall be derived from the aid fixed for the Community as at present constituted, bearing in mind the difference of the minimum prices resulting from the application of point 2.
5. Community aid shall be applied in full in Portugal as from the beginning of the seventh marketing year following accession.
6. For the purposes of applying this Article, the minimum price and the aid obtaining in the Community as at present constituted shall refer to the amounts obtaining in the Community as at present constituted excluding Greece.

Article 305

The minimum price and the financial compensation applicable in Portugal, as provided for in Articles 2 and 3 of Regulation (EEC) No 2601/69 laying down special measures to encourage the processing of certain varieties of oranges and in Articles 1 and 2 of Regulation (EEC) No 1035/77 laying down special measures to encourage the marketing of processed lemon products, shall be fixed as follows:

1. Until the first move towards the alignment of the prices referred to in Article 238, the minimum price applicable shall be established on the basis of the prices paid in Portugal to producers of citrus fruits intended for processing, recorded over a representative period to be determined. The financial compensation shall be that of the Community as at present constituted less, where appropriate, the difference which exists between, on the one hand, the common minimum price and, on the other, the minimum price applicable in Portugal.

2. For subsequent price fixing, the minimum price applicable in Portugal shall be aligned on the common minimum price in accordance with the provisions of Article 238. The financial compensation applicable in Portugal at each stage of the move towards alignment shall be that of the Community as at present constituted less, where appropriate, the difference between, on the one hand, the common minimum price and, on the other, the minimum price applicable in Portugal.
3. However, where the minimum price resulting from the application of point 1 or 2 is higher than the common minimum price, the latter price may be adopted definitively for Portugal.

1. The guide price referred to in Article 4 of Regulation (EEC) No 1117/78 on the common organization of the market in dried fodder, applicable in Portugal on 1 March 1986, shall be fixed on the basis of the variations which exist between the prices of competitive products in rotation cropping in Portugal and in the Community as at present constituted over a reference period to be determined.

Article 238 shall apply to the guide price calculated in accordance with the first subparagraph. However, the guide price to be applied in Portugal may not exceed the common guide price.

2. The supplementary aid applicable to Portugal shall be adjusted by an amount equal to:
 - the difference which exists, where this arises, between the guide price in Portugal and the common guide price, multiplied by the percentage referred to in Article 5 (2) of Regulation (EEC) No 1117/78, and

Article 238 shall apply to the activating threshold price or to the guide price for products. However, the activating threshold price or the guide price to be applied in Portugal may not exceed the common price.

For products harvested in Portugal and used in the manufacture of feed, falling within Regulation (EEC) No 1431/82 laying down special measures for peas, field beans and sweet lupins, the amount of the aid referred to in Article 3 (1) of that Regulation shall be reduced by the amount of the difference which exists, where this arises, between the activating threshold price in Portugal and the common price.

Without prejudice to the application of the first subparagraph, the amount of the aid concerned for a product processed in Portugal shall be reduced by the incidence of the customs duties applied in Portugal on import of soya cake coming from third countries.

The deductions referred to in the first and second subparagraphs shall result from application of the percentages referred to in Article 3 (1) of Regulation (EEC) No 1431/82.

3. The amount of the aid referred to in Article 3 (2) of Regulation (EEC) No 1431/82 for peas and field beans harvested in Portugal and used in human and animal consumption for a purpose other than that provided for in paragraph 1 of that Article shall be reduced by an amount equal to the difference which exists, where this arises, between the guide price applied in Portugal and the common guide price.

- on the basis of the arithmetic mean of the producer prices of each Member State of the Community as at present constituted, plus transport and packaging costs incurred by the products from the production regions to the representative consumption centres of the Community,

The Community offer price may not exceed the level of the reference price applied with regard to third countries.

- (b) The Portuguese offer price shall be calculated every marketing day, on the basis of the representative rates recorded or reduced to the importing-wholesale stage in the Community as at present constituted. The price for a product coming from Portugal shall be equal to the lowest representative rate or to the average of the lowest representative rates recorded for at least 30 % of the quantities of the provenance concerned marketed on all the representative markets for which rates are available. This rate or these rates shall be reduced beforehand:

- (a) Imports of cereals into Portugal shall be carried out as a percentage of the annual quantities imported during the preceding year at the following percentages by EPAC and by private operators respectively:

That quantity shall then be added to the obligatory purchase of 15 % for the new year.

An intermediate estimate shall be drawn up at the end of the 1988/89 marketing year; if it appears, on the basis of this estimate, that the obligatory purchase for 1989 is unlikely to be made, the necessary measures may be adopted in order to ensure compliance with that obligation.

- (b) the progressive introduction of the arrangements for, and the control of, planting, similar to the Community arrangements and control, enabling efficient vine-planting rules to be established;
- (c) the realization of a project for ampelography (the classification of vine varieties) and for synonymy (equivalence between names of varieties of vines in Portugal on the one hand and equivalence between Portuguese names and names used in the Community as at present constituted on the other), to take place before the introduction of a system of statistical surveys on areas under vines within the meaning of Community rules and the realization of specific work on the viticultural land register;

By derogation from the Community rules on the maximum sulphur dioxide content of wines, the Portuguese Republic shall be authorized to apply, during the first stage, to wines produced in its territory, the limits applied under the previous national arrangements.

However, the Portuguese Republic shall adopt adequate measures to ensure that, during this first stage, the sulphur dioxide content is lowered progressively

down to the Community levels so that these levels are respected in full as from the beginning of the second stage.

Article 336

During the first stage, the Portuguese Republic shall establish, on the basis of the ampelographical and synonymical study referred to in Article 333, a classification of wine varieties for Portuguese vineyards in accordance with Article 31 of Regulation (EEC) No 337/79 and the implementing provisions of the latter Article.

B. Second stage

Article 337

Article 338

1. A mechanism of regulatory amounts shall be set up for imports into the Community as at present constituted of the products referred to in paragraph 2, coming from Portugal, for which reference prices are fixed in the context of the common organization of markets.

2. This mechanism shall be governed by the following rules:

- (a) For table wines, a regulatory amount equal to the difference which exists between the guide prices in Portugal and in the Community as at present constituted shall be levied. However, the level of this amount may be adjusted, according to the procedure provided for in Article 67 of Regulation (EEC) No 337/79, to take account of the situation of market prices assessed in accordance with the different wine categories and on the basis of their quality.
- (b) For certain wines of designated origin and for other products likely to create disturbances on the market, a regulatory amount may be fixed according to the procedure provided for under (a). This regulatory amount shall be derived from that applicable to table wines according to procedures to be determined.

3. A ceiling level shall be fixed for the regulatory amount ensuring conditions of treatment not less favourable than those in force under the arrangements prior to accession. To that end, this amount shall be calculated so that the amount obtained by increasing

the guide price applicable in Portugal for the product in question by the regulatory amount and the customs duties which are applicable to it shall not exceed the reference price in force for that product during the wine-growing year in question.

4. In view of the special situation of the market in the different products referred to in paragraph 2, it may be decided, in accordance with the procedure provided for in Article 67 of Regulation (EEC) No 337/79, to fix a regulatory amount for exports of one or more of those products from the Community as at present constituted to Portugal.

This amount shall be fixed at a level such as will ensure a normal pattern of trade between the Community as at present constituted and Portugal, that will not cause disturbances on the Portuguese market for the products in question.

Imports of those products shall be subject in their entirety to the common liberalization lists in force on 1 January 1993. The quotas shall be progressively increased until that date, in accordance with paragraph 4.

4. The minimum rate of progressive increase of quotas referred to in paragraph 3 shall be 25 % at the beginning of each year for quotas expressed in ECU and 20 % at the beginning of each year for quotas expressed in terms of volume. Section II

Agreements of the Communities with certain third countries

Article 366

1. As from 1 January 1986, the Portuguese Republic shall apply the provisions of the agreements referred to in Article 368.

The transitional measures and any adjustments shall be the subject of protocols concluded with the co-contracting countries and annexed to those agreements.

2. These transitional measures shall be designed to ensure, after their expiry, the application by the Community of a single system for its relations with the co-contracting third countries as well as the identity of the rights and obligations of the Member States.

3. These transitional measures applicable to the countries listed in Article 368 shall not, in any field, result in the Portuguese Republic granting them more favourable treatment than will apply to the Community as at present constituted.

In particular, all products subject to transitional measures in respect of quantitative restrictions applicable to the Community as at present constituted shall be subject to such measures *vis-à-vis* all the countries listed in Article 368, and for an identical period of time subject to any specific derogations.

4. These transitional measures applicable to the countries listed in Article 368 shall not result in the Portuguese Republic giving less favourable treatment to those countries than to other third countries. In particular, transitional measures in respect of quantitative restrictions cannot be envisaged for the countries listed in Article 368 in respect of products which will be free of such restrictions when imported into Portugal from other third countries.

Article 367

If the protocols referred to in Article 366 (1) are not, for reasons outside the control of the Community or the Portuguese Republic, concluded by 1 January 1986, the Community shall take the necessary measures to deal with this situation on accession.

In any case, most favoured-nation treatment shall be applied as from 1 January 1986 by the Portuguese Republic to the countries listed in Article 368.

Article 368

1. Articles 366 and 367 shall apply to:

- the Agreements concluded with Algeria, Austria, Cyprus, Egypt, Finland, Iceland, Israel, Jordan, Lebanon, Malta, Morocco, Norway, Sweden, Switzerland, Syria, Tunisia, Turkey and Yugoslavia, and to other Agreements concluded with third countries and concerning exclusively trade in the products of Annex II of the EEC Treaty.

- the new Agreement between the Community and the African, Caribbean and Pacific countries, signed on 8 December 1984.

2. The agreements resulting from the Second ACP-EEC Convention and the Agreement on products within the province of the European Coal and Steel Community, signed on 31 October 1979, shall not apply in relations between the Portuguese Republic and the African, Caribbean and Pacific States.

Article 369

The Portuguese Republic shall withdraw, with effect from 1 January 1986, from the Convention establishing the European Free Trade Association signed on 4 January 1960.

Section III

Textiles

Article 370

1. As from 1 January 1986, the Portuguese Republic shall apply the Arrangement of 20 December 1973 regarding International Trade in Textiles as well as the bilateral agreements concluded by the Community under that Arrangement, or with other third countries. Protocols of adjustment of these agreements shall be negotiated by the Community with third countries, that are parties to the agreements, in order to provide for voluntary restraint on exports to Portugal in the case of products and origins for which there are limitations on exports to the Community.

2. Should these protocols not have been concluded by 1 January 1986, the Community shall take measures designed to deal with this situation and concerning the necessary transitional adjustments to ensure that the agreements are implemented by the Community.

CHAPTER 6

Financial provisions

Article 371

1. The Decision of 21 April 1970 on the replacement of financial contributions from Member States by the Communities' own resources, hereinafter referred to as 'the Decision of 21 April 1970', shall be applied in accordance with Articles 372 to 375.

2. Any reference to the Decision of 21 April 1970 made in the Articles of this Chapter shall be under-

stood as referring to the Council Decision of 7 May 1985 on the Communities' system of own resources, as from the entry into force of that Decision.

Article 372

The revenue designated as 'agricultural levies' referred to in the first paragraph of Article 2 (a), of the Decision of 21 April 1970 shall also include the revenue from any amount recorded on import in trade between Portugal and the other Member States and between Portugal and third countries under Articles 233 to 345, 210 (3) and 213.

However, that revenue shall include only from the beginning of the second stage the levies and other amounts referred to in the preceding paragraph, recorded for products subject to transitional arrangements by stages under Articles 309 to 341.

Notwithstanding the provisions of the preceding paragraph, the Council, acting unanimously on a proposal from the Commission, may decide before the end of the first stage to refund to Portugal, within the limits and in accordance with procedures to be defined and for a period not exceeding two years, revenue from 'accession' compensatory amounts applied by Portugal to imports of cereals from the other Member States.

Article 373

The revenue designated as 'customs duties' referred to in the first paragraph of Article 2 (b) of the Decision of 21 April 1970 shall include, until 31 December 1992, customs duties calculated as if the Portuguese Republic applied, from accession, in trade with third countries the rates resulting from the Common Customs Tariff and the reduced rates resulting from any tariff preference applied by the Community. For the customs duties relating to oilseeds and oleaginous fruits and products derived therefrom, falling within Regulation No 136/66/EEC, and for the agricultural products subject to transitional arrangements by stages under Articles 309 to 341, the same rule shall apply until 31 December 1995.

However, this revenue shall not include, during the first stage, the customs duties imposed on agricultural products imported into Portugal and subject to the transitional arrangements by stages under Articles 309 to 341.

Where the provisions adopted by the Commission under Article 210 (3) of this Act are applied, and by way of derogation from the first subparagraph, the customs duties shall correspond to the amount calculated in accordance with the rate of the compensatory levy

fixed by those provisions for third-country products incorporated in the manufacture.

