AGREEMENT ON GOVERNMENT PROCUREMENT

Parties to this Agreement (hereinafter referred to as "Parties"),

Recognizing the need for an effective multilateral framework of rights and obligations with respect to laws, regulations, procedures and practices regarding government procurement with a view to achieving greater liberalization and expansion of world trade and improving the international framework for the conduct of world trade;

Recognizing that laws, regulations, procedures and practices regarding government procurement should not be prepared, adopted or applied to foreign or domestic products and services and to foreign or domestic suppliers so as to afford protection to domestic products or services or domestic suppliers and should not discriminate among foreign products or services or among foreign suppliers;

Recognizing that it is desirable to provide transparency of laws, regulations, procedures and practices regarding government procurement;

Recognizing the need to establish international procedures on notification, consultation, surveillance and dispute settlement with a view to ensuring a fair, prompt and effective enforcement of the international provisions on government procurement and to maintain the balance of rights and obligations at the highest possible level;

Recognizing the need to take into account the development, financial and trade needs of developing countries, in particular the least-developed countries;

Desiring, in accordance with paragraph 6(b) of Article IX of the Agreement on Government Procurement done on 12 April 1979, as amended on 2 February 1987, to broaden and improve the Agreement on the basis of mutual reciprocity and to expand the coverage of the Agreement to include service contracts;

Desiring to encourage acceptance of and accession to this Agreement by governments not party to it;

Having undertaken further negotiations in pursuance of these objectives;

Hereby *agree* as follows:

Article I

Scope and Coverage

1. This Agreement applies to any law, regulation, procedure or practice regarding any procurement by entities covered by this Agreement, as specified in Appendix I.¹
2. This Agreement applies to procurement by any contractual means, including through such methods as purchase or as lease, rental or hire purchase, with or without an option to buy, including any combination of products and services.
3. Where entities, in the context of procurement covered under this Agreement, require enterprises not included in Appendix I to award contracts in accordance with particular requirements, Article III shall apply *mutatis mutandis* to such requirements.
4. This Agreement applies to any procurement contract of a value of not less than the relevant threshold specified in Appendix I.

Article II

Valuation of Contracts

1. The following provisions shall apply in determining the value of contracts² for purposes of implementing this Agreement.
2. Valuation shall take into account all forms of remuneration, including any premiums, fees, commissions and interest receivable.
3. The selection of the valuation method by the entity shall not be used, nor shall any procurement requirement be divided, with the intention of avoiding the application of this Agreement.
4. If an individual requirement for a procurement results in the award of more than one contract, or in contracts being awarded in separate parts, the basis for valuation shall be either:
 - (a) the actual value of similar recurring contracts concluded over the previous fiscal year or 12 months adjusted, where possible, for anticipated changes in quantity and value over the subsequent 12 months; or
 - (b) the estimated value of recurring contracts in the fiscal year or 12 months subsequent to the initial contract.

¹For each Party, Appendix I is divided into five Annexes:

- Annex 1 contains central government entities.
- Annex 2 contains sub-central government entities.
- Annex 3 contains all other entities that procure in accordance with the provisions of this Agreement.
- Annex 4 specifies services, whether listed positively or negatively, covered by this Agreement.
- Annex 5 specifies covered construction services.

Relevant thresholds are specified in each Party's Annexes.

²This Agreement shall apply to any procurement contract for which the contract value is estimated to equal or exceed the threshold at the time of publication of the notice in accordance with Article IX.

5. In cases of contracts for the lease, rental or hire purchase of products or services, or in the case of contracts which do not specify a total price, the basis for valuation shall be:

- (a) in the case of fixed-term contracts, where their term is 12 months or less, the total contract value for their duration, or, where their term exceeds 12 months, their total value including the estimated residual value;
- (b) in the case of contracts for an indefinite period, the monthly instalment multiplied by 48.

If there is any doubt, the second basis for valuation, namely (b), is to be used.

6. In cases where an intended procurement specifies the need for option clauses, the basis for valuation shall be the total value of the maximum permissible procurement, inclusive of optional purchases.

Article III

National Treatment and Non-discrimination

1. With respect to all laws, regulations, procedures and practices regarding government procurement covered by this Agreement, each Party shall provide immediately and unconditionally to the products, services and suppliers of other Parties offering products or services of the Parties, treatment no less favourable than:

- (a) that accorded to domestic products, services and suppliers; and
- (b) that accorded to products, services and suppliers of any other Party.

2. With respect to all laws, regulations, procedures and practices regarding government procurement covered by this Agreement, each Party shall ensure:

- (a) that its entities shall not treat a locally-established supplier less favourably than another locally-established supplier on the basis of degree of foreign affiliation or ownership; and
- (b) that its entities shall not discriminate against locally-established suppliers on the basis of the country of production of the good or service being supplied, provided that the country of production is a Party to the Agreement in accordance with the provisions of Article IV.

3. The provisions of paragraphs 1 and 2 shall not apply to customs duties and charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations and formalities, and measures affecting trade in services other than laws, regulations, procedures and practices regarding government procurement covered by this Agreement.

Article IV

Rules of Origin

1. A Party shall not apply rules of origin to products or services imported or supplied for purposes

of government procurement covered by this Agreement from other Parties, which are different from the rules of origin applied in the normal course of trade and at the time of the transaction in question to imports or supplies of the same products or services from the same Parties.

2. Following the conclusion of the work programme for the harmonization of rules of origin for goods to be undertaken under the Agreement on Rules of Origin in Annex 1A of the Agreement Establishing the World Trade Organization (hereinafter referred to as "WTO Agreement") and negotiations regarding trade in services, Parties shall take the results of that work programme and those negotiations into account in amending paragraph 1 as appropriate.

Article V

Special and Differential Treatment for Developing Countries

Objectives

1. Parties shall, in the implementation and administration of this Agreement, through the provisions set out in this Article, duly take into account the development, financial and trade needs of developing countries, in particular least-developed countries, in their need to:

- (a) safeguard their balance-of-payments position and ensure a level of reserves adequate for the implementation of programmes of economic development;
- (b) promote the establishment or development of domestic industries including the development of small-scale and cottage industries in rural or backward areas; and economic development of other sectors of the economy;
- (c) support industrial units so long as they are wholly or substantially dependent on government procurement; and
- (d) encourage their economic development through regional or global arrangements among developing countries presented to the Ministerial Conference of the World Trade Organization (hereinafter referred to as the "WTO") and not disapproved by it.

2. Consistently with the provisions of this Agreement, each Party shall, in the preparation and application of laws, regulations and procedures affecting government procurement, facilitate increased imports from developing countries, bearing in mind the special problems of least-developed countries and of those countries at low stages of economic development.

Coverage

3. With a view to ensuring that developing countries are able to adhere to this Agreement on terms consistent with their development, financial and trade needs, the objectives listed in paragraph 1 shall be duly taken into account in the course of negotiations with respect to the procurement of developing countries to be covered by the provisions of this Agreement. Developed countries, in the preparation of their coverage lists under the provisions of this Agreement, shall endeavour to include entities procuring products and services of export interest to developing countries.

Agreed Exclusions

4. A developing country may negotiate with other participants in negotiations under this Agreement mutually acceptable exclusions from the rules on national treatment with respect to certain entities, products or services that are included in its coverage lists, having regard to the particular circumstances of each case. In such negotiations, the considerations mentioned in subparagraphs 1(a) through 1(c) shall be duly taken into account. A developing country participating in regional or global arrangements among developing countries referred to in subparagraph 1(d) may also negotiate exclusions to its lists, having regard to the particular circumstances of each case, taking into account, *inter alia*, the provisions on government procurement provided for in the regional or global arrangements concerned and, in particular, products or services which may be subject to common industrial development programmes.

5. After entry into force of this Agreement, a developing country Party may modify its coverage lists in accordance with the provisions for modification of such lists contained in paragraph 6 of Article XXIV, having regard to its development, financial and trade needs, or may request the Committee on Government Procurement (hereinafter referred to as "the Committee") to grant exclusions from the rules on national treatment for certain entities, products or services that are included in its coverage lists, having regard to the particular circumstances of each case and taking duly into account the provisions of subparagraphs 1(a) through 1(c). After entry into force of this Agreement, a developing country Party may also request the Committee to grant exclusions for certain entities, products or services that are included in its coverage lists in the light of its participation in regional or global arrangements among developing countries, having regard to the particular circumstances of each case and taking duly into account the provisions of subparagraph 1(d). Each request to the Committee by a developing country Party relating to modification of a list shall be accompanied by documentation relevant to the request or by such information as may be necessary for consideration of the matter.

6. Paragraphs 4 and 5 shall apply *mutatis mutandis* to developing countries acceding to this Agreement after its entry into force.

7. Such agreed exclusions as mentioned in paragraphs 4, 5 and 6 shall be subject to review in accordance with the provisions of paragraph 14 below.

Technical Assistance for Developing Country Parties

8. Each developed country Party shall, upon request, provide all technical assistance which it may deem appropriate to developing country Parties in resolving their problems in the field of government procurement.

9. This assistance, which shall be provided on the basis of non-discrimination among developing country Parties, shall relate, *inter alia*, to:

- the solution of particular technical problems relating to the award of a specific contract; and
- any other problem which the Party making the request and another Party agree to deal with in the context of this assistance.

10. Technical assistance referred to in paragraphs 8 and 9 would include translation of qualification documentation and tenders made by suppliers of developing country Parties into an official language of the WTO designated by the entity, unless developed country Parties deem translation to be burdensome, and in that case explanation shall be given to developing country Parties upon their request addressed either to the developed country Parties or to their entities.

Information Centres

11. Developed country Parties shall establish, individually or jointly, information centres to respond to reasonable requests from developing country Parties for information relating to, *inter alia*, laws, regulations, procedures and practices regarding government procurement, notices about intended procurements which have been published, addresses of the entities covered by this Agreement, and the nature and volume of products or services procured or to be procured, including available information about future tenders. The Committee may also set up an information centre.

Special Treatment for Least-Developed Countries

12. Having regard to paragraph 6 of the Decision of the CONTRACTING PARTIES to GATT 1947 of 28 November 1979 on Differential and More Favourable Treatment, Reciprocity and Fuller Participation of Developing Countries (BISD 26S/203-205), special treatment shall be granted to least-developed country Parties and to the suppliers in those Parties with respect to products or services originating in those Parties, in the context of any general or specific measures in favour of developing country Parties. A Party may also grant the benefits of this Agreement to suppliers in least-developed countries which are not Parties, with respect to products or services originating in those countries.

13. Each developed country Party shall, upon request, provide assistance which it may deem appropriate to potential tenderers in least-developed countries in submitting their tenders and selecting the products or services which are likely to be of interest to its entities as well as to suppliers in least-developed countries, and likewise assist them to comply with technical regulations and standards relating to products or services which are the subject of the intended procurement.

Review

14. The Committee shall review annually the operation and effectiveness of this Article and, after each three years of its operation on the basis of reports to be submitted by Parties, shall carry out a major review in order to evaluate its effects. As part of the three-yearly reviews and with a view to achieving the maximum implementation of the provisions of this Agreement, including in particular Article III, and having regard to the development, financial and trade situation of the developing countries concerned, the Committee shall examine whether exclusions provided for in accordance with the provisions of paragraphs 4 through 6 of this Article shall be modified or extended.

15. In the course of further rounds of negotiations in accordance with the provisions of paragraph 7 of Article XXIV, each developing country Party shall give consideration to the possibility of enlarging its coverage lists, having regard to its economic, financial and trade situation.

Article VI

Technical Specifications

1. Technical specifications laying down the characteristics of the products or services to be procured, such as quality, performance, safety and dimensions, symbols, terminology, packaging, marking and labelling, or the processes and methods for their production and requirements relating to conformity assessment procedures prescribed by procuring entities, shall not be prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to international trade.

2. Technical specifications prescribed by procuring entities shall, where appropriate:

- (a) be in terms of performance rather than design or descriptive characteristics; and

- (b) be based on international standards, where such exist; otherwise, on national technical regulations³, recognized national standards⁴, or building codes.

3. There shall be no requirement or reference to a particular trademark or trade name, patent, design or type, specific origin, producer or supplier, unless there is no sufficiently precise or intelligible way of describing the procurement requirements and provided that words such as "or equivalent" are included in the tender documentation.

4. Entities shall not seek or accept, in a manner which would have the effect of precluding competition, advice which may be used in the preparation of specifications for a specific procurement from a firm that may have a commercial interest in the procurement.

Article VII

Tendering Procedures

1. Each Party shall ensure that the tendering procedures of its entities are applied in a non-discriminatory manner and are consistent with the provisions contained in Articles VII through XVI.

2. Entities shall not provide to any supplier information with regard to a specific procurement in a manner which would have the effect of precluding competition.

3. For the purposes of this Agreement:

- (a) Open tendering procedures are those procedures under which all interested suppliers may submit a tender.
- (b) Selective tendering procedures are those procedures under which, consistent with paragraph 3 of Article X and other relevant provisions of this Agreement, those suppliers invited to do so by the entity may submit a tender.
- (c) Limited tendering procedures are those procedures where the entity contacts suppliers individually, only under the conditions specified in Article XV.

Article VIII

Qualification of Suppliers

In the process of qualifying suppliers, entities shall not discriminate among suppliers of other Parties or between domestic suppliers and suppliers of other Parties. Qualification procedures shall be consistent with the following:

- (a) any conditions for participation in tendering procedures shall be published in adequate

³For the purpose of this Agreement, a technical regulation is a document which lays down characteristics of a product or a service or their related processes and production methods, including the applicable administrative provisions, with which compliance is mandatory. It may also include or deal exclusively with terminology, symbols, packaging, marking or labelling requirements as they apply to a product, service, process or production method.

⁴For the purpose of this Agreement, a standard is a document approved by a recognized body, that provides, for common and repeated use, rules, guidelines or characteristics for products or services or related processes and production methods, with which compliance is not mandatory. It may also include or deal exclusively with terminology, symbols, packaging, marking or labelling requirements as they apply to a product, service, process or production method.

time to enable interested suppliers to initiate and, to the extent that it is compatible with efficient operation of the procurement process, complete the qualification procedures;

- (b) any conditions for participation in tendering procedures shall be limited to those which are essential to ensure the firm's capability to fulfil the contract in question. Any conditions for participation required from suppliers, including financial guarantees, technical qualifications and information necessary for establishing the financial, commercial and technical capacity of suppliers, as well as the verification of qualifications, shall be no less favourable to suppliers of other Parties than to domestic suppliers and shall not discriminate among suppliers of other Parties. The financial, commercial and technical capacity of a supplier shall be judged on the basis both of that supplier's global business activity as well as of its activity in the territory of the procuring entity, taking due account of the legal relationship between the supply organizations;
- (c) the process of, and the time required for, qualifying suppliers shall not be used in order to keep suppliers of other Parties off a suppliers' list or from being considered for a particular intended procurement. Entities shall recognize as qualified suppliers such domestic suppliers or suppliers of other Parties who meet the conditions for participation in a particular intended procurement. Suppliers requesting to participate in a particular intended procurement who may not yet be qualified shall also be considered, provided there is sufficient time to complete the qualification procedure;
- (d) entities maintaining permanent lists of qualified suppliers shall ensure that suppliers may apply for qualification at any time; and that all qualified suppliers so requesting are included in the lists within a reasonably short time;
- (e) if, after publication of the notice under paragraph 1 of Article IX, a supplier not yet qualified requests to participate in an intended procurement, the entity shall promptly start procedures for qualification;
- (f) any supplier having requested to become a qualified supplier shall be advised by the entities concerned of the decision in this regard. Qualified suppliers included on permanent lists by entities shall also be notified of the termination of any such lists or of their removal from them;
- (g) each Party shall ensure that:
 - (i) each entity and its constituent parts follow a single qualification procedure, except in cases of duly substantiated need for a different procedure; and
 - (ii) efforts be made to minimize differences in qualification procedures between entities.
- (h) nothing in subparagraphs (a) through (g) shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations, provided that such an action is consistent with the national treatment and non-discrimination provisions of this Agreement.

Article IX

Invitation to Participate Regarding Intended Procurement

1. In accordance with paragraphs 2 and 3, entities shall publish an invitation to participate for all cases of intended procurement, except as otherwise provided for in Article XV (limited tendering). The notice shall be published in the appropriate publication listed in Appendix II.

2. The invitation to participate may take the form of a notice of proposed procurement, as provided for in paragraph 6.

3. Entities in Annexes 2 and 3 may use a notice of planned procurement, as provided for in paragraph 7, or a notice regarding a qualification system, as provided for in paragraph 9, as an invitation to participate.

4. Entities which use a notice of planned procurement as an invitation to participate shall subsequently invite all suppliers who have expressed an interest to confirm their interest on the basis of information which shall include at least the information referred to in paragraph 6.

5. Entities which use a notice regarding a qualification system as an invitation to participate shall provide, subject to the considerations referred to in paragraph 4 of Article XVIII and in a timely manner, information which allows all those who have expressed an interest to have a meaningful opportunity to assess their interest in participating in the procurement. This information shall include the information contained in the notices referred to in paragraphs 6 and 8, to the extent such information is available. Information provided to one interested supplier shall be provided in a non-discriminatory manner to the other interested suppliers.

6. Each notice of proposed procurement, referred to in paragraph 2, shall contain the following information:

- (a) the nature and quantity, including any options for further procurement and, if possible, an estimate of the timing when such options may be exercised; in the case of recurring contracts the nature and quantity and, if possible, an estimate of the timing of the subsequent tender notices for the products or services to be procured;
- (b) whether the procedure is open or selective or will involve negotiation;
- (c) any date for starting delivery or completion of delivery of goods or services;
- (d) the address and final date for submitting an application to be invited to tender or for qualifying for the suppliers' lists, or for receiving tenders, as well as the language or languages in which they must be submitted;
- (e) the address of the entity awarding the contract and providing any information necessary for obtaining specifications and other documents;
- (f) any economic and technical requirements, financial guarantees and information required from suppliers;
- (g) the amount and terms of payment of any sum payable for the tender documentation; and
- (h) whether the entity is inviting offers for purchase, lease, rental or hire purchase, or more than one of these methods.

7. Each notice of planned procurement referred to in paragraph 3 shall contain as much of the information referred to in paragraph 6 as is available. It shall in any case include the information referred to in paragraph 8 and:

- (a) a statement that interested suppliers should express their interest in the procurement to the entity;
- (b) a contact point with the entity from which further information may be obtained.

8. For each case of intended procurement, the entity shall publish a summary notice in one of the official languages of the WTO. The notice shall contain at least the following information:

- (a) the subject matter of the contract;
- (b) the time-limits set for the submission of tenders or an application to be invited to tender; and
- (c) the addresses from which documents relating to the contracts may be requested.

9. In the case of selective tendering procedures, entities maintaining permanent lists of qualified suppliers shall publish annually in one of the publications listed in Appendix III a notice of the following:

- (a) the enumeration of the lists maintained, including their headings, in relation to the products or services or categories of products or services to be procured through the lists;
- (b) the conditions to be fulfilled by suppliers with a view to their inscription on those lists and the methods according to which each of those conditions will be verified by the entity concerned; and
- (c) the period of validity of the lists, and the formalities for their renewal.

When such a notice is used as an invitation to participate in accordance with paragraph 3, the notice shall, in addition, include the following information:

- (d) the nature of the products or services concerned;
- (e) a statement that the notice constitutes an invitation to participate.

However, when the duration of the qualification system is three years or less, and if the duration of the system is made clear in the notice and it is also made clear that further notices will not be published, it shall be sufficient to publish the notice once only, at the beginning of the system. Such a system shall not be used in a manner which circumvents the provisions of this Agreement.

10. If, after publication of an invitation to participate in any case of intended procurement, but before the time set for opening or receipt of tenders as specified in the notices or the tender documentation, it becomes necessary to amend or re-issue the notice, the amendment or the re-issued notice shall be given the same circulation as the original documents upon which the amendment is based. Any significant information given to one supplier with respect to a particular intended procurement shall be given simultaneously to all other suppliers concerned in adequate time to permit the suppliers to consider such information and to respond to it.

11. Entities shall make clear, in the notices referred to in this Article or in the publication in which the notices appear, that the procurement is covered by the Agreement.

Article X

Selection Procedures

1. To ensure optimum effective international competition under selective tendering procedures, entities shall, for each intended procurement, invite tenders from the maximum number of domestic suppliers and suppliers of other Parties, consistent with the efficient operation of the procurement system. They shall select the suppliers to participate in the procedure in a fair and non-discriminatory manner.
2. Entities maintaining permanent lists of qualified suppliers may select suppliers to be invited to tender from among those listed. Any selection shall allow for equitable opportunities for suppliers on the lists.
3. Suppliers requesting to participate in a particular intended procurement shall be permitted to submit a tender and be considered, provided, in the case of those not yet qualified, there is sufficient time to complete the qualification procedure under Articles VIII and IX. The number of additional suppliers permitted to participate shall be limited only by the efficient operation of the procurement system.
4. Requests to participate in selective tendering procedures may be submitted by telex, telegram or facsimile.

Article XI

Time-limits for Tendering and Delivery

General

1. (a) Any prescribed time-limit shall be adequate to allow suppliers of other Parties as well as domestic suppliers to prepare and submit tenders before the closing of the tendering procedures. In determining any such time-limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement, the extent of subcontracting anticipated and the normal time for transmitting tenders by mail from foreign as well as domestic points.
- (b) Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of applications to be invited to tender.

Deadlines

2. Except in so far as provided in paragraph 3,
 - (a) in open procedures, the period for the receipt of tenders shall not be less than 40 days from the date of publication referred to in paragraph 1 of Article IX;
 - (b) in selective procedures not involving the use of a permanent list of qualified suppliers, the period for submitting an application to be invited to tender shall not be less than 25 days from the date of publication referred to in paragraph 1 of Article IX; the period for receipt of tenders shall in no case be less than 40 days from the date of issuance of the invitation to tender;

- (c) in selective procedures involving the use of a permanent list of qualified suppliers, the period for receipt of tenders shall not be less than 40 days from the date of the initial issuance of invitations to tender, whether or not the date of initial issuance of invitations to tender coincides with the date of the publication referred to in paragraph 1 of Article IX.
3. The periods referred to in paragraph 2 may be reduced in the circumstances set out below:
- (a) if a separate notice has been published 40 days and not more than 12 months in advance and the notice contains at least:
 - (i) as much of the information referred to in paragraph 6 of Article IX as is available;
 - (ii) the information referred to in paragraph 8 of Article IX;
 - (iii) a statement that interested suppliers should express their interest in the procurement to the entity; and
 - (iv) a contact point with the entity from which further information may be obtained,the 40-day limit for receipt of tenders may be replaced by a period sufficiently long to enable responsive tendering, which, as a general rule, shall not be less than 24 days, but in any case not less than 10 days;
 - (b) in the case of the second or subsequent publications dealing with contracts of a recurring nature within the meaning of paragraph 6 of Article IX, the 40-day limit for receipt of tenders may be reduced to not less than 24 days;
 - (c) where a state of urgency duly substantiated by the entity renders impracticable the periods in question, the periods specified in paragraph 2 may be reduced but shall in no case be less than 10 days from the date of the publication referred to in paragraph 1 of Article IX; or
 - (d) the period referred to in paragraph 2(c) may, for procurements by entities listed in Annexes 2 and 3, be fixed by mutual agreement between the entity and the selected suppliers. In the absence of agreement, the entity may fix periods which shall be sufficiently long to enable responsive tendering and shall in any case not be less than 10 days.
4. Consistent with the entity's own reasonable needs, any delivery date shall take into account such factors as the complexity of the intended procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the points of supply or for supply of services.

Article XII

Tender Documentation

1. If, in tendering procedures, an entity allows tenders to be submitted in several languages, one of those languages shall be one of the official languages of the WTO.
2. Tender documentation provided to suppliers shall contain all information necessary to permit

them to submit responsive tenders, including information required to be published in the notice of intended procurement, except for paragraph 6(g) of Article IX, and the following:

- (a) the address of the entity to which tenders should be sent;
- (b) the address where requests for supplementary information should be sent;
- (c) the language or languages in which tenders and tendering documents must be submitted;
- (d) the closing date and time for receipt of tenders and the length of time during which any tender should be open for acceptance;
- (e) the persons authorized to be present at the opening of tenders and the date, time and place of this opening;
- (f) any economic and technical requirement, financial guarantees and information or documents required from suppliers;
- (g) a complete description of the products or services required or of any requirements including technical specifications, conformity certification to be fulfilled, necessary plans, drawings and instructional materials;
- (h) the criteria for awarding the contract, including any factors other than price that are to be considered in the evaluation of tenders and the cost elements to be included in evaluating tender prices, such as transport, insurance and inspection costs, and in the case of products or services of other Parties, customs duties and other import charges, taxes and currency of payment;
- (i) the terms of payment;
- (j) any other terms or conditions;
- (k) in accordance with Article XVII the terms and conditions, if any, under which tenders from countries not Parties to this Agreement, but which apply the procedures of that Article, will be entertained.

Forwarding of Tender Documentation by the Entities

- 3. (a) In open procedures, entities shall forward the tender documentation at the request of any supplier participating in the procedure, and shall reply promptly to any reasonable request for explanations relating thereto.
- (b) In selective procedures, entities shall forward the tender documentation at the request of any supplier requesting to participate, and shall reply promptly to any reasonable request for explanations relating thereto.
- (c) Entities shall reply promptly to any reasonable request for relevant information submitted by a supplier participating in the tendering procedure, on condition that such information does not give that supplier an advantage over its competitors in the procedure for the award of the contract.

Article XIII

Submission, Receipt and Opening of Tenders and Awarding of Contracts

1. The submission, receipt and opening of tenders and awarding of contracts shall be consistent with the following:

- (a) tenders shall normally be submitted in writing directly or by mail. If tenders by telex, telegram or facsimile are permitted, the tender made thereby must include all the information necessary for the evaluation of the tender, in particular the definitive price proposed by the tenderer and a statement that the tenderer agrees to all the terms, conditions and provisions of the invitation to tender. The tender must be confirmed promptly by letter or by the despatch of a signed copy of the telex, telegram or facsimile. Tenders presented by telephone shall not be permitted. The content of the telex, telegram or facsimile shall prevail where there is a difference or conflict between that content and any documentation received after the time-limit; and
- (b) the opportunities that may be given to tenderers to correct unintentional errors of form between the opening of tenders and the awarding of the contract shall not be permitted to give rise to any discriminatory practice.

Receipt of Tenders

2. A supplier shall not be penalized if a tender is received in the office designated in the tender documentation after the time specified because of delay due solely to mishandling on the part of the entity. Tenders may also be considered in other exceptional circumstances if the procedures of the entity concerned so provide.

Opening of Tenders

3. All tenders solicited under open or selective procedures by entities shall be received and opened under procedures and conditions guaranteeing the regularity of the openings. The receipt and opening of tenders shall also be consistent with the national treatment and non-discrimination provisions of this Agreement. Information on the opening of tenders shall remain with the entity concerned at the disposal of the government authorities responsible for the entity in order that it may be used if required under the procedures of Articles XVIII, XIX, XX and XXII.

Award of Contracts

4.
 - (a) To be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and be from a supplier which complies with the conditions for participation. If an entity has received a tender abnormally lower than other tenders submitted, it may enquire with the tenderer to ensure that it can comply with the conditions of participation and be capable of fulfilling the terms of the contract.
 - (b) Unless in the public interest an entity decides not to issue the contract, the entity shall make the award to the tenderer who has been determined to be fully capable of undertaking the contract and whose tender, whether for domestic products or services, or products or services of other Parties, is either the lowest tender or the tender which in terms of the specific evaluation criteria set forth in the notices or tender documentation is determined to be the most advantageous.
 - (c) Awards shall be made in accordance with the criteria and essential requirements

specified in the tender documentation.

Option Clauses

5. Option clauses shall not be used in a manner which circumvents the provisions of the Agreement.

Article XIV

Negotiation

1. A Party may provide for entities to conduct negotiations:
 - (a) in the context of procurements in which they have indicated such intent, namely in the notice referred to in paragraph 2 of Article IX (the invitation to suppliers to participate in the procedure for the proposed procurement); or
 - (b) when it appears from evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notices or tender documentation.
2. Negotiations shall primarily be used to identify the strengths and weaknesses in tenders.
3. Entities shall treat tenders in confidence. In particular, they shall not provide information intended to assist particular participants to bring their tenders up to the level of other participants.
4. Entities shall not, in the course of negotiations, discriminate between different suppliers. In particular, they shall ensure that:
 - (a) any elimination of participants is carried out in accordance with the criteria set forth in the notices and tender documentation;
 - (b) all modifications to the criteria and to the technical requirements are transmitted in writing to all remaining participants in the negotiations;
 - (c) all remaining participants are afforded an opportunity to submit new or amended submissions on the basis of the revised requirements; and
 - (d) when negotiations are concluded, all participants remaining in the negotiations shall be permitted to submit final tenders in accordance with a common deadline.

Article XV

Limited Tendering

1. The provisions of Articles VII through XIV governing open and selective tendering procedures need not apply in the following conditions, provided that limited tendering is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discrimination among suppliers of other Parties or protection to domestic producers or suppliers:

- (a) in the absence of tenders in response to an open or selective tender, or when the tenders submitted have been collusive, or not in conformity with the essential requirements in

the tender, or from suppliers who do not comply with the conditions for participation provided for in accordance with this Agreement, on condition, however, that the requirements of the initial tender are not substantially modified in the contract as awarded;

- (b) when, for works of art or for reasons connected with protection of exclusive rights, such as patents or copyrights, or in the absence of competition for technical reasons, the products or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
- (c) in so far as is strictly necessary when, for reasons of extreme urgency brought about by events unforeseeable by the entity, the products or services could not be obtained in time by means of open or selective tendering procedures;
- (d) for additional deliveries by the original supplier which are intended either as parts replacement for existing supplies, or installations, or as the extension of existing supplies, services, or installations where a change of supplier would compel the entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services⁵;
- (e) when an entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. When such contracts have been fulfilled, subsequent procurements of products or services shall be subject to Articles VII through XIV⁶;
- (f) when additional construction services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseeable circumstances, become necessary to complete the construction services described therein, and the entity needs to award contracts for the additional construction services to the contractor carrying out the construction services concerned since the separation of the additional construction services from the initial contract would be difficult for technical or economic reasons and cause significant inconvenience to the entity. However, the total value of contracts awarded for the additional construction services may not exceed 50 per cent of the amount of the main contract;
- (g) for new construction services consisting of the repetition of similar construction services which conform to a basic project for which an initial contract was awarded in accordance with Articles VII through XIV and for which the entity has indicated in the notice of intended procurement concerning the initial construction service, that limited tendering procedures might be used in awarding contracts for such new construction services;
- (h) for products purchased on a commodity market;
- (i) for purchases made under exceptionally advantageous conditions which only arise in

⁵It is the understanding that "existing equipment" includes software to the extent that the initial procurement of the software was covered by the Agreement.

⁶Original development of a first product or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the product or service is suitable for production or supply in quantity to acceptable quality standards. It does not extend to quantity production or supply to establish commercial viability or to recover research and development costs.

the very short term. This provision is intended to cover unusual disposals by firms which are not normally suppliers, or disposal of assets of businesses in liquidation or receivership. It is not intended to cover routine purchases from regular suppliers;

- (j) in the case of contracts awarded to the winner of a design contest provided that the contest has been organized in a manner which is consistent with the principles of this Agreement, notably as regards the publication, in the sense of Article IX, of an invitation to suitably qualified suppliers, to participate in such a contest which shall be judged by an independent jury with a view to design contracts being awarded to the winners.

2. Entities shall prepare a report in writing on each contract awarded under the provisions of paragraph 1. Each report shall contain the name of the procuring entity, value and kind of goods or services procured, country of origin, and a statement of the conditions in this Article which prevailed. This report shall remain with the entities concerned at the disposal of the government authorities responsible for the entity in order that it may be used if required under the procedures of Articles XVIII, XIX, XX and XXII.

Article XVI

Offsets

1. Entities shall not, in the qualification and selection of suppliers, products or services, or in the evaluation of tenders and award of contracts, impose, seek or consider offsets.⁷

2. Nevertheless, having regard to general policy considerations, including those relating to development, a developing country may at the time of accession negotiate conditions for the use of offsets, such as requirements for the incorporation of domestic content. Such requirements shall be used only for qualification to participate in the procurement process and not as criteria for awarding contracts. Conditions shall be objective, clearly defined and non-discriminatory. They shall be set forth in the country's Appendix I and may include precise limitations on the imposition of offsets in any contract subject to this Agreement. The existence of such conditions shall be notified to the Committee and included in the notice of intended procurement and other documentation.

Article XVII

Transparency

1. Each Party shall encourage entities to indicate the terms and conditions, including any deviations from competitive tendering procedures or access to challenge procedures, under which tenders will be entertained from suppliers situated in countries not Parties to this Agreement but which, with a view to creating transparency in their own contract awards, nevertheless:

- (a) specify their contracts in accordance with Article VI (technical specifications);
- (b) publish the procurement notices referred to in Article IX, including, in the version of the notice referred to in paragraph 8 of Article IX (summary of the notice of intended procurement) which is published in an official language of the WTO, an indication of the terms and conditions under which tenders shall be entertained from suppliers

⁷Offsets in government procurement are measures used to encourage local development or improve the balance-of-payments accounts by means of domestic content, licensing of technology, investment requirements, counter-trade or similar requirements.

situated in countries Parties to this Agreement;

- (c) are willing to ensure that their procurement regulations shall not normally change during a procurement and, in the event that such change proves unavoidable, to ensure the availability of a satisfactory means of redress.

2. Governments not Parties to the Agreement which comply with the conditions specified in paragraphs 1(a) through 1(c), shall be entitled if they so inform the Parties to participate in the Committee as observers.

Article XVIII

Information and Review as Regards Obligations of Entities

1. Entities shall publish a notice in the appropriate publication listed in Appendix II not later than 72 days after the award of each contract under Articles XIII through XV. These notices shall contain:

- (a) the nature and quantity of products or services in the contract award;
- (b) the name and address of the entity awarding the contract;
- (c) the date of award;
- (d) the name and address of winning tenderer;
- (e) the value of the winning award or the highest and lowest offer taken into account in the award of the contract;
- (f) where appropriate, means of identifying the notice issued under paragraph 1 of Article IX or justification according to Article XV for the use of such procedure; and
- (g) the type of procedure used.

2. Each entity shall, on request from a supplier of a Party, promptly provide:

- (a) an explanation of its procurement practices and procedures;
- (b) pertinent information concerning the reasons why the supplier's application to qualify was rejected, why its existing qualification was brought to an end and why it was not selected; and
- (c) to an unsuccessful tenderer, pertinent information concerning the reasons why its tender was not selected and on the characteristics and relative advantages of the tender selected as well as the name of the winning tenderer.

3. Entities shall promptly inform participating suppliers of decisions on contract awards and, upon request, in writing.

4. However, entities may decide that certain information on the contract award, contained in paragraphs 1 and 2(c), be withheld where release of such information would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers.

Article XIX

Information and Review as Regards Obligations of Parties

1. Each Party shall promptly publish any law, regulation, judicial decision, administrative ruling of general application, and any procedure (including standard contract clauses) regarding government procurement covered by this Agreement, in the appropriate publications listed in Appendix IV and in such a manner as to enable other Parties and suppliers to become acquainted with them. Each Party shall be prepared, upon request, to explain to any other Party its government procurement procedures.
2. The government of an unsuccessful tenderer which is a Party to this Agreement may seek, without prejudice to the provisions under Article XXII, such additional information on the contract award as may be necessary to ensure that the procurement was made fairly and impartially. To this end, the procuring government shall provide information on both the characteristics and relative advantages of the winning tender and the contract price. Normally this latter information may be disclosed by the government of the unsuccessful tenderer provided it exercises this right with discretion. In cases where release of this information would prejudice competition in future tenders, this information shall not be disclosed except after consultation with and agreement of the Party which gave the information to the government of the unsuccessful tenderer.
3. Available information concerning procurement by covered entities and their individual contract awards shall be provided, upon request, to any other Party.
4. Confidential information provided to any Party which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers shall not be revealed without formal authorization from the party providing the information.
5. Each Party shall collect and provide to the Committee on an annual basis statistics on its procurements covered by this Agreement. Such reports shall contain the following information with respect to contracts awarded by all procurement entities covered under this Agreement:
 - (a) for entities in Annex 1, statistics on the estimated value of contracts awarded, both above and below the threshold value, on a global basis and broken down by entities; for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded above the threshold value on a global basis and broken down by categories of entities;
 - (b) for entities in Annex 1, statistics on the number and total value of contracts awarded above the threshold value, broken down by entities and categories of products and services according to uniform classification systems; for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded above the threshold value broken down by categories of entities and categories of products and services;
 - (c) for entities in Annex 1, statistics, broken down by entity and by categories of products and services, on the number and total value of contracts awarded under each of the cases of Article XV; for categories of entities in Annexes 2 and 3, statistics on the total value of contracts awarded above the threshold value under each of the cases of Article XV; and
 - (d) for entities in Annex 1, statistics, broken down by entities, on the number and total value of contracts awarded under derogations to the Agreement contained in the relevant Annexes; for categories of entities in Annexes 2 and 3, statistics on the total value of contracts awarded under derogations to the Agreement contained in the

relevant Annexes.

To the extent that such information is available, each Party shall provide statistics on the country of origin of products and services purchased by its entities. With a view to ensuring that such statistics are comparable, the Committee shall provide guidance on methods to be used. With a view to ensuring effective monitoring of procurement covered by this Agreement, the Committee may decide unanimously to modify the requirements of subparagraphs (a) through (d) as regards the nature and the extent of statistical information to be provided and the breakdowns and classifications to be used.

Article XX

Challenge Procedures

Consultations

1. In the event of a complaint by a supplier that there has been a breach of this Agreement in the context of a procurement, each Party shall encourage the supplier to seek resolution of its complaint in consultation with the procuring entity. In such instances the procuring entity shall accord impartial and timely consideration to any such complaint, in a manner that is not prejudicial to obtaining corrective measures under the challenge system.

Challenge

2. Each Party shall provide non-discriminatory, timely, transparent and effective procedures enabling suppliers to challenge alleged breaches of the Agreement arising in the context of procurements in which they have, or have had, an interest.

3. Each Party shall provide its challenge procedures in writing and make them generally available.

4. Each Party shall ensure that documentation relating to all aspects of the process concerning procurements covered by this Agreement shall be retained for three years.

5. The interested supplier may be required to initiate a challenge procedure and notify the procuring entity within specified time-limits from the time when the basis of the complaint is known or reasonably should have been known, but in no case within a period of less than 10 days.

6. Challenges shall be heard by a court or by an impartial and independent review body with no interest in the outcome of the procurement and the members of which are secure from external influence during the term of appointment. A review body which is not a court shall either be subject to judicial review or shall have procedures which provide that:

- (a) participants can be heard before an opinion is given or a decision is reached;
- (b) participants can be represented and accompanied;
- (c) participants shall have access to all proceedings;
- (d) proceedings can take place in public;
- (e) opinions or decisions are given in writing with a statement describing the basis for the opinions or decisions;
- (f) witnesses can be presented;

- (g) documents are disclosed to the review body.
7. Challenge procedures shall provide for:
- (a) rapid interim measures to correct breaches of the Agreement and to preserve commercial opportunities. Such action may result in suspension of the procurement process. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied. In such circumstances, just cause for not acting shall be provided in writing;
 - (b) an assessment and a possibility for a decision on the justification of the challenge;
 - (c) correction of the breach of the Agreement or compensation for the loss or damages suffered, which may be limited to costs for tender preparation or protest.
8. With a view to the preservation of the commercial and other interests involved, the challenge procedure shall normally be completed in a timely fashion.

Article XXI

Institutions

1. A Committee on Government Procurement composed of representatives from each of the Parties shall be established. This Committee shall elect its own Chairman and Vice-Chairman and shall meet as necessary but not less than once a year for the purpose of affording Parties the opportunity to consult on any matters relating to the operation of this Agreement or the furtherance of its objectives, and to carry out such other responsibilities as may be assigned to it by the Parties.
2. The Committee may establish working parties or other subsidiary bodies which shall carry out such functions as may be given to them by the Committee.

Article XXII

Consultations and Dispute Settlement

1. The provisions of the Understanding on Rules and Procedures Governing the Settlement of Disputes under the WTO Agreement (hereinafter referred to as the "Dispute Settlement Understanding") shall be applicable except as otherwise specifically provided below.
2. If any Party considers that any benefit accruing to it, directly or indirectly, under this Agreement is being nullified or impaired, or that the attainment of any objective of this Agreement is being impeded as the result of the failure of another Party or Parties to carry out its obligations under this Agreement, or the application by another Party or Parties of any measure, whether or not it conflicts with the provisions of this Agreement, it may with a view to reaching a mutually satisfactory resolution of the matter, make written representations or proposals to the other Party or Parties which it considers to be concerned. Such action shall be promptly notified to the Dispute Settlement Body established under the Dispute Settlement Understanding (hereinafter referred to as "DSB"), as specified below. Any Party thus approached shall give sympathetic consideration to the representations or proposals made to it.
3. The DSB shall have the authority to establish panels, adopt panel and Appellate Body reports,

make recommendations or give rulings on the matter, maintain surveillance of implementation of rulings and recommendations, and authorize suspension of concessions and other obligations under this Agreement or consultations regarding remedies when withdrawal of measures found to be in contravention of the Agreement is not possible, provided that only Members of the WTO Party to this Agreement shall participate in decisions or actions taken by the DSB with respect to disputes under this Agreement.

4. Panels shall have the following terms of reference unless the parties to the dispute agree otherwise within 20 days of the establishment of the panel:

"To examine, in the light of the relevant provisions of this Agreement and of (name of any other covered Agreement cited by the parties to the dispute), the matter referred to the DSB by (name of party) in document ... and to make such findings as will assist the DSB in making the recommendations or in giving the rulings provided for in this Agreement."

In the case of a dispute in which provisions both of this Agreement and of one or more other Agreements listed in Appendix 1 of the Dispute Settlement Understanding are invoked by one of the parties to the dispute, paragraph 3 shall apply only to those parts of the panel report concerning the interpretation and application of this Agreement.

5. Panels established by the DSB to examine disputes under this Agreement shall include persons qualified in the area of government procurement.

6. Every effort shall be made to accelerate the proceedings to the greatest extent possible. Notwithstanding the provisions of paragraphs 8 and 9 of Article 12 of the Dispute Settlement Understanding, the panel shall attempt to provide its final report to the parties to the dispute not later than four months, and in case of delay not later than seven months, after the date on which the composition and terms of reference of the panel are agreed. Consequently, every effort shall be made to reduce also the periods foreseen in paragraph 1 of Article 20 and paragraph 4 of Article 21 of the Dispute Settlement Understanding by two months. Moreover, notwithstanding the provisions of paragraph 5 of Article 21 of the Dispute Settlement Understanding, the panel shall attempt to issue its decision, in case of a disagreement as to the existence or consistency with a covered Agreement of measures taken to comply with the recommendations and rulings, within 60 days.

7. Notwithstanding paragraph 2 of Article 22 of the Dispute Settlement Understanding, any dispute arising under any Agreement listed in Appendix 1 to the Dispute Settlement Understanding other than this Agreement shall not result in the suspension of concessions or other obligations under this Agreement, and any dispute arising under this Agreement shall not result in the suspension of concessions or other obligations under any other Agreement listed in the said Appendix 1.

Article XXIII

Exceptions to the Agreement

1. Nothing in this Agreement shall be construed to prevent any Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent any Party from imposing or enforcing measures: necessary to protect public morals,

order or safety, human, animal or plant life or health or intellectual property; or relating to the products or services of handicapped persons, of philanthropic institutions or of prison labour.

Article XXIV

Final Provisions

1. *Acceptance and Entry into Force*

This Agreement shall enter into force on 1 January 1996 for those governments⁸ whose agreed coverage is contained in Annexes 1 through 5 of Appendix I of this Agreement and which have, by signature, accepted the Agreement on 15 April 1994 or have, by that date, signed the Agreement subject to ratification and subsequently ratified the Agreement before 1 January 1996.

2. *Accession*

Any government which is a Member of the WTO, or prior to the date of entry into force of the WTO Agreement which is a contracting party to GATT 1947, and which is not a Party to this Agreement may accede to this Agreement on terms to be agreed between that government and the Parties. Accession shall take place by deposit with the Director-General of the WTO of an instrument of accession which states the terms so agreed. The Agreement shall enter into force for an acceding government on the 30th day following the date of its accession to the Agreement.

3. *Transitional Arrangements*

- (a) Hong Kong and Korea may delay application of the provisions of this Agreement, except Articles XXI and XXII, to a date not later than 1 January 1997. The commencement date of their application of the provisions, if prior to 1 January 1997, shall be notified to the Director-General of the WTO 30 days in advance.
- (b) During the period between the date of entry into force of this Agreement and the date of its application by Hong Kong, the rights and obligations between Hong Kong and all other Parties to this Agreement which were on 15 April 1994 Parties to the Agreement on Government Procurement done at Geneva on 12 April 1979 as amended on 2 February 1987 (the "1988 Agreement") shall be governed by the substantive⁹ provisions of the 1988 Agreement, including its Annexes as modified or rectified, which provisions are incorporated herein by reference for that purpose and shall remain in force until 31 December 1996.
- (c) Between Parties to this Agreement which are also Parties to the 1988 Agreement, the rights and obligations of this Agreement shall supersede those under the 1988 Agreement.
- (d) Article XXII shall not enter into force until the date of entry into force of the WTO Agreement. Until such time, the provisions of Article VII of the 1988 Agreement shall apply to consultations and dispute settlement under this Agreement, which provisions are hereby incorporated in the Agreement by reference for that purpose. These

⁸For the purpose of this Agreement, the term "government" is deemed to include the competent authorities of the European Communities.

⁹All provisions of the 1988 Agreement except the Preamble, Article VII and Article IX other than paragraphs 5(a) and (b) and paragraph 10.

provisions shall be applied under the auspices of the Committee under this Agreement.

- (e) Prior to the date of entry into force of the WTO Agreement, references to WTO bodies shall be construed as referring to the corresponding GATT body and references to the Director-General of the WTO and to the WTO Secretariat shall be construed as references to, respectively, the Director-General to the CONTRACTING PARTIES to GATT 1947 and to the GATT Secretariat.

4. *Reservations*

Reservations may not be entered in respect of any of the provisions of this Agreement.

5. *National Legislation*

- (a) Each government accepting or acceding to this Agreement shall ensure, not later than the date of entry into force of this Agreement for it, the conformity of its laws, regulations and administrative procedures, and the rules, procedures and practices applied by the entities contained in its lists annexed hereto, with the provisions of this Agreement.
- (b) Each Party shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

6. *Rectifications or Modifications*

- (a) Rectifications, transfers of an entity from one Annex to another or, in exceptional cases, other modifications relating to Appendices I through IV shall be notified to the Committee, along with information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement. If the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII.
- (b) Where a Party wishes, in exercise of its rights, to withdraw an entity from Appendix I on the grounds that government control or influence over it has been effectively eliminated, that Party shall notify the Committee. Such modification shall become effective the day after the end of the following meeting of the Committee, provided that the meeting is no sooner than 30 days from the date of notification and no objection has been made. In the event of an objection, the matter may be pursued in accordance with the procedures on consultations and dispute settlement contained in Article XXII. In considering the proposed modification to Appendix I and any consequential compensatory adjustment, allowance shall be made for the market-opening effects of the removal of government control or influence.

7. *Reviews, Negotiations and Future Work*

- (a) The Committee shall review annually the implementation and operation of this Agreement taking into account the objectives thereof. The Committee shall annually inform the General Council of the WTO of developments during the periods covered by

such reviews.

- (b) Not later than the end of the third year from the date of entry into force of this Agreement and periodically thereafter, the Parties thereto shall undertake further negotiations, with a view to improving this Agreement and achieving the greatest possible extension of its coverage among all Parties on the basis of mutual reciprocity, having regard to the provisions of Article V relating to developing countries.
- (c) Parties shall seek to avoid introducing or prolonging discriminatory measures and practices which distort open procurement and shall, in the context of negotiations under subparagraph (b), seek to eliminate those which remain on the date of entry into force of this Agreement.

8. *Information Technology*

With a view to ensuring that the Agreement does not constitute an unnecessary obstacle to technical progress, Parties shall consult regularly in the Committee regarding developments in the use of information technology in government procurement and shall, if necessary, negotiate modifications to the Agreement. These consultations shall in particular aim to ensure that the use of information technology promotes the aims of open, non-discriminatory and efficient government procurement through transparent procedures, that contracts covered under the Agreement are clearly identified and that all available information relating to a particular contract can be identified. When a Party intends to innovate, it shall endeavour to take into account the views expressed by other Parties regarding any potential problems.

9. *Amendments*

Parties may amend this Agreement having regard, *inter alia*, to the experience gained in its implementation. Such an amendment, once the Parties have concurred in accordance with the procedures established by the Committee, shall not enter into force for any Party until it has been accepted by such Party.

10. *Withdrawal*

- (a) Any Party may withdraw from this Agreement. The withdrawal shall take effect upon the expiration of 60 days from the date on which written notice of withdrawal is received by the Director-General of the WTO. Any Party may upon such notification request an immediate meeting of the Committee.
- (b) If a Party to this Agreement does not become a Member of the WTO within one year of the date of entry into force of the WTO Agreement or ceases to be a Member of the WTO, it shall cease to be a Party to this Agreement with effect from the same date.

11. *Non-application of this Agreement between Particular Parties*

This Agreement shall not apply as between any two Parties if either of the Parties, at the time either accepts or accedes to this Agreement, does not consent to such application.

12. *Notes, Appendices and Annexes*

The Notes, Appendices and Annexes to this Agreement constitute an integral part thereof.

13. *Secretariat*

This Agreement shall be serviced by the WTO Secretariat.

14. *Deposit*

This Agreement shall be deposited with the Director-General of the WTO, who shall promptly furnish to each Party a certified true copy of this Agreement, of each rectification or modification thereto pursuant to paragraph 6 and of each amendment thereto pursuant to paragraph 9, and a notification of each acceptance thereof or accession thereto pursuant to paragraphs 1 and 2 and of each withdrawal therefrom pursuant to paragraph 10 of this Article.

15. *Registration*

This Agreement shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Marrakesh this fifteenth day of April one thousand nine hundred and ninety-four in a single copy, in the English, French and Spanish languages, each text being authentic, except as otherwise specified with respect to the Appendices hereto.

NOTES

The terms "country" or "countries" as used in this Agreement, including the Appendices, are to be understood to include any separate customs territory Party to this Agreement.

In the case of a separate customs territory Party to this Agreement, where an expression in this Agreement is qualified by the term "national", such expression shall be read as pertaining to that customs territory, unless otherwise specified.

Article 1, paragraph 1

Having regard to general policy considerations relating to tied aid, including the objective of developing countries with respect to the untying of such aid, this Agreement does not apply to procurement made in furtherance of tied aid to developing countries so long as it is practised by Parties.

Government procurement: the plurilateral agreement

The Government Procurement Committee oversees the work of the Agreement on Government Procurement (GPA). The GPA is a plurilateral agreement – only some countries (members of the WTO) are parties to this agreement.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2006-2007

CANADA

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2006-2007.

The information notified by Canada is reproduced below.

Pursuant to the agreed procedures (GPA/1, Annex 3), Canada submits its notification of threshold figures in the national currency for the period 1 January 2006 to 31 December 2007 for Annex 1 of Appendix I of the Agreement on Government Procurement. This information was also published on 16 December 2005 in Contracting Policy Notice 2005-3 on the Treasury Board Canada Secretariat website at <http://www.tbs-sct.gc.ca/>.

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Canadian Dollars
Goods	130,000	245,000
Services	130,000	245,000
Construction	5,000,000	9,400,000

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2006-2007

UNITED STATES

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), the United States notifies the Committee on Government Procurement of the U.S. thresholds for the period 2006-2007. These thresholds are effective via a Federal Register notice published December 12, 2005 (70 Fed. Reg. 73510).

ANNEX 1

	Threshold Value (SDR)	Threshold Value in U.S. Dollars
1. Goods and services	130,000	193,000
2. Construction services	5,000,000	7,407,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in U.S. Dollars
1. Goods and services	355,000	526,000
2. Construction services	5,000,000	7,407,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in U.S. Dollars
1. Goods and services (except entities identified in Annex 3 to which the threshold of US\$250,000 applies)	400,000	593,000
2. Construction services	5,000,000	7,407,000

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2006-2007**

SINGAPORE

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2006-2007.

The information notified by Singapore is reproduced below.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded)
1. Goods and services other than construction services	130,000	323,800
2. Construction services	5,000,000	12,454,000

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded)
1. Goods and services other than construction services	400,000	996,300
2. Construction services	5,000,000	12,454,000

2. Method of calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Singapore Dollars over 24 months from October 2003 to September 2005.

Month	Exchange Rate of Singapore Dollars to 1 SDR	Month	Exchange Rate of Singapore Dollars to 1 SDR
October 2003	2.4863	October 2004	2.4911
November 2003	2.5006	November 2004	2.5215
December 2003	2.5273	December 2004	2.5373
January 2004	2.5212	January 2005	2.4932
February 2004	2.5209	February 2005	2.4919
March 2004	2.4858	March 2005	2.4926
April 2004	2.4736	April 2005	2.4987
May 2004	2.4958	May 2005	2.4540
June 2004	2.5165	June 2005	2.4518
July 2004	2.5136	July 2005	2.4131
August 2004	2.5022	August 2005	2.4585
September 2004	2.4838	September 2005	2.4483

Source: International Financial Statistics, IMF

The average exchange rate of SDR to Singapore Dollars is:

Singapore Dollar 59.7796 / 24 months = Singapore Dollar 2.4908

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2006-2007

HONG KONG, CHINA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2006-2007.

The information notified by Hong Kong, China is reproduced below.

1. Calculation of threshold figures in Hong Kong Dollars (HKD)

Annex 1 Entities	Threshold Value in SDR	Threshold Value in HKD
1. Goods and services other than construction services	130,000	1,499,000
2. Construction services	5,000,000	57,636,000

Annex 3 Entities	Threshold Value in SDR	Threshold Value in HKD
1. Goods and services other than construction services	400,000	4,611,000
2. Construction services	5,000,000	57,636,000

2. Method of calculation

The calculation of threshold figures in HKD is based on the monthly average exchange rate of SDR to HKD over 24 months from November 2003 to October 2005.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
November 2003	11.13168	30	333.95040
December 2003	11.39197	31	353.15107
January 2004	11.57831	31	358.92761
February 2004	11.63364	29	337.37556
March 2004	11.47777	31	355.81087

./.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
April 2004	11.38941	30	341.68230
May 2004	11.31363	31	350.72253
June 2004	11.42621	30	342.78630
July 2004	11.48745	31	356.11095
August 2004	11.42530	31	354.18430
September 2004	11.42164	30	342.64920
October 2004	11.52297	31	357.21207
November 2004	11.76995	30	353.09850
December 2004	11.97792	31	371.31552
January 2005	11.88122	31	368.31782
February 2005	11.83529	28	331.38812
March 2005	11.89597	31	368.77507
April 2005	11.77841	30	353.35230
May 2005	11.66428	31	361.59268
June 2005	11.41035	30	342.31050
July 2005	11.27142	31	349.41402
August 2005	11.39944	31	353.38264
September 2005	11.37956	30	341.38680
October 2005	11.21052	31	347.52612
TOTAL		731	8,426.42325

HKD equivalent of SDR for the 24-month period preceding November 2005:

$$8,426.42325 \div 731 = 11.5272548$$

$$\text{that is, 1 SDR} = \text{HKD } 11.5272548$$

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2004-2005

ISRAEL

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds.

The information notified by Israel for 2004-2005 is reproduced below.

1. Calculation of threshold figures in US\$

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	130,000	175,000
Services	130,000	175,000
Construction	8,500,000	11,450,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	250,000	337,000
Services	250,000	337,000
Construction	8,500,000	11,450,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	355,000	478,000
Services	355,000	478,000
Construction	8,500,000	11,450,000

2. Method of calculation

The calculation of the thresholds of the WTO Agreement, expressed in US\$ has been based on the average monthly SDR to US\$ exchange rate over 24 months from 1 January 2002 to 1 January 2004 (1 SDR = 1.347 US\$).

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2004

SWITZERLAND

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds.

The information notified by Switzerland for 2004 is reproduced below.

THRESHOLD VALUES FOR THE YEAR 2004¹

Annex 1 Entities

	SDRs	Converted to Sw F
Goods	130,000	248,950
Services	130,000	248,950
Construction	5,000,000	9,575,000

Annex 2 Entities

	SDRs	Converted to Sw F
Goods	200,000	383,000
Services	200,000	383,000
Construction	5,000,000	9,575,000

¹ SDR 1.0 = Sw F (Swiss Francs) 1.987. The average monthly value of the SDR in Swiss Francs from September 2001 through August 2003 (24 months) was Sw F 1.987. This calculation is based on data published by the Swiss National Bank. The monthly average is 3.7% higher than the basis (from Sw F 1.915, average Oct. 1993-Sept. 1995). Despite having the factual basis to modify the value in Swiss francs (increase in this case), Switzerland follows a policy aimed at maintaining the Swiss franc value: (a) to facilitate the implementation of the Agreement by the thousands of purchasing entities; and (b) to avoid regular modifications linked with the fluctuations of the Swiss franc/SDR value which have tended over the past few years to offset each other. The value of the thresholds in Sw F has been expressed without the value-added tax (VAT) because Switzerland excludes VAT when calculating the value of contracts.

Annex 3 Entities

	SDRs	Converted to Sw F
Goods	400,000	766,000
Services	400,000	766,000
Construction	5,000,000	9,575,000

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2004-2005

NORWAY

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds.

The information notified by Norway for the period 2004-2005 is reproduced below.

The calculation of the threshold values of the Agreement on Government Procurement in Nkr has been based on the average daily exchange rates of SDR to Nkr and EURO to Nkr over 24 months from September 2001 through August 2003.

The thresholds are effective from 9 February 2004.

Annex 1

	Threshold in GPA in SDR	Threshold in GPA in Nkr
1. Goods and services	130,000	1,187,448
2. Construction services	5,000,000	45,671,141

Annex 2

	Threshold in GPA in SDR	Threshold in GPA in Nkr
1. Goods and services	200,000	1,826,846
2. Construction services	5,000,000	45,671,141

Annex 3

	Threshold in GPA in SDR	Threshold in GPA in Nkr
1. Goods and services	400,000	3,653,692

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2004-2005

UNITED STATES

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2004-2005.

The information notified by the United States is reproduced below.

In pursuance of the agreed procedures (GPA/1, Annex 3), the United States notifies the Committee on Government Procurement of the US thresholds for the period 2004-2005. These thresholds are effective via a Federal Register notice published 19 December 2003 (68 Fed. Reg. 70861).

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US Dollars
1. Goods and services	130,000	175,000
2. Construction services	5,000,000	6,725,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US Dollars
1. Goods and services	355,000	477,000
2. Construction services	5,000,000	6,725,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US Dollars
1. Goods and services (except entities identified in Annex 3 to which the threshold of US\$250,000 applies)	400,000	538,000
2. Construction services	5,000,000	6,725,000

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2004-2005**

CANADA

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2004-2005.

The information notified by Canada is reproduced below.

Pursuant to the agreed procedures (GPA/1, Annex 3), Canada submits its notification of threshold figures in the national currency for the period 1 January 2004 to 31 December 2005 for Annex 1 of Appendix I of the Agreement on Government Procurement. This information was also published on 3 December 2003 in Contracting Policy Notice 2003-6 on the Treasury Board Canada Secretariat website at <http://www.tbs-sct.gc.ca/>.

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Canadian Dollars
Goods	130,000	261,300
Services	130,000	261,300
Construction	5,000,000	10,000,000

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2004-2005**

HONG KONG, CHINA

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2004-2005.

The information notified by Hong Kong, China is reproduced below.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Hong Kong Dollars
1. Goods and services other than construction services	130,000	1,351,000
2. Construction services	5,000,000	51,951,000

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in Hong Kong Dollars
1. Goods and services other than construction services	400,000	4,156,000
2. Construction services	5,000,000	51,951,000

2. Method of calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollars (HKD) over 24 months from November 2001 to October 2003.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
November 2001	9.89266	30	296.77980
December 2001	9.84739	31	305.26909
January 2002	9.76918	31	302.84458
February 2002	9.70819	28	271.82932
March 2002	9.74945	31	302.23295
April 2002	9.80108	30	294.03240
May 2002	9.96041	31	308.77271
June 2002	10.14424	30	304.32720
July 2002	10.37548	31	321.63988
August 2002	10.30638	31	319.49778
September 2002	10.30778	30	309.23340
October 2002	10.27635	31	318.56685
November 2002	10.38125	30	311.43750
December 2002	10.44987	31	323.94597
January 2003	10.64860	31	330.10660
February 2003	10.68814	28	299.26792
March 2003	10.68388	31	331.20028
April 2003	10.67753	30	320.32590
May 2003	10.96336	31	339.86416
June 2003	11.03284	30	330.98520
July 2003	10.90418	31	338.02958
August 2003	10.80000	31	334.80000
September 2003	10.87090	30	326.12700
October 2003	11.08790	31	343.72490
TOTAL		730	7,584.84097

HKD equivalent of SDR for the 24-month period preceding November 2003:

$$7,584.84097 \div 730 = 10.39019311$$

$$\text{that is, 1 SDR} = \text{HKD } 10.39019$$

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2004-2005**

SINGAPORE

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2004-2005.

The information notified by Singapore is reproduced below. Other submissions will be compiled in addenda to this document.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded)
1. Goods and services other than construction services	130,000	307,200
2. Construction services	5,000,000	11,817,000

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded)
1. Goods and services other than construction services	400,000	945,300
2. Construction services	5,000,000	11,817,000

2. Method of calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Singapore Dollars over 24 months from October 2001 to September 2003.

Month	Exchange Rate of Singapore Dollars to 1 SDR	Month	Exchange Rate of Singapore Dollars to 1 SDR
October 2001	2.3305	October 2002	2.3337
November 2001	2.3179	November 2002	2.3402
December 2001	2.3262	December 2002	2.3608
January 2002	2.2754	January 2003	2.3920
February 2002	2.2777	February 2003	2.3821
March 2002	2.2972	March 2003	2.4255
April 2002	2.2936	April 2003	2.4552
May 2002	2.3044	May 2003	2.4563
June 2002	2.3476	June 2003	2.4608
July 2002	2.3324	July 2003	2.4495
August 2002	2.3211	August 2003	2.4202
September 2002	2.3504	September 2003	2.4714

Source: International Financial Statistics, IMF

The average exchange rate of SDR to Singapore Dollars is:

Singapore Dollar 56.7221 / 24 months = Singapore Dollar 2.3634

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2003-2004**

REPUBLIC OF KOREA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2003-2004.

The information notified by the Republic of Korea is reproduced below. Other submissions will be compiled in addenda to this document.

1. Calculation of threshold figures in national currency

Classification		Threshold Value (SDR)	Threshold Value in National Currency (Won)
Annex 1 Entities	Supplies and services	130,000	210,000,000
	Construction services	5,000,000	8,100,000,000
Annex 2 Entities	Supplies and services	200,000	320,000,000
	Construction services	15,000,000	24,400,000,000
Annex 3 Entities	Supplies	450,000	730,000,000
	Construction services	15,000,000	24,400,000,000

2. Method of calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 2000 to October 2002. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" was used for this calculation.

KOREA'S THRESHOLD CALCULATIONS IN ITS NATIONAL CURRENCY – FOR THE PERIOD 1 JANUARY 2001 TO 31 DECEMBER 2002

	Annex 1	Annex 2	Annex 3
Supplies	130,000 SDR 2000,000,000 WON	200,000 SDR 310,000,000 WON	450,000 SDR 700,000,000 WON
Services	130,000 SDR 2000,000,000 WON	200,000 SDR 310,000,000 WON	
Construction Services	5,000,000 SDR 7,800,000,000 WON	15,000,000 SDR 23,500,000,000 WON	15,000,000 SDR 23,500,000,000 WON

Method of calculation

It is the average of the monthly rate of the national currency in terms of the SDR over the two-year period from November 1998 to October 2000. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" were used for this calculation.

THE THRESHOLDS IN APPENDICES I AND II OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2001

SWITZERLAND

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the year 2001.

The information notified by Switzerland is reproduced below.

THRESHOLD¹ CALCULATIONS – FOR THE YEAR 2001

Annex 1

	SDRs	Converted to Sw F
Goods	130,000	248,950
Services	130,000	248,950
Construction	5,000,000	9,575,000

Annex 2

	SDRs	Converted to Sw F
Goods	200,000	383,000
Services	200,000	383,000
Construction	5,000,000	9,575,000

Annex 3

	SDRs	Converted to Sw F
Goods	400,000	766,000
Services	400,000	766,000
Construction	5,000,000	9,575,000

¹ SDR 1.0 = Sw F (Swiss francs) 2.097. The average monthly SDR to Sw F for 24 months from October 1998 through September 2000 was Sw F 2.097. This calculation is based on data published by the Swiss National Bank. The result is an increase of about 9.5 per cent (from Sw F 1.915 in 1993/94). Despite having the factual basis to do so, Switzerland considers not to increase its thresholds in Sw F for the time being. The value of the thresholds in Sw F has been expressed without value-added tax (VAT) because Switzerland excludes VAT when calculating the value of contracts.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

ISRAEL

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Israel is reproduced below.

1. Calculation of threshold figures in US\$

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	130,000	177,000
Services	130,000	177,000
Construction	8,500,000	11,560,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	250,000	340,000
Services	250,000	340,000
Construction	8,500,000	11,560,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	355,000	483,000
Services	355,000	483,000
Construction	8,500,000	11,560,000

2. Method of calculation

The calculation of the thresholds of the WTO Agreement, expressed in US\$ has been based on the average monthly SDR to US\$ exchange rate over 24 months from September 1997 through August 1999 (1 SDR = 1.36 US\$).

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000

NORWAY

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the year 2000.

The information notified by Norway is reproduced below.

THRESHOLD CALCULATIONS – FOR THE YEAR 2000

The calculation of the threshold values of the WTO Agreement in Nkr has been based on the average daily exchange rates for SDR to Nkr and EURO to Nkr over 24 months from September 1998 through August 2000. The average exchange rates are:

1 SDR = Nkr 10,9067

1 ECU = Nkr 8,3335

These exchange rates give the following threshold values:

	Annex 1 Entities	Annex 2 Entities	Annex 3 Entities	Works all entities
Threshold in GPA in SDR	130,000	200,000	400,000	5,000,000
Threshold in GPA in Nkr	1,417,871	2,181,340	4,362,680	54,533,500
Threshold in EEA in EURO	200,000	200,000	400,000	5,000,000
Threshold in EEA in Nkr	1,666,700	1,666,700	3,333,400	41,667,500
Threshold in Norway in Nkr	1,400,000	1,600,000	3,300,000	41,000,000

./.

The value of SDR in Nkr has on average been higher than the value of EURO in Nkr in the 24 months on which the calculation is based. This gives a higher GPA threshold compared to the EEA/EU thresholds, except for Annex 1 entities. In order to comply with both the WTO Agreement on Government Procurement and the EEA Agreement with a single set of threshold values, Norway has determined to set a rounded threshold based on the lowest threshold values for Annex 2 and Annex 3 entities and for works contracts.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

HONG KONG, CHINA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Hong Kong, China is reproduced below. Other submissions will be compiled in addenda to this document.

1. Calculation of threshold figures in national currency

Annex 1 Entities		Threshold Value (SDR)	Threshold Value in HK Dollar
1.	Goods and services other than construction services	130,000	1,371,000
2.	Construction services	5,000,000	52,741,000

Annex 2 Entities		Threshold Value (SDR)	Threshold Value in HK Dollar
1.	Goods and services other than construction services	200,000	2,110,000
2.	Construction services	5,000,000	52,741,000

Annex 3 Entities		Threshold Value (SDR)	Threshold Value in HK Dollar
1.	Goods and services other than construction services	400,000	4,219,000
2.	Construction services	5,000,000	52,741,000

2. Method of calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollar over 24 months from November 1997 to October 1999.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
November 1997	10.62612	30	318.78360
December 1997	10.48685	31	325.09235
January 1998	10.39844	31	322.35164
February 1998	10.44993	28	292.59804
March 1998	10.41233	31	322.78223
April 1998	10.40799	30	312.23970
May 1998	10.41318	31	322.80858
June 1998	10.33101	30	309.93030
July 1998	10.30931	31	319.58861
August 1998	10.27787	31	318.61397
September 1998	10.57182	30	317.15460
October 1998	10.89110	31	337.62410
November 1998	10.77702	30	323.31060
December 1998	10.85957	31	336.64667
January 1999	10.88182	31	337.33642
February 1999	10.69828	28	299.55184
March 1999	10.55789	31	327.29459
April 1999	10.49738	30	314.92140
May 1999	10.45641	31	324.14871
June 1999	10.39209	30	311.76270
July 1999	10.39370	31	322.20470
August 1999	10.58861	31	328.24691
September 1999	10.68684	30	320.60520
October 1999	10.79178	31	334.54518
TOTAL		730	7700.14264

HKD equivalent of SDR for the 24-month period preceding November 1999:

$$7700.14264 \div 730 = 10.54814060$$

that is, 1 SDR = HKD 10.54814

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 1997/1998**

REPUBLIC OF KOREA

Revision

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective thresholds expressed in national currencies and fixed for two years.

The information notified in response by the Republic of Korea is reproduced below.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	130,000	151,000,000
2. Construction services	5,000,000	5,830,000,000

Annex 2 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	200,000	233,000,000
2. Construction services	15,000,000	17,490,000,000

Annex 3 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies	450,000	524,000,000
2. Construction services	15,000,000	17,490,000,000

2. Method of calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 1994 to October 1996. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" was used for this calculation. The example of this calculation is attached.

3. Example of calculation

Period	Exchange rate (Unit: won/SDR)	Period	Exchange rate (Unit: won/SDR)
November 1994	1,157.1	November 1995	1,143.1
December 1994	1,151.4	December 1995	1,151.6
January 1995	1,161.7	January 1996	1,138.6
February 1995	1,174.6	February 1996	1,146.6
March 1995	1,203.9	March 1996	1,143.7
April 1995	1,198.3	April 1996	1,129.2
May 1995	1,197.8	May 1996	1,136.3
June 1995	1,189.3	June 1996	1,170.0
July 1995	1,179.8	July 1996	1,191.9
August 1995	1,150.9	August 1996	1,194.4
September 1995	1,157.5	September 1996	1,182.0
October 1995	1,144.1	October 1996	1,200.4

- The exchange rates are quoted from the IFS. It is the rate at the end of each month.
 - Example of calculation:
 - The average exchange rate of won in terms of SDR

$$27,994.2 \text{ won}/24 \text{ months} = 1,166.425 \text{ won}$$

$$130,000 \text{ (SDR)} * 1,166.425 \text{ won} = 151,635,250 \text{ won}$$
 - The final conversion rate: 151,000,000 won
- (*The figures under million won are deleted for simplicity of implementation.)

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1999/2000

KOREA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1999-2000.

The information notified by Korea is reproduced below. Other submissions will be compiled in addenda to this document.

THRESHOLD FIGURE IN NATIONAL CURRENCY (WON)

1. Result of classification

Classification		Threshold Value (SDR)	Threshold Value in National Currency (WON)
Entities in Annex 1	Supplies and services	130,000	200,000,000
	Construction services	5,000,000	7,800,000,000
Entities in Annex 2	Supplies and services	200,000	310,000,000
	Construction services	15,000,000	23,400,000,000
Entities in Annex 3	Supplies	450,000	700,000,000
	Construction services	15,000,000	23,400,000,000

2. Method of calculation

It is the average of the monthly rate of the national currency in terms of the SDR over the two-year period from November 1996 to October 1998. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" were used for this calculation. An example of this calculation is to be found below.

3. Example of calculation

Time	Exchange rate (Unit: WON/SDR)	Time	Exchange rate (Unit: WON/SDR)
November 1996	1,197.16	November 1997	1,584.91
December 1996	1,213.93	December 1997	2,286.98
January 1997	1,201.22	January 1998	2,051.67
February 1997	1,196.45	February 1998	2,204.93
March 1997	1,244.18	March 1998	1,847.54
April 1997	1,218.19	April 1998	1,799.14
May 1997	1,241.20	May 1998	1,878.85
June 1997	1,232.81	June 1998	1,828.20
July 1997	1,211.89	July 1998	1,635.27
August 1997	1,229.95	August 1998	1,812.00
September 1997	1,248.89	September 1998	1,883.65
October 1997	1,335.33	October 1998	1,857.61

- The exchange rates are quoted from the IFS. It is the rate at the end of each month.
 - Example of calculation:
 - The average exchange rate of won in terms of SDR
$$37,441.95 \text{ won}/24 \text{ months} = 1,560.08 \text{ won}$$
$$130,000 \text{ (SDR)} * 1,560.08 \text{ won} = 202,810,400 \text{ won}$$
 - The final conversion rate: 200,000,000 won
- (*The figures under one million won are deleted for simplicity of implementation.)

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 1997/1998**

REPUBLIC OF KOREA

Revision

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective thresholds expressed in national currencies and fixed for two years.

The information notified in response by the Republic of Korea is reproduced below.

1. Calculation of threshold figures in national currency

1. Supplies and services	450,000	524,000,000
2. Construction services	15,000,000	17,490,000,000

2. Method of calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 1994 to October 1996. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" was used for this calculation. The example of this calculation is attached.

3. Example of calculation

Period	Exchange rate (Unit: won/SDR)	Period	Exchange rate (Unit: won/SDR)
November 1994	1,157.1	November 1995	1,143.1
December 1994	1,151.4	December 1995	1,151.6
January 1995	1,161.7	January 1996	1,138.6
February 1995	1,174.6	February 1996	1,146.6
March 1995	1,203.9	March 1996	1,143.7
April 1995	1,198.3	April 1996	1,129.2
May 1995	1,197.8	May 1996	1,136.3
June 1995	1,189.3	June 1996	1,170.0
July 1995	1,179.8	July 1996	1,191.9
August 1995	1,150.9	August 1996	1,194.4
September 1995	1,157.5	September 1996	1,182.0
October 1995	1,144.1	October 1996	1,200.4

- The exchange rates are quoted from the IFS. It is the rate at the end of each month.
 - Example of calculation:
 - The average exchange rate of won in terms of SDR

$$27,994.2 \text{ won}/24 \text{ months} = 1,166.425 \text{ won}$$

$$130,000 \text{ (SDR)} * 1,166.425 \text{ won} = 151,635,250 \text{ won}$$
 - The final conversion rate: 151,000,000 won
- (*The figures under million won are deleted for simplicity of implementation.)

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

ISRAEL

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Israel is reproduced below.

1. Calculation of threshold figures in US\$

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	130,000	186,000
Services	130,000	186,000
Construction	8,500,000	12,189,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	250,000	358,000
Services	250,000	358,000
Construction	8,500,000	12,189,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	355,000	509,000
Services	355,000	509,000
Construction	8,500,000	12,189,000

2. Method of calculation

The calculation of the thresholds of the WTO Agreement, expressed in US\$ has been based on the average monthly SDR to US\$ exchange rate over 24 months from September 1995 through August 1997 (1 SDR = 1.434 US\$).

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

NORWAY

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Norway is reproduced below.

The calculation of the threshold values of the WTO Agreement in NOK has been based on the average daily exchange rates for SDR to ECU and ECU to NOK over 24 months from September 1995 through August 1997. The average exchange rates are:

1 SDR = 1.03011 ECU
1 ECU = 8.14790 NOK
thus, 1 SDR = 8.39322 NOK

These exchange rates give the following threshold values:

	Supplies and Services Annex 1 entities	Supplies and services Annex 2 entities	Supplies and services Annex 3 entities	Works All entities
Threshold in GPA in SDR	130,000	200,000	400,000	5,000,000
Threshold in GPA in NOK	1,091,118	1,678,643	3,357,286	41,966,072
Threshold in EEA in ECU	200,000	200,000	400,000	5,000,000
Threshold in EEA in NOK	1,629,580	1,629,580	3,259,160	40,739,500
Threshold in Norway in NOK	1,000,000	1,600,000	3,200,000	40,000,000

The value of SDR in NOK has on average been higher than the value of ECU in NOK in the 24 months on which the calculation is based, making the GPA threshold higher than the thresholds for the EEA/EU; except for Annex 1 entities, which have a comparably lower threshold by the GPA than by EEA. In order to comply with both the WTO-GPA and the EEA Agreement with a single set of threshold values, Norway has determined to set rounded thresholds based on the lowest threshold values for Annex 2 and Annex 3 entities and for works contracts.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

Singapore

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Singapore is reproduced below.

1. Calculation of Threshold Figures in National Currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded up)
1. Goods and services other than construction services	130,000	264,900
2. Construction services	5,000,000	10,188,500

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded up)
1. Goods and services other than construction services	400,000	815,100
2. Construction services	5,000,000	10,188,500

2. Method of Calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Singapore Dollars over 24 months from October 1995 to September 1997.

Month	Exchange Rate of Singapore Dollars to 1 SDR	Month	Exchange Rate of Singapore Dollars to 1 SDR
October 1995	2.1163	October 1996	2.0382
November 1995	2.0990	November 1996	2.0261
December 1995	2.1023	December 1996	2.0129
January 1996	2.0610	January 1997	1.9644
February 1996	2.0738	February 1997	1.9733
March 1996	2.0574	March 1997	2.0042
April 1996	2.0395	April 1997	1.9725
May 1996	2.0331	May 1997	1.9903
June 1996	2.0350	June 1997	1.9850
July 1996	2.0717	July 1997	1.9989
August 1996	2.0514	August 1997	2.0842
September 1996	2.0266	September 1997	2.0881

Pound sterling	104,435	160,670	321,340	4.016.744

¹The calculation of the thresholds of the WTO Agreement, expressed in ECU and in national currencies, has been based on the average monthly SDR to ECU exchange rate over 24 months from September 1995 through August 1997 (1 ECU • 0.859089 SDR).

The value of the thresholds in ECU and in national currencies has been expressed without the value-added tax (VAT) because the Community excludes VAT when calculating the value of contracts.

As regards the impact of the changeover to the Euro on Community policies, it shall be specified that:

- as from 1 January 1999, thresholds expressed in ECU will be expressed in Euros;
- the value of thresholds in national currencies will not change during the reference period.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS
EXPRESSED

IN NATIONAL CURRENCIES FOR 1998/1999

Hong Kong, China

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Hong Kong, China is reproduced below. Other submissions will be compiled in addenda to this document.

1) Calculation of Threshold Figures in National Currency

Annex 1 Entities	Threshold value (SDR)	Threshold value in HK Dollar
1. Goods and services other than construction services	130,000	1,433,000
2. Construction services	5,000,000	55,109,000

Annex 2 Entities	Threshold value (SDR)	Threshold value in HK Dollar
1. Goods and services other than construction	200,000	2,204,000

services		
2. Construction services	5,000,000	55,109,000

Annex 3 Entities	Threshold value (SDR)	Threshold value in HK Dollar
1. Goods and services other than construction services	400,000	4,409,000
2. Construction services	5,000,000	55,109,000

2) Method of Calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollar over 24 months from November 1995 to October 1997.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
November 1995	11.55831	30	346.7493
December 1995	11.48895	31	356.15745
January 1996	11.33689	31	351.44359
February 1996	11.33411	29	328.68919
March 1996	11.30279	31	350.38649
April 1996	11.22103	30	336.6309
May 1996	11.17581	31	346.45011
June 1996	11.16668	30	335.0004
July 1996	11.22289	31	347.90959
August 1996	11.27849	31	349.63319
September 1996	11.19506	30	335.8518
October 1996	11.13161	31	345.07991
November 1996	11.24094	30	337.2282
December 1996	11.12592	31	344.90352
January 1997	10.95726	31	339.67506
February 1997	10.72673	28	300.34844
March 1997	10.67492	31	330.92252
April 1997	10.62654	30	318.7962
May 1997	10.72189	31	332.37859
June 1997	10.76533	30	322.9599

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
July 1997	10.66086	31	330.48666
August 1997	10.48379	31	324.99749
September 1997	10.52769	30	315.8307
October 1997	10.59618	31	328.48158
TOTAL		731	8056.99078

HKD Equivalent of SDR for the 24 months period preceding November 1997:

$$8056.99078/731 \cdot 11.02187521$$

that is,

$$1 \text{ SDR} \cdot \text{HKD } 11.02188$$

Committee on Government ProcurementTHE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSEDIN NATIONAL CURRENCIES FOR 1996/1997Hong Kong, China

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1996-1997.

The information notified by Hong Kong, China is reproduced below.

1) Calculation of Threshold Figures in National Currency

Annex 1 Entities	Threshold value (SDR)	Threshold value in HK Dollar
1. Goods and services other than construction services	130,000	1,474,000
2. Construction services	5,000,000	56,678,000

Annex 2 Entities	Threshold value (SDR)	Threshold value in HK Dollar
1. Goods and services other than construction	200,000	2,267,000

services		
2. Construction services	5,000,000	56,678,000

Annex 3 Entities	Threshold value (SDR)	Threshold value in HK Dollars
1. Goods and services other than construction services	400,000	4,534,000
2. Construction services	5,000,000	56,678,000

2) Method of Calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollar over 24 months from November 1993 to October 1995.

Month	Exchange rate of HKD to SDR	Month	Exchange rate of HKD to SDR
November 1993	10.73370	November 1994	11.37700
December 1993	10.69354	December 1994	11.23536
January 1994	10.60903	January 1995	11.35223
February 1994	10.72622	February 1995	11.42914
March 1994	10.83267	March 1995	11.87715
April 1994	10.84973	April 1995	12.18996
May 1994	10.93143	May 1995	12.04796
June 1994	11.03316	June 1995	12.09522
July 1994	11.25841	July 1995	12.05310
August 1994	11.23786	August 1995	11.69739
September 1994	11.31104	September 1995	11.48186
October 1994	11.41540	October 1995	11.58648

The average exchange rate of HKD to SDR is: HK\$272.05504/24 months • HK\$11.33563.

Committee on Government ProcurementTHE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSEDIN NATIONAL CURRENCIES FOR 1996/1997Republic of Korea

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1996-1997.

The information notified in response by the Republic of Korea is reproduced below.

1) Calculation of Threshold Figures in National Currency

Annex 1 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	130,000	151,000,000
2. Construction services	5,000,000	5,830,000,000

Annex 2 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	200,000	233,000,000
2. Construction services	15,000,000	17,490,000,000

Annex 3 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	450,000	524,000,000
2. Construction services	15,000,000	17,490,000,000

2) Method of Calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 1994 to October 1996. The conversion rates published by the IMF in its monthly •International Fiscal Statistics• was used for this calculation. The example of this calculation is attached.

3) Example of Calculation

Period	Exchange rate (Unit: won/SDR)	Period	Exchange rate (Unit: won/SDR)
November 1994	1,157.1	November 1995	1,143.1
December 1994	1,151.4	December 1995	1,151.6
January 1995	1,161.7	January 1996	1,138.6
February 1995	1,174.6	February 1996	1,146.6
March 1995	1,203.9	March 1996	1,143.7
April 1995	1,198.3	April 1996	1,129.2
May 1995	1,197.8	May 1996	1,136.3
June 1995	1,189.3	June 1996	1,170.0
July 1995	1,179.8	July 1996	1,191.9
August 1995	1,150.9	August 1996	1,194.4
September 1995	1,157.5	September 1996	1,182.0
October 1995	1,144.1	October 1996	1,200.4

-The exchange rates are quoted from the IFS. It is the rate at the end of each month.

-Example of calculation:

-The average exchange rate of won in terms of SDR

27,994.2 won/24 months • 1,166.425 won

130,000 (SDR) * 1,166.425 won • 151,635,250 won

-The final conversion rate: 151,000,000 won

(*The figures under million won are deleted for simplicity of implementation.)

NORWAY

Threshold calculations - for period 1996-1997.

The calculation of the thresholds of the WTO Agreement in Norwegian crowns (NOK) has been based on the average daily SDR to ECU and ECU to NOK exchange rates over 24 months from September 1993 through August 1995.

The Norwegian GPA threshold values are calculated in the following way; the SDR threshold values are multiplied with the exchange rate between ECU and SDR in the two-year period (1.2013) and then multiplied with 0.87 (1-13 per cent VAT) again multiplied with the exchange rate between Norwegian crowns and ECU (8.3075) in the same time period. The value of the thresholds is expressed net of value-added tax (VAT) because the threshold values are expressed net of VAT in Norway.

ANNEX 1

	SDR	NOK	Rounded Thresholds NOK
1. Supplies and services	130,000	1,128,715	1,100,000
2. Construction	5,000,000	43,412,129	41,500,000

ANNEX 2

	SDR	NOK	Rounded Thresholds NOK
1. Supplies and services	200,000	1,736,485	1,650,000
2. Construction	5,000,000	43,412,129	41,500,000

ANNEX 3

	SDR	NOK	Rounded Thresholds NOK
1. Supplies and services	400,000	3,472,970	3,300,000
2. Construction	5,000,000	43,412,129	41,500,000

Norway is bound, under the terms of the Agreement on the European Economic Area (EEA), by the thresholds for public procurement in this Agreement, which are expressed in ECU. The thresholds under the EEA Agreement are ECU 200,000, ECU 400,000 and ECU 5,000,000. The thresholds according to the EEA Agreement for the period 1996 and 1997 are as follows:

$$\text{ECU } 200,000 * 8.3075 = \text{NOK } 1,661,500$$

$$\text{ECU } 400,000 * 8.3075 = \text{NOK } 3,323,000$$

$$\text{ECU } 5,000,000 * 8.3075 = \text{NOK } 41,537,500$$

The value of the SDR has been higher than the value of the ECU in the 24-month calculation period, making the SDR thresholds higher than the ECU-based thresholds. In order to comply with both the WTO Government Procurement Agreement and the EEA Agreement, Norway has determined to set rounded thresholds based on the lowest values for Annex 2 and 3 entities and for the construction threshold. Hence the Norwegian threshold values for the period 1996 and 1997 are the following:

SDR	130,000	200,000	400,000	5,000,000
NOK	1,100,000	1,650,000	3,300,000	41,500,000

APPLICATION FOR ACCESSION OF ALBANIA TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

Addendum

The following communication, dated 21 March 2002, has been received from the Permanent Mission of Albania with the request that it be circulated to the Committee.

Albania is providing to the Committee on Government Procurement the notification of the following national implementing legislation* for review by all Parties:

Law No. 8767, dated 5 April 2001 on some Additions and Changes to the Law No. 7971, dated 26 July 1995

Decision of the Council of Ministers No. 335, dated 23 June 2000 on Public Procurement Regulations

Council of Ministers Guidelines No. 1, dated 1 January 1996 on public procurement

Council of Ministers Guidelines No. 3, dated 19 February 1996 on Small Value Purchases

* In English only

**REPUBLIC OF ALBANIA
PARLIAMENT**

**Law No. 8767 dated 05.04.2001 on some additions and changes on the
Law No. 7971, dated 26.07.1995 “On public procurement”, changed by
the Laws No. 8039 dated 23.11.1995, No. 8074 dated 22.02.1996 and
Law No. 8112 dated 28.03.1996**

In Accordance with Articles 78 and 83 para.1 of the Constitution, and with proposal of the Council of the Ministers,

**THE PARLIAMENT
OF THE REPUBLIC OF ALBANIA**

DECIDED:

In the law No. 7971 dated 26.07.1995 “On Public Procurement”, changed by the laws No. 8039 dated 23.11.1995, No. 8074 dated 22.02.1996 and law No. 8112 dated 28.03.1996, are made these additions and changes:

Article 1

Article 1 is amended as follows:

Article 1

This law determines the regulations on procurement of goods, constructions and services and aims:

- (a) To promote an efficient and economic use of public funds by procurement entities;
- (b) To encourage the participation of candidates in the public procurement procedures;
- (c) To promote competition between candidates in procurement for the supply of goods, construction and services;
- (d) To ensure fair, equal and non-discriminatory treatment of all candidates participating in the procurement;
- (e) To ensure fairness, public trust and transparency in public procurement.

Article 2

In Article 2 the last paragraph is changed as follows:

“Public funds” means the following funding resources:

- (a) Every monetary value originated from the state budget allocated for use in public procurement;
- (b) Every monetary value originated from the local government allocated for use in public procurement;
- (c) Funds granted in the form of an aid or credit by foreign donors under international agreements, unless they require compliance with procedures other than those of this Law;
- (ç) The revenues from state-owned companies, enterprises depended on municipalities and commercial companies where the state owns the majority of the capital.

After the last paragraph the following paragraphs are added:

“Suspension” means discontinuation of the procurement procedure by head of the procurement entity, by central or local body, or by the Agency of Public Procurement, as the result of the administrative complaint.

“Re-evaluation” means re-examination and correction of the imperfections pointed out by the head of the procurement entity, by central or local body, or by the Agency of Public Procurement, in a procurement procedure.

“Annulment” means repetition from the beginning of a procurement procedure, as the result of the breaching of the procurement regulation pointed out by central or local body, or by the Agency of Public Procurement.

Article 3

After paragraph 2 of the Article 5 is added the paragraph 3 in the following content:

3. In the beginning of every year, according to the deadlines determined in the public procurement regulations, the procurement entity sends to the Agency of Public Procurement annual planing of the intended procurements to be published in the Bulletin of Public Procurement.

Article 4

After paragraph 3 of the Article 7 is added paragraph 4 in the following content:

4. The procurement entity is obliged to establish the procurement unit within the structure of the entity. The tasks of the procurement unit are defined in the Guidelines of the Council of the Ministers.

Article 5

In the Article 8 are made these changes:

In the paragraph “c” of the point 2 is added the sentence in the following content:

“In the beginning of every year, the Agency of Public Procurement publishes in the Bulletin of Public Procurement the list of suppliers which are excluded form the participation in the public procurement procedures, according to the Article 12 paragraphs 5 and 7 of this law.

After letter “g” of the item 2 is are added the paragraphs “gj” and “h” in the following content:

(gj) establishes a system of public procurement procedures performed. These data are received from central and local public procurement entities.

(h) encourages and promotes the use of international technical standards for the preparation of technical specifications and keep constant relations and contacts with the General Directorate for Standardization.

Article 6

In the Article 12 are made these amendments and changes:

In the paragraph 5, in the before last sentence, the words “up to 1 year” are changed “from 1 up to 3 years”.

After paragraph 6 is added paragraph 7 containing as follows:

7. When the Agency of Public Procurement, regards that disqualification of candidates is done in conformity with Article 12 paragraph 5, or when the Agency regards that the bidder presents a document that contains a false information, it takes the decision for exclusion of this bidder from the public procurement procedures for a period from 1 year up to 3 years. The decision of the Agency is communicated to all procurement entities through publication of the decision in the Bulletin of Public Procurement.

Article 7

In the Article 16 are made these changes and amendments:

1. The title of the article is changed as follows:
“Corruptive Actions”

2. After the existed paragraph is added an paragraph in the following content:

Any sum of money given to or taken as a stimulus for an act, decision or procurement procedure by the officials of the procurement entity or officials of other bodies that the entity depends on is called corruptive action. When this action does not constitute a penal act is considered an administrative violation and is penalized according to the provisions of this law.

Article 8

Article 17 is amended as follows:

Paragraph 3 is amended as follows:

3. In exceptional circumstances of a force major or emergency, the Council of Ministers may permit the use of a procurement procedure other than open tender, in situations foreseen in Articles 18, 19, 20, 21 and 22.

The permitting of a procurement procedure must be accompanied with these documents:

- (a) A request by procurement entity related with the use of the selected procurement procedure, along with the relevant arguments in favor of its choice;
- (b) Motivation of the procurement entity in the selection of the candidate(s) to participate in public procurement procedure;
- (c) Data confirming registration in the court of the candidate(s) to participate in procurement procedure, their activity, seriousness and credibility;
- (d) Data on the determination of the threshold fund and work volume for constructions.

After paragraph 4 is added paragraph 5 with the following content:

5. For the big public objects, the construction works of which spends a time period that pass next calendar year, the procurement entity procures the funds for the constructions and their supervision, as per total value of the objects. The total value of every object procured, the construction of which expires the time period of one calendar year, will be obligatorily included in the budget of the next year, for continuation and finalizing of their works.

Article 9

In the Article 19 are made these changes and amendments:

The paragraph “a” of point 1 is amended as follows:

(a) When in absence of the competition for technical reasons the goods, construction works and services are provided only by one candidate, or when a supplier or contractor has the exclusive rights for goods, construction works or services and it does not exist any other possibility for substitution;

The paragraph “b” of point 1 is amended as follows:

(b) According to the restrictions previewed in the procurement rules, for supplementary delivery of goods and services by the previous supplier, which are done either as substitution or as a supplement of goods, or existed services. In this cases, a change of the supplier would oblige the procurement entity to procure goods or services, which will not meet the requirements of conformity with goods and existed services.

After paragraph “e” of point 1 are added these paragraphs:

(ë) The procurement entity will use the direct procurement procedure foreseen

in the paragraphs a), b), c) ç) of the paragraph 1, only after obtaining the approval by the Agency of Public Procurement.

(f) In the cases of emergent necessity for goods, services and construction works, those not foreseen in the annual planing of intended procurement, and where this emergent necessity is caused by circumstances that are out of control of the procurement entity. The procurement entity will use direct procurement procedure after obtaining the approval by the Agency of Public Procurement.

Point 2 is changed as follows:

2. The procurement entity can use also direct procurement for the procurement in small values, when the calculated value is less than monetary limit defined in regulations on public procurement.

Article 10

The paragraph 1 of Article 25 is changed as follows:

1. The invitation to tender shall be addressed to all candidates that in a written form are interested in participating in a procurement procedure. The invitation to tender is published in the Public Procurement Bulletin and at least in two national newspapers of general circulation.

Article 11

The first sentence of the paragraph 1 of Article 29 is changed as follows:

The procurement entity must determines in the tender documentation the condition of bid security in the form of bank guarantee or a guarantee issued by insurance companies, licensed by the state.

Article 12

Paragraph 1 of Article 31 is changed as follows:

The procurement entity shall open all offers in the date and the time determined in the bid documentation, which comes immediately after last deadline of their acceptance.

Article 13

In the Article 32 are made these changes:

- The first sentence of paragraph 1 is changed as follows:

When it deems appropriate, the procurement entity may requests clarifications from bidders on their offers, aiming that the examination and the evaluation of the offers to be fair and transparent.

- In the paragraph 4, in first line, the words “may consider” will be substitute with the words “considers”.
- Paragraph 7/b is changed as follows:

7.b) The offer that, on the basis of the requirements and criteria set forth in the bid’ documents, meets the criteria and specific conditions of the procurement object with the best economic value. The best economic value is evaluated on the basis of factors specified in the bid documents which to the extend practicable shall be objective and clearly quantifiable. These factors shall be given relative weight in the evaluation procedure or be expressed in monetary terms.

Article 14

After the paragraph 3 of the article 35 are added these paragraphs:

4. Within 30 days of the signing of the contract, the procurement entity must publish the procurement contract award in the Public Procurement Bulletin. The procurement contract is deemed concluded, when it is signed by the procurement entity and by the winner bidder.
5. The Civil Code provisions are applicable for a contract of public procurement.
6. The procurement entity or the body, which puts into disposal the funds after the awarding of the contract, supervises the fulfilment of the obligations of the contract.
7. The procurement procedure ends, when all the contract obligations of the parties are fulfilled.

Article 15

In the article 36 are made these changes and additions:

-The paragraph “b” is changed as follows:

- (b) the procurement entity, which has updated lists regularly, but at least twice per year, must choose the bidders from these lists, and must accept offers from those bidders whose want to participate in the procurement procedure, giving to all of them equal possibilities in the competition”,

-After the paragraph “ç” is added the paragraph “d” with this content:

- (d) the procurement entity must take prior approval by the Public Procurement Agency, for the organizing of the procurement procedures with less than 3 offers.”

Article 16

The point 3 of the Article 39 is changed like this:

3. The procurement entity can negotiate with the winner bidder for the content of his proposal and can ask or can allow the re-examination of this proposal.

Article 17

The point 1 of the article 40 is changed as follows:

1. The procurement entity should request quotations from as much suppliers as it can, to obtain not less than 3 offers. In case of obtaining less than 3 offers, the procurement entity must take prior approval of the Public Procurement Agency to continue or not this procedure.

Article 18

The point 1 of the article 41 is changed like follows:

1. The procurement entity must use the procedure “Open International Tendering”, when the calculated value of the fund is over a monetary limit defined in the procurement regulations or of the limit funds under this monetary value, where the useful competition can not be assured in the open tendering for the procurement of goods, for the constructions and for the services, without the participation of the foreign physical or juridical persons.

Article 19

Paragraph 1 of Article 45 is changed as follows:

1. Upon receipt of a complaint by a bidder participant in the public procurement, the Public Procurement Agency, unless it refuses the complaint, shall promptly notify the procuring entity to suspend further action of procurement procedure. The Agency orders the entity to submit to the Public Procurement Agency, within five days from the date of receipt of this notice, all documents relating to the relevant procurement procedure.

Article 20

Article 46 is amended as follows:

1. In case breaches of the provisions of this Law and of procurement regulations, the Public Procurement Agency has the right to:
 - (a) propose to the central or local body to penalize the responsible persons of the procuring entity who have made the administrative violation;
 - (b) penalize for administrative violation the responsible persons with a fine from 50 thousand to 1million Lek. A complaint may be lodged against the penalizing decision to the court of district of the procuring entity within 5 days after the notification.
2. If the head of the central or local body and the head of the procurement entity ascertain breaches of this Law and of public procurement regulations, they have the right to:

- (a) penalize responsible persons of the procuring entity for administrative violation with a fine from 50 thousand Lek to 100 thousand Lek. A complaint may be lodged against the penalizing decision to the Public Procurement Agency that review the complaint within 30 days from the date its submission;
 - (b) order dismissal from task of persons responsible for administrative violation.
3. The collection of the fines is made in the base of the Law nr.7697, date 7.4.1993 “On Administrative Violations”.
4. The fines foreseen in this article, for the same violation is applied only once.

Article 21

This Law enters into force 15 days following its publication in the Official Journal.

REPUBLIC OF ALBANIA
Council of Ministers

DECISION

No. 335 dated 23.06.2000

ON PUBLIC PROCUREMENT REGULATIONS

In implementation of Article 100 of the Constitution, and Article 8, paragraph 2/a, of the Law no.7971, date 26.07.1995 *On Public Procurement*, on proposal by the Deputy Prime Minister and Minister of Labor and Social Affairs, the Council of Ministers,

D E C I D E D

1. A procuring entity shall use "open tendering", according to Article 23 of the Law no. 7971, dated 26.07.1995, *On Public Procurement*, when the estimated value of the contract is over 5 (five) million Lek for the procurement of construction, over 3 (three) million Lek for the procurement of goods and over 1 (one) million Lek for the procurement of services, with the exception of design services.

2. A procuring entity shall use "limited tendering", according to paragraph "b", Article 18, and Article 36 of the said Law, when the estimated value of the contract is less than 5 (five) million Lek for the procurement of construction, less than 3 (three) million Lek for the procurement of goods and less than 1 (one) million Lek for the procurement of services, with the exception of design services, where reference shall be made to the value envisaged for the procurement of the construction and not that of service.

In this case the procuring entity shall obtain tenders by no less than 3 (three) candidates. In the case of an international tendering, the procuring entity shall obtain at least 3 (three) tenders from no less than 3 (three) different countries.

3. procuring entity shall use "request for quotation", according to Articles 22 and 40 of the said Law, when the estimated value of the contract is less than 2 (two) million Lek for the procurement of construction, 1 (one) million Lek for the procurement of goods and 500,000 (five hundred thousand) Lek for the procurement of services.

4. A procuring entity shall use "direct procurement", according to Article 19 of the said Law:

- (a) Point 1/b/c/ç, for a value of less than 30 per cent of initial contract, when the need for this addition arises before the testing of construction and within 3 months from the expiry of the contract term for goods and services.
- (b) Point 2, for goods of smaller value, such as readily available goods, when the estimated purchase price of each item is less than 200,000 (two hundred thousand) Lek, within a calendar year.
- (c) In respect of the Directory of Governmental Services, when the estimated purchase value of each item is less than 600,000 (six hundred thousand) Lek, within a calendar year.

5. The period from the announcement of invitation to tender to the day of the submission of tenders shall be:

- (a) In the case of "open tendering", no less than 20 (twenty) days for the procurement of construction, goods and services;
- (b) In the case of "limited tendering", no less than 15 (fifteen) days for the procurement of construction, goods and services;
- (c) In the case of "request for quotation" no less than 10 (ten) days for the procurement of construction, goods and services;
- (d) In the case of international procedures, no less than 45 (forty-five) days.

6. The condition of tender security, in the form of bank guarantee, according to Article 29 of the said Law, shall be 2-5 per cent of the estimated contract value (estimated preliminary by the procuring entity and given in absolute value in the tender data), and the contract security condition shall be 10 per cent of the contract value.

7. Before announcing the winning tender or proposal, the procuring entity shall submit a summarized report on procurements for prior review and approval:

- (a) To the head of the procuring entity, in respect of procurements of less than 5 (five) million Lek;
- (b) To the head of the central or local authority, in respect of procurements of over 5 (five) million Lek;
- (c) To the Public Procurement Agency in respect of procurements of over 100 (a hundred) million Lek.

8. The successful bidder must declare to the procuring entity, through signing the contract form, his/her will to sign the contract within 15 days from the receipt of notification, in respect of open tendering, limited tendering and invitation for quotation, and open or limited international tendering.

In case that within this term the response by the successful bidder is negative, the procuring entity is entitled to notify the second-ranking participant in the classification, of contract award, and effect at the same time forfeiture of the tender security of the winning bidder.

9. The procuring entity is bound to establish a procurement register at the start of each year, where records relating to the observance and application of procurement procedures are entered.

10. All procuring entities shall submit for publication to the Public Procurement Agency the invitation to tender in the open tendering, limited tendering, and request for quotation, not later than 10 days prior to its announcement. In addition, in respect of a tendering which are published in the Public Procurement Bulletin, the procuring entity is bound, prior to contract signing, to make a public notice of the successful tenderer in the Public Procurement Bulletin.

11. Within January 30, the procuring entity shall submit to the Public Procurement Agency accurate statistics on the annual planning of procurements. Furthermore, it shall also submit to the Public Procurement Agency any alterations to the plan of public procurements in the course of the calendar year. At the end of each three-month period and within the tenth day of the following month, the procuring entity shall submit to the Public Procurement Agency an index of fulfilment or not of planned procurements, accompanied with a report of relevant explanations. Whereas, the Public Procurement Agency shall, within the 20th day of the same month submit to the Council of Ministers an overall statement of all procurements in the country.

12. Any candidate is free to seek administrative review of an act or omission by a procuring entity, where the candidate considers to be in breach of this Law or the procurement regulations, within the following deadlines:

- (a) With the procuring entity and central or local authority, within 5 (five) days following announcement of the final classification of tenders;
- (b) With the Public Procurement Agency, 5 (five) days after the expiry of the term for the lodging of any complaints with the procuring entity.

13. In the case when a procurement procedure is subjected to review by the Public Procurement Agency, the procuring entity is bound, within 5 (five) days from the moment this decision is issued, to submit to the Public Procurement Agency, a summary review report.

14. The procuring entity shall record and make available to inspection authorities the procurements register, records and complete documents of any performed procurements. Recording of these documents shall be made in compliance with the terms stated in the Law “*On Archives*”.

15. The Decision no.12, date 01.01. 1996 of the Council of Ministers, *On Public Procurement Regulations* is abrogated.

This Decision is entered into force after its publication in the “Official Journal”

PRIME MINISTER

ILIR META

**REPUBLIC OF ALBANIA
COUNCIL OF MINISTERS**

GUIDELINES

NO. 1 DATED 1.01.1996

ON PUBLIC PROCUREMENT

Pursuant to the proposal of the Agency of Public Procurement, the Council of Ministers,

INSTRUCTS

I. THE PROCURING ENTITY AND THE PROCUREMENT ORDER

1. The Procuring Entity is the central or local body, which has available funds for procurement, when it is making the procurement by itself. In case when the procuring entity delegates in writing the procurement to another juridical person, then the latter bears the rights and responsibilities of the procurement entity.

The head of Procuring Entity, after the allocation of funds, issues the procurement order, in which it defines

- (a) the object to be procured;
- (b) the available funds;
- (c) the procurement procedure;
- (ç) the commission of tender evaluation;
- (d) the group that prepares the tender documents where there is no procuring unit

II. PROCUREMENT PROCEDURES

The procurement procedure to be followed is decided on the basis of law no.7971, dated 26.07.1995 "On Public Procurement", and decision of the Council of Ministers no .12, dated 1.1.1996 " On the Rules of Public of Procurement".

2. In the procurement procedures no highest and lowest values can be defined, for the purpose of the disqualification of the tenderers.

- (a) Open and international tendering procedures

Open tendering is the type of procedure mainly addressed to the local companies, but which allows the participation of other companies as well, despite their nationality. The open tendering documents will be prepared only in Albanian language, the tenders will be presented only in Albanian language and the announcements will be published in the local press.

Open international tendering is the type of procedure addressed to all companies; the tender documents will be prepared in Albanian and also in another language widely used in the international trade; the announcements will be published not only in the Bulletin of Public Procurement Agency and local press, but according to article 25 of the law no.7971, dated 26.7.1995, these announcements should be published as well in an international newspaper to promote competition.

Open tendering will be the preferred tender procedure because it makes use of local human resources and has its advantages in relation to the organization of tenders, because:

- the procurement is made in a shorter time because the deadlines are shorter;

- geographical distances facilitate the contacts between the employer and the contractor;
- the announcement is published in the Bulletin of the Public Procurement Agency and in the local press; therefore its cost is lower;
- the native language is used;
- there is time benefits in relation to the exchange of announcements, clarifications, organization of meetings, dispatch and reception of the additional materials (where necessary) etc.;
- the procurement laws and rules are known to the tenderers, therefore misunderstandings are avoided to the maximum, facilitating in this way the communication.

This procedure will always be used when effective competition can be achieved, otherwise international open tendering will be used as provided in article 41, of the law no. 7971, dated 26.7.1995.

(b) Pre-qualification procedures

The pre-qualification procedures will be used according to Article 13 of the Law No. 7971, date 26.07.1995, in cases of complex procurements when considerable efforts are needed to prepare the tenders and to examine and evaluate them.

This procedure encourages the companies to participate in the pre-qualification stage, because the documentation they are asked to prepare during this stage does not cost much time and money.

This procedure also enables the procuring entity to invite only those companies that have sufficient capacity and recourses to compete, avoiding participation of unqualified companies.

The announcement for the pre-qualification stage is made within the time limits established for open and international tendering.

The pre-qualification documents will request from the prospective tenderers to demonstrate their capacity and recourses to satisfactorily fulfil contracts, taking into consideration their performance in previous similar contracts; the capacity of its personnel; the number, type and source of the construction and production machinery and equipment; its financial situation, etc.

After the pre-qualification procedures have been completed, the tender documents are distributed to the pre-qualified companies.

The information provided in the documentation for pre-qualified will be verified before signing the contract. If the provided information results false, inaccurate or incomplete, the tenderer will be disqualified according to the Article 12. Paragraph 5 and 6 of the Law No. 7971 dated 26.07.1995. In this case the procuring entity awards the contract to second ranking tenderer.

The pre-qualification procedures may be applied even for a group of similar procurements, when a certain value is defined, under which pre-qualification is not necessary.

In this case pre-qualification may be valid for a certain period of time, which should be specified in the documents of pre-qualification stage. Upon expiring of the time limit, pre-qualification should be repeated.

(c) Two-stage tendering

“Two-stage tendering” will be applied when the final design and technology of the goods and works to be procured, present some difficulty in the preparation of the technical specifications and other tender documents.

This may happen when the preliminary preparation of complete technical specifications would be difficult or non-practical and the procuring entity considers as more reasonable to collect proposals of the participating companies (in case of turn-key contracts or complex contracts).

This procurement procedure is also suitable in the case of procurement of such equipment, which are subject to rapid changes in technology, i.e. computer systems or communication systems.

The first stage of two-stage tendering may be open or restricted based on the Law No. 7971, dated 26.07.1995 and the Decision of the Council of the Ministers No. 12 date 01.01. 1996, respecting time-limits and thresholds specified in this decision. The second stage of "Two-stage tendering" should respect the time limits of "Limited Tendering".

(ç) Request for Proposal

"Request for Proposal" is a type of limited tendering, where the number of tenderers is conditioned by the number of the companies or individuals capable of presenting valid tenders.

If there is an international "Request for Proposals", the procuring entity should ask for proposals from not less than three countries.

The pre-qualification stage in "Request for Proposals" may or may not be used.

When the procuring entity uses "Request for Proposals" without the pre-qualification stage, it should prepare before hand a short list of the companies or individuals with due capacity to present valid proposals.

This procurement procedure may be used in consulting or designing services, preparation of feasibility studies, supervision of works, etc.

The tender documents should contain the terms of reference, the type and quality of solicited proposal, all laws and sub-legal acts if any, regulating such procedure, rules, standards, technical conditions which support the solicited proposal.

(d) Request for Quotations

"Request for Quotations" is used when works, services or goods that will be procured have a stable market and the value of the contract is small.

This procurement procedure is a kind of limited tendering that has priority compared to other forms of procurement because the time needed for procurement is shorter and there are less requests for qualification.

When procuring construction works or services only the legal and administrative documentation is requested. In the case of procurement of goods, tendering conditions will be included in a purchase order and the quotations may be received even by fax or telex, under the condition that the legal and administrative documentation of the winning company will be verified before signing the contract.

Local "Request for Quotations" is organized when tenders for works, services or goods may be obtained from more than two sources and with competitive prices. In international "Request for Proposals" the procuring entity will request quotations from not less than three countries.

"Request for Quotations " may or may not have the pre-qualification stage.

III. TENDER DOCUMENTS

The tender documents consist of (a) the general part, according to the forms attached to these guidelines, including:

- invitation to tender
- instruction to tenderers
- tender form
- general and specific conditions of the contract
- requests for the qualification of the participants
- form of tender security

and (b) the specific part, in accordance to the type of procurement, including:

1. Procurement of construction works

- final designs and technical specifications
- volumes of works and schedule of works (if necessary)
- schedule of works completion (if necessary)
- evaluating criteria

2. Procurement of goods

- technical specifications
- schedule of delivery
- evaluating criteria

(a) The general part

Invitation to tender contains the name and address of the procuring entity, the available funds, the object and the procurement procedure, the price and place of purchasing tender documents, the place, date and time of opening of tenders.

-Instructions to bidders contains all necessary information for preparation of bids.

Tenderers will use the standard tender documents and the general conditions of the contract enclosed in the instructions, without making any change. Changes may be made only in the specific conditions of the contract.

In international tendering the tender documents will be prepared in Albanian and in English (if not otherwise envisaged in the respective agreements), specifying which language will prevail. In local tendering the Albanian language will be the language of the tender.

All the participants in tendering will be given equal opportunities to visit the sites of big and complex works, and a preliminary meeting may be organized where prospective tenderers may request explanations for questions that have emerged during the preparation of their tender. The clarifications will be requested in a written form and after being prepared by the procuring entity will be distributed to all the possible tenderers without exception.

Every correction or amendment in the tender documents will be sent to each of the candidates within a reasonable time before the receipt of the tenders.

The tender documents should define the currency or the currencies in which the tenderers will present their tenders; the procedures for price adjustments of different currencies (not more than three) in a single currency; and the currency in which payments of the contract will be made. The

exchange rate of different currencies will be the rate of 28 days prior of opening tenders. This avoids mistakes in currency exchange, provides fairness and transparency during the evaluation process and enables the participants from countries with weak currencies to use a stronger currency.

Tender documents should also make clear that the tenderers should include in their tenders all fiscal taxes and duties to be paid according to the laws in effect 28 days before opening of the tenders.

The tender form should contain confirmation of the tenderer for the prices offered by him for the completion of the contract and the declaration that his tender is in accordance to the contract conditions and technical specifications given in the tender documents.

General conditions of the contract should denominate the range of works to be performed, goods to be delivered, the rights and obligations of the procuring entity and of the contractor, as well as the functions and competencies of the contractor and the director of works in supervision and contract administration. Besides the general conditions of the contract, there will also be provided the special conditions of contract. In the specific conditions of contract it is also stated the amount of performance security, which will protect the procuring entity in case of contract infringement by the contractor. Part of this guarantee will be extended beyond the completion date to pay for the defects or maintenance until the procuring entity takes over the works. The contract may envisage the retention of a certain percentage in every periodic payment until the procuring entity takes over the object.

Requests for qualification should contain the legal and administrative documentation of the candidate that have been considered as necessary by the procuring entity, in conformity with article 12 of law no 7971 dated 26.7.1995. For construction works and designing activity, the requests for qualification will include except the legal and administrative documentation, even other data related to the staff, technical capacity and experience of the company.

Form of tender security serves to protect the procuring entity from irresponsible tenders, but this amount should not be as high as to discourage the participation in tendering process. The form of tender security will be a bank deposit or guarantee in a bank related to Albanian banks. Tender security of the successful tenderer should be valid for a period of 30 days after the termination of tender validity, so that the procuring entity will have enough time to forfeit tender security if it becomes necessary. Tender security of the unsuccessful tenderers will be returned immediately after signing the contract with the winner.

The procuring entity will define the percentage of tender security depending on the estimated value of the contract as given in the Decision of the Council of Ministers no 12, dated 1.1.1996, aiming at the lowest limit for contracts of big amounts and the upper limit for the small value contracts.

(b) The specific part

1. Procurement of construction

New construction works should have the detailed final design so that work items and volumes are clearly stated in the tender documents.

Construction works may be procured with fixed prices when the volumes of work given in the final design are subject to changes during construction work. In this case the successful tenderer is obliged to keep the unit prices unchanged as defined in its tender.

Construction works may be procured also with turn-key contracts, when work volumes given in the tender documents are not precise and the tenderers should make a detailed study of the design, without being obliged to respect the given volumes. In this case the successful tenderer is responsible

for handling over the object without claiming any additional amount over the price it has offered in its tender responding also to all fiscal obligations according to the existing laws.

The technical specifications should clearly state the requirements of the procuring entity on the quality of works, materials to be used, or other requirements besides those envisaged in the final design or technical conditions.

In the requests for qualification there should be clearly given the minimal requests related to:

- qualifications and licenses of the staff that will be directly involved in the object; i.e. the key personnel responsible for the implementation of the works.
- the number and type of plant and equipment, i.e. the indispensable technical capacity for carrying out the works.
- the minimal value of similar objects built by the contractor (documented through certificates issued by the investor) in order to convince the Procuring Entity that the contractor is capable of realizing the requested works.

If the contractor fulfils these requests for qualification given in the tender documents, it is considered as qualified and then its tender will be evaluated (and also time, if this is foreseen as evaluation criterion in the tender documents). The requests for qualification serve only for the qualification of the tenderer and are not awarded with points, though they may surpass the limit requested in, the tender documents.

In all the cases when the contracts are based upon unique prices, the work volumes should be complete in all the items and percentages the procuring entity judges as need to be fixed, (reserve fund, the minimal planned profit, the minimal supplementary expenses, the percentage of the value added tax, etc).

The order of completion of different stages of works should be given in the tender documents, if the procuring entity considers as necessary that different stages of works should be completed according to a certain order.

If the time for completion of works is not an evaluating criterion, this shall be clearly stated in the tender documents; in the opposite case time for completion of works shall be part of the evaluating criteria.

In the evaluating criteria there should be given the weight of every criterion; i.e. the maximal points for the tender with the lowest price, or the maximal points for the tender with the shortest time schedule, (when time is an evaluating criterion), and the formula for calculating the points of the successive tenderers: $P_i = V_{min} \times P_{max} / V_i$ where:

P_i = points of the tender under evaluation

P_{max} = the maximal points given to the lowest tender

V_i = value of the tender under evaluation

V_{min} = the value of the lowest tender

When procuring reconstruction works and there is no final design, the procuring entity may use two-stage tendering procedures. On the basis of technical specifications, in the first stage the procuring entity will request from the tenderers, besides the qualification requests, the work volumes and other opinions related to the object. After the work volumes have been fixed, the Procuring Entity in the second stage asks *for* the price of the tenders.

As far as requests for qualification, technical specifications or evaluating criteria are concerned, there will be used the same procedures applied when procuring construction works.

2. Goods

The invitation to tender for goods should be made on the basis of CIF prices, where the supplier includes also the transportation and insurance of the goods. The evaluation and selection is made on the basis of CIF prices. If the Procuring Entity undertakes the transportation and insurance of the goods through local companies, the tenderers may be requested to present in their tenders based in FOB prices. In this case, the evaluation and selection are made with CIF prices, but the Procuring Entity may sign the contract with FOB prices and will be itself responsible for the transportation and insurance of the goods.

If the tender documents require, the contracts for the delivery of goods should guarantee full payment for the contracted goods after their delivery and control, with the exception of contracts for installation and starting of the machinery. In these cases a part of the payment may be made after the supplier had fulfilled all its contracting obligations. Payment through irrevocable Letter of Credit confirmed by the Albanian Banks should gain priority in order to ensure direct payment for the supplier.

Technical specifications should clearly provide a description of the goods related to their quality, function, safety, dimensions, symbols, terminology, packing, marketing and labeling on the basis of article 14 of law 7971, dated 26.7.1995.

The delivery schedule of the goods should clearly provide the way and time limits the procuring entity has requested for the delivery of these goods.

After evaluating the technical specifications and delivery schedule of the goods, the only evaluating criterion will be the price of the good.

In the case when the evaluating criteria are more than one, some other factors may be taken into consideration as expenditures for internal transportation and insurance up to the delivery place, payment schedule, delivery time, operational expenses, equipment effectiveness and suitability, services and spare parts. Besides the price which will be used for determining the lowest cost tender, the specific weight of all these factors should be determined; i.e. how many points will be given to each criterion and how will be the calculations for the successive tenderers. All the criteria set for the evaluation of the bids should be objectively fair and possibly expressed in numbers. In every case when there are more than one evaluating criteria the price of the good should not have less than 80 points.

The ranking of the points will be calculated through the following formula:

$$P_i = V_{\min} \times P_{\max} / V_i$$

3. Services

The type of service required should be clearly described, with all the specific characteristics of the procuring entity for its quality and time schedule.

If the requests of the procuring entity are clear and complete, then the only evaluating criterion of the tenders may be the price of the service.

In special cases, when the evaluating criteria are more than one, all the criteria that determine tenders' evaluation should be objective and possible expressed in numbers. It should also be stated the weight of every criterion and the way of calculating the points for the tenders.

When the criteria are expressed in points the calculating formula will be:
$$P_i = V_{min} \times P_{max} / V_i$$

In every case when the criteria are more than one, the weight of the criterion of price should not be less than 80 points.

3.1 Designing services

The terms of reference should be complete and clear in such a way that provides equal opportunities to all the tenderers. They should also state the available fund for the construction of the object.

In the technical specifications there should be clearly stated all the requests of the Procuring Entity for the design of the object, the functional and technological aspect of the works, the materials to be used etc.

In the requests for qualifications there should be clearly stipulated the minimal requests related to:

- qualifications and licenses of the persons that will be directly involved in the design of the object, management of construction works or consulting services, i.e. curriculum vitae of each of the staff;
- similar designing services proved by the certificates of the investor (if designed before 1992, their total value will be calculated through conversion coefficients).

Except for requests for qualification, the candidates will be requested to present the preliminary design and the preliminary bill of quantities with equal prices for all the tenderers (the procuring entity, in the tender documents will give instructions for these prices). The tenderers will also state the price of the design that will be an evaluating criterion.

During the preparation of tender documents for designing services, according to article 39, paragraph 2/c, there should be stipulated in the tender documents that all tenderers will be excluded from the procurement process of goods or works related to the design under discussion.

In the tender documents for designing services, the procurement order will also include the available fund, which is the amount to be used for the payment of the design and not the total fund for the object; this will be stated in the terms of reference.

The evaluating criteria for the designs will be: not less than 75 points for the technical offer i.e. quality of the design; 15 points for the economic offer i.e. the value of the preliminary bill of quantities and about 10 points for the price of the design.

The bill of quantities of the final design, that reflects all remarks of the technical council should not surpass the amount of the preliminary bill of quantities prepared on the basis of the preliminary design and presented for bidding; if it is not so, the contract security of the designer will be forfeited.

A designer cannot be part of designing staff of two different designing companies that participate in the tender for the same object.

Two-stage tendering may be applied in the cases when a final design will be procured, the preliminary design of which has been defined in general lines and a routine tender of designing process will provide different solutions, the comparison of which would be senseless (e.g. pavement of existing roads, water supply and sewerage network).

In the first stage the candidates will be requested to submit the preliminary bill of quantities with the same prices for all the tenderers (in the tender documents, the Procuring Entity will give due instructions for these prices) together with details of the preliminary design which may influence the value of the bill of quantities.

After the Procuring Entity will decide on the basis of the submitted tenders for the best offer together with the preliminary bill of quantities, the procuring entity announces the second tendering stage to obtain tenders for the price of the design.

In this case price is the only evaluating criterion.

IV COMMISSIONS

The commission of tenders' evaluation should consist of not less than 5 members, specialists of the specific field and one economist. It is recommended that the Vice-Head of the Procuring Entity to be the Chairman of the Commission. The Head of the Procuring Entity can not be the Chairman of the Commission.

The Procurement Unit (or the persons that compile the tender documents) consists of not less than two specialists of the respective field and one lawyer.

The Procurement Unit together with the tender evaluation commission prepares the tender documents as defined in the procurement order.

In special cases, depending on the complexity of the object to be procured, the tender documents may be prepared by a specialized technical group, Albanian or foreign.

When procuring designs, the evaluating commission should be a kind of technical council. It should consist of not less than seven specialists of the respective field. In this case the procuring entity should determine the opposition for every design.

The procurement unit is responsible for making announcements or distributing invitations to tender (in restricted tendering), sending for publication in the Bulletin of Public Procurement of the invitation to tender, obtaining the materials needed for the tender documents (as maps, designs, bill of quantities, technical conditions, standards etc) preparation of tender documents with the respective forms, respecting the time limits as defined by the Decision of the Council of Ministers no.12, dated 1996 and, according to these guidelines, the calculation of the price for selling the tender documents to the tenderers (on the basis of article 27 of law no 7971, dated 26.7.19950), and handling the tender documents to the tenderers.

The lawyer, who is member of the group that prepares the tender documents, is responsible for implementing the envisaged procedures on the basis of the existing legislation; he also enjoys the right to suspend these procedures when he notices any infringements.

The Evaluating Commission participates together with the Procuring Entity in the compilation of tender documents and is responsible for the special part of these documents related to the technical specifications and requests for qualification, as well as for the evaluating criteria.

During the preparation of the tenders by the tenderers, the procuring entity is obliged to clarify to the tenderers any question that may arise to them during the preparation of their tenders which is related to the tender documents. If this question or clarification is a kind of interpretation requested in a written form or an addendum that should be given by the procuring entity, then, on the basis of article 28 of law no 7971, dated 26.2.1995, these addendum should be sent to all the tenderers despite the fact that have requested it or not and it will constitute an integral part of the tender documents.

If the opinion of the evaluating commission is needed for the clarifications requested by the tenderers, then the procuring entity through the head of the commission, should organize a meeting of the commission or even a meeting of the commission with the tenderers if necessary.

In national tenders the tenders will be submitted in the place, date and time specified these in the Invitation to Tender.

In the place, date and time defined in the Invitation to Tender and in the presence of the representatives of the participating companies, the commission receives the tenders in national tendering, or opens the tenders of international tendering when the tenders have been previously received.

Members of the evaluating commission should not have any business, kinship or interests relations to the tenderers.

The tenders submitted in conformity with the requests provided in the guidelines for the participants in tendering are reviewed by the commission. The other irregular tenders are turned back to the tenderers.

After opening the tender, the procedure starts with the qualification documentation. The documents are immediately examined in the presence of the commission and representatives of the companies.

The tenderers that have not fulfilled the qualification requests are considered as disqualified.

When it is possible for the verification to be made on the spot, the technical and economic tenders should not be opened without completing the qualification process of the tenderers. The tenderers that have fulfilled the qualification requests, are considered as qualified with the exception of the cases mentioned in article 12, paragraph 6 of Law No. 7971, dated 26.7.1995.

The commission opens the technical-economic tenders after having declared the disqualified companies, and read in a loud voice the total value of the tenders as well as the time deadlines when time is an evaluating criterion.

All the pages that present the calculations for the final value of the tender, are signed by all the members of the commission.

The minute of opening of the tender is prepared in conformity with the requests of the Article 31, item 3 of law 7971, dated 26.7.2995.

The whole documentation opened by the commission is part of the tender file and is not turned back to the tenderers after the end of the tendering process.

After receiving the tenders the commission should select the best tender on the basis of the criteria established in the tender documents, in conformity with article 32 of the Law No.7971, dated 26.7.1995, and the ranking classification of all other tenders.

The decisions of the commission are reached through consensus or majority of open votes and not through secret voting.

The procuring unit should be present during the work of the evaluating commission and might give opinions or make remarks.

The procuring entity should keep and sign all the records of commission work, which should also be signed by all the members of evaluating commission, collect and keep in a separate file all the documentation of tendering, (procurement order, announcements, etc decision for announcing the winner); at the end of the procuring procedures, the Procuring Entity should submit the file in the archive of the Procuring Entity, where it should be preserved according to paragraph 10 of the Decision of the Council of Ministers, dated 1.1.1996.

The Chairman of the Commission organizes the work of the commission during the tendering process and together with the lawyer, which are responsible for following up tendering procedures according to the existing laws and regulations.

The Chairman of the Commission prepares the ranking list of the tenders and officially announces it to the tenderers.

V. THE HEAD OF THE PROCURING ENTITY

The tenderers that do not agree with the decision of the procuring entity and want to know the reasons for the rejection of their tender, enjoy the right to complain at the Procuring Entity within 10 days from the receipt of the official announcement.

In this case only the tender of the claiming candidate will be reviewed, and not the other tenders.

The head of the Procuring Entity may suspend tendering procedures if the complaint is upheld, or in the opposite case he is entitled to clarify and respond on the basis of article 44, paragraph 2, of the Law 7971, dated 26.7.1995 to all the complaints that have been submitted to the Procuring Entity within 10 days: from the official announcement on classification of the tenders from the evaluating commission.

VI. APPROVAL

The procuring entity prepares a summary report according to article 7, paragraph 2 of the Law no. 7971, dated 26.7.1995, reflecting all the complaints (if any), the respective answers and sends this report to the central or local body that makes available the funds.

The Head of the Procuring Entity on the basis of the report and possible complaints sent by the Procuring Entity decides whether it is necessary to seek for review the complete file of tender documents; in the opposite case he approves the winner of the tender and makes available the necessary funds.

After reviewing the requested documentation, the central or local organ should give the approval or corrective measures, if any, not later 20 days from the receipt of the documentation.

Only after the approval of the organ that manages the funds, the procuring entity is entitled to announce the winner and to sign the contract for the procured object.

Winner announcement and contract signing before receiving the written approval of the organ that possesses the fund are not valid.

The candidate that is not satisfied with the answer of the procuring entity is entitled to further express his complaint according to article 44, item 3, Law no 7971, dated 26.7.1995. The Head of the Procuring Entity, after receiving the approval from the central or local body, informs the winner before the expiry of the validity period of his tender in conformity with the respective form in the tender documents.

The validity period will be estimated by the procuring entity, by adding the time the commission will need to review the tenders to the time needed for receiving complaints, giving approval and signing of the contract.

If the central or local organ that makes available the fund turns back to the Procuring Entity the classification of the tenders, the validity period may be postponed.

The tender documents are constituent part of the contract signed by the two parties.

VII. GENERAL ISSUES

Temporary joint- ventures of companies will be admitted to participate in tendering, on the following conditions:

- There is a contract among the companies where there are clearly specified the works that will be realized by each of the companies and the way the profit will be shared among them.
- Through written Power of Attorney one of the companies is nominated as being in charge of the joint group of companies it will represent the other companies in all the steps of tendering till contract signing.
- The companies should have joined together not later than two weeks before the date of submission of the tenders.

All the conditions for participation in tendering of the joint companies should be clearly revealed in the tender documents.

Subcontracting. When the contractor aims at carrying out some of the works through other subcontractors, it should present in the tender documents the complete set of documentation requested for the subcontractor and the concrete works it is going to subcontract.

Repetition of the tendering procedures. If all the tenders are rejected because of lack of competition (there is submitted only one tender), or all the tenders do not fulfill the qualification conditions, tendering procedures should be repeated.

In this case the Procuring Entity should find the reasons of such a rejection and review the tender documents.

When tender documents are redone, the Procuring Entity may decide to invite only those companies that presented tenders the first time, if they are not less than three.

In limited tendering also the list of the invited companies should be reviewed. These guidelines come into force immediately.

PRIMEMINISTER
ALEKSANDER MEKSI

**REPUBLIC OF ALBANIA
COUNCIL OF MINISTERS**

GUIDELINE

No.3, dated 02/19/1996

ON

SMALL VALUE PURCHASES

At the proposal of the Public Procurement Agency, the Council of Ministers

G U I D E S :

1. The commission on procurement of small value purchases is composed of not less than members and is appointed each calendar year by the head of the procurement agency according to Form no. 1 attached to this Guideline.

The chairman of the commission shall be the head of finance of the procurement entity.

In the cases when the procurement entity has set up a procurement unit that functions in line with the Guidelines of the Council of Ministers No. 1, dated 01/1/1996 and has no less than two procurement experts and one lawyer, they will also be the members of the procurement commission on small value purchases.

2. Small value purchases, other than goods, include all services of small values such as developing and printing of films, photocopying, key reproduction, repair or change of locks, repair of different equipment such as type writers, photocopiers, computers etc., waste water work, repair of small defects of vehicles during trips and other services of this kind.
3. The needs for small value purchases that will be carried out through the direct procurement procedure, according to Article 19, point 2 of Law No.7971, dated 07/26/1995 "On Public Procurement", are determined by the chairman of the procurement entity in the procurement order according to Form no.2 that is attached to this Guideline, and determines the kind of goods or services, as well as the quantity for each good or service.

At the central institutions level, if the head of the institution sees it reasonable, Form no.2 can be signed by another authorized person that could be the Chief of Cabinet, Personnel Director or Chief of Administration.

4. After the commission has received the procurement order, it appoints two members that will carry out the purchasing. These members will go to the sale units with the list provided in the procurement order and will receive the prices per each good or service. Then, they will propose these prices to the commission. After all the commission members agree with the proposed prices, this gets written in the minutes according to Form no.3 that is attached to this Guideline. Also, Form no.3 determines the members that are appointed for the purchases, and the prices approved per each purchase. The minutes are signed by all commission members.

The members appointed by the commission carry out the purchase based on the prices approved in the above mentioned minutes and bring the relevant receipts signed and sealed by the sales unit. The receipts are also by the members that have carry out the purchase and are attached to the procurement order to be submitted to the accountant office.

5. Purchases up to Lek 10 thousand can be done in cash, whereas purchases that involve amounts higher than Lek 10 thousand should be done through a payment order.
6. In emergency cases, when a payment order can not be issued preliminary and when the commission can not gather to approve the price because the need for a given service is a sudden one and could not have been projected, such as a flat tire or other defects that need to be repaired immediately, water work on pipes or other similar cases, the receipt will be accepted with the signature of the sales person and the seal of the sales unit or the relevant service unit, also signed by the person that has carried out the payment (it was not necessary that this person be a commission member).

In these cases, after the interested person has submitted the receipt, the commission gathers and through the minutes according to Form no.4 to be attached to this Guideline approves the expenditures incurred and justifies the case of emergency, and the impossibility for its impossibility for its prior projection. The minutes are signed by all the commission members and get approved finally by the head of the procurement order (form no.20) and the minutes (form no.3) that are drafted for projected purchases together with the relevant receipt to be submitted to the accountant's office.

This Guideline enters into force immediately.

PRIME MINISTER
Aleksander Meksi

**APPLICATION FOR ACCESSION OF ALBANIA TO THE
AGREEMENT ON GOVERNMENT PROCUREMENT**

The following communication, dated 13 February 2002, has been received from the Permanent Mission of Albania with the request that it be circulated to the Committee.

Albania is providing to the Committee on Government Procurement the notification of the following national implementing legislation for review by all Members:

Law No. 7971, dated 26.07.1995, "On Public Procurement"

Law No. 8074, dated 22.02.1996, on some changes in the Law No. 7971

Law No. 8112, dated 28.03.1996, on some changes in the Law No. 7971, dated 26.07.1995, "On Public Procurement"

Decision of the Council of the Ministers No. 12, dated 1.01.1996, "On the Rules on Public Procurement". This decision is abrogated by the Decision No. 335, dated 23.06.2000.

Standard Bidding Documents¹

Standard Bidding Document for Procurement of Goods¹

General Conditions of Contract, Procurement of Works¹

Invitation to Quote for small works (under lek 5 million)¹

Request for Quotation (for buying goods)¹

In the meantime, Albania is working to translate the other implementing legislation that is mentioned in document GPA/W/161, in order to provide it to the Members as soon as possible.

¹ Available for consultation in the WTO Secretariat, Office No. 3014.

LAW No. 7971, dated 26.07.1995

ON PUBLIC PROCUREMENT

THE PEOPLE'S ASSEMBLY OF THE REPUBLIC OF ALBANIA

DECIDED:

CHAPTER I. GENERAL PROVISIONS

Article 1. Purpose of this Law

The purpose of this Law is to promote economy and efficiency in the use of public funds by procuring entities while ensuring that public procurement procedure are fair, transparent and non-discriminatory.

Article 2. Definitions

In this Law :

"procurement" means the purchasing, hiring or obtaining by any other contractual means of goods, construction and services;

"procuring entity" means any organ of the State or regional and local authorities as well as any other juridical person to whom public funds have been allocated for use in public procurement;

"public procurement" means procurement by procuring entities;

"goods" means raw materials, products, machineries and equipments, objects in solid, liquid or gaseous form and electricity, as well as transport, installation, maintenance or similar obligations related to the supply of the goods if their value does not exceed that of the goods themselves;

"construction" means all work associated with the construction, reconstruction, demolition, repair or renovation of a building or structure, such as site preparation, excavation, installation of equipment and materials, decoration, as well as services incidental to construction, if the value of those services does not exceed that of the construction itself;

"services" means any object of procurement other than construction and goods;

"tendering" means a procurement procedure under which tenders are invited, received, examined and evaluated for the purpose of awarding a contract;

"open tendering" means a procurement procedure whereby all interested candidates may submit tenders;

"restricted tendering" means a procurement procedure whereby only those candidates which are invited by the procuring entity may submit tenders;

"two-stage tendering" means a procurement procedure whereby the procuring entity invites tenders in two stages, in the first stage tenders with full information without prices and in the second stage tenders with prices;

"request for proposals" means a procurement procedure whereby the procuring entity invites proposals from selected candidates;

"direct procurement" means a procurement procedure whereby the procuring entity contacts and seeks a proposal from one candidate;

"request for quotations" means a procurement procedure whereby the procuring entity invites quotations from candidates selected by it;

"candidate" means a physical or juridical person invited to take part in public procurement or seeking to be so invited;

"procurement regulations" are the regulations issued by the competent authority under this Law;

"supplier" means a physical or juridical person under contract with a procuring entity to supply goods, construction or services;

"tender documents" means the documents provided by the procuring entity to tenderers as a basis for preparation of their tenders;

"tenderer" means a physical or juridical person submitting a tender;

"public funds" means every monetary value originated from the state budget, from revenues of state enterprises and companies with the Government as a majority shareholder.

Article 3. Scope of application

This Law applies to public procurement, except the cases where the Council of Ministers, for the reason of national security or national defence, may define another procedure for public procurement of goods, constructions or services.

Article 4. International obligations

To the extent that this Law conflicts with an obligation of the State under or arising out of an agreement with one or more other states or with an international organization, the provisions of that agreement shall prevail; but in all other respects, public procurement shall be governed by this Law.

Article 5. Procurement regulations

1. The Council of Ministers is authorized to promulgate procurement regulations to fulfil the objectives and to carry out the provisions of this Law.

2. If more than one procuring entity needs the same kind of goods, construction or services, the Council of Ministers may assign to one of those entities the task of procuring such items on behalf of the other entities.

Article 6. Public accessibility of legal texts

This Law, the procurement regulations and all instructions of the Agency shall be promptly made accessible to the public and systematically maintained.

CHAPTER II. PUBLIC PROCUREMENT ORGANIZATION

Article 7. Responsibility of the procuring entity

1. The procuring entity is responsible for procurement with public funds at its disposal subject to the provisions of this Law and to any such further condition as may be laid down in the procurement regulations and the instructions of the Agency.
2. With respect to contracts above thresholds stated in the procurement regulations, the procuring entity shall submit to the higher central or local authority or to the Council of Ministers for prior review and approval, before a contract is awarded or concluded, a summary report containing:
 - (a) justification for the choice of procurement procedure, if other than open tendering;
 - (b) the evaluation of tenders of proposals received; and
 - (c) the proposed award or conclusion of contract.
3. Procuring entities must make records and documents regarding their public procurement available for inspection by the Agency and must submit reports regarding their procurement activities in such detail and at such intervals as the Agency may require.

Article 8. The Public Procurement Agency

1. The Public Procurement Agency is reporting to the Council of Ministers and is the central organ for coordination and perfection of the public procurement process.
2. In the performance of its tasks, the Agency;
 - (a) submits proposals for procurement regulations to the Council of Ministers;
 - (b) promotes and supports training of central and local government officials engaged in public procurement;
 - (c) edits and issues a Public Procurement Bulletin to be used for invitations to tender and other announcements relevant to public procurement;
 - (ç) prepares standard documents to be used in connection with public procurement;
 - (d) gives instructions, and, on request, advice and assistance to procuring entities in undertaking procurement;
 - (dh) presents an annual report to the Council of Ministers regarding the overall functioning of the public procurement system;
 - (e) inspects the records of procuring entities to the extent it deems appropriate in order to check on the proper application of this Law by them;
 - (ë) performs administrative review of complaints as foreseen in Chapter VIII;
 - (f) cooperates with international institutions and with other foreign entities on matters associated with the public procurement system; and

- (g) plans and coordinates foreign technical assistance to Albania in the field of public procurement.
3. The Director of the Agency is appointed and dismissed by the Prime Minister.
 4. The Prime Minister also appoints an inter-disciplinary consultative board, composed of representatives from major procuring entities at the central and local government levels, to give advice and comments on the overall functioning of the public procurement system in Albania and on proposals to be submitted by the Agency for consideration by the Council of Ministers.

CHAPTER III. COMMON PROCUREMENT RULES

Article 9. Non-discrimination on the basis of nationality

Physical or juridical persons shall not be excluded from participation in public procurement on the basis of nationality.

Article 10. Records of procurement

1. Procuring entities shall maintain records of public procurement in sufficient detail to allow control and verification that the provisions of this Law have been respected. With respect to each transaction the record shall contain, as a minimum, justification of the procurement procedure chosen, if other than open tendering, information concerning the goods, construction or services procured, the names of candidates, the name of the supplier to whom the contract was awarded, and the contract price.

2. The minimum information to be recorded according to paragraph 1 shall, on request, be made available to interested persons after a contract has been awarded. Other information shall remain confidential.

3. The procuring entity shall preserve and keep the record and documents relating to any procurement available for inspection by the competent authorities during a period of time stated in the procurement regulations.

Article 11. Form of communications

Communications between candidates and procuring entities shall be only in writing. If the communication is made in any other form, it shall refer only to the written documents and the content of that communication shall be confirmed in writing, immediately after that communication.

Article 12. Qualification of candidates

1. In order to participate in public procurement, candidates must qualify by meeting such of the following criteria as the procuring entity considers appropriate under the circumstances:

- (a) that they possess the necessary professional, technical and organizational capacity, personnel, financial resources, machineries and other physical facilities, reputation and reliability to perform the contract;
- (b) that they shall have before performed similar contracts in compliance with the stated provisions in procurement regulations;
- (c) that they have the legal capacity to enter into the contract;

- (c) that they are not insolvent, in receivership, bankrupt or being wound up, their business activities have not been suspended, and they are not the subject of legal proceedings for any of the foregoing;
 - (d) that they have fulfilled their obligations to pay taxes and social security contributions. Documentary evidence to be provided by a foreign candidate to demonstrate that it meets the criterion in this paragraph may consist of a written declaration to that effect by the candidate.
2. The procuring entity may require candidates to provide such appropriate documentary evidence or other information as it may deem useful to satisfy itself that the candidates are qualified in accordance with the criteria referred to in paragraph 1.
3. Any requirement established pursuant to this Article shall be set forth in the pre-qualification documents, if any, and in the tender documents or other documents for solicitation of proposals, and shall apply equally to all candidates.
4. The procuring entity shall evaluate the qualifications of candidates in accordance with the criteria and procedures set forth in the documents referred to in paragraph 3.
5. The procuring entity shall disqualify a candidate who submits a document containing false information for purposes of qualification. In such case the procuring entity can propose to the Public Procurement Agency that the candidate be expelled from all public procurement for a period up to one year. If the Public Procurement Agency shall approve this proposal, this shall be published in the Public Procurement Bulletin.
6. The procuring entity has the right to disqualify a candidate, if it, at any time up to the signing of the contract, will find out that the information submitted related to the qualification or other data presented by and for the candidate are inaccurate or incomplete.

Article 13. Pre-qualification proceedings

1. The procuring entity may engage in pre-qualification proceedings with a view towards identifying, prior to the submission of tenders, that candidates are qualified. The use of pre-qualification proceedings is indispensable as a preliminary to open tendering or two-stage tendering in the case of large or complex contracts for goods and construction.
2. If the procuring entity engages in pre-qualification proceedings, it shall prepare a set of pre-qualification documents containing as minimum the following information:
- (a) instructions for preparing and submitting pre-qualification applications;
 - (b) the nature and quantity of goods, construction or services to be procured;
 - (c) the desired time for delivery of the goods or completion of the construction or services;
 - (c) the criteria and procedures to be used for evaluating the qualifications of the candidates, following the provisions of Article 12;
 - (d) a summary of the principal required terms and conditions of the contract to be entered into as a result of the procurement proceedings;

- (dh) any documentary evidence or other information that must be submitted by candidates to demonstrate their qualifications;
- (e) the manner and place for the submission of applications to pre-qualify and the deadline for submission; and
- (ë) any other requirements that may be established by the procuring entity in conformity with this Law and the procurement regulations.

3. An invitation to pre-qualify shall be advertised in the manner prescribed for invitations in the open tendering procedure by being in compliance with the time-limits defined in procurement rules for the pre-qualification procedure and shall contain at least information about:

- (a) the name and address of the procuring entity;
- (b) a brief description of the purpose of the invitation along with a summary of the nature and quantity of goods, construction and services to which the pre-qualification will apply;
- (c) the means of obtaining pre-qualification documents and the place and deadline for submission of applications to pre-qualify.

4. The procuring entity shall make a decision with respect to the qualifications of each candidate submitting an application to pre-qualify. In reaching that decision, the procuring entity shall apply only the criteria set forth in the pre-qualification documents.

Article 14. Technical specifications

1. Technical specifications laying down the characteristics of the goods, construction or services to be procured shall be prepared for the purpose of giving a correct and complete description of the object of procurement and for the purpose of creating conditions of fair and open competition between all candidates.

2. The technical specifications shall clearly describe the procuring entity's requirements with respect to quality, performance, safety and dimensions, symbol, terminology, packaging, marking and labelling or the processes and methods for their production and requirements relating to conformity assessment procedures.

3. Technical specifications prescribed by procuring entities shall, where appropriate:

- (a) be in terms of performance rather than design or descriptive characteristics; and
- (b) be based on international standards, where such exist, or otherwise recognized national standards or building codes.

4. There shall be no requirement or reference in the technical specifications to a particular trademark or name, patent, design or type, specific origin, producer or service provider, unless there is no sufficiently precise or intelligible way of describing the procurement requirements and provided that words such as "or equivalent" are included in the specifications.

Article 15. Rejection of all tenders, proposals or quotations

1. If so specified in the tender documents or in the request for proposal or quotations, and provided rejection can be justified on sound economic grounds, the procuring entity may reject all

tenders, proposals or quotations at any time prior to their acceptance. The procuring entity shall upon request communicate to any candidate the grounds for its rejection but is not required to justify those grounds.

2. The procuring entity shall incur no liability towards candidates solely by virtue of its invoking paragraph 1 of this Article.
3. Notice of the rejection shall be given promptly to all participating candidates.
4. If the decision to reject all tenders, proposals and quotations is taken before the closing date, all tenders proposals and quotations received shall be returned unopened to the tenderers submitting them.

Article 16. Inducements from candidates

The procuring entity shall reject a tender, proposal or quotation if the candidate that submitted it gives or promises to give, directly or indirectly, to any current or former officer or employee of the procuring entity or other governmental authority a gratuity in any form, an employment or any other thing or service of value, as an inducement with respect to an act or decision of, or procedure followed by, the procuring entity in connection with the procurement proceedings. Such rejection and the reasons therefore shall be recorded in the record of the procurement proceedings and promptly communicated officially to the candidate concerned.

CHAPTER IV. CHOICE OF PROCUREMENT PROCEDURE

Article 17. Procurement procedures

1. Except as otherwise provided in this Chapter, the procuring entity shall use open tendering as the preferred procedure of procurement.
2. A procuring entity may use a procedure other than open tendering only pursuant to the following Articles 19, 20, 21, 22 and 23.
3. Exceptionally, in special cases or force majeure, the Council of Ministers may permit the use of a procedure other than open tendering in situations not foreseen in Articles 19, 20, 21, 22 and 23.
4. A procuring entity shall plan its procurement in a rational manner, and no procurement requirements for a given quantity of goods, construction or services shall be split up with the intention of avoiding a procurement procedure stated in this Law or in the procurement regulations.

Article 18. Conditions for use of restricted tendering

The procuring entity may engage in procurement by means of restricted tendering in accordance with Article 36, when:

- (a) the goods, construction or services are available only from a limited number of suppliers;
- (b) the estimated value of the contract does not exceed a threshold set out in the procurement regulations.

Article 19. Conditions for use of direct procurement

1. The procuring entity may use direct procurement in accordance with Article 37 if this method is not resorted to with a view to avoiding possible competition or in a manner which would constitute a means of discrimination among candidates:

- (a) when in the absence of competition for technical reasons the goods, construction or services can be supplied or provided only by one candidate;
- (b) within limits defined in the procurement regulations, for additional deliveries by the original supplier which are intended either as parts replacement for existing supplies, services, or installations, or as the extension of existing supplies, services, or installations where a change of supplier would compel the procuring entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services;
- (c) within limits defined in the procurement regulations, when additional construction services, which were not included in the initial contract have, through enforceable circumstances, become necessary since the separation of the additional construction services from the initial contract would be difficult for technical or economic reasons;
- (ç) within limits defined in the procurement regulations, for new construction services consisting of the repetition of similar construction services which conform to a basic project for which an initial contract was awarded on the basis of open or restricted tendering;
- (d) for continuation of consulting services, where the original contract has been satisfactorily performed and the continuation is likely to lead to gain in economy and efficiency;
- (dh) for purchase of perishable commodities such as fresh fruits, vegetables or other similar items which are purchased on market terms;
- (e) for purchases of goods made under exceptionally advantageous conditions which only arise in the very short term. This provision is intended to cover unusual disposals by firms which are not normally suppliers. It is not intended to cover routine purchases from regular suppliers;
- (ë) for the continuation of the design services that are related with services previously performed, which would violate the author's right if they would be given to another subject.

2. The procuring entity may also use direct procurement for small-value purchases of readily available goods when the contract price does not exceed an amount stated in the procurement regulations.

Article 20. Conditions for use of two-stage tendering

The procuring entity may engage in procurement by means of two-stage tendering in accordance with the Article 38, in the case of large or complex contracts for goods or constructions, for which open or restricted tendering is not suitable because of the difficulty in defining precisely the goods or constructions, by requesting:

- (a) in a first stage, tenders without prices with full technical information as to various possible means of meeting its objectives, after which;
- (b) in a second stage, priced tenders on the basis of technical specifications and other data chosen on the basis of the first stage.

Article 21. Conditions for use of request for proposals

The procuring entity may engage in procurement by means of request for proposals in accordance with Article 39 when it seeks to obtain consulting services or other services for which tendering is not suitable because of the difficulty in defining precisely the services.

Article 22. Conditions for use of request for quotations

The procuring entity may engage in procurement by means of request for quotations in accordance with Article 40 for the purchase of readily available goods or for procurement of construction or services for which there is an established market, so long as the estimated value of the contract does not exceed an amount stated in the procurement regulations.

CHAPTER V. OPEN TENDERING

Article 23. Basic provision regarding open tendering

Open tendering shall be used when the estimated contract value exceeds an amount stated in the procurement regulations. Procuring entities may engage in open tendering whenever goods, construction or services to be procured are obtainable from domestic sources and in sufficient competition within the country, always subject to the rule of non-discrimination in Article 9. The following basic provision shall apply to open tendering procedures.

Article 24. Invitation to tender

The invitation to tender shall contain, as a minimum:

- (a) the name and address of the procuring entity;
- (b) a brief description of the goods, construction or services to be obtained, including desired time-limit for delivery or completion;
- (c) the means and conditions for obtaining the tender documents and the place from which they may be obtained;
- (ç) the place and deadline for the submission of tenders, and
- (d) the place and time for opening of tenders, along with an announcement that tenderers' representatives are allowed to attend the opening of tenders.

Article 25. Advertisements

1. In addition to any publication in the Public Procurement Bulletin, invitations to tender shall be advertised in at least two national newspapers of general circulation.

2. The time allowed for preparation of tenders shall not be less than a minimum number of days stated in the procurement regulations.

Article 26. Tender documents

The tender documents shall contain sufficient information to enable competition among the tenderers to take place on the basis of complete, neutral and objective terms. In particular, tender documents must include:

- (a) instructions for the preparation and submission of tenders;
- (b) information on the final date for receipt of tenders, the address to which tenders must be sent, the date, hour and place of such opening, as well as an announcement that tenderer's representatives are allowed to attend the opening;
- (c) forms of tender and, where applicable, forms of tender security to be provided;
- (ç) the number of copies to be submitted with the original tender;
- (d) conditions of contract, general and special;
- (dh) specification of requirements, including time-limit for delivery or completion, as appropriate;
- (e) evidence to be provided by the tenderer to demonstrate its qualifications as well as its standing with regards to fiscal and social security obligations;
- (ë) the period during which the tender must remain valid;
- (f) the criteria for evaluation of tenders and award of the contract; and
- (g) a reservation to the effect that the procuring entity may reject all tenders at any time prior to the acceptance of a tender.

Article 27. Provision of tender documents

Tender documents shall be made available to candidates in an expeditious manner, at a price not exceeding the cost of reproduction and delivery to candidates, and otherwise in the manner specified in the invitation to tender.

Article 28. Modifications to tender documents

At any time prior to the deadline for submission of tenders, the procuring entity may, on its own initiative or in response to an inquiry by a candidate having purchased the tender documents, modify the tender documents by issuing an addendum. Any addendum shall be communicated promptly to all candidates having purchased the tender documents. If the procuring entity considers it necessary to amend the tender documents, and if that amendment is made less than one-third of the time allowed for the preparation of tenders remains until the closing date, the procuring entity shall postpone the closing date by a number of days, depending on the procurement object.

Article 29. Tender security

1. The procuring entity shall include in the tender documents a condition that tenders must be accompanied by security in the form of a deposit or bank guarantee. The amount of such security shall be sufficient to discourage irresponsible tenders and shall remain within limits stated in the procurement regulations.

2. Tender security shall be forfeited if a tenderer withdraws his tender within the validity period therefor or, in the case of a successful tenderer, if the tenderer repudiates the contract or fails to furnish performance security, if so required.

Article 30. Submission and receipt of tenders

1. Tenders shall be submitted in writing, signed and in a sealed envelope. They should be submitted at the place, time and date specified in the invitation to tender. The tender envelope should contain the documentation for the qualification of the candidates and the technical-economic tender closed in two separate envelopes. In international tender procedures the tenders can be received before the designated opening date, but the invitation to tender should specify the deadline for tender submission. In those cases, the procuring entity, after a request, should give to the tenderer a document specifying the date and time that he has submitted the proposal.

2. Tenders received after the deadline for submission shall be returned unopened to the tenderer.

Article 31. Opening of tenders

1. At the time stipulated in the tender documents for opening of the tenders, which for international tender procedures should follow shortly after the deadline for submission of tenders, the procuring entity shall open all tenders received before the deadline.