The Portuguese Republic shall make a monthly calculation of these customs duties on the basis of customs declarations of a single month. The calculation thus obtained for the customs duties on the basis of recordings during the month in question shall be made available to the Commission under the conditions defined in Regulation (EEC, Euratom, ECSC) No 2891/77.

As from 1 January 1993, the total amount of the customs duties recorded shall be due in its entirety. However, with regard to the products referred to in Articles 309 to 341 subject to transitional arrangements by stages, and with regard to oilseeds and oleaginous fruit and products derived therefrom, falling within Regulation 136/66/EEC, the total amount of those duties shall be due in its entirety from 1 January 1996.

Article 374

The amount of duties established under own resources accruing from value added tax or from financial contributions based upon the gross national product pursuant to Article 4 (1) to (5) of the Decision of 21 April 1970 shall be due in its entirety as from 1 January 1986.

The derogation referred to in point 15 of Article 15 of Sixth Council Directive 77/388/EEC shall not affect the amount of duties due under the first paragraph.

The Community shall refund to the Portuguese Republic, as an item of expenditure under the general budget of the European Communities, during the month following its availability to the Commission, a proportion of the amount of payments under own resources accruing from value added tax or from financial contributions based on the gross national product in accordance with the following procedure:

- 87 % in 1986,
- 70 % in 1987,
- 55 % in 1988,
- 40 % in 1989,
- 25 % in 1990,
- 5 % in 1991.

The percentage of this graduated refund shall not apply to the amount corresponding to the share borne by Portugal in financing the deduction provided for in Article 3 (3) (b), (c) and (d) of the Council Decision of 7 May 1985 on the Communities' system of own resources, in favour of the United Kingdom.

Article 375

In order to prevent the Portuguese Republic from bearing the cost of reimbursement of advances granted to the Community by its Member States before 1 January 1986, the Portuguese Republic shall benefit from financial compensation in respect of that reimbursement.

CHAPTER 7

Other provisions*Article 376*

Notwithstanding Article 60 of the ECSC Treaty and its implementing provisions, Portuguese steel undertakings may apply, in the autonomous regions of the Azores and Madeira, until 31 December 1992, a cif port of destination price equal to a basing price in force on the mainland territory of the Portuguese Republic.

Article 377

The Portuguese Republic may, until 31 December 1992, derogate from the provisions of Article 95 of the EEC Treaty with regard to excise duties on manufactured tobacco produced in the autonomous regions of the Azores and Madeira, under the conditions defined in Annex XXXII for the application of Council Directive 72/464/EEC of 19 December 1972.

Article 379

1. If, before 31 December 1992, the difficulties arise which are serious and liable to persist in any sector of the economy or which could bring about serious deter-

ioration in the economic situation of a given area, a new Member State may apply for authorization to take protective measures in order to rectify the situation and adjust the sector concerned to the economy of the common market.

In the same circumstances, any present Member State may apply for authorization to take protective measures with regard to one or both of the new Member States.

This provision shall apply until 31 December 1995 for products or sectors in respect of which this Act allows transitional derogations of equivalent duration.

2. On application by the State concerned, the Commission shall, by emergency procedures, determine the protective measures which it considers necessary specifying the circumstances and the manner in which they are to be put into effect.

In the event of serious economic difficulties and at the express request of the Member State concerned, the Commission shall act within five working days of the receipt of the request, accompanied by the relevant background information. The measures thus decided on shall be applicable forthwith.

In the agricultural and fisheries sector, without prejudice to the provisions of Chapter 3 of Titles II and III, where trade between the Community as at present constituted and one or other new Member State or between them causes or threatens to cause serious disturbances on the market of a Member State, the Commission shall act upon a request by the Member State concerned for the application of such protective measures as it considers necessary within 24 hours of receiving such request. The measures thus decided on shall be applicable forthwith and shall take account of the interests of all parties concerned and, in particular, transport problems.

3. The measures authorized under paragraph 2 may involve derogations from the rules of the EEC Treaty and the ECSC Treaty, and of this Act to such an extent and for such periods as are strictly necessary in order to attain the objectives referred to in paragraph 1. Priority shall be given to such measures as will least disturb the functioning of the common market.

4. If difficulties rise which are serious and liable to persist in the employment market of the Grand Duchy of Luxembourg, that State may apply for authorization, in accordance with the procedure set out in the first and second subparagraphs of paragraph 2 and under the conditions defined in paragraph 3, to apply provisionally until 31 December 1995 protective measures within the framework of national provisions governing change in employment, with regard to workers who are nationals of a new Member State allowed to immigrate to the Grand Duchy after the date of that authorization with a view to taking up employment there.

Article 380

1. If, before the expiry of the period of application of the transitional measures laid down under this Act for each case, the Commission, on application by a Member State or by any other interested party and in accordance with rules of procedure to be adopted upon accession by the Council acting by a qualified majority on a proposal from the Commission, finds that dumping is being practised between the Community as at present constituted and the new Member States or between the new Member States, it shall address recommendations to the person or persons with whom such practices originate for the purpose of putting an end to them.

Should the practices continue, the Commission shall authorize the injured Member State or States to take protective measures, the conditions and details of which the Commission shall determine.

2. For the application of this Article to the products listed in Annex II to the EEC Treaty, the Commission shall evaluate all relevant factors, in particular the level of prices at which these products are imported into the market in question from elsewhere, account being taken of the provisions of the EEC Treaty relating to agriculture and in particular Article 39.

3. The measures adopted before accession under Regulation (EEC) No 2176/84 and Decision 2177/84/ECSC) with regard to the new Member States, and those adopted before accession under the anti-dumping legislation of the new Member States with regard to the Community as at present constituted, shall remain provisionally in force and shall be re-examined by the Commission which shall decide whether to amend or repeal them. The Bureau of Alcohol, Tobacco and Firearms bekræfter, at forannævnte Bourbon-whisky med en styrke på højst 160° proof (80° Gay-Lussac) er fremstillet i USA i en arbejdsgang udelukkende ved destillering af gæret urt af en kornblanding indeholdende mindst 51 % majs, og at den er lagret i mindst 2 år i nye, indvendigt forkullede egetræsfade.

Das Bureau of Alcohol, Tobacco and Firearms bestätigt, daß der obengenannte Bourbon-Whiskey in den USA unmittelbar mit einer Stärke von höchstens 160° proof (80° Gay-Lussac) durch Destillation aus vergorener Getreidemaische mit einem Anteil an Mais von mindestens 51 Gewichtshundertteilen hergestellt wurde und daß er mindestens 2 Jahre in neuen, innen angekohlten Eichenfässern gelagert hat.

To Bureau of Alcohol, Tobacco and Firearms πιστοποιεί ότι το ούϊσκυ Bourbon που περιγράφεται ανωτέρω παρήχθη στις ΗΠΑ κατ'ευθείαν σε 160° proof (80° Gay-Lussac), κατά μέγιστο όριο, αποκλειστικά από απόσταξη γλεύκων ζυµωθέντων από μίγμα δημητριακών που περιέχει τουλάχιστον 51 % σπόρους αραβοσίτου και έχει ωριμάσει επί δύο έτη, τουλάχιστον, μέσα σε καινούργια θαρέλεια δρύινα, τα οποία εξωτερικώς έχουν επανθρακωθεί.

The Bureau of Alcohol, Tobacco and Firearms certifies that the above Bourbon whiskey was distilled in the United States at not exceeding 160° proof (80° Gay-Lussac) from a fermented mash of grain of which not less than 51 % was corn grain (maize) and aged for not less than two years in charred new oak containers.

El Bureau of Alcohol, Tobacco and Firearms certifica que el whisky Bourbon descrito anteriormente ha sido obtenido en USA directamente a 160° proof (80° Gay-Lussac) como máximo, exclusivamente por destilación de mostos fermentados de una mezcla de cereales que contienen como mínimo 51 % de maíz y que ha envejecido al menos durante dos años en barriles de roble nuevos, superficialmente carbonizados.

Le Bureau of Alcohol, Tobacco and Firearms certifie que le whisky Bourbon décrit ci-dessus a été obtenu aux États-Unis directement à 160 degrés *proof* (80 degrés Gay-Lussac) au maximum, exclusivement par distillation de moûts fermentés d'un mélange de céréales contenant au moins 51 % de grains de maïs et qu'il a vieilli pendant au moins deux ans en fûts de chêne neufs superficiellement carbonisés.

Il Bureau of Alcohol, Tobacco and Firearms, certifica che il whiskey Bourbon sopra descritto è stato ottenuto negli USA direttamente a non più di 160° *proof* (80° Gay-Lussac) esclusivamente per distillazione di mosti fermentati di una miscela di cereali contenente almeno 51 % di granturco e che è stato invecchiato per almeno due anni in fusti nuovi di quercia carbonizzati superficialmente.

Het Bureau of Alcohol, Tobacco and Firearms verklaart dat de hierboven omschreven Bourbon whiskey met een sterkte van niet meer dan 160° proof (80° Gay-Lussac) in de Verenigde Staten van Noord-Amerika in één produktiegang is verkregen uitsluitend door distillatie van gegist beslag van gemengde granen bestaande uit ten minste 51 gewichtspersen (‰) maïs en dat deze whiskey gedurende ten minste twee jaar is gelagerd in nieuwe, aan de binnenzijde verkoolde, eikehouten vaten.

O Bureau of Alcohol, Tobacco and Firearms certifica que o whisky Bourbon acima descrito foi obtido nos U.S.A., directamente a 160° proof (80° Gay-Lussac), no máximo, exclusivamente por destilação de mostos fermentados de uma mistura de cereais que contem, no mínimo, 51 % de milho e que foi envelhecido pelo menos durante dois anos em cascos de carvalho, novos e superficialmente carbonizados.

Protocol 2**concerning the Canary Islands and Ceuta and Melilla***Article 1*

1. Products originating in the Canary Islands or in Ceuta and Melilla and products coming from third countries imported into the Canary Islands or into Ceuta and Melilla under the arrangements which are applicable there to them shall not be deemed, when released for free circulation in the customs territory of the Community, to be goods fulfilling the conditions of Articles 9 and 10 of the EEC Treaty, nor goods in free circulation under the ECSC Treaty.

2. The customs territory of the Community shall not include the Canary Islands and Ceuta and Melilla.

3. Except where otherwise provided for in this Protocol, the acts of the institutions of the Community regarding customs legislation for foreign trade shall apply under the same conditions to trade between the customs territory of the Community, on the one hand, and the Canary Islands and Ceuta and Melilla, on the other.

4. Except where otherwise provided for in this Protocol, the acts of the institutions of the Community regarding the common commercial policy, be they autonomous or enacted by agreement, directly linked to the import or export of goods, shall not be applicable to the Canary Islands or to Ceuta and Melilla.

5. Except where otherwise provided for in the Act of Accession, including this Protocol, the Community shall apply in its trade with the Canary Islands and with Ceuta and Melilla, for products falling within Annex II to the EEC Treaty, the general arrangements which it applies in its foreign trade.

Article 2

1. Subject to Articles 3 and 4 of this Protocol, products originating in the Canary Islands and in Ceuta and Melilla, shall, when released for free circulation in the customs territory of the Community, qualify for exemption from customs duties under the conditions defined in paragraphs 2 and 3.

2. In that part of Spain which is included in the customs territory of the Community, the exemption from customs duties referred to in paragraph 1 shall be granted as from 1 January 1986.

With regard to the remainder of the customs territory of the Community, customs duties on the import of products originating in the Canary Islands or in Ceuta and Melilla shall be abolished in accordance with the same timetable and under the same conditions as those provided for in Articles 30, 31 and 32 of the Act of Accession.

3. By way of derogation from paragraphs 1 and 2, manufactured tobacco falling within heading No 24.02 of the Common Customs Tariff which is processed in the Canary Islands shall qualify, in the customs territory of the Community, for exemption from customs duties within the limit of tariff quotas.

These quotas shall be opened and allocated by the Council, acting by a qualified majority on a proposal from the Commission, taking as the reference base the average of the three best of the last five years for which statistics are available. The Council shall act in good time so as to provide for the opening and allocation of these quotas on 1 January 1986.

In order to avoid a situation whereby this arrangement results in economic difficulties in one or more Member States because of the reconsignment of manufactured tobacco imported into another Member State, the Commission shall adopt, after consulting the Member States, all methods of administrative co-operation which prove necessary.