2. Tenderers, or their authorized representatives, shall be allowed to attend the opening of tenders.

3. The name of the tenderer and the total amount of each qualified tender shall be read out aloud and recorded, a copy of the record shall be made available to any tenderer on request.

4. The envelopes containing the technical-economic tender of a tenderer disqualified for not meeting qualification criteria should be sent unopened to the tenderer.

Article 32. Examination and evaluation of tenders

1. The procuring entity may ask tenderers for clarification of their tenders in order to assist in the examination and evaluation of tenders. No change in the substance of the tender, including changes in price, shall be sought, offered or permitted.

2. Notwithstanding paragraph 1, the procuring entity shall correct purely arithmetical errors that are discovered during the examination of tenders. The entity shall give prompt notice of any such correction to the tenderer that submitted the tender.

3. Subject to paragraph 4, the procuring entity shall regard a tender as responsive only if it conforms to all requirements set forth in the tender documents.

4. The procuring entity may regard a tender as responsive even if it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirements set forth in tender documents or if it contains errors or oversights that are capable of being corrected without touching on the substance of the tender. Any such deviations shall be quantified, to the extent possible, and appropriately taken account of in the evaluation and comparison of tenders.

5. The procuring entity shall not accept a tender when a tenderer:

- (a) has failed to demonstrate, in the manner foreseen in Article 26(e), that it is qualified;

- (b) does not accept a correction of an arithmetical error made pursuant to paragraph 2 of this Article;
- (c) its tender is not responsive;
- (ç) has offered an inducement under Article 16.

6. The procuring entity shall evaluate and compare the tenders that have been held responsive in order to ascertain the successful tender, as defined in paragraph 7, in accordance with the procedures and criteria set forth in the tender documents. No criterion shall be used that has not been set forth in the tender documents.

7. The successful tender shall be the tender which, in accordance with the procedures and criteria set forth in the tender documents, meets the requirements of procurement object with:

- (a) the lowest tender price; or
- (b) if the procuring entity has so stipulated in the tender documents, the lowest evaluated tender ascertained on the basis of factors affecting the economic value of the tender which have been specified in the tender documents, which factors shall, to the extent practicable, be objective and quantifiable, and shall be given a relative-weight in the evaluation procedure or be expressed in monetary terms wherever practicable.

8. The procuring entity shall prepare an evaluation report, containing a summary of the examination and evaluation of tenders.

Article 33. Process to be confidential

1. After the opening of tenders, information relating to the examination, clarification, and evaluation of tenders and recommendations for award must not be disclosed to tenderers or other persons not officially concerned with this process until the award of the contract is announced.

2. Following opening of the tenders, and until the contract is signed, no tenderer shall make any unsolicited communication to the procuring entity or try in any way to influence the entity's examination and evaluation of the tenders.

Article 34. Tenderers not to be requested to modify their tenders

A tenderer shall not be required, as a condition for award, to undertake responsibilities not stipulated in the tender documents, to change its price or otherwise to modify its tender.

Article 35. Notification of award and signing of contract

1. Prior to the expiry of the period of tender validity, the procuring entity shall notify the successful tenderer that its tender has been accepted.

2. The notification of award shall constitute the formation of a contract between the parties, which must be signed within the time stated in tender documents. The notification shall contain at least total value of contract, request for the furnishing performance security and the sign of contract form.

3. The existence of a contract shall be confirmed through the signature of a contract document incorporating all agreements between the parties.

CHAPTER VI. OTHER PROCUREMENT METHODS

Article 36. Restricted tendering procedures

Restricted tendering procedures are the same as those applied in open tendering, except that:

- (a) the invitation to tender is addressed to a limited number of qualified candidates - for the purpose of obtaining not less than three tenderers - which have declared an interest in submitting tenders. The selection should be made in a non-discriminatory manner, and the number of candidates invited should be, if possible, sufficient to ensure effective competition;
- (b) procuring entities maintaining updated lists of qualified suppliers may select candidates to be invited to tender from among those listed. Any selection shall allow for equitable opportunities for suppliers on the list;
- (c) the time allowed for preparation of tenders shall not be less than a minimum number of days stated in the procurement regulations; and
- (c) the procuring entity may decide, depending on the circumstances, if tender security will have to be submitted or not.

Article 37. Direct procurement procedure

1. When the procuring entity engages in direct procurement according to Article 19.1, it shall prepare a description of its needs and any special requirements as to quality, quantity, terms and time of delivery, and shall be free to negotiate with the sole candidate. Any agreement reached by procurement according to Article 19.1 shall be confirmed by a contract signed by both parties.

2. Direct procurement according to Article 19.2 requires no contract or other documents.

Article 38. Two-stage tendering procedure

1. When the procuring entity engages in two-stage tendering, it shall select candidates on the basis of pre-qualification proceedings according to Article 13.

2. In the first stage, the procuring entity shall invite pre-qualified candidates to submit tenders without price but including information about the technical performance, quality or other characteristics of the goods or construction that they consider best suited to meet the procuring entity's objectives. In this stage, the procuring entity may engage in negotiations with any candidate concerning any aspect of its tender.

3. In the second stage, the procuring entity shall invite final, priced tenders on the basis of final technical specifications from candidates which have presented satisfactory tenders in the first stage.

4. For award of a contract based on tenders submitted in the second stage, the provisions of Chapter V shall apply.

Article 39. Request for proposals procedure

1. Request for proposals shall be addressed to not less than three, not more than seven candidates selected by the procuring entity.

2. A request for proposals shall contain at least the following information:
 - (a) name and address of the procuring entity;
 - (b) a description of the services required, normally through terms of reference;
 - (c) in case of consultancy assignments which may involve potential conflict of interest, a reminder that candidates for such assignments must exclude themselves from procurement of goods and construction which may follow as a result of, or in relation to, the assignment;
 - (ç) the criteria for evaluating the proposals, the relative weight to be given to price and other criteria, and the manner in which they will be applied in the evaluation of proposals;
 - (d) place and deadline for the submission of proposals.
3. The procuring entity may negotiate with candidates with respect to the content of their proposals and may seek or permit revision thereof.
4. Any award by the procuring entity shall be made to the candidate whose proposal is most advantageous, determined in accordance with the criteria and procedures for evaluating proposals set forth in the request for proposals.

Article 40. Request for quotation procedure

1. The procuring entity shall request quotations from as many candidates as practicable, but from at least three.
2. The request shall contain a clear description of the requirements of the procuring entity as to quality, quantity, terms and time of delivery as well as other special requirements.
3. Any award by the procuring entity shall be placed with the candidate who meets the requirements of the procuring entity stipulated in paragraph (2) and who quotes the lowest price.
4. The procuring entity shall place a contract with the successful candidate.

CHAPTER VII. INTERNATIONAL PROCEDURES

Article 41. Open international tendering

1. The procuring entity shall use "Open international tendering" whenever in open tendering an effective competition cannot be obtained unless foreign firms are invited to tender.
2. Open international tendering shall respect the provisions of Chapter V as well as the following provisions:
 - (a) The invitation to tender and the tender documents shall be in Albanian language and in a language generally used in international trade.
 - (b) The invitation to tender shall be advertised in a newspaper using the same foreign language as the invitation and being of sufficient circulation to attract foreign competition.

- (c) The deadline for submission of tenders, stated in the procurement regulations, shall be sufficient for the invitation to reach candidates and for enabling them to prepare and submit tenders.
- (ç) Technical specifications shall, to the extent compatible with national requirements, be based on international standards or standards widely used in international trade.
- (d) Candidates shall be permitted to express their tenders, as well as any security documents to be presented by them, in their respective home currencies, or in a currency widely used in international trade and stated in the tender documents.
- (dh) General and special conditions of contract shall be of a kind generally used in international trade.

Article 42. Other international procedures

Whenever international competition cannot be obtained unless foreign firms are invited to participate in procedures other than open international tendering, such as restricted or two-stage tendering, the provisions of Article 42.2 shall apply to the extent practicable in addition to the stipulations of Chapter VI.

CHAPTER VIII. ADMINISTRATIVE REVIEW

Article 43. General

1. Subject to the provisions of this Chapter, any candidate is free to seek administrative review of an act or omission by a procuring entity which the candidate considers to be in breach of this Law, the procurement regulations or any instructions issued pursuant thereto.
2. The following shall not be subject to the review provided for in paragraph 1 of this Article:
 - (a) the choice of a procurement method pursuant to Chapter IV;
 - (b) a decision by the procuring entity under Article 15 to reject all tenders, proposals or quotations; and
 - (c) a decision taken by the entity with the consent of the Council of Ministers.
3. Once the procuring entity has signed a contract with the candidate of successful tender or proposal, a complaint against an act omission in the process leading up to that stage cannot be entertained through administrative review.

Article 44. Review by the head of the procuring entity

1. A complaint against an act or omission by the procuring entity shall, in the first instance, be submitted to the head of the procuring entity.
2. Unless the complaint is resolved by mutual agreement, the head of the procuring entity shall suspend the procurement proceedings and shall, within 15 days after submission of the complaint, issue a written decision, stating the reasons, and, if the complaint is upheld, indicating the corrective measures to be taken.

3. If the head of the procuring entity does not issue a decision within the time stated in paragraph 2, or if the candidate is not satisfied with the decision of the head of the procuring entity, he presents a complaint to the central or local body and, if he doesn't receive the desired solution of the problem, the candidate is entitled to submit a complaint to the Public Procurement Agency.

Article 45. Review by the Agency

1. Upon receipt of a complaint, the Agency shall promptly give notice of the complaint to the procuring entity. Such action automatically suspends further action by the procuring entity until the matter has been settled by the Agency.

2. The Agency, unless it dismisses the complaint, may prohibit the procuring entity from acting or deciding unlawfully or from following an unlawful procedure, may order the procuring entity to proceed in a manner conforming to this Law, and may annul, in whole or in part, an unlawful act or decision by the procuring entity, other than a decision to award or conclude a contract.

3. The Agency shall, before taking any decision regarding a complaint, notify interested candidates of the complaint and shall take into account information and arguments received from such candidates and from the procuring entity.

4. The Agency shall issue its decision within 30 days of receiving the complaint, stating the reasons for its decision and remedies granted if any.

5. The Agency's decision shall be final.

CHAPTER IX. FINAL PROVISIONS

Article 46. Administrative infringements

The higher central or local authority which ascertains the breach of the provisions of this law and procurement regulations, has the right to penalize for administrative infringement the responsive persons of procuring entity with a fine from lek 50 to 100 thousand. A complaint may be lodged against the fine within five days after the notification, to the court of district of procuring entity.

Article 47. Repeal of other legislation

All provisions that contradict this law are repealed.

Article 48. Entry in force

This law shall enter into force on 1 November 1995.

**LAW No. 8074, dated 22.02.1996
ON SOME CHANGES IN THE LAW No. 7971, dated 26.07.1995
"ON PUBLIC PROCUREMENT"**

**BASED ON ARTICLE 16 OF LAW No. 7491, dated 29.04.1991
"ON THE MAIN CONSTITUTIONAL PROVISIONS",
ON THE PROPOSAL OF THE COUNCIL OF MINISTERS,
THE PEOPLE'S ASSEMBLY OF THE REPUBLIC OF ALBANIA**

DECIDED:

Article 1

In the Law No.7971, dated 26.7.1995 "On Public Procurement", in Article 3 the following paragraph is added: "The procedures of this law should not be applied on public funds for scientific activity and technological development".

Article 2

This law shall enter into force 15 days after publishing in the "Official Gazette".

Proclaimed with the Decree No.1403, dated 11.3.1996 by the President of Republic

Sali Berisha

**REPUBLIC OF ALBANIA
PEOPLE'S ASSEMBLY**

**LAW No. 8112, dated. 28.03.1996 ON SOME CHANGES IN THE
LAW No. 7971, dated 26.07.1995 "ON PUBLIC PROCUREMENT",
AMENDED WITH LAW No. 8074, Dated 22.02.1996**

**BASED ON ARTICLE 16 OF LAW No. 7491, dated 29.04.1991,
"ON THE MAIN CONSTITUTIONAL PROVISIONS",
ON THE PROPOSAL OF THE COUNCIL OF MINISTERS,
THE PEOPLE'S ASSEMBLY OF THE REPUBLIC OF ALBANIA**

DECIDED:

Article 1

Law No. 7971, dated 26.07.1995, "On Public Procurement" changed with Law No.8074, dated 22.02.1996, is further amended as follows:

- Article 2, third paragraph, first line the word "physical" is omitted.
- Last paragraph of Article 2 is changed as follows:

"Public Funds" shall mean every monetary value originating from the state budget, from revenues of state enterprises and companies with the Government as a majority shareholder.

- In Article 12, item 5, it is added the following:

"In such a case the procurement agency can propose to the Public Procurement Agency that the candidate be excluded from all public procurement for a period up to one year." If the PPA shall approve this proposal, this shall be published in the public procurement bulletin."

- In Article 12, item 6 is changed as follows:

"(6) The procurement agency has the right to disqualify a candidate, if it, at any time up to the signing of the contract, will find out that the information submitted related with the qualification or other data presented by and for the candidate is inaccurate or incomplete."

- In Article 13, item 3, after the words "in the procedure of the open tender" it is added the following:

"by being in compliance with the time-limits defined in the procurement rules for the pre-qualification procedure".

- In Article 18, item (a), the word "and" at the end of the paragraph is omitted
- In Article 19, item 1, at the beginning of item (c) the following is added:

"in compliance with the restrictions defined in the procurement rules".

- In Article 19, item 1, the following item after item (e) is added:

"for the continuation of the design services that are related with services previously performed, which would violate the author's right if they would be given to another subject".

- In Article 30, item 1 is changed as follows:

"(1) The bids should be submitted in a written form, signed, sealed and in a closed envelope. They should be submitted at the place, time and date specified in the invitation for bids. The bid envelope should contain the documentation for the qualification of the candidates and the technical-economic bid closed in two separate envelopes. In international tenders, the bids can be accepted before the designated opening date, but the invitation for bids should specify the deadline for bids submission. In those cases, the procurement agency, after a request, should give to the bidder a document specifying the date and time that he has submitted the proposal."

- In Article 31, item 1, after the word "that" it is added "for international tender".

- In Article 31, item 3, before the words "every proposal (bid)" it is added the word "qualified".

- In Article 31, item 4 is added as following:

"the envelopes containing the technical-economic tender of a tenderer disqualified for not meeting the qualification criteria, should be sent unopened to the tenderer"

- In Article 40, item 1, the words "if possible" at the end of the paragraph should be omitted.

- In Article 44, item 3 is changed as follows:

(3) If the head of the procuring entity does not issue a decision within the time stated in paragraph (2), or if the candidate is not satisfied with the decision of the head of the procuring entity, he presents a complaint to the central or local body and, if he doesn't receive the desired solution of the problem, the candidate is entitled to submit a complaint to the Public Procurement Agency.

Article 2

This law shall enter into force 15 days after publishing in the "Official Gazette".

**REPUBLIC OF ALBANIA
COUNCIL OF MINISTERS**

DECISION

No. 12 dated 1.01.1996

ON THE RULES OF PUBLIC PROCUREMENT

On the basis of law no. 7971 dated 26.07.1995 "On Public Procurement", under the proposal of the Public Procurement Agency, the Council of Ministers

DECIDED

1. The procuring entity will use Open Tendering in conformity with Article 23 of the law "On Public Procurement" when the estimated value of the contract is over lek 10 million when procuring construction works, over lek 5 million for goods and over lek 1 million for services, with the exception of designing activity where reference will be made to the estimated construction value of the object and not to service value.

2. The procuring entity will use Restricted Tendering in conformity with Article 18, item (b) and article 36 of the above mentioned law, when the estimated value of the contract does not exceed lek 10 million for construction works, lek 5 million for goods and lek 1 million for procurement of services, excluding designing activity as in item 1.

In this case the procuring entity will ask for bids from the prospective bidders through an updated list of at least five candidates. In case of International Procedures the candidates will be selected from at least three different states.

3. The procuring entity will use "Request for Quotations" in conformity with Articles 22 and 40 of the above-mentioned law if the estimated contract value does not exceed lek 5 million for construction works, lek 2 million for goods and lek 200,000 for services.

4. The procuring entity will use direct procurement in conformity with Article 19 of the above-mentioned law:

- (a) item 1/b and 1/c for a value less than 50 per cent of the initial contract, when there is a need of contract addition within the testing period for construction works and within three months after the schedule of contract completion, for goods and services;
- (b) item 2, for readily available goods, when the estimated value for every item does not exceed lek 100,000 within a year.

5. For Open Tendering the period from the day of issuing the invitation to tender to the day of submitting the bid is not less than 30 days for construction works and services, and not less than 20 days for goods.

In Restricted Tendering, this period is not less than 20 days for construction works and services as well as for goods.

The period from the day the request for proposal is issued until the day the proposals are submitted is not less than 10 days for quotations in construction and services and not less than 5 days for readily available goods.

For International Procedures the period between the day the invitation to tender is issued until the day the bids are submitted is not less than 45 days.

6. The tender security, in the form of a deposit or bank guarantee, in conformity with Article 29 of the law, will be 2-5 per cent of the calculated value of the contract (calculated beforehand by the procuring entity and given in net value in the forms of tender). The contract security will be 10 per cent of the contract value.

7. The procuring entity, in conformity with Article 7 of the law, before a contract is awarded or concluded, will prepare a summary report and present it for preliminary review to:

- (a) the head of the central or local organs for thresholds between lek 5 and 200 million;
- (b) the Public Procurement Agency for a threshold over lek 200 million.

The central or local organ or the Public Procurement Agency may request the complete documentation on procurement procedures.

The successful bidder should confirm to the procuring entity, through signing the contract form, his readiness to sign the contract within 15 days after the day of receipt of notification in the case of open and restricted tenders, and within 30 days for international open and restricted tenders.

If the successful bidder replies negatively, the procuring entity should invite for contract negotiation the second classified bidder.

In international tenders, all the bidders should be notified about the results of the tender.

9. All the procuring entities should send the Invitation to Tender for all open tenders to the Public Procurement Agency at the Council of Ministers, not later than 10 days before tender announcement.

10. The procuring entity should preserve and make available to control organs the complete documentation of the procurements in conformity with the time-limits determined in the law "On Archives" relevant to their official documentation of the institutions.

This decision comes into effect on January 1, 1996.

APPLICATION FOR ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

Communication from Slovenia

The following communication, dated 24 September 2001, has been received from the Minister of the Economy of the Republic of Slovenia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

In reference to the commitment by the Republic of Slovenia, contained in document GATT L/7492 of 1 July 1994, I have the honour, herewith, to submit an application to accede to the Agreement on Government Procurement.

Having brought its domestic legislation into compliance with the Agreement and having notified the Committee on Government Procurement of the adoption of the Law on Public Procurement as well as on its entry into force, in support of this application, the "*Checklist of Issues for Provision of Information Relating to Accession to the Agreement on Government Procurement*" will be submitted shortly so that the Committee may review it. The document contains a description of the regulations and practices in the Republic of Slovenia related to government procurement.

Apart from the facts and statements contained in the replies to the checklist of issues referred to above, the Republic of Slovenia is further reviewing its system of government procurement and will duly notify any further developments.

In due course, the Republic of Slovenia will be submitting a draft offer in order to commence negotiations with the Signatories of the Agreement on Government Procurement.

Committee on Government Procurement

ACCESSION OF ICELAND

On 29 March 2001, the Government of Iceland deposited its instrument of accession to the Agreement on Government Procurement with the Director-General of the WTO (WT/Let/388).

In terms of paragraph 2 of its Article XXIV, the Agreement shall enter into force for Iceland on 28 April 2001.

Comité des marchés publics

ACCESSION DE L'ISLANDE

Le 29 mars 2001, le gouvernement islandais a déposé auprès du Directeur général de l'OMC un instrument d'accèsion à l'Accord sur les marchés publics (WT/Let/388).

Conformément au paragraphe 2 de son article XXIV, l'Accord entrera en vigueur pour l'Islande le 28 avril 2001.

Comité de Contratación Pública

ADHESIÓN DE ISLANDIA

El 29 de marzo de 2001 el Gobierno de Islandia depositó en poder del Director General de la OMC su instrumento de adhesión al Acuerdo sobre Contratación Pública (WT/Let/388).

De conformidad con el párrafo 2 de su artículo XXIV, el Acuerdo entrará en vigor para Islandia el 28 de abril de 2001.

Committee on Government Procurement

ACCESSION OF ICELAND

DECISION OF THE COMMITTEE OF 29 SEPTEMBER 2000

The Committee,

Having regard to the application for accession to the Agreement on Government Procurement by Iceland, contained in document GPA/W/73 of 22 June 1998, and the consultations held with the Parties to the Agreement on Government Procurement in pursuance thereof;

Decides as follows:

1. In accordance with the provisions of Article XXIV:2 of the Agreement on Government Procurement (1994), the Government of Iceland may accede to this Agreement on the terms attached.
2. The Agreement on Government Procurement will enter into force for Iceland on the thirtieth day following the date of its accession, i.e. the date on which the instrument of accession reproducing the attached terms has been received by the Director-General.
3. This Decision shall expire six months after the date of its adoption by the Committee on Government Procurement unless it is extended by that Committee by mutual consent between the Committee and Iceland.

* Appendix I is authentic in the English language only.

ATTACHMENT

TERMS OF ACCESSION OF ICELAND

APPENDIX I

ANNEX 1

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 130,000

Services (specified in Annex 4)

Threshold: SDR 130,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

The following central government entities including:

Central purchasing entities not having an industrial or commercial character governed by Act no. 63/1970 on the arrangement of public works contracts, and Act no. 52/1987, on government procurement, as amended.

The entities in charge of government procurement are the following bodies:

Ríkiskaup (State Trading Center)

Framkvæmdasýslan (Government Construction Contracts)

Vegagerð ríkisins (Public Road Administration)

Siglingastofnun (Icelandic Maritime Administration)

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting local public authorities, including all municipalities.
2. Public bodies at the local level not having an industrial or commercial character.

ANNEX 3

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services (specified in Annex 4)*

Threshold: SDR 400,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Sectors:

1. *The electricity sector:*

Landvirkjun (The National Power Company), *lög nr. 42/1983*.

Rafmagnsveitur ríkisins (The State Electric Power Works), *orkulög nr. 58/1967*

Orkuveita Reykjavíkur (Reykjavík Energy).

Orkubú Vestfjarða (Vestfjord Power Company), *lög nr. 66/1976*.

Other entities producing, transporting or distributing electricity pursuant to *orkulög nr. 58/1967*.

2. *Urban transport:*

Strætisvagnar Reykjavíkur (The Reykjavík Municipal Bus Service).

Almenningsvagnar bs.

Other Municipal bus services.

3. *Airports:*

Flugmálastjórn (Directorate of Civil Aviation)

4. *Ports:*

Siglingastofnun, (Icelandic Maritime Administration).

Other entities operating pursuant to *Hafnalög nr. 23/1994*.

5. *Water supply:***

Public entities producing or distributing drinking water pursuant to *lög nr 81/1991, um vatnsveitur sveitarfélaga*.

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

Provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex; and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*

<i>Subject</i>	<i>CPC Reference N</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752** (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services***	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866****
Architectural services; engineering services and integrated engineering services, urban planning and landscape architectural services; related scientific and technical consulting services; technical consulting services; technical testing and analysis services	867
Advertising services	871
Building-cleaning services and property management services	874, 82201-82206

<i>Subject</i>	<i>CPC Reference N</i>
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

- * except for services which entities have to procure from another entity pursuant to an exclusive right established by a published law, regulation or administrative provision
- ** except voice telephony, telex, radiotelephony, paging and satellite services
- *** except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services
- **** except arbitrations and conciliation services

ANNEX 5

Construction Services

Definition:

A construction service contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All public works/construction services of Division 51.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Iceland will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
 - Japan and Korea in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as Iceland has accepted that the Parties concerned provide access for Icelandic suppliers and service providers to their own markets, Iceland will not extend the benefits of this Agreement to suppliers and service providers of:
 - Canada as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment;
 - Israel and Korea as regards procurement by entities listed in Annex 3, paragraph 1, as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.
5. With regard to Annex 3, this Agreement shall not apply to the following contracts:
 - contracts which the contracting entities under paragraph 5 award for the purchase of water;
 - contracts which the contracting entities under paragraph 1 award for the supply of energy or of fuels for the production of energy;
 - contracts which the contracting entities award for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-EEA country;
 - contracts awarded for purposes of re-sale or hire to third parties provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and that other entities are free to sell or hire it under the same conditions as the contracting entity;
 - contracting entities exercising activities in the bus transportation sector where other entities are free to offer the same services in the same geographical area and under substantially the same conditions.
6. With regard to Annex 4, this Agreement shall not apply to the following:
 - contracts for the acquisition or rental, by whatever financial means, of land, existing buildings, or other immovable property or concerning rights thereon;
 - contracts for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time;
 - contracts awarded to an entity which is itself a contracting authority within the meaning of the Public Procurement Act: "Lög um opinber innkaup (52/1997) and Regulation (302/1996) on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision;
 - contracts of employment.

7. The Agreement shall not apply to contracts awarded under:
 - an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
 - an international agreement relating to the stationing of troops;
 - the particular procedure of an international organization.
8. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.

APPENDIX II

Publications utilised by Parties for the publication of notices of intended procurements, paragraph 1 of Article IX and of post-award notices (paragraph 1 of Article XVIII).

Icelandic newspapers:

Morgunbladid

Dagbladid

Dagur

Other:

Official Journal of the European Communities.

APPENDIX III

Publications utilised by Parties for the publication annually of information on permanent lists of qualified suppliers in the case of selective tendering procedures (paragraph 9 of Article IX).

Official Journal of the European Communities:
(Currently no such list exists)

APPENDIX IV

Publications utilised by Parties for the publication of laws, regulations, judicial decisions, administrative rulings of general application and any procedure regarding government procurement governed by this Agreement (paragraph 1 of Article XIX).

Laws, regulations and rules: Stjórnartíðindi (The Government Gazette)

Judicial decisions and administrative rulings: Hæstaréttardómar (Supreme Court Report)

(District courts do not issue a Court Report, but any interested party can obtain a transcript of a particular case. Administrative rulings are not reported but can be obtained from the relevant authority.)

APPLICATION FOR ACCESSION OF BULGARIA TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

The following communication, dated 26 September 2000, has been received from the Permanent Mission of the Republic of Bulgaria with the request that it be circulated to the Committee.

Having the honour to refer to the commitments of the Republic of Bulgaria arising from the Protocol for the Accession of the Republic of Bulgaria to the Marrakesh Agreement Establishing the World Trade Organization and to the Report from the Working Party, on behalf of the Government of the Republic of Bulgaria, I hereby apply for accession to the Agreement on Government Procurement.

**APPLICATION FOR ACCESSION TO THE AGREEMENT ON GOVERNMENT
PROCUREMENT OF ESTONIA**

The following communication, dated 4 September 2000, has been received from the Permanent Mission of the Republic of Estonia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Referring to the commitments of the Republic of Estonia as contained in document WT/ACC/EST/28 of 9 April 1999, Report of the Working Party on the Accession of Estonia to the WTO, I have the honour to submit herewith the draft offer of the Republic of Estonia in relation to the accession to the Agreement on Government Procurement.¹

The Government of the Republic of Estonia is prepared to enter into negotiations with Signatories to the GPA on the basis of the enclosed draft offer.

The Government of the Republic of Estonia reserves the right to make technical changes to its draft offer and to correct any errors, omissions and inaccuracies.

¹ Circulated as document GPA/SPEC/9.

**APPLICATION FOR ACCESSION TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Communication from Jordan

The following communication, dated 12 July 2000, has been received from the Permanent Mission of the Hashemite Kingdom of Jordan with the request that it be circulated to the Parties to the Agreement on Government Procurement.

In accordance with Jordan's Protocol of Accession, paragraph 107, and with the aim to accelerate the implementation of the commitments, I have received instructions from my Government to apply for accession to the Agreement on Government Procurement.

Jordan will be submitting replies to the checklist of issues for provision of information relating to accession to the Agreement on Government Procurement (GPA/35) in the very near future and will be submitting its offer in the coming months.

Committee on Government Procurement

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION
RELATING TO ACCESSION TO THE AGREEMENT
ON GOVERNMENT PROCUREMENT**

To facilitate consultations relating to accession to the Agreement on Government Procurement, please provide a description of the government procurement regime applied in your country by replying, to the extent possible, to the questions in the checklist of issues below. If there is no specific provision on a particular issue, the response should state this.

The information to be provided in this context is without prejudice to any additional information which Parties may wish to request from acceding governments on any other aspects of their procurement regimes. For each item on the checklist, please identify any legal or administrative actions that will need to be taken in order to align your government procurement regime with the requirements of the GPA and ensure full implementation of the Agreement following accession.

If your government is aware of any need for training or other capacity-building efforts relating to any of the items on this checklist, please describe the need in as specific and concrete terms as possible, and describe any steps your government is taking, whether independently or in cooperation with other Members or international organizations, to address that need.

I. LEGAL FRAMEWORK

1. Is there a single central law on procurement? If so, please specify?
2. What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.
3. To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.

II. SCOPE AND COVERAGE

4. Please summarize the organization of the government in your country at each level.
5. Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.

6. What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?
7. Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type entities) owned and controlled by the government that engage in procurement? Specify.
8. Do entities listed in response to questions 5, 6 and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will your government ensure the implementation of the Agreement by such entities below the central/federal government level?
9. Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defence or security reasons? Please provide details.
10. Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.
12. Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.
13. Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or service being supplied.
14. Please specify to what extent, if at all, more favourable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.
15. Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.
17. Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X.

Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?

18. In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?

19. What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign supplies/suppliers or in favour of domestic supplies/suppliers?

20. Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?

21. Article XI sets out the minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.

22. Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?

23. Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.

24. Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.

V. INFORMATION

25. Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the relevant publication(s) and indicate the media used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.

26. Article IX:1 of the Agreement foresees the publication of invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.

27. Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions of your legislation.

28. Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the relevant publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such lists are published.

29. Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give the name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.

30. Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.

31. Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.

VI. BID CHALLENGE PROCEDURES

32. Please provide information on existing challenge procedures.

33. Are there specific provisions enabling access of foreign suppliers to challenge procedures?

34. To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:

- (i) The time-limit to launch a complaint contained in the Agreement is "not less than 10 days" from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in your domestic legislation?
- (ii) What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:
 - How are its members selected?
 - Are its decisions subject to judicial review?
 - If not, how will the requirements of paragraph 6 of Article XX be taken into account?
- (iii) What is the applicable law by reference to which the challenge body will examine complaints?
- (iv) Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?
 - Do these measures include the possibility to suspend the procurement process? On what conditions?
- (v) How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?
- (vi) Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.
- (vii) What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?

VII. OTHER MATTERS

35. To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.

36. Is there a contact point in your country for responding to enquiries from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.

Committee on Government Procurement

ACCESSION OF HONG KONG

Decision

The Committee,

Having regard to the application for accession to the Agreement on Government Procurement (1994) by Hong Kong, contained in document GPA/W/28 of 6 November 1996, and the consultations held with the Parties to the Agreement on Government Procurement in pursuance thereof;

Decides as follows:

- 1. In accordance with the provisions of Article XXIV:2 of the Agreement on Government Procurement (1994), the Government of Hong Kong may accede to this Agreement on the terms attached. This shall be open to Hong Kong for a period of six months after the date of the adoption of this Decision by the Committee on Government Procurement unless the period is extended by that Committee by mutual consent between the Committee and Hong Kong.*
- 2. The Agreement on Government Procurement will enter into force for Hong Kong on the thirtieth day following the date of its accession, i.e. the date on which the instrument of accession reproducing the attached terms has been received by the Director-General. For those Parties to the Agreement whose national legislation implementing the Agreement in respect of Hong Kong has not taken effect by that date, the Agreement will apply as between them and Hong Kong as soon as such legislation has taken effect.*
- 3. Hong Kong may delay the application of paragraphs 2-8 of Article XX of the Agreement for a period of no more than one year after the entry into force of the Agreement for Hong Kong.*

Committee on Government Procurement

ACCESSION OF LIECHTENSTEIN

Decision

At its meeting on 27 February 1996, the Committee took the following Decision on the Accession of Liechtenstein.

The Committee,

Having regard to the application for accession to the Agreement on Government Procurement (1994) by Liechtenstein, contained in document GPA/IC/W/13 of 11 January 1995, and the consultations held with the members of the Interim Committee on Government Procurement in pursuance thereof;

Decides as follows:

- 1. In accordance with the provisions of Article XXIV:2 of the Agreement on Government Procurement (1994), the Government of Liechtenstein may accede to this Agreement on the terms attached.*
- 2. The Agreement on Government Procurement will enter into force for Liechtenstein on the thirtieth day following the date of its accession, i.e. the date on which the instrument of accession reproducing the attached terms has been received by the Director-General.*
- 3. This Decision shall expire one year after the date of its adoption by the Committee on Government Procurement unless it is extended by that Committee by mutual consent between the Committee and Liechtenstein.*

List of Entities:

The contracting entities which are public authorities¹ or public undertakings² and which have as at least one of their activities any of those referred to below:

1.the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of

¹*Public authorities means the State, regional or local authorities, bodies governed by public law, or associations formed by one or more of such authorities or bodies governed by public law. A body is considered to be governed by public law where it:*

-is established for the specific purpose of meeting needs in the general interest, not being of an industrial or commercial nature;

-has legal personality; and

-is financed for the most part by the State, or regional or local authorities, or other bodies governed by public law, or is subject to management supervision by those bodies, or has an administrative, managerial or supervisory board more than half of whose members are appointed by the State, regional or local authorities, or other bodies governed by public law.

²*Public undertakings means any undertaking over which the public authorities may exercise directly or indirectly a dominant influence by virtue of their ownership of it, their financial participation therein, or the rules which govern it. A dominant influence on the part of the public authorities shall be presumed when these authorities, directly or indirectly, in relation to an undertaking:*

-hold the majority of the undertaking's subscribed capital; or

-control the majority of the votes attaching to shares issued by the undertaking; or

-can appoint more than half of the members of the undertaking's administrative, managerial or supervisory body.

- drinking water or the supply of drinking water to such networks (as specified under title I);*
- 2.the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of electricity or the supply of electricity to such networks (as specified under title II);*
- 3.the operation of fixed networks providing a service to the public in the field of transport by urban railway, automated systems, tramway, trolleybus, bus or cable (as specified under title III);*
- 4.the exploitation of a geographical area for the purpose of the provision of airport or other terminal facilities to carriers by air (as specified under title IV);*
- 5.the exploitation of a geographical area for the purpose of the provision of inland port or other terminal facilities to carriers by sea or inland waterway (as specified under title V).*

I. Production, transport or distribution of drinking water

Public authorities and public undertakings producing, transporting and distributing drinking water. Such public authorities and public undertakings are operating under local legislation or under individual agreements based thereupon.

-Gruppenwasserversorgung Liechtensteiner Oberland

-Gruppenwasserversorgung Liechtensteiner Unterland

II. Production, transport or distribution of electricity

Public authorities and public undertakings for the production, transport and distribution of electricity operating on the basis of authorizations for expropriation pursuant to the •Gesetz vom 16. Juni 1947 betreffend die •Liechtensteinischen Kraftwerke• (LKWG)•.

-Liechtensteinische Kraftwerke

III. Contracting entities in the field of urban railway, automated systems, tramway, trolley bus, bus or cable services

Liechtensteinische Post-, Telefon- und Telegrafienbetriebe (PTT)

according to •Vertrag vom 9. Januar 1978 zwischen dem Fürstentum Liechtenstein und der Schweizerischen Eidgenossenschaft über die Besorgung der Post- und Fernmeldedienste im Fürstentum Liechtenstein durch die Schweizerischen Post-, Telefon- und Telegrafienbetriebe (PTT).

IV. Contracting entities in the field of airport facilities

None

Notes to Annex 3

This Agreement shall not apply:

- 1. to contracts which the contracting entity awards for purposes other than the pursuit of their activities as described in this Annex.*
- 2. to contracts awarded for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.*
- 3. to contracts for the purchase of water.*
- 4. to contracts of contracting entities other than a public authority exercising the supply of drinking water or electricity to networks which provide a service to the public, if they produce these services by themselves and consume them for the purpose of carrying out other activities than those described under this Annex under I and II and provided that the supply to the public network depends only on the entity's own consumption and does not exceed 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years.*
- 5. to contracts for the supply of energy or of fuels for the production of energy.*
- 6. to contracts awarded by contracting entities providing a bus service if other entities are free to offer the same service either in general or in a specific geographical area and under the same conditions.*

ANNEX 4

Services

The following services from the services sectoral classification list contained in document MTN.GNS/W/120 are included:

Subject

Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, 71235), and courier services, except transport of mail	712 (except 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752 ³
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services ⁴	
Computer and related services	84
Accounting, auditing and bookkeeping services	862

<i>Publishing and printing services on a fee or contract basis</i>	88442	
<i>Sewage and refuse disposal; sanitation and similar services</i>	94	

Notes to Annex 4

The Agreement shall not apply to:

- 1.service contracts awarded to an entity which is itself a procuring entity listed in Annex 1 or 2 on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision.*
- 2.service contracts which a contracting entity awards to an affiliated undertaking or which are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out an activity within the meaning of Annex 3 or to an undertaking which is affiliated with one of these contracting entities. At least 80 per cent of the average turnover of that undertaking for the preceding three years has to derive from the provision of such services to undertakings with which it is affiliated. Where more than one undertaking affiliated with the contracting entity provides the same service, the total turnover deriving from the provision of services by those undertakings shall be taken into account.*
- 3.contracts for the acquisition or rental, by whatever means, of land, existing buildings, or other immovable property or concerning rights thereon.*
- 4.to contracts of employment.*
- 5.for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time.*

ANNEX 5

Construction Services

Definition:

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

<i>General construction work for buildings</i>	<i>512</i>
<i>General construction work for civil engineering</i>	<i>513</i>
<i>Installation and assembly work</i>	<i>514 • 516</i>
<i>Building completion and finishing work</i>	<i>517</i>
<i>Other</i>	<i>511 • 515 • 518</i>

*GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF
ARTICLE III*

1. The Principality of Liechtenstein will not extend the benefits of this Agreement:

-as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada and the United States of America,

-as regards the award of contracts by entities listed in Annex 3 in the following sectors:

-water: to the suppliers and service providers of Canada and the United States of America;

-electricity: to the suppliers and service providers of Canada, Japan and the United States of America;

-urban transport: to the suppliers and service providers of Canada, Israel, Japan, Korea and the United States of America

until such time as the Principality of Liechtenstein has accepted that the Parties concerned give comparable and effective access for undertakings of the Principality of Liechtenstein to the relevant markets;

-to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.

2. The provisions of Article XX shall not apply to suppliers and service providers of:

-Israel, Japan and Korea in contesting the award of contracts by bodies governed by public law and not having an industrial or commercial character listed in Annex 2, paragraph 2, until such time as the Principality of Liechtenstein accepts that they have completed coverage of sub-central entities;

-Canada, Japan, Korea and the United States of America in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small- or medium-sized enterprises under the relevant provisions of the law of Liechtenstein until such time as the Principality of Liechtenstein accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;

-Israel, Japan and Korea in contesting the award of contracts by entities of the Principality of Liechtenstein, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as the Principality of Liechtenstein has accepted that the Parties concerned provide access for suppliers and service providers to their own markets, the Principality of Liechtenstein will not extend the benefits of this Agreement to suppliers and service providers of:

-Canada, as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);

-Canada, as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the United States of America as regards air traffic control equipment;

-Korea and Israel as regards procurement by entities listed in Annex 3, paragraph (B) as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;

-Canada and the United States of America as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.

4. The Agreement shall not apply to contracts awarded under:

-an international agreement and intended for the joint implementation or exploitation of a project by signatory States;

-the particular procedure of an international organization.

5. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.

6. The provision of services, including construction services, in the context of procurement procedures according to this Agreement is subject to the conditions and qualifications for market access and national treatment as will be required by the Principality of Liechtenstein in conformity with its commitments under the GATS.

Committee on Government Procurement

ACCESSION OF THE KINGDOM OF THE NETHERLANDS WITH
RESPECT TO ARUBA

Decision

At its meeting on 27 February 1996, the Committee took the following Decision on the Accession of the Kingdom of the Netherlands with respect to Aruba.

The Committee,

Having regard to the application for accession to the Agreement on Government Procurement (1994) by the Kingdom of the Netherlands with respect to Aruba, contained in document GPA/IC/W/14 of 8 February 1995, and the consultations held with the members of the Interim Committee on Government Procurement in pursuance thereof;

Decides as follows:

- 1. In accordance with the provisions of Article XXIV:2 of the Agreement on Government Procurement (1994), the Government of the Kingdom of the Netherlands with respect to Aruba may accede to this Agreement on the terms attached.*
- 2. The Agreement on Government Procurement will enter into force for the Kingdom of the Netherlands with respect to Aruba on the thirtieth day following the date of its accession, i.e. the date on which the instrument of accession reproducing the attached terms has been received by the Director-General.*
- 3. This Decision shall expire six months after the date of its adoption by the Committee on Government Procurement unless it is extended by that Committee by mutual consent between the Committee and the Kingdom of the Netherlands with respect to Aruba.*

ATTACHMENT

NOTIFICATION OF NATIONAL IMPLEMENTING LEGISLATION

Communication from Georgia

The following communication has been received from the Permanent Mission of Georgia with the request that it be circulated to the Committee on Government Procurement.

With reference to the process of the accession of Georgia to the Agreement on Government Procurement, the following Georgian legislation* in the field of government procurement is being circulated to the Parties to the Agreement:

- Law on State Procurement, 9 December 1998 (pages 2 – 14)
- Law on Amendments to the Public Procurement Law, 30 March 2001 (pages 15 - 23)
- Regulations on Implementation of State Procurements (pages 24 – 54)

* In English only (translated from Georgian).

GEORGIAN LAW ON STATE PROCUREMENT

CHAPTER I. GENERAL PROVISIONS

Article 1. Scope of Application of Law

1. This Law states the general legislative and economic principles governing State procurement.
2. The regulations determined by the present Law apply to any State procurements except the State procurement related to State secrets as defined by the Georgian Law “on State Secrets”.
3. Regulations for implementation of State procurement connected to State secrets defined in the Georgia Law “on State Secrets” is developed by the National Security Council and approved by the President of Georgia.

Article 2. Purpose of the Law

The purpose of the Law is to:

- a) provide rational and economical expenditure of financial resources allocated for State procurement;
- b) develop sound competition between suppliers producing goods, works and services meeting State needs;
- c) provide just and non-discriminative approach towards participants of procurement proceedings;
- d) achieve transparency and publicity in the State procurement;
- e) create a single, integrate procurement system and promote public confidence in the mentioned system.

Article 3. Definition of Concepts and Terms Used in the Law

- a) “State procurement” - acquisition of any goods, works or services in order to meet State needs and by utilizing funds from:
 - a.a) Georgian State budget and means consolidated in the State budget;
 - a.b) Budgets of the Abkhazian Autonomous Republic and the Adjarian Autonomous Republic;
 - a.c) Budgets of other Georgian territorial units determined by Georgian legislation.

- b) “Procuring organization” – management bodies; management and self-governing bodies; institutions and organizations funded from the corresponding budgets; and other institutions and enterprises for which State and local budgets are allocated for acquisitions of goods, works or services; of Georgia, Abkhazian and Adjarian Autonomous Republic.
- c) “Object of Procurement” – particular types of goods, works, and services purchased by the procuring organization.
- d) “Bidder” - any physical or legal body in Georgia or in foreign countries that passed through the qualification procedure.
- e) “Supplier” - any physical or legal body in Georgia or a foreign country that concluded contract with a procuring organization on implementing State procurement.
- f) For the purpose of the present Law, the term “construction works” means works that are carried out for construction of an entity or its parts, as well as repair, reconstruction, and rehabilitation of the entity (except design related activity).
- g) For the purpose of the present Law, the term “preference” means the acceptable difference between the values of the bid submitted by the national bidder and that of the foreign bidder in which case upon the evaluation by price factor the preference will be given to the national bidder.

Article 4. Coordination of State Procurement Related Activity

1. State procurement related activity determined by this law is coordinated by the Georgian Ministry of Economy.
2. The Ministry of Economy within the limits of its competence :
 - a) elaborates and approves the by-laws ensuring the full enactment of the present Law.
 - b) analysis the efficiency of the State procurement system and takes measures for its improvement; periodically informs the President of Georgia on State procurement related issues; in case of necessity prepares proposals and submits them to the Georgian President to take a decision;
 - c) carries out advisory activity concerning State procurement related issues; assists procuring organizations to comply with the norms determined by this Law and the by-laws; arranges seminars and meetings to improve the qualification of the participants of State procurement proceedings and ensures the publicity of the legislation regulating State procurement;
3. The functions, rights and obligations provided by this Law will be exercised by the State Procurement Department established with the Ministry of Economy of Georgia. The Head of Department is appointed and dismissed by the President of Georgia at the proposal of the Ministry of Economy.

Article 5. Rights and Obligations of procuring organizations

1. A procuring organization has the right:
 - a) to select a supplier according to this Law and bylaws and conclude a contract with the supplier;
 - b) to disqualify a person according this Law;

- c) to terminate procurement proceedings at any time before a contract is signed if such a decision stems from an objective necessity that is beyond the control of the procuring organization and can not be foreseen, also based on state or public interests;
 - d) to supervise and exercise control over the fulfillment of the contract;
 - e) according to the effective legislation suspend or terminate the realization of the contract if the supplier submits false qualification documents, also in other cases determined by the legislation.
2. A procuring organization is obliged:
- a) to carry out State procurement in a rational manner within the limits of the allocated assigned budget allocations and stemming from the country's interests and according to the rules stated by this Law and the by-laws;
 - b) To keep confidential the information provided by bidders to the procuring organization before the contract on state procurement is signed.
 - c) Submit to the Georgian Ministry of Economy reports on the realized State procurements according the format and within the terms set forth by the Article 24 of the present Law.
 - d) Immediately submit to the Georgian State Department of Statistics statistical reports on the realized State procurements according the format developed and approved by the Georgian State Department of Statistics.
 - e) Pay the supplier the cost of works and/or services immediately upon goods, works, and services are delivered, unless otherwise stated in the contract.
 - f) In case if state procurement is canceled according to the Article 5 (2) (c) implement this procurement only by resuming the terminated procedures.
 - g) In the cases provided by the Article 5 (2) (c) notify the Georgian Ministry of Economy and parties participating in the procurement process about its decision and the grounds for such a decision within the 3 (three) days upon the decision is made. Meanwhile, procuring organization is not obliged to provide the participants of the procurement process with the evidence or give the detailed information, that made basis for the above mentioned decision, as well as reimburse the bidders' costs related to the participation in the proceedings, except tender fees.

CHAPTER II. METHODS OF STATE PROCUREMENT

Article 6. Methods of State Procurement

1. Methods of State procurement are as follows:
 - a) open tendering
 - b) closed tendering
 - c) single-source procurement
2. In cases justified by the present Law, open and close tenders can be carried put in two stages.
3. Principles for the use of procurement methods are determined by the present Law and by-laws adopted by the Georgian Ministry of Economy;

CHAPTER III. TENDER

Article 7. Basic Principles Governing the Choice of Type of Tender

1. Open tender is held in cases when the estimated value of the subject to procurement exceeds the amount of 70.000 LARI, while in the case of procurements of construction works – 230.000 LARI.
2. Closed tender is held in the cases when the estimated value of the subject to procurement is less then the amount of 70.000 LARI (while in the case of procurements of construction works – 230.000 LARI), but exceeds the amount of 25.000 LARI (while in the case of procurements of construction works –120.000 LARI)

Article 8. Grounds for Establishing and Functioning of Tender Committee

1. Both, open and closed tenders are held by Tender Committee which is established by the Head of the procuring organization and consists of at least 5 members;
2. Head of procuring organizations and/or deputies, as well as heads of structural sub-divisions of procuring organizations are appointed as members of Tender Committee;
3. It is prohibited for a close relative of the head of bidder (physical or legal body); a founder or member of bidding organization that has a status of legal body and exists as a Fund or a Union; or has a share in the bidder enterprise equity; to be a member of the Tender Committee;

 - j) time, place and rule of tender proposals disclosure;
 - k) the names and contact details of the officers of the Tender Committee apparatus, that are entitled to have direct contact with the bidders and provide them with the information and explanations on the procurement procedures;
4. The textual materials, specifications, plans, schemes, sketches and other materials used for the technical and qualitative parameters of the object to be procured should correspond to the current standards of international and Georgian standards, technical specifications, terminology and conventional definitions. It is forbidden to include the trademark, patent, model, source and producer in the description of goods to be procured.
5. The Tender Committee, pursuant to the written request of bidder, or at its own discretion, shall explain or verify the information connected with the tender documentation, which shall be attached to the tender documentation in the form of appendices and shall be distributed to all the bidders 15 calendar days before the end of submission of tender proposals. The appendices or verification should not change the essence of the tender documentation.

Article 13. Preferences

In the case of participation of both local and foreign bidders 15 % preference is granted in respect of the tender proposal price, which should be submitted by the local bidder.

Article 14. Agreement on Intention

1. The procuring organization, prior to review of tender proposals enters agreement on intention with each bidder. Under the agreement:

- a) in case of winning the tender the bidder undertakes the obligation to enter agreement with the procuring organization on goods supply or, correspondingly implementation of work, or rendering services;

- b) except for the case envisaged in Article 5.2.(c) of the Law or the event of disqualification, the procuring organization undertakes obligation to enter agreement with the bidder on goods supply or, correspondingly implementation of work, or rendering services in case of winning the tender by the latter, on the terms defined in the tender proposal;
2. Agreement on intention shall include term of the agreement on State procurement, the term of validity of the bidders tender proposals, also the responsibilities of parties in the event of default on the liabilities assumed under the agreement on intention.
3. The rules for definition of the forms of responsibility for breaching the form and conditions of the agreement on intention are defined by by-laws.

Article 15. The procedure for submission and review of tender proposals

1. Tender proposals are submitted to the Tender Committee in sealed envelopes and the envelopes are opened at a Tender Committee meeting upon the expiration of their submission period and in the presence of the bidders. After opening the envelopes the committee determines the deadline for the reviewing of received proposals and taking a final decision.
2. Before the disclosure of the tender proposals bidders have right to withdraw or change the tender proposal any time;
3. The Tender Committee only reviews the proposals of the bidders, which entered the agreement, envisaged by the Article 14 of the Law with the procuring organization.
4. Tender proposals are assessed in accordance with the criteria and priorities defined in the tender documentation. In case if the tender proposal submitted by bidder is not consistent with the requirements of tender documentation, the Tender Committee, at its own discretion, takes decision on disqualification.
5. The Tender Committee does not disqualify tender proposal, in case it includes inconsistencies, that do not materially change or contradict the essence of the requirements stated in the tender documentation or correction of which does not affect the essence of the tender documentation.
6. In the case defined in unit 5 of this Article the Tender Committee addresses the corresponding bidder with the request to verify the tender proposal.
7. Tender winner is determined on the basis of written conclusions submitted by Tender Committee members, in accordance with the estimation criteria and prioritization stated in the tender documentation.
8. The conclusion of Tender Committee member there should indicate the name of the preferred bidder, and also the basis and arguments for such preference.
9. The absolute majority of conclusions of Tender Committee members decide winner. In the case of equal votes the chairman of Tender Committee has the casting vote.
10. The decision of Tender Committee, stated in unit 7 of the Article is registered in minutes, with the conclusions of Committee members attached to it. Minutes should include information on the persons participating in the review of tender proposals, on bidders and also summary of the submitted proposals.
11. Bidder can sue for any issues connected with the tender procedures.

Article 16. Signing a Letter of Agreement with the winner

1. Subject to the current law and on the basis of the agreement defined in the Article 14 of the law, as well as tender proposal conditions of the winner, agreement on State procurement is made between procuring organization and the winner.
2. The conditions of agreement are defined by by-laws.
3. In the case of procurement of construction works no less, than 70 % of the engineering-technical personnel and workers involved in implementation of the work should be citizens of Georgia.
4. In the case of disqualification of the winner, or in case, if the winner refuses to enter the agreement the Tender Commission addresses other bidders for participation in the renewed review process of tender proposals, and if necessary, on prolongation of the term of the agreement on intention. In case, if non-of the bidders express desire to participate in the renewed review process new tender is held.

Article 17. Re-announcement of tender

1. In case if no winner was declare pursuant to tender process and renewed review-assessment of tender proposals, or despite tender announcement no tender proposals had been submitted or non of the submitted proposals was consistent with the conditions of Tender documentation, than Tender Committee elaborates new tender documentation and announces new tender.
2. Subject to the unit 1 of the Article the procuring organization can change the tender Committee, or appoint new members.

Article 20. Candidate selection during closed tender

1. In the case defined in the Article 7.2 of the Law tender announcement will be sent to the selected persons;

2. In the case of closed tender the number of the tender proposals to be reviewed should not be less, than three.
3. Besides the rules defined in the unit 1 and the unit 2 of the Article other rules determined for open tender are also used for closed tender.

Article 21. Two-stage tender

1. Two-stage tender is held if:

- a) given the peculiarity of the object to be procured, it is impossible to determine all the technical and economic conditions of the object in advance and the procuring organization considers it necessary to hold negotiation with bidders at the first tender stage, in order to determine technical, economic and other aspects;
- b) the object of State procurement is consultancy, scientific research, experimental, investigative or consultation-projecting works, and it is impossible to determine their results and price in advance;

2. At the first stage of two-stage tender the bidders shall submit their free Initial tender proposals, (“initial tender proposal”);

3. At the first stage Tender Committee can hold direct negotiations with bidders, with the purpose to verify any issues of the initial tender proposal, as well as define the final parameters for tender documentation;

4. Pursuant to review of the initial tender proposal the Tender Committee determines the final version of tender documentation, that shall be distributed among all the bidders in case of payment of tender fee.

5. Besides the rules defined in the units 2,3 and 4 of the Article, the rules for one-stage tender are also applicable to the two-stage tender.

CHAPTER IV. THE METHOD OF HOLDING NEGOTIATION WITH ONE BIDDER

Article 22. The method of direct negotiation with a single person

1. The procuring organization may chose to use the method of holding direct negotiations on State procurement with a single person, in case:

- a) the assumed price of the State procurement object does not exceed 25.000 LARI (while in the case of construction works – 120.000 LARI)
- b) supply or implementation of the State procurement object is the exclusive right of a single person;
- c) as a result of Force Majeure the State procurement can not be postponed;
- d) it is necessary to implement State procurement from the same supplier with the purpose of further application and prevention of deterioration of qualitative feature of goods, technology or equipment received from the supplier, except for the case when the initial supply cost exceeds the assumed amount of the State procurement to be implemented;

2. In the case of application of the method of holding direct negotiations on State procurements the head of the procuring organization or the authorized person appointed by him (her) subject to legislation.

CHAPTER V. REVIEW OF THE CONDITIONS OF AGREEMENT ON IMPLEMENTATION OF STATE PROCUREMENT

Article 23. Review of the conditions of agreement on Implementation of State procurement

1. It is not permitted to change the conditions of the agreement entered with the supplier if it causes increase in the price of the agreement and adversely affects the conditions of the agreement referring to the procuring organization, except for the case envisaged by the Article 398 of the Civil Code;

2. The procedures and rules for review of the conditions of agreement on implementation of State procurements are defined by the Georgian Legislation.

CHAPTER VI. CONTROL OF STATE PROCUREMENTS

Article 24. State procurement account

1. The State procurement process is reflected in the State procurement account and the rule for its elaboration and keeping is defined by the by-law, adopted by the Ministry of Economy.

2. After tender is held minutes of Tender Committee meeting, decisions taken, conclusions of the experts and consultants participating in the tender, also other documents defined in the by-law referred to in the unit 1 of the Article should be attached to the account.

3. The State procurement accounts shall be submitted to the Ministry of Economy of Georgia within the following terms:

- a) in the case of tender no later, than 10 days after agreement is executed;
- b) in the case of holding negotiations with a single person, if the amount of State procurements exceed 25.000 LARI -no later, than 10 days after agreement is executed;
- c) in the case the amount of State procurements is less than 25.000 LARI - on quarterly basis, no later, than the 10th day of the first month of the following quarter;

4. All the interested persons shall have access to the State procurement accounts if requested, and their summary should be made public on regular basis through the State procurement bulletins, founded by the Ministry of Economy of Georgia.

CHAPTER VII. TRANSITIONAL PPOVISIONS

 - c) the Law of Georgia “on State Orders in the Construction Sector” (06.02.98)

On January 1, 2000 the Ordinance of the President of Georgia “ on Certain Urgent Measures for the Optimal Use of Budgetary Appropriations for the Country’s Law Enforcement Bodies and Some Urgent Measures Fostering the Operation of Local Enterprises at a Maximum Capacity” dated June 20, 1997 will become invalid;

Article 28. Enactment of the Law.

Article VII and VIII of this Law shall enter into force immediately upon publication, while other articles only after July 1, 1999.

THE PRESIDENT OF GEORGIA:

E. SHEVARDNADZE

Tbilisi, december 9, 1998

1721-I

(Is published in the official newspaper
of Georgia – SAKARTVELOS
SAKANONMDEBLO MATZNE
#10, 19.04.2001)

LAW ON AMENDMENTS TO THE PUBLIC PROCUREMENT LAW

The Parliament of Georgia resolves:

I. The following amendments and additions shall be made to the Public Procurement Law (*Georgian Legislative Herald*, #7, 1998).

1. In the Article 3:

A) in the subparagraph a.c) of paragraph (a) the words “territorial units” shall be substituted with “local,” and new a.d), a.e), a.f) and a.g) subparagraphs shall be added to paragraph (a) which shall read as follows:

- a.d) *by special funds of all those organizations and institutions which are funded out of the resources of the State Budget of Georgia, budgets of Autonomous Republics of Abkhazia and Adjara and local budgetary resources specified by law;*
- a.e) *by funds extended by other countries and international organizations either as an international assistance or lending on the basis of international agreements (except the cases when the given Law is in conflict with the respective international agreement or if respective credit or grant agreements provide for internationally accepted procurement rules different from the rules established by this Law);*
- a.f) *by loans extended under the government’s guarantee;*
- a.g) *by funds of public or private legal entities, (except of National Bank of Georgia) established on the basis of the State property, irrespective of sources of such funds.*

B) Paragraph b) of Article 3 shall read as follows:

- b) *Procuring agency – any executive governmental body of Georgia, or Autonomous Republics of Abkhazia and Adjara, budgetary agency or organization, local self-governance and governance bodies as well as any other institution or company that is procuring goods, works and services by the funds specified in paragraph a) of this Article.*

C) New sub-paragraphs h), i) j), and k) shall be added after the sub-paragraph g) to read as follows:

- h) *price quotation – a simplified method of procurement of goods, services, and minor works the estimated value of which is above 10000 GEL and below 25000GEL, and also of minor works at estimated value above 50000 GEL and below 120000GEL*

- i) *procurement of intellectual services – a special type of procurement, of intellectual and other consulting services, scientific research works and experiments, construction designs, and government’s orders in the education sphere;*
- j) *goods – any types of goods (including raw materials, manufactured goods, equipment, buildings, etc.) being in solid, liquid or gas condition, also electrical power; this will also include services associated with the goods if the cost of these services is not higher than that of the goods;*
- k) *services – any subject of procurement except goods and civil works.”*

2. Article 4 shall read as follows:

Chapter 4. Public Procurement Agency

1. *With the purpose of coordinating and monitoring all public procurement activities, under the guidance of the Law on Public Legal Entities, a permanently-operating independent agency to be referred to as the Public Procurement Agency (hereinafter the “Agency”) shall be established, the chairman of which, shall be appointed and dismissed by the President of Georgia at the proposal of the Ministry of Economy, Trade and Industry.*
2. *The Constitution of Georgia, international covenants and agreements, this Law and the Agency’s charter to be adopted on the basis of the above-mentioned documents shall constitute a legal base of the Agency operations.*
3. *With the purpose of ensuring transparency in the public procurement system and publicity in the activities of the Agency, a Board of Supervisors shall be established with the Agency, which shall consist of 7 members (including Chairman of the Board of Supervisors), to be appointed by the President of Georgia. Charter of the Board of Supervisors shall be approved by the President of Georgia. The staff of the Board of the Supervisors: officials from ruling and controlling bodies (representatives of the Chamber of Control, Ministries of Finance, Justice and Economy, Industry and Trade); Representatives of Mass media and Public organizations. The Board of Supervisors work on the public basis.*
4. *The Charter and the structure of the Agency shall be based on this Law and shall be approved by the President of Georgia. A state body carrying out control of the activities of the Agency shall also be specified by the Charter of the Agency in compliance with the legislation of Georgia.*
5. *The Agency shall be funded:*
 - a) *funds earmarked from the State Budgets;*
 - b) *out of the revenues received for the work carried out on the basis of the agreement;*
 - c) *out of the revenues in consistent to the Georgian legislation.*
6. *The main functions of the Agency shall be as follows:*
 - a) *to develop and make public any normative acts required for the implementation of this Law and standard bidding documents and to harmonize them with international norms;*
 - b) *on the basis of reports received from procurement agencies, to implement systematical studies and analyses of situation existing in the country’s procurement system and to*

provide recommendations to the President of Georgia to enable him to make appropriate decisions;

- c) to develop model teaching programs and methodological materials and documentation, to hold seminars and training sessions for central and local governmental bodies, law-enforcement agencies, mass media and other interested parties;*
- d) to develop and improve an integrated public procurement data base;*
- e) to provide expertise, recommendations and consulting services to procurement agencies;*
- f) to maintain the register of suppliers*
- g) to support the establishing of modern informational and communications technologies in the public procurement system;*
- h) to make public any normative acts and reports for ensuring publicity of public procurement and to publish a special periodical newsletter;*
- i) on the basis of administrative procedures to adjudicate any disputes emerged in the course of public procurement activities;*
- j) to oversee the lawfulness of state procurement procedures and define the state policy regulating procurement process.*

3. New 4¹, and 4² articles shall be added to the Law to read as follows:

Article 4¹. Duties and Responsibilities of the Agency Chairman

1. The Agency Chairman shall:

- a) in agreement with the Board of Supervisors established at the Agency issue normative acts – orders - specified in this Law and mandatory for all the agencies involved in the state procurement;*
- b) make orders and instructions on internal organizational matters;*
- c) regulate any issues which are within the Agency's jurisdiction;*
- d) monitor the Agency's structural units to ensure that they perform their functions in proper manner; supervise the Agency staff according to the established procedures.*
- e) within the limits of its competence appoint and dismiss the Agency staff;*
- f) manage the Agency's funds and control the spending;*
- g) make suggestions according to the established procedures on such decisions which should be made on any matter over which the Agency has jurisdiction;*

2. The Chairman of the Agency is responsible for the Agency's activities in accordance with law.

Article 4². Duties, Responsibilities and Operational procedures of the Board of Supervisors

1. *The Agency's Board of Supervisors shall*
 - a) *review at its meetings normative acts to be issued by the Chairman of the Agency, and the by-laws of the Agency's structural units and results of their activities;*
 - b) *In its operations the Agency's Board of Supervisors shall be guided by the key directions of the government's public procurement policy and at its meetings shall give the participants in the public procurement activities possibility to freely defend their respective interests;*
 - c) *prepares annual reports about its activity and submits it to the President of Georgia. The reports should be open to public*
2. *Agency's Board of Supervisors within the limits of its competence, shall have the right to request procurement agencies to provide it with any information related to the public procurement activities and to examine correctness of such data and information*
3. *The meetings of the Agency's Board of Supervisors shall be open to public and all its decisions shall be published in accordance with the existing procedures. Confidentiality of any information considered by the Board of Supervisors shall be preserved in accordance of applicable law.*
4. *In sub-paragraphs 2(c) and 2(g) of Article 5, also in paragraph 3 of Article 24 the words "Georgian Ministry of Economy" should be substituted with the word "Agency"; also paragraph 2(d) of Article 5 should read as follows:*
 - d) *without delay present to the Agency a statistical report on the implemented procurements in a template developed by the Agency and approved by the State Statistics Department of Georgia.*

5. After Article 5, new articles 5¹ and 5² shall be inserted which shall read as follows:

Article 5¹. Terms and Procedures for Avoiding Conflict of Interests

1. *These procedures which are aimed at avoiding conflict of interests shall apply to the following activities related to public procurement:*
 - a) *conducting any operations required for preparing public procurement, including those aimed at identifying both characteristics and estimated costs of objects to be procured;*
 - b) *selecting members of tender committees and any other persons responsible for implementing public procurement;*
 - c) *preparing tender application forms, tender documents and other required materials;*
 - d) *reviewing and evaluating qualifications materials and bids;*
 - e) *under the conditions envisaged in this law, holding technical discussions and negotiations;*
 - f) *under the conditions of closed tender, selecting potential bidders;*
 - g) *overseeing and monitoring the implementation of the public procurement contracts;*
 - h) *conducting any other activities aimed at implementing public procurement.*
2. *No person willing to take part in the public procurement activities and/or actually participating in such activities shall have the right to apply any procuring agency (its managers or employees) or any governmental agency with a request to assist him, or by using all means and methods to put any direct or indirect pressure on such agencies in order to win the right to enter into any public procurement contract, which may be beneficial to such a person.*
3. *No procuring agency shall assign any person to the duty of organizing and managing the public procurement activities or overseeing such activities and no procuring agency shall invite any person as a consultant (or expert), if such a person:*
 - a) *is closely related to any managerial staff of a legal entity involved in the public procurement activities or to a direct party to such activities if the latter is an individual;*
 - b) *for the last three years has worked for any agency involved in the public procurement activities;*
 - c) *has a personal or business relationship or has conducted negotiations with the purpose of establishing such relationship with any individual or legal entity that is involved in the public procurement activities.*
4. *No individuals and legal entities that had been involved in the public procurement preparatory operations shall have the right to take part in the public procurement activities.*
5. *All provisions prescribed in paragraphs 3 and 4 of this Article shall also apply*
 - a) *in cases of overseeing the implementation of public procurement contracts;*

- b) *to all parties to any state procurement conducted through negotiations with one person.*
- 6. *In cases of open or closed tenders, immediately after the qualifications materials submission deadline, all members of the tender committee, all invited consultants (experts), and all those employees of the procuring agency that have anything to do with the public procurement activities, shall be required to certify in written that his or her involvement in this particular public procurement activity is not in conflict with any of the above requirements.*
- 7. *Whenever consulting services are to be procured, the following conditions shall be met:*
 - a) *no consultant or any affiliated person thereof (whether individual or entity) shall take part in any public procurement activity, which given the nature of such activity may be in conflict with any other responsibilities of such consultant;*
 - b) *all consultants (both individuals and entities) shall be required to give the procuring agency a professional, objective and unbiased advice based on the interests of the procuring agency.*

Article 5². Public Procurement Planning

- 1. *Any procurement agency shall implement public procurements in accordance with an annual procurement plan developed and approved in advance. In the case of multiple year procurement, planning is conducted by a pertinent procuring body in compliance with the Georgian legislation. State procurement planning is regulated by the Decree of the Agency Chairman.*
 - 2. *Each annual procurement plan shall be developed in accordance with the procedures of developing and reviewing the drafts of appropriate (State or local) budgets, as set out in the laws on the Budgetary System and Budgetary Authorities and the Principles of the Georgia Economic and Social Development Indicative Planning.*
 - 3. *Procurement of homogenous goods, services and work conducted by a pertinent procurement agency during a year is considered as one procurement if it is financed out of one source.*
 - 4. *Not later than 20 days following the approving of the State Budget, or those of the Autonomous Republics, or local budgets, the head of a pertinent procurement agency shall approve and provide to the Agency the revised procurement plan.*
- 6. Paragraph 4 shall be added to Article 6 of the Law:**
- 4.The quotation and the intellectual services procurement methods shall be defined in a special normative act.*
- 7. In the paragraph 3 of Article 16 the following words shall read as follows:**
3. *“In case that the construction works are procured, if the construction site is located in the Georgian territory” should be added after the words “in case procurement of works.”*
8. In paragraph 1 of Article 19 the following words shall be added after “with funds form the State Budget of Georgia:” “special funds of the organizations and agencies funded from the State Budget, with funds received as assistance or credits from foreign countries and international organizations on the base of international treaties, credits received with state guarantee, with funds of legal public entities established with state property (except the National Bank of Georgia),”; also in paragraph 2 after the words “and with the funds of local budgets” the following words shall be added:

“budgets of Autonomous Republics of Abkhazia and Ajara, special funds of organizations and agencies funded from the local budgets as defined by the legislation of Georgia.”

9. Paragraph 2 of Article 20 shall read as follows:

2. *In case the closed tender is conducted the number of bidders shall not be less than 3, otherwise the procuring Entitie has the right either to continue the begun tender or terminate it and announce an open tender (after the agreement with the agency).*

10. Subparagraph “a” of Paragraph 1 of Article 22 shall read as follows:

a. *The estimated cost of the unit under procurement shall not exceed 10 000 GEL and in the case of procuring construction works – 50 000 GEL*

12. Paragraph 5,6,7 and 8 shall be added to Article 24 of the Law which shall be read as follows:

”5. *If the volume of public procurements conducted through a tender exceeds 2 million Lari, the chairman of the tender committee shall report on the procurement process to the President of Georgia at the government meeting”.*

6. *The Ministry of Finance of Georgia, those of the Autonomous Republics of Abkhazia and Adjara, and local finance departments shall be obligated to regularly (on a monthly basis) provide the Agency with information about actual disbursements to the budgetary agencies.”*

7. *The Agency is authorised to request any documents and information on state procurement from procuring organizations and bidders at any stage of state procurement implementation, including the information on implementation of agreements.”*

8. *In order to ensure transparency of the procurement process the agency’s obliged to carry out monitoring of the protecting of such principles during the state procurement process as publicity, fairness, proper fulfilment of the determined procedures, reporting open and efficient competition, an opportunity of rational and free choice.*

13. After Chapter 6 a new Chapter 6¹ shall be added to read as follows:

Chapter 6¹ – Adjudicating Disputes and Bringing Claims in Relation to Public Procurement

Article 24¹. Bringing of Claims

1. *All persons willing to participate or actually participating in the public procurement activities, all bidders and suppliers, whether being individuals or entities, shall have the right to contest any action of procuring agencies (or tender committees), if they believe that in the course of the public procurement activities any rules or procedures, established by the Public Procurement Law or any other applicable legal act, and/or their rights have been violated.*

2. *If any claim emerges before the conclusion of a public procurement contract, the person who has such a claim may request directly the procuring agency to reconsider the decision of the relevant officer of the tender committee or procuring agency or to review the dispute.*

3. *In cases envisaged in paragraph 2 of this Article, any person who has a claim may apply to the procuring agency with this claim not later than 20 calendar days after the receipt of*

information about the conditions or the making of that decision which caused the emergence of such a claim or dispute. All such persons whose interests actually are or can be affected by such claim shall have the power to take part in the review of that claim.

4. *Before a public procurement contract is made, any individual or legal entity that is willing to take part or is actually participating in the public procurement procedure, or is a bidder or supplier, may appeal to the Agency with a claim to review any dispute which may arise in relation to public procurement.*
5. *Any individual or legal entity that is willing to take part or is actually participating in the public procurement activities, or is a bidder or supplier, may appeal to the Agency also in case that such individual or entity is not satisfied with the decision of the procuring agency.*
6. *In cases envisaged in paragraphs 4 and 5 of this Article, the Agency, not later than 10 days after the receipt of a claim, shall make in written a reasonably justified decision which shall be communicated to those persons and the procuring agency that has submitted the claim.*
7. *If as a result of thorough scrutiny of the claim itself, as well as all related conditions, the Agency finds that the claim is reasonably justified, then the Agency shall have the power to:*
 - a) *warn the procuring agency that it has committed an incorrect action and call on it to implement the public procurement activities in accordance with the requirements of law;*
 - b) *require that the procuring agency review or cancel its decision(s);*
 - c) *in case that it finds that any participant in the public procurement activities has failed to comply with the provisions of this Law, to require the appropriate agencies to hold such a participant responsible for such a breach.*
8. *After the deadline specified in paragraph 3 of this Article, as well as after the public procurement contract has been entered into effect, all claims and appeals may be heard by courts only.*
9. *No claim may be considered if it refers to:*
 - a) *the selection of a public procurement method, if the same has already been selected in accordance with the procedures established by this law and other applicable legal acts;*
 - b) *the decision of the procuring agency on the cancellation of public procurement activities, if such a decision has been made in accordance with the procedures established by this law and other applicable legal acts.*
10. *Any claim or appeal shall be based on a reasonable ground and shall be supported by a reasonable evidence that in case of withholding the claim or appeal the person in question will suffer serious losses.*
11. *In case that any claim is submitted to the procuring agency, or the Agency, or court before the relevant public procurement contract has been effected, the procuring agency shall suspend all public procurement activities for the period of 10 days. By the decision of the manager of the procuring agency, or the Agency, or court the suspension period may be extended, provided that under no circumstances shall the whole suspension period exceed 30 days.*

12. *With the agreement of the Agency, the procuring agency may decide not to suspend the public procurement activities, if delay in public procurement is impossible or is not justified in view of national or public interests.*
13. *Any individual or legal entity that is willing to take part or is actually participating in the public procurement activities, or is a bidder or supplier, may take legal action against the decision of the procuring agency or the Agency with respect to the claim of such an individual or entity.*
14. *Any damages which as a result of reviews and hearings provided in this Article may be payable to the person that has initiated claims, shall be limited to those costs which have been incurred in relation to the participation of such a person in the public procurement activities and shall not include any indemnification for the expected revenues.*

14. Article 26¹ shall be added to the Law which shall read as follows:

Article 26¹. Creation of an Agency for Public Procurement and Normative Acts to be issued in connection with the implementation of this Law

1. In relation to the reorganization of the Public Procurement Department of the Ministry of Economy, Industry and Trade into the Public Procurement Agency, by May 1, 2001 the following regulations shall be issued:

- a) *Decree of the President of Georgia on “Establishment of the State Procurement Agency and Transfer of State Property Thereto;”*
- b) *Decree of the President of Georgia on “Approving the Charter of the Supervisory Board to the State Procurement Agency.”*

2. The Agency shall start fulfillment of its functions and the Agency’s Supervisory Board in its initial composition shall be constituted as of May1, 2001.

3. By June 1, 2001, the Parliament of Georgia, by making appropriate amendments to the Code of Administrative Offenses and the Criminal Code of Georgia, shall define the forms of responsibility for the violation of the legislation regulating public procurements

4. By June 1, 2001 the Chairman of the Agency shall a Decree approving implementing regulations for state procurements.

5. By June 1, 2001 the President of Georgia shall approve the implementing regulations for confidential procurements as defined by Georgian Law on State Secrets.

6. By June 1, 2001 the Board of the National Bank of Georgia shall approve the implementing regulations for the National Bank.

II. This Law shall enter into effect immediately following its publication.

President of Georgia Eduard Shevardnadze

Tbilisi

March 30, 2001

REGULATIONS
on Implementation of State Procurements

CHAPTER I. GENERAL PROVISIONS

ARTICLE I. SCOPE AND PURPOSES

1. The Regulations on Implementation of State Procurement (hereafter... “ The Regulations”) are elaborated in accordance with the Georgian Law on State Procurements and is subordinated to it.
2. The Regulations apply to all State procurements (hereafter ”procurement”) covered in the Law (article 1, and article 3 , sub- paragraphs : “a”, “b”, “c”).
1. 3. The purpose of the Regulations is to establish detailed rules and procedures for implementation of state procurements.

ARTICLE 2.MAIN PRINCIPLES OF IMPLEMENTATION OF STATE PROCUREMENTS.

Main principles of implementation of state procurement activities are the following:

- a). Rational usage of funds allocated for implementation of procurement – related activities.
- b). Enhance spirit of competitiveness in the sphere of production of goods and rendering services, ensure impartial approach towards all participants of procurement proceedings.
- c) Ensure transparency and publicity of procurement implementation activities.

ARTICLE 3.COORDINATION AND REGULATION OF STATE PROCUREMENT- RELATED ACTIVITIES.

1. The state procurement –related activities are coordinated by Ministry of Economy.
2. The Ministry of Economy is authorized to the following:
 - a) Issue and approve all normative acts governing state procurements, including standard documents and forms, to be used for the conduct of procurement proceedings. This documents and normative acts are mandatory for all procuring entities for implementation for procurement contracts.
 - b) The Ministry of Economy is authorized to devise and implement decisions and measures aimed at improvement and facilitation of state procurement system and present them to the president for his approval;
 - c) Devise and present to the President measures and tools for effective implementation and coordination of procurement of common –use goods, services and works, as well as create effective and reliable system of centralized procurement of common-use supplies, develop

supply management system, including: inventory management, warehousing, appropriate system of distribution and disposing of excess or surplus goods.