Article 3

1. Fishery products falling within heading Nos 03.01, 03.02, 03.03, 16.04, 16.05 and subheadings 05.15 A and 23.01 B of the Common Customs Tariff and originating in the Canary Islands or Ceuta and Melilla, shall, within the limit of tariff quotas calculated by product and on the average quantities actually disposed of during 1982, 1983 and 1984, benefit from the arrangements hereinafter defined, intended respectively for that part of Spain which is included in the customs territory of the Community, on one hand, and for the Community as at present constituted, on the other:

- Where the said products are imported into that part of Spain which is included in the customs territory of the Community, they shall qualify for exemption from customs duties. They may not be deemed to be in free circulation in that part of Spain within the meaning of Article 10 of the EEC Treaty when they are reconsigned to another Member State.
- Where the said products are released for free circulation in the remainder of the customs territory of the Community, they shall qualify for the progressive reduction of customs duties according to the same timeable and under the same conditions as those provided for in Article 173 of the Act of Accession, provided that the reference prices are complied with.

2. As from 1 January 1993 for the fishery products referred to in paragraph 1, and from 1 January 1996 for the sardine preparations and preserved sardines falling within subheading 16.04 D of the Common Customs Tariff, the products concerned shall qualify for exemption from customs duties in the whole of the customs territory of the Community up to the limit of the tariff quotas calculated by product and on the average quantities actually disposed of during 1982, 1983 and 1984 in that part of Spain which is included in the customs ter-

ritory of the Community or exported to the Community as at present constituted. The release for free circulation for products imported into the customs territory of the Community, under these tariff quotas, shall be subject to compliance with the rules laid down by the common organization of markets and in particular with respect to reference prices.

3. The Council, acting by qualified majority on a proposal from the Commission, shall each year adopt provisions opening and allocating tariff quotas in accordance with the detailed rules laid down in paragraphs 1 and 2. For 1986 the Council shall act in good time so as to provide for the opening and allocation of the quotas by 1 January 1986.

Article 4

1. The agricultural products appearing in Annex A, originating in the Canary Islands, shall, when they are released for free circulation in the customs territory of the Community, qualify under the conditions laid down in this Article, for exemption from customs duties within the limit of tariff quotas calculated on the average quantities actually disposed of during 1982, 1983 and 1984 respectively, intended for that part of Spain which is included in the customs territory of the Community, on the one hand, and for the Community as at present constituted on the other:

- (a) until 31 December 1995, for those of the products referred to above falling within Regulation (EEC) No 1035/72 and until 31 December 1992 for the other products referred to, the products in question shall qualify:
 - in that part of Spain which is included in the customs territory of the Community, for an exemption from customs duties, without application, where this arises, of the system of reference prices,
 - in the remainder of the customs territory of the Community, for the same conditions as those adopted for the same products coming from that part of Spain which is included in the customs territory of the Community, as long as the system of reference prices is complied with, where they are applicable;
- (b) as from 1 January 1996 for those of the products referred to above falling within Regulation (EEC) No 1035/72 and from 1 January 1993 for the other products referred to, the products in question shall qualify for exemption from customs duties in the whole of the customs territory of the Community as long as the system of reference prices is complied with, where they are applicable.

The Council, acting by a qualified majority on a proposal from the Commission, shall adopt in good time measures so as to provide for the opening and allocation of those quotas by 1 January 1986.

2. (a) By way of derogation from paragraph 1, when bananas falling within subheading 08.01 B of the Common Customs Tariff, originating in the Canary Islands, are released for free circulation in that part of Spain which is included in the customs territory of the Community, they shall qualify for exemption from customs duties. Bananas imported under the abovementioned arrangements may not be deemed to be in free circulation in the said part of Spain within the meaning of Article 10 of the EEC Treaty when they are reconsigned to another Member State.
- (b) Until 31 December 1995, the Kingdom of Spain may maintain, for the bananas referred to in (a) which are imported from the other Member States, the quantitative restrictions and measures having equivalent effect which it applied on the import of these products under the previous national arrangements.

Notwithstanding Article 76 (2) of the Act of Accession and until the setting up of a common organization of the market for that product, the Kingdom of Spain may retain, to the extent that is strictly necessary to ensure the maintenance of the national organization, quantitative restrictions on imports of bananas referred to in (a) imported from third countries.

Article 5

1. Where application of the arrangement referred to in Article 2 (2) could lead to a substantial increase in the import of certain products originating in the Canary Islands or in Ceuta and Melilla such as might prejudice Community producers, the Council, acting by qualified majority on a proposal from the Commission, may subject the access of these products to the customs territory of the Community to special conditions.

2. Where, because the Common Commercial Policy and the Common Customs Tariff are not applied to the import of raw materials or intermediate products into the Canary Islands or Ceuta and Melilla, imports of a product originating in the Canary Islands or in Ceuta or Melilla cause, or may cause, serious injury to a producer activity exercised in one or more Member States, the Commission, at the request of a Member State or on its own initiative, may take the appropriate measures.

Article 6

1. On import into the Canary Islands or into Ceuta and Melilla, products originating in the customs territory of the Community shall qualify for exemption from the customs duties and charges having equivalent effect under the conditions defined in paragraphs 2 and 3.

2. The customs duties existing in the Canary Islands and in Ceuta and Melilla and the charge known as the 'arbitrio insular — tarifa general' existing in the Canary Islands shall be abolished progressively, with regard to products originating in the customs territory of the Community, according to the same timetable and under the same conditions as those provided for in Articles 30, 31 and 32 of the Act of Accession.

3. The so-called 'arbitrio insular — tarifa especial' of the Canary Islands shall be abolished with regard to products originating in the customs territory of the Community on 1 March 1986.

However, the said charge may be maintained, on the import of the products listed in Annex B, at a rate corresponding to 90 % of the rate indicated opposite each of the products on the said list and on condition that this reduced rate is applied on a uniform basis to all imports of the products concerned originating in the whole of the customs territory of the Community. The said charge will be abolished by 1 January 1993 at the latest unless the Council, acting by qualified majority on a proposal from the Commission, decides that it should be prolonged on the basis of the trend in the economic situation in the Canary Islands for each of the products concerned.

The said charge may at no time be higher than the level of the Spanish customs tariff as modified with a view to the progressive introduction of the Common Customs Tariff.

Article 7

The customs duties and charges having an effect equivalent to such duties and the trade arrangements applied, on the import to the Canary Islands and to Ceuta and Melilla, of goods coming from a third country may not be less favourable than those applicable by the Community in accordance with its international commitments or its preferential arrangements with regard to such third country, providing that the same third country grants, to imports from the Canary Islands and from Ceuta and Melilla, the same treatment as that which it grants to the Community. However, the arrangements applied to imports into the Canary Islands and into Ceuta and Melilla with regard to goods coming from such third country may not be more favourable than those applied with regard to the imports of products originating in the customs territory of the Community.

Article 8

The arrangements applicable to trade in goods between the Canary Islands, on the one hand, and Ceuta and Melilla, on the other, shall be at least as favourable as those applicable pursuant to Article 6.

Article 9

1. The Council, acting by a qualified majority on a proposal from the Commission, shall, before 1 March 1986, adopt the rules for the application of this Protocol and in particular the rules of origin applicable to trade, as referred to in Articles 2, 3, 4, 6 and 8, including the provisions concerning the identification of originating products and the control of origin.

The rules will include, in particular, provisions on marking and/or labelling of products, on the conditions of registration of vessels, on the application of the rule on mixed origin for fishery products, and also provisions enabling the origin of products to be determined.

2. The following shall remain applicable until 28 February 1986:

- the rules of origin provided for by the 1970 Agreement between the European Economic Community and Spain, to trade between the customs territory of the Community as at present constituted, on the one hand, and the Canary Islands and Ceuta and Melilla, on the other,
- the rules of origin provided for by the national provisions in force as at 31 December 1985, to trade between that part of Spain included in the customs territory of the Community, on the one hand, and the Canary Islands and Ceuta and Melilla, on the other.

Protocol 3

concerning the exchange of goods between Spain and Portugal for the period during which the transitional measures are applied

Article 1

1. Except for products falling within Annex II of the EEC Treaty and subject to the provisions of this Protocol, Spain and Portugal shall apply in their trade the treatment agreed upon between each of them, on the one hand, and the Community as at present constituted, on the other, as such treatment is defined in Chapter I of Title II and in Chapter I of Title III of Part Four of the Act of Accession.

2. The Kingdom of Spain shall apply to products originating in Portugal and falling within Chapters 25 to 99 of the Common Customs Tariff, with the exception of those falling within Regulations (EEC) No 2783/75, (EEC) No 3033/80 and (EEC) No 3035/80, the same arrangements as those applied by the Community as at present constituted, with regard to Portugal, in particular with reference to the elimination of customs duties and charges having equivalent effect and of quantitative restrictions on imports and exports, and measures having equivalent effect, to goods falling within the EEC Treaty and fulfilling, in Portugal, the conditions of Articles 9 and 10 of the said Treaty and to goods falling within the ECSC Treaty which are in free circulation, in accordance with this Treaty, in Portugal.

The Portuguese Republic shall apply to products originating in Spain falling within Chapters 25 to 99 of the Common Customs Tariff, with the exception of those falling within Regulations (EEC) No 2783/75, (EEC) No 3033/80 and (EEC) No 3035/80, the same treatment as it applies with respect to the Community as at present constituted.

3. The Council, acting by a qualified majority on a proposal from the Commission, shall adopt before 1 March 1986 the rules of origin applicable to the trade between Spain and Portugal.

Article 2

For the purposes of applying Article 48 of the Act concerning the conditions of accession, with regard to the products listed in Annex A, the abolition of exclusive import duties in Spain provided for in paragraph 3 of the said Article shall be carried out by the progressive opening, as from 1 March 1986, of import quotas for products originating in Portugal. The amounts of the quotas for 1986 shall be indicated in the said list.

The Kingdom of Spain shall increase the amounts of the quotas under the conditions given in the same Annex. Increases expressed in percentages shall be

added to each quota and the following increase shall be calculated on the basis of the total figure thus obtained.

Article 3

1. By way of derogation from Article 1, the Kingdom of Spain shall introduce, for products originating in Portugal and listed in Annex B, from 1 March 1986 to 31 December 1990, zero rate tariff ceilings. Should the quantities provided for each of the said ceilings be attained, the Kingdom of Spain may, until the end of the current calendar year, reintroduce customs duties; in this event these customs duties shall be identical to those which it applies at the same time to the Community as at present constituted.

The amount of the ceilings for 1986 shall be indicated in Annex B and the rate at which the annual progressive increase is carried out shall be the following:

- 1987, 10 %,
- 1988, 12 %,
- 1989, 14 %,
- 1990, 16 %.

The increase shall be added to each quota and the subsequent increase shall be calculated on the basis of the total figure obtained.

2. The arrangements for the tariff ceilings provided for in paragraph 1 will also be applicable for 1990 to the textile products which appear in Annex C.

3. The Kingdom of Spain and the Portuguese Republic may, until 31 December 1990, submit the imports of products appearing in Annex B to prior monitoring for purely statistical purposes.

The Kingdom of Spain may submit the imports of products referred to in Annex C during 1990 to prior monitoring for purely statistical purposes.

At all events, the import of the products referred to above may not be held up in any way as a result of the application of this statistical monitoring.

Article 4

1. Until 31 December 1990, the Kingdom of Spain may subject to prior monitoring on import, purely for

statistical purposes, the following products originating in Portugal:

CCT heading No	Description
47.01	Pulp derived by mechanical or chemical means from any fibrous vegetable material
48.01	Paper or paperboard (including cellulose wadding), in rolls or sheets

At all events, the import of the products referred to above may not be held up in any way as a result of the application of this statistical monitoring.

2. Under the conditions and within the time limit referred to in paragraph 1, the Portuguese Republic may submit the products referred to in paragraph 1, originating in Spain, to prior monitoring on import for purely statistical purposes.

Article 5

1. Until 31 December 1988, the Portuguese Republic may subject to prior monitoring on import, purely for statistical purposes, the following products originating in Spain:

(a) products falling within the ECSC Treaty;

CCT heading No	Description
73.14	Iron or steel wire, whether or not coated, but not insulated
73.15	Alloy steel and high carbon steel in the forms mentioned in heading Nos 73.06 to 73.14: A. High carbon steel: ex VIII. Wire, whether or not coated, but not insulated: — Not coated
73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron) or steel, excluding high-pressure hydro-electric conduits

(b) At all events, the import of the products referred to above may not be held up in any way as a result of the application of this statistical monitoring.

The two parties may agree to extend this arrangement for statistical monitoring for a period which does not go beyond 31 December 1990. Where there is no agreement, and at the request of one of the two States, the Commission may decide to extend the arrangement if it notes that there are major disturbances on the Portuguese market.

2. Under the conditions provided for in the second subparagraph of paragraph 1, the Portuguese Republic may, until 31 December 1992, submit to prior monitoring on import, purely for statistical purposes, the following products originating in Spain:

CCT heading No	Description
22.02	Lemonade, flavoured spa waters and flavoured aerated waters, and other non-alcoholic beverages, not including fruit and vegetable juices falling within heading No 20.07
22.03	Beer made from malt

3. Under the conditions provided for in the first subparagraph of paragraph 1, the Kingdom of Spain may, until 31 December 1992, subject to prior monitoring, purely for statistical purposes, the products appearing in Annex VII of the Act of Accession and spirituous beverages falling within subheading 22.09 C of the Common Customs Tariff originating in Portugal.