- d) Request from procuring entities and participants of state procurements any information related to procurement activities, including the information concerning implementation of a contract; convene meetings to discuss the issues of proceedings of state procurements;
- e) In the event of violation or circumvention of the Law and procurement regulations, or ineffective usage of the funds allocated from the central budget, the Ministry should inform the procuring entities about such infringements or circumventions and demand from them correction of their decisions and activities in accordance with the Law and these regulations. In the event of gross and systematic violation and circumvention of the Law by procuring entity, the Ministry is authorized to bring up the issue of temporarily stopping of budget allocations to the Ministry of Finances of Georgia, Ministry of finances of Adjara and Abkhazia Autonomous Republics and local state financial authorities.
- f) In compliance with current legislation the Ministry is authorized to participate in and be present at court hearings or disputes related to state procurements;
- g) Maintain a register for the purpose classifying suppliers and contractors, goods and services and up-date it on the annual basis.
- h) Issue a state procurement bulletin as a special periodic edition with the purpose of disseminating information concerning state procurements.

3. Functions of the Ministry of Economy.

The Ministry of Economy is authorized to the following:

- a) Devise and issue normative acts, standard documents and forms and other regulatory documentation to be used for the conduct of procurement proceedings.
- b) Investigate and analyze effectiveness and of state procurement system and implementation of procurement activities.
- c) Collect and analyze information and reports submitted by procuring entities, prepare annual report and submit it to the President for his approval.
- d) Organize publication of information related to and depicting current situation of state procurement proceedings (including publication of surveys of procurement-related information).
- e) Establish a central data bank for recording procurement-related information.
- f) Examine use of information technology and other technical innovations in procurement with the view to more cost effective and higher quality performance of public administration and delivery of public services;
- g) In the event of violation or circumvention of the Law, especially when it has financial consequences for the state and is of systematic character, or in case of grave abuse of authority by public officials, the Ministry shall inform Chamber of Control about this;
- h) Elaborate methodology of implementation of state procurements, assist procuring entities with advice and work out recommendations for better implementation of funds allocated from the state budget with the purpose of ensuring cost effectiveness;

- i) Assist in dissemination and inculcation of rules and provisions of normative acts and legislation regulating state procurement activities, device methodology, publish special literature and conduct educational programs and professional training;
4. With the purpose of ensuring implementation of activities and functions defined by the Law within the Ministry of Economy was created a State Procurement Department. The activities of the State Procurement Department are governed by legislation of Georgia, “The Law on State Procurement “ and corresponding normative acts issued by The Ministry of Economy and the state Procurement Department.
5. According to the Law on State Procurement, article 4, paragraph 3 the head of the State Procurement Department is appointed and discharged by President of Georgia, offered by Minister of Economy.
6. According to the Law on State Procurement and present Regulations all state Procurements in Georgia are within the authority of State Procurement Department of The Ministry of Economy.

ARTICLE 4. RIGHTS AND OBLIGATIONS OF PROCURING ENTITIES.

1. The rights and obligations of procuring entities are defined by the Law on State Procurement, article 5 and present Regulations.
2. According to the Law on State Procurement, present Regulations and other normative acts, which regulate fulfilment of contractual obligations, effective and rationale usage of funds allocated from the local and state budgets and with the purpose of facilitating implementation of procurement-related activities, the heads of the procuring entities shall establish specialized units and delegate to them authority to conduct organizational and practical activities of state procurement.
3. The Law on State procurement, present Regulations and other normative acts defining rules and procedures of state procurement are mandatory for the procuring entities and the latter are responsible for rationale and effective implementation of procurement activities.

ARTICLE 5. PROCUREMENT PREPARATION AND PLANNING OF PROCUREMENT ACTIVITIES

1. In accordance with the rules and procedures of the Law on State Procurement of Georgia, present Regulations and procurement-related other normative acts and documents, to ensure successful conduct of state procurements and rational and effective usage of funds all the state procurement-activities should be carried out in accordance with the previously elaborated and approved annual plan.
2. The annual general plan describing the extent and purposes of projected procurement should be coordinated with corresponding budgets (state or local), as defined by the “Law on the System of Budget and Authority over it.”
3. The procuring entities shall provide a draft of the general plan to the Ministries of Finances of Georgia, Abkhazia and Adjara together with budget statements of the finance departments of other autonomous regions, as well as to the State Procurement Department of the Ministry of Economy. No later than 20 days after the approval of the state budget or the budgets of autonomies and other

territories the general plan of procurement is approved by the head of the procuring entity and is submitted to the State procurement Department for its approval.

4. The procuring entities shall device procurement plans taking into account the following:
 - a) The need for the procurement;
 - b) Precedents for similar procurement;
 - c) Method (form) of implementation of procurement; duration of procurement procedures (e. g. duration of tender);
 - d) Estimation of the cost of proposed procurement;
 - e) Long-term or last year financial obligations of a given year;
 - f) Expected time of State Procurement contract completion, that must be agreed;
 - g) In the case of necessity other surcomstances connected with concrete procurements.
5. The plan of State procurement shall include:
 - a) Description of goods, works or services to be purchased, as well as their amount and estimated prices during the financial year;
 - b) Taking into consideration estimated costs of the proposed procurement determine its implementation resources;
 - c) Determine duration of the implementation of the proposed procurement.
 - d) Long-term or last year financial obligations of a given year;
6. In the event of the delay in elaborating and approving at the state and local budgets the procuring entity should conduct procurement according to the law on "Budget System and Authority over it", article 15, paragraph 6 and within the boundaries of finances, defined by it.

B. ARTICLE 6. PRE-CONTRACT STUDIES AND ACTIVITIES

1. Prior to the procedures of implementation of procurement activities, each procuring entity conducts pre-contract studies designed to assist a particular procurement. The particular purpose of such studies is to determine desirability, feasibility, methods and amount of available funds and preparation of a draft of a given procurement.
2. In the event that the procuring entity does not have sufficient staff and resources to conduct the necessary pre-contract studies, it shall procure external consultants with the purpose of rendering these services. In this event the same procurement rules and procedures are applicable.
3. For the purposes of determining feasibility of the estimated costs of a given procurement the following aspects should be taken into consideration: all the costs and expenditures connected with implementation of a given contract; expected duration of the agreement of a contract (including likelihood and expected value of recurring orders); current prices (of the internal or international markets), experience of similar contracts. Information, concerning estimated prices of a contract

should be confidential and shouldn't be available for other participants of a contract (unless there is any need in divulging it).

4. In the event, when state procurement is conducted on the tender-basis, a procuring entity shall appoint a tender committee and its working group. The rules and procedures of creation of a tender committee are defined by the law on State Procurements, article 8, and present regulations.

5. Upon defining the estimated value and scope, as well as other parameters of a, proposed procurement, a tender committee shall design a tender invitation notice and elaborate tender documentation defining pre-qualification requirements or any other documents used to solicit an offer and indication of evaluation criteria.

6. A tender invitation notice and tender documentation are approved by a tender committee (prior to its publication in a newspaper).

7. In the event, when the estimated value of a given procurement contract exceeds 25000 lari, upon conclusion of procurement preparation activities (in the event of a tender- prior to publication of the invitation to a tender; and in the event of a single-source procurement-prior to the beginning of negotiations) a procuring entity shall inform The State Procurement Department and corresponding Ministries of Finances of Georgia, Abkhazia and Adjara or local Financial authorities about the beginning of procurement proceedings.

The State Procurement Department must be informed about the proof of choiced procurement method.

ARTICLE 7. METHODS OF IMPLEMENTATION OF STATE PROCUREMENT

1. In accordance with article 6 of the "Law on State Procurement", implementation of procurements shall be carried out in one of the following ways:

a). Open tender;

b). Restricted tender;

c). Single-source procurement.

2. In the circumstances defined by the Law and present Procurement Regulations, open and restricted tenders can be conducted on the two-stage basis.

3. It is not permitted to artificially divide procurement with the intention of avoiding monetary thresholds set in the Law on State Procurement or the present Regulations and other procurement-related normative acts.

ARTICLE 8. RULES OF AVOIDANCE OF CONFLICT OF INTERESTS.

1. Rules of avoiding conflict of interests apply to the following procurement-related activities:

a). Procurement preparation activities, including review or approval of specifications or a statement of work for a particular procurement and definition of expected value of a procurement;

b). Selecting members of a tender committee and other persons responsible for conduct of state procurements;

- c) Preparation of procurement documents, including solicitation of participation;
- d). Assessment of qualification data and evaluation of tender proposal
- e). Conduct of technical discussions or negotiations (if previously agreed to do so);
- f). In the event of a restricted tender, selection or approval of selection of a bidder;
- g). Supervision and control over implementation of contractual obligations;
- h). Other procurement-related activities.

2. Individuals participating in implementation of state procurement in any manner or participants of a tender and bidders are prohibited to address a procuring entity (it's head or staff), state officials or their representatives with the request of exerting their influence and rendering assistance in obtaining of a contract, or, directly or indirectly influence them by giving or offering to give inducement.

3. A procuring entity is prohibited to delegate authority over implementation of a procurement proceedings or supervision over them to a person or hire a consultant if the latter is:

- a) An immediate family member of a public official conducting state procurement or is participant of a tender, if the latter is the individual;
- b) During the last three years was working in organization engaged in procurement-related activities;
- c) Through personal or business activities is related to representatives of a legal entity participating in state procurement procedures or conducts negotiations with them;

4. Individuals or entities, which participated in procurement-preparation proceedings, are restricted from participation in a tender.

5. The principles stated in paragraph 4 and 5 of the present Regulations also apply to supervision and control over fulfillment of procurement-related contractual obligations And/or participants of negotiations in the event of single-source procurement.

6. It is prohibited for a close relative of the head of bidder (physical or legal body); a founder or member of bidding organization that has a status of legal body and exists as a Fund or a Union; or has a share in the bidder enterprise equity; to be a member of the Tender Committee.

7. In the event of any tender proceedings and after termination of the receiving of tender solicitation documents all members of a tender committee, hired consultants and staff of a procuring entity, which was engaged in implementation of a given procurement, shall confirm in writing that his activities did not contradict to any of the abovementioned requirements.

8. In the event of procuring of consultants services the following should be taken into consideration;

- a) A consultant or his affiliates shall not be hired for participation in such proceedings of state procurement, or be given such assignment, that would by it's nature be in conflict with their prior or other assignments.

- b) A consultant shall provide professional, objective and impartial advice to a procuring entity and at all times hold it's interests paramount.

CHAPTER II.TENDER

ARTICLE 9. THE RULES AND PROCEDURES OF SELECTING A FORM OF A TENDER.

1. The Law on State Procurement, article7, defines the rules of selecting a tender.
2. An open tender is announced in the case of procurement, when the estimate value of the object of procurement exceeds 70000 Lari, and, in case of procurement of construction services- 230000 Lari.
3. A close tender is announced in the case of procurement, when the estimated value of the object of procurement ranges from 25000 Lari to 70000,and, in case of procurement of construction services- from 120000 to 230000 Lari.
4. A two-stage tender is held, when due to the complexity of the object of procurement it becomes impossible to determine all economic and technical aspects of the procurement or, define the nature and amount of works to be procured in advance (especially in case of procuring consultants services with the purpose of assisting in scientific research, implementation of complex construction projects and etc).

ARTICLE 10. THE INVITATION TO TENDER

1. General rules and procedures of elaboration and publication of a tender invitation notice are defined by the Law on State procurement, article 9, and present regulations;
2. In the event of an open tender a tender committee on the behalf of a procuring entity publishes an announcement of a tender in such publications as:
 - a) Newspaper “Sakartvelos Respublika” and “Svobodnaia Grusia”;

3. In the event of an open tender publication of tender invitation announcement is admissible in any newspaper or other media. Usage of other information media is admissible only after publication of the announcement in the publications stated in article 2, paragraphs “a” and “b”. An official date of the beginning of a tender is considered the date of publication of the announcement in the official newspapers (or whichever happens first), and in the event of a restricted tender-the date of sending of the invitations.

4. In the case of closed tender the procuring organization sends to the bidders selected in advance (no less than five bidders) an official notification of holding the tender.

5. The tender invitation shall be published (and in case of restricted tenders-sent) 15 days prior to the beginning of receiving qualification documents, and the receiving of qualification documents shall be completed within 10 days period after the receiving of qualification data.

6. Apart from the information stated in the Law on state procurement, article 9, the tender invitation notice shall include the following information:

- a) Recvizites of procuring entities; .
- b) the type, quality and quantity, the point and form of supply of the procured goods; the essence and the place of implementation of the work or service to be implemented; all other details, that the procuring organisation considers necessary as connected with the description of the objects to be procured;
- c) the desire to supply of the goods, to implement the work, to render the service to be procured, and the obligatory terms;
- d) The rule and criteries of estimate qualification date;
- e) Place, language, date and time to perform of qualification date;
- f) request for the documentation proving the qualification data;
- g) the rules, terms, place and language for submission of tender documents, also payment rate for acceptance of tender documents.
- h) Indication of names and addresses of those representatives of a procuring entity, who are authorized to provide additional information concerning given procurement;

7. Any person who wishes to participate in the State Procurement procedures, upon his request must be provided by additional information. Additional information must contain:

- a) List of legislative regulative acts of State Procurement;
- b) Requests for:

Payment for participation in a tender; Signing Agreement on Intention; Making use of the State Procurement contract performance security and/or the insurance for the performance of the contract, in the case of necessity;

- c) Indication of rules of preferences;
- d) Indication of possibility to choose two or more winners;
- e) Information about rules of appealing.

ARTICLE 11. QUALIFICATION DATA

1. To be admissible for participation in procurement proceedings entities and individuals should satisfy the requirements, defined by the Law on State Procurement, Article 10.
2. A procuring entity (or a tender committee) is authorized to demand additional information concerning financial standing, technical capacities and qualification of participants of a tender. These requirements shall be objective and impartial towards participants of a tender.
3. A procuring entity (or a tender committee) may require bidders to submit information and supporting documentation, showing that they satisfy quality, technical capacity, financial resources and labor force resources requirements of a procuring entity.
4. The qualification requirements of a procuring entity (or a tender committee) might also apply to the sub-contractors, who are involved in state procurement proceedings at the stage of implementation of a contract.
5. A tender committee is authorized to demand from the participants of a tender to present the documents confirming their qualification anew at any stage of a tender.

ARTICLE 12. QUALIFICATION SELECTION

1. Qualification selection procedure is defined by paragraph 7, article 10 of the Law on state procurement.
2. The entities and individuals shall provide to the tender committee all the required qualification documentation indicated in invitation to a tender prior to the expiration of the deadline of submitting the above mentioned information. The qualification selection should be ended no later, than in 10 days after the procedure for the submission of qualification data stops.
3. The tender committee is responsible to register all the submitted documents. During the registration shall be indicated date and time of submission of each package of documents.
4. Based on estimation of qualification data is held qualification selection.
5. During the qualification proceedings a tender committee checks and verifies if the entities and individuals, who have submitted their qualification data satisfy the requirements of a given tender.
6. Qualification selection shall be completed no later than 10 days after expiration of the deadline of submitting of the qualification data.
7. As a result of qualification selection a tender committee works out a list of candidates for participation in tender proceedings and no later than within 5 days informs about it all the bidders who have submitted their qualification data.
8. The following entities and individuals shall not be admitted to participate in a tender in case the qualification data submitted by them does not comply with the following requirements:
 - a). Is false or does not satisfy qualification requirements;

- b). Is incomplete, or technical specifications have many errors and the entity or individual who has submitted it refuses to correct the erroneous information.

ARTICLE 13. PAYMENT FOR PARTICIPATION IN A TENDER

1. In accordance with article 19, of the Law on State Procurement, for implementation of a State Procurement financed from the budget is charged a certain payment. The amount of this payment ranges:
 - a) In the event of an open tender-500 Lari;
 - b) In the event of restricted tender-150 Lari.
2. When the procurement is financed from the budgets of Abkhazia and Adjara Autonomous Republics, or local budgets, the decision on charging a tender payment is made by corresponding Supreme Councils of the above mentioned Republics or local bodies of self-government, and it must not exceeds to tender payments charged by this article, paragraph 1.
3. A tender payment is charged from entities or individuals, who have passed qualification selection proceedings and want to get tender documentation.
4. A tender payment is returned to the bidder upon decision of a tender committee or of a court and only in those occasions when a procuring entity decides on suspension of procurement proceedings or can not ensure timely provision of tender documentation.
5. Candidates, selected as a result of qualification proceedings are authorized to have access to tender documentation prior to paying a tender payment only in procuring entity.

ARTICLE 14. TENDER DOCUMENTATION.

1. Rules and procedures of elaborating tender documentation, as well as its approval and amendments to them are defined by the Law on State Procurement, article 12, and present regulations.
2. Tender documentation presents packet of documents that contains whole information about the object of procurement, tender process and favourite terms for signing of a state procurement contract.
3. A tender documentation shall include the following information:
 - a) in accordance with article 16 of the present regulations, a form of an agreement of intention;
 - b) rules and procedures of elaborating and submitting proposals;
 - c) detailed description of alternative technical and quality specifications of the object of procurement;
 - d) Indication of expected amount of goods, works, or services to be procured; expected or obligatory deadlines and location of procurement indication of any incidental services to be performed in the case of need of a given procurement (including description of these services); any other requirements, that a procuring entity will consider as necessary;

- h) the currency, that will be used for defining the price of a proposal; or, the exchange rate that will be used for the conversion of tenders into the currency, which will be used for the conversion of tenders into the currency, which will be used for the purpose of evaluating tender proposals;
- i) indication of the language, in which proposals shall be submitted;
- j) The place, date and time of submitting tenders, including indication of possibility forms of alternative proposals (which would ensure confidentiality of proposals);
- k) indication of possibility of the bidder to require additional information or explanation concerning tender documentation; description of corresponding procedures and names and addresses of the staff of the procuring entity, who are authorized to provide such information; information concerning a meeting, which a procuring entity is going to hold prior to the beginning of submission of proposals and/or a site visit, with indication of the place, date and time.
- l) requirement of a minimal validity period of a tender. During determination of validity period should be taken into consideration the period of time, during which tender shall be in effect, expected date of signing an agreement and possible obstacles.
- m) requirement of a tender security and insurance of certain stages of contract implementation, including indication of the forms and amount of security and insurance.
- n). indication of additional obligations of a supplier apart from signing an agreement (sharing technologies, rights for intellectual property, training and etc.)
- o) general terms of agreement.
- p) place, date and time for the opening of tenders, including indication of procedures.
- q) the criteria to be used for evaluation and indication relative weight of such criteria
- r) indication of several bidders can be awarded a contract with the purpose of implementation of portions of the procurement.
- s) indication of margins of preference and rules of their application;
- t) indication, if a bidder has a right to revoke his tender or make amendments into it, including the right to return tender security and payment and right to appeal.
- u) a statement to the effect that a procuring entity reserves the right to reject all tenders or suspend procurement proceedings;

v) any other requirements, that a procuring entity may have towards tender proposal, that complies with the Law on State Procurement or this Regulations.

5. Upon written request of a bidder, or upon its own will, a procuring entity can make changes or amendments in the tender documentation 15 days prior to the deadline of submitting of proposals. These changes or amendments shall represent an annex to the tender documentation and shall be disseminated to all candidates of a tender.

6. If any of the candidates address a tender committee with the request of clarification or explanation of some of the issues, the committee shall provide such explanations or clarifications.

7. The validity period of submitting of proposals shall not exceed 30 days from the deadline of receiving tender documentation.

ARTICLE 15. RULES FOR DESCRIPTION OF OBJECT OF PROCUREMENT.

1. The announcement of a tender, tender documentation and any procurement-related documentation shall have clear and comprehensible description of goods, construction or services to be procured.

2. Any specifications, plans, drawings, technical or quality characteristics of the goods, construction or services to be procured shall comply with the requirements of national and international standards and use internationally accepted terminology and symbols.

1. A description of the object of procurement should not include the following:

a) a particular trade mark, name, patent, design, type, specific origin or producer unless there is no other sufficiently precise or intelligible way of describing the goods, construction or services to be procured and provided that such words as “similar” or “equivalent” are included.

a) demand of specifications and usage of terminology, that will create obstacles for ensuring wide participation in tender.

4. In the event of procurement of construction, the description of the object of procurement shall include:

a) general description of the scope and purpose of the construction;

b) list of works to be implemented;

c) description of physical nature and conditions of construction site;

d) detailed design and drawings of work to be performed and technical characteristics;

e) safety standards to be met and environmental impact.

ARTICLE 16. AGREEMENT ON INTENTION.

1. The rules and procedures of concluding an agreement on Intention are defined by article 14, of the Law on State Procurement.

2. An agreement on intention is concluded between a procuring entity and each participant of a tender.
3. Agreement of intention, signed by the head of a procuring entity or his authorized representative is provided to each bidder together with tender documentation. The instructions included in the documentation shall call upon bidders to include with their tenders a signed copy of that form (but it shall not be sealed in the same envelope as tender proposal).
4. Negotiation between procuring entity and a candidate of a tender concerning agreement on intention is permissible only during the validity period of a given agreement.
5. In the event, when a candidate of a tender fails to present or presents an agreement on intention without appropriate signature than the tender shall be considered unresponsive and will not be considered.
6. Agreement on intention shall include:
 - a) obligation of a bidder in the event of winning of a tender to sign an agreement on state procurement implementation on previously defined terms;
 - b) obligation of the procuring entity to sign an agreement with the winner of a tender on previously defined terms. abovemention obligation does not expend in that case, when the procurement proceeding is cancelled or the pretendent is disqualified;
 - c) obligation of the procuring entity to return a tender security (or tender security documents) (excluding those occasions when a tender committee decides differently) if such was required by a given procurement.
 - d) indication validity period of the tender;
 - e) indication of the validity period of the agreement on intention.
 - f) responsibility of the parties in the event they fail to fulfill obligations of the agreement.

ARTICLE 17. TENDER SECURITIES

1. With the purpose of ensuring implementation of a tender a procuring entity has a right to require tender security. In this event the bidders shall transfer to the special account of a procuring entity previously defined amount of money, as well as provide a special bank guarantee on the amount of the tender security or other internationally accepted guarantees. The amount of tender security despite its form shall remain unchanged.
2. Tender securities shall be required in the following occasions:
 - a) when the estimated value of the object of procurement exceeds 600000 Lari; and in case of construction procurement-8000000;
 - b) when procurement concerns provision of technologically complex equipment or works notwithstanding the estimated value of the object of procurement.
 - c) When the time is of essence.

3. When the procuring entity requires the bidders to provide security the tender solicitation documents shall specify the nature, form, amount and other conditions of tender security.
4. The security requirement shall apply to all bidders.
5. The minimal validity period of a tender security and validity period of a tender shall coincide.
6. The document confirming tender security shall be submitted together with tender proposal. It will be enclosed to the envelope, containing tender proposal but not sealed together with it.
7. The procuring entity shall define the amount of tender security depending on peculiarities of the object of procurement and its estimated price. This amount must not be so big as to create obstacles for participants of a tender and shall not exceed 5% of the estimated value of the procurement.
8. A tender committee has a right not to accept guarantees provided by the bidder if it gives grounds for some doubt in their authenticity or the solvency of the bank, confirming this guarantee is under question.
9. The procuring entity shall return to the bidders the security provided by them as well as the security-related documentation no later than 5 days after the signing of the agreement.
10. In case the procuring entity decides to suspend or cancel procurement proceedings, the tender security, as well as the documentation supporting it shall be returned to the bidders upon their request.
11. In the event of the failure to sign a procurement contract and the tender committee proceeds with re-evaluation of the remaining bidders, the procuring entity is entitled to promptly return tender securities and accompanying documentation to those bidders, who refuse to participate in re-evaluation procedures, prolong validity period of the agreement on intention or fail to prolong the validity period of provided bank guarantees.
12. In the event when the tender validity period expires prior to the completion of the assessment of tender proposals and a candidate refuses to comply with the need of prolonging this period, tender security and security-related documentation shall be returned upon his request.
13. The tender committee makes a decision about retaining of the provided securities in the following occasions:
 - a) if the bidder withdrew tender after opening of tenders (prior to the expiration of tender validity period);
 - b) if the winner refuses to sign procurement contract with procuring entity;
 - c) if a bidder is disqualified from procurement proceedings for grave violation of procurement procedures.
14. In compliance with the current legislation of Georgia and present Regulations (article 33) the bidder has a right to appeal in case he does not agree with the decision of a tender committee to retain the provided security.

ARTICLE 18. SUBMISSION AND REVIEW OF PROPOSALS

1. Basic provisions of submitting a tender are defined by article 15 of the Law on State Procurement.
2. Tender proposals shall be signed by authorized representative of a bidder and submitted in a sealed envelope, or in other form pre-determined in tender documentation, which would ensure confidentiality of tender documentation.
3. A tender committee receives and registers tender proposals (indicating date and time of receipt) on the date and address defined by tender documentation.
4. The procuring entity shall ensure that all tenders and samples that it receives are kept in a secure manner that does not permit the tenders to be open or reviewed. Information concerning the number of proposals and their content shall be accessible only for persons, authorized by procuring entities.
5. The late bids shall not be considered by a tender committee and shall be returned to the bidders unopened. The date and time of the receipt of a late bid shall be noted in the record of the procurement proceeding.
6. A bidder prior to the opening of tenders has a right to address a tender committee in written form with the request of withdrawal of his tender or making amendments into it.
7. After the expiration of the validity period of submission of tenders a tender committee meeting shall be convened, during which and in presence of all bidders tender proposals are opened publicly. The names of the bidders and total amount of each tender, and alternative tenders, if any, shall be read aloud and recorded in tender committee meeting minutes. After opening of tender proposals a tender committee defines the deadlines of preliminary screening.
8. After opening of tender proposals it is not prohibited to make some amendments in these proposals.
9. The validity period of a tender proposal shall not be less than the period required by tender documentation and shall be indicated in the proposal.
10. A tender committee has a right to demand from the bidders to prolong validity period of a tender proposal.
11. The bidders have a right to refuse to prolong validity period of their tender proposal.
12. In the event that a bidder agrees to prolong validity period of his tender, but fails to prolong validity period of his security (or is unable to present a new tender security) he will be considered as a bidder, who refused to comply with the requirement of prolonging his tender proposal validity period and will be rejected from further participation in the tender.

ARTICLE 19. PRELIMINARY SCREENING

1. After opening of tenders a preliminary screening of tenders shall be carried out. The purpose of the preliminary screening is to determine whether tenders comply with the procuring entities requirements as to the tenders themselves and the accompanying documents.
2. The preliminary screening involves the following:

- a) whether all the required documents, including standard forms supplied with tender documentation, have been submitted fully completed.
- b) whether all the submitted documents have been filled according to the requirements of a procuring entity (have a signature of an authorized person, and if required so, a seal and indication of all the necessary dates)
- c) whether the tender substantially conforms with the contractual terms and technical requirements set out in the invitation to tender .

3. At the preliminary screening tenders shall be checked for arithmetical or clerical errors. Bidders that have submitted tenders with such errors shall be given an opportunity to correct them.

4. A tender committee is authorized to correct purely mathematical and clerical errors taking into consideration the following:

- a). If there is discrepancy between the unit price and total price, that is obtained by multiplying the unit price and quantity, then unit price shall prevail and total price shall be corrected (unless a tender committee considers that there is an obviously gross misplacement of the decimal point in the unit rate and the price is unrealistic).
- b) In the event there are deviations of the character, when the given figures and their verbal expressions do not coincide, then the verbal expression of the figure shall prevail.

5. At the stage of preliminary screening tenders shall be classified by a tender committee into the following categories:

- a). Those tenders that can be considered responsive and satisfactory;
- b). Those tenders, that contain material deviations or reservations and are considered unresponsive.

6. A tender proposal shall not be considered acceptable and shall be rejected from participation in evaluation proceedings in the following occasions:

- a) If the bidder that submitted the tender did not provide all the necessary accompanying documents and/or information, and, if required so, failed to provide samples.
- b) If the bidder that submitted tender and qualification data fails to confirm his qualification upon tender committee's request to do so.
- c) If the bidder does not comply with the requirement, stated in paragraphs 3 and 4 of this article concerning correction;
- d) If the bidder submitted a tender which does not conform to the requirements of the tender documentation.
- e) If the proposed price for the object of procurement is extremely low and the tender committee considers it unreasonable or artificially decreased.
- f) If the bidder has grossly violated procurement proceedings or committed offence.

ARTICLE 20. EVALUATION AND COMPARISON OF TENDERS

1. After a tender committee selects tender proposals, that will be considered admissible, they will be examined in details. The tender committee is authorized to engage experts and consultants who will render assistance in evaluation and comparison of tender proposals. Discussions concerning tender proposals and experts' and consultants' recommendations shall take place at tender committee meetings. The tender committee is authorized to invite a bidder or his representative to provide explanations or clarify some issues related to his tender proposal if it considers necessary.
2. If in compliance with the tender documents prices indicated in tender proposals are expressed in two or more currencies, while evaluation and comparison of tender proposal the prices shall be converted to national currency and according to the rate, specified in the solicitation documents.
3. After detailed examination of tender proposals the tender committee evaluates the submitted proposals according to the criteria, indicated in tender documents and taking into consideration importance and priorities of these criteria.
4. The evaluation criteria shall apply to the bidder, as well as to the proposals, submitted by them, though evaluation of a tender proposal shall prevail.
5. The purpose of evaluation of a tender proposal is to investigate and compare financial standing, technical capacities, labor resources, reputation and experience of a bidder.
6. While evaluation of tenders the following criteria shall be applied:
 - a) The price of a tender proposal (taking into consideration preference margins);
 - b) Deadlines of provision of goods, construction or services;
 - c) Quality of goods, works and services rendered and their functional characteristics;
 - d) Forms and terms of payment;
 - e) Costs of maintenance of the object of procurement, including expenditures for capital repairs, technical maintenance, exploitation and etc;
 - f) Responsiveness of a tender proposal to the interests of the Country, as well as to those, of the region and a procuring entity [influence on the overall financial situation of the Country and the State's currency reserves; International treaties, to which Georgia has become a party, factor of usage of national components (such as: local production capacities, labor resources, raw materials and etc.); prospects of economic development of the country; providing stimulus for finding employment for local infrastructure; transfer of knowledge and know-how; training of management, scientific and production personnel; Environmental, National and security interests and other related factors].
7. Each criterion used for evaluation purposes shall have corresponding numerical expression. Criteria shall be weighted and the total of the added score shall be a coefficient of evaluation, indicating priority. The total of the priority coefficient shall amount to 1,0. In the event of procurement of intellectual services, the coefficient of priority of the price criteria must not exceed 0,3.

8. In the event of procurement of some goods (e.g. procurement of standard goods) can be applied only the criteria of price.

9. Each member of the tender committee provides evaluation of each tender proposal in written form. The evaluation shall be carried out according to each criteria separately. The maximum score of each criteria shall be 10. The evaluation score of each criteria shall be multiplied on priority coefficient of this criteria. Then results of evaluation according to each criteria shall be summed up and the total shall be the score of each tender proposal. The highest score awarded by a member of the tender committee to one of the tender proposals shall be considered as a vote in favor of this proposal. The members of a tender committee confirm their evaluation by signature.

10. In the event when one or more candidates (tender proposals) receive the same evaluation score, the members of the tender committee compare the scores according to criterion and preference is given to that tender proposal, which possesses the highest coefficient according to the criterion. when the evaluation is absolutely identical, each member of tender committee must decide what candidate is excellent and affirm this decision in written form.

11. The successful proposal shall be considered that proposal, which has collected the majority of votes of the members of the tender committee. In the event, when votes shall be distributed evenly, the vote of the head of the tender committee shall be considered as prevalent.

12. In the event, when the evaluation procedures fail to reveal a successful tender proposal, as stated in paragraph 11 of this article, (and consequently none of the tender proposals receive the majority of votes), the tender committee shall sum up the evaluation scores and the proposal with the highest evaluation score shall be considered as the best. In the event, when one or more candidates are awarded the same evaluation, the proposal with the lowest prices shall be preferred; in case the prices of the proposals are equal, the decision shall be reached through open vote of the members of the tender committee.

13. The decision of the tender committee concerning the successful tender proposal shall be in written form, with the conclusions of the tender committee members attached. The protocol shall include information concerning the participants of the evaluation of tender proposals and candidates, as well as the summary of submitted tender proposals.

14. The tender committee should ensure confidentiality of the proceedings of selection and evaluation of tender proposals.

15. The tender committee shall inform all the participants of the tender proceedings about its decision no later than within 5 days period after it has been reached and invite the winner to conclude the state procurement contract.

ARTICLE 21. APPLICATIONS OF PREFERENCE

1. In accordance with article 13 of the Law on State Procurement, in the event, when in tender participate international bidders, the procuring entity shall grant margin of preference in the evaluation of bids proposed by Georgian candidates. The margin of preference shall be within 15%.

2. Margin of preference shall apply only when price evaluation criterion is used and when the prices of the tender proposals submitted by entrepreneur registered in Georgia exceed prices of foreign tender proposal no more than 15%.

3. In the occasions, stated by article 20, paragraphs 10 and 12, local and foreign candidates receive equal evaluation score, preference shall be granted to the local candidate (in case applications of preference was grounded).
4. In the event, when after final evaluation foreign tender shall be considered as the best, in the contract shall be indicated prices of the tender proposal submitted by him.

ARTICLE 22. PROCEDURES FOR RESTRICTED TENDERING

1. Rules and procedures of open tender apply to restricted tender as well, with the difference, that tender announcement notice is sent by tender committee to the previously selected entities and individual.
2. The number of bidders selected by tender committee shall be no less than 5, excluding those occasions, when implementation of procurement contract can be ensured by restricted number of entities and individuals, whose number is less than 5.
3. With the purpose of selecting (defining) the entities, stated in paragraph 1 of this article, the tender committee shall use any available source of information (specialized periodic publications and information available for ministries, organizations and Department of State procurement).
4. The tender committee shall choose such form of dissemination of tender invitation, which shall insure receiving of the invitation by the bidders in the shortest possible period of time.
5. The persons, who shall receive such invitation to the tender shall immediately and in written form inform the procuring entity about its receiving, and, in case they agree to participate in the tender, submit to the tender committee their qualification data within the period, specified in the invitation notice.
6. If the number of qualification data and/or tender proposals is less than the minimal (3), as defined by article 20, paragraph 2 of the Law, then tender is considered as resulting negatively and upon agreement with State Procurement Department, other means of implementation of State Procurement shall be sought.

ARTICLE 23. RULES AND PROCEDURES OF TWO-STAGE TENDER

1. When holding a two-stage tender, the procuring entity shall follow the same procedures and principles, as apply to the one- stage tender and are defined by the Law on State Procurement and present regulations.
2. Two-stage tender procedures are followed for the procurement of intellectual types of services (such as: consultant's services, scientific-research, construction and educational works and etc), when the quality of services and qualification of the bidder is of primary importance as compared to the costs of services; also, when long-term agreement is concluded, or for procurement of technologically complex equipment.
3. When a two-stage tender is held, the bidders, alongside with submitting of qualification data shall present to a tender committee general plan and specifications, and, on the second stage a tender committee shall invite only those candidates, who satisfy the requirements of the first stage of the tender.

4. During the two-stage tender apart from the information, defined by article 10 of this Regulations the request for proposals shall include the following information:

- a) Indication, that alongside with qualification data shall be submitted tender proposal. Financial part of the proposal shall not be submitted at this stage;
- b) Instructions and rules of compiling and submitting of tender proposals (including indication of the date of submitting) and evaluation requirements;
- c) any other information that a procuring entity considers necessary.

5. At the first stage of the two-stage tender the tender committee is authorized to enter in negotiations with all participants of tender procedures (separately) with the purpose of clarification of conditions of the initial tender and finalizing of tender documentation requirements.

6. During two-stage tender initial, as well as finalized tender proposal shall be submitted to the tender committee in the sealed envelopes. The procedures of opening of the envelopes are defined by article 18, paragraph 7 of the Regulations.

7. The tender committee shall determine the date of completion of the first stage of the tender upon opening of initial tender proposals. The validity period of qualification selection procedures does not apply to the two-stage tender.

8. During two-stage tender the submitted qualification data and initial tender proposal shall be considered simultaneously.

9. During evaluation of initial tender proposals shall be considered their responsiveness to the needs of the procuring entity and evaluation scores shall not be applied.

10. The results of the first stage of the tender shall be provided to all bidders no later than within 5 after the decision shall be reached.

11. Upon completion of the first stage of the tender the procuring entity has a right to modify its requirements concerning technical and quality parameters of the object of procurement, as well as tender evaluation criterion.

12. The second stage of a two-stage tender is carried out according to the same rules, which apply to the one-stage tender (including tender fee, signing of the agreement on intention, providing of tender documents, tender security, evaluation of proposals and other rules).

ARTICLE 24. SIGNING OF PROCUREMENT CONTRACT WITH THE WINNER

1. The contract shall be signed between the winner of the tender and the procuring entity no later than within 10 days period after the tender committee shall reach a decision.

2. It is not permitted to change the terms and conditions, as well as the deadlines defined in the tender documentation, agreement on intention and tender proposals.

3. The information concerning signing of the contract shall be published by a procuring entity in the newspaper "Sakartvelos Respublika".

4. If the winner of a tender refuses to sign a procurement contract, or, if required to do so, fails to provide any required security, or is disqualified, the procuring entity shall address the remaining

participants of the tender with the request to undergo identical evaluation procedures, and, if the tender committee considers it necessary, extend the validity period of the agreement on intention, tender proposal and tender securities.

5. If one or several candidates are willing to participate in re-evaluation procedures, then a tender committee shall carry out re-evaluation of tender proposals.

6. In the event, when the bidders refuse to participate in re-evaluation of tender proposals, a procuring entity shall announce a new tender(in compliance with the Law on state procurement, article 17).

ARTICLE 25. CANCELATION OF STATE PROCUREMENT PROCEEDINGS

1. A procuring entity is authorized to cancel state procurement proceedings in such cases as the following:

- a) Due to the need or contingency which arose from some objective reasons or is in public and state interests;
- b) When the tender solicitation documents, including technical, economic and other parameters have to be modified to such extent, that it will lead to inevitable cancellation.

2. In the event of cancellation of state procurement proceedings the procuring entity shall inform about its decision and the grounds for it to the State Procurement Department and all the participants of the procurement no later than within three days period. The procuring entity is not obliged to give detailed explanations concerning the grounds for the decision of canceling the procurement proceedings to the bidders, as well as reimburse their expenditures, related with their participation in state procurement proceedings, except for the tender participation payment.

3. The decision of canceling state procurement proceedings prior to the opening of tenders is made by the procuring entity .In that case it shall return all previously submitted qualification data and tender proposals to the corresponding bidders unopened, and if previously agreed to do so, return the tender payment as well.

4. In case the procuring entity upon cancelling of procurement proceedings decides to procure the same object, it shall implement the procurement (if it is financed by the budget allocations for the same fiscal year) through continuing the same proceedings. With that purpose it shall address all the participants of the cancelled proceedings to submit their qualification data, tender proposals and enclosed document anew (depending on which stage were cancelled procurement proceedings). In case the bidders refuse to participate in the abovementioned proceedings, the procuring entity shall announce a new procurement proceedings.

5. Canceling of state procurement procedures after the opening of tenders is permitted only on special occasions. The decision to that avail shall be made by a procuring entity in agreement with Department of State procurement.

6. In the event of cancellation of procurement proceedings after opening of tenders, the procuring entity is authorized to suspend the procurement proceedings for no longer than 15 days and inform about this decision the Department of State Procurement in written form. Upon studying the presented materials and grounds of this decision, the Department of State procurement shall elaborate conclusions and recommendations for the procuring entity and provide them within the period of suspension of the procurement. If the Department of State procurement does not agree with the

decision of the procuring entity concerning canceling of procurement proceedings, the latter is obliged to continue the procurement procedures.

7. In case the procuring entity decides to discontinue the procurement procedures after opening of tender proposals (in compliance with the rules defined by article 5, paragraph 6 of the Regulations), it shall make a decision concerning returning of tender payments, proposals and other enclosed documents.

8. If upon termination of procurement proceedings (after the opening of tenders) the procuring entity decides to proceed with procurement of the same object with the budget allocations of the same financial year, it shall inform the bidders about this decision. If the bidders refuse to participate in the procurement, the procuring entity shall announce a new tender.

ARTICLE 26. TENDER, COMPLETE D NEGATIVELY

1. A tender shall be considered negatively completed in case, none of the qualification data or tender proposals shall be submitted timely (in the event of restricted tender their number amounts to less than three).

2. A tender is considered as resulting negatively in the following cases:

- a) If none of the submitted qualification data satisfies the requirements of the procuring entity;
- b) If none of the tender proposals correspond with the requirements of the tender documentation;
- c) The proposed prices shall exceed financial possibilities of the procuring entity.

3. In compliance with the Law on State procurement, article 17, in the occasions, defined by paragraphs 1 and 2 of this article and paragraph 6 of article 22 of this Regulations, a new tender shall be held.

CHAPTER III. SINGLE-SOURCE PROCUREMENT

ARTICLE 27. SINGLE-SOURCE PROCUREMENT

1. In compliance with the law on state procurement, article 22, Single-source procurement is justified in the following occasions:

a) When the estimated value of the object of the procurement does not exceed 25000 Lari, and in case of procurement of construction works-120000 Lari;

b) Capacity or exclusive right to delivery of goods and implementation of works and services belongs to one bidder. Single-source procurement may not be justified only on the grounds, that only one bidder has the capacity or the exclusive right to manufacture goods or deliver services if the functionally equivalent goods, works and services of the other bidders would meet the needs of the procuring entity.

c) In the case of single-source procurement need on the grounds of urgency and force major. In such cases the procurement entity shall limit the quantity of the procurement needed to deal with the urgent circumstances. The procuring entity shall avoid delaying procurement proceedings artificially, as not to create urgency for the procurement.

d). To avoid deterioration of quality of supplier goods (technologies or equipment), implementation of works and rendering of services, the procuring entity shall award a contract extension or a repeat contract to the holder of the previous procurement, excluding those occasions, when the estimated price of the procurement to be implemented shall exceed the value of the initial procurement.

2. In the occasions, described in sub- paragraph “a” of this article:

- a) If the estimated value of the object of procurement does not exceed 10000 Lari, and in case of procurement of construction services-50000 Lari, the procuring entity has a right to negotiate procurement contract with any bidder of its choice;
- b) If the estimated value of the object of procurement exceeds 10000 Lari but is less than 25000 Lari, and in case of procurement of construction services exceeds 50000 Lari but is less than 120000 Lari, the selection of the bidder to be invited for negotiations shall be carried out based on the price aspects.

3. In the occasions described in paragraph 2, sub-paragraph “b” of this article, the procuring entity shall request quotations from as many suppliers as possible, but no less than three. Each bidder from whom the quotation is requested shall be informed whether any elements other than the value of the object of procurement shall be included in the price. The procuring entity chooses the most favorable proposal, which satisfies its’ requirements the most and starts negotiations with this supplier.

4. The negotiations on implementation of procurement contract shall be responsibility of the head of the procuring entity or his authorized representative.

5. In the event when the value of the object of procurement exceeds 25000 Lari, the procuring entity, prior to the signing procurement contract shall demand re-confirmation of the qualification data of the other party to a future contract in conformity with the Law on State procurement and articles 10 and 11 of this regulations (excluding the occasions defined by paragraph 1, sub-paragraph “c” of this Regulations). The information concerning signing of the contract shall be published in newspaper “Sakartvelos Respublika”.

CHAPTER IV. DISQUALIFICATION FROM TENDER PROCEEDINGS.

ARTICLE 28. DISQUALIFICATION FROM TENDER PROCEEDINGS

1. In compliance with the Law on State Procurement and present Regulations the procuring entity is authorized to disqualify any participant of state procurement proceedings at any stage of the abovementioned proceedings in the following occasions:

- a) If the qualification data or tender proposal does not satisfy the requirements of the procuring entity;
- b) If the participant of procurement proceedings at stage any of the procurement fails to provide confirmation of his qualification;
- c) If the participant of state procurement proceedings refuses to correct errors or make amendments to the submitted qualification data or tender proposal and/or refuses to provide additional information or specifications;
- d) If the submitted qualification data or a tender proposal, as well as supporting documentation contains false information b;

- e) If the participant of the state procurement refuses to sign the procurement contract, modifies terms of his tender proposal, or fails to provide tender security;
 - f) If with the purpose of obtaining procurement contract the participant of the procurement proceedings acts unscrupulously.
2. The decision of disqualification shall be well grounded and be provided to the disqualified participant in written form and within the period of time, defined by the agreement with indication of reasons of disqualification.
3. The disqualified participant has a right to address the procuring entity in written form with the intention of challenging the decision of the procuring entity and proving his positions, as defined by paragraph 2, article 33 of this Regulations, or address to the court of appeals.
4. In the event when decision to disqualify a participant of state procurement proceedings is grounded on the reasons defined by paragraph 1, sub-paragraphs “d”, “e”, “f”, the procuring entity shall promptly notify the Department of State Procurement
5. The Department of State Procurement maintains registration of the entities and individuals disqualified for the reasons stated in paragraph 4 of this article, and gives the list containing information about them to interested procuring entities.
Rehabilitation of the entities and individuals from the list mentioned in paragraph 5 of this article, is possible in the event, if during one year a given entity or individual shall not be disqualified from the procurement proceedings for the same reasons, or the decision of the procuring entity shall be revoked by the decision of a court.
7. In the event, that the same entity or individual shall be disqualified from the procurement proceedings on several occasions during the same year and for the reasons, stated in paragraph 4 of this article, this entity or individual shall be rehabilitated only three years later from the period of the last disqualification.

CHAPTER V. STATE PROCUREMENT CONTRACT>

ARTICLE 29. TERMS OF A CONTRACT

1. The ground of this article is the Law on State Procurement, article 16, paragraph 2.
2. The procuring entity shall elaborate the draft of the terms of the state procurement contract at the procurement preparation stage.
3. Basing on the draft of a state procurement contract, requirements of the procuring entity and, consequently, conditions of the winner's tender proposal, or, in the event of holding negotiations concerning single-source procurement and taking into consideration the results of this negotiations, the final version of the procurement contract is elaborated. While conducting negotiations with the winner of the tender, it is not permitted to make amendments into the contract, but only clarify some of its issues.
4. The state procurement contract shall include the following information:
 - a) The exact names of the parties to the contract and their requisites;
 - b) The name of the object of procurement, including technical parameters, basic specifications, identification number, the nature and quantity of goods, services or works to be procured, unit costs and total costs;
 - c) Total value of the contract (including discounts, taxes, expenses of transportation, insurance and etc);
 - d) Conformity of the goods, services and works to be procured with the existing standards;
 - e) The deadlines and place of delivery of goods, works or services (schedule of implementation in stages);
 - f) The manner of delivery and receiving of goods, works and services;
 - g) Terms and forms of payments, deadlines and place of payments;
 - h) Security of performance (in case such is required by tender documents);
 - i) The rights and responsibilities of the parties;
 - j) The responsibilities of the parties in the event of the breach of the procurement contract;
 - k) Force major conditions;
 - l) The conditions of amendment and modification of the contract;
 - m) The validity period of the contract;
 - n) The rules and procedures of settling disputes;

ARTICLE 30. CONTROL OF IMPLEMENTATION OF STATE PROCUREMENT CONTRACT

1. Control over the implementation of state procurement contractual obligations shall be within the authority of a special group, set up by the procuring entity (hereafter “the group”) and staffed by its personnel.
2. Within the functions of the group responsible for the control of the implementation of procurement contract is the following:
 - a) Upon agreement with the supplier elaborate a plan of control of implementation of the contractual obligations;
 - b) Ensure conformity of the supplied goods, works or services to the requirements of the terms of the contract and with this purpose supervise its implementation and maintain acts of supplying and receiving of goods, works and services;
 - c) Regulate and supervise payments to the supplier according to the terms of the contract;
 - d) Keep and maintain the records, reflecting implementation of the contract on the periodic basis;
3. The goods, works and services shall be considered delivered only upon being reflected in the corresponding reports (act of supplying and receiving).
4. The procuring entity is authorized to inspect quality of the goods, works and services at any stage of implementation of the procurement contract, including inspection of raw materials and spare parts, as well as implementation of works (or services) by sub-contractor.
5. The supplier shall at its own expense place at the procuring entity’s disposal any premises, facilities and personnel needed for inspection. In the event, if the procuring entity shall employ services of its own or hired personnel, the procuring entity shall itself cover the costs and expenditures.
6. Any deficiencies and omissions shall be remedied by and at the expense of the supplier.
7. Before the signing of the report of acceptance or rejection of goods the procuring entity shall carry out the final inspection of the supplied goods, works and services with the purpose of confirming that the quality of the goods, works and services satisfies the requirements of the procuring entity, terms of the contract, the submitted samples and accepted standards. The place of the final inspection shall be defined by the terms of the contract. During the final inspection the sides may agree to employ services of an independent expert. The supplier shall carry the expenses of any deficiencies or omissions detected (including the costs of recovering of the faulty goods).
8. The results of the final inspection shall be submitted to the supplier in the written form and shall include detailed indication of the amount of faulty goods, works or services and the reasons for considering them faulty.
9. In the event of a dispute between the supplier and the examination and receipt group (or committee), the matter shall be settled according to the procedures under the procurement contract, or, in the event, that this procedures fail to deal with the dispute, through the court proceedings.
10. The procedures of reimbursement of the costs of damages, incurred by transportation of the procured goods shall be defined by the contract.

11. It is not permitted to change the terms of the contract, if such changes cause the increase of the total value of the procurement contract, or the terms of the contract become unacceptable for the procuring entity, excluding the occasions, defined by The Civil Code of Georgia, article 398. Any changes or amendments to the state procurement contract shall be made in compliance with the current legislation of Georgia.

12. Any adjustment of prices (of the object of procurement), indicated in the state procurement contract shall be admissible in case they are previously agreed upon and stated in the procurement contract. The contract shall stipulate those conditions, which may cause adjustment of the prices of the procurement contract. In case when the decision of price adjustment is made, the formulas and indices shall take into consideration the influence of the factors, described in the procurement contract over the price of the object of procurement, as well as the amount of budget allocations for procurement purposes, the official rate of inflation, consumer price index, production activity index and etc. Any adjustments in the prices of the procurement contract shall be reflected in documents and promptly provided to the State Procurement Department.

13. Payments between the procuring entity and the supplier shall be settled in accordance with the state procurement contract.

14. In the case of procurement of goods the payments for the delivery of goods shall be made on submission of invoices, together with other required documents.

15. In the case of procurement of works or services, the procurement contract shall indicate the manner and time of payments. The procuring entity may require from the supplier additional report of the proceedings of implementation of the contract at its middle stage.

16. Payments due to the supplier shall be made in accordance with the deadlines set forth in the current legislation.

17. The procurement contract may provide for the advance payment s to the supplier. In case the tool of advance payment is employed, in the procurement contract shall be indicated the percentage of the advance payment from the total value of the object of procurement. In the event of advance payment the supplier shall furnish an advance payment guarantee covering the amount of the advance payment in the form and manner that is defined by the procurement contract.

18. The supplier and his subcontractors shall utilize the advance payments only for the supply of goods and completion of works, related to the procurement contract.

19. The procuring entity may suspend or cancel the validity period of the contract if the qualification data or the supporting documents submitted by the supplier are false, or, the supplier fails to fulfill or violates terms of the procurement contract, or for other reasons defined by legislation of Georgia.

ARTICLE 31. SECURITY FOR PERFORMANCE OF THE CONTRACT

1. The terms of the procurement contract may require provision of the security and/or the insurance for the performance of the contract.

2. Procuring entities shall solicit and accept as security for the performance of the procurement contract a disbursement of the pre- determined amount of money to the special account of the procuring entity and a bank guarantee for the same amount of money, or some other internationally accepted form of security.

3. The validity period of the performance security and the conditions for the return of the security shall be defined by the state procurement contract. In the case the contract validity period was discontinued for a reason not attributable to any fault of the bidder, the procuring entity shall return performance security to the bidder.

4. The object of insurance may be: damage, incurred to the goods due to their transportation, production or storage, supplier's or subcontractor's personnel, supplier's or subcontractor's property, equipment, means of production, as well as any document, elaborated during validity period of a contract, risks of participants of a contract and etc.

5. The procuring entity reserves the right to reject insurance coverage that is not in the public interest.

CHAPTER VI. RECORD OF STATE PROCUREMENT.

ARTICLE 32. RECORD OF STATE PROCUREMENT

1. In compliance with the article 24 of the Law on State Procurement, a procuring entity is subordinated to the State Procurement Department.

2. The rules and procedures of maintaining and keeping of reports are defined by article 24 of the Law on State Procurement and present Regulations.

3. With the purpose of facilitation of the creation of unified data bank of state procurements and ensure transparency and better coordination of procurement-related activities, the procuring entities elaborate operational and annual plans of implementation of state procurements.

4. When utilizing tender method for implementation of state procurement, all stages and proceedings of a tender must be reflected in the records of a tender committee.

5. The procuring entity shall file all documents, related to tender proceedings into one package and ensure its safe keeping for three years from the date of signature of the procurement contract, and in case of long-term contract (two and more years)-one year after the date of expiration of its validity period.

6. When utilizing tender form for implementation of state procurement, a procuring entity shall submit all reports concerning the proceedings of tender to the State Procurement Department no later than within 10 days from the date of signing of the contract.

7. The following shall be included in the operational record of tender proceedings:

- a) A brief description of goods, works, and services to be procured, as well as the need for the procurement;
- b) The source of financing of the procurement (state or local budget);
- c) The list of the members of a tender committee and its working group, invited experts and consultants and all participants of a procurement;
- d) Reports of tender committee and its members' conclusions on tender proposals;
- e) Information relative to announcement of invitation to state procurement proceedings in newspapers with indication of these dates;
- f) The list of participants of the qualification proceedings;

- g) The list of the candidate to a tender including summary of their tender proposals;
- h) The indication of expenditures of a procuring entity related to holding of a tender;
- i) Information concerning qualification data of the participants of a tender;
- j) Copies of the state procurement contract;

8. In case of single-source procurement, when the value of the object of procurement exceeds 25000 Lari a procuring entity is entitled to elaborate operational report on the implemented procurement and present it to the State Procurement Department within 10 days after the signing of a contract.

9. This report shall contain the following information and documentation:

- a) Summary of the description of the goods, works and services and the need for them;
- b) The source of the financing of state procurement (state or local budget);
- c) Grounds for single-source procurement;
- d) The list of the persons responsible for the conduct of negotiations, signing of agreement and supervising its implementation;
- e) Information concerning qualification of the supplier;
- f) Copy of the procurement contract;

10. The reports on state procurement, the value of which is less than 25000 Lari, made according to the source of procurement shall be submitted to the State Procurement Department on the quarterly basis every 10 of the first month;

11. This report shall contain the following information:

- a) The volume of the goods, types of works and services and their costs;
- b) The number of concluded contracts;
- c) the implementation of contracts and settlement of payments;

12. The procuring entity shall ensure safe keeping of the reports stated in paragraph 8 and 10 of this article for three years.

13. Based on the principle of ensuring transparency of state procurements and in compliance with the Law on State Procurement, article 24, paragraph 4, the reports on state procurement shall be made available for all stakeholders and be presented to them upon their request. Summary of the reports of state procurement shall periodically be published (at least twice a year) in such newspapers, as "Sakartvelos Respublika" and others. At the same time, the procuring entities and the State Procurement Department have no right to publish or divulge such information, which may be damaging to the interests of public and all participants of state procurement and restrict or hinder competition in the sphere of state procurement without prior decision and agreement of authorized bodies (excluding information concerning disqualification).

14. If a procuring entity shall make clerical or purely mechanical mistakes in the reports of the proceedings of procurement contracts, such mistakes shall not be considered as the cause of filing an appeal on the part of participants of the state procurement.

15. In the end of each fiscal year a procuring entity shall make an annual report on state procurements implemented during the year and present it to the State Procurement Department no later than February the 1 of the next year.

16. The annual report shall include the following information:

- a) Information relative to the number of state procurement contracts signed during the fiscal year, with indication of the total value and amount of procurements classified into categories (such as: goods, works and services).
- b) The number and value of the completed contracts and indication of the goods, works and services rendered;
- c) The description of those contracts and their implementation proceedings the validity period of which has not expired yet;
- d) Information concerning the number of tenders, their forms and participants;
- e) The expected and real contributions to the corresponding state and local budgets (made on the quarterly basis);
- f) Information concerning the volume of the debts, accumulated due to the unsettled payments for the supplied goods, works or services;

17. The annual reports, presented by procuring entities are the basis for the annual report of the State Procurement Department.

18. The State Procurement Department shall ensure keeping of the reports for at least three years.

19. In compliance with article 5, paragraph 2, subparagraph "d" of the Law on State Procurement, the procuring entity shall present to the State Department of Statistics the statistical data and reports related to state procurement in the form and deadlines, defined by the State Department of Statistics.

CHAPTER VII. THE RULES OF APPEALING

ARTICLE 33. THE RULES AND PROCEDURES OF APPEALING

1. The candidates to participate in state procurement proceedings, participants, suppliers, legal entities and individuals have a right to seek review in case they consider, that are violations of the rules and procedures stipulated by the Law on State Procurement and present Regulations on the part of the procuring entity.

2. In the event that a complaint was given rise prior to the signing of a state procurement contract, bidder (entity, individual and etc) may address the procuring entity directly with the request of reviewing the decision of the member of the tender committee or other authorized person or settling a dispute. Such request shall be made 20 days of when the bidder became aware or should have become aware of the circumstances giving rise to the complaint. In the settling of complaints may participate the individuals, who were the reason of the rising of the complaint or may be affected

by the decision. With the purpose of receiving advice and recommendations, the parties to a dispute may address the State Procurement Department.

3. After the expiration of the deadline, stated in paragraph 2 of this article, or after the signing of the procurement contract, any complaint or dispute shall be settled by court.

4. The complaints, which shall relate to following issues shall not be entertained by court:

- a) The choice of the method of implementation of state procurement, if it is in accordance with the Law on State Procurement and Present Regulations;
- b) The decision of a procuring entity on the canceling of the proceedings of the state procurement, if it is in accordance with the Law on State Procurement and this Regulations;
- c) The qualification requirements of the procuring entity towards procurement of intellectual services;

5. Taking into consideration that satisfaction of the complaint may be damaging to the interests of the state, or those of a procuring entity and other participants of the procurement proceedings, the complaint or appeal should be well-grounded and must contain declaration, that in case it is not satisfied, the party which filed this appeal shall be gravely damaged.

6. In the event that the appeal shall be filed accordance with the deadlines, set forth by this Regulations and prior to the signing of the procurement contract, the procuring entity shall suspend all procurement-related proceedings for a period of seven days. The suspension period may be extended by the decision of the head of the procuring entity or the court, provided, that the total period of the suspension shall not exceed 30 days. The procuring entity, upon agreement with the State Procurement Department has a right not to suspend procurement proceedings, if the delay shall be damaging to the interests of the state.

7. All the disputes, which may give rise between the procuring entity and the supplier shall be settled by court.

8. Any damages that may be incurred to the party, which has filed an appeal due to the settlement of a dispute in compliance with this article, shall be restricted only with the reimbursement of the costs of participation in the state procurement proceedings and shall not include reimbursement of the expected profit.

Committee on Government Procurement

Original: English

NOTIFICATION OF NATIONAL IMPLEMENTING LEGISLATION

Communication from Latvia

Addendum

The following communication has been received from the Permanent Mission of the Republic of Latvia with the request that it be circulated to the Committee on Government Procurement.

I refer to the accession process of Latvia to the WTO Agreement on Government Procurement (GPA) and would like to ask you to circulate the *Law on Procurement for State or Local Government Needs of 5 July 2001** to the Parties to the GPA.

* In English only.

The *Saeima*¹ has adopted
and the President has proclaimed the following Law:

ON PROCUREMENT FOR STATE OR LOCAL GOVERNMENT NEEDS²

Chapter I General Provisions

Section 1. Terms Used in this Law

The following terms are used in this Law:

- 1) **procurement** – purchases, or lease or services received, or construction performed for the needs of the contracting authority;
- 2) **candidate** – person or group of persons invited to participate in a restricted competition or a negotiated procedure;
- 3) **contracting authority**:
 - a) State or local government institution or local government;
 - b) a merchant (except a public services undertaking) who receives credit the guarantor of which with respect to repayment and utilisation is the State or a local government;
 - c) a commercial company established by the State or a local government and which the State budget or a local government budget finances;
 - d) a concessionaire (with respect to construction work) if the concession is entered into regarding use of the structure but payment for the concession is construction work;
 - e) a person carrying out a project which is financed also from the State budget or a local government budget with respect to acquisitions for the project;
 - f) a non-profit-making organization established by the State or a local government and which the State budget or a local government budget finances;
 - g) a commercial company established by the State or a local government and which manages immovable property of the State or a local government and performs civil legal transactions with respect to such property on behalf of a State institution or a local government; or
 - h) a State or local government agency;

¹ The Parliament of the Republic of Latvia.

² Disclaimer: The English language text below is provided by the Translation and Terminology Centre for information only; it confers no rights and imposes no obligations separate from those conferred or imposed by the legislation formally adopted and published. Only the latter is authentic. The original Latvian text uses masculine pronouns in the singular. The Translation and Terminology Centre uses the principle of gender-neutral language in its English translations. In addition, gender-specific Latvian nouns have been translated as gender-neutral terms, e.g. *chairperson*.

- 4) **tenderer** – a person or group of persons who have submitted a tender to participate in the selection of a candidate in a restricted competition, or a tender to sell or lease goods, provide services or perform construction work in accordance with the requirements of the contracting authority;
- 5) **tender of abnormally low cost** – tender of a tenderer to sell or lease goods, provide services or perform construction work for a price substantially lower than that tendered by other tenderers if:
 - a) the contracting authority upon checking the price calculations has found errors there that were the reason for specifying such a low price; or
 - b) the tenderer is unable to prove that it has access to special technology or market conditions that would allow such a low price to be specified;
- 6) **goods** – any tangible or intangible property that satisfies some need and for which a value may be specified when purchasing or selling it on the market;
- 7) **services** – transport operations; design work, also construction design; drafting; technology development; research; training; provision of consultations; testing; diagnostics; monitoring of structures and constructions; work and process management, also construction management; and other work that is not construction work or supply of goods.
- 8) **construction work** – work which is performed in a building or at a construction site (on a parcel of land) during construction, reconstruction, renovation, restoration, demolition and territory development with the use of construction materials and construction equipment;
- 9) **economically most advantageous tender** – the tender selected taking into account various criteria: regular payments, rentability, quality offered, aesthetic and functional characteristics, technical maintenance possibilities, technical assistance, price and others;
- 10) **tender security** – sum of money as provided for by the competition regulations, or a guarantee of such sum, which is submitted to the contracting authority by a tenderer together with the tender as security for the validity of the tender; and
- 11) **security for a contract (obligation)** – reinforcement of obligations provided for in a contract entered into by the contracting authority and the tenderer who has won the competition or the selected candidate.

Section 2. Purpose of this Law

The purpose of this Law is to ensure:

- 1) transparency of the procurement process;
- 2) free competition for sellers of goods, lessors, providers of services and performers of construction work, as well as equal and fair treatment of such; and
- 3) effective utilisation of State or local government resources.

Section 3. Basic Procurement Regulations

- (1) A contracting authority and a tenderer shall exchange information in writing.
- (2) A tenderer shall sign his or her tender and submit it for the competition in writing, and shall ensure that the information contained in the tender is not accessible until the moment of opening of the tender. When the term for submission of tenders has expired, a tenderer may no longer correct or supplement his or her tender.
- (3) A procurement contract shall be concluded in a written form. If the value of a procurement does not exceed LVL 1,000, an accounting corroborative document on the basis of which the contracting authority shall pay money for the supply of goods or the provision of services in accordance with the Law On Accounting may serve as a written contract.
- (4) A contracting authority may divide procurement into parts (lots) in order to enable several tenderers to participate in the procurement or to submit a tender for separate parts (lots) of the procurement. Several subject-matters of a contract may be combined into a single procurement if there is technical justification therefor.
- (5) A contracting authority may not set any requirements for tenderers or candidates that provide more advantageous conditions for a particular tenderer or candidate than for the others, or which otherwise restrict competition.

Section 4. Exceptions for the Application of this Law

- (1) A contracting authority shall not apply this Law if a contract is being entered for:
 - 1) the services of an arbitration board;
 - 2) financial services for the realisation of monetary policy, currency exchange policy, management of the State debt, reserves, and other financial management policies that include transactions with securities and other financial instruments, as well as for the services of the Bank of Latvia and the State Treasury;
 - 3) services of natural persons in accordance with employment contracts;
 - 4) official travel expenditures in accordance with Cabinet regulations;
 - 5) services of public services undertakings for the provision of which such undertakings have exclusive rights in accordance with the Law On Construction Work, Supply, Leasing and Services for the Needs of Public Services Undertakings;
 - 6) services by such institutions as have been established to ensure the functions of the contracting authority and which fully observe the requirements of this Law;
 - 7) research services, except those services as are fully paid for by the contracting authority and are utilised for its own needs only.
- (2) A contracting authority may not apply the sections of Chapters IV, V, VI and VII if a procurement contract is being entered into for:
 - 1) a procurement for which the estimated contract price is less than LVL 1,000;

- 2) design work, research, consultation, management and drafting services the estimated contract price of which exceeds LVL 1,000, but does not exceed LVL 5,000;
- 3) procurement in the case where, as a result of unforeseen circumstances (fire, natural disaster, war, epidemic, accident or other emergency circumstances which the contracting authority could not have foreseen), an emergency situation has arisen and it is necessary to rectify it in order to restore or ensure the activities of the contracting authority, and the estimated price of the contract does not exceed LVL 5,000.

Section 5. Cases when Other Procurement Procedures may be Applied

If a procurement is financed by an international financial institution in the amount of more than 50 per cent or the procurement is a program financed by foreign technical assistance or the European Commission and a condition for the granting of such financing is the application of such procurement procedure that differs from the procedures referred to in this Law, the contracting authority may utilise the procedure referred to in the conditions for the granting of the financing.

Chapter II Determination of Estimated Procurement Contract Price

Section 6. Estimated Contract Price

- (1) The estimated contract price is the sum of money, economically substantiated, that the contracting authority has made provision for regarding the purchase or lease of goods or services, or construction work, including all taxes.
- (2) The estimated contract price shall be determined in order to select the method of procurement.
- (3) It is not permitted to divide the estimated contract price into parts (lots) in order to avoid the application of this Law. If the total amount of a procurement is divided into parts in accordance with Section 3, Paragraph four of this Law and it is provided that separate procurement contracts will be entered into for each part, the estimated contract price shall be determined by taking into account the total value of all the parts.

Section 7. Estimated Contract Price for Goods

- (1) The estimated contract price for goods shall be determined by considering the planned sum for the purchase of specific goods.
- (2) If the expected purchase of one type of goods is expressed in such form that for equivalent contract subject-matter several procurement contracts shall be entered into within a time-period of not less than one month, the estimated contract price shall be determined by summing the estimated contract prices of all such procurement contracts.

Section 8. Estimated Contract Price for the Lease of Goods

If goods are leased with or without rights of pre-emption, the estimated contract price shall be determined as the same as the total sum of the estimated monthly payments:

- 1) if the procurement contract is entered into for 12 months or a shorter period of time;

- 2) in which the planned residual value of the leased goods shall be included if the procurement contract is entered into for a time-period which is longer than 12 months; and
- 3) which is multiplied by 48 if the procurement contract is entered into for an unspecified period of time.

Section 9. Estimated Contract Price for Services

- (1) The estimated contract price for services shall be determined by taking into account all payments that will be received by the provider of services, as well as the conditions referred to in this Section.
- (2) The estimated contract price for insurance shall be determined by taking into account the amount of insurance premiums to be paid.
- (3) The estimated contract price for bank services and other financial services shall be determined by taking into account payments for the services, as well as commissions and interest payments received by the provider of services.
- (4) The estimated contract price for design, also for construction design, shall be determined by taking into account the total payment that the provider of services will receive.
- (5) If the services are regular and a contract price is determined for such services, the estimated total contract price shall be determined based on the payment for services provided in one month, multiplied by:
 - 1) the number of months in the time-period for which the procurement contract will be entered into if such time-period does not exceed 48 months; or
 - 2) by 48 if the procurement contract will be entered into for an unspecified period of time, or a specified time longer than 48 months.

Section 10. Estimated Contract Price for Construction Work

- (1) The estimated contract price for construction work shall be the estimated contract price for the construction or a stage thereof that is to be put into service.
- (2) The estimated contract price for construction work shall include the contract price of all goods, lease or services thereof, except construction design that is necessary in order to perform the relevant construction work, as well as the contract price for such goods or services as will be supplied or provided to the performer of construction work by the contracting authority.

Section 11. Estimated Contract Price for Mixed Contracts

- (1) If a procurement contract refers to the purchase or lease of specific goods, specific services or parts thereof, specific construction work or parts thereof, then the total estimated contract price of the goods, services and construction work shall be taken into account.
- (2) If a contract provides for the purchase or lease of both goods and services, such contract shall be considered either as a purchase of goods contract or a provision of services contract depending on what constitutes the larger part of the estimated contract price. These conditions shall not apply to construction work.

Chapter III **Description of Work and Technical Specifications**

Section 12. Description of Work

(1) The description of work is a document prepared by the contracting authority or – in the case of construction design – a description of design work prepared by the contracting authority and the designer, in which the set requirements for the necessary services, the purpose of such services and, if necessary, the methods and resources to be utilised are specified, as well as the final result. The tenderer for construction work shall determine the costs of the positions referred to in the list of quantities that is included in the components of the construction design prepared by the designer in relation to the work to be performed, construction material and construction equipment. The description of work and list of the amounts shall be clear so that the tenderer, without additional preparation and unjustified risk, may calculate the cost of services or construction work, and the contracting authority can compare tenders.

(2) A description of work shall be included in the procurement procedure regulations and in the contract.

(3) The description of work may not mention specific materials or processes, nor indicate trade marks, patents and specific origin unless such conditions are crucial for the existence of the subject-matter of the contract. In such case, the specific references shall be used together with the words "vai ekvivalents" [or equivalent].

Section 13. Technical Specifications

(1) Technical specifications are:

- 1) description of goods that includes requirements with respect to quality, quantity, operation, safety, dimensions, terminology, symbols, tests, methods of testing, packaging, marking, labels and other substantiated and objective requirements so that the goods conform to the procurement purpose; and
- 2) a description (list) of standards and quality requirements specified for the intended work and constructions in the construction project.

(2) By means of technical specifications, the contracting authority shall specify the level of requirements that the goods or construction work have to conform to. The technical specifications shall be included in the procurement procedure regulations and the contract. The contracting authority shall give priority to those technical specifications that focus on the result of the operation (function) of the procurement object. If the contracting authority considers that such technical specifications do not conform to the purpose of the contract, the contracting authority may also develop such technical specifications characterizing the appearance of the procurement subject-matter.

(3) The technical specifications may not mention specific materials or processes, nor indicate trademarks, patents and specific origin unless such conditions are crucial for the existence of the procurement subject-matter. In such case, the specific references shall be used together with the words "vai ekvivalents" [or equivalent].

(4) If the procurement object conforms to the relevant standards, the technical specifications shall be prepared in accordance with:

- 1) adapted European standards with the status of Latvian national standards;
- 2) Latvian national standards; and
- 3) other standards of international or regional standardization organizations.

(5) Paragraph four of this Section shall not apply to cases when:

- 1) it is technically not possible to achieve conformity of goods to the standards mentioned therein; or
- 2) to incorporate the standards mentioned therein the contracting authority would have to acquire goods which are incompatible with the goods at their disposal and which the contracting authority is expecting to use together with the goods to be acquired.

Chapter IV **Requirements to be Met by the Tenderers**

Section 14. Selection of Tenderers

The contracting authority shall examine tenders submitted by tenderers, which conform to the requirements stipulated in this Chapter and which have been selected in accordance with the procedures indicated in this Law.

Section 15. Provision of Equal Opportunity for Tenderers

(1) The contracting authority shall provide for all tenderers an equal opportunity to acquire rights to enter into a procurement contract.

(2) Tenderers may join together in groups irrespective of their type of commercial activity and submit a single joint tender if such is provided for in the competition regulations. If the contracting authority has selected such a group and a type of commercial activity has been specified as desired to fulfil a procurement contract, the contracting authority may require the tendering group to form a partnership.

(3) Transparency shall be observed throughout the procurement procedure. If the contracting authority provides additional information, such information shall be sent to all the tenderers as well as to all who have received the competition regulations or the regulations for selection of qualifications in a restricted competition.

(4) Participation of a tenderer in the procurement procedure may not be hindered.

(5) It is prohibited for persons, who themselves or their representatives have participated in the preparation of the competition regulations or parts of such regulations or a request for a price quotation, to participate in the relevant competition or request for a price quotation.

(6) From the time of submission of tenders to the opening thereof and the period of the evaluation of the tenders and the notification of the results, the contracting authority is prohibited to provide information on the existence of other tenders and the process of evaluating tenders.

(7) The contracting authority may require payment for the competition regulations. State institutions shall transfer such payment into the State base budget, local governments and local government institutions – into the budget of the local government that holds the competition. Payment may not exceed:

- 1) LVL 20 if the estimated contract price is up to LVL 50,000;
- 2) LVL 50 if the estimated contract price is up to LVL 120,000;
- 3) LVL 100 if the estimated contract price is higher than LVL 120,000; or
- 4) LVL 200 if the estimated contract price is higher than LVL 4,500,000.

Section 16. Conditions for Excluding Tenderers

(1) A contracting authority shall not examine a tender and shall exclude the tenderer from future participation at any stage of tender evaluations if:

- 1) a tenderer is declared insolvent, is in the process of liquidation, its business activity has been suspended or interrupted, or legal proceedings have been initiated with respect to termination of the activities of the tenderer, insolvency or bankruptcy;
- 2) a tenderer has tax debts or debts with respect to mandatory payments of State social insurance in Latvia or another State in which the tenderer is registered;
- 3) violations of the professional activities of the tenderer have been determined in accordance with procedures prescribed by law;
- 4) the tenderer is not registered in cases prescribed by law and in accordance with procedures prescribed by law;
- 5) the tenderer does not have a certificate of origin of goods, nor a licence for the sale or lease of goods specified in the certificate nor for the provision of services or performance of construction work if such certificates or licences are necessary in accordance with other regulatory enactments;
- 6) the tenderer, in accordance with Paragraph two of this Section, in providing the information required has provided false information or no information at all;
- 7) the tenderer is included in the special list of the Procurement Monitoring Bureau, and which list the Bureau has placed on the Internet. The Internet address shall be published in the newspaper "*Latvijas Vēstnesis*" [official Gazette of the Government of Latvia]. The procedure for establishing the special list shall be regulated by the Cabinet.

(2) In order to evaluate a tenderer in accordance with Paragraph one of this Section, the contracting authority may request:

- 1) a declaration by the tenderer that no violations by the tenderer in its professional activities have been determined in accordance with procedures prescribed by law;

- 2) a statement issued, not earlier than one month prior to the submission of the tender, by the State Revenue Service or other tax administration institution in Latvia or an equivalent tax administration institution in another state in which the tenderer is registered, certifying that the tenderer does not have tax debts or debts with respect to mandatory payments of State social insurance;
- 3) a copy of the registration certificate or a statement which certifies that the tenderer is registered in accordance with procedures prescribed by law, has not been declared insolvent, is not in the process of liquidation, or the tenderer's economic activity has not been suspended or terminated;
- 4) a licence or certificate for the sale or lease of particular goods, for the provision of services or performance of construction work if such certificate or licence is necessary in accordance with other regulatory enactments; and
- 5) information in accordance with Section 19, Paragraph two of this Law.

Section 17. Information regarding the Economic and Financial Standing of a Tenderer

(1) If an open or restricted competition or negotiated procedure is provided for, the contracting authority shall determine the level of requirements or the minimal requirements with respect to the economic and financial standing of tenderers and may, in order to evaluate such standing, require the tenderer to present or submit one or more of the following documents:

- 1) the annual accounts of the tenderer or a certified excerpt from the annual accounts regarding that part of the commercial activity of the tenderer which relates to the expected procurement, but for not more than the previous three years; and
- 2) a statement regarding the tenderer's total financial turnover or financial turnover in respect of the relevant procurement, but for not more than the previous three years;

(2) If in the case of a particular procurement the information referred to in Paragraph one of this Section does not characterise the economic and financial standing of the tenderer, the contracting authority may request other information for characterizing such standing.

Section 18. Information on a Tenderer's Capabilities

(1) In the regulations for an open competition or regulations for selection of candidates in a restricted competition the contracting authority shall indicate how the tenderer will have to confirm their capability to sell or lease goods, provide services or perform construction work.

(2) The contracting authority, or a competent authority in the name of the contracting authority in the state where the tenderer is registered, may carry out an examination in order to determine the tenderer's production capabilities and measures to ensure quality control.

(3) If the expected contract is related to the purchase or lease of goods, the contracting authority may request the tenderer to present or submit one or more of the following supporting documents:

- 1) a list of relevant or similar goods sold where the quantity of goods sold is mentioned, the recipient and the date, and to which copies of approved waybills or equivalent documents or references are attached, but for not more than the previous three years;
- 2) a description of technical equipment owned by the tenderer and a document that confirms the tenderer's capability to ensure the quality of the goods;

- 3) information regarding personnel involved in the sale or lease of goods, especially personnel responsible for quality control;
- 4) samples, descriptions or photographs of the goods to be sold; or
- 5) copy of a certificate, issued by an official quality control institution or other competent body, which certifies the conformity of the goods to standards.

(4) If the expected contract relates to the provision of services, the contracting authority may, taking into consideration the specifics of the services, request the tenderer to present or submit one or more of the following supporting documents:

- 1) information regarding the qualifications of the tenderer or of the education and qualification of the person who is the actual provider of the services;
- 2) a list of services provided, approved by the recipient of the services or the provider of the services, which indicates the amount of services, the recipient and the date of provision of the services, or references from the recipient of such services, but for not more than the previous three years;
- 3) information regarding personnel involved in the provision of services, especially personnel responsible for quality control;
- 4) information regarding the tools necessary for the provision of services, production equipment, and premises owned by or accessible to the tenderer;
- 5) a description of the measures to ensure the quality of the services to be provided; or
- 6) a statement regarding which parts of the contract the tenderer plans to give to subcontractors in accordance with a subcontract.

(5) If the expected contract relates to the performance of construction work, the contracting authority may request the tenderer to present or submit one or more of the following supporting documents:

- 1) information regarding the education and professional qualifications of the persons responsible for the performance of construction work;
- 2) information regarding construction work performed, supplemented with statements and references regarding performance of the more significant work, but for not more than the previous five years. Such statements shall include information regarding the amount of the relevant construction work, the types of constructions, the time-period for performance and location, whether all work has been completed, as well as the name, location, amount and expected date of completion of unfinished objects shall be indicated;
- 3) information regarding the technology and production equipment necessary to perform the construction work and which is owned by or is accessible to the tenderer; or
- 4) information regarding the technical personnel which the tenderer will utilise for the construction work.

(6) If the tenderer indicates that subcontractors will be involved, information shall be requested also regarding such subcontractors.

Section 19. Additional Information

(1) The contracting authority may request the tenderer to explain the information provided in accordance with Sections 16, 17 and 18 of this Law, but such additional information may be requested only within the scope specified in the Sections referred to.

(2) In order to determine whether the cost of a tender received is abnormally low, the contracting authority shall request the tenderer who has submitted the tender with the lowest price to submit a description of the technology necessary for the performance of the procurement, and a description of the specific market factors available only to this tenderer that substantiates the price reduction.

Section 20. Tender Security

(1) The contracting authority may request a tender security from tenderers, observing the following provisions:

- 1) the requirement shall apply to all tenderers equally and without exceptions;
- 2) the competition regulations shall specify what types of tender security and the time-periods that are acceptable to the contracting authority and which institutions or organizations may provide security for tenders;
- 3) the contracting authority does not have the right to refuse a tender security if the security and the tenderer conform to the requirements of the competition regulations and the security is not in conflict with the laws;
- 4) prior to submitting a tender, the tenderer may request from the contracting authority confirmation that the security for tender tendered is acceptable. The contracting authority shall respond to each such request without delay; and
- 5) confirmation that the security for tender tendered is acceptable does not exclude the possibility that the contracting authority may thereafter reject a guarantor who has been declared insolvent.

(2) A tender security shall be in effect for the shortest of the following time-periods:

- 1) the period of validity referred to in the competition regulations for the tender commencing from the day of the opening the tenders, or to any extension of the period of validity of a tender regarding which the tenderer and guarantor have notified the contracting authority in writing; or
- 2) if the contracting authority declares a tenderer as having won the competition, until the day that the winning tenderer submits a contract (obligation) security (if such is provided for in the competition regulations and in the contract).

(3) A tender security shall be in effect and the contracting authority shall not repay the tenderer, or the guarantor shall pay the contracting authority the tender security amount if:

- 1) the tenderer retracts his or her tender during the period while the tender security is in effect;

- 2) the winning tenderer has not submitted to the contracting authority the contract (obligation) security in accordance with the provisions of the mutual agreement, which is in effect at the moment of acceptance of the tender.

Section 21. Exclusion from Participation in the Procurement Process

(1) If the conditions referred to in Section 16, Paragraph one of this Law apply to the tenderer or the tenderer's economic and financial standing and capabilities do not conform to the conditions of Sections 17 and 18 of this Law and the conditions specified in the competition regulations, the contracting authority shall take a decision not to examine the tenderer's tender and to exclude the tenderer from further participation in the procurement procedure.

(2) If a tenderer has submitted an tender of abnormally low cost, the contracting authority shall take a decision regarding exclusion of the tenderer from further participation in the procurement process.

(3) If a tenderer requests the contracting authority to explain the decision that has been taken in accordance with Paragraph one or two of this Section, the contracting authority shall, within a period of three days from receipt of the request, provide a written substantiation of the decision.

Chapter V Procurement Methods

Section 22. Selection of Procurement Method

(1) The procurement method may be an open competition, a restricted competition, a request for a price quotation, or a negotiated procedure.

(2) The contracting authority shall choose the request for price quotation if the expected procurement contract will be entered into for:

- 1) purchase or lease of goods if the estimated contract price is from LVL 1,000 to 5,000;
- 2) provision of services, except the services mentioned in Section 4, Paragraph two, Clause 2 of this Law, if the estimated contract price is from LVL 1,000 to 5,000; or
- 3) performance of construction work if the estimated contract price is from LVL 1,000 to 50,000.

(3) The contracting authority shall choose open competition or the negotiated procedure if the expected procurement contract will be entered into for:

- 1) purchase or lease of goods if the estimated contract price is higher than LVL 5,000; or
- 2) performance of construction work if the estimated contract price is higher than LVL 50,000.

(4) The contracting authority shall choose an open competition, restricted competition or negotiated procedure if the expected procurement contract will be entered into for the provision of services and the contract price is higher than LVL 5,000.

(5) The procedures of an open or restricted competition with respect to the purchase or lease of goods, provision of services or performance of construction work shall be regulated by Cabinet regulations separately for each of the types mentioned.

Section 23. Procurement Commission

(1) The contracting authority shall form a procurement commission for the conduct of the procurement. It shall be comprised of officials of the contracting authority and other institutions (if other institutions are also interested in the procurement or it is prescribed by regulatory enactments). A procurement commission shall be formed separately for each procurement or for a specified time-period, or it can be a body functioning on an ongoing basis that can conduct procurement for the needs of one or more contracting authorities. When applying the request for price quotation, the contracting authority may authorize a competent official for the conduct of procurement with respect to the relevant procurement, which official shall have the same rights and duties as the procurement commission.

(2) In forming a procurement commission, all the members thereof shall have sufficient knowledge in the field of the procurement, but at least three members shall have in-depth knowledge with respect to the procurement for which a contract will be entered into. The procurement commission shall be headed by the chairperson of the commission. If the procurement contract will be entered into for construction work and in the case of a request for a price quotation the estimated contract price is higher than LVL 5,000, the commission shall consist of at least three members of whom at least one is a certified construction specialist, but in the case of an open or restricted competition or a negotiated procedure the commission shall consist of at least five members of whom at least one is a certified construction specialist.

(3) Members of a procurement commission or the authorized official for conduct of the procurement shall not at the same time represent the interests of the contracting authority and the tenderer, and shall not be associated with the tenderer.

(4) A procurement commission shall ensure the preparation of competition regulations, candidate selection regulations or requests for price quotations, record the course of the procurement process, and shall be responsible for course of the procurement procedure.

(5) The procurement commission shall select candidates in accordance with the candidate selection regulations and evaluate tenderers and the tenders submitted thereof in accordance with this Law and other regulatory enactments and the competition regulations. Each member of the commission shall provide an evaluation in writing and the evaluation shall be appended to the minutes of the commission meeting. The decision regarding the results of the procurement procedure shall be taken depending on these evaluations. Remuneration for work performed may be provided for invited procurement commission members and experts.

(6) A decision of a procurement commission is binding on the contracting authority upon the entering into of a procurement contract.

Section 24. Competition Regulations

(1) Prior to announcing an open or restricted competition, competition regulations shall be prepared and approved by the procurement commission and shall contain the following information:

- 1) general information:

- a) procurement identification number that includes the full name of the contracting authority or an abbreviation – first capital letters, the year and increasing sequential number,
 - b) name, address and other prerequisites of the contracting authority,
 - c) subject-matter of the procurement,
 - d) contract performance time and location,
 - e) location, date, time and procedure for submission and opening of tenders,
 - f) period of tender being in effect,
 - g) tender security, if such is provided for, and the procedure for payment,
 - h) requirements with respect to documentation and submission of tenders, and
 - i) other general information;
- 2) information regarding the subject-matter of the contract:
- a) description of the subject-matter of the contract,
 - b) technical specifications or description of work, and
 - c) other information with respect to the subject-matter of the contract;
- 3) requirements regarding information necessary for evaluation of the tenderer in conformity with Section 16 of this Law;
- 4) requirements with respect to the economic and financial standing and technical capabilities of the tenderer for an open competition, and with respect to information to be submitted in accordance with Sections 17 and 18 of this Law;
- 5) criteria for the evaluation and selection of tenders in accordance with Section 30 of this Law. If the economically most advantageous tender is selected, the relevant criteria shall be indicated in sequence of significance thereof, together with the numerical weighting of these criteria, description of the methods of evaluation and formulae utilised in evaluating the tenders, and a statement on whether the tenderer may submit tender variants and how such variants will be evaluated;
- 6) method by which arithmetic errors (except abnormally low cost tenders) allowed by the tenderer shall be evaluated and considered;
- 7) draft procurement contract;
- 8) rights and obligation of the procurement commission; and
- 9) rights and obligations of tenderers.
- (2) Prior to announcing a restricted competition, the contracting authority shall prepare the candidate selection regulations in accordance with Sections 16, 17 and 18 of this Law and it shall indicate:
- 1) name, address and other prerequisites of the contracting authority;
 - 2) identification number of the procurement;
 - 3) subject-matter of the procurement;
 - 4) the location, date and time of tender submission and opening;

- 5) requirements with respect to the economic and financial standing and technical capabilities of the candidate, as well as the criteria for selection of candidates;
- 6) conditions for the exclusion of a candidate from participation in the procurement procedure;
- 7) information to be submitted with respect to the economic and financial standing and technical capabilities of the candidate; and
- 8) other information regarding the selection of candidates.

(3) All persons interested may become acquainted with the competition regulations and the candidate selection regulations.

(4) The contracting authority may amend the competition regulations and candidate selection regulations, but not later than five working days before the end of the time-period for the selection of tenders or applications. All tenderers, candidates and other persons who have expressed interest in participating in the competition by obtaining the competition regulations or candidate selection regulations shall be informed of such changes.

Section 25. Open Competition

(1) If the contracting authority has announced an open competition, all persons interested may submit tenders.

(2) The contracting authority shall send a notice to the Procurement Monitoring Bureau regarding the expected procurement and shall invite possible tenderers to submit tenders.

(3) The notice shall indicate:

- 1) name and address of the contracting authority, the contact person and telephone number;
- 2) identification number of the procurement;
- 3) the procurement procedure selected;
- 4) the subject-matter and amount of the expected contract, as well as the condition that tenderers may submit tenders for a part of the amount (if such is provided for by the regulations);
- 5) the location and time period for performance of the expected contract;
- 6) the location and time for receipt of the competition regulations;
- 7) the time-period for submitting requests for additional information; and
- 8) the location and time-period for submission of tenders, and the location, date and time of opening tenders. Tenders shall be opened immediately after the end of the time-period for tender submission;
- 9) all necessary payments and guarantees; and
- 10) other information that the contracting authority considers necessary.

(4) The Procurement Monitoring Bureau shall place a notice on the Internet within three working days after receiving the notice. The Internet address shall be published in the newspaper *Latvijas Vēstnesis*.

(5) The contracting authority shall publish a notice in the newspaper *Latvijas Vēstnesis* and at least in one other newspaper not less than three working days after sending the notice to the Procurement Monitoring Bureau, or the next day after placement of the notice on the Internet.

(6) If the contracting authority has made amendments to the competition regulations after the notice has been placed on the Internet and published, the contracting authority shall send another notice to the Procurement Monitoring Bureau and it shall be placed on the Internet and published in accordance with the procedure specified in Paragraphs four and five of this Section. The notice shall include information regarding what has been changed compared to the previous notice regarding the competition, as well as the changed time period for submission of tenders.

(7) The contracting authority or the procurement commission shall register to whom and when competition regulations have been issued. The tenderer, upon submitting a tender, may request confirmation that the tender has been received, including an indication regarding the time of receipt of the tender.

(8) The procurement commission upon request by a possible tenderer shall provide additional information regarding the competition regulations if the request is submitted not later than six working days before the end of the time-period for submission of tenders. The procurement commission shall prepare such information within three working days of the receipt of the request. The prepared additional information shall be sent to those possible tenderers who have received the competition regulations, as well as to those tenderers who have already submitted tenders.

(9) The time-period for submission of tenders, after a notice regarding the expected procurement or amendments made to the regulations has been sent to the Procurement Monitoring Bureau, may not be shorter than 52 working days if the estimated contract price for goods and services is higher than LVL 120,000 and for construction work – than LVL 4,500,000. If the estimated contract price for goods and services is less than LVL 120,000 and for construction work – than LVL 4,500,000, the time-period for submission of tenders may not be shorter than 40 working days. If the estimated contract price for goods and services is less than LVL 50,000 and for construction work – than LVL 500,000, the term for submission of tenders may not be shorter than 30 working days.

(10) The procurement commission shall open the submitted tenders immediately after the end of the time-period for submission of tenders, at the location and time specified in the regulations. If a tender is submitted after the specified time-period for the submission of tenders, it shall be returned to the tenderer unopened. All tenderers or representatives thereof may participate at the opening of tenders. The process of opening tenders shall be documented in a report which shall include the given names, surnames, and position held of those present, name of the tenderer, time of submission of the tender, the price tendered and other information that characterizes the tender.

(11) The procurement commission shall select tenderers in accordance with Sections 16, 17 and 18 of this Law, check the conformity of the tenders with the description of work, technical specifications and other requirements specified by the regulations, and after that shall evaluate the tenders which conform to the requirements in accordance with the evaluation criteria and regulations provided in this Law, in other regulatory enactments and the competition regulations.

(12) The procurement commission shall take a decision to enter into a procurement agreement with the tenderer who has appropriate qualifications, whose tender conforms to the description of work and technical specifications and who has been evaluated as the most advantageous in conformity

with the evaluation criteria and procedure specified by the regulations. If no tenders have been submitted for an open competition or the tenders submitted do not conform to the requirements of the regulations, the procurement commission shall take a decision to terminate the competition without selecting a tender.

(13) The procurement commission shall notify the decision in accordance with Section 32 of this Law.

(14) The procurement commission shall document in a report the procedure of the open competition in accordance with Section 34 of this Law.

Section 26. Restricted Competition

(1) If a restricted competition is being organized, all interested persons may submit applications for the selection of candidates. The procurement commission shall select candidates who shall be invited to submit tenders to the notified competition.

(2) The contracting authority shall send a notice to the Procurement Monitoring Bureau regarding the expected procurement and shall invite possible candidates to submit tenders applications for the selection of candidates.

(3) The notice shall include:

- 1) the name and address of the contracting authority;
- 2) identification number of the procurement;
- 3) the expected subject-matter of the contract and amount;
- 4) the location and time period for performance of the expected contract;
- 5) the location and time-period for receipt of candidate selection regulations; and
- 6) the location, date and time-period for submission of applications.

(4) The term for submission of applications after the notice has been sent to the Procurement Monitoring Bureau may not be shorter than 37 working days if the estimated price of the contract is higher than LVL 120,000. If the estimated contract price is less than LVL 120,000, the time-period for submission of applications may not be shorter than 25 working days. If the estimated contract price is less than LVL 50,000, the time-period for submission of applications may not be shorter than 15 working days.

(5) If the notice conforms to Paragraphs three and four of this Section, the Procurement Monitoring Bureau shall place the notice on the Internet within three working days. The contracting authority shall publish a notice in the newspaper *Latvijas Vēstnesis* and in at least one other newspaper not less than three working days after sending the notice to the Procurement Monitoring Bureau, or the next day after placement of the notice on the Internet.

(6) If the contracting authority has made amendments to the candidate selection regulations after the notice has been placed on the Internet and published, it shall send another notice to the Procurement Monitoring Bureau and the notice shall be placed on the Internet and published in accordance with the procedures specified in Paragraph five of this Section. The notice shall include information regarding what has been changed compared to the previous notice on the selection of candidates, as well as the changed time-period for submission of applications. After sending the

notice, the time-period for the submission of applications shall be determined in accordance with Paragraph four of this Section.

(7) The procurement commission shall, within 10 working days of the end of the time-period for the submission of applications, perform a selection of candidates in accordance with the criteria specified in the candidate selection regulations. All interested persons or groups of persons interested may submit applications for the selection of candidates.

(8) The contracting authority or procurement commission shall send, concurrently to all selected candidates, an invitation to submit a tender. The competition regulations or the address where the regulations can be obtained shall be attached to the invitation. The contracting authority or procurement commission shall register to whom and when an invitation was sent and the competition regulations sent or issued. To those who have applied for the selection of candidates but have not been selected in accordance with the candidate selection regulations the procurement commission shall within three days of taking the relevant decision send a notice regarding the decision and substantiation thereof.

(9) An invitation to submit a tender shall include the following information:

- 1) address and time-period during which the competition regulations (if those were not sent together with the invitation) or additional information may be requested;
- 2) conditions and charge for the provision of the competition regulations or additional information if such is requested regarding the provision of the regulations;
- 3) the location, date and time for the submission and opening of tenders. The time-period, after an invitation to submit tenders or a notice of amendments made if such exist in the regulations has been sent to the selected candidates, may not be shorter than 40 working days if the estimated contract price is higher than LVL 120,000. If the estimated contract price is less than LVL 120,000, the time-period for submission of tenders may not be shorter than 25 working days. If the estimated contract price is less than LVL 50,000, the time-period for submission of tenders may not be shorter than 15 working days. The tenders shall be opened immediately after the end of the time-period for the submission of tenders at a location, date and time specified by the regulations; and
- 4) the date when the notice regarding the selection of candidates was placed on the Internet.

(10) The procurement commission pursuant to a request by a candidate shall provide additional information regarding the competition regulations if the request is submitted not later than six working days before the end of the time-period for submission of tenders. The procurement commission shall prepare such information within two working days of the receipt of a request. The prepared additional information shall be sent to those candidates who received the competition regulations, as well as to those tenderers who have already submitted tenders.

(11) Tenders shall be opened at the location and time specified by the regulations. If a tender is submitted after the specified end of the time-period for submission of tenders, it shall be returned to the tenderer unopened. All tenderers or representatives thereof may participate in the opening of tenders. The process of opening tenders shall be documented in a report which shall include the given names, surnames, and positions held of the persons present, name of the tenderer, time of submission of the tenders, the price tendered and other information that characterizes the tenders.

(12) The procurement commission shall examine the conformity of tenders to the description of work, technical specification and other requirements referred to in the regulations and after that shall evaluate the tenders that conform to the requirements in accordance with the evaluation criteria and provisions indicated in this Law, in other regulatory enactments and in the competition regulations. The procurement commission shall take a decision regarding selection of the most suitable tender. If no tenders have been submitted for a restricted competition or the tenders submitted do not conform to the requirements of the competition regulations, the procurement commission shall take a decision to terminate the competition without selecting a tender.

(13) The procurement commission shall notify the decision in accordance with Section 32 of this Law.

(14) The procurement commission shall document in a report the procedures of the restricted competition in accordance with Section 34 of this Law.

Section 27. Conditions for Selecting the Negotiated Procedure

The procurement commission may apply the negotiated procedure if:

- 1) in the previously published open or restricted competition no tenders were submitted or the tenders did not conform to the requirements of the competition regulations, or for the previously published restricted competition no applications were submitted for the selection of candidates. All tenderers who submitted tenders for the open or restricted competition shall be invited for negotiations. The regulations for the expected procurement contract shall not differ from the expected procurement contract regulations in the previously published open or restricted competition;
- 2) due to unforeseen circumstances (fire, natural disaster, war, epidemic, accident, or other extraordinary circumstances which the contracting authority could not have foreseen) that are unrelated to the procurement, a situation has arisen where as a result of time restrictions it is not possible to conduct an open or restricted competition;
- 3) the contracting authority needs to partially exchange or to supplement goods already at the disposal of the contracting authority. In purchasing goods from other than the original supplier, the contracting authority would have to purchase goods with different technical characteristics. Such goods would then be technically incompatible with the goods already at the disposal of the contracting authority or also difficulties would result in the use or maintenance of goods at their disposal. The time-period for such procurement contract may not exceed three years;
- 4) the contracting authority needs to receive additional services or to perform additional construction work that were not previously foreseen but which are essential for the performance of an open or restricted competition procurement contract entered into. If such additional services or construction work may not be technically or economically separated from the services or construction work specified in a procurement contract already entered into or are necessary to perform the procurement contract already entered into, such services shall be provided or construction work shall be performed by the performer of the procurement contract already entered into. The total value of a supplementary procurement contract may not be higher than 10 per cent of the value of the procurement contract already entered into; or

- 5) the contracting authority needs to continue receiving services that are already being provided in accordance with a procurement contract entered into as a result of an open or restricted competition. Such a procedure may be applied for not longer than three years from entering into of the first procurement contract. The conditions of the procurement contract shall not differ from the conditions of the previous procurement contract and the total value of the procurement contract may not be higher than 50 per cent larger than the value of the previously signed procurement contract.

Section 28. Negotiated Procedure

(1) If the negotiated procedure is chosen, the procurement commission shall send a notice to the Procurement Monitoring Bureau accompanied with a substantiation for choosing the negotiated procedure.

(2) The notice shall include:

- 1) identification number of the procurement;
- 2) description of the expected subject-matter of the contract and amount thereof;
- 3) the location and time-period for performance of the expected contract;
- 4) candidates; and
- 5) location and time-period for submission of tenders.

(3) The time-period for submitting applications may not be shorter than 37 working days from the date of sending the notice to the Procurement Monitoring Bureau if the estimated contract price for goods and services is higher than LVL 120,000 and for construction work – than LVL 4,500,000. If the estimated contract price for goods and services is less than LVL 120,000 and for construction work – than LVL 4,500,000, the time-period for submission of tenders shall may not be shorter than 25 working days. If the estimated contract price for goods and services is less than LVL 50,000 and for construction work – than LVL 500,000, the time-period for submission of tenders may not be shorter than 15 working days.

(4) The Procurement Monitoring Bureau shall evaluate within a period of three working days the substantiation for selecting the negotiated procedure. If the substantiation for the selection conforms to the conditions of Section 27 of this Law, the Procurement Monitoring Bureau shall place the notice on the Internet. If it does not conform to the conditions of Section 27 of this Law, the Procurement Monitoring Bureau shall notify the procurement commission thereof and the commission shall choose another procedure referred to in this Law.

(5) If the negotiated procedure is used in accordance with Section 27, Clauses 1 and 2 of this Law, the procurement commission shall commence negotiations with the tenderers immediately after the notice is placed on the Internet without observing the time-periods specified in Paragraph three of this Section.

(6) If the Procurement Monitoring Bureau has permitted the application of the negotiated procedure, the procurement commission shall send an invitation for candidates to participate in negotiations, as well as the draft of the expected procurement contract.

(7) The procurement commission shall conduct negotiations with candidates who have submitted applications to participate in the negotiated procedure, and shall take a decision regarding selection of the most suitable tender.

(8) The procurement commission shall notify the decision in accordance with Section 32 of this Law.

(9) The procurement commission shall document in a report the negotiated procedure in accordance with Section 34 of this Law.

Section 29. Request for a Price Quotation

(1) If a request for a price quotation is selected, the procurement commission shall select such possible candidates regarding whose qualifications and reliability the commission has no reservations.

(2) The procurement commission shall send to at least three possible tenderers an invitation to submit a tender to sell or lease goods, provide services or perform construction work in accordance with the requirements, technical specifications and description of work referred to in the invitation. The price of goods, services or construction work may include expenditures after the expiry of the guarantee time-period, the cost of delivery and installation, cost of training personnel and other expenditures.

(3) In the invitation, the procurement commission shall indicate the time-period for submission of a tender, which may not be shorter than five working days after the sending the invitation.

(4) The procurement commission shall examine the conformity of a tender with the invitation requirements, technical specifications and description of work, and evaluate the conforming tenders in accordance with the requirements of, Section 30, Paragraph six of this Law and take a decision regarding the selection of a tender.

(5) The procurement commission shall make a report of the procedure of the request for a price quotation. The report shall include the following information:

- 1) identification number of the procurement and the date of the report;
- 2) the name of the contracting authority;
- 3) the name and amount of required goods, services or construction work, technical specifications or description of work;
- 4) the names of tenderers, the tenders and the prices thereof;
- 5) other information that the commission considers necessary; and
- 6) decision regarding the selection of a tender.

Chapter VI Selection of Tenders

Section 30. Criteria for Selection of Tenders

(1) The contracting authority shall indicate the criteria for selection of tenders in the regulations of an open or restricted competition or in an invitation for a price quotation.

(2) In the case of a competition, if the contracting authority expects to enter into a contract for the receipt of services or a joint contract for construction design and construction work, the procurement commission shall select the economically most advantageous tender which conforms to the description of work provided in the regulations.

(3) In the case of a competition where the contracting authority expects to enter into a contract for the purchase or lease of goods, the procurement commission shall select the tender with the lowest price that conforms to the requirements and technical specifications referred to in the regulations. The lowest price shall be determined in accordance with the provisions of Section 31, Paragraphs three and four of this Law.

(4) In the case of a competition where the contracting authority expects to enter into a contract for construction work and the estimated contract price exceeds LVL one million, the procurement commission shall select the tender with the lowest price.

(5) In the case of a competition where the contracting authority expects to enter into a contract for construction work and the estimated contract price is from LVL 50,000 to one million, the procurement commission shall select the tender with the lowest price or the relatively lowest price.

(6) In the case of a request for a price quotation the procurement commission shall select the tender with the lowest price that conforms to the requirements and technical specifications indicated in the invitation.

(7) The tender with the relatively lowest price shall be determined by calculating the average price of all tenders, then rejecting tenders the price of which is lower than the average price that has been reduced by the percentage difference from the average price, and selecting from the remaining tenders the tender with the lowest price. The percentage difference from the average price shall be specified in the competition regulations and it may not be less than 10 per cent of the average price.

Section 31. Additional Provisions for the Selection of Tenders

(1) If the contracting authority expects to enter into agreement for construction work and the contract price exceeds LVL one million, the procurement commission shall examine the price structure of the tender. If the lowest price tendered or the two lowest prices differ significantly from the next lowest price tendered, the procurement commission may ascertain whether one or two tenders respectively may not be abnormally low priced. Differences shall be considered significant if the prices differ by more than eight per cent.

(2) If the contracting authority expects to enter into agreement for construction work and the estimated contract price is from LVL 50,000 to one million, in selecting the tender with the lowest price the procurement commission shall examine the price structure of the tender with the lowest price and ascertain whether a tender has been received with an abnormally low price.

(3) If the contracting authority expects to enter into agreement for the purchase or lease of goods, in evaluating the prices of the tenders the procurement commission may take into account one or more of the following indicators:

- 1) the price of goods that conform to the level of requirements indicated in the technical specifications;
- 2) the possible expenditures that will arise in using the goods for the duration of expected useful life thereof, but not more than four years after the goods are put into use. The planned expenditures for reserve parts, post-guarantee maintenance costs

and personnel training costs, as well as other expenditures associated with the utilisation of the goods shall be added to these expenditures; and

- 3) the value of the goods or their possible alienation value at the end of the expected utilisation period of the goods, but not later than four years after the goods are put in use.

(4) The indicators referred to in Paragraph three of this Section and the procedure for their utilisation shall be determined in the competition regulations.

Section 32. Notice regarding Taking of a Decision

(1) The contracting authority, when utilising an open or restricted competition or the negotiated procedure, shall, within three working days after a decision has been taken, enter into a procurement contract or terminate the competition without selecting a tender, send a notice to the Procurement Monitoring Bureau and to all the tenderers.

(2) The notice to enter into a procurement contract or to terminate a competition without selecting any tender, shall include the following information:

- 1) the name and address of the contracting authority;
- 2) identification number of the procurement;
- 3) date when the procurement was notified on the Internet;
- 4) date of the decision;
- 5) method of procurement;
- 6) subject-matter of the contract and short description thereof;
- 7) number of tenders received;
- 8) name and address of the tenderer with whom a contract will be entered into;
- 9) substantiation for the decision if a decision has been taken to terminate a competition without selecting a tender;
- 10) reasons for rejecting the tenders of the rejected tenderers;
- 11) contract price tendered;
- 12) date of sending the notice; and
- 13) other information that the contracting authority wishes to notify.

(3) The Procurement Monitoring Bureau shall within three working days put a notice on the Internet.

(4) The contracting authority shall publish a notice in the newspaper *Latvijas Vēstnesis* not earlier than after six working days from sending the notice to the Procurement Monitoring Bureau or the next working day after such notice is placed on the Internet.

Section 33. Procurement Contract

- (1) A procurement contract shall determine all legal relations between the contracting authority and the seller or lessor of goods, the provider of services or performer of construction work.
- (2) The contracting authority shall prepare a procurement contract which shall specify:
 - 1) name of the contracting party;
 - 2) name of the performer (seller or lessor of goods, the provider of services or performer of construction work);
 - 3) subject-matter of the contract, amount thereof, quality requirements and other necessary information;
 - 4) procedures for payment;
 - 5) time-period for performance of the contract, the location and conditions;
 - 6) liability of the contracting parties for failure to perform the contract;
 - 7) procedures for amending the contract and procedures to permit withdrawal from the contract; and
 - 8) other conditions.
- (3) A procurement contract for construction design and construction work shall be prepared in accordance with Latvian national standards.
- (4) A procurement contract for receipt of services and leasing of good shall be entered into for a period of time not longer than four years. A procurement contract shall not be entered into earlier than 10 working days from the taking of a decision and not later than the period of validity of the tender.

Chapter VII Documentation and Reports

Section 34. Procurement Procedure Final Report

- (1) The final report on the procedures of an open or restricted competition shall have two separate parts, and shall be accompanied by the competition regulations and the tenders of tenderers. The report shall be signed by all members of the procurement commission.
- (2) The first part of the final report of an open or restricted competition shall include such basic information as is publicly accessible only after the contracting authority has entered into a contract with the tenderer or after the competition has been terminated without selecting a tender.
- (3) The first part of the final report of an open or restricted competition shall include the following information:
 - 1) the identification number of the procurement;

- 2) the date when the notice was placed on the Internet;
- 3) the name of the contracting authority;
- 4) the composition and substantiation for the formation of the procurement commission;
- 5) the subject-matter of the contract and short description thereof;
- 6) the criteria for the selection of candidates;
- 7) the criteria for the selection of tenders;
- 8) the location and time-period for submission of tenders and period of validity of the tender;
- 9) the location, date and time of opening tenders;
- 10) the substantiation for the application of the restricted competition procedure;
- 11) the location and time-period for submission of applications;
- 12) the names of persons who applied for the selection of candidates;
- 13) the names of persons who were selected, in accordance with the selection conditions, and invited to submit tenders;
- 14) the given names, surnames and positions held of persons present at the opening of tenders;
- 15) list of submitted tenders, which list shall indicate the name of each tenderer, date and time of submission of tender, price tendered and other information that characterizes the tender;
- 16) name of the tenderer who was awarded the right to perform the procurement;
- 17) substantiation for the decision if the contracting authority has rejected all tenders and has taken a decision to terminate the competition without selecting any tender;
- 18) substantiation for the decision if the tenderer who was awarded the right to perform the procurement no longer participates in the competition or has not signed the procurement contract and the contracting authority has taken a decision to award the right to perform the procurement to the tenderer whose tender is the next economically most advantageous tender or the tender with the lowest price;
- 19) the formula for evaluating tenders if the regulations provide for accepting the economically most advantageous tender;
- 20) requests received to explain the competition regulations or the tenderer selection regulations, the answers provided, as well as evidence that all tenderers or candidates were informed about the questions and answers;
- 21) if a tender has been declared as not conforming with the requirements referred to in the regulations or the tenderer has been refused participation in the competition, – the cause and substantiation for such decision; and

- 22) if a decision has been taken to enter into a procurement contract or to terminate a competition without selecting a tender, – a more detailed substantiation for such decision.
- (4) Information included in the second part of the final report of an open or restricted competition with respect to the procurement and the procurement evaluation process shall be accessible as restricted information in accordance with the Freedom of Information Law.
- (5) The second part of the final report of an open or restricted competition shall also include information regarding the economic and financial standing of the tenderer and the capability of the tenderer to perform the procurement, and an evaluation of such information.
- (6) A report of a negotiated procedure shall be publicly accessible after the contracting authority has entered into a procurement contract with the candidate who was awarded the right to perform the procurement, or when the contracting authority has taken a decision to terminate the negotiated procedure without selecting any tender. A report of a negotiated procedure shall include the following information:
 - 1) the identification number of the procurement;
 - 2) the date when the notice was placed on the Internet;
 - 3) the composition and substantiation for the formation of the procurement commission;
 - 4) the name of the contracting authority;
 - 5) the subject-matter of the contract and short description thereof;
 - 6) the substantiation for using the negotiated procedure;
 - 7) the names of the candidates;
 - 8) the location and time-period for the submission of tenders;
 - 9) the names of those candidates who submitted an application to participate in the negotiated procedure;
 - 10) the criteria for the selection of tenders;
 - 11) a short description of the negotiations, indicating the tenders and prices thereof;
 - 12) the name of the candidate who was awarded the right to perform the procurement;
and
 - 13) if the candidate who was awarded the right to perform the procurement has not signed the procurement contract or the contracting authority has taken a decision to terminate the negotiated procedure without selecting a tender, – a description of this course.
- (7) Contracting authorities after entering into a procurement contract shall keep reports of negotiated procedures, final reports of competitions, reports on requests for price quotations, the competition regulations and tenders of tenderers for 10 years.

Section 35. Statistical Reports

The contracting authority shall submit to the Procurement Monitoring Bureau a report regarding the number of contracts entered into, amounts thereof, the performers of construction work, suppliers of goods, lessors or providers of services and the procurement procedures utilised. The report shall be submitted each calendar half year within a period of three months after the end of the reporting period.

Chapter VIII Monitoring and Control

Section 36. Monitoring

Monitoring of the observance of regulatory enactments in the area of procurements shall be performed by the Procurement Monitoring Bureau and other authorities in accordance with regulatory enactments.

Section 37. Liability of the Contracting Authority

For the implementation of this Law in accordance with their competence the contracting authority, procurement commission, or authorized official who responsible for the performance of the procurement shall be liable.

Chapter IX Procurement Monitoring Bureau

Section 38. Legal Status of the Procurement Monitoring Bureau

- (1) The Procurement Monitoring Bureau is a State administrative authority supervised by the Ministry of Finance and operating in accordance with this Law, with the by-laws of the Procurement Monitoring Bureau and with other regulatory enactments.
- (2) The Procurement Monitoring Bureau is a legal person. It shall have a seal with the image of the supplemented lesser State coat of arms and the full name of the Bureau.
- (3) The operations of the Procurement Monitoring Bureau shall be financed from the State budget.

Section 39. Rights and Duties of the Procurement Monitoring Bureau

- (1) The Procurement Monitoring Bureau shall have the following rights:
 - 1) to monitor the conformity of the procurement procedures with the requirements of the Law;
 - 2) in conformity with its competence to cooperate with relevant foreign authorities;
 - 3) to publish its decisions, views and recommendations;

- 4) to request and receive without hindrance at any stage of a procurement procedure and free of charge information necessary for the implementation of this Law;
 - 5) to invite independent experts;
 - 6) to compile and analyse the statistical information on procurement in the State;
 - 7) to provide methodological assistance and consultations, and to organize training for institutions that are parties to contracts, for sellers of goods, lessors, providers of services and performers of construction work; and
 - 8) to conduct other activities permitted by regulatory enactments in order to fulfil the tasks provided for by this Law;
- (2) The Procurement Monitoring Bureau shall have the following duties:
- 1) to make sure that complaints with respect to violations of procurement procedures are examined;
 - 2) to prepare reports of procurements in the State; and
 - 3) to develop a special list of undertakings.

Section 40. Complaints Examination Commission

(1) In order to examine complaints, the Procurement Monitoring Bureau shall form a complaints examination commission (hereinafter — commission) consisting of not less than three members. At least one member of the commission shall have higher legal education, and one shall be an invited procurement expert or an authorized public organization representative from the sector.

(2) Members of such commission may not be persons who have previously provided consultations with respect to the procurement mentioned in the complaint or be interested in obtaining the right to perform the procurement.

(3) The work of the commission shall be led by a chairperson appointed by the Procurement Monitoring Bureau from among the commission members. The commission shall have a quorum if at least one half of the commission members participates in the examination of a relevant question. The commission shall take decisions by voting. A decision shall be considered taken if a majority of the commission votes for it. In the event of a tied vote, the vote of the committee chairperson shall be decisive.

Chapter X Procedure for Examination of Complaints

Section 41. Right to Submit a Complaint

(1) Tenderers, candidates, sellers of goods, lessors, providers of services or performers of construction work (hereinafter – submitter of a complaint) shall have the right to submit to the Procurement Monitoring Bureau complaints regarding the actions of the contracting authority with respect to the legality of the procedures of open or restricted competition or negotiated procedure (hereinafter – procurement procedures) if the submitter considers that the contracting authority or the procurement commission has not observed the requirements of regulatory enactments which regulate

procurement and in so doing have violated the lawful rights and interests of the submitter of the complaint.

(2) Complaints regarding the questions referred to in Paragraph one of this Section may be submitted up to the time of entering into a procurement contract. After a procurement contract has been entered into, the submitter of a complaint may appeal decisions of the contracting authority to a court only in accordance with procedures prescribed by law.

(3) If a complaint has been submitted to the Procurement Monitoring Bureau prior the entering into a procurement contract, the Procurement Monitoring Bureau shall notify the contracting authority thereof and the contracting authority shall not enter into a procurement contract without a decision of the complaints examination commission that permits to enter into such contract.

(4) The Procurement Monitoring Bureau shall not accept a complaint if:

- 1) during the period of the procurement procedures the complainant has known about the violation of the procurement procedures but has not informed the contracting authority thereof without delay; or
- 2) if a complaint with respect to the procurement procedures in connection with the same subject and on the same grounds has already been submitted and examined.

(5) If a complaint is submitted regarding activities of a contracting authority with respect to the legality of the procurement procedures and a complaint regarding the same procurement procedures has already been submitted earlier by another submitter of a complaint but such complaint has not yet been examined, such complaints may be combined and examined together.

(6) Complaints shall be submitted in writing and shall include the following information:

- 1) the name and address of the submitter of the complaint;
- 2) the name and address of the contracting authority regarding which the complaint has been submitted;
- 3) the facts regarding which the complaint is being submitted, indicating the violation; and
- 4) the claim of the submitter of the complaint with respect to this complaint.

Section 42. Examination of Complaints

(1) The commission shall examine a complaint within a period of one month from receipt of the complaint in the Procurement Monitoring Bureau.

(2) The commission shall permit entering into a contract if the complaint is:

- 1) unfounded;
- 2) founded, but the commission has taken a decision regarding measures to be performed by the contracting authority to rectify the causes of the complaint, and those have been rectified; or
- 3) founded, but the violations determined by the commission are not significant and cannot influence the decision regarding the awarding of the procurement right.

- (3) The commission shall invite to the meeting for examination of a complaint the submitter of the complaint, the contracting authority and the tenderers or candidates (hereinafter – participants) whose interests could be affected by the decision taken by the commission. The commission shall, at least 10 working days before a meeting, invite participants to the meeting for examination of the complaint.
- (4) All participants have the right to express their views. After hearing the participants, the commission shall continue work without the presence of the participants.
- (5) The commission shall evaluate complaints on the basis of the facts presented by the submitter of a complaint and the participants, and explanations of the contracting authority. If the participants do not attend the examination of the complaint, the commission shall examine the complaint based on the facts accessible to it. The commission shall take a decision with respect to the submitted complaint and shall, within a period of three working days from taking the decision, send the decision to all participants.
- (6) Participants may appeal the decision of the commission in court.
- (7) The commission shall document in a report the course of examining the complaint and shall keep the report and information obtained during the examination for 10 years.

Transitional Provisions

1. With the coming into force of this Law, the Law on State and Local Government Procurement (*Latvijas Republikas Saeimas un Ministru Kabineta Ziņotājs*, 1996, No. 23; 1998, No. 15; 2000, No. 9) is repealed.
2. If a State contracting authority has published an auction or competition for the awarding of a State procurement or has begun examining one tender before the coming in force of this Law comes, the published auction, competition or examination of one tender shall be concluded within a period of three months in accordance with the Law "On State and Local Government Procurement" and Cabinet Regulation No. 98 of 18 March 1997, "Regulations on Tenders and Competitions for the Awarding of State and Local Government Procurements" insofar as such is not in contradiction with this Law.
3. The Cabinet shall by 1 December 2001 prepare the regulations referred to in Section 16, Paragraph one, Clause 7 of this Law and Section 22, Paragraph five of this Law.

This Law shall come into force on 1 January 2002.

This Law has been adopted by the *Saeima* on 5 July 2001.

Committee on Government Procurement

Original: English

NOTIFICATION OF NATIONAL LEGISLATION OF ESTONIA

Communication from Estonia

The following communication has been received from the Permanent Mission of Estonia with the request that it be circulated to the Committee on Government Procurement.¹

With reference to the accession of Estonia to the Agreement on Government Procurement, I have pleasure in submitting attached herewith an English translation of the revised Public Procurement Act of 19 October 2000 which entered into force on 1 April 2001.²

¹ In English only.

² Available for consultation on the government procurement page on the WTO web site (<http://www.wto.org/wto/govt>).

PUBLIC PROCUREMENT ACT

Passed 19 October 2000
(RT I 2000, 84, 534),
entered into force 1 April 2001,
amended by the following Act:
21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189.

Chapter 1

General Provisions

§1. Scope of application of Act

This Act provides for the public procurement procedures, the rights and obligations of subjects involved in public procurement and their liability for violation of this Act, and the procedure for the exercise of state supervision.

§2. Definition and objects of public procurement

(1) For the purposes of this Act, "public procurement" means purchasing of goods, contracting for construction work and services, granting of construction work concessions, and contracting for design solutions by contracting authorities specified in subsection 5 (1) of this Act.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) Purchasing of goods or contracting for services from state agencies, city or rural municipality governments or local government agencies by the Bank of Estonia or contracting authorities specified in clause 5 (1) 1) of this Act, purchasing of goods or contracting for services by the Bank of Estonia for the performance of the functions specified in §2 of the Bank of Estonia Act (RT I 1993, 28, 498; 30, correction notice; 1994, 30, 463; 1998, 64/65, 1006; 1999, 16, 271), and contracting for health services or health promotion or disease prevention services, except for purchasing of medicinal products or purchasing or commercial lease of medical technology and related rights, by the Estonian Health Insurance Fund is not public procurement.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) The objects of public procurement are goods, including proprietary rights, and services, construction work, construction work concessions and design solutions.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) "Construction work" means any work related to construction or to demolition of structures or parts thereof. Performance of geotechnical or geodetic site investigations, construction design, construction supervision, expert assessment of building designs and structures, and construction management for organizing construction work are deemed to be services.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(5) "Construction work concession" means the exclusive right to exploit a structure, received as consideration for the performance of construction work provided for in subsection (4) of this section. For a construction work concession, the state agency must obtain a permission relating to the construction work concession from the Government of the Republic.

(6) For the purposes of this Act, "design solution" means a project submitted by a participant in a design contest in the field of design and meeting the requirements specified in the design contest notice (hereinafter project).

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(7) The procedure provided for in this Act applies to public procurements the estimated value of which (the annual sum together with value added tax) is:

- 1) EEK 100,000 or more upon purchasing of goods or contracting for services;
- 2) EEK 500,000 or more upon contracting for construction work;
- 3) EEK 500,000 or more upon contracting for draft legislation;
- 4) EEK 500,000 or more upon purchasing of goods or contracting for services by a contracting authority specified in clause 5 (1) 1) of this Act from a penal institution or a company founded by the state for the administration of the production units of a penal institution;
- 5) EEK 100,000 or more upon contracting for a design solution, including all contest awards and other amounts payable to the participants in the design contest;
- 6) EEK 2 million or more upon purchasing of goods or contracting for services or design solutions by a contracting authority specified in clause 5 (1) 6) of this Act whose net turnover during the previous financial year exceeded EEK 500 million;
- 7) EEK 4 million or more upon contracting for construction work by a contracting authority specified in clause 5 (1) 6) of this Act whose net turnover during the previous financial year exceeded EEK 500 million.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§3. Public procurements consisting of several constituent elements

(1) If an intended public procurement contains several objects of public procurement as defined in §2 of this Act, the public procurement shall be classified according to the object the value of which is expected to exceed one-half of the total value of the public procurement. If the value of any of the objects of public procurement as defined in §2 of this Act does not exceed one-half of the total value of the public procurement, the public procurement shall be classified according to its main objective.

(2) Goods and services which are not necessary for performing particular construction works may be purchased or contracted for separately.

(3) A contracting authority specified in subsection 5 (1) of this Act may purchase goods or contract for services in the same procedure with contracting for construction work only if the procedural requirements applied to the contracting for such construction work are as strict as those applied in the case of purchasing of goods or contracting for services in a separate procedure. If, in the case of purchasing of goods or contracting for services in a separate procedure, the value of the goods or services equals or exceeds the international value threshold, goods may be purchased and services contracted for in the same procedure with the contracting for construction work only if, as a result of such combination, the value of the public procurement equals or exceeds the international value threshold established for contracting for construction work.

§4. Exceptions

(1) A contracting authority is not required to apply the procedure provided for in this Act to the following:

- 1) public procurements in the case of which adherence to the procedure provided for in this Act results in the disclosure of a state secret;
- 2) contracting for water, electricity, gas, thermal energy, cable distribution and telecommunications services, if such services can be provided by only one person;
- 3) purchasing of weapons, ammunition, battle equipment and training equipment related thereto, and contracting for the related services;
- 4) contracting for arbitration or conciliation services;
- 5) contracting for financial services relating to the issue, sale, purchasing or assignment of securities or other financial instruments, or contracting for services provided by the Bank of Estonia; similarly, the Bank of Estonia is not required to apply the procedure provided for in this Act upon purchasing of goods or contracting for services the purpose of which is to ensure the security of the Bank or compliance with the confidentiality requirements established with regard to information not subject to disclosure;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 6) contracting for scientific research unless the results of the research are used by the contracting authority only in its own interests and for the purposes of its activities;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 7) purchasing of immovables, existing structures or parts thereof as movables, or of rights relating thereto;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 8) contracting for services by broadcasting organizations for the acquisition, development, production or co-production of a programme or a part thereof, and contracting for broadcasting time;
- 9) entry into an employment contract;
- 10) services which a contracting authority specified in clause 5 (1) 6) of this Act contracts from an affiliated undertaking;
- 11) purchasing of goods or contracting for construction work or services, if the procurement contract is entered into by the construction work concessionaire and the affiliated undertaking whom the concessionaire has entered in the list annexed to the tender submitted in order to obtain the construction work concession;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 12) purchasing of museum objects, records, data media or licences for the use of data media, the estimated value of which is lower than the international value threshold provided for in §16 or this Act, if the purchaser is a museum, archives or library;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

- 13) contracting for the performance of special audits for the purposes of exercising state supervision, if the right of the state supervision authority to order such special audits has been provided by law;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 14) public procurements in the case of which the procurement contract is entered into according to a mandatory special procedure of an international organization;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 15) contracting for telecommunications services provided by a person engaged in creation or operation of public telecommunications networks specified in clause 5 (1) 6) of this Act, if other persons are free to provide the same services in the same geographical area and under similar conditions;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 16) purchasing of goods if the contracting authority specified in clause 5 (1) 6) of this Act purchases the goods in order to sell or lease them to third persons and the contracting authority enjoys no special or exclusive right for selling or leasing the goods and other persons have the right to sell or lease such goods under the same conditions as the contracting authority;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 17) purchasing, by an energy undertaking, of electricity or fuel necessary for the production of electricity.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) For the purposes of this Act, an affiliated undertaking is an undertaking whose annual accounts are consolidated with the annual accounts of the contracting authority, or an undertaking over which the contracting authority may exercise, directly or indirectly, dominant influence or which may exercise dominant influence over the contracting authority or which, together with the contracting authority, is subject to the dominant influence of one and the same undertaking whereas at least 80 per cent of the average turnover of the undertaking during the last three years or during the whole period of activity in case the latter is shorter than three years has been created through the provision of the abovementioned services to the undertakings with whom the undertaking is affiliated. If the same or a similar service is provided by more than one undertaking affiliated with the contracting authority, the consolidated turnover of the services provided by such undertakings shall be taken into account.

§5. Contracting authority

- (1) For the purposes of this Act, a contracting authority is:
 - 1) a state agency, city or local government, or a local government agency;
 - 2) a legal person in public law or a body of a legal person in public law;
 - 3) a legal person in private law which is not a company and all the founders or members of which are, jointly or separately, the state, a local government and/or a legal person in public law;
 - 4) a legal person in private law which is not a company and which, to the extent of more than 50 per cent, is financed or more than one-half of the members of the supervisory

board or management board of which are appointed jointly or separately by the state, a local government and/or a legal person in public law;

- 5) an undertaking if it has received a construction work concession from the state, a local government or a person specified in clauses 2)–4) of this subsection and enters into procurement contracts for construction work on the basis of such concession, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately finance the actual or all of the activities of the undertaking to the extent of more than 50 per cent, or if the state and a local government jointly or separately hold a majority of the votes or more than 50 per cent of the shares in the undertaking either directly or through other persons;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 6) an undertaking if the state or a local government has granted a special or exclusive right to the undertaking pursuant to the Competition Act (RT I 1998, 30, 410; 1999, 89, 813; 2000, 53, 343; RT III 21, 232) and if the purchasing of goods or contracting for services or construction work is necessary for the exercise of the special or exclusive right, or if the state, a local government or persons specified in clauses 2)-4) of this subsection jointly or separately hold a majority of votes or more than 50 per cent of the shares in the undertaking directly or through other persons and if the area of activity of the undertaking is either the construction or operation of permanent networks with the intention to provide services relating to the production, transportation, transmission or distribution of water, gas, electricity or thermal energy to the public, or the use of a geographic area in order to prospect for or extract fuels or enable air or water transport undertakings to use an airport, port or other terminal structure, or the operation of networks enabling the public to use services relating to railway, tramway, trolleybus or bus transport, automatic systems or cable distribution, or the construction or operation of public telecommunications networks for ensuring one or more telecommunications services.

(2) Production, transportation, transmission or distribution of water, gas, electricity or thermal energy by an undertaking to networks servicing the public is not deemed to be an activity specified in clause (1) 6) of this section if consumption of water or electricity is necessary for activities other than those specified in clause (1) 6) of this section, or if the supply of the public network depends solely on consumption by the undertaking and does not exceed 30 per cent of the average overall production of water or electricity by the undertaking during the last three years, or if production of gas or thermal energy by the undertaking results inevitably from activities other those specified in clause (1) 6) of this section, or if the public network is supplied with a surplus of gas or thermal energy for the purposes of the economic use thereof and such surplus does not exceed 20 per cent of the average turnover of the undertaking during the last three years.

§6. Equal treatment of persons

A contracting authority shall treat all persons participating in a public procurement tendering procedure (hereinafter tenderers) equally.

§7. Intention to enter into procurement contract

A contracting authority shall organize a public procurement tendering procedure (hereinafter tendering procedure) only in order to use financial resources economically and rationally and enter into a public procurement contract (hereinafter procurement contract).

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§8. Commencement and termination of tendering procedure

(1) A tendering procedure commences with the submission of an invitation to tender, design contest notice or a notice announcing a negotiated tendering procedure without prior publication of a tender notice to the register.

(2) The bases for termination of a tendering procedure are:

- 1) entry into a procurement contract or ascertaining the winner of a design contest;
- 2) rejection of all tenders;
- 3) cancellation of the tendering procedure;
- 4) no tenders or applications for participation in the tendering procedure are submitted;
- 5) expiry of the term of validity of the tenders and failure to enter into a procurement contract due to reasons attributable to the tenderer.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§9. Confidentiality

(1) Unless otherwise provided by this Act, a contracting authority shall not disclose information received from tenderers or from persons applying for participation in a tendering procedure (hereinafter applicant) concerning their business activities, nor the content of the tenders or negotiations, and tenderers and applicants shall not disclose information received from a contracting authority concerning the business activities thereof, nor the content of the tenders or negotiations.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) Notices, decisions and other documents which are referred to in this Act shall be prepared in a format ensuring full preservation of their content and shall be preserved by the contracting authority pursuant to law.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§10. Organization of tendering procedure

(1) A tendering procedure shall be organized by a contracting authority who shall designate an official responsible for the public procurement.

(2) A contracting authority has the right to authorize other persons to organize a tendering procedure and perform acts relating to the tendering procedure pursuant to the provisions of this Act.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) The Government of the Republic shall approve the list of the objects of public procurement in the case of which consolidated public procurement is applied, and the bodies organizing tendering procedures for such public procurements.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) The Government of the Republic has the right to require government agencies and state agencies administered by government agencies to organize a tendering procedure through an organizer of tendering procedures specified in subsection (3) of this section if the corresponding public procurement has been entered in the list specified in subsection (3) of this section.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(5) State agencies and profit-making state agencies are required to organize and local governments and local government agencies may organize a tendering procedure through an organizer of tendering procedures specified in subsection (3) of this section on the basis of a contract in the case of an object of public procurement entered in the list specified in subsection (3) of this section.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) If a tendering procedure is organized in order to enter into a framework contract through an organizer of tendering procedures specified in subsection (3) of this section, such organizer of tendering procedures is deemed to be a contracting authority within the meaning of this Act. If a tendering procedure is organized in order to enter into a procurement contract which is not a framework contract through an organizer of tendering procedures specified in subsection (3) of this section, such organizer of tendering procedures is deemed to be a contracting authority within the meaning of this Act for the duration of the tendering procedure until entry into a procurement contract.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(7) The rules for organizing public procurement of construction work or construction design shall be established by the Minister of Economic Affairs.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§11. Public Procurement Office

The Public Procurement Office (hereinafter Office) shall:

- 1) exercise state supervision to verify compliance of public procurements with the requirements established by legislation;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) implement an information system relating to public procurement and organize the activities of the state register of public procurements (hereinafter register);
- 3) provide information relating to public procurements to international organizations pursuant to international agreements entered into by the Republic of Estonia;
- 4) assess the functioning of the public procurement system and submit proposals for improving the system;
- 5) consult on issues relating to public procurement;
- 6) review protests;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 7) have the right to receive all necessary information concerning a public procurement and the originals or copies of documents relating to a public procurement from the contracting authority in the exercise of state supervision.

Chapter 2

Calculation of Value of Public Procurement

§12. Principles of calculation of value of public procurement

(1) If a public procurement is divided into parts, the value of each part shall be taken into account in calculating the estimated total value of the public procurement. Each part of a public procurement shall be purchased or contracted for pursuant to the tendering procedure applicable to the estimated total value of the public procurement.

(2) A contracting authority shall not divide a public procurement into parts with the intention of avoiding application of the procedures or requirements established for public procurements.

(3) If a tendering procedure is conducted for purchasing of goods or contracting for services or construction work within a specified term, the maximum estimated total value of all goods purchased and all services and construction work contracted for in such manner is deemed to be the estimated value of the public procurement.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§13. Framework contract

(1) A framework contract may be entered into for a term of up to four years, except in the case specified in subsection (2) of this section.

(2) In the case of a public procurement of construction work for which there are insufficient funds upon entry into the procurement contract, a framework contract may be entered into concerning the object of the public procurement.

(3) The contracting authority shall indicate its intention to enter into a framework contract in the invitation to tender.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§14. Additional conditions

If according to the conditions of an intended procurement contract the contracting authority acquires the right to purchase goods or contract for construction work or services in addition to the goods, construction work or services concerning the purchasing of or contracting for which the procurement contract is entered into, the value of the goods, construction work or services purchased or contracted for additionally shall be taken into account in calculating the value of the public procurement.

§15. Calculation of value of public procurement

(1) In the case of contracting for services on the basis of an intended procurement contract for an unspecified term or a procurement contract with a term of more than 48 months, the estimated value of the public procurement shall be calculated on the basis of the value of the services to be provided during one month, multiplied by 48.

(2) In the case of contracting for insurance services, the amount of insurance premiums to be paid, and in the case of contracting for banking or other financial services, the interests, service charges and other types of payment shall be taken into account in calculating the estimated value of a public procurement.

(3) If a public procurement prescribes purchasing of goods together with contracting for services, the estimated value of the public procurement shall be calculated on the basis of the total cost of purchasing the goods and contracting for the services.

(4) If goods are purchased or services contracted for on the basis of a framework contract or a recurring procurement contract, the estimated value of the public procurement shall be calculated:

- 1) on the basis of the total value of similar procurement contracts entered into during the previous calendar year or the last twelve months, adjusted, if possible, by the changes expected to occur in the quantities or prices of the goods or services in the forthcoming twelve months, or
- 2) on the basis of the total value of all contracts entered into during the 12 months following the entry into the previous procurement contract or during the entire period of validity of the current procurement contract if such period is longer than 12 months, depending on which method yields the largest amount.

(5) In the case of contracting for construction work, the estimated value of the public procurement shall be calculated on the basis of the total value of all different types of construction work to be performed.

(6) A contracting authority shall include in the estimated value of construction work the estimated value of the goods and services which are necessary and made available to the tenderer by the contracting authority.

(7) The estimated value of a construction work concession shall be calculated on the basis of the amount which the contracting authority would have to pay for the construction work if, instead of granting the construction work concession, the contracting authority contracted for the performance of construction work.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§16. International value thresholds

(1) In the case of purchasing of goods or contracting for services, the international value thresholds for public procurements are as follows:

- 1) in the case of a state agency, €130,000;
- 2) in the case of any other contracting authority, except a contracting authority specified in clause 5 (1) 6) of this Act, €200,000;
- 3) in the case of a contracting authority specified in clause 5 (1) 6) of this Act, except an undertaking providing cable distribution or telecommunications services to the public, €400,000;
- 4) in the case of an undertaking specified in clause 5 (1) 6) of this Act which provides cable distribution or telecommunications services to the public, €600,000.

(2) In the case of contracting for construction work, the international value threshold is €5 million.

(3) In order to decide whether the estimated value of a public procurement reaches an international value threshold provided for in subsections (1) and (2) of this section, the estimated value of the public procurement shall be calculated net of value added tax, whereas:

- 1) upon purchasing of goods, calculation of the estimated value of the public procurement shall, in the case of an intended procurement contract for a specified term, be based on the estimated total value of the procurement contract during the entire period of validity of the procurement contract, and in the case of an intended procurement contract for an unspecified term or a procurement contract with a resolutive condition or in the case it is not possible to determine the exact term of a procurement contract, on the estimated total value of the procurement contract during the first 48 months;
- 2) upon contracting for services without indicating the total value, calculation of the estimated value of the public procurement shall, in the case of an intended procurement contract for a term of up to 48 months, be based on the total value of the services to be provided for during the entire period of validity of the procurement contract.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§17. Division of public procurement into parts in one tendering procedure

(1) A contracting authority may divide a public procurement conducted in one tendering procedure into parts, whereas such division may be effected according to the objects or the quantity or both the objects and the quantity.

(2) If a contracting authority divides a public procurement into parts, the permissible sizes of the parts shall be clearly indicated in the invitation to tender or tender documents.

Chapter 3

Notices

§18. Prior notices

(1) If the estimated value of a public procurement in the case of purchasing of goods or contracting for services is €750,000 or more or, in the case of contracting for construction work, €5 million or more, and the contracting authority intends to organize the public procurement during the forthcoming 12 months, the contracting authority shall communicate the following by means of a prior notice submitted at the beginning of the financial year:

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

- 1) in the case of purchasing of goods, the estimated value of the public procurement, broken down by the types of the goods;
- 2) in the case of contracting for services, the estimated value of the public procurement, broken down by the types of the services;

- 3) in the case of contracting for construction work, the estimated value and essential characteristics of the public procurement.
- (2) A contracting authority shall submit a prior notice to the register in Estonian and shall add a translation of the notice into English.
- (3) A prior notice shall contain the information provided for in clauses (1) 1), 2) or 3) of this section and 19 (1) 1), 2) and 3) of this Act.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (4) The formal requirements for prior notices and the procedure for submission of prior notices shall be established by the Minister of Economic Affairs.

§19. Notice of invitation to tender

- (1) In the case of a public procurement by open tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall submit an invitation to tender to the register for publication and the notice shall contain at least the following information:
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 3) the type of the tendering procedure;
 - 4) the name, official title and details of the person responsible for the public procurement;
 - 5) the due date for the performance of the procurement contract;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 6) in the case of an open tendering procedure, the place and conditions of issuing the tender documents;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 7) in the case of an open tendering procedure, the minimum qualification requirements for the economic and technical conditions of the tenderers;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 8) whether a tender security is required and the amount thereof;
 - 9) the amount to be paid for the tender documents;
 - 10) in the case of an open tendering procedure, the place, due date and time for the submission of tenders;

- 11) in the case of a restricted tendering procedure or a negotiated procedure with prior publication of a tender notice, the place, due date and time for submission of written applications for participation in the tendering procedure;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 12) in the case of a restricted tendering procedure or a negotiated tendering procedure with prior publication of a tender notice, the qualification requirements for the applicants and a notation indicating the information and documents to be annexed to a written application for participation in the tendering procedure for the purposes of evaluation of the qualifications of the tenderers;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 13) in the case of a restricted tendering procedure, objective selection criteria for the tenderers.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (2) Invitations to tender shall be submitted in Estonian.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (3) In the case of a public procurement the value of which equals or exceeds an international value threshold, the contracting authority shall submit a translation of the invitation to tender into English, in other cases a summary of the invitation in English may be annexed. A summary of an invitation to tender in English shall contain at least the information provided for in clauses (1) 1), 2) and 6) and 10) or 11) and 12) of this section.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (4) In the case of an open tendering procedure, restricted tendering procedure or negotiated procedure with prior publication of a tender notice, the contracting authority shall not make the invitation to tender public before the invitation has been entered in the register. If an invitation to tender is amended, the name of the object and characteristics of the public procurement and, in the case of an opening tendering procedure, the minimum qualification requirements for the economic and technical conditions of the tenderers, and the requirement of a tender security and the amount thereof shall not be changed.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (5) If a code of the standard classification of objects of public procurements is allocated to an object of public procurement, such allocation shall be effected pursuant to the subdivision of the standard classification of objects of public procurements which corresponds to the object of public procurement as precisely as possible.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (6) The standard classification of objects of public procurements shall be approved by the Minister of Economic Affairs.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (7) The formal requirements for invitations to tender and the procedure for submission thereof shall be established by the Minister of Economic Affairs.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§20. Declarations

(1) Within ten days after the end of a tendering procedure, the contracting authority shall submit a public procurement declaration (hereinafter declaration) to the register.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) Within 10 days after deciding the winner of a design contest, the contracting authority shall submit a corresponding declaration to the register.

(3) Declarations submitted by contracting authorities specified in clause 5 (1) 6) of this Act shall not contain information the disclosure of which may be contrary to the public interest or damage the lawful business interests of other persons or free competition.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) A declaration shall set out:

1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;

2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

3) the type of the tendering procedure;

4) the name, official title and details of the person responsible for the public procurement;

5) the names, addresses and other details of the tenderers who submitted tenders, and the registry codes thereof if they have a registry code;

6) the names, addresses and other details of the qualified tenderers, and the registry codes thereof if they have a registry code;

7) the due date for entry into the procurement contract, the value of the procurement contract and other essential conditions;

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

8) the values of all tenders declared to be in conformity or, in the case several evaluation criteria are applied, the values of all tenders declared to be in conformity and the value points attained according to the evaluation criteria or other evaluation results and the names and registry codes (if they exist) of the tenderers who submitted the corresponding tenders;

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

9) information concerning appeals filed with a court in the course of the tendering procedure;

10) in the case of cancellation of the tendering procedure or rejection of all tenders, the reasons why and the basis on which this was done;

- 11) if open tendering is not used, the grounds for the selection of the tendering procedure.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (5) A declaration of a design contest shall set out:
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the subject and characteristics of the design contest;
 - 3) the names and addresses of the participants in the design contest;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 4) the name and address of the person who submitted the award-winning project;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 5) information concerning the qualifications required of the participants in the design contest or confirming the lack thereof;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 6) the total value of the design contest awards and other amounts payable to the participants in the contest;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 7) a summary of the evaluation and comparison of the projects.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (6) The formal requirements for declarations and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§21. Public procurement report

- (1) Within 10 days after the date of expiry of a procurement contract, the contracting authority shall prepare a written public procurement report which shall set out:
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible, and the total value of the public procurement;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 3) amendments to the essential conditions of the procurement contract;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 4) complaints filed in the course of performance of the procurement contract.
- (2) A public procurement report shall be preserved until the end of the fourth year following expiry of the procurement contract.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) A contracting authority shall submit a public procurement report to the register promptly after completion of the report.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) The formal requirements for public procurement reports and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§22. Register

(1) Information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests shall be entered in the register.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) The register shall be established and the statutes for the maintenance of the register shall be approved by the Government of the Republic.

(3) The Office is the chief and authorized processor of the register.

(4) The register shall be maintained in the form of a computer database.

(5) Prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and information concerning protests shall be submitted to the register in electronic form.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) The main functions of the register are:

1) entry of information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests in the register;

2) processing of information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests entered in the register.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(7) Contracting authorities, except for those specified in clause 5 (1) 1) of this Act, shall pay a state fee for entry of information concerning a prior notice, invitation to tender or design contest notice in the register.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(8) Persons who submit information to the register shall be responsible for the correctness of such information.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§23. Disclosure of information entered in register

(1) The register shall be public.

(2) Information concerning the following items in the register shall be published on the web site of the register:

1) prior notices;

- 2) notices;
- 3) invitations to tender;
- 4) design contest notices;
- 5) declarations;
- 6) public procurements reports;
- 7) protests.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) The register shall ensure access to information entered in the register for five years after expiry of the corresponding procurement contract or end of the corresponding design contest.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

Chapter 4

Tender Documents

§24. Tender documents

- (1) Tender documents shall contain at least the following information:
 - 1) the due date for the performance of the procurement contract;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 2) the technical specification;
 - 3) the evaluation criteria which will be used for selecting successful tenders and which may be either the lowest price only or the economically most advantageous tender which, depending on the specific object of the public procurement, may be determined on the basis of different criteria allowing for objective evaluation, and of their relative proportion in percent or value points;
 - 4) the terms and conditions of the procurement contract to the extent that the contracting authority is able to submit at the moment;
 - 5) the conditions of payment;
 - 6) the amount of tender security if the contracting authority demands submission of tender security;
 - 7) the language or languages in which the tender is to be submitted;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 8) the currency unit or units in which the value of the tenders is to be submitted;
 - 9) the address to which the tenders are to be sent or delivered;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

- 10) instructions for the marking of the envelope in which the tenders are to be submitted;
- 11) the due date and time for the submission of tenders;
- 12) the address from which additional information concerning the public procurement and the content of the tender documents can be obtained, and other details;
- 13) the tender validity period;
- 14) the place, date and time of opening the tenders;
- 15) in the case of open tendering, the qualification requirements for tenderers and a notation indicating the information and documents to be annexed to the tender for the purposes of evaluating the qualifications of the tenderers;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 16) if the contracting authority prescribes the possibility of rejecting all tenders, a notice concerning the conditions under which the contracting authority reserves the right to do so;
- 17) the possibility of and the procedure for submitting a joint tender if the contracting authority prescribes such possibility;
- 18) the structure of the tender.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) In tender documents, the contracting authority may require the tenderers to indicate in their tenders the share of the contract which they intend to perform themselves and the share of the contract which they intend to subcontract to third parties, whereas subcontracts shall not reduce the liability of the tenderer.

(3) A contracting authority may charge a fee for tender documents if the amount of the fee has been indicated in the invitation to tender. The amount of the fee shall not exceed the cost for the photocopying and delivery of the tender documents.

(4) If an invitation to tender prescribes a fee for the tender documents, the contracting authority shall issue the tender documents after payment of the fee indicated in the invitation.

(5) A contracting authority shall enable persons interested in participation in a tendering procedure to access tender documents at the contracting authority without charge.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) In the case of a negotiated tendering procedure with prior publication of a tender notice or negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall submit the information specified in subsection (1) of this section in the tender documents to the extent it considers necessary.

§25. Amendments to tender documents

A contracting authority may make amendments to tender documents on the condition that such amendments be sent during one and the same day of the first half of the term for submission of tenders to all tenderers who received the tender documents. If a protest or appeal is filed, the contracting authority may extend the term for submission of tenders.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§26. Technical specification

(1) A technical specification is a list of characteristics or a description of the process affecting the characteristics of goods purchased or construction work or services contracted for by way of public procurement. In the case of contracting for construction work, the technical specification consists in building design documentation containing corresponding drawings, explanations, qualification requirements and other necessary documents to the extent permitting contracting for construction work.

(2) A technical specification shall not create advantages to certain tenderers over their competitors and give rise to barriers to international trade.

(3) In the preparation of a technical specification, the contracting authority shall not use the advice of persons who may have business interests with regard to the public procurement.

§27. Preparation of technical specification

(1) A technical specification may be prepared on the basis of a technical regulation or standard.

(2) Goods of a specific make or obtainable from a specific source or through a specific process, which would favour or eliminate the participation of certain tenderers may be listed in a technical specification only if such specification is unavoidable due to the special character of the object of the public procurement.

(3) Information concerning specific origins or methods of production, types, trademarks or patents shall be listed or referred to in a technical specification only if such list or reference is accompanied by the words "or equivalent" or if the characteristics of the object of the public procurement are otherwise not sufficiently precise and intelligible to all parties.

§28. Standards

(1) A technical specification may refer to international standards if these have not been introduced as Estonian standards.

(2) Contracting authorities may derogate from the requirements provided for in subsection 27 (1) of this Act and subsection (1) of this section if:

- 1) the object of the public procurement does not conform to the specified standards;
- 2) the use of such standards would oblige the contracting authority to purchase goods which are not compatible with the goods already in use or would entail disproportionate additional costs or technical difficulties;

- 3) such standards are not suitable for the application in question and do not take into consideration the technical innovations which have occurred after the introduction of the standards;
- 4) the object of the public procurement is of a genuinely innovative nature and therefore the application of existing standards is not possible;
- 5) the technical regulations or standards contradict each other.

(3) On the basis of a corresponding request, a contracting authority shall provide tenderers with the opportunity to access the technical regulations or standards which are referred to in the tender documents or which the contracting authority intends to use for the public procurement referred to in the prior notice. If a technical specification is based on documents accessible to the tenderers, a reference to such documents is sufficient.

Chapter 5

Tenderers and Applicants

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§29. Tenderers and applicants

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(1) Legal persons in private law, legal persons in public law and natural persons may be tenderers or applicants.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) If several tenderers or applicants submit a joint tender or application for participation in a tendering procedure, such tenderers or applicants shall authorize a representative from among themselves for the performance of the subsequent acts relating to the tendering procedure and entry into and performance of the procurement contract. The authorization document shall be submitted together with the joint tender or application for participation in the tendering procedure.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§30. Qualification of tenderers or applicants

(1) Contracting authorities are required to verify the qualifications of tenderers and applicants.

(2) Upon verification of the qualifications of an applicant in the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the qualification requirements prescribed for tenderers shall be applied to the applicant.

(3) In the case of an open tendering procedure, the contracting authority shall verify the qualifications of the tenderers before reviewing the contents of the tenders.

(4) In the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall verify the qualifications of an applicant before submission of the tender documents. A tenderer may be subsequently disqualified only if the contracting authority becomes aware of new circumstances.

(5) In the case of a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall verify the qualifications of tenderers either before or after submission of tender documents upon purchasing of goods or contracting for services and before submission of tender documents upon contracting for construction work.

(6) The qualifications of tenderers who submit a joint tender shall be verified separately, whereas:

- 1) the indicators resulting from adding the corresponding indicators of the tenderers shall comply with the requirements set out in the tender documents;
- 2) in the case of a joint tender submitted upon contracting for construction work with the estimated value of more than EEK 3 million, the corresponding indicators of one tenderer shall, in addition to the provisions of clause 1) of this subsection, comply with at least 40 per cent of the requirements specified in the tender documents.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§31. Verification of qualifications of tenderers

(1) Upon verification of the qualifications of a tenderer, the contracting authority shall verify whether:

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

- 1) the financial status and technical competence of the tenderer comply with the specified requirements;
- 2) the tenderer is solvent, the tenderer's assets are not sequestered, and no liquidation proceeding has been initiated and no bankruptcy order has been issued with respect to the tenderer;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 3) the tenderer has performed all the obligations thereof with respect to state and local taxes, has submitted information to the contracting authority concerning the amount of social tax paid by the tenderer on the remuneration paid to the employees thereof during the last three calendar years or concerning the amount of social security charge applicable in the home country of the tenderer and has granted written consent to submission of a corresponding inquiry to the Tax Board or other competent institution.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 4) the tenderer has, during the last three years, performed all public procurement contracts as required.

(2) A contracting authority may require a tenderer to submit only the information necessary for verifying the qualifications of the tenderer, and shall take into consideration the legitimate interests of the tenderer relating to the protection of the business secrets thereof.

§32. Entry of tenderer in commercial or professional register

(1) A contracting authority may require a tenderer to prove that the tenderer is entered in a commercial or professional register according to the laws of the home country of the tenderer, or to submit confirmation that the tenderer has taken a corresponding oath of office.

(2) If a tenderer is required to hold an activity licence or be a member of a corresponding organization in order to perform a public procurement in the home country of the tenderer or in Estonia, the contracting authority may require the tenderer to submit proof concerning such activity licence or membership.

§33. Financial status of tenderer

(1) In order to verify whether the financial status of a tenderer meets the requirements set by the contracting authority, the contracting authority shall, taking into account the nature, amount and purpose of the goods to be purchased or construction work or services to be contracted for, require submission of one or several of the following documents:

- 1) the annual report or an extract from the annual report, if publication of the annual report is required under the law of the home country of the tenderer;
- 2) an extract indicating the net turnover of the tenderer during the last three financial years as concerns the object of the public procurement in question;
- 3) in the case of contracting for services, confirmation concerning the corresponding professional liability insurance.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) If submission of the documents specified in subsection (1) of this section is not possible, the contracting authority may require the tenderer to submit other data and documents necessary for assessing the financial status of the tenderer.

(3) If, for good reason, a tenderer is unable to submit the documents required by the contracting authority, the tenderer may prove its financial status by any other documents accepted by the contracting authority.

§34. Technical competence of tenderers

(1) In order to assess the technical competence of a tenderer, the contracting authority shall, depending on the nature, amount and purpose of the goods to be purchased or construction work or services to be contracted for, require submission of one or several of the documents listed in subsections (2)–(4) of this section.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) In the case of purchasing of goods, the contracting authority may require a tenderer to submit:

- 1) a list of similar transactions for the purchase and sale of goods in which the tenderer has participated during the last three years, together with the values, due dates and indication of contracting authorities;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
- 3) information concerning the technical staff or technical units whom the tenderer intends to use in the performance of the public procurement contract;
- 4) samples, descriptions or photographs of the goods being purchased, whereas the authenticity thereof shall be proved if the contracting authority so requires;

5) documents to prove that the goods comply with specific regulations or standards.