Article 6

1. Until 31 December 1990 and for the products referred to in Article 4, where there are abrupt and major changes in their traditional trade patterns, the Kingdom of Spain and the Portuguese Republic shall consult, within a maximum of five working days from the date of request made by one of these Member States to examine the situation, in order to arrive at an agreement on the possible measures to be adopted.

2. Until 31 December 1988 and for the products referred to in Article 5 (1), where there are abrupt and major changes in the import into Portugal of products originating in Spain, the Kingdom of Spain and the Portuguese Republic shall consult each other, within a maximum of five working days from the date on which the request by the Kingdom of Spain, to examine the situation, is received, in order to arrive at an agreement on the possible measures to be adopted.

3. Should it prove impossible, in the consultations provided for in paragraphs 1 and 2, for the Kingdom of Spain and the Portuguese Republic to arrive at an agreement, the Commission, bearing in mind the criteria governing the safeguard clause referred to in Article 379 of the Act of Accession, shall, by an emergency procedure lay down the safeguard measures which it deems necessary, defining the conditions and means of application.

Article 7

1. In cases where the compensatory amounts referred to in Articles 72 and 240 of the Act of Accession or the compensatory amounts mechanism referred to in Article 270 are applied in trade between Spain and Portugal to one or more of the commodities considered as having been used in the manufacture of goods covered

by Council Regulation (EEC) No 3033/80 of 11 November 1980 fixing the trade arrangements applicable to certain goods resulting from the processing of agricultural products, the transitional measures applicable shall be determined in accordance with the rules laid down in Articles 53 and 213 of that Act. The compensatory amounts applicable in trade between the Kingdom of Spain and the Portuguese Republic shall be levied or granted by the State in which the prices of the agricultural commodities concerned are the higher.

2. The customs duty constituting the fixed component in the taxation applicable, on the date of accession, to imports to Portugal from Spain and vice versa of goods covered by Regulation (EEC) No 3033/80, shall be determined in accordance with the provisions of Articles 53 and 213 of the Act of Accession.

However, in cases where, for the products listed in Annex XIX of that Act, the customs duty constituting the fixed component in the taxation applicable by Portugal to imports from Spain, calculated according to the above provisions, is less than the duties given in that Annex, the latter shall apply.

In cases where, for these same products, this customs duty is higher than the customs duty constituting the fixed component of the taxation applicable by Portugal to imports from the Community as at present constituted, the latter shall apply.

The previous paragraph shall not apply to chocolate and other food preparations containing cocoa of heading No 18.06 of the Common Customs Tariff. In respect of such products, the fixed component in the taxation applicable by Portugal to imports from Spain may not be higher than 30 %.

Article 8

1. The Commission, taking due account of the provisions in force, in particular those relating to Community transit, shall determine the methods of administrative cooperation designed to ensure that the goods fulfilling the conditions required for that purpose benefit from the treatment laid down by this Protocol.

These methods will include *inter alia* the measures necessary to ensure that goods which have benefited from the above treatment in Spain or Portugal, at the time of their further dispatch to the Community as at present constituted, are subject to the same treatment as that which would have been applicable to them had they been imported directly.

2. Until 28 February 1986, the arrangements currently governing trade relations between the Kingdom of Spain and the Portuguese Republic shall remain applicable to trade between Spain and Portugal.

3. The Commission shall determine the provisions applicable from 1 March 1986 to trade, between Spain and Portugal, in goods obtained in Spain or Portugal, in the manufacture of which were used:

- products which have not been subject to the customs duties and charges having equivalent effect which were applicable to them in Spain or Portugal, or which have benefited from a total or partial refund of such duties or charges,
- agricultural products which do not satisfy the conditions required to be admitted for free circulation in Spain or Portugal.

In adopting these provisions, the Commission shall take account of the rules laid down in the Act of Accession for the elimination of customs duties between the Community as at present constituted and Spain and Portugal and for the gradual application, by the Kingdom of Spain and the Portuguese Republic, of the Common Customs Tariff and of the provisions relating to the common agricultural policy.

Article 9

1. Unless the Act of Accession and this Protocol provide otherwise, the customs legislation in force relating to trade with third countries shall apply under the same conditions to trade between Spain and Portugal, for as long as customs duties are levied in respect of such trade.

For fixing the customs valuation in trade between Spain and Portugal, and in trade with third countries until:

- 31 December 1992 in the case of industrial products,
- 31 December 1995 in the case of agricultural products,

the customs territory to be taken into consideration shall be that defined by the legislation in force in the Kingdom of Spain and in the Portuguese Republic on 31 December 1985.

2. In their trade, the Kingdom of Spain and the Portuguese Republic shall apply, as from 1 March 1986, the nomenclature of the Common Customs Tariff and that of the ECSC unified tariff.

Article 10

The Portuguese Republic shall apply, in the context of its trade with the Canary Islands and Ceuta and Melilla, the specific arrangements agreed therefor between the Community as at present constituted and the Kingdom of Spain and referred to in Protocol 2.

Article 11

Without prejudice to the second subparagraph of Article 1 (2) the Commission shall on accession adopt every measure of application which may prove necessary with a view to implementing the provisions of this Protocol, and in particular the procedures for applying the monitoring referred to in Articles 3, 4 and 5.

Protocol 4

Mechanism for additional responsibilities within the framework of fisheries agreements concluded by the Community with third countries

1. A specific system is hereby established for the execution of operations carried out as a complement to fishing activities undertaken by vessels flying the flag of a Member State of the Community in waters falling under the sovereignty or within the jurisdiction of a third country within the framework of responsibilities created under fisheries agreements concluded by the Community with the third countries in question.
 2. Operations considered likely to occur by way of addition to fishing activities subject to the conditions and within the limits stipulated in points 3 and 4 relate to:
 - processing, in the territory of the third country concerned, of fishery products caught by vessels flying the flag of a Member State of the Community in the waters of that third country in the course of fishing activities carried out by virtue of a fisheries agreement, with a view to those products being put on the Community market under tariff headings falling within Chapter 03 of the Common Customs Tariff,
 - loading or transshipment aboard a vessel flying the flag of a Member State of the Community occurring within the framework of activities provided for under such a fisheries agreement, of fishery products falling within Chapter 03 of the Common Customs Tariff with a view to their transport and any processing for the purpose of being put on the Community market.
 3. The import into the Community of products having been the subject of the operations referred to in paragraph 2 shall be carried out subject to suspension, in part or in whole, of the Common Customs Tariff duties or subject to a special system of charges, under the conditions and within the limits of additionality fixed annually in relation to the volume of fishing possibilities deriving from the agreements in question and from their accompanying detailed rules.
 4. The Council, acting by a qualified majority on a proposal from the Commission, shall, before 1 March 1986, adopt the general rules of application of this system and in particular the criteria for fixing and apportioning the quantities concerned.
- Such adjustments to this system as may prove necessary in the light of experience acquired, shall be adopted in accordance with the same procedure.
- The detailed implementing rules of this system and the quantities concerned shall be adopted in accordance with the procedure of Article 33 of Regulation (EEC) No 3796/81.

Protocol 5

on the participation of the new Member States in the funds of the European Coal and Steel Community

The contributions of the new Member States to the funds of the European Coal and Steel Community shall be fixed as follows:

- the Kingdom of Spain, 54 400 000 ECU,
- the Portuguese Republic, 2 475 000 ECU.

These contributions shall be paid:

- for the Kingdom of Spain in three interest-free equal annual instalments starting on 1 January 1986,
- for the Portuguese Republic in four interest-free equal annual instalments starting on 1 January 1986.

Each instalment shall be paid in the freely convertible national currency of each of these new Member States.

Protocol 6

concerning annual Spanish tariff quotas on the import of motor vehicles falling within subheading 87.02 A I b) of the Common Customs Tariff referred to in Article 34 of the Act of Accession

1. The Kingdom of Spain shall, from 1 January 1986, open annual tariff quotas for the import of motor vehicles for the transport of persons, with either a spark ignition or a compression ignition engine, other than motor coaches and buses, falling within subheading 87.02 A I b) of the Common Customs Tariff, originating in the Community as at present constituted. The customs duty applicable within the limits of this tariff quota shall be fixed at 17,4 %. The quota shall be abolished on 31 December 1988.

The basic volume of the tariff quota shall be fixed at 32 000 motor vehicles. It shall be increased to 36 000 units on 1 January 1987 and 40 000 units on 1 January 1988.

2. The annual volumes shall be divided into two instalments.

The first instalments shall be subdivided into four categories of cylinder capacity:

- less than 1 275 cc,
- from 1 275 up to and including 1 990 cc,
- more than 1 990 up to and including 2 600 cc,
- more than 2 600 cc.

The second instalments shall make up the reserve.

The distribution of the first instalments shall be fixed as follows:

(a) for 1986: 28 000 units, of which:

- 3 000 units for the category of less than 1 275 cc,
- 13 000 units for the category from 1 275 up to and including 1 990 cc,
- 11 000 units for the category of more than 1 990 up to and including 2 600 cc,
- 1 000 units for the category of more than 2 600 cc;

(b) for 1987: 32 000 units, of which:

- 3 400 units for the category of less than 1 275 cc,
- 14 850 units for the category from 1 275 up to and including 1 990 cc,
- 12 600 units for the category of more than 1 990 up to and including 2 600 cc,
- 1 150 units for the category of more than 2 600 cc;

(c) for 1988: 36 000 units, of which:

- 3 850 units for the category of less than 1 275 cc,
- 16 700 units for the category from 1 275 up to and including 1 990 cc,
- 14 150 units for the category of more than 1 990 up to and including 2 600 cc,
- 1 300 units for the category of more than 2 600.

The annual reserve of 4 000 vehicles for each of the years 1986, 1987 and 1988 shall cover imports of vehicles of all cylinder capacities. However, use of this reserve shall be limited to motor vehicles originating in Italy and the United Kingdom, 2 000 vehicles being allocated to each of these Member States.

3. The provisions relating to the administration and application of the annual tariff quota shall, in particular, guarantee equal and continued access of all motor vehicles constructed in the Community as at present constituted and the uninterrupted application of the customs duty laid down for the said quota to all producers from the Community as at present constituted until the quota is exhausted. The provisions shall ensure that the quota volume is entirely used up at the end of each year.

The position with regard to the use of the annual tariff quota shall be reviewed jointly by the Kingdom of Spain and the Commission on 1 October of each year.

4. The Kingdom of Spain shall forward to the Commission on 15 March, 15 May, 15 July, 15 September, 15 November and 15 January of each year the following information:

- the extent to which each part of the quota is used up,
- any growth in volume of the parts, following withdrawals from the reserve,
- returns to the reserve,
- the state of the reserve,
- any other information the Commission deems necessary.

5. Before any act implementing this Protocol, in whatever form including decree, directive or administrative instruction, is brought into force by the Kingdom of Spain, such act must first be submitted to the Commission so that it may be examined for its compatibility with the Treaty, the Act of Accession and, in particular, this Protocol. The Kingdom of Spain shall notify the Commission of any amendment to the text of such an act.

Protocol 7

on Spanish quantitative quotas

1. The quotas referred to in Article 43 shall be global and open without discrimination to all the present Member States. They shall be open to all operators without restriction.

2. Quotas shall be open in one instalment at the beginning of the calendar year.

However, the Kingdom of Spain may open these quotas in two equal instalments, the second instalment starting at the beginning of the second half of the year. In that case the remainder of the first instalment shall be carried over to the second instalment so as to comply with the global annual amount.

3. The Kingdom of Spain shall notify the Commission each year or each half year and shall publish officially the opening of the quotas.

4. The time limit for making an application for a licence shall be for a minimum of four weeks from the publication or notification; once this time limit has expired, the Kingdom of Spain shall grant the licences within a maximum period of 20 working days.

5. The import licence shall be valid for at least six months.

6. The Kingdom of Spain shall furnish information to the Commission at half-yearly intervals on the use of the quotas.

Protocol 8

on Spanish patents

1. The Kingdom of Spain shall upon accession adjust its patent law so as to make it compatible with the principles of the free movement of goods and with the level of protection of industrial property attained in the Community, in particular in the fields of contractual licensing rules, of exclusive compulsory licensing, of the compulsory exploitation of a patent and also the patent of importation.

To that end, close cooperation shall be instituted between the Commission services and the Spanish authorities; this cooperation shall also cover the problems of transition of current Spanish law towards new law.

2. The Kingdom of Spain shall introduce, in its national legislation, a provision on shifting the burden of proof corresponding to Article 75 of the Luxembourg Convention of 15 December 1975 on the Community patent.

This provision shall apply upon accession with regard to new process patents filed as from the date of accession.

For patents filed prior to that date, this provision shall apply not later than 7 October 1992.

However, this provision shall not apply if the infringement proceedings are brought against the holder of

another process patent for the manufacture of a product identical to that obtained as the result of the patented process of the plaintiff, if that other patent was issued before the date of accession. Nevertheless, the Kingdom of Spain shall repeal from accession Article 273 of its law relating to patents, currently in force.

In cases where shifting the burden of proof does not apply, the Kingdom of Spain shall continue to require the patent holder to adduce proof of infringement. In all these cases the Kingdom of Spain shall however pass new legislation with effect from 7 October 1992, introducing a judicial procedure known as 'distrainment-description'.

'Distrainment-description' means a procedure forming part of the system referred to in the preceding paragraphs by which any person entitled to bring an action for infringement may, after obtaining a Court order, granted on his application, cause a detailed description to be made, at the premises of the alleged infringer, by a bailiff assisted by experts, of the processes in question, in particular by photocopying technical documents, with or without actual distrainment. This Court order may order the payment of a security, intended to grant damages to the alleged infringer in case of injury caused by the 'distrainment-description'.

3. The Kingdom of Spain shall accede to the Munich Convention of 5 October 1973 on the European patent within the required time limits so as to allow it to invoke the provisions of Article 167 of the said Convention solely for chemical and pharmaceutical products.

In this context and taking account of the fulfilment of the undertaking entered into by the Kingdom of Spain under paragraph 1, the Member States of the Community in their capacity as Contracting States to the Munich Convention undertake to use their best endeavours to ensure, should a request be submitted by the Kingdom of Spain in accordance with that Convention, an extension — beyond 7 October 1987 and for the maximum period laid down in the Munich Convention — of the validity of the reserve laid down in the said Article 167. If the extension of the abovementioned

reserve is not obtained, the Kingdom of Spain may rely upon Article 174 of the Munich Convention, it being understood that the Kingdom of Spain will, in any event, accede to that Convention not later than 7 October 1992.

4. On the expiry of the abovementioned derogation, the Kingdom of Spain shall accede to the Luxembourg Convention on the Community patent.

The Kingdom of Spain may invoke Article 95 (4) of the said Convention with a view to introducing the purely technical adaptations made necessary by its accession to the said Convention, it being however understood that such an invocation will in no way delay the accession of the Kingdom of Spain to the Luxembourg Convention beyond the abovementioned date.

Protocol 9

on trade in textile products between Spain and the Community as at present constituted

Article 1

The Kingdom of Spain shall, under the conditions laid down in Articles 2, 3 and 4, control until 31 December 1989 exports to the present Member States of the products indicated in the list appearing in Annex A, on the basis of the quantities set out in that list.

Article 2

The Community and the Kingdom of Spain shall establish, for such time as Article 1 is applicable, administrative cooperation under the conditions defined in Annex B.

Article 3

After prior notification to the Commission, the Kingdom of Spain may apply to its exports to the present Member States of the products indicated in the list appearing in Annex A the flexibility provisions laid down in Annex C.

Article 4

The Commission and the competent authorities of the Kingdom of Spain shall enter into, if the situation so requires, appropriate consultations in order to avoid situations arising which would necessitate recourse to protective measures.

Article 5

1. If the quantities indicated in Annex A are reached, or if sudden and substantial variations as compared with traditional trade flows are recorded with regard to the import into the present Member States of the products listed in Annex B (1), the Commission shall determine, at the request of the Member State concerned and following the emergency procedure laid down in Article 379 (2) of the Act, such protective measures as it deems necessary.

2. If sudden and substantial variations as compared with traditional trade flows are recorded with regard to the import into Spain of the products listed in Annex B (9), the Commission shall determine at the request of the Kingdom of Spain and following the emergency procedure laid down in Article 379 (2) of the Act, such protective measures as it deems necessary.

2. The Spanish competent authorities shall issue an export licence for any export of textile products of the categories, tariff headings and NIMEXE codes referred to in point 1 originating in Spain and intended to be sent to the present Member States with a view to their definitive import.

3. On sight of the export licence referred to in point 2, the Spanish competent authorities shall issue export licence certificates.

These certificates shall contain in particular the details which must appear on the importer's declaration or request referred to in point 6.

4. The Spanish competent authorities shall notify the Commission within the first 10 days of each quarter, broken down by Member State and product category, of:

- (a) the quantities for which export certificates have been issued during the preceding quarter;
- (b) the exports made during the quarter preceding the period referred to in (a).

5. The Spanish competent authorities shall also notify on a quarterly basis the Commission and the competent authorities of the present Member States of the serial numbers of the export licence certificates that have expired and any other information they may consider relevant to the matter.

6. The definitive import into a present Member State of products covered by the present administrative cooperation shall be subject to the submission of an import document. This document shall be issued or endorsed by a competent authority of the importing Member State, free of charge, for all the quantities requested, within a maximum period of five working days after lodging, in accordance with the national laws in force, either a declaration, or simply a request, by any importer from the Member States regardless of where he is established in the Community. This import document shall only be issued or endorsed on the sight of an export licence certificate issued by the Spanish competent authorities.

The declaration or request of the importer shall indicate:

- (a) the name and address of the importer and exporter;
- (b) the description of the product, indicating:
 - the trade designation,
 - the category number of the product indicated in column 1 of the list appearing in point 1,
 - the tariff heading or reference number of the nomenclature of goods of the national statistics of foreign trade,
 - the country of origin;
- (c) the indication of the product in the unit appearing in column 5 of the list appearing in point 1;
- (d) the date or dates laid down for import.

The importing Member State may request further details; this must not however result in any barrier to imports.

This point shall not prevent the definitive import of the products in question if the quantity of products entered for import exceeds *in toto* by less than 5 %, the quantity mentioned in the import document.

7. Where a requested import document concerns a quantity less than the quantity indicated in the export licence certificate, that certificate shall be returned to the importer with a note on the back stating the quantity for which an import document was issued.

8. The present Member States shall notify the Commission within the first 10 days of each quarter, broken down by product category, of:

- (a) the quantities for which the import documents have been issued or endorsed during the preceding quarter;
- (b) the imports made during the quarter preceding the period referred to in (a).

10. Import into Spain of the products referred to in point 9 originating in the Member States shall be subject to the submission of an import document. This

document shall be issued or endorsed by the Spanish competent authority, free of charge, for all the quantities requested, within a maximum period of five working days after lodging, in accordance with the national laws in force, either a declaration, or simply a request, by any importer from the Member States regardless of where he is established in the Community.

The declaration or request of the importer shall indicate:

- (a) the name and address of the importer and exporter;
- (b) the description of the product, indicating:
 - the trade designation,
 - the tariff heading or reference number of the nomenclature of goods of the national statistics of foreign trade,
 - the country of origin;
- (c) the indication of the product in the unit appearing in column 4 of the list appearing in point 9;

(d) the date or dates laid down for import.

The Kingdom of Spain may request further details; this must not however result in any barrier to imports.

This point shall not prevent the definitive import of the products in question if the quantity of products entered for import exceeds, in total, by less than 5 %, the quantity mentioned in the import document.

11. The Kingdom of Spain shall notify the Commission, during the first 10 days of the second quarter following the quarter concerned of imports made, expressed in units, indicated in column 4 of the list appearing in point 9, broken down by tariff heading, NIMEXE code and Member State of origin.

Common provisions

12. The Commission and the Spanish authorities shall, at least every quarter, examine their trade and prospects with a view to a thoroughgoing analysis of the situation.

ANNEX C

Flexibility laid down in Article 3

The flexibility provisions laid down in Article 3 of this Protocol shall be determined in accordance with the following procedure:

- The carry-over of quantities not utilized during any given year to the corresponding quantities for the following year up to 9 % of the quantities concerned for the actual year of application.
- The advance utilization during any given year of part of the quantities fixed for the following year up to 5 % of the quantities concerned for the year of utilization. Such advance exports shall be deducted from the corresponding quantities fixed for the following year.

Protocol 10

on the restructuring of the Spanish iron and steel industry

1. Restructuring plans of Spanish iron and steel undertakings should lead to a situation where the production capacity of the Spanish iron and steel industry for ECSC hot-rolled products does not exceed 18 million tonnes at the end of the period referred to in Article 52, and they should be compatible with the last general steel objectives adopted before the date of accession.
 2. From the date of accession, the Commission and the Spanish Government will assess jointly the degree to which the plans, already approved by the Spanish Government and officially forwarded to the Commission on 24 July and 1 August 1984 have been completed and the viability of the iron and steel undertakings to which those plans relate.
 3. Should the viability of these undertakings not be satisfactorily guaranteed at the end of a maximum of three years after accession, the Commission, after having received the opinion of the Spanish Government, shall propose, at the end of the first year after accession, to make an addition to those plans, thereby enabling those undertakings to reach a viable state by the end of those plans.
 4. The Commission and the Spanish Government will also assess, from the date of accession, the viability of undertakings for which the plans referred to in point 2 above make no provision for aid after the date of accession. Should the viability of these undertakings not be satisfactorily guaranteed at the end of a maximum of three years after accession, the Commission, after having received the opinion of the Spanish Government, will propose, at the end of the first year after accession, restructuring measures thereby enabling those undertakings to reach a viable state by the end of the abovementioned period of three years at the latest.
 5. Any aid to the Spanish iron and steel industry forming part of the additions to the plans provided for in point 3 or measures provided for in point 4 shall be notified in advance, and not later than the end of the first year after accession, to the Commission by the Spanish Government. The said Government shall not implement its projects without authorization from the Commission.
- The Commission shall assess those projects on the basis of the criteria and in accordance with the procedures defined in the Annex to this Protocol.
6. During the period mentioned in Article 52 of the Act of Accession, Spanish deliveries of ECSC iron and steel products to the remainder of the Community should fulfil the following conditions:
 - (a) The level of Spanish deliveries to the remainder of the Community during the first year following accession, shall be that fixed by the Commission after agreement of the Spanish Government and consultation of the Council during the year preceding accession. Should no agreement have been reached on this point, by the date of accession, the level of deliveries shall be fixed, not later than two months after the date of accession, by the Commission with the assent of the Council.
- These deliveries will in any event have to be liberalized once the transitional arrangements have expired and, in order to bring about a harmonious transition, their level may be increased before the end of the said arrangements, the level of the first year being considered as a starting point.
- Any increase in the level will be made on the basis of:
- the state of progression of the Spanish restructuring plans, taking into account significant

factors in re-establishing the viability of the undertakings; and necessary measures to attain such viability, and

- iron and steel measures which may be in force in the Community after accession so that Spain is not treated less favourably than third countries.
- (b) The Spanish Government hereby undertakes to implement upon accession, under its responsibility and in agreement with the Commission, a mechanism for monitoring deliveries to the remainder of the Community market calculated to ensure strict

observance of the quantitative undertakings agreed or established pursuant to point (a).

This mechanism must be compatible with any other measure of market supervision which may be adopted during the three years following the date of accession, and must not jeopardize the possibility of delivering the agreed quantities.

The Commission will regularly inform the Council of the reliability and the effectiveness of this mechanism. Should it prove to be unsatisfactory, the Commission shall, with the assent of the Council, take the appropriate measures.

ANNEX

Procedures and criteria for the assessment of aids

1. All aids to the iron and steel industry, whether specific or non-specific, financed by the Spanish State or through State resources in any form whatsoever may be considered compatible with the orderly functioning of the Common Market only if they respect the general rules set out in paragraph 2 and satisfy the provisions of paragraphs 3 to 6. Such aids shall be put into effect only in accordance with the procedures established in this Annex.

The concept of aid includes aid granted by regional or local authorities and any aid elements contained in the financing measures taken by the Spanish State in respect of the iron and steel undertakings which it directly or indirectly controls and which do not count as the provision of risk capital according to standard company practice in a market economy.

2. Aids granted to the Spanish iron and steel industry may be considered compatible with the orderly functioning of the common market provided that:

- the recipient undertaking or group of undertakings is engaged in the implementation of a systematic and specific restructuring programme covering the various aspects of restructuring (modernization, reduction of capacity and, where necessary, financial restructuring), which is capable of restoring its competitiveness and of making it financially viable without aid under normal market conditions, by the expiry of the transitional arrangements at the latest,
- the said restructuring programme results in a reduction in the overall production capacity of the recipient undertaking or group of undertakings and does not make provision for an increase in production capacity for the various categories of products for which there is not a growth market,
- the amount and intensity of the aids granted to steel undertakings are progressively reduced,
- the aids in question do not entail distortions of competition and do not affect trading conditions to an extent contrary to the common interest,

- the aids are approved not later than 15 months after accession and do not lead to any payments after the expiry of the transitional arrangements, other than by way of interest subsidies or of payments to honour guarantees on loans disbursed before that date.