(3) In the case of contracting for construction work, the contracting authority may require a tenderer to submit:

- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for performing the construction work;
- 2) a list of similar construction work, if any, performed during the last three years and information concerning the value, time, site and the authorities contracting for the construction work and confirmation that the construction work was performed properly and according to good building practice;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 3) a statement that the tenderer has the tools, equipment and machinery necessary to perform the construction work;
- 4) a statement of the average number of employees of the tenderer during the last three years;
- 5) information concerning the technical staff or technical units whom the tenderer intends to use in the performance of the construction work;
- 6) a statement of the measures for ensuring quality, used by the tenderer;
- 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.

(4) In the case of contracting for services, the contracting authority may require a tenderer to submit:

- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for providing the services;
- 2) a list of similar services, if any, provided during the last three years, and documents indicating the value, time of provision and the authorities contracting for the services;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 3) information concerning the technical staff or technical units whom the tenderer intends to use in the provision of the services;
- 4) a statement of the average number of employees of the tenderer during the last three years;
- 5) a statement that the tenderer has the tools, equipment and machinery necessary to provide the services;
- 6) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
- 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.

§35. Removal of tenderer from tender

(1) A contracting authority is required to exclude a tenderer from a tender at any time if it becomes evident that the tenderer has submitted false information or falsified documents.

(2) A tenderer is disqualified if:

- 1) the tenderer is bankrupt or undergoing liquidation, the business activities thereof are suspended or it is in any other similar situation pursuant to the law of the home country of the tenderer;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) compulsory liquidation or other similar proceedings have been initiated with regard to the tenderer pursuant to the law of the home country of the tenderer;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 3) the tenderer has not performed the obligations thereof regarding payment of state or local taxes;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 4) a court judgment which has entered into force proves that the tenderer has, during the last three years, failed to perform as required a procurement contract entered into with the tenderer as a result of a tendering procedure;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 5) the tenderer has failed to submit the data or documents required by the contracting authority on the basis of this Act;
- 6) the tenderer does not meet the requirements prescribed by legislation for operating in the corresponding field of activity or the financial status or technical competence of the tenderer is not in compliance with the requirements set by the contracting authority.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) In the cases listed in clauses (2) 1)–4) of this section, documents issued by a competent authority are considered as acceptable proof.

(4) If the home country of a tenderer does not issue the relevant documents, they may be replaced by a declaration made by the person concerned before a notary or other such competent official of the home country of the tenderer.

§36. Registration of tenderers

(1) A tenderer whose seat is within a State Party to the European Economic Area Agreement, may, in order to prove the qualifications of the tenderer according to the requirements provided for in clauses 31 (1) 1) and 2) and §32 of this Act, provide the contracting authority with a registration certificate issued by a competent body of the home country of the tenderer concerning the entry of the tenderer in the official list of tenderers. A registration certificate shall contain references to the basis for registration and the classification of the tenderer.

(2) A contracting authority may require all tenderers registered in an official list to submit additional confirmation concerning payment of social tax in addition to the registration certificate specified in subsection (1) of this section.

§37. System for qualifying tenderers

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a qualifying system for tenderers both in the case of public procurements the estimated value of which is lower than an international threshold and public procurements the value of which equals or exceeds an international value threshold. Contracting authorities specified in clauses 5 (1) 1) –5) of this Act may use a qualifying system for tenderers in the case of a negotiated tendering procedure without prior publication of a tender notice and in the case of a public procurement the estimated value of which is lower than an international value threshold.

(2) A contracting authority may establish a system for qualifying tenderers, based on objective criteria and the provisions of this Act.

(3) Contracting authorities who establish a system for qualifying tenderers based on qualification criteria and rules shall ensure that it is possible, at all times, for interested persons to:

- 1) access the criteria and rules for qualifying tenderers, whereas interested persons shall be notified of amendments to such criteria or rules;
- 2) apply for qualification.

(4) A contracting authority may use lists of qualified tenderers compiled by other persons on the condition that the qualification systems used are in accordance with the requirements of the contracting authority and the provisions of this Act. In such case, the contracting authority shall notify interested persons of the names of the persons who compiled the lists of qualified tenderers.

(5) A contracting authority shall inform applicants of the decision concerning qualification. If the decision concerning qualification cannot be made within two months, the contracting authority shall inform applicants of the reasons for the delay and notify them of the date on which the decision is to be made within two weeks after submission of the applications.

(6) Applicants who are disqualified shall be informed of the corresponding decision and grounds for disqualification. The grounds for disqualification shall be based on the criteria for qualifying tenderers, specified in subsection (2) of this section.

(7) A contracting authority shall not require tenderers to submit documents which duplicate documents already submitted to such contracting authority by the corresponding tenderer.

(8) Written records shall be kept of qualified tenderers. The corresponding list may be subdivided into categories according to the object of public procurement to which the qualification applies.

(9) Contracting authorities may disqualify of a tenderer only on grounds arising from criteria for qualification specified in subsection (2) of this section. A tenderer shall be notified of disqualification and the reason therefor shall be indicated.

(10) A contracting authority shall submit a notice concerning the establishment of a system for qualifying tenderers to the register and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the time of establishing the criteria and rules for qualifying tenderers;
- 3) the place and time for accessing the criteria and rules for qualifying tenderers.

(11) The formal requirements for the notice specified in subsection (10) of this section and the procedure for submission thereof shall be established by the Minister of Economic Affairs.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§38. Security

(1) A contracting authority may demand security from a tenderer in order to ensure compensation for damage in full or in part in the case the tenderer fails to perform the obligations thereof.

(2) The existence of security shall be certified by a guarantee document issued by a credit or financial institution or an insurance agency or by depositing a sum of money in the bank account of the contracting authority or organizer of tendering procedures specified in subsection 10 (3) of this Act.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) In the case of purchasing of goods or contracting for construction work or services, the security demanded shall not exceed one per cent of the estimated value of the public procurement according to the assessment of the contracting authority.

(4) The same amount of tender security shall be demanded from all tenderers.

(5) A contracting authority is not required to return tender security to a tenderer if:

- 1) the tenderer withdraws the tender within the tender validity period;
- 2) the tenderer refuses to enter into a procurement contract in accordance with the tender submitted by the tenderer.

(6) Tender security shall be returned to a tenderer within three working days:

- 1) after expiry of the tender validity period or after entry into force of the procurement contract specified in clause 2) of this subsection if the entry into force precedes the expiry of the tender validity period, except in the case specified in clause (5) 2) of this section;
- 2) after the entry into force of the procurement contract, in the case of the tenderer who submitted the successful tender;
- 3) in the case of cancellation of the tendering procedure;
- 4) upon disqualification of the tenderer;
- 5) upon withdrawal of the tender before the due date for submission of tenders;
- 6) if tenders are rejected on the grounds provided for in subsection 43 (4) or 44 (1) of this Act.

(7) In the case of a public procurement of construction work, the security for the performance period shall be 10 per cent and the security for warranty period two per cent of the value of the tender.

Chapter 6

Submission, Amendment, Withdrawal, Opening, Declaration of Suitability and Rejection of Tenders

§39. Submission, amendment and withdrawal of tenders

(1) A tender shall comply with the requirements set out in the tender documents and shall be in no way misleading.

(2) A tender shall be submitted in writing and in a sealed envelope containing a separate sealed and marked envelope with the value of the tender.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) The contracting authority shall provide a tenderer with a certificate concerning receipt of a tender and the date and time of receipt of the tender shall be indicated in the certificate.

(4) Tenderers may submit a joint tender if such opportunity is prescribed in the tender documents.

(5) A tenderer may amend a tender by submitting a new tender or withdraw a tender, whereas the corresponding written notice shall be submitted to the contracting authority before the due date for submission of tenders.

§40. Term for submission of tenders and applications for participation in tendering procedure

(1) In open tendering procedures, the period of time between the publication of an invitation to tender and the due date for submission of tenders shall be, in the case of procurement contracts the value of which:

1) is lower than an international value threshold, not less than 14 days upon purchasing of goods or contracting for services, and not less than 30 days upon contracting for construction work;

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

2) equals or exceeds an international value threshold, generally not less than 52 days or not less than 36 days, whereas due to time constraints or in simpler cases not less than 22 days, if the contracting authority has, in the prior notice, indicated all necessary information concerning the open tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before publication of the invitation to tender.

(2) In restricted tendering procedures, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the value of which:

1) is lower than an international value threshold, not less than 14 days;

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible.

(3) In negotiated tendering procedures with prior publication of a tender notice, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 14 days;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible, or not less than 52 days if the procurement contract to be negotiated is a construction work concession contract.

(4) In restricted tendering procedures, the period of time between the issue of the tender documents and the due date for submission of tenders shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 14 days upon purchasing of goods or contracting for services, and not less than thirty days upon contracting for construction work;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) equals or exceeds an international value threshold, not less than 40 days, or not less than 26 days if the contracting authority has, in the prior notice, indicated all information necessary for the restricted tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before the notice of the restricted tendering procedure, or not less than 10 days in cases where time constraints render compliance with the requirement of 40 or 26 days impossible, or not less than 24 days in the case of contracting authorities specified in clause 5 (1) 6) of this Act if the contracting authority does not reach an agreement with the selected tenderers concerning a shorter time limit, on the condition that all tenderers are afforded the same amount of time for the preparation and submission of tenders.

(5) In negotiated tendering procedures with prior publication of a tender notice, the period of time between the issue of the tender documents and the due date for the submission of tenders shall be not less than 14 days upon purchasing of goods or contracting for services, and not less than 30 days upon contracting for construction work.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) A contracting authority may extend the time-limit for submission of tenders. Upon extension of the time-limit for submission of tenders in the case of an open tendering procedure, the contracting authority shall amend the invitation to tender and the tender documents. Upon extension of the time limit for submission of tenders in the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall amend the tender documents. Upon amendment of an invitation to tender, the contracting authority shall notify the register of extension of the time-limit. Upon amendment of tender documents, the contracting authority shall take into account the provisions of §25 of this Act.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(7) A contracting authority may extend the time-limit for submission of applications for participation in a tendering procedure. Upon extension of the time-limit for submission of applications for participation in a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall amend the invitation to tender. Upon amendment of an invitation to tender, the contracting authority shall notify the register of extension of the time-limit.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§41. Tender validity period

(1) A tender shall be valid during the term indicated in the tender documents. The tender validity period commences on the due date for submission of tenders and shall not exceed 90 days.

(2) Suspension of a tendering procedure does not extend tender validity periods.

(3) A contracting authority may make a reasoned proposal for extending a tender validity period to the tenderers not later than 10 days before expiry of the tender validity period. If a tenderer refuses to extend the tender validity period, the validity shall terminate on the predetermined date.

(4) A contracting authority shall not require a tenderer to extend the validity of tender security.

§42. Opening of tenders

(1) Tenders shall be opened at the place and time specified in the tender documents or, in the case of extension of the tender validity period, at the time specified by the contracting authority.

(2) All tenderers have the right to participate in the opening of tenders personally or through their authorized representatives.

(3) At the opening of tenders, the names and registry codes of the tenderers shall be made known and the conformity of the submitted documents with the requirements set out in the tender documents shall be verified. Envelopes containing the values of the tenders shall not be opened and the contracting authority shall ensure that the envelopes remain sealed until opening of the values of tenders. A report on the opening of the tenders shall be prepared.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) A copy of a report on the opening of tenders shall be sent to the tenderers within three working days after the date of opening the tenders.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(5) In the case of rejection of a tender pursuant to subsection 43 (4) or 44 (1) of this Act, the envelope containing the value of the tender shall not be opened and shall be returned to the tenderer on the date following the expiry of the tender validity period.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) The contracting authority shall notify tenderers of the place, date and time of opening the values of the tenders at the opening of the tenders or together with the notice announcing the declaration of conformity or rejection of the tenders.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§43. Declaration of conformity of tenders and rejection of tenders

- (1) Contracting authorities shall verify the compliance of submitted tenders with the requirements set out in the tender documents.
- (2) A tender shall be declared to be in conformity if it complies with all the requirements set out in the tender documents.
- (3) A tender may be declared to be in conformity if it contains no substantive deviations from the conditions set out in the tender documents.
- (4) A contracting authority shall reject a tender if:
 - 1) the tenderer is not qualified pursuant to the provisions of this Act;
 - 2) the tender does not comply with the requirements set out in the tender documents.
- (5) A notice concerning declaration of tenders as being in conformity or rejection of tenders, and the reasons therefore shall be sent to the tenderers in writing within three working days after the making of the corresponding decision.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§44. Rejection of all tenders

- (1) A contracting authority may reject all tenders before entry into a procurement contract if the tender documents prescribe such possibility and the grounds therefor.
- (2) A contracting authority shall immediately send a notice concerning rejection of all tenders to all tenderers to whom tender documents were issued.
- (3) At the request of a tenderer, the contracting authority shall notify the tenderer of the grounds for rejection of all tenders.
- (4) Upon rejection of all tenders, the contracting authority shall refund the fee charged from tenderers for the tender documents.

Chapter 7

Comparison, Evaluation and Acceptance of Tenders

§45. Comparison and evaluation of tenders

- (1) A contracting authority shall compare and evaluate all tenders which have not been rejected. In the comparison and evaluation of tenders, only the criteria set out in the tender documents shall be considered.
- (2) The successful tender is a tender which, in terms of the evaluation criteria set out in the tender documents, is the most advantageous among the tenders declared suitable, whereas the success of the tender shall be objectively justifiable.

(3) The economically most advantageous tender shall be determined on the basis of the value points or other evaluation results ascribed according to the evaluation criteria to tenders declared to be in conformity. Value points or other evaluation results shall be ascribed according to the evaluation criteria as follows:

- 1) before opening the values of the tenders, the tenders shall be ranked according to the evaluation criteria, except for the value, set out in the tender documents or on the basis of the value points or other evaluation results ascribed to the tenders;
- 2) immediately after opening the values of the tenders, the value points or other evaluation results ascribed according to the value of a tender shall be added to the value points or other evaluation results ascribed to the tender according to clause 1) of this subsection.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) All tenderers have the right to attend, either personally or through an authorized representative, the opening of the values of the tenders and performance of the act specified in clause (3) 2) of this section.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(5) Upon opening the values of tenders, the intactness of the seals of the envelopes with the values of the tenders shall be verified and thereafter the names and registry codes of the tenderers and the values of the tenders submitted by the tenderers shall be announced. A corresponding report on the opening of the values of the tenders shall be prepared.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) A report on the opening of the values of tenders shall be sent to the tenderers within three working days after the opening of the values of the tenders.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(7) A contracting authority which has divided a public procurement into parts shall evaluate tenders according to the parts and as a whole if at least one of the tenders declared suitable concerns the entire object of the public procurement. The contracting authority shall declare the most advantageous tender for each part as the successful tender if declaring one tender as successful for all of the parts is not in compliance with the conditions specified in subsection (1) of this section.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(8) Persons who are or have been in a relationship with a tenderer which may give rise to justified doubts as to the persons' objectivity shall not participate in the evaluation of tenders.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§46. Acceptance of tenders

(1) A successful tender is deemed to be accepted after 14 days as of declaration of the tender as successful.

(2) A written notice concerning the declaration of a tender as successful shall be sent to all tenderers within three working days after the corresponding decision is made. The notice sent to the tenderers shall set out the name of the tenderer who submitted the successful tender and an explanation concerning the advantages of the successful tender over the other tenders.

§47. Alternative tenders

- (1) Contracting authorities shall evaluate alternative tenders submitted by the tenderers only if:
 - 1) the criterion for a tender to be declared successful is determination of the economically most advantageous tender;
 - 2) the criteria set out in the tender documents do not preclude submission of alternative tenders.
- (2) Contracting authorities who do not preclude submission of alternative tenders in tender documents shall not reject an alternative tender on the grounds that in the case the tender were declared successful it would concern contracting for services instead of purchasing of goods, or vice versa.

§48. Tenders of unreasonably low value

- (1) If the value of a tender is obviously unreasonably low, the contracting authority may request the tenderer to submit such information concerning the constituent elements of the tender which the contracting authority considers relevant. The contracting authority shall set a term for the tenderer for the submission of the information. Such request and the response thereto shall be prepared in writing.
- (2) A contracting authority shall take into account the circumstances which are justified on objective grounds in the explanation of the tenderer and arise from the economy of a method of construction or production, the technical solutions chosen, exceptionally favourable conditions available to the tenderer in the performance of the procurement contract or the originality of the goods, services or construction work proposed by the tenderer.
- (3) A contracting authority may reject a tender of an unreasonably low value. Rejection shall be based on the opinion of an independent expert. A contracting authority shall not reject a tender of low value if the tenderer submits a 100 per cent guarantee for the value difference between the price of the tender submitted and the estimated value of the public procurement.

§49. Notification of tenderers

- (1) A contracting authority shall, within three working days after making the corresponding decision, inform each applicant who was disqualified from participation in a tendering procedure in writing of the grounds for disqualification.
- (2) A contracting authority may decide that the advantages specified in subsection 46 (2) of this Act of a tender declared to be successful shall not be disclosed if this may:
 - 1) be contrary to the public interests;
 - 2) prejudice the legitimate business interests of the tenderers;
 - 3) prejudice free competition between tenderers.

(3) If an invitation to tender or tender documents are revoked or a decision made by the contracting authority with regard to a tendering procedure is annulled or the tendering procedure is cancelled, the contracting authority shall, within three working days, notify tenderers who received tender documents or persons who were previously qualified by the contracting authority of the corresponding decision in writing.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§50. Explanations

(1) Applicants and tenderers have the right to obtain explanations concerning the contents of invitations to tender and tender documents. The contracting authority shall provide explanations within three working days after receipt of the corresponding request and shall send the explanations concurrently also to other applicants or tenderers.

(2) In open or restricted tendering procedures, contracting authorities may request tenderers to submit reasoned and relevant explanations concerning inaccuracies or ambiguities contained in tenders. Requests and explanations shall be prepared in writing.

(3) If a tenderer fails to submit within three working days the explanations requested from the tenderer by the contracting authority on justified grounds, the tender may be rejected.

§51. Negotiations

(1) In negotiated tendering procedures with prior publication of a tender notice or negotiated tendering procedures without prior publication of a tender notice, the contracting authority has the right to decide whether and to which extent to negotiate with the tenderers.

(2) Negotiations are prohibited in open tendering procedures and restricted tendering procedures.

(3) If negotiations are held, the contracting authority shall notify tenderers of the procedure for the negotiations before the commencement of the negotiations.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) Contracting authorities shall not forward information received during negotiations to other tenderers.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§52. Entry into and entry into force of procurement contracts

(1) A written procurement contract shall be entered into not earlier than 14 days after dispatch of a notice provided for in subsection 46 (2) of this Act to the tenderer who submitted the successful tender, but not before acceptance of the tender. If a protest is filed against a decision on declaration of a tender as successful, the procurement contract shall not be entered into before the suspended tendering procedure may be resumed.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) The conditions of a procurement contract shall comply with the requirements set out in the tender documents and in the successful tender.

(3) A procurement contract which is entered into before expiry of the term specified in subsection (1) of this section or is contrary to the provisions of subsection (2) of this section is void.

§53. Tender serving as procurement contract

If tender documents prescribe that an accepted tender is equivalent to a procurement contract, the accepted tender shall enter into force as a procurement contract not earlier than fourteen days after dispatch of a notice provided for in subsection 46 (2) of this Act to the tenderer who submitted the successful tender. If a protest is filed against a decision on declaration of a tender as successful, the procurement contract shall not enter into force before the suspended tendering procedure may be resumed.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

Chapter 8

Tendering Procedures

§54. Open tendering procedure

(1) Contracting authorities shall use open tendering procedures. The use of other tendering procedures is permitted only in the cases provided for in this Act.

(2) A contracting authority shall invite all interested persons to participate in an open tendering procedure by publishing an invitation to tender.

(3) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of tender documents and the tenderer's need to contact the contracting authority in order to access the supporting documents or the construction site.

(4) A contracting authority shall issue tender documents to persons interested in participating in an open tendering procedure during the period between publication of the invitation to tender and the first due date for submission of tenders, within three working days after receipt of the corresponding application.

§55. Restricted tendering procedure

(1) A contracting authority may use a restricted tendering procedure if:

- 1) the contracting authority has approved objective selection criteria for the tenderers, and
- 2) it is economically expedient to verify the qualifications of applicants before submission of the tender documents.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) In a restricted tendering procedure, the contracting authority shall, on the basis of the financial status and technical capacity of the applicants, select the persons to whom tender documents shall be submitted concurrently.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) A contracting authority may predetermine the number of tenderers participating in a restricted tendering procedure on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than five and the maximum not more than 20;
- 2) the number of tenderers is determined on the basis of the nature of the goods to be purchased or construction work or services to be contracted for;
- 3) the number of tenderers participating in the tendering procedure is determined in the invitation to tender;
- 4) in the case of procurement contracts the value of which is lower than an international value threshold, the minimum number of tenderers is not less than three.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of tender documents and the tenderers' need to access the supporting documents or the construction site.

§56. Negotiated tendering procedure with prior publication of tender notice

(1) A contracting authority may use a negotiated tendering procedure with prior publication of a tender notice if:

- 1) all tenders were rejected in an open tendering procedure or restricted tendering procedure on the grounds provided for in subsection 43 (4) or 44 (1) of this Act or if such tendering procedure was terminated pursuant to clause 8 (2) 4) or 5) of this Act and the initial terms and conditions of the public procurement were not substantially altered;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 2) due to the nature of the construction work or services or the possible risks involved in contracting for construction work or services, it is not possible to estimate the value of the public procurement in advance;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 3) due to the nature of the services to be contracted, especially services concerning intellectual property and insurance or banking and investment services, it is not possible to determine the specific terms and conditions of the public procurement with sufficient accuracy in order to find a successful tender in an open tendering procedure or restricted tendering procedure;
- 4) the construction work or services contracted for are necessary only for the purposes of scientific research, development or testing and the expenses of the research and development work are not covered from the costs of the construction work or services;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- 5) the object of the public procurement is a construction work concession.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) In a negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall, on the basis of the financial status and technical capacity of the applicants, select the persons to whom tender documents shall be submitted concurrently.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) A contracting authority may predetermine the number of tenderers participating in a negotiated tendering procedure with prior publication of a tender notice on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than three;
- 2) the number of tenderers participating in the tendering procedure is sufficient for ensuring competition.

§57. Negotiated tendering procedure without prior publication of tender notice

(1) Contracting authorities may use a negotiated tendering procedure without prior publication of a tender notice if:

- 1) rapid completion of the public procurement is necessary due to unforeseeable events in order to save the life or health of a person or property of substantial value or prevent damaging human life or health or property of substantial value or spread of environmental damage, or it is necessary due to national defence reasons, and the use of other tendering procedures is not possible due to time constraints;
- 2) additional goods are purchased from the initial tenderer in order to either partially replace or supplement the goods purchased previously and a change of tenderer would entail the purchasing of goods which are technically incompatible with the goods purchased previously or the use of which would cause disproportionate additional costs, whereas such additional goods may be purchased during three years after the end of the initial open tendering procedure or restricted tendering procedure;
- 3) the construction work or services to be additionally contracted for were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary for performing the procurement contract and the total value of the contracts for additional construction work or services equals or exceeds an international value threshold and does not exceed 50 per cent of the total value of the initial public procurement;
- 4) the construction work or services to be additionally contracted for were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary for performing the procurement contract and the total value of the contracts for additional construction work or services is lower than an international value threshold and does not exceed 20 per cent of the total value of the initial public procurement;

- 5) in the absence of a suitable alternative or substitute, goods can be purchased or services or construction work contracted for only from one particular tenderer due to artistic reasons or reasons connected with the protection of exclusive rights like patents or copyrights or, in the absence of competition, due to technical reasons;
 - 6) new construction work is contracted for which repeats similar construction work performed on the basis of a procurement contract entered into by the same contracting parties as a result of an open tendering procedure conducted earlier, on the condition that such construction work complies with the initial building design on the basis of which the procurement contract was entered into and the total value of the construction work is equal to or exceeds an international value threshold;
 - 7) new construction work is contracted for which repeats similar construction work performed on the basis of a procurement contract entered into by the same contracting parties as a result of an open tendering procedure conducted earlier, on the condition that such construction work complies with the initial building design on the basis of which the procurement contract was entered into and the total value of the construction work is lower than an international value threshold and not more than one year has passed from the expiry of the initial procurement contract;
 - 8) goods are purchased under especially favourable conditions if such conditions are available only for a very limited period of time, e.g. in the case of a liquidation or bankruptcy proceeding, and such conditions allow for purchasing the goods for a price which is at least 50 per cent lower than the usual market price;
 - 9) goods are purchased on the commodity exchange;
 - 10) the procurement contract is entered into with the winner of a design contest conducted pursuant to the provisions concerning open tendering procedure or restricted tendering procedure provided for in this Act;
 - 11) no tenders in compliance with the requirements were submitted in an opening tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice and on the condition that the initial tendering conditions have not been substantially altered;
 - 12) goods are purchased or services contracted for only for conducting investigations or experiments or for scientific or development purposes and not in order to receive benefits therefrom, or for covering the corresponding expenses, on the condition that such purchasing of goods or contracting for services does not prejudice competition in the conclusion of subsequent contracts for similar purposes;
 - 13) the estimated value of the public procurement together with value added tax is up to EEK 200,000 per year in the case of purchasing of goods or contracting for services or up to EEK 2 million per year in the case of contracting for construction work.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (2) In a negotiated tendering procedure without prior publication of a tender notice, the contracting authority may negotiate with as many tenderers as the contracting authority considers necessary.

(3) In the case of a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall select the persons to whom tender documents shall be submitted concurrently.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) In the case of a negotiated tendering procedure without prior publication of a tender notice, contracting authorities are not required to comply with the requirements provided for in §§ 18, 19, 25 and 38, subsections 39 (2)–(5), §§ 40 and 42, subsections 43 (2)–(5) and §§ 44–46, 48–50, 52 and 53 of this Act.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(5) In a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall send a notice concerning the negotiated tendering procedure without prior publication of a tender notice to the register before the commencement of the negotiations and the notice shall set out at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;
- 3) the name, position and details of the person responsible for the public procurement;
- 4) the estimated value of the public procurement;
- 5) the due date for the performance of the procurement contract;
- 6) the names, addresses and other details of the tenderers selected by the contracting authority, and the registry codes of the tenderers if they have a registry code;
- 7) the grounds for the selection of the tendering procedure on the basis of subsection (1) of this section.

(6) The formal requirements for notices concerning negotiated tendering procedures without prior publication of a tender notice and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§58. Special rules

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure with prior publication of a tender notice instead of an open tendering procedure or restricted tendering procedure.

(2) In addition to the cases provided for in §57 of this Act, a contracting authority specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure with prior publication of a tender notice if the contracting authority:

- 1) selects the tenderers from among tenderers qualified pursuant to the qualification system provided for in §37 of this Act; and

- 2) has published an invitation to tender in an open tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice but there are no tenderers or applicants or no qualified tenderers or applicants, and the initial tendering conditions have not been substantially altered.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§59. Design contest

- (1) Contracting authorities shall organize design contests pursuant to the provisions concerning open tendering procedure or restricted tendering procedure provided for in this Act.
- (2) A contracting authority shall authorize the committee of a design contest to organize the contest and ascertain the winners.
- (3) Legal persons in private law, legal persons in public law and natural persons may participate in a design contest.
- (4) A notice announcing a design contest shall contain at least the following information:
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the names of the members of the committee;
 - 3) the subject and characteristics of the design contest;
 - 4) the requirements for participants in the design contest;
 - 5) the awards of the design contest;
 - 6) requirements for the projects;
 - 7) the evaluation criteria for the projects;
 - 8) the place, due date and time for the submission of projects.
- (5) A contracting authority may restrict the number of participants in a design contest on the basis of explicit and non-discriminatory criteria. A contracting authority shall determine the number of participants in a design contest pursuant to the requirement of sufficient competition.
- (6) The committee of a design contest shall consist of persons independent of the participants in the contest. If certain professional qualifications are required from participants in a design contest, at least one-third of the members of the committee of the contest must have the same or similar qualifications.
- (7) The committee of a design contest shall be independent in its decisions and opinions. Decisions and opinions concerning anonymous projects shall be made only on the basis of the criteria set out in the notice announcing the design contest.
- (8) The formal requirements for notices announcing a design contest and the procedure for submission thereof shall be established by the Minister of Economic Affairs.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§60. Electronic public procurement

- (1) Contracting authorities have the right to conduct public procurements through corresponding web sites which are in compliance with the established requirements.
- (2) An undertaking is allowed to operate as the administrator of a web site specified in subsection (1) of this section if the undertaking has been entered in the commercial register and the state register of undertakings operating in areas of activity subject to special requirements and has entered into a liability insurance contract in compliance with the requirements.
- (3) A committee formed by the Minister of Economic Affairs (hereinafter committee) shall, on the basis of a registration application by an undertaking wishing to operate as the administrator of a web site specified in subsection (1) of this section, make a decision concerning entry of the undertaking in the state register of undertakings operating in areas of activity subject to special requirements if the undertaking has been entered in the commercial register and has entered into a liability insurance contract with the minimum amount of insurance coverage of EEK 5 million to ensure compensation for the potential damage caused by the undertaking in the administration of such web site, and the web application of the web site the undertaking wishes to administer complies with the requirements.
- (4) The committee shall decide to refuse to enter an undertaking in the state register of undertakings operating in areas of activity subject to special requirements if the undertaking has not been entered in the commercial register or has not entered into a liability insurance contract in compliance with the requirements or the web application of the web site the undertaking wishes to administer does not meet the established requirements.
- (5) The committee shall decide to delete the data concerning an undertaking operating as the administrator of a web site specified in subsection (1) of this section from the state register of undertakings operating in areas of activity subject to special requirements on the basis of an application by the undertaking, or if the data concerning the undertaking have been deleted from the commercial register or the undertaking does not hold a liability insurance contract in compliance with the requirements or the web application of the web site administered by the undertaking no longer meets the established requirements.
- (6) The membership and rules of procedure of the committee shall be approved by the Minister of Economic Affairs.
- (7) A registration application shall set out at least the following information:
 - 1) the name, registry code, address and other details of the undertaking;
 - 2) the amount and term of validity of the liability insurance coverage and the name, registry code, address and other details of the undertaking which issued the document certifying the existence of the liability insurance;
 - 3) a description of the web application of the web site;
 - 4) the address of the web site;
 - 5) the name, official title and details of the person who signed the registration application.

(8) The following data shall be entered in the state register of undertakings operating in areas of activity subject to special requirements:

- 1) the name, registry code, address and other details of the undertaking;
- 2) the amount and term of validity of the liability insurance coverage and the name, registry code, address and other details of the undertaking which issued the document certifying the existence of the liability insurance;
- 3) a description of the web application of the web site;
- 4) the address of the web site;
- 5) the name, official title and details of the person who signed the registration application;
- 6) data concerning the decisions of the committee.

(9) The registration data specified in subsection (8) of this section shall be published on the web site of the state register of undertakings operating in areas of activity subject to special requirements.

(10) The administrator of a web site specified in subsection (1) of this section shall be responsible for compensation for damage caused by violation of the requirements established for the web applications of web sites specified in subsection (1) of this section.

(11) The requirements for the web applications of web sites specified in subsection (1) of this section and the procedure for the assessment of the conformity of such web applications to the established requirements shall be established by the Minister of Economic Affairs.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

Chapter 9

Submission and Review of Protests

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§61. Contestation of activities of contracting authorities

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

A tenderer or a person interested in participating in a tendering procedure who finds that the contracting authority has violated the tenderer's rights or damaged the tenderer's interests by violating the provisions of this Act in the course of the tendering procedure may file a protest against the activities of the contracting authority.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§62. Submission of protests

(1) Protests concerning invitations to tender, tender documents or decisions of contracting authorities concerning qualification of applicants, refusal to qualify applicants, qualification of tenderers or refusal to qualify tenderers, declaration of a tender to be in conformity, rejection of a tender, rejection of all tenders or declaration of a tender as successful shall be filed with the Office.

(2) Protests shall be filed within seven working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender. A protest concerning tender documents shall be filed before the contracting authority opens the tenders.

(3) A protest shall be filed in writing and shall set out:

- 1) the name, address and other details of the person filing the protest;
- 2) the name, address and other details of the contracting authority;
- 3) the content of the invitation to tender, tender documents or decision against which the protest is filed and the reasons why the person filing the protest considers this to be a violation of the rights or damage to the interests of the person;
- 4) the clearly expressed request of the person filing the protest;
- 5) a list of the documents annexed to the protest.

(4) The person filing a protest shall annex to the protest information at his or her disposal concerning the tendering procedure which is the subject of the protest, and a document certifying payment of the state fee.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§63. Organization of review of protests

(1) The Office has the right to require a contracting authority to submit all documents necessary for the review of a protest.

(2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.

(3) Before the review of a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested invitation to tender, tender documents or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.

(4) The Office shall refuse to review a protest and shall make a corresponding decision if:

- 1) the protest is not filed within the specified term;
- 2) the protest fails to comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the state fee has not been annexed to the protest;
- 3) the protest is not filed against an invitation to tender, tender documents or a decision specified in subsection 62 (1) of this Act;
- 4) a decision or precept specified in subsection 70 (1) of this Act has been made or issued.

(5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the state fee has not been annexed to the protest, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to review the protest.

(6) The Office has the right to involve experts in the review of a protest. An expert may submit his or her opinion in writing or at a public session. The expenses relating to the submission of a protest, consisting of the state fee and the certified expenses relating to the involvement of experts, including expert's fees, shall be borne by the person submitting the protest if the review of the protest terminates on the basis of clause 65 (6) 1) or 3) of this Act or by the contracting authority if the review of the protest terminates on the basis of clause 65 (6) 2), 4) or 5) of this Act. The amount of expenses relating to the submission of a protest shall be determined by a decision of the Office.

(7) Expert's fees shall be determined on the basis of the amount equalling three times the hourly wage corresponding to the salary rate at the highest level of the salary scale for state public servants.

(8) Information concerning protests shall be entered in the register.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§64. Suspension of tendering procedure

(1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to review the protest, the Office is required to notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest to the contracting authority.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing the protest fails to eliminate the deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(3) Upon receiving a notice from the Office concerning submission of a protest, the contracting authority is required to suspend the tendering procedure.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) If a contracting authority continues a tendering procedure after receiving a notice concerning submission of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning submission of a protest from the Office are also void.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§65. Review of protests

(1) The Office shall review a protest within 10 working days as of the date of submission of the protest to the Office. The contracting authority shall decide to review a protest either by a written proceeding on the basis of the documents submitted or shall organize the review of the protest at a public session (hereinafter public session) where at least the representative of the Office, the person who submitted the protest and the contracting authority shall participate.

(2) A public session shall be held if a protest is reviewed with the participation of the representative of the Office, the person who submitted the protest, the contracting authority or, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. If necessary, the Office has the right to decide to hold an additional session. Notice of an additional session shall be given either at the previous session or pursuant to the procedure prescribed in subsection (3) of this section.

(3) The Office shall notify the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender of the time of the public session. The contracting authority shall notify all other tenderers or applicants of the time of the public session. The failure of a contracting authority to inform tenderers or applicants of the opportunity to participate in the public session or the failure of the tenderers or applicants to appear at the session shall not hinder the review of the protest.

(4) Participants in a proceeding for the review of a protest are the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. Parties to a proceeding for the review of a protest are the person who submitted the protest and the contracting authority.

(5) If one or both of the parties to a proceeding for the review of a protest fail to appear at the public session, the Office shall review the protest in accordance with subsection (2) of this section by a written proceeding on the basis of the documents submitted.

(6) The review of a protest is terminated if:

- 1) the person who submitted the protest withdraws the protest;
- 2) the contracting authority declares the protest to be justified;
- 3) the Office decides to dismiss the protest;
- 4) the Office decides to satisfy the protest and annul the decision relating to a tendering procedure made by a contracting authority specified in subsection 5 (1) 1) of this Act which was in violation of this Act or issue a precept to a contracting authority specified in clauses 5 (1) 2)–6) of this Act to annul a decision relating to a tendering procedure made in violation of this Act or require the contracting authority to bring the invitation to tender or the tender documents into conformity with the requirements prescribed by legislation;
- 5) the Office makes a decision or issues a precept specified in subsection 70 (1) of this Act.

(7) Termination of the review of a protest pursuant to the provisions of clause (6) 1) or 2) of this section shall be documented in a written report signed by the representative of the Office, the person who submitted the protest and the contracting authority.

(8) Termination of the review of a protest pursuant to the provisions of clause (6) 3) or 4) of this section shall be documented in a reasoned decision of the Office.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§66. Filing of appeals with administrative court

In order to resolve a protest concerning which a decision specified in subsection 63 (4) or clause 65 (6) 3) of this Act has been made, an appeal may be filed with an administrative court against a decision made by a contracting authority in relation to a tendering procedure, against an invitation to tender or tender documents or against a decision or precept of the Office specified in clause 65 (6) 4). (21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§67. Resumption of tendering procedure

(1) A contracting authority may resume a suspended tendering procedure after:

- 1) receiving a notice provided for in subsection 64 (2) of this Act from the Office, or
- 2) the person who submitted the protest has withdrawn the protest;
- 3) receiving a written notice from the person who filed the protest that the person will not file an appeal pursuant to the procedure provided for in §66 of this Act against decisions made by the contracting authority in relation to the tendering procedure or against the invitation to tender or the tender documents, or
- 4) 10 days have passed from the making of a decision of the Office specified in clause 65 (6) 3) of this Act, or
- 5) expiry of the term for suspension of the tendering procedure specified by an administrative court.

(2) If a protest is declared to be justified pursuant to clause 65 (6) 2) of this Act or if the Office makes a decision pursuant to clause 65 (6) 4) of this Act, the tendering procedure shall be resumed after annulment of the protested decision relating to the tendering procedure or after the contracting authority has complied with the precept.

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

Chapter 10

Supervision and Liability

§68. State supervisory authority

State supervision over public procurements shall be exercised by the Office.

§69. Competence of supervisory authority

The supervisory authority exercising state supervision over public procurements is competent to:

- 1) monitor compliance with this Act without hindrances and without giving prior notice, including inspection of the contracting authority;
- 2) receive all information necessary for exercising state supervision over public procurements from contracting authorities and originals or copies of documents relating to public procurements;

- 3) make a decision or issue a precept if a contracting authority has violated the provisions of this Act in the course of a tendering procedure.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§70. Decision or precept of Office

(1) At any time before entry into a procurement contract, the Office shall, by a decision, either cancel the tendering procedure of a contracting authority specified in clause 5 (1) 1) of this Act or issue a precept requiring a contracting authority specified in clauses 5 (1) 2)–6) of this Act to cancel a tendering procedure if the contracting authority:

- 1) fails to present the evaluation criteria to be used to decide on the success of the tenders or the relative importance of the criteria in the tender documents;
- 2) has not notified all tenderers of amendment of the tender documents, declaration of tenders to be in conformity, rejection of a tender or declaration of a tender as successful;
- 3) violates the procedure for opening tenders or the values of tenders;
- 4) in the comparison and evaluation of tenders, uses, as a representative or expert, a person whose relationship with a tenderer may give rise to justified doubts as to the person's objectivity;
- 5) conducts negotiations with one or several tenderers in an open or restricted tendering procedure.

(2) If a tendering procedure is cancelled, all decisions and acts relating to the tendering procedure are void regardless of whether they were performed before or after the decision concerning cancellation was made. Procurement contracts entered into after the making of a decision concerning cancellation of a tendering procedure or annulment of a decision made by the contracting authority in relation to the tendering procedure are also void.

(3) Before making a decision concerning cancellation of a tendering procedure or issue of a precept, the Office shall grant an opportunity to the contracting authority to submit objections within the term specified by the Office which shall not exceed three working days.

(4) A decision or precept of the Office shall contain at least the following information:

- 1) the date and place of making the decision or issuing the precept;
- 2) the content of the decision or precept;
- 3) the given name, surname and official title of the official who made the decision or issued the precept.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§71. Liability for violation of public procurement procedure

(1) Civil, disciplinary, administrative or criminal liability is applied for violation of this Act or legislation established on the basis thereof. Administrative liability applied to a legal person shall not preclude application of administrative or criminal liability to a relevant natural person.

- (2) If the Office receives information concerning an offence relating to public procurement or it discovers such offence in the course of supervisory activities relating to public procurement and the offence cannot be regarded as an administrative offence provided for in §74 of this Act, the Office shall notify a police authority or a prosecutor of the facts known to the Office.
- (3) The Office has the right to make proposals concerning disciplinary proceedings to be brought against a person or persons who have violated this Act or legislation established on the basis thereof.
- (4) The following cases are considered to be violations of the public procurement procedure:
- 1) a person specified in subsection 5 (1) of this Act who is required to purchase goods or contract for construction work or services pursuant to the procedure provided for in this Act, conducts the public procurement in disregard of such procedure;
 - 2) the contracting authority has conducted a tendering procedure without a firm intention to enter into a procurement contract;
 - 3) the contracting authority does not find the successful tender pursuant to the procedure prescribed by this Act or rejects a tender on grounds not provided for in subsection 43 (4) of this Act or refuses to enter into a procurement contract with the tenderer who submitted the successful tender or refuses to recognize an accepted tender as a procurement contract in accordance with §53 of this Act;
 - 4) an act or omission of the contracting authority involves circumstances provided for in subsection 70 (1) of this Act;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 5) the contracting authority fails to comply with the provisions of subsection 52 (1) of this Act;
 - 6) the contracting authority fails to comply with the provisions of subsection 65 (3) of this Act;
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
 - 7) the contracting authority fails to comply with a decision or precept of the Office specified in clause 65 (6) 4) or subsection 70 (1) of this Act.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§72. Compensation for costs of tenderer

A tenderer has the right to require a contracting authority to pay compensation for the costs relating to the submission of a tender, including the costs relating to the preparation of the tender if the tenderer proves that the procurement contract would probably have been entered into with the tenderer if the contracting authority had not violated this Act.

§73. Compensation for damage by tenderers

If a tenderer submits false information or falsifies documents in the course of a tendering procedure or review of a protest, the tenderer shall pay compensation for the damage caused to the contracting authority or other persons through the submission of such information or documents.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§74. Administrative liability of legal persons for violation of public procurement procedure

(1) A fine of EEK 10,000 to 500,000 shall be imposed on a legal person who is a tenderer and wrongfully submits false information or falsified documents in a tendering procedure.

(2) A fine of EEK 10,000 to 500,000 shall be imposed on a contracting authority specified in clauses 5 (1) 2)–6) of this Act who commits a material violation of the public procurement procedure.

(3) A fine of EEK 5,000 to 100,000 shall be imposed on a contracting authority specified in clauses 5 (1) 2)–6) of this Act who violates the provisions of clause 69 2) of this Act.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(4) A fine of EEK 5,000 to 50,000 shall be imposed on a contracting authority specified in clauses 5 (1) 2)–6) of this Act who violates the provisions of subsection 18 (1), (2) or (3), 19 (1), (2) or (4), 20 (1) or (2), 21 (3), 57 (5) or 59 (3) of this Act.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§75. Administrative offence proceedings concerning legal persons

(1) The Director General of the Office, the deputy Director General and an official of the same agency authorized by the Director General have the right to issue administrative offence reports to legal persons concerning administrative offences specified in §74 of this Act.

(2) A report on an administrative offence shall set out:

- 1) the time and place of preparation of the report;
- 2) the name and address of the agency in whose name the report is prepared;
- 3) the given name, surname and official title of the person who prepares the report;
- 4) the name and address of the administrative offender;
- 5) the given name, surname and official title of the representative of the administrative offender;
- 6) the place, time and description of the administrative offence;
- 7) a reference to the provision of law which prescribes liability for the administrative offence;
- 8) explanation of the representative of the administrative offender;
- 9) a notation that the representative of the administrative offender has been advised of the right to use legal counselling;
- 10) other information necessary for the just adjudication of the administrative offence matter.

(3) A report concerning an administrative offence shall be signed by the official who prepares the report and the representative of the administrative offender.

(4) If the representative of an administrative offender refuses to sign the report or give statements concerning the administrative offence, the person who prepared the report shall make a corresponding entry in the report. Written notations made by the representative of an administrative offender concerning a report and the grounds for refusal to sign the report or give statements shall be annexed to the administrative offence report.

(5) County or city court judges hear matters concerning administrative offences by legal persons. (21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

(6) Administrative offence proceedings concerning legal persons shall be conducted pursuant to the procedure provided for in the Code of Administrative Offences.

(7) An administrative penalty may be imposed not later than within three years as of the date of the administrative offence.

Chapter 11

Implementing Provisions

§76. Specifications concerning public procurements conducted by the Bank of Estonia

Public procurements conducted by the Bank of Estonia are not subject to the provisions of §§ 61–67, clause 69 3) and §70 and of this Act.

§761. Specifications concerning public procurements for contracting for cutting services in state forests

Until 1 January 2003 contracting authorities are not required to apply the procedure provided for in this Act to contracting for cutting services in state forests. (21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§77. State fees

State fees are charged for the performance of acts prescribed in this Act according to the rates provided for in the State Fees Act (RT I 1997, 80, 1344; 2000, 5, 32; 10, 58; 19, 117; 26, 150; 29, 168 and 169; 39, 237; 49, 300; 54, 346 and 349; 55, 365; 57, 372 and 373; 59, 379; 60, correction notice; 78, 498; 84, 534; 92, 597 and 598; 95, 607 and 611; 2001, 2, 2; 3, 4; 16, 69 and 72; 27, 151).

(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

§78. Amendment of State Fees Act

The State Fees Act (RT I 1997, 80, 1344; 2000, 5, 32; 10, 58; 19, 117; 26, 150; 29, 168 and 169; 39, 237; 49, 300; 54, 346 and 349; 55, 365; 57, 372 and 373; 59, 379; 60, correction notice; 78, 498) is amended as follows:

- 1) the words "except in the cases provided for in subsections (10)–(12) of this section" in subsection 37 (9) shall be replaced by the words "except in the cases provided for in subsections (10)–(12) or 18 of this section";
- 2) subsection (18) is added to §37 in the following wording:

"(18) A state fee shall be paid in the following amount upon filing an appeal against an act or decision made by a person specified in subsection 5 (1) of the Public Procurement Act in the course of a public procurement tendering procedure:

- 1) in the case of a tender submitted by the person filing the appeal, 3 per cent of the estimated value of the public procurement specified in the tender, but not less than EEK 10 and not more than EEK 5,000;
- 2) in the absence of a tender submitted by the person filing the appeal, EEK 100";
- 3) Division 203 shall be added to the State Fees Act worded as follows:

"203. Division 3

Acts Performed Pursuant to Public Procurement Act

§1905. Acts with state register of public procurements

A state fee of EEK 300 shall be paid for entry of information concerning a prior notice, notice or invitation to tender in the state register of public procurements."

§79. Amendment of Taxation Act

Clause 11 (4) 9) of the Taxation Act (RT I 1994, 1, 5; 2000, 45, 279; 55, 365; 84, 533) is amended by adding the words "and the Public Procurement Office" after the words "the Statistical Office".

§80. Amendment of Public Procurement Act

Public Procurement Act (RT I 1995, 54, 883; 1997, 9, 79; 1998, 38, 561; 1999, 16, 271; 92, 824; 97, 859; 2000, 57, 374) is amended as follows:

- 1) subsection 3 is amended and worded as follows:

"§3. Definition of public procurement

For the purposes of this Act, public procurement is purchasing of goods or contracting for construction work and services.";

- 2) section 61 is added to the Act worded as follows:

"§61. Contracting authority

- (1) For the purposes of this Act, a contracting authority is:

- 1) a state agency, city or local government, or a local government agency;
- 2) a legal person in public law or a body of a legal person in public law;
- 3) a legal person in private law which is not a company and all the founders or members of which are jointly or separately the state, a local government and/or a legal person in public law;

- 4) a legal person in private law which is not a company and which, to the extent of more than 50 per cent, is financed or more than one-half of the members of the supervisory board or management board of which are appointed jointly or separately by the state, a local government and/or a legal person in public law;
- 5) an undertaking if it has received a construction work concession from a person specified in clauses 1)–4) of this subsection and enters into procurement contracts for construction work on the basis of such concession or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately finance the activities of the undertaking to the extent of more than 50 per cent, whereas holdings in the company are not deemed to be financing;
- 6) an undertaking if the state or a local government has granted a special or exclusive right to the undertaking pursuant to the Competition Act (RT I 1998, 30, 410; 1999, 89, 813; 2000, 53, 343; RT III 21, 232) and if the purchasing of goods or contracting for services or construction work is necessary for the exercise of the special or exclusive right, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately hold a majority of votes or more than 50 per cent of the shares in the undertaking directly or through other persons and if the area of activity of the undertaking is either the construction or operation of permanent networks with the intention to provide services relating to the production, transportation, transmission or distribution of water, gas, electricity or thermal energy to the public, or the use of a geographic area in order to prospect for or extract fuels or enable air or water transport undertakings to use an airport, port or other terminal structure, or the operation of networks enabling the public to use services relating to railway, tramway, trolleybus or bus transport, automatic systems or cable distribution, or the construction or operation of public telecommunications networks for ensuring one or more telecommunications services.

(2) Production, transportation, transmission or distribution of water, gas, electricity or thermal energy by an undertaking to networks servicing the public is not deemed to be an activity specified in clause (1) 6) of this section if consumption of water or electricity is necessary for activities other than those specified in clause (1) 6) of this section, or if the supply of the public network depends solely on consumption by the undertaking and does not exceed 30 per cent of the average overall production of water or electricity by the undertaking during the last three years, or if production of gas or thermal energy by the undertaking results inevitably from activities other than those specified in clause (1) 6) of this section, or if the public network is supplied with a surplus of gas or thermal energy for the purposes of the economic use thereof and such surplus does not exceed 20 per cent of the average turnover of the undertaking during the last three years."

- 3) clause 7 2) is repealed.

§81. Repeal of earlier legislation

The Public Procurement Act (RT I 1995, 54, 883; 1997, 9, 79; 1998, 38, 561; 1999, 16, 271; 92, 824; 97, 859; 2000, 57, 374) currently in force is repealed as of the date of entry into force of this Act.

§82. Entry into force of Act

- (1) This Act enters into force on 1 April 2001.
- (2) Subsections 10 (5), 19 (3) and clause 57 (1) 3) of this Act enter into force on 1 January 2003.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)
- (3) Section 60 of this Act enters into force on 1 July 2001.
- (4) Section 80 of this Act enters into force on the date following the date of publication of this Act in the *Riigi Teataja*.³
- (5) The protests filed with the Office and appeals filed with an arbitral tribunal before entry into force of this Act shall be reviewed and the tendering procedures announced in the *Riigihangete Bülletään*⁴ or communicated to the Office before entry into force of this Act shall be conducted pursuant to the provisions of the Public Procurement Act (RT I 1995, 54, 883; 1997, 9, 79; 1998, 38, 561; 1999, 16, 271; 92, 824; 97, 859; 2000, 57, 374; 84, 534; 2001, 7, 17) in force until the entry into force of this Act, and of the legislation established on the basis thereof.
(21.03.2001 entered into force 01.04.2001 - RT I 2001, 34, 189)

³ RT = *Riigi Teataja* = the State Gazette.

⁴ *Riigihangete Bülletään* = Public Procurement Bulletin.

NOTIFICATION OF NATIONAL IMPLEMENTING LEGISLATION

Communication from Bulgaria

The following communication has been received from the Permanent Mission of the Republic of Bulgaria with the request that it be circulated to the Committee on Government Procurement.

With reference to the process of the accession of Bulgaria to the Agreement on Government Procurement, the following Bulgarian legislation* in the field of government procurement is being circulated to the Parties to the Agreement:

- Public Procurement Law of 25 June 1999;
- Regulation on keeping the Public Procurement Register of 1 November 2000;
- Regulation on Awarding of Public Procurement Contracts below the Thresholds Set Out in Article 7, Paragraph 1 of the Public Procurement Law of 5 May 2000.

* In English only (translated from Bulgarian).

**REPUBLIC OF BULGARIA
NATIONAL ASSEMBLY**

PUBLIC PROCUREMENT LAW

(published in State Gazette, No. 56 of 22 June 1999, in force as of 25 June 1999)

**CHAPTER ONE
GENERAL PROVISIONS**

**Section I
Purpose**

Article 1 This Law lays down the conditions and rules for awarding of public procurement contracts.

Article 2 This Law aims at increasing the efficiency of budget and public resources spending through:

1. establishment of transparency;
2. carrying out of efficient control on expenditures;
3. provision of competitive conditions;
4. economic development promotion.

**Section II
Public Procurement Subjects**

Article 3 (1) Subjects of public procurement shall be:

1. Construction works, including:
 - a) engineering;
 - b) performance of individual or complex construction or assembly work;
 - c) horizontal or vertical extension, raising of superstructures; rehabilitation and reconstruction of buildings;
 - d) delivery, assembly and disassembly of technological equipment carried out in the construction process.
2. Supplies in the form of:
 - a) purchase of products;
 - b) purchase, rental or hire or leasing of machines, facilities and complex equipment.
3. Provision of the following services:
 - a) maintenance, running and extensive repairs of buildings, machines or equipment;
 - b) activities related to getting constructions into exploitation;
 - c) demolition of buildings and construction facilities;
 - d) transport by land, by air and by water;
 - e) telecommunications;
 - f) insurance;
 - g) design and installation of hardware or software;
 - h) accounting and auditing;
 - i) scientific and research activities;

- j) management consultant services and related services;
 - k) planning at all phases including urban and geodesic planning, preliminary surveys and construction plans;
 - l) market research, advertising and public opinion polling;
 - m) real estate management and maintenance;
 - n) publishing, distribution and printing services, including the printing of securities, standard documents and registered forms bearing serial numbers or such as may be used in the collection of state revenue or such as contain tax related information or have nominal value;
 - o) legal services;
 - p) household waste disposal, refuse disposal and similar services, planting, grassing and other development services in residential areas;
 - q) training and retraining;
 - r) security and security systems;
 - s) financial services, except those provided by the Bulgarian National Bank and those related to the national debt management.
- (2) Public procurement contracts shall be contracts with pecuniary interest concluded in writing between a procuring entity and a contractor for the performance of public procurement under paragraph 1, in accordance with the rules laid down in this Law.

Section III **Procuring Entities**

- Article 4** Procuring entities are:
- (1) State authorities, mayors of municipalities, higher schools, as well as other authorities and organisations disposing of funds from the consolidated state budget, including:
 - 1. health insurance and pension funds;
 - 2. non-profit legal organisations;
 - (2) Non-profit organisations established by one or several state authorities and/or local authorities;
 - (3) Public undertakings exercising one or several of the following activities, including on the basis of concession or license:
 - a) operation of fixed public service networks for production, transport or distribution of drinking water, electricity, gas or thermal energy, as well as their supply to such networks;
 - b) exploitation of oil and gas fields, coal or other solid fuels;
 - c) operation of airports, harbours or other terminal facilities for carriers;
 - d) operation of public transportation networks;
 - e) operation of telecommunication networks or provision of telecommunication and postal services, as well as automated systems for public services.

- Article 5**
- (1) Any Bulgarian or foreign natural person or legal entity, as well as their joint ventures, may apply for contractors under public procurement contracts.
 - (2) The contractor under a public procurement contract shall be registered as commercial entity within the meaning of the Commercial Law or shall exercise a liberal profession.

Section IV Scope

- Article 6** This Law shall not apply to public procurement:
1. related to national defense and security, that are subject to state secret, or whose execution involves special security arrangements in accordance with national legislation in force;
 2. governed by procedural rules and awarded in accordance with international agreements;
 3. awarded pursuant to special procedure of an international organization;
 4. if the supplier is a procuring entity within the meaning of Article 4, paragraph 3.
- Article 7**
- (1) The provisions of this Law shall apply to public contracts, the estimated value of which, without VAT, at the date of announcing the procedure is as follows:
 1. for construction works under Article 3, paragraph 1, point 1 – exceeding 600 000 BGL;
 2. for supplies under Article 3, paragraph 1, point 2 – exceeding 50 000 BGL;
 3. for services under Article 3, paragraph 1, point 3 – exceeding 30 000 BGL.
 - (2) When the public procurement contract covers both supplies of products and services, this Law shall apply to the total estimated value of products and services as defined in paragraph 1, point 2.
 - (3) A procurement shall not be divided with the intention of avoiding the application of this Law, even in the case of construction works in phases, when the finished phase cannot obtain permission for use as an independent site or installation with an independent economic or technical function.
 - (4) The conditions and rules for awarding of public procurement contracts below the thresholds set out in Article 7, shall be laid down in a Regulation of the Council of Ministers and shall provide for measures ensuring and encouraging the participation of small and medium-sized enterprises.

Section V Valuation of Contracts

- Article 8**
- (1) The value of public procurement contracts shall be determined as follows:
 1. in case of construction works contracts – the value include the cost of supplying of all products and the provision of services related to the construction process;
 2. in case of contracts for the rental or hire purchase of products – for the whole contract term;
 3. in case of contracts for the lease purchase of products – for the whole contract term plus anticipated residual value of assets;
 4. in case of recurring supply or service contracts – based on the actual aggregate value of similar contracts concluded over the previous fiscal year and adjusted, where possible, for anticipated changes in quantity or value;
 5. in case of contracts for an indefinite period – the monthly instalment multiplied by 48;
 6. in case of insurance services – the total payable premium;
 7. in case of financial services – all fees, commissions and interest, as well as any forms of remuneration;
 8. in case of contracts that involve project work out – the remuneration for the working out of the project, as well as all fees receivable.

- (2) The selection of the valuation method shall not be used with the intention of avoiding the application of this Law.

CHAPTER TWO GENERAL RULES FOR AWARDING

Section I Principles

- Article 9** Public procurement contracts shall be awarded through a procedure as laid down in this Law in accordance with the following principles:
1. ensuring publicity of the procedures and transparency;
 2. free and fair competition;
 3. providing equal opportunities for participation of all interested suppliers;
 4. ensuring the keeping of trade secrets of interested suppliers and their tenders.
- Article 10**
- (1) The procuring entities shall send annually by 31 January to the State Gazette information for the intended procurement throughout the year where the total value is estimated to equal or exceed 1 000 000 BGL, with the aim of informing the potential contractors.
 - (2) The information for the intended procurement throughout the year shall include information for the intended construction works, supplies and services separately.
 - (3) The publication of information for the intended procurement shall not oblige the procuring entity to conduct procedure for awarding of public procurement.
 - (4) The procuring entity shall have the right to initiate public procurement procedures which have not been included in the published information for the intended procurement not earlier than one month after the additional publication.
- Article 11**
- (1) The Minister of State Administration shall establish a Public Procurement Register.
 - (2) The procuring entities shall be obliged to send the necessary information to the administration of the Council of Ministers for registration in Public Procurement Register.
 - (3) The Public Procurement Register shall be open to the general public.
- Article 12**
- (1) All communications from the procuring entity and the tenderers shall be in writing.
 - (2) Decisions of the procuring entity which have to be communicated to the tenderers, shall be delivered in person against signature or shall be sent by registered mail with proof of receipt.

Section II Award Procedures

- Article 13**
- (1) Public procurement shall be awarded through open, restricted or negotiation procedure.
 - (2) Under the open procedure, the procuring entity shall invite all interested suppliers to submit tenders.

- (3) Under the restricted procedure, only those suppliers who, following a pre-qualification procedure, have been invited to participate by the procuring entity in writing, may submit a tender.
- (4) Under the negotiation procedure, the procuring entity shall award a public procurement contract through negotiations with one or more pre-selected suppliers.
- (5) The passing over from one type of procedure to another shall be allowed only when the initially announced procedure has been terminated without the conclusion of contract.

Article 14 The procuring entity shall decide to initiate an open procedure for awarding of public procurement contract in all cases, except otherwise provided for in this Law.

Article 15 The procuring entity shall decide to initiate a restricted procedure for awarding of public procurement contract when:

1. due to the specific character of the procurement, the contract can be performed only by a limited number of suppliers;
2. due to the complex technical nature of the procurement, in the course of contract performance subsequent technical and technological clarifications need to be made;
3. the open procedure has been cancelled or terminated without the conclusion of contract.

Article 16 The procuring entity shall decide to initiate a negotiation procedure for awarding of public procurement contract only when:

1. the procurement is related to scientific research, experiment or studies. The results of such procurement shall not be used for mass production or the establishment of the product's commercial viability;
2. there is a need for prevention of accidents or elimination of after-effects from accidents or natural calamities, or there is a risk of damage on a large scale, or when people's health and safety are at risk;
3. in case of additional deliveries by the same supplier, but not later than six months from awarding of the initial contract, provided that the following conditions are met simultaneously:
 - a) the initial contract has been awarded by open or restricted procedure and the procuring entity had stated the possibility of additional deliveries in its invitation to tender;
 - b) the change of supplier would entail the purchase of material of different technical characteristics that might result in a lack of compatibility or in technical difficulties in operation or maintenance;
 - c) the unit prices remain the same as under the main contract and adjustment in line with official rate of inflation is allowed;
 - d) the total value of such additional procurement does not exceed 20 per cent of the value of the main contract;
4. the procurement is for a repetition of a service supplied, or for additional services by the same contractor not later than one year from the award of the main contract, provided that the following requirements are met simultaneously:
 - a) the main contract has been awarded by open or restricted procedure and the procuring entity had stated the possibility of additional procurement in its invitation to tender;
 - b) the unit prices remain the same as under the main contract and adjustment in line with inflation is allowed;

- c) the total value of such additional procurement does not exceed 20 per cent of the value of the main contract;
5. awarding the contract to another supplier would result in infringement of copyright or other intellectual property rights;
6. the public procurement contract for supply is to be concluded with public undertaking that is bankrupt, or is the subject of proceedings for declaration of bankruptcy, or it is being wound up;
7. the products and services are included in a list approved by the Council of Ministers pursuant to Article 22, paragraph 1 of the Law on Protection, Rehabilitation and Social Integration of Disabled People.

Section III Public Procurement Contract

- Article 17**
- (1) The procuring entity shall conclude a public procurement contract with the successful tenderer in accordance with the Commercial Law or the Law on Obligations and Contracts.
 - (2) The public procurement contract shall include all tender terms of the supplier to whom the contract is awarded.
 - (3) The procuring entity shall conclude the contract under paragraph 1 within one month of the announcement of award decision.
 - (4) The procuring entity shall send to the Minister of State Administration, for registration in the Public Procurement Register, information on public procurement contracts not later than 14 days from the date of their conclusion.

- Article 18**
- A public procurement contract shall not be concluded:
1. before the expiry of the time-limit to launch a complaint against the procuring entity's award decision;
 2. in case of complaint filed against the procuring entity's award decision – by the time when a decision on the complaint has been taken;
 3. with the successful tenderer who fails to present, upon contract signature, an evidence of registration pursuant to Article 5, paragraph 2.

- Article 19**
- Provisions of a public procurement contract may be amended or supplemented only in case of circumstances, the arising of which concern the legal interest of any of the parties.

- Article 20**
- The procuring entity may terminate a public procurement contract, if due to circumstances that arise after its conclusion, it is not in a position to meet its obligations. In such case, the contractor shall be entitled to appropriate indemnity for the damages incurred after the contract conclusion.

Section IV Cancellation of a Public Procurement Procedure

- Article 21**
- (1) The procuring entity shall cancel a public procurement procedure when:
 1. less than three tenders have been submitted for participation in an open or restricted procedure;
 2. no tender meets the pre-announced tender conditions;
 3. the top three ranking tenderers successively refuse to conclude a contract;
 4. there has been no competition;

5. the grounds for carrying out the procedure cease to exist as a result of significant change in circumstances, including in circumstances that render impossible the provision of financing for the procurement performance for reasons which the procuring entity could not have foreseen or caused.
- (2) The procuring entity shall not be obliged to set out the grounds referred to in paragraph 1, point 5 in the tender conditions.

Section V

Decision for Initiation of a Public Procurement Procedure

- Article 22**
- (1) The decision for initiation of a public procurement procedure shall include:
 1. the subject of public procurement;
 2. the legal and actual grounds for initiating the procedure;
 3. the type of procedure;
 4. the time-limit and place for delivery;
 5. restrictions for contract performance, if any;
 6. qualification requirements to tenderers;
 7. quality requirements;
 8. the terms concerning tender price formation and payment;
 9. the period of tender validity;
 10. the type and value of tender guarantee;
 11. the criteria for evaluation of tenders and the method of determining their weight in the complex tender evaluation;
 12. the place, date and time for examination and evaluation of tenders.
 - (2) The procuring entity may also include in the decision additional requirements to contract performance, such as:
 1. conditions relating to the solution of environmental issues, unemployment, job creation for disabled workers, and to the use of local resources and raw materials in certain regions;
 2. requirements relating to the protection of the national security, defence and public order;
 3. conditions relating to stimulating the participation of small and medium-sized enterprises as sub-contractors.
 - (3) The procuring entity may specify methods of payment for contract performance, as follows:
 1. in cash;
 2. in case of construction works - against conceding the right to use the construction site; or
 3. other relevant compensation constituted by law.

CHAPTER THREE

GENERAL CONDITIONS FOR PARTICIPATION IN A PUBLIC PROCUREMENT PROCEDURE

Section I

Requirements to Tenderers

- Article 23** Any person who meets the requirements announced by the procuring entity may participate in a public procurement procedure.
- Article 24**
- (1) Tenderers shall not be eligible for participation in a public procurement procedure where:

1. they are declared bankrupt or are the subject of proceedings for declaration of bankruptcy;
 2. they are sentenced for bankruptcy;
 3. they are being wound up;
 4. their right to perform business activities has been suspended;
 5. payments that have been determined by act of the relevant competent authorities are due to the state or where social security contributions are due;
 6. they have been convicted of an offence against property or economy by a judgement that has the force of res judicata unless they have been rehabilitated subsequently.
- (2) The requirements defined in paragraph 1 point 6 shall refer to managers or members of managing bodies of the tenderer.
- (3) The circumstances under points 1, 2, 3 and 5 of paragraph 1 shall be certified with a document issued by the relevant competent authority and those under points 4 and 6 of paragraph 1 - with a declaration.
- (4) The restrictions under paragraph 1 points 1 and 3 shall not apply to the cases referred to in Article 16, paragraph 6.

Section II Tender

- Article 25**
- (1) Upon preparing of tenders, tenderers shall abide by the conditions announced by the procuring entity.
 - (2) In open procedures, each tenderer may modify, supplement and withdraw its tender by the deadline for submission of tenders.

- Article 26**
- (1) Each tenderer shall have the right to submit only one tender in the public procurement procedure.
 - (2) An entity that has agreed to perform a contract as sub-contractor shall not have the right to submit its own tender.

- Article 27**
- (1) The tender shall contain:
 1. the document of legal registration of the tenderer;
 2. evidence of tenderer's commercial reputation;
 3. the time-limit for contract performance and price proposal;
 4. evidence of technical capability for performance of the contract;
 5. the names of sub-contractors that will participate in the contract performance; the sub-contractors shall meet all the requirements that apply to tenderers;
 6. the document certifying the provision of tender guarantee;
 7. copies of the tenderer's annual balance sheet and account for the previous financial year; this requirement shall not apply to newly registered tenderers and those who exercise a liberal profession;
 8. documents from the relevant competent authorities certifying that none of the circumstances referred to in Article 24, paragraph 1, points 1, 2, 3 and 5 apply;
 9. a declaration certifying that none of the circumstances referred to Article 24, paragraph, points 4 and 6 apply.
 - (2) Where the tenderer is a consortium, which has not assumed a specific legal form, each legal or natural person who participates in the consortium shall furnish the documents referred to in paragraph 1.
 - (3) The tender shall be put in a sealed non-transparent envelope and delivered by the tenderer or by his duly authorised representative by hand against

acknowledgement of receipt or shall be submitted by registered mail with proof of receipt.

- (4) The sequence, date and hour of receipt of tenders shall be entered on the envelope and in a special register. An acknowledgement of receipt shall be given to the bearer.
- (5) The procuring entity may require that the price proposal be submitted in a separate sealed envelope bearing the words "Price Proposal".
- (6) Tenders received after the deadline shall be rejected by the procuring entity. Tenders received in unsealed envelopes shall also be rejected. Such tenders shall be returned to the tenderer and that shall be entered into the register.

- Article 28**
- (1) A tenderer participating in a public procurement procedure shall indicate in the tender his intentions to use sub-contractors.
 - (2) The share of the contract to be entrusted to a sub-contractor shall not exceed 30 per cent of the total tender price.
 - (3) The share of the contract to be entrusted to a sub-contractor may be up to 50 per cent of the total tender price if the tenderer is foreign natural or legal person or consortium provided that the sub-contractors are Bulgarian natural or legal persons.

- Article 29**
- (1) The period of validity of tenders shall include the time during which tenderers remain bound by their tenders. The procuring entity shall specify that period in calendar days.
 - (2) The period of validity of tenders shall be equal for all tenderers. It may be extended for the top three ranking tenderers by the time of conclusion of the procurement contract, but in no case by more than 90 calendar days.

Section III Tender Guarantee

- Article 30** The tenderer shall provide a guarantee for participation in the public procurement procedure. The form and amount of this guarantee shall be specified by the procuring entity as a percentage of the contract value, but in no case less than 1 per cent.

- Article 31** The guarantee shall be provided in one of the following forms:
1. bank guarantee;
 2. pledge of government securities or other securities listed for trading on the stock exchange with market value equal to the guarantee amount established by the procuring entity;
 3. cash deposit.

- Article 32** The procuring entity shall have the right to retain the guarantee where the tenderer:
1. withdraws its tender after the deadline specified for submission of tenders;
 2. files a complaint against the award decision, until the dispute is resolved by the court;
 3. who is awarded a contract fails to conclude a public procurement contract.

- Article 33**
- (1) The guarantees provided by unsuccessful tenderers shall be released by the procuring entity within 3 working days after expiry of the deadline for complaints against decisions under Article 45, paragraph 1. Upon termination of the public procurement procedure all guarantees shall be released.
 - (2) The guarantees provided by successful tenderers shall be released within 3 working days after the conclusion of a public procurement contract.

- (3) The guarantee provided by a tenderer with whom the procuring entity concludes a public procurement contract shall be transformed into a contract performance guarantee and shall be released upon the contract completion.
- (4) Upon the release of guarantees under paragraphs 1, 2 and 3, no interest for the period through which the resources have been lawfully held with the procuring entity is due.

CHAPTER FOUR OPEN PROCEDURE

Section I Invitation for Participation in Open Procedures

- Article 34**
- (1) In open procedures, invitations for participation shall contain:
 1. the name, address and telephone numbers of the procuring entity;
 2. the procuring entity's decision for initiation of a procedure;
 3. the place where tender documentation can be obtained, the time-limit, the price and the method of payment for the documentation for participation in the procedure;
 4. the place and time-limit for submission of tenders.
 - (2) The procuring entity shall send invitations for participation in open procedures simultaneously to the State Gazette and the Public Procurement Register at least 45 calendar days before the date specified for the open tendering.
 - (3) The time-limit under paragraph 2 may be reduced to 30 calendar days if the procuring entity has included the public procurement in its information for intended procurement for the year referred to in Article 10.
 - (4) The State Gazette shall publish the invitation for participation in the Public Procurement Bulletin not later than 5 calendar days after its receipt.
 - (5) After sending the invitation to the State Gazette, the procuring entity shall also publish it in one local or national daily newspaper. The date on which invitations have been to the State Gazette shall be indicated.
 - (6) If no or less than 3 tenders have been submitted within the time-limit specified under paragraph 2, the procuring entity shall have the right to extend the time-limit for submission of tenders by no more than 30 days.
 - (7) Any change to the time-limit for submission of tenders shall be published in accordance with paragraph 4 and communicated in writing to tenderers who have presented tenders.

Section II Preparation of Open Procedures

- Article 35**
- (1) The procuring entity shall prepare and conduct the open procedure.
 - (2) The procuring entity shall be responsible for accepting and keeping of tenders.
 - (3) The procuring entity shall keep the entire documentation related to each public procurement procedure for a period of 3 years after the completion of each contract performance.

- Article 36**
- (1) Tender documentation for participation in open procedures shall contain all data, instructions and requirements necessary for preparation of tenders.
 - (2) The tenderers shall obtain tender documentation under paragraph 1 at a price determined by the procuring entity.

- (3) Tender documentation for participation in open procedures shall contain:
 1. the decision for initiation of a procedure;
 2. a full description of the subject of public procurement;
 3. technical performance requirements. Such requirements shall not stipulate requirements or reference to undertakings, products, materials or services related to particular undertakings, patents, utility models, trademarks and designation of origin;
 4. plans and other documentation necessary for the preparation of tenders in the case of construction works;
 5. a standard tender form;
 6. a draft public procurement contract.
- (4) The procuring entity shall be solely responsible for the content of the tender documentation for participation in open public procurement procedures.

Section III Commission for Conducting Open Procedures

- Article 37**
- (1) For the purpose of conducting open public procurement procedures, the procuring entity shall appoint a special commission and shall designate its chairman.
 - (2) The commission shall consist of at least three members; of which one shall be a qualified lawyer and the others shall have relevant professional expertise and experience related to the type and characteristics of the public procurement.
 - (3) The procuring entity may also hire external experts from the list referred to in Article 55, paragraph 2 as commission members or consultants.
 - (4) The procuring entity shall appoint the commission upon expiry of the deadline specified for submission of tenders and shall announce it on the date set for opening and evaluation of tenders.
 - (5) The remuneration of commission members and all expenses related to commission's activity shall be borne by the procuring entity.

- Article 38**
- (1) Commission members or consultants shall not be:
 1. persons that have material interests in the contract performance;
 2. related persons within the meaning of the Commercial Law to a tenderer in the open procedure and to any of the sub-contractors proposed or to any member of their governing or supervisory bodies;
 3. persons that have participated in the preparation of the open procedure and/or in the planning where the subject of procurement is construction;
 4. persons that are members of the procuring entity's governing bodies.
 - (2) Commission members and consultants shall guarantee the confidentiality of any circumstances made known to them in relation to their work in the commission.
 - (3) Upon their appointment, commission members and consultants shall submit to the procuring entity declarations for the circumstances under paragraphs 1 and 2.

Section IV Examination, Evaluation and Ranking of Tenders

- Article 39**
- (1) The commission shall commence its work upon receipt of the list of tenderers and tenders submitted from the procuring entity.
 - (2) Tenderers may attend the tender opening session.

- (3) The commission shall open the envelopes in the sequence in which they have been received and shall assess tender compliance with the pre-announced terms and conditions.
- (4) The commission shall have the right to verify the facts and data provided by the tenderers at any time as well as to request that supplementary evidence of the circumstances stated in the tender be provided within a specified period.

- Article 40**
- (1) Any tenderer may be excluded from participation in the open procedure by the commission if:
 1. he failed to present any of the necessary documents referred to in Article 27, paragraph 1;
 2. he is not eligible for participation in a public procurement procedure due to the circumstances described in Article 24, paragraph 1;
 3. he has submitted a tender which are incomplete or otherwise not in compliance with the requirements laid down by the procuring entity.
 - (2) Throughout the open procedure, tenderers shall be obliged to inform the procuring entity of any changes in the circumstances under paragraph 1, point 2 within 7 days of their occurrence.

- Article 41**
- (1) After examining the tenders, the commission shall proceed with their evaluation according to pre-announced criteria.
 - (2) The criteria on which the procuring entity shall base its evaluation shall be either:
 1. the economically most advantageous tender; or
 2. the lowest price proposal.
 - (3) When evaluating a tender of a tenderer who meets the conditions laid down in Article 21, paragraph 3 of the Law on Protection, Rehabilitation and Social Integration of Disabled People, his price proposal shall be deemed to be the lowest one, provided that it does not exceed the lowest price offered by another tenderer by more than 10 per cent.
 - (4) In tender evaluation, under equal other conditions, tenderers that have attracted as sub-contractors small or medium-sized enterprises, registered in accordance with other relevant legislation, shall be treated with preference.

- Article 42**
- (1) If any of the tenders appear to be abnormally low the procuring entity shall request from the tenderer a detailed written justification before rejecting such tender. The commission shall determine a reasonable period for submission of the justification, which shall not be less than 3 working days after receipt of the request.
 - (2) The commission may not reject the tender where the justification points out objective factors related to:
 1. an original decision for organizing the public procurement performance;
 2. the technical solutions proposed;
 3. exceptionally favourable conditions available to the tenderer;
 4. efficiency in the procurement performance.
 - (3) If the tenderer fails to submit a written justification on time or if the commission makes an assessment that the justifications are not objective, the relevant tender shall be rejected.
 - (4) The tenderer shall be immediately informed about the commission's decision to accept the written justification or to reject the tender.

- Article 43**
- The commission shall rank three of the tenderers, whose tenders meet to the greatest extent the conditions announced by the procuring entity.

- Article 44**
- (1) The commission shall record the examination, evaluation and ranking of tenders in minutes, which shall contain:
 1. the members of the commission;
 2. the list of tenders admitted for examination and evaluation;
 3. the list of tenders rejected pursuant to Article 40 and Article 42, paragraph 3;
 4. the opinions of the consultants, if such have been involved in the commission's work;
 5. examination and evaluation results;
 6. the successful tenderers.
 - (2) If case of reservations made by any member of the commission, the minutes of dissent shall be accompanied by such member's written justification.
 - (3) The minutes shall be signed by all members and forwarded to the procuring entity together with the entire documentation gathered throughout the open procedure.
 - (4) The commission shall conclude its work by forwarding the minutes to the procuring entity.
 - (5) Upon request by any tenderer in the open procedure, the procuring entity shall be obliged to provide access to the commission's minutes.
- Article 45**
- (1) The procuring entity shall announce by a decision the top three rankings and shall award the contract to the tenderer ranked first not later than 3 working days after the completion of the commission's work.
 - (2) The decisions under paragraph 1, taken by procuring entities under Article 4, paragraphs 2 and 3 shall be individual administrative acts within the meaning of Article 2 of the Law on Administrative Procedures.
 - (3) The procuring entity shall communicate to the tenderers the results of evaluation proceedings in writing.
- Article 46**
- (1) The procuring entity shall conclude a public procurement contract with the successful tenderer.
 - (2) If the successful tenderer refuses to conclude the contract, the procuring entity shall offer it to the runner-up; and if the latter refuses to conclude the contract - to the tenderer ranked third.

CHAPTER FIVE RESTRICTED PROCEDURE

Section I Pre-Qualification of Suppliers

- Article 47**
- (1) In restricted procedures, the invitation for participation in pre-qualification shall contain:
 1. the name, address and telephone number of the procuring entity;
 2. the procuring entity's decision for initiation of a procedure;
 3. the place and time-limit for submission of application for participation;
 4. the pre-qualification criteria.
 - (2) In restricted procedures, the invitation for participation in pre-qualification shall be sent and published in accordance with the provisions of Article 34, paragraphs 4, 5 and 6 not later than 15 calendar days before the date specified for the pre-qualification.

- (3) Any change in the time-limit for submission of applications for participation shall be published in accordance with paragraph 2 and communicated in writing to suppliers who have already filed applications.

Article 48

- (1) The procuring entity shall conduct the pre-qualification with a view to inviting for participation in the restricted procedure only those suppliers who have the economic and technical capabilities of performing the public procurement.
- (2) All interested suppliers may apply for participation in the pre-qualification.
- (3) The application for participation shall contain:
 1. the document of legal registration of the supplier;
 2. evidence of supplier's commercial reputation;
 3. copies of the supplier's annual balance sheet and account for the financial year; this requirement shall not apply to newly registered suppliers and those who exercise a liberal profession;
 4. evidence of the supplier's technical capability of performing the public procurement;
 5. documents from the relevant competent authorities certifying that none of the circumstances referred to in Article 24, paragraph 1, points 1, 2, 3 and 5 apply;
 6. a declaration certifying that none of the circumstances referred to in Article 24, paragraph 1, points 4 and 6 apply.
- (4) Where a candidate for the pre-qualification is a consortium, which has not assumed a specific legal form, each legal or natural person who participates in the consortium shall furnish the documents referred to in paragraph 3.
- (5) The application shall be put in a sealed non-transparent envelope and delivered by the supplier or by its authorised representative by hand against acknowledgement of receipt, or shall be submitted by registered mail with proof of receipt.
- (6) The sequence, date and hour of receipt of applications shall be entered on the envelope and in in a special register. An acknowledgement of receipt shall be given to the bearer.
- (7) During the pre-qualification, the procuring entity may not request a tender to be submitted, nor may any supplier submit a tender.

Article 49

- (1) Pre-qualification of suppliers for the restricted procedure shall be carried out by the commission appointed by the procuring entity pursuant to provisions of Chapter Four, Section III.
- (2) The commission shall examine the applications for participation submitted and shall recommend that the procuring entity invite to the restricted procedure only those suppliers who fulfil to the greatest extent the pre-announced requirements. The selection shall be based on the supplier's financial and technical capability of performing the public procurement.
- (3) The procuring entity shall select the suppliers who will be invited to participate in the restricted public procurement procedure and shall send its decision to the Public Procurement Register within 7 working days.
- (4) The procuring entity shall send simultaneously to all selected suppliers written invitations for participation in the restricted procedure. The procuring entity's invitation shall contain the place where documentation can be obtained; the time-limit, the price and the method of payment for the documentation for participation in the restricted procedure.

- (5) Within 7 days of receipt of the invitation, each supplier shall confirm in writing its intention to take part in the restricted procedure. Failure to confirm shall be deemed as refusal to participate.

Section II Restricted Procedure

- Article 50**
- (1) The procuring entity shall conduct restricted public procurement procedure if at least three suppliers confirm their intention to tender. Otherwise, the procuring entity shall terminate the procedure and shall inform the suppliers thereof in writing.
 - (2) The deadline for submission of tenders shall not be less than 20 calendar days from the date of receipt of the invitation to tender.
 - (3) The time-limit in paragraph 2 shall be reduced to 10 calendar days where the procuring entity has included the public procurement in its information for intended procurement for the year referred to in Article 10 or in case where circumstances of extreme urgency arise.
 - (4) The tenders shall be evaluated by the pre-qualification commission in accordance with the provisions of Chapter Four, Section IV.

Article 51 For matters not dealt with in this Chapter, the relevant provisions regarding open procedures shall apply.

CHAPTER SIX NEGOTIATION PROCEDURE

- Article 52**
- (1) The direct negotiation procedure shall be initiated with an invitation from the procuring entity to a selected supplier or suppliers.
 - (2) The invitation shall contain the items specified in Article 34, paragraph 1.
 - (3) The procuring entity shall specify a time-limit for submission of tenders, which shall not be less than 15 calendar days.
 - (4) The procuring entity shall proceed in its own best interest in the negotiations.

Article 53 For matters not dealt with in this Chapter, the relevant provisions regarding open procedures shall apply.

CHAPTER SEVEN ORGANS

Section I Public Procurement Register

- Article 54** The Minister of State Administration shall:
1. issue a Regulation on Keeping the Public Procurement Register;
 2. provide methodological guidance on the application of this Law;
 3. organise training and qualification of experts in the field of public procurement;
 4. approve standard documents relating to the public procurement procedures;
 5. provide co-ordination among the procuring entities under Article 4, paragraph 1 relating to the application of this Law;
 6. notify the authorities competent for the control on the application of this Law;

7. represent the Republic of Bulgaria in international organisations in the field of public procurement.

- Article 55**
- (1) For the purpose of this Law, a specialized unit within the administration of the Council of Ministers shall assist the Minister of State Administration.
 - (2) The specialized unit under paragraph 1 shall maintain the Public Procurement Register, which shall contain:
 1. the decisions for initiation of procedures for awarding a public procurement contract;
 2. the invitations for participation in procedures for awarding public procurement contracts;
 3. information concerning the public procurement contracts concluded;
 4. the list of external experts who can be consulted by the procuring entities;
 5. the annual lists of the most successful commercial entities in the relevant field;
 6. information about practice in the application of this Law.
 - (3) The list referred to in paragraph 2, point 4 shall be drawn, maintained and updated with the assistance of the relevant professional associations and organisations.
 - (4) The annual rankings referred to in paragraph 2, point 5 shall be drawn by the relevant professional associations and organisations and sent to the Minister of State Administration.

Section II

Challenge Procedures and Control

- Article 56**
- (1) Tenderers participating in public procurement procedures under this Law may launch complaints against non-compliance with the requirements for their carrying out in accordance with the Law on Administrative Procedures.
 - (2) The complaint shall be filed with the procuring entity within 7 days of the date on which the decision referred to in Article 45, paragraph 1 has been taken.

- Article 57**
- (1) The control over the implementation of this Law shall be exercised by the Audit Office and the organs of the State Financial Control.
 - (2) The Minister of State Administration may request from the organs of the State Financial Control to exercise their powers under paragraph 1 in each particular case.

CHAPTER EIGHT

ADMINISTRATIVE AND PENAL PROVISIONS

- Article 58**
- (1) Statements of finding of any breach of this Law shall be drawn by the officials of the State Financial Control.
 - (2) In cases referred to in Article 57, paragraph 2 penal injunctions shall be issued by the Minister of Finance or the Minister of State Administration, or by officials authorised by them.
 - (3) The finding of breaches, the issue, appeal and execution of penal injunctions shall be undertaken in accordance with the provisions laid down in the Law on Administrative Infringements and Penalties.

- Article 59** For gross breaches of this Law, which do not constitute a crime, fines shall be imposed up to an amount not exceeding 0,5 per cent of the estimated contract value, but not less than 1 000 BGL.
- Article 60**
- (1) Any procuring entity, within the meaning of this Law, that fails to comply with the requirement to conduct the public procurement procedure shall be penalized by a fine amounting to 5 per cent of the relevant contract value, but not less than 5 000 BGL.
 - (2) The fine shall be imposed within 6 months from the date of finding of the breach but not later than 3 years of the breach being committed.
- Article 61** Any procuring entity that fails to implement the guidelines of the controlling authorities shall be fined from 200 to 1 000 BGL.
- Article 62**
- (1) Any official who fails to provide, within the time-limit specified, the evidence or information concerning the award or performance of a public procurement contract, as may be requested from him, shall be fined from 50 to 250 BGL.
 - (2) Any official who, without good reasons, fails to forward a complaint in time to the competent authority or the court, shall also be fined an amount as defined in paragraph 1.
- Article 63** The fines under in Articles 61 and 62 shall be imposed within 3 months from the finding of the failure to implement the obligation. If case or recurring breaches committed within the same year, the amount of the subsequent fine shall be doubled.

ADDITIONAL PROVISION

- §1. For the purpose of this Law:
1. “Engineering” shall mean the performance of construction works on a turn-key basis or of more than one of the following activities: feasibility study, planning and design, organisation of works, construction, supply and assembly of machinery, equipment and technological equipment, preparation for and placement of works into service.
 2. “Rehabilitation” shall mean a construction activity connected to the restoration, reconstruction, expansion or modernisation of parts of elements of roads, transport, telecommunications, power or water supply, sewers or hydromelioratic infrastructure.
 3. “Household waste disposal” shall mean the collection, temporary storage, treatment and landfill disposal of household waste, as well as activities related to the re-use and recycling of such waste, including the generation of energy and other products from waste.
 4. “Consolidated state budget” shall mean subsidies from the central state budget, financial resources from extra-budget funds or accounts, and remission of budget revenues to non-profit organisations.
 5. “Tenderer in a public procurement procedure” shall mean a Bulgarian or foreign natural or legal person, or a joint venture, who:
 - (a) has purchased tender documentation in order to participate in a public procurement procedure;
 - (b) meets the procuring entity’s pre-announced qualification requirements;
 - (c) submits a tender for participation in an announced procedure.
 6. “Public procurement procedure” shall mean all actions of the procuring entity which lead to the conclusion of contract between a procuring entity and contractor.

7. “Consortium” shall mean the consolidation of two or more Bulgarian or foreign natural or legal persons, without a specific legal form, with the aim to participating in a public procurement procedure.
8. “Related undertaking” shall mean any undertaking, over whose management or activities the procuring entity may exercise direct or indirect control.
9. “The economically most advantageous tender” shall mean the tender which meets to the greatest extent the procuring entity’s criteria as regards quality, technical characteristics, aesthetic and functional features, technical support or warranty service, term of performance, price and method of payment.
10. “Price proposal” shall mean the price proposed by a tenderer for performance of a contract.
11. “Tender documentation” shall mean a set of documents prepared by the procuring entity in accordance with its requirements relating to the public procurement.
12. “Evidence of commercial reputation” shall mean any references from former procuring entities if the tenderer has participated in other public procurement procedures, or references from permanent partners.
13. “Evidence of tenderer’s technical capabilities” shall be provided in any of the following forms depending on the type, nature, size, and purpose of the public procurement:
 - (a) general and special educational qualifications of the tenderer and/or those of the tenderer’s management, and in particular, those of the person or persons immediately responsible for contract performance;
 - (b) a list of the main procurements delivered during the last year, including prices, time-limits and names of purchasers;
 - (c) a reference list of the machines, equipment and other technical facilities available to the tenderer for the purposes of contract performance.
14. “Tender” shall mean a detailed description of the proposed organisation, manner and time-limit for contract performance.
15. There is “no competition” where prices proposed and other payment terms and conditions are the same in all tenders.

TRANSITIONAL AND FINAL PROVISIONS

- §2. This Law hereby repeals:
1. The Law on Government and Municipal Procurement (SG, No. 9/1997).
 2. Article 38 of the Law on Restriction of Harmful Waste Impact on the Environment (SG No. 86/1997).
 3. Article 70, paragraphs 4, 5 and 7 of the Law on Municipal Property (SG No. 44/1996, as amended).
- §3. Article 7 of the State Gazette Law (SG No 89/1995, as amended) is hereby amended as follows:
1. The following paragraph 2 is inserted:

“(2) *In the unofficial part a Public Procurement Bulletin shall be created, where the following shall be published:*

 1. *procuring entities’ information concerning planned public procurement for the current year under Article 10 of the Public Procurement Law;*
 2. *invitations for participation in public procurement procedures;*
 3. *lists of external experts who can be consulted by the procuring entities.*
 2. The existing paragraphs 2 and 3 are hereby renumbered as paragraphs 3 and 4 respectively.
- §4. In §3a of the Transitional and Final Provisions of the Law on Concessions (SG No. 92/1995, as amended) the words “Law on Government and Municipal Procurement” are hereby replaced with the words “Public Procurement Law”.

- §5. In §17 of the Transitional and Final Provisions of the Law on Transformation and Privatisation of State-Owned and Municipal Enterprises (SG No. 38/1992, as amended) the words “Law on Government and Municipal Procurement” are hereby replaced with the words “Public Procurement Law”.
- §6. (1) The provisions of the Law on Government and Municipal Procurement, hereby repealed, shall continue to apply to such government or municipal procurement contracts as may be pending or for which a contract award decision has been taken before the entry into force of this Law.
- (2) Where a decision for initiation of a procurement procedure has been taken under Article 38 of the Law on Restriction of Harmful Waste Impact on the Environment or under Article 70, paragraphs 4, 5 and 7 of the Law on Municipal Property before the entry into force of this Law, the procedures so initiated shall be completed under the former provisions.
- §7. The Council of Ministers shall be entrusted with the implementation of this Law.

This Law was adopted by the 38th National Assembly on 9 June 1999 and the official seal of the National Assembly was affixed thereto.

Chairman of the National Assembly

**REPUBLIC OF BULGARIA
MINISTER OF STATE ADMINISTRATION**

REGULATION ON KEEPING THE PUBLIC PROCUREMENT REGISTER
(published in State Gazette No. 89 of 31 October 2000; in force as of 1 November 2000)

**CHAPTER ONE
GENERAL PROVISIONS**

- Article 1** This Regulation shall set out the conditions and rules for keeping, maintenance and use of the Public Procurement Register, hereinafter referred to as “the Register”.
- Article 2**
- (1) Information on the awarding of public procurement shall be gathered and kept in the Register.
 - (2) The information referred to in paragraph 1 above shall be provided by the procuring entities defined in Article 4 of the Public Procurement Law to the Public Procurement Directorate set up within the administration of the Council of Ministers.
- Article 3**
- (1) The circumstances under Article 55 paragraph 2 of the Public Procurement Law and amendments hereto shall be subject to inscription in the Register.
 - (2) Inscriptions in the Register aim at providing publicity of the information on public procurement awarding.
- Article 4**
- (1) The Register shall be a unified electronic database kept by the Public Procurement Directorate at the Council of Ministers.
 - (2) The Information Technologies and Communications Directorate at the Council of Ministers shall provide the technical and programming support of the electronic database.
- Article 5**
- (1) The information in the Register shall be maintained and kept on magnetic media.
 - (2) Paper copies of the information provided by the procuring entities shall be kept in the archives of the Council of Ministers.
- Article 6** The Register shall be public.

**CHAPTER TWO
KEEPING THE REGISTER**

- Article 7** Inscriptions in the Register shall be made by officials of the Public Procurement Directorate on the basis of the documentation provided by procuring entities.
- Article 8**
- (1) For each procuring entity a batch with a unique identification number shall be opened in the Register and all subsequent inscriptions shall be made thereunder.
 - (2) The unique identification number shall consist of four digits; the first digit shall determine the type of procuring entity and the other three shall represent the serial number of the registration.

- (3) The first digit of the unique identification number shall be as follows:
 1. for central government authorities - 1;
 2. for regional government authorities - 2;
 3. for mayors of municipalities - 3;
 4. for higher schools - 4;
 5. for health insurance funds - 5;
 6. for pension funds - 6;
 7. for other authorities and organizations disposing of funds from the consolidated state budget - 7;
 8. for non-profit legal entities established by one or several state authorities and/or local government authorities - 8;
 9. for public undertakings referred to in Article 4 paragraph 3 of the Public Procurement Law - 9 and 0.
- (4) Upon the opening of a batch, its number shall be announced to the procuring entity concerned.

Article 9 Each public procurement shall be entered in the Register under a unique number, which consists of three parts as follows:

1. the first part - the batch number of the procuring entity;
2. the second part - the year in which the decision for initiating a public procurement procedure has been taken;
3. the third part - a three-digit number, representing the official serial registration number of the public procurement for the procuring entity for the year, to be given automatically by the electronic database.

Article 10

- (1) Subsequent inscriptions of new circumstances related to the batch of the procuring entity or the public procurement shall not affect the information from previous inscriptions.
- (2) In case of deletion of a circumstance inscribed, this deletion shall be noted in the relevant field.
- (3) The officials shall correct errors made throughout registration and the correct text shall be inscribed in the relevant field of the Register with a mark “technical error”.

Article 11

- (1) The electronic database shall be maintained in a way which guarantees the protection of information in the system against damage, illegal amendment and use.
- (2) The protection of information shall be provided through its periodic operative archivation.

Article 12

- (1) For each procuring entity a file shall be opened at the archives of the Council of Ministers, in which all documents related to public procurement award shall be arranged in the sequence of their receipt.
- (2) Each file shall bear its own number coinciding with the batch number of the procuring entity in the electronic database.

CHAPTER THREE
CONTENT, STRUCTURE AND GATHERING
OF INFORMATION IN THE REGISTER

Section I

Information on Procedures and on Public Procurement Contracts

- Article 13**
- (1) The procuring entities shall send to the Public Procurement Directorate for inscription in the Register copies of the following documents:
 1. the decision for initiation of a public procurement procedure;
 2. the invitation for participation in an open or a negotiation procedure;
 3. the invitation for participation in the pre-qualification - in case of restricted procedures;
 4. the decision referred to in Article 49 paragraph 3 of the Public Procurement Law.
 - (2) The procuring entities shall also send copies of decisions for any amendments to tender conditions as well as decisions for termination of the public procurement procedure.
 - (3) The procuring entities shall state their batch number and the year in which the procedure has been commenced in the cover letter with which the information is sent to the Register.
 - (4) The procuring entities shall be responsible for the information provided.
- Article 14**
- After the conclusion of a procedure, the procuring entities shall send to the Public Procurement Directorate information for the number of tenders submitted and admitted for examination and evaluation and for the tenders rejected pursuant to Article 40 and Article 42 paragraph 3 of the Public Procurement Law, according to the attachment.
- Article 15**
- (1) After the award of a public procurement contract or contracts, the procuring entities shall send to the Public Procurement Directorate the following information on the public procurement contract:
 1. the number of contract and date of award;
 2. the name of the contractor;
 3. the code under BULSTAT for commercial entities and the personal identification number for natural persons;
 4. the subject matter of the contract;
 5. the time-limit for delivery;
 6. the total value of the contract without VAT;
 7. the value of the part of a contract to be performed by sub-contractors, if any;
 8. the terms of payment.
 - (2) When the value of a contract is expressed in a foreign currency, the information referred to in paragraph 1 (6) shall contain the type of the currency and its equivalent in Bulgarian Leva (BGL) on the exchange rate of the Bulgaria National Bank on the date of award.
 - (3) When the value of recurring contracts can not be determined on the date of award, the procuring entity shall send information about the contract performance on a 6-months basis.
 - (4) In case of any amendments to the contract terms or of contract termination, the procuring entities shall send information on the relevant circumstances.

- Article 16** The procuring entities shall send on a quarterly basis information on small public procurement contracts awarded pursuant to Article 30 paragraph 2 of the Regulation on Awarding of Public Procurement Contracts below the thresholds set out in Article 7 paragraph 1 of the Public Procurement Law, adopted by Regulation № 59 of the Council of Ministers of 2000 (SG № 36/2000).
- Article 17**
- (1) The information referred to in Articles 12 to 15 shall be provided within the period set out in the Public Procurement Law and in cases where such periods are not stated - within 7 days of its preparation.
 - (2) The information shall be sent on paper and, where available, in electronic form, in a format to be determined by the directors of the Public Procurement Directorate and the Information Technologies and Communications Directorate.
 - (3) The time-period for inscription of the information in the Register shall be not more than 10 days from its receipt.
 - (4) In case of incomplete information or evident breaches of the Public Procurement Law, the information shall be inscribed in the Register with a note of the relevant circumstances.
- Article 18** In case of finding by the Public Procurement Directorate of breaches of the Public Procurement Law, the Director shall propose to the Minister of State Administration to notify the relevant competent authorities in order to impose administrative penal measures in accordance with the Public Procurement Law.
- Article 19** The Minister of State Administration may request additional information on the award of public procurement contracts, which the procuring entities shall be obliged to provide.
- Article 20**
- (1) For each procedure for awarding of a public procurement contract, the following information from the documentation provided by the procuring entities shall be inscribed in the Register:
 1. Identification information for the procuring entity:
 - (a) the name;
 - (b) the address for correspondence, including e-mail address;
 - (c) the code under BULSTAT;
 - (d) the type of procuring entity as defined in Article 4 of the Public Procurement Law.
 2. Information on the procedure for awarding of public procurement contracts:
 - (a) the number and date of the decision for initiating of the award procedure;
 - (b) the type of award procedure;
 - (c) the subject of public procurement;
 - (d) the legal and actual grounds for initiating the procedure;
 - (e) the time-limit and place for delivery;
 - (f) restrictions for contract performance, if any;
 - (g) qualification requirements to tenderers;
 - (h) quality requirements;
 - (i) the terms concerning price formation and payment;
 - (j) the period of tender validity;
 - (k) the type and value of tender guarantee;
 - (l) additional requirements in accordance with Article 22 paragraph 2 of the Public Procurement Law;

- (m) the criteria for selection of tenderers - only in case of restricted procedure;
 - (n) the criteria for evaluation of tenders and the method of determining their weight in the complex evaluation;
 - (o) the place, date and time for examination and evaluation of tenders;
 - (p) the place and time-limit for receiving tender documentation;
 - (q) the method of payment and price of tender documentation;
 - (r) the place and time-limit for submission of applications for participation – only in case of restricted procedure;
 - (s) the place and time-limit for submission of tenders;
 - (t) the possibility to award additional deliveries in accordance with Article 16 paragraphs 3 and 4 of the Public Procurement Law;
 - (u) the name and legal status of invited suppliers, in case of restricted procedure - the date and number of the decision referred to in Article 49 paragraph 3 of the Public Procurement Law.
- 3. The issue number and date of the State Gazette where the invitation for participation has been published.
 - 4. The information referred to in Article 14.
 - 5. The information on awarded contract or contracts referred to in Article 15.
 - (2) Where the subject of public procurement is divided into separate positions, they shall be inscribed in the Register separately.
 - (3) When tender conditions are different for one or more of the separate positions of the public procurement, they shall be registered in relation to the relevant position.
 - (4) The information referred to in paragraph 1 (3) shall be registered officially after publication of an invitation in the Public Procurement Bulletin of the State Gazette.
 - (5) All amendments to the circumstances referred to in paragraph 1 and the rationale for them shall be inscribed in the Register, without deleting the previous information.

Article 21 The information on public procurement for each budgetary year shall be archived after a 5-year period from the year of registration has elapsed.

Section II Other Information

Article 22 (1) The Register shall also contain a list of external experts who may consult the procuring entities. The list of external experts shall be drawn by associations and shall contain:

- 1. the name;
- 2. the profession or sphere of competence;
- 3. the address for correspondence, telephone, fax, e-mail address.

(2) Annually by 15 December professional associations and organizations may present lists of external experts to be included in the list referred to in paragraph 1.

(3) The experts included in the list referred to in paragraph 1 shall be experienced professionals in the relevant field.

(4) The Director of the Public Procurement Directorate shall coordinate the drawing and updating of the list of external experts who may consult the procuring entities throughout the public procurement procedures.

- (5) The Minister of State Administration shall send the list of external experts who may consult the procuring entities for publication in the Public Procurement Bulletin of the State Gazette.

- Article 23**
- (1) The Register shall also contain annual rankings of the most successful commercial entities in the relevant field drawn by professional associations and organizations.
- (2) Annually by 15 December professional associations and organizations may present to the Minister of State Administration lists of the most successful commercial entities in the relevant field, together with the criteria used.

- Article 24**
- (1) The Register shall also contain information on the practice of implementation of the Public Procurement Law which includes:
1. guidelines for implementation of the Public Procurement Law;
 2. standard tender documents;
 3. cases related to public procurement awarding and performance;
 4. court practice.
- (2) Upon proposal by the Director of the Public Procurement Directorate, the Minister of State Administration shall determine the information under paragraph 1 (3) and (4) to be included in the Register.

- Article 25** The Register shall also contain auxiliary information on its use and on the opportunities it provides to the customers.

CHAPTER FOUR ACCESS TO AND USE OF THE REGISTER

- Article 26** The access to the Register's information shall be free and provided through the Internet website of the Council of Ministers.

- Article 27**
- (1) The Register shall provide an opportunity for the customers to search for information and enquiries using the following parameters:
1. the name and type of procuring entity;
 2. the type of procedure;
 3. the subject of public procurement contract;
 4. the stage of the public procurement process;
 5. the time-limit for receipt and examination of tenders, respectively the time-limit for submission of applications to participate in a restricted procedure;
 6. the issue number and date of the State Gazette.
- (2) The Minister of State Administration shall determine the rules and conditions for other services.

TRANSITIONAL AND FINAL PROVISIONS

- §1. (1) The Regulation shall enter into force on 1 November 2000.
- (2) A text version of the Register which might not contain all the elements as set out in the Regulation shall be published initially on the Internet website of the Council of Ministers.
- §2. (1) The Register shall be brought into compliance with the requirements set out in this Regulation by 1 January 2001.

- (2) The information on public procurement from the date of entry into force of the Public Procurement Law to 31 December 2000 shall be brought into compliance with the requirements of this Regulation by 30 June 2001.
- §3. This Regulation is adopted pursuant to Article 54 paragraph 1 of the Public Procurement Law.

**REPUBLIC OF BULGARIA
COUNCIL OF MINISTERS**

**REGULATION ON AWARDING OF PUBLIC PROCUREMENT CONTRACTS
BELOW THE THRESHOLDS SET OUT IN ARTICLE 7 PARAGRAPH 1
OF THE PUBLIC PROCUREMENT LAW**

(published in State Gazette No 36 of 2 May 2000, in force as of 5 May 2000)

**CHAPTER ONE
GENERAL PROVISIONS**

- Article 1** This Regulation shall specify the conditions and rules for awarding of public procurement contracts below the thresholds set out in Article 7 paragraph 1 of the Public Procurement Law hereinafter referred to as “small public procurement”.
- Article 2** For the purpose of this Regulation, small public procurement contract shall mean a public procurement the estimated value of which, on the date of announcing the procedure for awarding of a public procurement contract, without VAT, is below the thresholds set out in Article 7 paragraph 1 of the Public Procurement Law.
- Article 3**
- (1) Small public procurement contracts are public procurement contracts with pecuniary interests, concluded in writing, in accordance with the procedures laid down in this Regulation, between a procuring entity and a selected contractor as defined in Article 3 paragraph 1 of the Public Procurement Law.
 - (2) When the estimated value of a small public procurement contract is below 10 000 BGL, the procuring entity may choose not to apply the award procedure and not to conclude a contract in writing; in such a case a proof for the transaction shall be the primary payment documents.
- Article 4**
- (1) The estimated value of a small public procurement contract shall be calculated in accordance with the provisions of Article 7 and 8 of the Public Procurement Law.
 - (2) The estimated value of a design contract shall include all expenses for the design preparation.
 - (3) The estimated value of a complex small public procurement contract shall include the value of all separate positions.

**CHAPTER TWO
TYPES OF PROCEDURES**

- Article 5**
- (1) Small public procurement contracts shall be awarded in accordance with the principles set out in Article 9 of the Public Procurement Law through the following procedures: open tender, restricted tender, design contest and negotiation procedure.
 - (2) In open tenders, the procuring entities shall invite unlimited number of suppliers to submit a tender.

- (3) In restricted tenders, the procuring entities shall invite at least five suppliers and shall conduct the tender if at least two of the invited suppliers submit applications for participation.
- (4) In design contests, the procuring entities shall invite unlimited number of suppliers to design a project in accordance with pre-announced conditions of the contest programme.
- (5) In negotiation procedures, the procuring entities shall award a public procurement contract after negotiations with one or several selected suppliers.

Article 6 The procuring entity shall take a decision to initiate an open tender where the estimated contract value, without VAT, on the date of announcing the procedure is within the following limits:

1. for construction works - above 100 000 BGL up to 600 000 BGL;
2. for supplies - above 20 000 BGL up to 50 000 BGL;
3. for services – above 15 000 BGL up to 30 000 BGL.

Article 7 (1) The procuring entity shall take a decision to initiate a restricted tender where the estimated contract value, without VAT, on the date of announcing the procedure is within the following limits:

1. for construction works – above 30 000 BGL up to 100 000 BGL;
 2. for supplies - above 10 000 BGL up to 20 000 BGL;
 3. for services - above 10 000 BGL up to 15 000 BGL.
- (2) The procuring entity may also take a decision for initiation of a restricted tender if the open tender initiated has been cancelled or terminated without signing of a contract.

Article 8 (1) The procuring entity shall take decision to initiate a negotiation procedure when:

1. the estimated value of a contract, without VAT, on the date of announcing the procedure, is within the following limits:
 1. for construction works - below 30 000 BGL;
 2. for supplies - below 10 000 BGL;
 3. for services - below 10 000 BGL.
 2. the circumstances referred to in Article 16 of the Public Procurement Law apply;
 3. the subject of public procurement is a guarantee service or post-guarantee service of machines, installations and complex equipment;
 4. the subject of procurement is purchasing of spare parts of procured machines, installations and complex equipment;
 5. the open or restricted tender has been cancelled or terminated without signing of a contract.
- (2) Tenderers that have been ranked in the open or restricted tender and have refused to sign a contract shall not participate in the negotiation procedure.
- (3) In cases referred to in paragraph 1 (5) the procuring entity shall not sign a contract at higher price and/or under less favorable conditions than those announced for the terminated procedures.

Article 9 Where the estimated value of a small supply public procurement contract is below 10 000 BGL, the procurement can be made through purchase from the trade network on the basis of three price offers.

CHAPTER THREE
INITIATION OF PROCEDURE FOR AWARDING OF SMALL
PUBLIC PROCUREMENT CONTRACTS

- Article 10** Each procedure for awarding of a small public procurement contract shall initiate with a decision of the procuring entity, except in cases referred to in Article 9.
- Article 11**
- (1) The decision to initiate a procedure for awarding of a small public procurement contract shall contain the information referred to in Article 22 of the Public Procurement Law.
 - (2) The decision to initiate a procedure for awarding of a small public procurement contract shall contain provisions to ensure and encourage participation of small and medium-sized enterprises.
 - (3) The decision to initiate a procedure for awarding of complex small public procurement contracts, the procurement of which is subdivided into smaller parts, shall contain the option that suppliers may submit either an overall tender or tenders for one or more parts of the procurement.
- Article 12** The decision to initiate a restricted tender shall indicate all suppliers invited by the procuring entity to participate.
- Article 13** The decision to initiate a design contest shall include the type, number and amount of prizes that may be awarded by the evaluation commission to tenderers.
- Article 14** The decision to initiate a negotiation procedure shall name the supplier or suppliers, which the procuring entity invites to negotiations.
- Article 15** After taking a decision to initiate a procedure for awarding of a small public procurement contract, the procuring entity shall send an invitation for participation, which contains at least the following information:
1. the name, address and telephone of the procuring entity;
 2. the type and subject of public procurement;
 3. the place and time-limit for receipt of tender documentation; the price and the method of payment for the documentation;
 4. the place and time-limit for submission of tenders.
- Article 16**
- (1) For participation in a procedure for awarding of a small public procurement contract, except for the procedure referred to in Article 5 (4), the supplier shall submit a tender guarantee in one of the following forms:
 1. bank guarantee;
 2. cash.
 - (2) The procuring entity shall determine the value of a tender guarantee, not exceeding 1 per cent of the estimated contract value.
 - (3) The tender and performance guarantee shall be retained or released in accordance with the provisions of Articles 32 and 33 of the Public Procurement Law.
 - (4) When the procuring entity determines a value of the performance guarantee higher than the tender guarantee value, the contractor shall submit an additional guarantee whose value shall be equivalent to the difference between the tender guarantee paid and the determined performance guarantee.

- Article 17**
- (1) The preparation and conducting of a small public procurement contract award procedure shall be ensured by the procuring entity.
 - (2) The procuring entity shall keep all the documentation related to the conducting of a small public procurement contract award procedure for 3 years after the expiry of contract performance.

- Article 18**
- (1) Tender documentation shall contain all the information and requirements necessary for the preparation of tenders as well as the conditions and rules for conducting of a small public procurement contract award procedure.
 - (2) Suppliers shall obtain tender documentation and their price, to be determined by the procuring entity, shall not exceed their actual cost. The procuring entity may decide to provide to the suppliers tender documentation free of charge.
 - (3) Tender documentation shall include:
 1. the decision for initiation of a procedure;
 2. the invitation for participation to tender;
 3. a full description of the subject of public procurement;
 4. technical performance requirements;
 5. a standard tender form;
 6. a draft public procurement contract;
 7. the necessary plans for preparation of tender in case of public procurement contracts for works.
 - (4) In design contests, tender conditions referred to in paragraphs from 3, point 3 to 3, point 5 shall be stated in the contest programme. Criteria for evaluation of design work shall include architectural, creative and technical criteria as well as an estimated value of the construction.
 - (5) In design contests, the procuring entity may appoint as external experts only experienced and highly qualified professionals included in the list of external experts referred to in Article 55 paragraph 2 (4) of the Public Procurement Law, with the aim of preparing tender documentation.
 - (6) Tender documentation shall not stipulate requirements or reference to undertakings, products, materials or services related to particular undertakings, patents, utility models, trademarks, geographical indications, topology of integrated circuits nor establish any other technical restrictions for participation to tender.
 - (7) The procuring entity shall be solely responsible for the scope and content of tender documentation necessary for the tender preparation.

CHAPTER FOUR

REQUIREMENTS TO TENDERERS

- Article 19**
- (1) The following tenderers shall be eligible for participation in small public procurement contracts award procedures:
 1. Bulgarian or foreign natural or legal persons, including their associations;
 2. scientific organizations and institutions.
 - (2) In the decision for initiation of a procedure, the procuring entity may stipulate a requirement for the successful tenderer to be a commercial entity within the meaning of the Commercial Law except where the contractor exercises a liberal profession.

- Article 20**
- (1) Tenderers shall meet the requirements referred to in Articles 23 and 24 paragraphs 1 and 2 of the Public Procurement Law.

- (2) The circumstances referred to in Article 24 paragraph 1 of the Public Procurement Law can be certified by a tenderer with a declaration when for acceptable reasons he can not present the necessary documents within the specified time-limit.

CHAPTER FIVE TENDER

Article 21 When preparing the tender, each tenderer shall meet the conditions announced in advance by the procuring entity.

- Article 22**
- (1) Tenderers shall prepare tenders in accordance with the provisions of Articles 25-29 of the Public Procurement Law.
 - (2) In cases referred to in Article 11 paragraph 3 a tender may cover all or only several parts of procurement.

Article 23 Tenders shall be submitted by tenderers and shall be kept by the procuring entity in accordance with the provisions of the Public Procurement Law.

CHAPTER SIX EVALUATION AND RANKING OF TENDERS

- Article 24**
- (1) For conducting of a small public procurement contract award procedure, the procuring entity shall establish an evaluation commission and appoint its chairman.
 - (2) For conducting of a negotiation procedure for awarding of a small public procurement contract in accordance with Article 3 paragraph 2, the procuring entity may authorize its representative to perform the procurement on the basis of three price proposals.

- Article 25**
- (1) The evaluation commission shall consist of at least three members, of which one shall be a lawyer, and the other experts shall have the relevant professional expertise and experience related to the type and characteristics of the public procurement.
 - (2) The procuring entity shall appoint the commission upon expiry of the deadline specified for submission of tenders and shall announce it on the day set for opening, examination and evaluation of tenders.
 - (3) In case of design contests, the commission may include an entity from the list of external experts referred to in Article 55 paragraph 2 (4), proposed by a relevant professional association.
 - (4) Remuneration of commission members and all expenditures related to commission's activity shall be borne by the procuring entity.

Article 26 Commission members and experts shall meet the requirements provided for in Article 38 of the Public Procurement Law.

- Article 27**
- (1) The commission shall examine, evaluate and rank submitted tenders in accordance with the rules laid down in Articles 39-44 of the Public Procurement Law.
 - (2) In design contests, the evaluation commission shall be an independent body. The commission shall take its decisions on the basis of anonymously

submitted designs and in accordance with the criteria and their pre-determined weight in the complex evaluation of tenders.

- (3) The anonymity of designs referred to in paragraph 2 shall be ensured by the procuring entity upon receipt of tenders and under the conditions of the contest programme.

CHAPTER SEVEN

AWARDING OF SMALL PUBLIC PROCUREMENT CONTRACTS

- Article 28**
- (1) The procuring entity shall announce by a decision the first two or three top ranked tenderers and the successful tenderer not later than 3 working days after the completion of the evaluation commission's work.
 - (2) The decisions under paragraph 1 above taken by the procuring entity as defined in Article 4 (2) and (3) of the Public Procurement Law shall be individual administrative acts within the meaning of Article 2 of the Law on Administrative Procedures.
 - (3) The procuring entity shall communicate to the tenderers the tender evaluation results to in writing.

Article 29 The procuring entity shall award small public procurement contracts in accordance with the conditions and rules of this Regulation and the provisions of Articles 17-20 and Article 46 of the Public Procurement Law.

- Article 30**
- (1) The provisions of the Commercial Law and/or the Law on Obligations and Contracts shall apply to the performance of small public procurement contracts unless otherwise provided for in the Public Procurement Law.
 - (2) At the end of each quarter the procuring entity shall send information for all small public procurement contracts concluded to the Public Procurement Register according to the attachment to the Regulation, except in cases where the estimated value of small public procurement contract is below 10 000 BGL.

CHAPTER EIGHT

OPEN TENDER

- Article 31**
- (1) An open tender shall commence with an invitation for participation to unlimited number of suppliers.
 - (2) The invitation shall be sent simultaneously to the State Gazette and the Agency for Small and Medium-Size Enterprises at least 15 days before the final date for tender submission.
 - (3) The State Gazette shall publish the invitation in the Public Procurement Bulletin at the latest 5 days after its receipt.
 - (4) The procuring entity may send the invitation for publication in other media.

- Article 32**
- (1) When, within the time-limit specified for submission of tenders, less than two tenders have been submitted, the procuring entity may extend the time-limit or proceed to a restricted tender or a negotiation procedure.
 - (2) Any change in the time-limit for submission of tenders shall be announced in accordance with Article 31 paragraph 2 and communicated in writing to suppliers who have already submitted tenders.

Article 33 The procuring entity shall conduct an open tender for awarding of a small public procurement contract if at least two tenders have been submitted.

CHAPTER NINE RESTRICTED TENDER

- Article 34**
- (1) A restricted tender shall commence by an invitation for participation that is sent simultaneously to at least five suppliers.
 - (2) The invitation for participation in a restricted tender shall be sent simultaneously to the Agency for Small and Medium-Sized Enterprises.
 - (3) The procuring entity may announce an invitation for participation to tender by means of other media.

- Article 35**
- (1) The time-limit for submission of tenders shall be specified by the procuring entity, but shall in no case be less than 10 calendar days after invitations have been sent.
 - (2) The procuring entity may extend the initially specified time-limit for submission of tenders and shall notify in writing all the tenderers in accordance with Article 34 paragraph 2.
 - (3) Tenderers not invited by the procuring entity may also submit tenders for participation in a restricted tender.
 - (4) The procuring entity shall not refuse to accept and consider all tenders submitted in accordance with paragraph 3.
 - (5) The procuring entity shall conduct a restricted tender if at least two tenderers have submitted tenders.

CHAPTER TEN DESIGN CONTEST

- Article 36**
- (1) A design contest shall commence with an invitation to unlimited number of tenderers.
 - (2) The invitation shall be sent simultaneously to the State Gazette and relevant professional associations, at least 30 days before the final date for submission of designs.
 - (3) The State Gazette shall publish the invitation for participation in the Public Procurement Bulletin not later than 5 calendar days after its receipt.
 - (4) The procuring entity may also announce the invitation through other media, as well as to publish it in a specialized newspaper or magazine.
 - (5) When in the time-limit for submission of designs less than two designs have been submitted, the procuring entity may extend the time-limit or proceed to a negotiation procedure.

- Article 37** For matters not dealt with in this Chapter, the relevant provisions regarding open tendering shall apply.

CHAPTER ELEVEN NEGOTIATION PROCEDURE

- Article 38**
- (1) A negotiation procedure shall commence with an invitation sent to one or more suppliers, selected by the procuring entity.
 - (2) The invitation shall be sent simultaneously to the Agency for Small and Medium-Sized Enterprises and a supplier or suppliers selected by the procuring entity.

- Article 39**
- (1) The procuring entity shall specify the time-limit for submission of tenders, which shall not be less than 5 calendar days from the date on which the invitation has been sent.
 - (2) Tenderers not invited by the procuring entity may also submit tenders for participation in a negotiation procedure.
 - (3) The procuring entity may not refuse to accept and consider all tenders submitted in accordance with the provisions referred to in paragraph 2.

CHAPTER TWELVE TERMINATION OF THE PROCEDURE

- Article 40**
- (1) The procuring entity shall terminate the procedure for awarding of a small public contract in cases when:
 1. less than two tenders have been submitted in the open and restricted tendering;
 2. all tenders do not meet the pre-announced tender conditions;
 3. the tenderers ranked up to the second or third place have refused to conclude a contract;
 4. the rationale for the application of a procedure is no longer valid as a result of substantial change in circumstances, including upon impossibility to provide financing for performance of the contract due to unforeseen reasons.
 - (2) The procuring entity shall not be obliged to state the circumstances referred to in paragraph 1 (4) in the tender conditions.

CHAPTER THIRTEEN CHALLENGE PROCEDURES AND CONTROL

- Article 41**
- (1) Tenderers participating in small public procurement contract award procedures under this Regulation may launch a complaint against non-compliance with the requirements for their carrying out in accordance with the provisions laid down in the Law on Administrative Procedures.
 - (2) The decisions for awarding of small public procurement contracts, where the estimated value does not exceed 10 000 BGL, shall not be subject to appeal.
 - (3) Appeals shall be filed with the procuring entity within 7 days after the decision on the award of the contract has been announced.

- Article 42**
- The control over the implementation of this Regulation shall be exercised by the Audit Office and the organs of the State Financial Control. The appeal and control over the procedures for awarding of small public procurement contracts shall be carried out in accordance with Articles 56 and 57 of the Public Procurement Law.

CHAPTER FOURTEEN ADMINISTRATIVE PENAL PROVISIONS

- Article 43**
- For breaches of the provisions of this Regulation, the guilty entities/persons shall be punished in accordance with Article 32 of the Law on Administrative Infringements and Penalties, unless a harsher punishment is envisaged in the Public Procurement Law.

- Article 44**
- (1) Statement of findings of any breach under this Regulation shall be drawn by the officials of the State Financial Control.
 - (2) Penal injunctions shall be issued by the Minister of Finance and the Minister of State Administration or officials authorised by them.

- (3) The finding of breaches, the issue, appeal and execution of penal injunctions shall be undertaken in accordance with the provisions laid down in the Law on Administrative Infringements and Penalties.

ADDITIONAL PROVISIONS

- §1. For the purpose of this Regulation:
 - (1) “Small and medium-sized enterprises” shall mean enterprises registered in accordance with Article 9 of the Law on Small and Medium-Sized Enterprises.
 - (2) “Parts of public procurement” stated in tender shall be subject to separate public procurement contracts within the meaning of Article 3 paragraph 1 of the Public Procurement Law.

TRANSITIONAL AND FINAL PROVISIONS

- §2. The Regulation shall be adopted in accordance with Article 7 paragraph 4 of the Public Procurement Law.
- §3. The Minister of State Administration shall provide guidance on the application of the Regulation.

NOTIFICATION OF NATIONAL IMPLEMENTING LEGISLATION

Communication from Latvia

Addendum

The following communication has been received from the Permanent Mission of the Republic of Latvia with the request that it be circulated to the Committee on Government Procurement.

With reference to the process of the accession of Latvia to the Agreement on Government Procurement, the following Latvian legislation in the field of government procurement is being circulated to the Parties to the Agreement*:

- the Law on Construction Work, Supply, Leasing and Services for the Needs of Public Service Undertakings of 4 November 1999; and
- the Regulations of the Cabinet of Ministers No. 376 of 31 October 2000 "The Procedure of Selection of Tenderers and Application of Methods for Choice of Tenders".

* In English only.

The *Saeima*¹ has adopted and the President has proclaimed the following Law:

LAW ON CONSTRUCTION WORK, SUPPLY, LEASING AND SERVICES FOR THE NEEDS OF PUBLIC SERVICE UNDERTAKINGS²

Chapter I General Provisions

Section 1. Terms Used in this Law

The following terms are used in this Law:

- 1) **public service undertaking** – an undertaking (company) which operates on the basis of exclusive rights provided by law or other regulatory enactments, or on the basis of a licence issued by a State authority or a Local Government, which permits one or more such undertakings (companies) to operate in a specified field within a particular administrative territory or which occupies a natural monopoly position, within a particular administrative territory, in one of the following fields:
 - a) the energy supply,
 - b) the acquisition and supply of drinking water, or the acquisition or supply of drinking water to the drinking water distribution networks of public significance, its transportation through such networks to the consumer, and the management of such networks,
 - c) the construction and management of sewerage networks and purification equipment,
 - d) the administration of an airport or a seaport,
 - e) the exploration of oil or gas deposits in Latvia or its economic zone,
 - f) the maintenance and administration of public telecommunications networks and provision of telecommunications services,
 - g) the maintenance and management of the railway infrastructure for public use, and
 - h) carriage of passengers by buses, trams, and trolley buses;
- 2) **services** – transport carriage, training, and provision of consultation, design and other work, except construction work and supply; and
- 3) **tenderer** – an undertaking (company) which expresses a wish to perform construction work, supply goods, as well as to lease or provide services on the basis of a contract with the public service undertaking.

Only the latter is authentic. The original Latvian text uses masculine pronouns in the singular. The Translation and Terminology Centre uses the principle of gender-neutral language in its English translations. In addition, gender-specific Latvian nouns have been translated as gender-neutral terms, e.g. *chairperson*.

Section 2. The Purpose of this Law

The purpose of this Law is:

- 1) to achieve transparency and public accessibility during the selection of the performers of construction work, suppliers of goods, lessors and providers of services;
- 2) to ensure competition among the performers of construction work, suppliers of goods, lessors and providers of services;
- 3) to achieve a rational utilisation of the resources of public service undertakings; and
- 4) to promote engagement of the performers of construction work, suppliers of goods, lessors and providers of services in construction work, supply, leasing or provision of services for the needs of public service undertakings.

Section 3. Exceptions to the Application of this Law

(1) This Law shall not apply if:

- 1) a public service undertaking enters into a contract regarding construction work, supply, leasing or services which pertain to the activity of the public service undertaking in foreign states, and if the networks of supply and infrastructure in Latvia are not utilised for such activity in foreign states;
- 2) energy supply undertaking (company) enters into a contract regarding the acquisition of energy or fuel (energy resources) in order to provide an energy supply;
- 3) a public service undertaking enters into a contract regarding construction work, supply, leasing or services which are partially or fully paid for on the basis of bilateral cooperation contracts, from donations of the European Union or loans, or the donations of international financial institutions, if the intergovernmental contract with the relevant international financial institution, or the specific loan or donation contract, provides for selection procedures of the performer of construction work, supplier of goods, lessor or provider of services;
- 4) a public service undertaking enters into a contract regarding the leasing or purchase of real property or the acquisition of other rights to real property, regarding the services provided by other public service undertakings, regarding arbitration services, regarding services related to the issuance, acquisition, sale or transfer of securities or other financial resources to other persons, regarding the services of natural persons in accordance with employment contracts or regarding scientific research (except such research which is fully paid for by the public service undertaking and the results of which are received by such public service undertaking for their own needs);
- 5) a public service undertaking enters into a contract with its branch, or an undertaking which is under its control, or a joint undertaking which has been established by several public service undertakings in order to engage in activities in one of the fields referred to in Section 1, Clause 1 of this Law, if 80 per cent on average of the services provided by such branch, or controlled undertaking, or joint undertaking during the last three years have been provided to the public service undertaking of which the provider of the services is a branch, or under the control; or

- 6) a public service undertaking enters into a contract in which there is information regarding official secrets in accordance with the Law On Official Secrets.

(2) If a public service undertaking does not apply this Law in accordance with Paragraph one of this Section, it shall preserve all the information and documents regarding the relevant contract in order that it may substantiate its decision.

Chapter II

Selection of Tenderers and Choice of Tenders

Section 4. Prevention of Discrimination against Tenderers

(1) In the selection of tenderers and the choice of tenders, a public service undertaking shall not discriminate against any performer of construction works, supplier of goods, lessor or provider of services.

(2) Any contract regarding construction work, the supply of goods, leasing or services shall be entered into by a public service undertaking so as to achieve the purposes referred to in Section 2 and in accordance with the requirements of this Law.

(3) If the estimated price without value-added tax in a contract for supply, leasing or the provision of services exceeds 250 thousand lats or the price without value-added tax in a contract for construction work exceeds three million lats, the public service undertaking shall apply the methods for the selection of tenderers and for the choice of tenders in accordance with this Law.

Section 5. Methods for Selection of Tenderers and for Choice of Tenders

(1) A public service undertaking shall apply one of the following methods for the selection of tenderers and for the choice of tenders:

- 1) an open competition – when a public service undertaking publicly invites tenderers to submit tenders;
- 2) a restricted competition – when a public service undertaking invites tenderers pursuant to its own choice on the basis of market research; and
- 3) negotiations – when a public service undertaking conducts negotiations (consultations) with one or several tenderers regarding the conditions of a contract.

(2) The Cabinet shall determine the procedures for the application of the methods for the selection of tenderers and the choice of tender.

Section 6. Selection of Tenderers at a Competition or Negotiations

(1) If a public service undertaking selects tenderers utilising the methods of competition or negotiations, it shall set equal objective requirements for all the tenderers.

(2) A public service undertaking may substantiate the requirement, on the basis of objective needs, to reduce the number of possible tenderers to a level which allows a balance between the procedures for the selection of tenderers and their nature, with the resources necessary for carrying out such procedures. The selected number of tenderers shall be enough to ensure competition.

Section 7. Qualification Assessment System

- (1) To ensure that a public service undertaking always has available information regarding potential performers of specific construction work, suppliers of goods, lessors and providers of services at its disposal, it may establish and apply a qualification assessment system regarding performers of construction work, suppliers of goods, lessors and providers of services.
- (2) The system, which shall include various qualification assessment stages shall be established and applied in accordance with objective requirements and regulations of the public service undertaking. If necessary, the requirements may be reviewed up to the invitation of tenderers to a qualification assessment.
- (3) The qualification requirements shall be accessible to the performers of construction work, suppliers of goods, lessors and providers of services. The notice of the review requirements shall be provided in good time.
- (4) A public service undertaking shall request the interested performers of construction work, suppliers of goods, lessors or providers of services to submit applications for qualification assessment in accordance with the qualification assessment system by publishing a notice regarding preliminary qualification assessment in the newspaper *Latvijas Vēstnesis*³ and in any other periodical press publication.
- (5) When taking a decision regarding qualification, or reviewing the qualification requirements, a public service undertaking may not:
 - 1) set different administrative, technical or financial requirements for the interested performers of construction work, suppliers of goods, lessors or providers of services; and
 - 2) request generally accessible information or repeated examinations, or evidence which duplicates such information.
- (6) Within a period of six months from the day of the submission of an application, a public service undertaking shall take a decision regarding the conformity of the qualifications of a tenderer and notify the tenderer in writing. If a longer time-period is necessary for the taking of the decision, the public service undertaking shall notify the tenderer, within a period of two months from the day of the submission of an application, of the reasons due to which a longer time-period is needed for the taking of a decision, as well as the term by which a relevant decision shall be taken.
- (7) A public service undertaking shall inform the submitters of applications, whose qualifications has been found inadequate, regarding the reasons for their rejection on the basis of the non-compliance of the tenderer with the requirements referred to in Paragraph two of this Section.
- (8) A public service undertaking shall prepare a register of the tenderers selected by qualification assessment. The register shall be accessible for all the potential performers of construction work, supplier of goods, lessors and providers of services.
- (9) A tenderer shall be regarded as being in conformity with the qualification requirements for a period of 12 months from the day when the decision was taken regarding the conformity of his or her qualifications. A public service undertaking may discontinue the qualification assessment of tenderers, if they do not comply with the qualification requirements. A public service undertaking

³ The official Gazette of the Government of Latvia.

shall inform the tenderers regarding the intention to discontinue qualification assessment in writing, and specify the reasons.

Section 8. Restrictions to Participation

A performer of construction work, supplier of goods, lessor or provider of purchases shall be excluded from participation in the selection of tenderers and the entering into of a contract, if their activity is characterized by one or more of the following features:

- 1) they are insolvent;
- 2) they have not paid taxes or social insurance contributions in compliance with the requirements of the regulatory enactments of Latvia or their country of domicile; or
- 3) they have provided false or misleading information to the public service undertaking.

Chapter III Determination of the Estimated Contract Price

Section 9. Estimated Contract Price for Supply

The estimated contract price for supply shall be determined on the basis of the amount of the particular transaction. It shall not be permitted to divide the estimated contract price into parts without good reason, or to utilise special methods for determining it, in order to avoid the application of this Law.

Section 10. Estimated Contract Price for Services

(1) In determining the estimated contract price for services, a public service undertaking shall take into account all the remuneration that will be received by the provider of services, as well as the conditions referred to in this Section.

(2) In determining the estimated contract price for insurance services, the amounts of the insurance premiums to be paid shall be taken into account.

(3) In determining the estimated contract price for bank services, the charges for bank services, interest payments and other kinds of remuneration for services shall be taken into account.

(4) In determining the estimated contract price for design (except construction design) services, the total remuneration for the services shall be taken into account.

(5) If the total contract price for the services is not determined, then the estimated contract price shall be determined on the basis of the contract price for the services provided for one month, which shall be multiplied by:

- 1) the number of months within the period for which the contract shall be entered into, if the contract is entered into for a specific time-period which does not exceed 48 months; or
- 2) 48, if the contract is entered into for indefinite time or for a specific time-period which exceeds 48 months.

Section 11. Estimated Contract Price for Leasing or Instalment Purchase

If goods are leased with an option to purchase (acquired with leasing provisions) or without it, purchased or acquired on instalment, the estimated contract price shall be determined on the basis of:

- 1) the total contract price, if the contract is entered into for 12 months or a shorter time-period, or the total contract price, taking into account the planned residual value of the leased object in the case of a lease or a lease with an option to purchase, if the contract is entered into for a time-period which exceeds 12 months; or
- 2) the expected payments in the first four years, if the contract is entered into for indefinite time.

Section 12. Estimated Contract Price for Construction Work

(1) The estimated contract price for construction work shall be the total price for the relevant construction work.

(2) In determining the contract price for construction work, it shall also include all the supply of goods or services necessary for the performance of the relevant contract for construction work. If a contract for construction work also includes supply of goods or services, which are not necessary for the performance of the relevant construction work, the price for such supply of goods or services need not be taken into account when determining the contract price for construction work.

Section 13. Estimated Contract Price for Contracts with Options and for Mixed Contracts

(1) If a contract for supply of goods, leasing or services provides for options, the estimated contract price shall be determined as the highest possible price which is allowed by such options for purchase, lease, lease with an option to purchase or instalment purchase.

(2) If a contract provides for both supply and the provision of services, it shall be considered to be either a contract for supply of goods or a contract for provision of services – depending on which constitutes a larger amount of the estimated contract price, but the estimated contract price shall be determined on the basis of the total contract price for supply of goods and services without taking into account the contract price for supply of goods or services separately.

(3) If the supply of goods, services or construction work consist of separate supply of goods, separate services, their parts or groups, separate construction work, its parts or groups, then the estimated contract price shall be determined, in accordance with this Section, taking into account the total estimated contract price for the goods, services or construction work.

Section 14. Estimated Contract Price in Cases of Extended Contracts or Taking into Account Subcontracts

(1) If one or more suppliers utilising several contracts supply goods of one and the same designation, or if a contract is extended, the estimated contract price shall be determined on the basis of one of the following indicators:

- 1) the amount in monetary terms of the supply of goods of the one and the same designation during the previous financial year or a period of 12 months, taking into account, if possible, the estimated contract prices or changes in the amounts during the subsequent 12 months; or

- 2) the total amount in monetary terms of supply of goods of the one and the same designation in a contract which shall be entered into within 12 months after the first contract entered into, or taking into account the whole duration period of the contract, if it exceeds 12 months.

(2) If such a contract has been entered into between a public service undertaking and one or more suppliers of goods, construction contractors or providers of services, in which is included basic provisions regarding the subject-matter of the contract and, if possible, regarding the prices of one unit and the sub-contracts which will be entered into during the period specified in this contract, the contract price shall be determined as the total calculated amount of the contract prices of the anticipated subcontracts during the time-period for which such contract is entered into.

Chapter IV Tenders for a Competition or for Negotiations

Section 15. Submission of Tenders

- (1) Applications regarding participation in the selection of tenderers, and tenders, shall be sent in writing, observing the deadlines specified in this Law.
- (2) In determining deadlines for the submission of tenders, a public service undertaking shall take into account the amount of the contract and technical specifications, and the necessity to perform a site inspection or examination.
- (3) Legal persons may be requested to indicate, in the tenders or applications submitted, information regarding the persons who will be responsible for the provision of services.
- (4) If the performance of a contract involves third persons and the entering into of sub-contracts, the tenderer shall indicate this in the tender documents. Such indication shall not affect the liability of the main party to the contract (the general contractor).

Section 16. Information Regarding Competition or Negotiations

- (1) If a tenderer requests such in writing, the public service undertaking shall, within six days from the receipt of the application, send to the potential performer of construction work, supplier of goods, lessor or provider of services, the Regulations of the competition, a draft contract and other necessary documents.
- (2) If a tenderer has in good time made a written request for additional information which pertains to the contract documentation, the public service undertaking shall provide it to the tenderer not later than six days before the specified deadline for the submission of tenders.

Section 17. Criteria for the Choice of Tenders

- (1) A public service undertaking shall choose either the most economically advantageous tender in which such factors as the term for the supply or the performance of the contract, the costs, the effectiveness, the quality of the tender, the aesthetic and functional characteristics, the technical conformity, the exploitation expenditures, the availability of spare parts, the security of supply, the price and other factors have been taken into account, or also the tender with the lowest price.

(2) If a public service undertaking chooses the most economically advantageous tender, it shall indicate in the Regulations of the competition all the criteria for the choice in descending order of importance, and the algorithm for the choice of the tender in accordance with the criteria referred to.

(3) If a public service undertaking chooses the most economically advantageous tender, the tenderers may submit different variants of the tender which meet the technical requirements set by the public service undertaking. The procedure for the submission of variants shall be specified in the Regulations of the competition. If submission of variants is not allowed, it shall be indicated in the Regulations of the competition.

Section 18. Rejection of Abnormally Low Tenders

(1) A public service undertaking may reject abnormally low tenders, if written explanations have in due time been requested regarding such parts of the tender which make the relevant tender abnormally low.

(2) A public service undertaking may reject the tenders, which are abnormally low due to the State aid received, only if it has available information that the State aid has not been approved by the State Aid Supervision Commission.

Chapter V Notices and Invitations

Section 19. Invitations to the Selection of Tenderers, Submission of Tenders, and Notices Regarding Entering into of Contract

(1) In the case of an open competition, a public service undertaking shall send to the Purchase Supervision Bureau an invitation to the selection of tenderers and submission of tenders for publication in electronic form and in the newspaper *Latvijas Vēstnesis*.

(2) In the case of a restricted competition or negotiations, the public service undertaking shall invite in writing the selected tenderers to submit tenders within a specified term and shall simultaneously send a notice to the Purchase Supervision Bureau for publication in electronic form.

(3) The invitation shall be accompanied by the Regulations of the competition and a draft contract, as well as indicate:

- 1) the name, address, telephone and telefax numbers of the public service undertaking;
- 2) the name, surname, office held and address of the contact person from whom supplementary documents may be received, as well as the date until which such may be requested, and the relevant fee, if such has been specified;
- 3) the location and date for submission of tenders;
- 4) the language in which tenders are to be submitted;
- 5) a reference to the published invitation to submit tenders, if there has been such;
- 6) an indication of the documents to be attached to the tender;

- 7) the criteria for the selection of tenderers and the choice of tenders, if such are not specified in the invitation; and
 - 8) other information.
- (4) In the case of an open or a restricted competition and of negotiations, the public service undertaking shall publish a notice thereof within 20 days from the entering into of the contract.
- (5) A notice regarding the entering into of the contract shall specify:
- 1) the name and address of the public service undertaking;
 - 2) the subject-matter of the contract entered into;
 - 3) the construction work to be performed, the supply of goods, the leasing or the services to be provided;
 - 4) the scope of the construction work, the supply of goods, the lease or the services;
 - 5) the method for the selection of tenderers;
 - 6) the undertaking (company) with whom the contract has been entered into;
 - 7) the number of the tenderers who have participated;
 - 8) the date the contract was entered into; and
 - 9) the contract price.

Section 20. Contents of Invitation

- (1) The invitation published in the press shall apply only to such construction work, supply of goods, leasing or services that will be the subject-matter of the anticipated contract.
- (2) The invitation to the selection of tenderers and the submission of tenders shall specify the method for the selection of tenderers.
- (3) The invitation to the selection of tenderers shall indicate:
 - 1) the name, address, telephone and telefax numbers of the public service undertaking;
 - 2) the purposes of the qualification assessment;
 - 3) the time of the qualification assessment; and
 - 4) other information.

Section 21. Informative Notices

- (1) At least once a year, when publishing informative notices in the newspaper *Latvijas Vēstnesis* and in any other periodical press publication, a public service undertaking shall inform of:
 - 1) in the case of supply contracts – the estimated total contract price in respect of each type of production, if any of the contracts exceed 400,000 lats and their total

estimated contract price exceeds 600,000 lats, and such contracts are expected to be entered into within the following 12 months; or

- 2) in the case of construction work contracts – the essential elements of such construction work contracts which the public service undertaking intends to enter into over the following 12 months, if the specified contract price is not less than 4,000,000 lats.

(2) If a public service undertaking has published an informative notice, the invitation to submit tenders regarding specific construction work, supply of goods, leasing or services shall be published not later than within 12 months after the publication of such notice.

(3) When publishing additional information regarding major projects, a public service undertaking shall not repeat the information included in the informative notice.

Section 22. Form of Notice and Invitation

(1) All the notices and invitations referred to in this Law shall be published in accordance with the form prescribed by the Minister for Finance.

(2) A public service undertaking has the right to send, in parallel with the publication in the newspaper *Latvijas Vēstnesis* and other periodical press publications, direct invitations to tenderers. The term shall be calculated the day when the notice or invitation was published in the newspaper *Latvijas Vēstnesis*.

Section 23. Terms

(1) In the case of an open competition the time-period from the day when an invitation to tender is published in the newspaper *Latvijas Vēstnesis*, until the submission of tenders, may not be less than:

- 1) 40 days, if the contract price is not less than 4,000,000 lats for construction work contracts or 400,000 lats for supply, lease or services contracts;
- 2) 28 days, if the contract price is not less than 4,000,000 lats for construction work contracts, or 400,000 lats for supply, lease or services contracts, and if a relevant informative notice has been published; or
- 3) 28 days, if the contract price exceeds 50,000 lats for construction work contracts or 10,000 lats for supply, lease or services contracts, but is less than 4,000,000 lats for construction work contracts or 400,000 lats for supply, lease or services contracts.

(2) In the case of a restricted competition or negotiations the term may be specified through mutual agreement of the public service undertaking and the selected tenderers, but all tenderers shall be given equal time for the preparation and submission of offers; however, the time-period from the day when the tenderers are invited to submit their tenders may not be less than 10 days.

(3) If a public service undertaking and the tenderers cannot agree, in the case referred to in Paragraph two of this Section, regarding the term by which the tenders are to be submitted, it shall be determined by the public service undertaking. In specifying the term, the amount of the contract and the technical specifications shall be taken into account, but the specified term may not be less than 10 days.

Chapter VI Technical Specifications

Section 24. Technical Specifications

(1) Technical specifications are the technical requirements which are to be included in the contract and tender documentation and which characterise the construction work, the materials, products and goods to be supplied or the services to be provided.

(2) The technical specifications shall be formulated in conformity with European Standards adapted with the status of the Latvian National Standard, and registered in accordance with specified procedures.

(3) The European Standard is a standard which has been approved by the European Committee for Standardisation (CEN) or the European Committee for Electrotechnical Standardisation (CENELEC) as European Standards (EN) or Harmonisation Documents (HD) in accordance with the regulations of these organizations.

(4) A public service undertaking shall indicate, in the technical specifications regarding the subject-matter of the contract, such requirements that make a technical specification conform to the relevant standards, by giving preference to such technical specifications that are directed to the task of the subject-matter of the contract. If a public service undertaking considers that such technical specifications do not comply with the purpose of the contract, they may also establish technical specifications based on a description of the appearance of the subject-matter of the contract.

(5) The technical specifications may not refer to particular products or processes, as well as discriminate against an undertaking (company) or grouping of undertakings (companies), or give preference to any undertaking (company) or grouping of undertakings (companies), unless such specifications are determinative for the continued existence of the subject-matter of the contract. Reference to trademarks, patents and specific origin shall be prohibited. However, if it is not possible to characterize the contract subject-matter in the technical specifications in any other way, such references may be used together with the words "vai ekvivalents" ["or the equivalent"].

(6) Paragraph two of this Section shall not apply to cases when:

- 1) it is technically not possible to achieve conformity of the product with the relevant standards;
- 2) a public service undertaking, in establishing relevant standards, would have to acquire equipment that is incompatible with the equipment which is available to it and which it has intended to use together with the equipment to be acquired;
- 3) a public service undertaking, in establishing relevant standards, would experience disproportionately large costs or disproportionately great technical difficulties;
- 4) the relevant standard has not taken into account of the technical improvements that have resulted since its adoption. In such case, the public service undertaking shall inform the relevant institution which is authorised to review such standards; or
- 5) a project is of an innovative nature, therefore the existing standards cannot be applied.

(7) All invitations to tender shall include information regarding derogations of the relevant standards, if there are any.

(8) Application of this Section may not be the grounds for non-compliance with mandatory technical requirements.

(9) A public service undertaking that does not apply European Standards adapted with the status of the Latvian National Standard and registered in accordance with specified procedures, and other Latvian National Standards, shall define in writing the strategy for their introduction in their field of activity.

Section 25. Accessibility of Technical Specifications

(1) Pursuant to the request of potential performers of construction work, suppliers of goods, lessors or providers of services, a public service undertaking shall issue to them the technical specifications that they intend to utilise for the contracts.

(2) If such technical specifications are based on documents, which are accessible to the interested performers of construction work, suppliers of goods, lessors or providers of services, the technical specifications shall include references to the documents referred to.

Section 26. Ensuring the Confidentiality of Information

(1) In order to protect the confidentiality of information, a public service undertaking is entitled to set requirements for the performers of construction work, suppliers of goods, lessors or providers of services in respect of conditions for technical specifications, qualification examinations, selection of tenderers and choice of tenders.

(2) This Law does not restrict the rights of the performers of construction work, suppliers of goods, lessors or providers of services to request that the public service undertaking not disclose information, insofar as it is not in contradiction with other regulatory enactments.

Chapter VII Documentation of Procedures and Reports

Section 27. Documentation of the Selection of Tenderers and the Choice of Tenders

A public service undertaking which has selected tenderers and chosen tenders pursuant to this Law shall preserve, for four years from the day of the selection, all the information and documents on the basis of which they have taken decisions regarding:

- 1) the qualification, selection of tenderers and choice of tenders;
- 2) derogations from the European Standards adapted in the status of the Latvian National Standard and registered in accordance with specified procedures, and the Latvian National Standards; or
- 3) the utilisation of the relevant method without a prior invitation of tenderers to submit tenders.

Section 28. Reports

Each year by 1 March a public service undertaking shall submit to the Purchase Supervision Bureau reports regarding the number of the contracts entered into, their amounts, performers of construction work, suppliers of goods, lessors or providers of services, and the methods utilised for the selection of tenderers and the choice of tenders.

Chapter VIII Purchase Supervision Bureau

Section 29. Status of the Purchase Supervision Bureau

(1) The Purchase Supervision Bureau (hereinafter also – the Bureau) is a State institution which is under the supervision of the Ministry of Finance and acts in accordance with this Law, the by-laws of the Bureau and other regulatory enactments.

(2) The operations of the Bureau are financed by the State budget.

Section 30. Tasks of the Purchase Supervision Bureau

The Purchase Supervision Bureau shall perform the following tasks:

- 1) supervise the conformity of the procedures for the selection of tenderers and the choice of tenders (hereinafter – the purchase procedures) with the requirements of law;
- 2) compile information regarding the number of purchase procedures, the scope of construction work, goods purchased or leased, services received and analyse such information;
- 3) as an instance for the resolution of disputes, examine complaints of tenderers regarding non-compliance of supply procedures with the requirements of law;
- 4) within the scope of its competence, prepare opinions regarding draft regulatory enactments in respect of supply procedures of public service undertakings;
- 5) provide methodological assistance and consultations;
- 6) cooperate, within the scope of its competence, with the relevant foreign authorities; and
- 7) examine and publish invitations and notices regarding supply, in the newspaper *Latvijas Vēstnesis* and in electronic form, pursuant to Section 19 of this Law.

Section 31. Rights of the Purchase Supervision Bureau

The Bureau is entitled to:

- 1) in fulfilling performing tasks prescribed by law, request and receive, without hindrance, from public service undertakings, State and Local Government institutions the information necessary for the performance of its tasks;

- 2) provide opinions regarding the conformity of the activities of public service undertakings and their officials with the regulatory enactments in force regarding purchase procedures;
- 3) take decisions on the termination of violations of this Law and related regulatory enactments, and its conditions;
- 4) within the scope of its competence, formulate draft regulatory enactments;
- 5) file actions in court, regarding the bringing of responsible officials to administrative liability;
- 6) publish decisions taken by, opinions and proposals of the Purchase Supervision Bureau;
- 7) conduct other activities permitted by regulatory enactments, in order to fulfil the tasks prescribed by this Law; and
- 8) request and receive invitations and notices regarding purchases from public service undertakings, as well as evaluate their compliance with the requirements of law.

Chapter IX

Procedures for Review of Complaints

Section 32. Right to Submit Complaints

- (1) A tenderer may submit to the Bureau a complaint regarding the activity or a public service undertaking in respect of the selection of tenderers and the choice of proposals, and the decision of the public service undertaking regarding the results of such procedures, and request the review of such activities and decision, if the referred to tenderer considers the public service undertaking to have violated the law and the interests of the tenderer to have been affected.
- (2) A tenderer may submit a complaint, in accordance with Paragraph one of this Section, before the relevant contract has been entered into.
- (3) After the termination of the choice of tenders and the entering into of the contract, the tenderer may dispute contract entered into in a court.

Section 33. Review of Complaints and Taking of Decisions

- (1) Simultaneously with the submission of the complaint, the tenderer shall inform in writing the public service undertaking regarding it.
- (2) The tenderer who has submitted a complaint, the Bureau and the public service undertaking shall review the complaint together, within five working days after its submission.
- (3) If the issue regarding which a complaint has been submitted cannot be solved by mutual agreement of the parties, the Bureau shall take a decision regarding such complaint, which shall be binding on both parties and which shall be sent, within five working days after it has been taken, to the submitter of the complaint and the public service undertaking. If a violation of law has been fully or partly rectified, the decision shall specify all activities to be performed without delay in order to prevent further violations of law.

(4) A public service undertaking shall have a duty to rectify violations of law, if such have been determined, within five working days after the receipt of the decision.

Section 34. Suspension of Procedures

(1) If a tenderer has submitted a complaint to the Bureau, the public service undertaking shall suspend the procedures for the selection of tenderers and the choice of proposals, or postpone the carrying out of a decision regarding the results of such procedures, until the receipt of a decision by the Bureau regarding the results of the review of the complaint.

(2) Suspension of the procedures referred to in Paragraph one of this Section may not be appealed.

Section 35. Liability for Failure to Observe the Norms of Law

(1) The manager of the public service undertaking, or the head of a structural unit, or another authorised person who is responsible within the undertaking for the preparation or the entering into of the relevant contracts for construction work, supply of goods, leasing or services in the public service undertaking shall be liable regarding the observance of this Law and the regulatory enactments arising from it.

(2) Decisions of the Bureau regarding the activity of public service undertaking, except decisions on the suspension of procedures, may be appealed in court in accordance with the procedures specified by law.

This Law shall come into force on 1 July 2000.

This Law has been adopted by the *Saeima* on 4 November 1999.

President

V.Viķe-Freiberga

Riga, 24 November 1999

Regulations No.376 issued by the Cabinet of Ministers of the Republic of Latvia
Riga, 31 October 2000 (minutes no.52, 3. §)

THE PROCEDURE OF SELECTION OF TENDERERS AND APPLICATION OF METHODS FOR CHOICE OF TENDERS

Issued in accordance with the 2nd part
of Article 5 of the Law on Construction
Work, Supply, Rent and Services for the
Needs of Public Service Undertakings.

I. General Provisions

1. The present regulations establish the procedure of selection of tenderers and application of methods for choice of tenders in case of concluding contracts on construction work, supply, rent and services for the needs of public service undertakings.
2. The main method for selection of tenderers and choice of tenders applied is an open competition any performer of construction work, supplier of goods, renter or service provider can submit his tender to.
3. A public service undertaking applies a restricted competition method, if it is planned:
 - 3.1 to invite to submit the tenders by those performers of construction works, suppliers of goods, renters or service providers, which have information on them available in the qualification assessment system (if any) set by public service undertaking, and if their qualification complies with the execution of the planned contract;
 - 3.2 to arrange qualification test for tenderers prior to the tender submission.
4. A negotiation method can be applied in case:
 - 4.1 no tenders have been submitted for an open or restricted competition preliminary announced or the submitted tenders do not comply with the requirements of the regulations of the competition;
 - 4.2 no applications for qualification test have been submitted for a restricted competition preliminary announced (in case of qualification test being arranged in order to chose the tenderers);
 - 4.3 it is possible to purchase goods or receive services solely from one tenderer and there is no other appropriate substitute of goods or services;
 - 4.4 time restriction due *force majeure* circumstances (fire, nature disaster, war, epidemic, crash and other emergency cases unpredictable and not related to the contract) does not allow to arrange an open or restricted competition;
 - 4.5 it is possible to purchase goods in the stock-exchange.

II. An Open Competition

5. Before the announcement of an open competition is published in the press, the public service undertaking issues the regulations of an open competition on the basis of which a tenderer prepares and submits the tender. On behalf of the public service undertaking the regulations of the open competition can be issued by another person.

6. The following information has to be indicated in the regulations of an open competition:

- 6.1 the name of the public service undertaking, its registration number by the Enterprise Registry, address, telephone and fax numbers;
- 6.2 the name, surname, position, telephone number and address of the authorised person who is entitled by the company to provide information on the competition;
- 6.3 requirements of tenderer qualification and documentation to be submitted, proving the qualification;
- 6.4 information on the subject of the planned contract:
 - 6.4.1 the title of the goods to be supplied, services to be provided, object rented or construction work to be performed;
 - 6.4.2 the quantity description;
 - 6.4.3 the quality description;
- 6.5 the location of the planned contract to be performed;
- 6.6 the deadlines of the planned contract to be performed;
- 6.7 whether the tender has to be submitted for the whole subject of the contract or it is allowed to submit it for one or several parts of the contract subject (in that case the parts of the contract subject, their contents and volume have to be indicated);
- 6.8 whether it is allowed to submit alternative tenders;
- 6.9 the procedure the tenderer calculates the price for the tender;
- 6.10 the procedure how the tenderer can obtain the necessary information on an open competition, as well as the indication of the time of tenderer meeting, its length and maximum number of tenderer representatives present, in case the public service undertaking has planned to arrange tenderer meeting before the tender is opened. If the subject of the planned contract is construction project or construction work - indication on visiting possibilities of the construction area, visiting time, length and maximum number of tenderer representatives present;
- 6.11 tender collateral (if applicable) and its amount;
- 6.12 tender submission procedure, form, place and deadline (day, hour);

- 6.13 the language the tender has to be submitted in, if it is applicable to submit tenders in other languages than Latvian;
 - 6.14 requested validity of the tender;
 - 6.15 the procedure of the opening of the tender, place, data and time as well as the possibilities for the tenderer representative to participate in it;
 - 6.16 the tender selection criteria (economically the most beneficial tender or the tender with the lowest price);
 - 6.17 the procedure of amending arithmetic mistakes;
 - 6.18 the assessment of tender criteria and their weight in order to choose the most beneficial tender as well as the procedure or algorithm defining the most beneficial tender if the selection criteria for tenders is economically the most beneficial one;
 - 6.19 description of alternative tenders to be compared and evaluated in case the submission of alternative tenders is applicable according to Article 6.8 of these regulations;
 - 6.20 contract collateral (if applicable) and its amount;
 - 6.21 deadline for the public service undertaking to take a decision on the choice of tenders;
 - 6.22 note that the public service undertaking has rights to end the competition without choosing any tender;
 - 6.23 note that the tenderer has rights to submit complaint on the activities or decision of the public service undertaking concerning the procedure of the selection of tenderers and choice of tenders.
7. The necessary technical documentation and other materials, which are inseparable part of the regulations of an open competition, are attached to it.
8. There is an indication made on each copy of the regulation confirming that it corresponds to the original.
9. The public service undertaking prepares an open competition invitation which indicates:
- 9.1 name, address, telephone and fax numbers of the public service undertaking;
 - 9.2 the subject of the planned contract;
 - 9.3 the volume of the planned contract to be performed;
 - 9.4 the place of the planned contract to be performed;
 - 9.5 deadline of the planned contract to be performed;
 - 9.6 main criteria for the selection of tenderers;
 - 9.7 the tender selection criteria (economically the most beneficial tender or the tender with the lowest price);

- 9.8 the place and time the regulations for an open competition can be received and their fee;
 - 9.9 the name, surname, position, telephone number and address of the authorised person who is entitled by the company to provide information on the procedure of the competition;
 - 9.10 the place and deadline for tender to be submitted;
 - 9.11 the language the tenders are submitted;
 - 9.12 the requested validity of the tenders;
 - 9.13 deadline for the public service undertaking to choose the tender;
 - 9.14 reference to the preliminary published announcement, if any.
10. Having the competition announcement been published in the newspaper *Latvijas Vēstnesis*, all the interested persons can get acquainted with the regulations on an open competition.
11. To all the interested persons, which have paid for the regulations of an open competition (if the fee is applicable), the public service undertaking presents the copies of the mentioned regulations and the draft of planned contract. The fee for these regulations cannot exceed 100 Lats, if the subject of the current contract is construction work - 200 Lats.
12. The public service undertaking presents the copies of regulations of an opened competition and the draft of planned contract at the place and time indicated in the announcement.
13. Having the competition announcement been published in the newspaper *Latvijas Vēstnesis*, no amendments can be made to the regulations of an open competition.
14. Prior to the specified deadline for tender submission the information flow between public service undertaking and the tenderers is carried out as the submission of replies to the written tenderer inquiries.
15. The public service undertaking prepares a written reply and sends it to all the tenderers alongside with the inquiry submitted, without indicating the tenderer who has submitted it.
16. The public service undertaking can arrange tenderer meeting during which the representative of the public service undertaking answers (orally) to the written tenderer inquiries or the ones asked (orally) during the meeting. In case the public service undertaking has planned to arrange the tenderer meeting, it has to be indicated in the regulations of an open competition.
17. After the tenderer meeting the public service undertaking prepares the minutes of the meeting. The minutes are sent to all the tenderers whether present or not at the meeting.
18. If the subject of the planned contract is construction project or construction work and if at least one tenderer so requests, the public service undertaking arranges the visit to the construction area. It is arranged for all the tenderers at the same time not later than 14 days before the deadline of tender submission.
19. After visiting the construction area the public service undertaking arranges the tenderer meeting if at least one of the tenderers so requests.

20. The opening of the tender is arranged at the place and time according to the regulations of an open competition not later than two hours after the deadline of tender submission. The opening of the tenders before the specified time is not allowed.
21. After the deadline for tenders to be submitted, no tenders are accepted for submission and no amendments to the tenders submitted are made.
22. The tenderer representative is allowed to participate in the opening of the tenders.
23. At the opening of the tenders, the tenderer representative being present announces the name, address, registration number of the tenderer represented as well as his surname, position and telephone number.
24. The representative of the public service undertaking opens the tenders in the presence of tender representatives and reads the main data as well as the price of each tender. The representative of the public service undertaking signs each of the tenders. The tender representatives do not participate in the following procedure of the competition.
25. The representative of the public service undertaking checks if the tenderer has submitted the documents necessary for qualification test and if the submitted tender has been prepared in compliance with the regulations of an open competition.
26. The qualification test for tenderers is carried out before the assessment of tenders to be compliant. In case the subject of the planned contract is provision of services, the qualification test and the assessment of compliance of the tender are carried out at the same time.
27. The tenders, that do not comply with the requirements of the qualification tests or the tenders that have not been prepared according to the requirements of the regulations of an open competition, do not participate in the following procedure of the competition.
28. The public service undertaking has rights to request additional information from the tenderers on tenders submitted, in case it is necessary for evaluation and comparison of the tenders.
29. The public service undertaking has rights to amend arithmetic mistakes that are identified during the review of tenders. The tender submitter is informed on all the amendments made. In case the submitter of the tender does not accept the amendments of the arithmetic mistakes made, the public service undertaking has rights to deny this tender.
30. In case the price of one unit sum of the submitted tender differs from the total price of the separately indicated units, the public service undertaking amends:
 - 30.1 the price of one unit if, according to the regulations of an open competition, the total price of the units should have been indicated;
 - 30.2 total price of the units:
 - 30.2.1 if, according to the regulations of the open competition, the price of one unit should have been indicated;
 - 30.2.2 if there is no reference to the procedure of calculating the price in the regulations of an open competition or if, according to the mentioned regulations both the one unit price and total price of the units should have been indicated.

31. The public service undertaking selects one or several tenders, in case the subject of the planned contract is divided in parts.

32. In case only one tender is submitted, the public service undertaking decides if the tender complies with the regulations of an open competition and if it is beneficial and whether it is possible to conclude an agreement with the only tenderer.

III. A Restricted Competition

33. The selection of tenderers for a restricted competition and choice of the tenders is carried out according to Article 3 of these regulations.

34. Before the publishing of the invitation to the qualification test, the public service undertaking issues the regulations of a qualification test (hereinafter - qualification test) and the regulations of a restricted competition, on the basis of which the tenderer prepares and submits his tender. On behalf of the public service undertaking the regulations of a qualification test and regulations of a restricted competition can be issued by another person.

35. The following information has to be indicated in the regulations of a qualification test:

- 35.1 the name, registration number, address, telephone and fax numbers of the public service undertaking;
- 35.2 the name, surname, position, telephone number and address of the authorised person who is entitled by the public service undertaking to provide information on the competition;
- 35.3 short information on the subject of the planned contract:
 - 35.3.1 the title of the goods to be supplied, services to be provided, object rented or construction work to be performed;
 - 35.3.2 the quantity description;
 - 35.3.3 the quality description;
- 35.4 the location of the planned contract to be performed;
- 35.5 the deadlines of the planned contract to be performed;
- 35.6 requirements for qualification of tenderers and documentation that has to be submitted proving the qualification;
- 35.7 the submission procedure of the qualification tests, form, place and deadline (day, hour);
- 35.8 the language the qualification test has to be submitted in, in case it is applicable to submit tenders in other languages than Latvian;

- 35.9 the procedure of the opening the qualification tests, place, date and time as well as the possibilities for the tenderer representative to participate in the qualification test opening;
 - 35.10 deadline for the public service undertaking to arrange the qualification test;
 - 35.11 note that the tenderer has rights to submit complaint on the activities or decision of the public service undertaking concerning the procedure of the selection of tenderers;
 - 35.12 other information.
36. The qualification test is announced as follows:
- 36.1 the public service undertaking sends the invitation to qualification test to Purchase Supervising Bureau in order to publish it in the Internet and the newspaper *Latvijas Vēstnesis*;
 - 36.2 the public service undertaking publishes an advertisement in the newspaper *Latvijas Vēstnesis* at least 10 days before the deadline for submission of qualification documents.
37. The opening of the qualification test applications is arranged at the place and time specified in the regulations of a qualification test not later than two hours after the deadline of submission of the applications.
38. The tender representative is allowed to participate in the opening of the qualification test.
39. At the opening of the qualification test the tenderer representative being present announces the name, address, registration number of the tenderer represented as well as his name, surname, position and telephone number.
40. The representative of the public service undertaking opens the qualification test applications in the presence of tenderers and signs each of the applications. The tender representatives do not participate in the following procedure of the competition.
41. The public service undertaking evaluates the tenderers taking into consideration the assessment criteria mentioned in the regulations of a qualification test.
42. Within a month after the deadline of submitting the applications for qualification test, the public service undertaking announces the results of the qualification test to all the tenderers and sends the invitation to submit the tenders for a restricted competition to those tenderers, which have passed the qualification test as well to those possible tenderers which have information available on them in the enterprise qualification assessment system (if any) and the qualification of which comply with the execution of the planned contract.
43. At the same time the public service undertaking sends the notification to the Purchase Supervising Bureau about the invitation of tenderers selected by the qualification test for participation in the restricted competition.
44. Supplementary to the invitation of submitting the tenders, the public service undertaking sends the tenderers the regulations of a restricted competition with the following information:
- 44.1 name, registration number by the Enterprise Registry, address, telephone and fax numbers of the public service undertaking;

- 44.2 the name, surname, position, telephone number and address of the authorized person who is entitled by the company to provide information on the competition;
- 44.3 information on the subject of the planned contract:
 - 44.3.1 the title of the goods to be supplied, services to be provided, objects to be rented or construction work to be performed;
 - 44.3.2 the quantity description;
 - 44.3.3 the quality description;
- 44.4 the place of the planned contract to be performed;
- 44.5 deadline of the planned contract;
- 44.6 whether the tender has to be submitted for the whole contract subject or it is allowed to submit the tender for one or several parts of the contract subject (in that case the parts of the contract subject, their contents and volume, have to be indicated);
- 44.7 is it allowed to submit alternative tenders;
- 44.8 the procedure the tenderer calculates the price for the tender;
- 44.9 the procedure how the tenderer can obtain the necessary comments for an open competition, as well as the indication of the time of the tenderer meeting, its length and maximum number of tenderer representatives being present in case the public service undertaking has planned to arrange tenderer meeting before the tender is opened. If the subject of the planned contract is construction planning or construction planning - indication on visiting possibilities of the construction area, visiting time, length and maximum number of tenderer representatives being present;
- 44.10 tender collateral (if applicable) and its amount;
- 44.11 the procedure of tender submission, form, place and deadline (day, hour);
- 44.12 the language the tender has to be submitted in, in case it is applicable to submit tenders in other languages than Latvian;
- 44.13 requested validity of the tender;
- 44.14 the procedure of the opening of the tender, place, date and time as well as the possibilities for the tenderer representative to participate in the tender opening;
- 44.15 the tender selection criteria (economically the most beneficial tender or the tender with the lowest price);
- 44.16 the procedure of amending the arithmetic mistakes;
- 44.17 assessment of tender criteria and their weight for choosing the most beneficial tender as well as the procedure or algorithm for identifying the most beneficial tender if the choice criteria for tenders is economically most beneficial tender;

- 44.18 description of comparison and evaluation of alternative tenders in case the submission of alternative tenders is applicable according to Article 44.7 of these regulations;
 - 44.19 contract collateral (if applicable) and its amount;
 - 44.20 deadline for the public service undertaking to take a decision on the choice of tenders;
 - 44.21 note that the public service undertaking has rights to end the competition without choosing any tender;
 - 44.22 note that the tenderer has rights to submit complaint on the activities or decision of the public service undertaking concerning the procedure of the selection of tenderers and choice of tenders.
45. Having the invitation been sent to the tenderers no amendments can be made to the regulations of a restricted competition.
46. Prior to the stated deadline of tender submission the information flow between the public service undertaking and the tenderer is carried out according to the conditions of Articles 14, 15, 16, 17, 18 and 19 of these regulations.
47. The opening of tenders is carried out according to the conditions of Articles 20, 21, 22, 23 and 24 of these regulations.
48. The submitted tenders are evaluated and selection made according to the conditions of Articles 25, 26, 27, 28, 29, 30, 31 and 32 of these regulations.

IV. Negotiations

49. In case the selection of the tenderers and choice of the tenders is carried by negotiations method, the announcement on the selection of negotiation method has to contain the following information:
- 49.1 the name, registration number, address, telephone and fax numbers of the public service undertaking;
 - 49.2 the name, surname, position, telephone number and address of the authorized person who is entitled by the public service undertaking to provide information on negotiations;
 - 49.3 the description and volume of the subject of the planned contract;
 - 49.4 the location and time of the planned contract to be performed;
 - 49.5 the place and time for tenders to be submitted;
 - 49.6 the possible tenderers;
 - 49.7 indication to the preliminary announcement, if any.

50. In case the negotiation method is applied according to Article 4.1 of these regulations, the conditions of the planned contract cannot differ from the preliminary published conditions of an open and restricted competition.

51. The public service undertaking conducts the negotiations with the tenderers who have submitted tenders and chooses the most appropriate one.

V. Closing Provisions

52. The public service undertaking takes minutes of the procedure of the competition and negotiations.

53. The public service undertaking uses the tender solely for stating the results of the competition or negotiations. The use of tenders for other aims is possible only with the permission of the tender submitters.

54. Information on the price indicated in the tender, the results of tender assessment and comparison as well as the information on the competition or negotiations to be ended, without choosing any tender, is public.

55. The public service undertaking does not announce the contents of the tenders submitted till the moment there is a motivated decision made on the conclusion of the contract or the competition or the negotiations to be ended, without choosing any tender.

56. The decision on concluding the contract or the competition or negotiations to be ended without choosing any tender is to be taken within a month since the last day of the submission of tenders. If necessary, the public service undertaking can prolong this deadline up to two months since the last day of submission of the tenders.

57. The public service undertaking announces the decision on concluding the contract or the competition or the negotiations to be ended without choosing any tender to all the tenderers who have participated in the competition or the negotiations in writing within five days as well as sends it to purchase Supervising Bureau for publishing it in the Internet.

58. The public service undertaking concludes the written contract with the tender selected by competition or negotiations not earlier than 15 days since the decision made and not later than the expiry of validity of the tender.

59. Within twenty days after the concluding the contract, the public service undertaking publishes the announcement on the results of competition or negotiations in the newspaper *Latvijas Vēstnesis* as well in other press publications where the announcement on the competition has been published.

GOVERNMENT PROCUREMENT LAW
(Promulgated on May 27, 1998)
Chapter I
General Principles

Article 1

This Law is enacted to establish a government procurement system that has fair and open procurement procedures, can promote the efficiency and effectiveness of government procurement operation, and is able to ensure the quality of procurement.

Article 2

The term "procurement" as used in this Law shall refer to the contracting of construction work, the purchase or lease of property, the retention or employment of services, etc.

Article 3

Procurement conducted by any government agency, public school or government-owned enterprise (hereinafter referred to as the "entity") shall be governed by the provisions of this Law. With regard to the matters not provided for in this Law, other relevant laws shall govern.

Article 4

A juristic person or organization which takes a grant from an entity shall conduct a procurement in accordance with this Law and be under supervision by the entity provided that the amount of the grant is not less than half of the procurement value and also reaches the threshold for publication.

Article 5

An entity may entrust a juristic person or organization to conduct its procurement.

The procurement referred to in the preceding paragraph shall be governed by this Law, and the juristic person or organization shall be supervised by the entrusting entity.

Article 6

In conducting a procurement, an entity shall not accord differential treatment to suppliers without due cause.

In executing a procurement contract, the principle of protecting public interests, fairness and reasonableness shall be observed.

The procurement personnel may base on the consideration of public interest, procurement efficiency, or professional judgment to make an appropriate procurement decision, to the extent not contrary to the provisions of this Law.

Article 7

The term "construction work" referred to in this Law means the activities performed above or underneath the ground for building, augmenting, altering, repairing, or dismantling structures and their respective auxiliary equipment/facilities, or reforming natural environment, including architectural, civil, hydraulic, environmental, transportation, mechanical, electrical, and chemical construction works, and other construction works as determined by the responsible entity.

The term "property" referred to in this Law means any and all articles, materials, equipment, machines, tools, and other personal property, real property, rights, and other properties as determined by the responsible entity.

The term "service" referred to in this Law means professional services, technical services, information services, research and development, business operation management, maintenance and repair, training, labor, and other services as determined by the responsible entity.

Where the content of a procurement involves construction work, property and service, or any two of them, and it is difficult to categorize the content of the procurement as construction work, property, or service, the one which takes the highest percentage of the budget of procurement shall govern.

Article 8

The term "supplier" referred to in this Law means any company, industrial or commercial firm under partnership or sole proprietorship, or any natural person, juristic person or any other institution or organization that may offer construction work, property or service to the entity.

Article 9

The term "responsible entity" referred to in this Law means the Procurement and Public Construction Commission. A Minister without Portfolio shall be assigned concurrently as Chairman of the Commission.

The term "superior entity" referred to in this Law means the entity at a level immediately above the procuring entity. If there is no such superior entity, then the procuring entity shall perform the functional duties of the superior entity as provided for in this Law.

Article 10

The responsible entity shall be in charge of the following matters with respect to government procurement:

1. Researching and formulating government procurement policies and system, and promoting and advocating government procurement policies and regulations;
2. Researching, formulating, amending, and interpreting government procurement laws and regulations;
3. Reviewing, developing, and approving of standard procurement contracts;
4. Collecting, publishing, and compiling statistics of government procurement information;
5. Training of professionals engaged in government procurement;
6. Coordinating and supervising all entities in connection with procurement affairs, and assessing procurement performance thereof;
7. Handling of complaints against central government entities in connection with procurement; and
8. Other matters related to government procurement.

Article 11

In order to provide reference information to the entity for drafting the budget and government estimate, a procurement information center may be established by the responsible entity to compile common business information and classification of equivalent products, and to set up price database for construction materials and equipment. Other than those that have to be kept confidential, the information may be provided to the suppliers with or without charge.

A procurement personnel training center may be established by the responsible entity for the training of professional procurement personnel.

Article 12

For a procurement of a value reaching the threshold for supervision, the entity shall, within a prescribed time-limit, submit relevant documents to its superior entity and request the same to send representative(s) to monitor proceedings conducted by the entity including tender opening, price competition under restricted tendering, price negotiation under single tendering, contract awarding,

and inspection and acceptance; whereas the superior entity may, based upon the actual needs, prescribe the conditions under which it shall authorize the entity to proceed without its monitoring.

For a procurement of a value not reaching the threshold for supervision, but the value of contract as awarded or as amended subsequently equals to or exceeds the threshold, the entity shall supplement relevant documents to its superior entity for filing.

The threshold for supervision shall be prescribed by the responsible entity.

Article 13

For a procurement of a value reaching the threshold for publication, proceedings conducted by the entity including tender opening, price competition under restricted tendering, price negotiation under single tendering, contract awarding, and inspection and acceptance shall be monitored by its comptroller (accounting) and other relevant units.

Measures of supervising a procurement of a value not reaching the threshold for publication shall be prescribed by either the responsible entity or the municipal or county (city) governments, depending upon whether the procurement is conducted by a central government or a local government. If no other applicable measures are to be prescribed, the provision of the preceding paragraph shall be followed.

The threshold for publication, which shall be less than the threshold for supervision, shall be prescribed by the responsible entity by taking the international standards into account.

Article 14

An entity shall not circumvent the application of this Law by dividing any procurement requirement of a value reaching the threshold for publication. Where there is a need to divide a procurement requirement, and such division is approved by the superior entity, the value of each divided procurement shall be deemed as if undivided, and the rules for procurement reaching the threshold for publication, or the rules for procurement reaching the threshold for supervision if appropriate, shall apply.

Article 15

Former procurement personnel and procurement supervision personnel shall be prohibited from contacting the entity that he or she previously worked for either for his or her own sake or on a supplier's behalf for three years following his or her resignation for matters related to his or her former duties within five years prior to his or her resignation.

The procurement personnel and procurement supervision personnel shall withdraw themselves from a procurement and all related matters thereof if they or their spouses, relatives by blood or by marriage within three degrees, or other relatives who live with and share the property with them have interests involved therein.

Upon finding that the procurement personnel or procurement supervision personnel failed to withdraw themselves for any cause of withdrawal provided for in the preceding paragraph, the head of the entity shall order such personnel to withdraw and reappoint the personnel for replacement.

A supplier shall not participate in the procurement of a procuring entity in the event that the relationship between the head of the procuring entity and the supplier itself or the responsible personnel of the supplier have the situation as that mentioned in paragraph two. This requirement may be waived provided that enforcement of it is against fair competition or public interests, and that an approval has been obtained from the responsible entity.

The procurement personnel and the procurement supervision personnel of an entity shall report his or her properties status pursuant to relevant requirements of the Law Governing the Report of Properties by Public Officials.

Article 16

Entreating or lobbying is preferred to be in writing or to be recorded.

The anti-corruption office may inspect the said writings or records.

Entreating or lobbying received shall not be used as reference in the evaluation of tenders.

Article 17

The participation of foreign suppliers in the procurement by each entity shall be governed by the rules set forth in the treaties or agreements to which this nation is a party.

Except for the situation prescribed in the preceding paragraph, the regulations governing the participation of foreign suppliers in the procurement by each entity shall be prescribed by the responsible entity.

The responsible entity may restrict or ban suppliers, products or services from a country to participate in the procurement where the country imposes restriction or ban on the suppliers, products or services from this nation by laws or regulations.

Chapter II

Invitation to Tender

Article 18

The tendering procedures for procurement include open tendering procedures, selective tendering procedures, and limited tendering procedures.

The term "open tendering procedures" referred to in this Law means the procedures under which a public notice is given to invite all interested suppliers to submit their tenders.

The term "selective tendering procedures" referred to in this Law means the procedures under which a public notice is given to invite all interested suppliers to submit their qualification documents for pre-qualification evaluation basing upon specific qualification requirements and, after such evaluation, the qualified suppliers are invited to tender.

The term "limited tendering procedures" referred to in this Law means the procedures under which, where no public notice is given, two or more suppliers are invited to compete or only one supplier is invited for tendering.

Article 19

An entity shall apply open tendering procedures to all procurement of a value reaching the threshold for publication, except otherwise provided for in Articles 20 and 22 hereof.

Article 20

Under any of the following circumstances, an entity may apply selective tendering procedures to a procurement of a value reaching the threshold for publication after obtaining the approval of the superior entity:

1. Where there is a recurring demand;
2. Where the review of tenders takes a long time;
3. Where the supplier's cost for preparation of a tender is high; or
4. Where the qualification requirements for suppliers are complicated.

Article 21

In order to apply the selective tendering procedures, an entity may conduct qualification evaluation in advance and establish a permanent list of qualified suppliers; provided, however, that the entity shall always allow suppliers to request of qualification evaluation and periodically review and update the permanent list of qualified suppliers.

Where a supplier not on the permanent list of qualified suppliers requests to participate in a particular procurement, the entity shall review the qualification of such supplier provided that the review does not interfere the tendering procedures and can be completed in time. After reviewing, the entity shall invite such supplier to participate in the procurement provided that the supplier is qualified.

The permanent list of qualified suppliers adopted for the procurement in connection with recurring demands shall contain at least six suppliers.

In conducting selective tendering procedures, the entity shall give qualified suppliers an equal opportunity to be invited.

Article 22

Under any of the following circumstances, an entity may apply limited tendering procedures to a procurement of a value reaching the threshold for publication after obtaining the approval of the superior entity:

1. Where there is no tender in response to an open or selective tender, or the tenders submitted have been not in conformity with the requirements in the tender, provided, however, that the requirements of the initial tender are not substantially modified in the contract as awarded;
2. Where the subject of a procurement is an exclusive right, a sole source product or supply, a work of art, or a secret, which can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
3. In so far as strictly necessary when, for reasons of extreme urgency brought about by events unforeseeable by the entity, the subject of the procurement could not be obtained in time by means of open or selective tendering procedures;
4. For additional deliveries by the original supplier which are intended either as follow-up maintenance, or parts and components replacement for existing supplies or installations, or as extension of existing supplies, services, or installations where a change of supplier would not meet the requirements of compatibility or interchangeability with already existing supplies, services, or installations;
5. Where the subject of a procurement is a prototype or a subject first produced or supplied which is developed in the course of research, experiment, or original development;
6. When additional construction work which was not included in the initial contract but which was within the objectives of the original tender documentation has, through unforeseeable circumstances, become necessary, and the entity needs to award contracts for the additional construction work to the contractor carrying out the construction work concerned to achieve the objectives of the initial contract since the separation of the additional construction work from the initial contract would be difficult for technical or economic reasons and cause significant inconvenience to the entity. However, the total value of contracts awarded for the additional construction work may not exceed 50 per cent of the amount of the main contract;
7. For any further procurement indicated in the tender notice and tender documentation;
8. For property procured on a commodity market;
9. In the case of contracts for professional services, technical services or information

services awarded to the winner selected publicly and objectively;

10. In the case of contracts awarded to the winner of a design contest provided that the contest has been initiated by a public notice and the winner selection has been conducted publicly and objectively;
11. In the case that a government-owned enterprise designates an area for its real property procurement in response to the need of its business provided that the real property procured has been solicited publicly in accordance with its requirements and criteria;
12. Where the subjects of a procurement are supplies or services not for profit provided by organizations of the handicapped, the aboriginal, philanthropic organizations or prisoners; or
13. Other circumstances as prescribed by the responsible entity.

The regulations for the selection of suppliers and the formulas for the calculation of service fees under sub-paragraphs 9 and 10, and the implementing rules under sub-paragraph 11 of the preceding paragraph, shall be prescribed by the responsible entity.

Article 23

The tendering procedures to be applied to a procurement of a value not reaching the threshold for publication shall be prescribed by the responsible entity at the central government level; or by the municipal or county (city) government at the local government level. If no other procedures are to be prescribed at the local government level, the procedures prescribed at the central government level shall govern.

Article 24

An entity may, according to the needs of efficiency and quality, conduct the procurement on a turn-key basis. However, a prior approval from the superior entity shall be obtained if the value of procurement reaches the threshold for supervision.

The term "turn-key" referred to in the preceding paragraph means the procurement of construction work or property by consolidating the procurement of design, work, supply, installation, maintenance in a certain period, etc. into a contract for tendering.

The regulations for the implementation of turn-key shall be prescribed by the responsible entity.

Article 25

An entity may, depending on the characteristics of an individual procurement, specify in the tender documentation to permit joint tendering by a limited number of suppliers. However, a prior approval from the superior entity shall be obtained where the value of procurement reaches the threshold for supervision.

The term "joint tendering" referred to in the preceding paragraph means the activity of two or more suppliers participating jointly in tendering, executing jointly the procurement contract after being awarded, and assuming the joint and several liability thereunder, with a view to contracting for construction work or to supplying property or services.

Joint tendering shall only be permitted where it can increase the competition among suppliers or not restrain competition without due cause.

A joint tendering by suppliers of the same line of business shall meet the requirements set forth in each of the sub-paragraphs of Article 14 of the Fair Trade Law.

Suppliers participating in a joint tendering shall submit a joint tendering agreement along with the tender.

The regulations for joint tendering shall be prescribed by the responsible entity.

Article 26

For a procurement of a value reaching the threshold for publication, the tender documentation shall be prescribed in terms of function or performance. In the event that there are applicable international standards or national standards, the tendering specifications shall be prescribed therewith.

Technical specification laying down the characteristics of the products or services to be procured, such as quality, performance, safety, dimension, symbol, terminology, packaging, marking and labeling, or the processes and methods for their production and assessment procedures prescribed by the entity, shall not be prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to competition.

There shall be no requirement or reference to a particular trademark or trade name, patent, design or type, specific source of origin, producer or supplier, unless there is no sufficiently precise or intelligible way of describing the procurement requirements and provided that words such as “or equivalent” are included in the tender documentation.

Article 27

For open tendering procedures or selective tendering procedures, an entity shall publish a notice of invitation to tender or of qualification evaluation on the Government Procurement Gazette, and also make it available on the information network. The same shall also apply if the notice is amended.

The content of a notice, the number of days for publication, means of publication, and the regulations for publication of the Government Procurement Gazette referred to in the preceding paragraph shall be prescribed by the responsible entity.

Procuring entities shall estimate the number of procurement to be conducted and the value of each procurement. The budget and the estimated value of a procurement may be disclosed in the tender notice.

Article 28

For open tendering procedures or selective tendering procedures, an entity shall prescribe a reasonable time-limit for submission of tenders, which shall not be less than 14 days for tendering from the date of publishing a notice or of invitation to tender. Within the prescribed time-limit, the notice shall also be continuously posted on the entrance of the entity.

The time-limits for submission of tenders as referred to in the preceding paragraph and the minimum time periods from the date of publishing a notice to receive documents for qualification evaluation under selective tendering procedures shall be prescribed by the responsible entity.

Article 29

Tender documentation for open tendering procedures and the documents for qualification evaluation for selective tendering procedures shall be made publicly available for free or for sale on site or via mail, from the date of publication through the deadline for submission of tender or the deadline for receipt of documents. The names of suppliers to whom the tender documentation is provided for free, for sale, or via mail may not be recorded.

The documentation for selective tendering procedures shall explicitly enumerate the reasons of and the need for supplier qualification.

The documentation referred to in paragraph one shall include all the information required for the submission of tenders by suppliers.

Article 30

In conducting a procurement, an entity shall provide in the tender documentation that a tenderer shall deposit a bid bond, and that the winning tenderer shall deposit a guarantee bond or, in lieu thereof or in addition thereto, other guarantees, except for the following circumstances:

1. Where the procurement is for services, the bid bond or guarantee bond may be waived;
2. Where the procurement is for construction work or property of a value not reaching one tenth of the threshold for publication, the bid bond or guarantee bond may be waived; or
3. Where there is only one supplier invited for tendering, the bid bond may be waived.

The bid bond and guarantee bond shall be deposited by cash, bank's promissory note, bank's check, certified check, bearer's government bond, certificate of deposit pledged to the procuring entity, irrevocable stand-by letter of credit issued or confirmed by a bank, or bank guarantee or insurance policy under which the bank or insurer shares the liability with the tenderer jointly and severally.

The types, amounts, and ways of deposit, refund, and termination of bid bond, guarantee bond, and other guarantees shall be prescribed by the responsible entity.

Article 31

After award of contract, an entity shall refund or return, without interest, the bid bond deposited by unsuccessful tenderers. The same shall also apply if the tendering procedure is nullified.

The entity may provide in the tender documentation that the bid bond deposited shall not be refunded or returned to the tenderer and the refunded or returned bid bond shall be recovered if there is any of the following circumstances:

1. The tenderer used forged or altered documents to tender;
2. The tenderer borrowed the name or certificate of another to tender;
3. The tenderer assumed the name or certificate of another to tender;
4. The tenderer withdrew its bid before expiration of the bid;
5. After opening of tenders, the tenderer refused to be awarded or refused to execute a contract;
6. After being awarded, the tenderer failed to deposit sufficient guarantee bond or to provide other guarantees sufficiently within a prescribed time-limit;
7. A bid bond has been served as a guarantee bond; or
8. The responsible entity found that there is a violation of laws and regulations which affects the fairness of the procurement.

Article 32

An entity shall prescribe in the tender documentation the causes not to return the guarantee bond and the interest accruing thereon, or the circumstances under which the liability of a guarantor arises, and also stipulate for the said circumstances the liability for breach of contract, the extent to which the guarantee bond can be offset, and the liability of the guarantor.

Article 33

The tender shall be submitted in writing and sealed, by mail or personal delivery, and at the procurement entity or any designated place before the deadline for tendering.

The suppliers may use electronic devices to send the tender referred to in the preceding paragraph; provided that it is explicitly permitted in the tender documentation, and a formal written tender is submitted subsequently before a prescribed deadline.

The entity may provide in the tender documentation that a tenderer is permitted to amend or supplement its tender before opening of tenders as long as the amendment or supplement does not involve the essential parts of the contract.

Article 34

In conducting a procurement, an entity shall keep confidential the content of the tender documentation before publishing the tender notice, except for the need of conducting a public presentation or soliciting reference data or information from suppliers.

In conducting a procurement, an entity shall not disclose, before opening of tenders, the government estimate, the names and number of the suppliers which have obtained the tender documentation or submitted a tender and any other relevant information which may result in competition restraint or unfair competition.

The government estimate shall be kept confidential till award of contract even after opening of tender. The government estimate shall be disclosed after award of contract except for special circumstances. The entity may, however, basing on actual needs and prior approval of the superior entity, disclose the government estimate in the tender documentation.

Unless otherwise required for official use or provided for in the relevant laws and regulations, the tenders submitted by suppliers shall be kept confidential by the entity.

Article 35

An entity may provide in the tender documentation that a supplier is allowed to submit before award of contract an alternative technology, technical methodology, materials, or equipment to shorten construction period, save expenditure, or increase the efficiency, provided that the original function requirement is not impaired.

Article 36

In conducting a procurement, an entity may prescribe basic qualifications of tenderers based upon actual needs.

For a special or large procurement which must be performed by suppliers of substantial experience, performance record, manpower, financial capability, equipment, etc., specific qualifications may be prescribed for tenderers.

The qualification of and the qualification documents to be submitted by foreign suppliers may be prescribed separately in the tender documentation based upon actual needs. A notarized or certified Chinese translation shall be attached to the qualification document as above required.

The scope and criteria of the basic qualifications referred to in paragraph one and the specific qualifications and the special or large procurement referred to in paragraph two hereof shall be prescribed by the responsible entity.

Article 37

An entity shall not restrain competition unduly and shall only prescribe the qualifications essential to contract performance in prescribing the qualifications referred to in the preceding Article.

The tender submitted by a supplier whose qualification does not meet the requirements referred to in the preceding Article shall not be accepted, unless the supplier submits in lieu a bank guarantee or an insurance policy under which the bank or insurer shares the performance and compensatory liability with the supplier jointly and severally.

Article 38

A political party and a supplier which is affiliated to a political party shall not participate in tendering.

The provisions of “Affiliated Enterprise” prescribed in the Company Law shall apply *mutatis mutandis* to the aforementioned supplier who is affiliated to a political party.

Article 39

In conducting a procurement, an entity may entrust to a supplier according to this Law the project management related to planning, design, supply, or contract performance.

The responsible person or partner of the supplier entrusted with the project management shall not at the same time serve as the responsible person or partner of the supplier handling the planning, design, construction or supply.

The supplier entrusted with the project management and the supplier handling the planning, design, construction or supply shall not be affiliated to each other or affiliated to the same other enterprise.

Article 40

An entity may entrust another entity of professional capacity to conduct its procurement.

Article 41

Where a supplier has questions about the content of the tender documentation, such questions shall be submitted in writing to the entity before the deadline set forth for such purpose in the tender documentation.

The entity shall give a written reply to the inquiring supplier before the deadline set forth for such purpose in the tender documentation, and may publish such reply if necessary. In case that any amendment or supplement to the content of the tender documentation must be made as a result of such questions, the entity shall publish a notice concerning such amendment or supplement, or notify each supplier in writing for cases of soliciting technical proposals and price proposals under selective tendering procedures and for cases of limited tendering procedures, and may extend the time-limit for tendering if required. The aforementioned requirements shall also apply in the event of amending or supplementing the content of tender documentation on the entity’s own initiative.

Article 42

For open tendering procedures or selective tendering procedures, an entity may apply multi-step opening of tenders with respect to the qualification, technical specification, and price.

In conducting multi-step opening of tenders, an entity shall publish a notice at the first step and may omit publishing invitation notices at the subsequent steps.

Article 43

An entity conducting a procurement may adopt one of the following measures and specify the measures in the tender documentation, except otherwise prohibited by the treaties or agreements to which this nation is a party.

1. To request from a tenderer commitments to procure goods locally produced to a certain extent, to transfer technology, to have inward investment, to facilitate local export, or to take any other similar measures, and include such commitments in evaluation, provided that they shall not weight over one third in the evaluation; or
2. Where a foreign supplier’s tender is the lowest tender according to the principle of contract award prescribed in Article 52, a domestic supplier may be awarded at such a price by preference.

Article 44

Where a foreign supplier's tender is the lowest bid according to the principle of contract award prescribed in Article 52, an entity conducting a particular procurement may, except otherwise prohibited by the treaties or agreements to which this nation is a party, award by preference to a local supplier which supplies property with at least 50% value added locally, or supplies construction work or service locally, provided that the awarded price shall not exceed the aforementioned lowest bid by a certain percentage.

The scope, percentage, and implementation rules for the preference prescribed in the preceding paragraph shall be prescribed by the responsible entity together with the relevant competent entities, provided that no preference shall be given except for policies of employment or industrial development, and there shall be no percentage exceeding 3% or period of preference exceeding five years.

Chapter III

Award of Contracts

Article 45

Unless otherwise provided for in laws or regulations, an entity shall open tenders in public at the time and place specified in the tender documentation for an open tendering procedure or selective tendering procedure.

Article 46

Unless otherwise provided for in this Law, an entity shall set a government estimate for a procurement. The government estimate shall be itemized based upon the drawings, specifications, and contract requirements by taking into account the costs, market prices, and past award records of government entities, and be approved by the head of the entity or the personnel authorized by the head.

The time for setting the government estimate referred to in the preceding paragraph shall be determined according to the following,

1. In the case of open tendering procedures, prior to the opening of tenders;
2. In the case of selective tendering procedures, prior to the opening of tenders for the step next to the qualification evaluation; or
3. In the case of limited tendering procedures, prior to the conducting of price negotiation with one single supplier or price comparison among two or more suppliers.

Article 47

Under the following circumstances, an entity may conduct a procurement without setting a government estimate; provided, however, that the reasons of not setting a government estimate and the terms and principles of awarding the contract shall both be provided in the tender documentation:

1. Where there are actual difficulties in setting a government estimate for the procurement;
2. Where the contract is to be awarded to the most advantageous tender; or
3. For small procurement.

For procurement under sub-paragraphs one and two of the preceding paragraph, a tenderer may be required to enumerate in its tender the content of its price offer in details.

The amount of small procurement shall be set, at the central government level, by the responsible entity, and at the local government level, by the municipal or county (city) governments; provided that

the said amount shall not exceed one tenth of the threshold for publication. Where the amount is not set by a local government, the amount set by the central government shall govern.

Article 48

In conducting a procurement pursuant to this Law, an entity shall open the tenders and award the contract in accordance with the timeframe set forth in the tender documentation where there are three or more tenders, except for any of the following circumstances under which tenders may not be opened or awarded.

1. Where the content of tender documentation is amended or supplemented;
2. Where illegal or improper activities that may impair the fairness of the procurement are found;
3. Where the opening of tenders is postponed according to Article 82 hereof;
4. Where the procurement procedure is suspended according to Article 84 hereof;
5. Where the entity corrects its breach of laws and regulations as required by Article 85 hereof;
6. Where there is an emergency;
7. Where the plan for procurement is changed or cancelled; or
8. For any other special circumstances as determined by the responsible entity.

Where the opening of tenders cannot be proceeded due to the lack of three or more tenders, there shall be a second tendering and the time-limit for such tendering may be shortened to half of the time-limit of the first tendering, provided that the shortened period shall not be less than ten days, and in addition the requirement of three tenders of the preceding paragraph shall not apply for the second tendering. For a procurement of a value reaching the threshold for supervision, it shall be approved by the superior entity in advance.

Article 49

In conducting a procurement of a value not reaching the threshold for publication but is not less than one tenth of the threshold, offers or proposals in writing shall be obtained openly from at least three suppliers, except for any of the circumstances specified in each sub-paragraph of paragraph one of Article 22.

Article 50

In case that any of the following circumstances occurs to a tenderer, an entity shall not open the tender of such tenderer when such circumstance is found before tender opening, or award the contract to such tenderer when such circumstance is found after tender opening:

1. The tendering does not comply with the requirements of the tender documentation;
2. The content of the tender is inconsistent with the requirements of the tender documentation;
3. The tenderer borrows or assumes any other's name or certificate to tender, or tenders with forged documents or documents with unauthorized alteration;
4. The tenderer forges documents or alters documents without authorization in tendering;
5. The tenderer has any activities in breach of laws or regulations which impairs the fairness of the procurement; or
6. The tenderer is prohibited from participating in tendering or being awarded of any contract pursuant to paragraph one of Article 103 hereof.

When the circumstance referred to in the preceding paragraph occurs to the winning tenderer before the award of contract but is found after award or signing of the contract, the entity shall revoke the award, terminate or rescind the contract, and may claim for damages against such tenderer except where the revocation of the award or the termination or rescission of the contract is against public interest, and an approval has been obtained from the superior entity.

Where the situation of not opening or not awarding a contract as referred to in paragraph one causes the procurement procedures unable to continue, the entity may declare that the procurement is nullified.

Article 51

An entity shall review the tenders submitted in accordance with the requirements set forth in the tender documentation. In case of any ambiguity as to its content, the entity may request the tenderer to clarify.

The entity shall notify each tenderer of the outcome of the review referred to in the preceding paragraph and provide reasons for disqualified tenderers.

Article 52

The award of contract conducted by an entity shall follow one of the following principles and the principle adopted shall be specified in the tender documentation:

1. Where a government estimate is set for the procurement, a tenderer whose tender meets the requirements set forth in the tender documentation and is the lowest tender within the government estimate shall be awarded;
2. Where no government estimate is set for the procurement, a tenderer whose tender not only meets the requirements set forth in the tender documentation and has a reasonable price, but also is the lowest tender within the budget amount shall be the winning tenderer;
3. The tenderer whose tender meets the requirements set forth in the tender documentation and is the most advantageous one shall be the winning tenderer; or
4. To adopt multiple award. An entity may prescribe in the tender documentation that contracts may be awarded to different tenderers by different items or different quantities, but the spirit of competition as to the lowest price or the most advantageous tender shall be respected.

The preceding sub-paragraph three shall only be applied to cases where tenderers are allowed to submit tenders for construction work, property, and services with different qualities and therefore the preceding sub-paragraphs 1 and 2 are not suitable for application..

Tenderers need not be notified to be present upon the award of contract; provided that they shall be notified of the outcome.

Article 53

Where the lowest tender which meets the requirements set forth in the tender documentation exceeds the government estimate, the entity may request the tenderer to reduce the price once. If the reduced price still exceeds the government estimate, the entity may request all tenderers whose tenders meet the requirements set forth in the tender documentation to reduce their prices and then make a comparison. Such price reduction and comparison shall not be more than three times.

If, after following the procedure set forth in the preceding paragraph, the lowest tender still exceeds the government estimate but not over the budget amount, and the entity needs to award the contract for emergency, then the award of contract shall be approved by the person who has approved the government estimate or the authorized personnel of such person, and the value of the winning

award shall not exceed the government estimate by more than eight percent provided however that the award of contract shall in addition be approved by the superior entity in advance for cases where the value of procurement reaches the threshold for supervision and the value of the award exceeds the government estimate by more than four percent.

Article 54

Where an award is conducted in accordance with sub-paragraph 2 of paragraph 1 of Article 52, and the lowest tender which meets the requirements set forth in the tender documentation exceeds the budget amount or an amount recommended by a committee, the entity may request the tenderer to reduce the price once. If the reduced price still exceeds such amount, the entity may request all tenderers whose tenders meet the requirements set forth in the tender documentation to reduce their prices and then make a comparison. Such price reduction and comparison may be limited to certain times which shall not be more than three times. If, after following the procedure set forth in the foregoing, the lowest tender still exceeds either of the said amounts, the tendering procedure shall be nullified.

Article 55

Where an entity plans to award a contract to the lowest tender but cannot award the contract according to the preceding two Articles, the entity may alternatively award the contract through negotiation, provided that such negotiation has been approved by the superior entity and announced in advance in the notice of invitation and the tender documentation.

Article 56

Where an award is conducted in accordance with sub-paragraph 3 of paragraph 1 of Article 52, the evaluation criteria set forth in the tender documentation shall be used to determine the most advantageous tender by comprehensively evaluating the technology, quality, function, commercial terms, or price of the tenders with ranking or score. The price offered or the quotient of price divided by the score resulted from comprehensive evaluation may be used as a sole item for evaluation or the criteria for award of contract. Other items not listed for evaluation shall not be used as a reference for the evaluation. The most advantageous tender shall be determined by the head of the procuring entity or the concurrence of the majority of the evaluation committee. If the most advantageous tender is unable to be determined, negotiations may be conducted, and then make another comprehensive evaluation to determine the most advantageous tender. A determination thereof shall be accompanied with reasons. Such comprehensive evaluation shall not be more than three times.

If, after following the procedure set forth in the preceding paragraph, the most advantageous tender still can not be determined, the tendering procedure shall be nullified.

Before conducting a tendering procedure that the award of contract is made to the most advantageous tender, the entity shall report to the superior entity and obtain its prior approval.

The evaluation rules for determining the most advantageous tender shall be prescribed by the responsible entity.

Article 57

Where negotiations are adopted according to the provisions of the preceding two Articles, the entity shall conduct the process in accordance with the following principles:

1. The procedures and contents of tender opening, tenders, and tender evaluation shall be kept confidential;
2. No tenderers meeting the requirements set forth in the tender documentation shall be discriminated during the negotiations. If necessary, video or audio recordings shall be used for evidence purpose;
3. Only the content of those items that are specified as negotiable in the tender

documentation may be subject to negotiation;

4. Where the negotiable items referred to in the preceding sub-paragraph is amended, all tenderers permitted to participate shall be informed of such amendment in writing; and
5. Upon completion of negotiation, tenderers referred to in the preceding sub-paragraph shall be given an opportunity to modify their tenders and re-submit their tenders within a time-limit according to the negotiation.

Article 58

Where a contract is to be awarded to the lowest tender, an entity may set a time-limit for the tenderer offering the lowest tender to provide an explanation or a bond/guarantee if the total or a part of the offered price is so low that it evidently appears to be unreasonable, and the quality of performance is likely to be impaired or the contract is not likely to be performed in good faith, or there is any other extraordinary situations. If such tenderer fails to submit a reasonable explanation or a bond/guarantee before the deadline set forth by the entity, the contract may not be awarded to the tenderer, and the tenderer offering the second lowest tender shall then be deemed as the tenderer offering the lowest tender.

Article 59

For procurement conducted in accordance with selective or limited tendering procedures, the contract price shall not be higher than the lowest price the supplier offered for the same construction work, property, or service under the same market conditions.

A supplier shall not induce the procuring entity to sign a contract by giving others commission, percentage, brokerage, kickback, or any other benefits.

Where a supplier is in breach of the requirements of the two preceding paragraphs, the entity may terminate or rescind the contract, or deduct the over-valued portion and any other benefits from the contract amount.

The provisions of the three preceding paragraphs shall apply *mutatis mutandis* to procurement where the tenders received are less than three.

Article 60

Where an entity notifies a supplier to explain, reduce price, engage in price competition, negotiate, modify the content of the original tender, or re-submit a new price offer in accordance with Articles 51, 53, 54 or 57 hereof, and the supplier fails to respond within a time-limit set forth in the notification, then such supplier is deemed waiving its rights.

Article 61

Except for extraordinary circumstances, an entity shall publish the outcome of an award on the Government Procurement Gazette and notify all tenderers in writing within a specific period of time after award of contract provided that the procurement is of a value reaching the threshold for publication. The foregoing shall also apply if the contract cannot be awarded.

Article 62

The award data shall be provided by the procuring entity to the responsible entity periodically.

Chapter IV

Administration of Contract Performance

Article 63

The essential requirements for various types of procurement contracts shall be prescribed by the responsible entity by taking the international and domestic practices into consideration.

In contracting for the services of planning, design, supervision, or management, the contract shall stipulate the responsibility of the supplier in the event that erroneous planning and design, irresponsible supervision, or poor management has caused damages to the entity.

Article 64

It may be provided in a procurement contract that when continuous performance by the supplier pursuant to the contract is against the public interest due to policy change, an entity may, with the approval of a superior entity, terminate or rescind such procurement contract, in part or in whole, and compensate the supplier for any loss resulting therefrom.

Article 65

The contractor shall perform the contract for construction work or services by itself and may not assign the contract to others.

The term of contract assignment referred to in the preceding paragraph means an arrangement under which a contractor makes another supplier perform all or the major part of the contract for it.

The preceding two paragraphs shall apply *mutatis mutandis* to a contract for property not readily available and required to be supplied through certain performance process.

Article 66

In the event that a contractor is in breach of the requirement of paragraph 1 of the preceding Article by assigning a construction work to another supplier, the entity may terminate the contract, rescind the contract, or forfeit the contractor's guarantee bond, and in addition claim for damages.

The assignee referred to in the preceding paragraph and the contractor shall bear the liabilities for performance and damages jointly and severally. The foregoing shall also apply to the cases of re-assignments.

Article 67

A contractor may subcontract the contract to other suppliers. The terms "subcontracting" means an arrangement not constituting an assignment but pursuant to which another supplier performs a part of the contract for the contractor.

In the event that a subcontract has been reported to the entity for file and that the subcontracted part has been pledged by the contractor to the subcontractor, the subcontractor will have the mortgage right under Article 513 and the claim based on addition under Article 816 of the Code of Civil Procedure in terms of the claim of the contractor for the contract value or compensation against the entity.

Under the circumstance referred to in the preceding paragraph, the subcontractor for the part subcontracted to it shares the liabilities of warranty with the contractor jointly and severally.

Article 68

The claim of a contractor against an entity for contract value or compensation under a contract, whether in whole or in part, may be the object of a pledge.

Article 69

In case that an entity and a supplier cannot reach an agreement in respect of a dispute arising from or in connection with the performance of a contract, the dispute may be referred to the Complaint Review Board for Government Procurement for mediation. When the application for mediation hereof is filed by the supplier, the entity shall not reject it.

The requirements of mediation prescribed in the Code of Civil Procedure shall apply *mutatis mutandis* to the procedures and effect of the foregoing mediation conducted by the Complaint Review Board for Government Procurement.

Article 70

An entity conducting a procurement for construction work shall stipulate the responsibility of the supplier for quality control, environment protection, as well as safety and hygiene of the work, and shall also establish inspection procedures and standards for the major items of the construction work.

The entity may effect an inspection by segment during the supplier's performance of the contract, and the outcome of such inspection may be used as a basis for the acceptance.

The two preceding paragraphs shall apply *mutatis mutandis* to a contract for property or services not readily available, and required to be performed through certain performance process.

Chapter V Inspection and Acceptance

Article 71

An entity conducting a procurement for construction work or property shall set a time-limit for inspection and acceptance, and may conduct partial acceptance.

The inspection and acceptance shall be conducted by an appropriate chief inspector, which is appointed by the head of the entity or his/her authorized personnel, and the unit taking or using the work or property shall be informed to accompany the chief inspector for inspection and acceptance.

Personnel of the procurement unit of an entity shall not act as a chief inspector or an inspector for samples or materials of the procurement conducted by the unit.

The provisions of the three preceding paragraphs shall apply *mutatis mutandis* to the procurement for services.

Article 72

In conducting the inspection and acceptance for a procurement, the records thereof shall be made by the entity and signed jointly by the participating personnel. For any item found not in conformity with the requirements specified in the contract, drawings and/or samples after inspection and acceptance, the supplier shall be required, by a notice, to make improvement, remove the rejected item, re-do the work, or recall or replace the rejected item within a time-limit. Where the result of the inspection and acceptance indicates that the non-conforming item is not material and the remaining items are nonetheless usable, and the entity deems that it is necessary to use such remaining items before the said non-conformity is corrected, a partial acceptance may be conducted for the remaining items and the contract value may be paid partially for the accepted portion, subject to the approval by the head of the entity or his/her authorized personnel.

Where the result of inspection indicates any non-conformity with the contractual requirements, but the non-conformity neither hinders the safety or use required nor decreases the general function or the function designated by the contract, an acceptance with price-reduction may be conducted under conditions that the entity has determined that there is no need or it is difficult to make replacement. Before conducting the foregoing, the entity shall report the case to the superior entity for approval if the value of the procurement reaches the threshold for supervision, or to the head of the entity or his/her authorized personnel if the value of the procurement does not reach the threshold.

The inspectors may, as they deem necessary, disassemble the covered parts of a construction work or property for inspection or conduct analytical inspection thereof.

Article 73

For a construction work or property which has passed the inspection and acceptance, the inspection and supervision personnel shall sign on the certificate of settlement and acceptance.

The provision of the preceding paragraph shall apply *mutatis mutandis* to the inspection and acceptance of services.

Chapter VI

Protest and Complaint

Article 74

For any dispute between an entity and a supplier arising out of the invitation to tender, the evaluation of tender, the award of contract, the contract performance, or the inspection and acceptance, a protest or complaint may be filed in accordance with this chapter except for the disputes of the nature of private law and having been resorted to arbitration, mediation, or civil procedures by the entity or the contractor.

Article 75

A supplier may, in the period as specified below, file a protest in writing with an entity if the supplier deems that the entity is in breach of laws or regulations or of a treaty or an agreement to which this nation is a party (hereinafter referred to as the "Laws and Regulations") so as to impair the supplier's rights or interest in a procurement.

1. Where the protest is filed for the content of the tender documentation, one quarter of the period for tendering starting from the date of publication or invitation to tender and a segment of less than one day shall be counted as one day; provided that the whole period shall not be less than ten days;
2. Where the protest is filed for the interpretations, subsequent explanations, amendments or supplements of the tender documentation, ten days from the date of receipt of the notification from an entity or the date of public notice given by the entity; or
3. Where the protest is filed for the procedures or the outcome of the procurement, ten days from the date of receipt of the notification from an entity or the date of public notice given by the entity; or ten days from the date when said procedures or outcome are known or can be known if such procedures or outcome are not notified or published; provided that the period shall not exceed fifteen days from the date of the award of contract for matters of invitation to tender, the evaluation of tender, or the award of contract.

The entity inviting tenders shall make proper disposition and notify the protesting supplier in writing of such disposition within 20 days from the date of receipt of the protest. In case that such disposition involves amendment or supplement to the content of the tender documentation, the entity shall publish a notice concerning such amendment or supplement, or notify each supplier in writing for cases of soliciting technical proposals and price proposals under the selective tendering procedures and for cases of limited tendering procedures, and may extend the time-limit for tendering if required.

Article 76

Where the value of procurement reaches the threshold for publication, a supplier may file a written complaint with the Complaint Review Board for Government Procurement ("CRBGP") as established by the responsible entity, or the municipal or the county (city) governments, depending upon the procurement is conducted at the level of central government or local government, within fifteen days

from the date of receipt of the disposition if the supplier objects to the disposition, or from the expiry of the period specified in paragraph two of the preceding Article if the entity fails to dispose the case within the period. A local government which does not establish a CRBGP may entrust the responsible entity to handle the complaint.

Article 77

The complaining supplier shall prepare a written complaint including the following particulars and affix its signature or seal thereon:

1. The name, address and telephone number of the complaining supplier and the name, gender, birth date, and domicile or residence of the responsible person;
2. The entity which handled the protest;
3. The facts and reasons of the complaint;
4. Evidence; and
5. Year, month, and day of the written complaint.

The complaint can be filed by an agent on behalf of the complainant, and the agent shall submit a power of attorney indicating the name, gender, birth date, occupation, telephone number and domicile or residence of the agent.

The provision of Article 70 of the Code of Civil Procedure shall apply *mutatis mutandis* to the situation referred to in the preceding paragraph.

Article 78

When filing a complaint, the supplier shall also provide a copy of the complaint to the entity. The entity shall present its response in writing to the competent CRBGP within ten days from the date of receipt of such copy.

The CRBGP shall complete its review within forty days upon receipt of the complaint, and shall notify the supplier and the entity of its decision in writing. If necessary, the foregoing period may be extended for another forty days for complaints arising out of the invitation to tender, the evaluation of tender, or the award of contract, or for another three months for complaints arising out of the contract performance or the inspection and acceptance.

Article 79

A complaint shall not be accepted if it is filed beyond the statutory period or is not in conformity with the statutory procedures or format. However, if the aforementioned errors can be corrected, the complainant shall be allowed to make the correction within a specified time-limit. Failure to make the correction within the time-limit shall render the complaint unacceptable.

Article 80

The review of a complaint with respect to a procurement may be conducted only with files.

The CRBGP may, *ex officio* or upon request, inform a complaining supplier or an entity to present their opinions orally at a place designated by the CRBGP.

In conducting a review, the CRBGP may entrust government authorities, schools, associations, or persons that have professional knowledge and experience to provide examination services, and may also call the relevant persons for explanations or request the entity or the supplier to provide relevant documents and materials.

The CRBGP may collect from the supplier review fees, examination fees, and other necessary expenses before conducting a review. The schedules of such fees and expenses and the methods of payment shall be prescribed by the responsible entity.

The rules for the review of complaints shall be prepared by the responsible entity and be promulgated after approval of the Executive Yuan.

Article 81

A supplier may withdraw its complaint at any time before the service of a review decision. Once a complaint is withdrawn, the complainant is barred from submitting another complaint in respect of the same matter.

Article 82

A review decision prepared by the CRBGP shall be in writing, contain the facts and reasons, and indicate whether the procurement was conducted by the procuring entity in a manner that is in breach of Laws and Regulations. Where there is a breach, the CRBGP may recommend to the procuring entity ways to proceed.

The CRBGP may, before completion of review, notify the procuring entity to suspend the procuring procedures, if necessary.

The CRBGP shall take the public interest, the interest of the relevant suppliers, and other relevant circumstances into account when making a recommendation or notification under the preceding two paragraphs.

Article 83

A review decision may be deemed as a decision on an administrative petition or a proposal under mediation based on its nature, with a time-limit for appeal or objection noted in it.

Articles 417 and 418 of the Code of Civil Procedure shall apply *mutatis mutandis* to the latter situation as referred to in the preceding paragraph.

Where a time-limit for appeal or objection referred to in paragraph one is not noted or noted erroneously in a review decision, the time-limit shall be extended to one year.

Article 84

Where a procuring entity deems that a protest or complaint filed by a supplier is justifiable after reviewing the causes related thereto, the procuring entity shall nullify or change the initial result or suspend the procurement procedures, except for emergencies or public interest, or where the causes of complaint or protest are not likely to affect the procurement.

The procuring entity shall promptly notify the competent CRBGP of any outcome arising from the action it takes according to the preceding paragraph in response to a complaint.

Article 85

Where a review decision specifies that the procuring entity is in breach of Laws and Regulations, the procuring entity shall proceed with a lawful alternative.

Where the procuring entity does not follow the recommendation made by the CRBGP, it shall report the case to the superior entity for approval, and the superior entity shall provide a written explanation with reasons to the CRBGP and the supplier if the superior entity so approves.

Where the circumstance set forth in paragraph one occurs, the supplier may request the procuring entity to reimburse the necessary expenses incurred by the supplier for the preparation of tender and the filing of protest and complaint.

Article 86

In order to handle the complaints filed by suppliers for procurement at the levels of central government and local government, CRBGPs established by the responsible entity and the municipal

and the county (city) governments at each level respectively shall consist seven to fifteen members selected from persons impartial and of the professional knowledge in legal or procurement affairs and appointed by the responsible entity or the municipal or county (city) governments. Two of such members may be high-ranking officials of the responsible entity or the municipal or county (city) governments.

The CRBGP shall perform its official duties impartially. The rules governing the organization of CRBGP shall be prepared by the responsible entity and submitted to the Executive Yuan for approval and promulgation.

Chapter VII Penal Provisions

Article 87

A person who commits violence or threat, or administers drugs, or applies hypnosis with the intent to cause a supplier not to tender or to tender contrary to its real intention, or cause the winning tenderer to forego the award or to assign or subcontract after award shall be punished with imprisonment for not less than one year but not more than seven years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed.

If death results from the offense specified in the preceding paragraph, the offender shall be punished with imprisonment for life or for not less than seven years; if serious bodily injury results therefrom, the offender shall be punished with imprisonment for not less than three years but not more than ten years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed.

A person who commits fraud or uses any other illegal means to make the supplier unable to tender or cause the opening of tenders to have an incorrect result shall be punished with imprisonment for not more than five years; in addition thereto, a fine of not more than one million New Taiwan Dollars may be imposed.

A person who causes the supplier not to tender or not to proceed with price competition by means of contract, agreement or other forms of meeting of minds, with the intent to adversely affect the price of award or to gain illegal benefits, shall be punished with imprisonment for not less than six months but not more than five years; in addition thereto, a fine of not more than one million New Taiwan Dollars may be imposed.

An attempt to commit an offense specified in paragraphs one, three or four is punishable.

Article 88

The personnel of a supplier who is entrusted by an entity to conduct planning, design, project management, or procurement but imposes improper restrictions as to the tendering requirements of technologies, technical methodology, materials, or equipment with the intent to gain personal illegal benefits, and thereby obtains benefits, shall be punished with imprisonment for not less than one year but not more than seven years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed. In addition, the foregoing personnel who imposes improper restrictions as to the qualifications of tenderers with the intent to gain personal illegal benefits and thereby obtains benefits, shall be subject to the same punishment.

An attempt to commit an offense specified in the preceding paragraph is punishable.

Article 89

The personnel of a supplier who is entrusted by an entity to conduct planning, design, project management, or procurement but discloses or delivers confidential documents, drawings, information, things, or any other data related to the procurement with the intent to gain personal illegal benefits,

and thereby obtains benefits, shall be punished with imprisonment for not more than five years or detention; in lieu thereof or in addition thereto, a fine of not more than one million New Taiwan Dollars may be imposed.

An attempt to commit an offense specified in the preceding paragraph is punishable.

Article 90

A person who commits violence or threat with the intent to cause the personnel of an entity who is engaged in planning, design, handling, or supervision of a procurement, or the personnel of a supplier who is entrusted by an entity either to provide services of planning, design, or project management of a procurement or to conduct its procurement, not to decide on matters with respect to the procurement or to decide on such matters contrary to his/her own mind, shall be punished with imprisonment for not less than one year but not more than seven years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed.

If death results from the offense specified in the preceding paragraph, the offender shall be punished with imprisonment for life or for not less than seven years; if serious bodily injury results therefrom, the offender shall be punished with imprisonment for not less than three years but not more than ten years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed.

An attempt to commit an offense specified in paragraph one is punishable.

Article 91

A person who commits violence or threat with the intent to cause the personnel of an entity who is engaged in planning, design, handling, or supervision of a procurement, or the personnel of a supplier who is entrusted by an entity either to provide services of planning, design, or project management of a procurement or to conduct its procurement, disclose or deliver the confidential documents, drawings, information, things, or any other data related to the procurement, shall be punished with imprisonment for not more than five years; in addition thereto, a fine of not more than one million New Taiwan Dollars may be imposed.

If death results from the offense specified in the preceding paragraph, the offender shall be punished with imprisonment for life or for not less than seven years; if serious bodily injury results therefrom, the offender shall be punished with imprisonment for not less than three years but not more than ten years; in addition thereto, a fine of not more than three million New Taiwan Dollars may be imposed respectively.

An attempt to commit an offense specified in paragraph one is punishable.

Article 92

Where a representative, agent, employee, or any other staff of a supplier who, in performing his/her duty, commits an offense specified in this Law, the wrongdoer shall be subject to the punishment prescribed in the relevant Articles; in addition thereto, the supplier shall also be subject to the fine prescribed therein.

Chapter VIII Supplemental Provisions

Article 93

An entity may execute an inter-entity supply contract with a supplier for the supply of property or services that are commonly needed by entities.

Article 94

An entity conducting an evaluation shall establish an evaluation committee in which there shall be five to seventeen members and at least one third of the members shall be experts and scholars. A recommended roster of experts and scholars shall be prepared jointly by the responsible entity, the Ministry of Education, the Ministry of Examination, and other relevant entities.

The rules governing the organization of and the rules for review by the evaluation committee shall be prescribed by the responsible entity.

Article 95

It is preferred for an entity to conduct its procurement by professional procurement personnel. The rules for the above shall be prescribed jointly by the Executive Yuan and the Examination Yuan.

Article 96

An entity may provide in the tender documentation that preference shall be given to a product which has been permitted to use a label of environment protection approved by the government, and in addition has the same or similar functions. The said preference may include a price preference of not exceeding ten percent. Such preference shall also be given where a product or its raw material is manufactured, used, and disposed in line with the requirements of recycling materials, retrievableness, low pollution, or energy-saving.

The preceding paragraph shall apply *mutatis mutandis* to other products which either increase social benefits or reduce social costs, and have the same or similar functions required.

The categories and coverage of products referred to in the two preceding paragraphs and the implementing rules thereof shall be jointly prescribed by the responsible entity, the Environmental Protection Administration of the Executive Yuan, and other competent entities.

Article 97

The responsible entity may take into account the requirements of the relevant laws and regulations to adopt measures assisting small and medium enterprises in contracting or subcontracting to the extent not less than certain percentage of government procurement in value.

Article 98

A winning tenderer who hires more than 100 employees locally shall employ the handicapped or the aborigines to a minimum of two percent of the total number of employees during the term of contract performance; otherwise, shall pay a fee in substitute.

Article 99

Unless otherwise provided for by other laws, the provisions of this Law shall apply to the procedures under which an entity selects an investor to construct or operate a project approved by the competent authority to be open for private investment, provided that the project is one in transportation, energy, environment protection, tourism, etc., and planned or approved by the government.

Article 100

The responsible entity, the superior entity, and the accounting entity may supervise an entity at any time concerning the progress of procurement, inventory, or service conditions of the subject procured, and may also demand the entity to submit a report.

An entity may transfer its surplus property which is still usable to other government agencies or public schools without charge.

Article 101

Where a procuring entity finds that a supplier has any of the following circumstances, the entity shall notify the supplier the facts and reasons related thereto, and indicate with a note in the

notification that it will be published on the Government Procurement Gazette if the supplier does not file a protest:

1. Where the supplier allows any others to borrow its name or certificate to participate in a tender;
2. Where the supplier assumes any other's name or certificate to tender, or tenders with forged documents or documents with unauthorized alteration;
3. Where the supplier has substantially reduced the work or materials without obtaining a prior approval;
4. Where the supplier has been proved to forge or alter without authorization documents related to tendering, contracting, or contract performance;
5. Where the supplier participates in tendering during the period when its business operation has been suspended by a disciplinary action;
6. Where the supplier has committed any of the offenses prescribed in Articles 87 to 92 hereof, and has been sentenced without probation by a court of the first instance;
7. Where the supplier refuses to execute or perform a contract without due cause after award;
8. Where a contract is rescinded or terminated for causes attributable to the supplier;
9. Where an inspection indicates any non-conformity with the contractual requirements, and the supplier fails to file a protest or complaint, or bring an action or take measures according to the relevant requirements within a time-limit specified in notice;
10. Where the supplier is in breach of the requirement of Article 65 by assigning a contract to others;
11. Where the time-limit for contract performance is seriously delayed due to causes attributable to the supplier;
12. Where the supplier is under the procedure of reorganization or bankruptcy; or
13. Where the supplier seriously discriminates women, aborigines, or personnel of disadvantaged groups.

Article 102

A supplier who deems that the notification made by an entity according to the preceding Article is in breach of this Law or untrue may file a written protest to the entity within twenty days upon receipt of the notification.

The supplier may file a written complaint with the competent CRBGP within fifteen days from the date of receipt of the disposition of the protest referred to in the preceding paragraph if the supplier objects to the disposition, or from the expiry of a period of twenty days starting from the date the entity receives the protest if the entity fails to dispose the case within such period, no matter whether the procurement is of a value reaching the threshold for publication or not.

Where an entity has notified a supplier pursuant to the preceding Article and the supplier does not file a protest or complaint within the prescribed time-limit, or the complaint filed is not accepted, or the review decision indicates that the notification is not in breach of this Laws or untrue, the entity shall immediately publish the name of the supplier and the relevant circumstance on the Government Procurement Gazette.

The provisions prescribed in Chapter VI hereof shall apply *mutatis mutandis* to the handling of protests and complaints provided for in paragraphs one and two.

Article 103

A procuring entity shall provide in a tender documentation that a supplier whose name has been published on the Government Procurement Gazette pursuant to paragraph three of the preceding Article is prohibited from participating in tendering, or being awarded or sub-contracted within the following periods:

1. Three years from the date of publication arising from circumstances of sub-paragraphs 1 to 5 of Article 101 hereof, or a sentence of imprisonment under sub-paragraph 6 of the same Article; provided that under the circumstance of sub-paragraph 6 of Article 101, the period shall be suspended where there is a final and irrevocable “not guilty” verdict; or
2. One year from the date of publication arising from circumstances of sub-paragraphs 7 to 13 of Article 101 hereof; or imposition of detention, fine, or probation under sub-paragraph 6 of the same Article; provided that the period shall be suspended where the supplier has been completed its reorganization procedure.

Where there is a special need for an entity to conduct a procurement without following the requirement of the preceding paragraph, the entity may do so with an approval from its superior entity.

Article 104

Procurement conducted by military entities shall follow the provisions of this Law except where procurement is for weapons, ammunition, war supplies, or related to national security or national defense and has one of the following situations:

1. Where this nation is confronted with a war, in mobilization for a war, or in a war, this Law may not apply;
2. Where the procurement is a confidential or strictly confidential one, Articles 27, 45 and 61 hereof may not apply;
3. Where there is an emergency which may jeopardize an important military mission, Articles 26, 28, and 36 may not apply; or
4. Where there is only one supplier invited for tendering, the first sentence of paragraph 3 of Articles 26 may not apply.

The coverage of procurement referred to in the preceding paragraph and the implementation rules thereof shall be prescribed jointly by the responsible entity and the Ministry of National Defense, and be sent to the Legislative Yuan for reviewing.

Article 105

The provisions of invitation to tender and award of contracts of this Law may not apply to the following procurement:

1. Where the procurement is an emergent one in response to wars, natural disasters, epidemics, or economic or financial crises confronted by this nation;
2. Where the procurement is an emergent one in response to imminent danger to the life, body, health, or property of the people;
3. Where the procurement is an acquisition of property or service between governmental entities and approved by an immediate superior entity; or

4. Where the procurement from an international organization, a foreign government, or any of their authorized institutions is conducted in accordance with a treaty or agreement to which this nation is a party and which has specific provisions for the invitation to tender and award of contracts.

Where it is necessary to prescribe implementing rules for procurement referred to in the preceding paragraph, the rules shall be prescribed by the responsible entity.

Article 106

Except otherwise prohibited by the treaties or agreements to which this nation is a party, a procurement conducted by an entity stationed abroad either for itself or as agent may be exempt from the provisions of the following sub-paragraphs in response to local circumstances or the constraint of local practices, provided that the ways to handle the matters referred to in the following sub-paragraphs 2 through 4 shall be specified in the tender documentation.

1. The publication on the Government Procurement Gazette under Article 27 hereof;
2. The bid bond and guarantee bond under Article 30 hereof;
3. The granting of priority in price reduction, and price reduction and comparison under paragraph one of Article 53 and Article 54 hereof; and
4. The protest and complaint set forth in Chapter VI hereof.

Where a procurement referred to in the preceding paragraph is of a value reaching the threshold for supervision, a report explaining the reasons shall be submitted to the superior entity together with relevant documents for file afterwards.

Article 107

An entity shall, in addition to the documents kept pursuant to the requirements of the Accounting Law or other laws, keep a copy of the procurement documents at a place designated by the responsible entity.

Article 108

The central, municipal, and county (city) governments shall each establish procurement control unit(s) to monitor and supervise procurement affairs.

The rules governing the organization as well as the rules of operation of the control unit referred to in the preceding paragraph shall be prescribed by the responsible entity, and submitted to the Executive Yuan for approval and promulgation.

Article 109

For procurement conducted by an entity, an auditing entity may audit it at any time.

Article 110

The Controller of the Directorate-General of Budget, Accounting and Statistics, the Controller of the Ministry of Audit, or the Prosecutor of the Ministry of Justice may bring an action, join the parties of an action, or appeal on behalf of an entity for a procurement case.

Article 111

An entity shall report annually to the responsible entity the service condition and the efficiency analysis of a subject procured in a large procurement during the service period, and the responsible entity may send its personnel to inspect for verification.

The responsible entity shall have an annual efficiency analysis for the important procurement that have been done, and the outcomes shall be published on the Government Procurement Gazette except those shall be confidential.

Article 112

The responsible entity shall prescribe ethics codes for the procurement personnel.

Article 113

The implementation rules of this Law shall be prescribed by the responsible entity.

Article 114

This Law shall take effect one year after promulgation.

Note: In case of discrepancies between the Chinese version and this English version, the Chinese version shall prevail.

NOTIFICATION OF NATIONAL IMPLEMENTING LEGISLATION

Communication from Latvia

The following communication has been received from the Permanent Mission of the Republic of Latvia with the request that it be circulated to the Committee on Government Procurement.

With reference to the draft offer of the Republic of Latvia, contained in document GPA/SPEC/5 of 22 June 1999, in relation to the accession of the Republic of Latvia to the Agreement on Government Procurement, I have pleasure in submitting the following information on Latvian government procurement legislation.

LEGISLATION¹

1. Law on State and Local Government Procurement of 24 October 1996.
2. Regulations of the Cabinet of Ministers No. 98 of 18 March 1997 "Regulations on Tendering Procedures and Competitions of Awarding State and Local Government Procurement".
3. Regulations of the Cabinet of Ministers No. 99 of 18 March 1997 "Regulations on Awarding State and Local Government Contracts by the Request for Quotations Method".
4. Regulations of the Cabinet of Ministers No. 100 of 18 March 1997 "Documentation Procedures for the State and Local Government Procurement Awarding Process".
5. Regulations of the Cabinet of Ministers No. 101 of 18 March 1997 "Regulations on Examination of Complaints in Relation to the Awarding of State and Local Government Contracts".

¹ Available for consultation in the Secretariat (Office No. 3012) and on the government procurement page of the WTO website (<http://www.wto.org/wto/govt>).

CHECKLIST OF ISSUES

I. GENERAL ELEMENTS

1. *Has the Agreement been transposed into national law and/or does it apply directly?*

The Agreement has been transposed into national law. In addition, if an international treaty which has been ratified by Saeima provides for provisions that differ from the provisions of Law on State and Local Government Procurement, the provisions of the international Agreement shall be applied (Section 4 of the Law on state and Local Government Procurement).

2. *In the case that entities below the federal or central state level are covered: are these categories of entities autonomous from federal or central state level government in the implementation of the Agreement?*

These categories of entities are autonomous in the implementation of the Agreement, but the Government has the right to control them.

3. *In the case that Annex 3 entities are covered: are these categories of entities autonomous in the implementation of the Agreement or do they apply the legislation provided by the federal/central or sub-central level?*

It is provided that Annex 3 entities will apply a new "Law on Works, Supplies, Lease and Services Procured by Public Utilities" which is submitted in Saeima (Parliament). Saeima has passed the first reading and it is prepared for the second reading.

4. *Which main differences (if any) exist between the implementing laws at the federal or central level, the sub-central level and for Annex 3 entities?*

There is no difference.

5. *To what extent is information technology used in the process of government procurement?*

Invitation for tendering (competition) shall be published in the government official newspaper "Latvijas