3. Aids in support of investment in the iron and steel industry may be considered compatible with the orderly functioning of the common market provided that:

- the Commission has received prior notification of the investment programme where such notification is required by Commission Decision No 3302/81/ECSC of 18 November 1981, on the information to be furnished by steel undertakings about their investments or by any subsequent Decision,
- the amount and intensity of the aids are justified by the extent of the restructuring effort that has been made, account being taken of the structural problems of the region where the investment is to be undertaken, and are limited to what is necessary for that purpose,
- the investment programme takes account of the criteria defined in paragraph 2 and of the general objectives for steel, having regard to any reasoned opinion which the Commission may have issued on the investment programme concerned.

In its examination of such aids the Commission shall take account of the extent of the contribution of the investment programme concerned to other Community objectives, for instance innovation, energy saving and environmental protection, provided that the rules of paragraph 2 are adhered to.

4. Aids to defray the normal costs resulting from the partial or total closure of steel plants may be considered compatible with the orderly functioning of the common market.

The costs eligible for such aid shall be the following:

- allowances paid to workers made redundant or retired before legal retirement age, where such allowances are

- not covered by aids pursuant to Article 56 (1) (c) or (2) (b) of the Treaty,
- compensation due to third parties in respect of the termination of contracts, in particular for the supply of raw materials,
 - expenditure incurred for the redevelopment of the site, the buildings and/or infrastructures of closed steel plant for alternative industrial use.

Exceptionally and by way of derogation from paragraph 5 of the Protocol 10 and the fifth indent of paragraph 2 of this Annex, aids for closures which could not be foreseen in the programmes notified not more than 12 months after accession may be notified to the Commission after that date and authorized later than the first 15 months following accession.

5. Aids to facilitate the operation of certain undertakings or plants may be considered compatible with the orderly functioning of the common market provided that:

- those aids form an integral part of a restructuring programme as defined in the first indent of paragraph 2,
- they are progressively reduced at least once a year,
- they are limited in intensity and amount to what is absolutely necessary in order to enable operation to continue during the period of restructuring, and are justified by the extent of the restructuring effort made, account also being taken of any aid granted for investment.

In its examination of such aids the Commission shall take account of the problems facing the unit or units in question and the region or regions concerned, and of the secondary effects of the aid on competition on markets other than the steel market, in particular the transport market.

6. Aids to defray expenditure by steel undertakings on research and development projects may be considered compatible with the orderly functioning of the common market provided that the research and/or development project in question has one of the following objectives:

- a reduction in the costs of production, notably energy saving, or an improvement in productivity,
- an improvement in product quality,
- an improvement in the performance of iron and steel products or an increase in the range of uses of steel,
- an improvement in working conditions as regards health and safety.

The total amount of all aid granted for the above purposes may not exceed 50 % of the eligible costs of the project. The costs eligible for such aid shall mean the costs directly associated with the project and shall exclude in particular all expenditure on investment related to production processes.

7. The Commission shall seek the views of the Member States on the aid projects notified to it by the Spanish Government before adopting a position on them. It shall inform all Member States of the position adopted by it on each aid project.

If, after giving notice to the parties concerned to submit their comments, the Commission finds that an aid is incompatible with the provisions of this Annex, it shall inform the Spanish Government of its decision. Article 88 of the Treaty shall apply in the event of failure by the Spanish Government to comply with that Decision.

8. The Spanish Government shall supply the Commission twice a year with reports on aids disbursed in the course of the preceding six months, on the uses made of such aids and on the results achieved during the same period as regards restructuring. These reports must include details of all financial measures taken by the Spanish State or by regional or local authorities in respect of public steel undertakings. They must be forwarded within two months of the end of each six-month period in a form to be determined by the Commission.

The first of these reports will concern aids disbursed during the first six months following accession.

Protocol 11

on pricing rules

1. Spanish undertakings shall apply, upon accession, the provisions relating to prices of the ECSC Treaty (Articles 4(b), 60 to 64) and the relevant Decisions.
2. Notwithstanding paragraph 1, the undertakings listed hereinafter may retain the following double basing points for a given product:

Protocol 17

on trade in textile products between Portugal and the other Member States of the Community

Article 1

1. The Portuguese Republic shall, under the conditions laid down in Articles 2, 3 and 4, control, until 31 December 1988, exports to the present Member States and, until 31 December 1989, exports to Spain, of the products indicated in the list appearing in Annex A, on the basis of the quantities set out in that list.

2. At the request of a present Member State which considers that the situation justifies it, the Commission shall extend by one year the application of paragraph 1 on the basis of the quantities indicated for 1989 in the said list.

3. Textile products reimported into the present Member States, under the conditions and on the basis of the quantities set out in Annex B, following processing in Portugal, shall not be charged against the quantities referred to in paragraph 1.

Article 2

The Community and the Portuguese Republic shall establish, for such time as Article 1 is applicable, administrative cooperation under the conditions defined in Annex C.

Article 3

The Portuguese Republic shall take the appropriate measures to ensure compliance with the quantities referred to in Article 1 and the administrative cooperation measures referred to in Article 2.

Article 4

After prior notification to the Commission, the Portuguese Republic may apply to its exports to the present Member States of the products indicated in the list appearing in Annex A the flexibility provisions laid down in Annex D.

Article 5

The Commission and the competent authorities of the Portuguese Republic shall enter into, if the situation so requires, appropriate consultations in order to avoid situations arising which would necessitate recourse to protective measures.

Article 6

If the situation so requires, particularly taking into account trends in consumption and the progression of imports into Portugal of textile products coming from one or more other Member States, the Commission and the competent authorities of the Portuguese Republic shall consult each other, at the request of the Portuguese Republic, with a view to seeking appropriate solutions intended to avoid recourse to protective measures.

Article 7

If the quantities indicated in Annex A are reached, the Commission shall determine, at the request of the Member State concerned and following the emergency procedure laid down in Article 379 (2) of the Act of Accession, such protective measures as it deems necessary.

ANNEX B

Imports under outward processing arrangements

1. For the purposes of this Protocol, processing operations shall mean operations consisting in the processing in Portugal of goods temporarily exported from the Community as at present constituted with a view to their reimport into the Community as at present constituted in the form of compensating products.

2. Only natural or legal persons established in the present Community as at present constituted shall qualify for these arrangements.

Any person referred to in the previous subparagraph who applies to qualify for these arrangements must satisfy the following conditions:

- (a) He must manufacture, on his own account, in a factory situated in the Community as at present constituted, similar products at the same stage of manufacture as the compensating products for which the arrangements are being requested.
- (b) He may have compensating products manufactured in Portugal within the framework of processing operations up to the limit of annual quantities fixed by the competent authorities of the Member State where the application is made, under the conditions described in point 3.
- (c) The goods which he exports temporarily with a view to processing operations must be in free circulation in the Community as at present constituted within the meaning of Article 9 (2) of the EEC Treaty and must originate in the Community as at present constituted within the meaning of Regulation (EEC) No 802/68 and the Implementing Regulations thereof. Derogations from the provisions of this point may be granted by the authorities of the present Member States only for goods of which Community production is insufficient. Such derogations may be granted only up to the limit of 14 % of the total value of the goods ⁽¹⁾ for which the arrangements have been granted in the Member State concerned during the previous year.

The present Member States shall communicate to the Commission at quarterly intervals the essential details of the derogations thus granted, namely, the nature, origin and quantities of the goods of non-Community origin concerned. The Commission shall communicate this information to the other Member States.

- (d) The processing operations to be carried out in Portugal must not constitute processing of greater importance than that laid down for each product in point 11. The processing operations to be carried out may, however, constitute processing of lesser importance than that laid down for each product in point 11.

⁽¹⁾ Total value of the goods shall mean:
 — in respect of previously imported goods, their customs value as defined by Regulation (EEC) No 1224/70 (OJ No L 134, 31. 5. 1980, p. 1).
 — in other cases, the ex-factory price.

The present Member States may derogate from the provisions of (a) of the second subparagraph in respect of persons who do not satisfy the conditions of that subparagraph.

Such derogations will apply only up to the total quantities imported under the specific arrangements existing prior to accession.

In applying the derogations referred to in the previous subparagraph, preference will be given to persons who previously qualified for the specific arrangements referred to above. However, if such persons do not use up the whole of the quantities which they might claim, the remainder of those quantities may be granted to other persons.

3. The competent authorities of each Member State shall divide up, among the persons benefiting from the arrangements referred to in point 2, the annual quantities of compensating products given in the table attached to this Annex, of which the present Member State concerned may authorize the reimport in accordance with the provisions of this Annex.

4. The competent authorities of the Member State into which the compensating products are to be reimported shall issue prior authorization to applicants satisfying the conditions laid down by this Annex.

The prior authorization may be issued either once a year for the total quantity allotted to the applicant under (b) of the second subparagraph of point 2, or in stages during the year for successive partial amounts of the quantity allotted until this is used up.

The applicant shall submit to the competent authorities the contract concluded with the undertaking responsible for carrying out the processing operations on his account in Portugal, or any other proof deemed equivalent by those authorities.

5. The prior authorization shall be granted only if the competent authorities are able to identify the temporarily exported goods in the reimported compensating products.

The competent authorities may refuse to grant the benefit of the arrangements where they observe that it is not possible for them to obtain all the guarantees enabling them to verify in practice that the provisions of point 2 are being complied with.

The prior authorization shall lay down the conditions under which the processing operation must take place, in particular:

- the quantities of goods to be exported and of products to be reimported calculated by reference to the rate of yield fixed on the basis of the technical data

of the processing operation or operations to be carried out, if they have been established, or, failing these, the data available in the Community as at present constituted on operations of the same kind,

- the means by which the temporarily exported goods may be identified in the compensating products,
- the time limit for reimport on the basis of the time necessary to carry out the processing operation or operations.

6. On temporary exportation, the prior authorization issued by the competent authorities shall be presented at the customs office concerned for customs formalities to be accomplished.

7. The present Member States shall communicate to the Commission the figures concerning the prior authorizations issued each month, before the tenth day of the following month.

At the request of the Commission, the present Member States shall inform the Commission of any refusal of prior authorization and of the reasons, with regard to the conditions laid down in this Protocol, which gave rise to the refusal.

8. Without prejudice to the following points, reimportation of compensating products may not be refused by any present Member State which has issued prior authorization for these products, subject to compliance with the conditions laid down in the said authorization and to other customs formalities normally required at the moment of import.

These products may not be reimported into a present Member State other than that in which the prior authorization was issued.

Where compensating products are reimported into the Community as at present constituted, the person mak-

ing the declaration shall present to the competent authorities the prior authorization accompanied by proof that the processing operation took place in Portugal.

9. The competent authorities of the Member State concerned may, when circumstances so justify:

- grant an extension of the time limit for reimportation initially fixed,
- authorize reimportation of compensating products in several consignments; in this case, a note shall be taken of the prior authorization as and when the consignments arrive.

The competent authorities of the Member State concerned may, in addition, authorize the reimportation of compensating products even if the processing operations provided for in the prior authorization have not been realized in their entirety.

10. The present Member States shall communicate to the Commission the statistical information relating to all reimportations which take place in their territory under this Protocol. The Commission shall communicate this information to the other present Member States.

11. The maximum levels of processing referred to in (d) of the second subparagraph of point 2 shall be as follows:

Compensating products by category	Maximum level of processing

ANNEX C

Administrative cooperation laid down in Article 2

1. The competent Portuguese authorities shall issue, under the conditions laid down, a 'Boletim de Registo de Exportação (BRE)' or a 'Boletim global de Exportação (BGE)' for any export of textile products of the categories, tariff headings and NIMEXE codes referred to in Annex A originating in Portugal and intended to be sent to the other Member States with a view to their final import.

2. The competent Portuguese authorities shall issue certified copies, either of a BRE or a BGE, for the products covered by this Protocol. The certificates shall comprise in particular the information which should appear in the declaration or request by an importer referred to in point 5.

3. The competent Portuguese authorities shall notify the Commission within the first 10 days of each quarter, broken down by Member State and category of product, of:

- (a) the quantities for which certified true copies of the BRE or BGE have been issued during the preceding quarter;
- (b) the exports made during the quarter preceding the period referred to in (a).

4. The competent Portuguese authorities shall also notify on a quarterly basis the Commission and the competent authorities of the other Member States of the serial numbers of BRE and BGE which have expired and any other information they consider relevant to the matter.

5. Final import into another Member State of products covered by the present administrative cooperation shall be subject to the submission of an import document. This document shall be issued or endorsed by a competent authority of the importing Member State, free of charge, for all the quantities requested, within a maximum period of five working days after lodging, in accordance with the national laws in force, either a declaration, or simply a request by any importer from the other Member States, regardless of where he is established in the Community, without prejudice to compliance with the other conditions required by the rules in force. This import document shall be issued or endorsed only on the sight of a copy, certified by the competent Portuguese authorities, of the BRE or BGE that they have issued.

The declaration or request of the importer shall indicate:

- (a) the name and address of the importer and exporter;
- (b) the description of the product indicating:
 - the trade designation,
 - the category number of the product indicated in column 1 of Annex A,
 - the tariff heading or reference number of the nomenclature of goods of the national statistics of foreign trade,
 - the country of origin;
- (c) the indication of the product in the unit appearing in column 6 of Annex A;
- (d) the date or dates envisaged for import.

The importing Member State may request further details without this resulting in import barriers.

This paragraph shall not prevent the final import of the products in question if the quantity of the products entered for import exceeds, in total, by less than 5 %, that mentioned on the import document.

6. Where a requested import document concerns a quantity less than the quantity indicated in the certified copy of the BRE or the BGE, that copy shall be returned to the importer with a note on the back stating the quantity for which an import document was issued.

7. The other Member States shall notify the Commission within the first 10 days of each quarter and broken down by category of products, of:

- (a) the quantities for which the import documents have been issued or endorsed during the preceding quarter;
- (b) the imports made during the quarter preceding the period referred to in (a).

8. The Commission and the Portuguese authorities shall, at least every quarter, examine the state of their trade and prospects with a view to a thoroughgoing analysis of the situation.

ANNEX D

Flexibility laid down in Article 3

The flexibility provisions laid down in Article 3 of this Protocol shall be determined in accordance with the following procedure:

- (a) Within each category:
 - the advance utilization during any given year of part of the quantities fixed for the following year up to

8,75 % of the quantities concerned for the year of utilization. Such advance exports shall be deducted from the corresponding quantities fixed for the following year,

- the carry-over of quantities not utilized during any given year to the corresponding quantities for the fol-

lowing year up to 8,75 % of the quantities concerned for the actual year of application. An additional carry-over may be authorized by the Commission at the request of the Portuguese authorities.

(b) Between categories:

transfers from one category to another up to 10 % of the level of the category to which the said transfer is made. This provision shall apply to the following operations:

- categories 2 and 3 between each other, excepting Benelux, for which the transfer may be 100 %,
- categories 2 or 3 to 9, 19, 20, 39,
- categories 4, 5, 7, 8, between each other,
- categories 6 and 8, between each other, only for the United Kingdom,

- categories 33 and 90, between each other,
- within heading No 59.04, between sisal and synthetic textile fibres, except for Italy and Denmark, for which the transfer may be 100 %.

These transfers shall be made on the basis of the following equivalents:

Category	Piece/kg	Grams/piece
4	6,48	154
5	4,53	221
6	1,76	568
7	5,55	180
8	4,60	217

ANNEX E

by the Community as at present constituted and Portugal

For the application of the provisions of Annex B, it is understood that goods of Portuguese origin cannot be considered as originating in the Community within the meaning of Regulation (EEC) No 802/68.

Protocol 18

on the arrangements for the import into Portugal of motor vehicles coming from other Member States

Article 1

The arrangements defined in the following Articles shall apply to the assembly and import of motor vehicles, regardless of engine type, for the carriage of persons and goods.

Article 2

1. As from 1 January 1986, the Portuguese Republic shall open the annual import quotas given in Annex A for motor vehicles imported ready-assembled, hereinafter referred to as 'CBU', originating in other Member States, of a gross weight less than 3 500 kg.

2. The list given in Annex A may be amended by the Council acting by a qualified majority on a proposal from the Commission.

3. As from 1 January 1986, the Portuguese Republic shall open an annual import quota for CBU motor vehicles originating in other Member States, of a gross weight less than 3 500 kg, other than those referred to in the list in Annex A, as shown below:

Timetable	Annual quota
1 January 1986	440 units
1 January 1985	550 units

Within that quota, no make of vehicle may be allotted more than one-quarter of the volume fixed.

Each make shall have the right to be allotted a minimum quota of 20 units.

Article 3

As from 1 January 1986, the Portuguese Republic shall open annual import quotas for CBU motor vehicles originating in other Member States of a gross weight greater than 3 500 kg, as shown below:

Timetable	Annual quota
1 January 1986	660 units
1 January 1987	770 units

Article 4

1. As from 1 January 1986, for vehicles imported in the non-assembled state, hereinafter referred to as 'CKD', of a gross weight less than 2 000 kg for the carriage of persons, the Portuguese Republic shall open one quota per Community make at the beginning of each year, by reference to the basic quotas allotted in 1985 and given in Annex B.

2. The quotas per Community make shall be updated annually. To that end, a corrective factor shall be applied to them, in order to compensate for the increase in price in Portugal and the trend of production prices of CKD motor vehicles.

The sum of all the quotas per make (Community and non-Community) shall be fixed, in constant prices in escudos, at the equivalent of 41 500 motor vehicles for 1986 and 44 000 motor vehicles for 1987.

3. The annual quotas per make and all data relevant to them shall be communicated to the Commission by 15 February each year.

4. The use of the quotas per make allotted as basic quotas shall be free up to a maximum of 90 % in 1986 and 93 % in 1987. The use of the remainder of the quo-

tas per make shall be conditional on the export of motor vehicles or vehicle components on the basis of the value added in Portugal of such exports.

Article 5

1. For exporters which have already used all their basic quotas pursuant to Article 4, additional CKD quotas shall be granted during the year on the basis of the value added in Portugal of motor vehicles or motor vehicle components exported.

Additional quotas shall be allotted on the basis of the coefficients given in Annex C.

2. The Council, acting on a proposal from the Commission by a qualified majority, may subsequently, if necessary, fix a ceiling on each make equal to a percentage of the sum of the basic quotas allotted to all the makes.

Article 6

The quotas fixed in Articles 4 and 5 may be used for the import of either CKD or CBU motor vehicles.

Protocol 19**on Portuguese patents**

1. The Portuguese Republic undertakes, upon accession, to adjust its patent law so as to make it compatible with the principles of the free movement of goods and with the level of protection of industrial property attained in the Community. In particular, the Portuguese Republic shall repeal, on accession, the provisions of Article 8 of Decree No 27/84 of 18 January 1984, under which the holder of a patent granted in Portugal must, in order to enjoy the exclusive rights conferred by that patent, manufacture on Portuguese territory the patented product or the product obtained by using a patented process.

To that end, close cooperation shall be instituted between the Commission services and the Portuguese

authorities; this cooperation shall also cover the problems of transition of current Portuguese law towards new law.

2. The Portuguese Republic shall introduce, in its national legislation, a provision on shifting the burden of proof corresponding to Article 75 of the Luxembourg Convention of 15 December 1975 on the Community patent.

This provision shall apply upon accession with regard to new process patents filed as from the date of accession.

For patents filed prior to that date, this provision shall apply not later than 1 January 1992.

However, this provision shall not apply if infringement proceedings are brought against the holder of another process patent for the manufacture of a product identical to that obtained as the result of the patented process of the plaintiff, if that other patent was issued before the date of accession.

In cases where shifting the burden of proof does not apply, the Portuguese Republic shall continue to require the patent holder to adduce proof of infringement.

In all cases where shifting the burden of proof does not apply on 1 January 1987, including patents filed before the date of accession, the Portuguese Republic shall pass new domestic legislation, with effect from that date introducing a judicial procedure known as 'distrainment-description'.

'Distrainment-description' means, a procedure by which any person entitled to bring an action for infringement may, after obtaining a Court order, granted on his

application, cause a detailed description to be made, at the premises of the alleged infringer, by a bailiff assisted by experts, of the processes in question, in particular by photocopying technical documents, with or without actual distraint. This Court order may order the payment of a security, intended to grant damages to the alleged infringer in case of injury caused by the 'distrainment-description'.

3. The Portuguese Republic shall accede on 1 January 1992 to the Munich Convention of 5 October 1973 on the European patent and to the Luxembourg Convention of 15 December 1975 on the Community patent.

The Portuguese Republic may invoke Article 95 (4) of the Luxembourg Convention on the Community patent with a view to introducing the purely technical adaptations made necessary by its accession to the said Convention, it being, however, understood that such an invocation can in no way delay the accession of the Portuguese Republic to the Luxembourg Convention beyond the abovementioned date.

Protocol 20

on the restructuring of the Portuguese iron and steel industry

1. From the date of accession, no aid may be given to the Portuguese iron and steel industry unless approved by the Commission within the framework of a restructuring plan. The restructuring plan for the Portuguese iron and steel industry should be compatible with the last general steel objectives adopted before the date of accession.

2. From the date of accession, the Commission and the Portuguese Government will assess jointly the plan approved by the Portuguese Government, which is to be officially forwarded to the Commission by 1 September 1985, and the viability of the iron and steel undertaking to which the plan relates.

3. Should the viability of that undertaking not be satisfactorily guaranteed at the end of a maximum of five years after accession, the Commission, after receiving the opinion of the Portuguese Government, shall propose, at the end of the first year after accession, to make an addition to the plan, thereby enabling that undertaking to reach a viable state by the end of the plan.

4. Any aid to the Portuguese iron and steel industry forming part of the addition to the plan provided for in point 3 shall be notified in advance, and not later than the end of the first year after accession, to the Commis-

sion by the Portuguese Government. The said Government shall not implement its projects without authorization from the Commission.

The Commission shall assess those projects on the basis of the criteria and in accordance with the procedures defined in the Annex to this Protocol.

5. During the period mentioned in Article 212 of the Act of Accession, Portuguese deliveries of ECSC iron and steel products to the remainder of the Community should fulfil the following conditions:

- (a) The level of Portuguese deliveries to the remainder of the Community as at present constituted during the first year following accession shall be that fixed by the Commission after agreement of the Portuguese Government and consultation of the Council during the year preceding accession. Whatever the situation, this level may in no circumstances be less than 80 000 tonnes. If no agreement has been reached between the Commission and the Portuguese Government at the latest one month before the date of accession, the quantities which the Portuguese iron and steel industry may deliver during the first three months from the date of accession shall not exceed 20 000 tonnes.

Should no agreement have been reached on this point by the date of accession, the level of deliveries

shall be fixed, not later than two months after the date of accession, by the Commission with the assent of the Council.

These deliveries will in any event have to be liberalized once the transitional arrangements have expired and in order to bring about a harmonious transition, their level may be increased before the end of the said arrangements, the level of the first year being considered as a base line.

Any increase in the level will be made on the basis of:

- the state of progression of the Portuguese restructuring plan, taking into account significant factors in re-establishing the viability of the undertakings, and necessary measures to attain such viability,
- iron and steel measures which may be in force in the Community after accession so that Portugal is not treated less favourably than third countries, and

— trends in deliveries of ECSC iron and steel products to Portugal from the Community as at present constituted.

- (b) The Portuguese Government hereby undertakes to implement upon accession, under its responsibility and in agreement with the Commission, a mechanism for monitoring deliveries to the remainder of the Community market calculated to ensure strict observance of the quantitative undertakings agreed or established pursuant to point (a).

This mechanism must be compatible with any other measure of market supervision which may be adopted during the years following the date of the accession, and must not jeopardize the possibility of delivering the agreed quantities.

The Commission will regularly inform the Council of the reliability and the effectiveness of this mechanism. Should it prove to be unsatisfactory, the Commission shall, with the assent of the Council, take the appropriate measures.

ANNEX

Procedures and criteria for the assessment of aid

1. All aid to the iron and steel industry, whether specific or non-specific, financed by the Portuguese State or through State resources in any form whatsoever may be considered compatible with the orderly functioning of the common market only if it respects the general rules set out in paragraph 2 and satisfies the provisions of paragraphs 3 to 6. Such aid shall be put into effect only in accordance with the procedures established in this Annex.

The concept of aid includes aid granted by regional or local authorities and any aid elements contained in the financing measures taken by the Portuguese State in respect of the iron and steel undertaking which it controls and which do not count as the provision of risk capital according to standard company practice in a market economy.

2. Aid granted to the Portuguese iron and steel industry may be considered compatible with the orderly functioning of the common market provided that:

- the recipient undertaking is engaged in the implementation of a systematic and specific restructuring programme covering the various aspects of restructuring (modernization, reduction of capacity and, where necessary, financial restructuring), which is capable of restoring its competitiveness and of making it financially viable without

aid under normal market conditions, by the expiry of the transitional arrangements at the latest,

- in the overall production capacity of the recipient undertaking the said restructuring programme does not make provision for an increase in production capacity for the various categories of products for which there is not a growth market,
- the amount and intensity of the aids granted to the steel undertaking are progressively reduced,
- the aid in question does not entail distortions of competition and does not affect trading conditions to an extent contrary to the common interest,
- the aid is approved not later than 36 months after accession and does not lead to any payments after the expiry of the transitional arrangements, other than by way of interest subsidies or of payments to honour guarantees on loans disbursed before that date.

In taking a decision on such requests for aid as are submitted to it within the framework of the restructuring programme, the Commission shall take account of Portugal's special situation as one of the Member States having a single iron and steel undertaking with only a slight impact on the Community market.

3. Aid in support of investment in the iron and steel industry may be considered compatible with the orderly functioning of the common market provided that:

- the Commission has received prior notification of the investment programme where such notification is required by Commission Decision No 3302/81/ECSC of 18 November 1981, on the information to be furnished by steel undertakings about their investments or by any subsequent decision,
- the amount and intensity of the aid are justified by the extent of the restructuring effort that has been made, account being taken of the structural problems of the region where the investment is to be undertaken, and are limited to what is necessary for that purpose,
- the investment programme takes account of the criteria defined in paragraph 2 and of the general objectives for steel, having regard to any reasoned opinion which the Commission may have issued on the investment programme concerned.

In its examination of such aid the Commission shall take account of the extent of the contribution of the investment programme concerned to other Community objectives, for instance innovation, energy saving and environmental protection, provided that the rules of paragraph 2 are adhered to.

4. Aid to defray the normal costs resulting from the partial or total closure of steel plants may be considered compatible with the orderly functioning of the common market.

The costs eligible for such aid shall be the following:

- allowances paid to workers made redundant or retired before legal retirement age, where such allowances are not covered by aids pursuant to Article 56 (1) (c) or (2) (b) of the Treaty,
- compensation due to third parties in respect of the termination of contracts, in particular for the supply of raw materials,
- expenditure incurred for the redevelopment of the site, the buildings and/or infrastructures of closed steel plant for alternative industrial use.

Exceptionally and by way of derogation from paragraph 4 of Protocol 20 and the fifth indent of paragraph 2 of this Annex, aid for closures which could not be foreseen in the programmes notified not more than 18 months after accession may be notified to the Commission after that date and authorized later than the first 36 months following accession.

5. Aid to facilitate the operation of certain undertakings or plants may be considered compatible with the orderly functioning of the common market provided that:

- this aid forms an integral part of a restructuring programme as defined in the first indent of paragraph 2,
- it is progressively reduced at least once a year,

- it is limited in intensity and amount to what is absolutely necessary in order to enable operation to continue during the period of restructuring, and is justified by the extent of the restructuring effort made, account also being taken of any aid granted for investment.

In its examination of such aid the Commission shall take account of the problems facing the unit or units in question and the region or regions concerned, and of the secondary effects of the aid on competition on markets other than the steel market, in particular the transport market.

6. Aid to defray expenditure by steel undertakings on research and development projects may be considered compatible with the orderly functioning of the common market provided that the research and/or development project in question has one of the following objectives:

- a reduction in the costs of production, notably energy saving, or an improvement in productivity,
- an improvement in product quality,
- an improvement in the performance of iron and steel products or an increase in the range of uses of steel,
- an improvement in working conditions as regards health and safety.

The total amount of all aid granted for the above purposes may not exceed 50 % of the eligible costs of the project. The costs eligible for such aid shall mean the costs directly associated with the project and shall exclude in particular all expenditure on investment related to production processes.

7. The Commission shall seek the views of the Member States on the aid projects notified to it by the Portuguese Government before adopting a position on them. It shall inform all Member States of the position adopted by it on each aid project.

If, after giving notice to the parties concerned to submit their comments, the Commission finds that an aid is incompatible with the provisions of this Annex, it shall inform the Portuguese Government of its decision. Article 88 of the Treaty shall apply in the event of failure by the Portuguese Government to comply with that decision.

8. The Portuguese Government shall supply the Commission twice a year with reports on aid disbursed in the course of the preceding six months, on the uses made of such aid and on the results achieved during the same period as regards restructuring. These reports must include details of all financial measures taken by the Portuguese State or by regional or local authorities in respect of public steel undertakings. They must be forwarded within two months of the end of each six-month period in a form to be determined by the Commission.

Protocol 21

on the economic and industrial development of Portugal

THE HIGH CONTRACTING PARTIES,

Desiring to settle certain special problems of concern to Portugal and,

HAVING AGREED THE FOLLOWING PROVISIONS,

Recall that the fundamental objectives of the European Economic Community include the steady improvement of the living standards and working conditions of the peoples of the Member States and the harmonious development of their economies by reducing the differences existing between the various regions and the backwardness of the less-favoured regions:

Take note of the fact that the Portuguese Government has embarked upon the implementation of a policy of industrialization and economic development designed

to align the standard of living in Portugal with that of the other European nations and to eliminate underemployment while progressively evening out regional differences in levels of development;

Recognize it to be in their common interest that the objectives of this policy be attained;

Agree to recommend to this end that the Community institutions use all the means and procedures laid down by the EEC Treaty, particularly by making adequate use of the Community resources intended for the realization of the Community's abovementioned objectives;

Recognize in particular that, in the application of Articles 92 and 93 of the EEC Treaty, it will be necessary to take into account the objectives of economic expansion and the raising of the standard of living of the population.

Protocol 22

on the exchange of information with the Portuguese Republic in the field of nuclear energy

Article 1

1. From the date of accession, such information as has been communicated to Member States, persons and undertakings in accordance with Article 13 of the Euratom Treaty, shall be placed at the disposal of the Portuguese Republic which shall give it limited distribution within its territory under the conditions laid down in that Article.

2. From the date of accession, the Portuguese Republic shall place at the disposal of the European Atomic Energy Community information obtained in the nuclear field in Portugal which is given limited distribution, in so far as strictly commercial applications are not involved. The commission shall communicate this information to Community undertakings under the conditions laid down in paragraph 1.

3. This information shall mainly concern:

- reactor dynamics,
- radiation protection,
- application of nuclear measuring techniques (in the industrial, agricultural, archeological and geological fields),

- atomic physics (effective measuring of cross sections, pipeline techniques),
- extractive metallurgy of uranium.

Article 2

1. In those sectors in which the Portuguese Republic places information at the disposal of the Community, the competent authorities shall grant upon request licences on commercial terms to Member States, persons and undertakings of the Community where they possess exclusive rights to patents filed in Member States of the Community and in so far as they have no obligation or commitment in respect of third parties to grant or offer to grant an exclusive or partially exclusive licence to the rights in these patents.

2. Where an exclusive or partially exclusive licence has been granted, the Portuguese Republic shall encourage and facilitate the granting of sub-licences on commercial terms to Member States, persons and undertakings of the Community by the holders of such licences.

Such exclusive or partially exclusive licences shall be granted on a normal commercial basis.

Protocol 23

on the arrangements for the import into Portugal of motor vehicles coming from third countries

Article 1

The arrangements defined below shall apply to the assembly and import of motor vehicles, regardless of engine-type, for the carriage of persons and goods, from 1 January 1986 to 31 December 1987.

Article 2

The Portuguese Republic shall open annual import quotas per make for the import into Portugal of ready-assembled motor vehicles, hereinafter called CBU, coming from non co-contracting third countries, of a gross weight less than 3 500 kilograms, of a maximum of 15 units per producer per year in the case of makes of vehicles which are not assembled in Portugal and, in the case of other makes, of a maximum of 2 % of the number of vehicles of the same make which were assembled in Portugal the previous year.

Article 3

The Portuguese Republic shall open an annual total quota for CBU motor vehicles, coming from non co-contracting third countries, of a weight greater than 3 500 kilograms, of 30 units.

Article 4

1. For motor vehicles for the carriage of persons, imported in the non-assembled state, hereinafter called CKD, of a gross weight less than 2 000 kilograms, the Portuguese Republic shall open a quota per make at the beginning of each year, by reference to the basic quotas granted in 1985 as given in the Annex.

2. The quotas per make shall be updated annually. To that end, a corrective factor shall be applied to them, in order to compensate for the increase in prices in Portugal and the trend of production prices of CKD motor vehicles.

3. The use of the quotas per make allotted as basic quotas shall be free up to a maximum of 90 % in 1986 and 93 % in 1987; the use of the remainder of the quotas per make shall be conditional on the export of motor vehicles or vehicle components on the basis of the value added in Portugal of such exports.

Article 5

1. For exporters which have already used all their basic quotas pursuant to Article 4, additional CKD quotas shall be granted during the year on the basis of the value added in Portugal of motor vehicles or motor vehicle components exported.

Additional quotas shall be allotted on the basis of the coefficients given in Annex B.

2. For the exporters referred to in paragraph 1, the possibility of additional quotas shall be limited to an overall value which may not exceed 12 % of the total sum of the basic CKD quotas for the makes indicated in Annex A.

Article 6

The quotas fixed in Articles 4 and 5 may be used for the import of either CKD or CBU motor vehicles.

Protocol 24

on agricultural structures in Portugal

1. As from the date of accession, joint action shall be embarked upon in favour of Portugal, in accordance with the objectives of the common agricultural policy, comprising a specific development programme adapted to the special structural conditions of Portuguese agriculture. The programme, which shall extend over a total period of 10 years, shall have as its particular objectives the substantial improvement of production and marketing conditions together with an improvement in the structural situation of the Portuguese agricultural sector as a whole.

2. The Community shall implement this programme of action in favour of Portugal in a manner on a par with measures already in existence in the Community for its least favoured areas. This programme will be directed towards developing rural infrastructures, agricultural advisory services and the possibilities for vocational training and will contribute towards the reorientation of production, including irrigation, when this proves necessary, drainage and field improvement works.

Furthermore, the Community shall implement the programme in such a way as to meet specifically the needs and special situation of Portugal. The programme shall include, in particular, measures, still to be defined, intended to contribute efficiently to the cessation of activities. At all events, these measures may not be less favourable than those enjoyed by the Member States of the Community as at present constituted, and the conditions for eligibility for Community financing must be adapted to the specific features of the situation in Portugal.

3. The Community will contribute to the desirable objective of the development of agricultural structures in Portugal with a view to attaining objectives in the short, medium and long term as follows:

- (a) short term: improving agricultural advisory services and existing farming conditions by better distribution of available resources, without this entailing a change in the size of holdings or large-scale rationalization measures; improving, moreover, processing and marketing plants as far as possible, bearing in mind the dominant features, or the features as envisaged, of agricultural production;
- (b) medium term: developing a sound infrastructure and the irrigation of areas of dry cultivation, encouraging better use of land and laying down and developing efficient measures for agricultural advisory services, training for agriculture and agricultural research. In this context, the more long-term aspects of cattle improvement could also be considered, such as performance testing and progeny testing of male breeding animals;
- (c) long term: this would consist essentially of promoting the reparcelling of holdings which have been split up and the enlargement of holdings which are not viable at the moment. At the same time an endeavour should be made to correct the imbalance in the age pyramid of the farming population by encouraging elderly farmers to retire and, where appropriate, by implementing measures aimed at making it easier for young people to join the profession under conditions which offer a guarantee as to the long-term viability of their holding.

4. The total estimated cost to be borne by the European Agricultural Guidance and Guarantee Fund, Guidance Section, for application of the specific programme covering in particular the desolate regions of Portugal, including those of the autonomous regions of the Azores and Madeira, shall be in the order of 700 million ECU for its 10 year application period, i.e. in the order of 70 million ECU each year.

5. The rate of Community financing of the expenditure eligible under the specific programme shall be fixed with account being taken of the rates which have been, are or will be applied to the least favoured regions of the Community for similar measures.

6. The Council, acting by qualified majority on a proposal from the Commission, shall adopt, under the

conditions provided for in Article 258 of the Act of Accession, the procedures for the specific programme.

7. Before 1 January 1991, the Commission shall present the Council with an appraisal report on the execution of the specific programme.

Protocol 25

on the application to Portugal of production disciplines introduced under the common agricultural policy

1. The Community considers that, taking into account the current situation of Portuguese agriculture, an improvement in productivity will not fail to come about under the impulse of various factors including the application of Community structural provisions and the implementation of the specific programme for agricultural structures in Portugal referred to in Protocol 24.

2. The Community considers that, even if this increase in productivity occurs within the context of the rationalization of Portuguese agriculture under the influence of conversion actions or the cessation of activity, a certain increase in production will take place.

However, the Community shall encourage such a trend during the first stage since it is a necessary condition for maintaining competitive farming in Portugal within the framework of an enlarged Community.

On the other hand, from the introduction in Portugal, at the start of the second phase, of all the rules of the common agricultural policy, the Community disciplines shall be applied in Portugal under the same con-

ditions as those reserved for the least favoured areas of the Community as at present constituted.

3. The situation described above must be slightly adjusted in the following sectors: wine, olive oil, processed fruit and vegetables from tomatoes and sugar beet.

In fact, in these sectors any development of production in Portugal risks aggravating the overall Community production situation. For that reason, the Community considers that the Portuguese Republic may not be exempted from the disciplinary rules adopted at Community level, to apply from the date of accession, whatever the form of transition used for the product in question.

However, the Community shall ensure these production discipline measures are defined so as to take account of the very specific agricultural situation of that Member State; to that end, the provisions of this Act of Accession shall provide that for those sectors a flexibility margin is included, from the beginning, in the application of Community rules relating to the production discipline.
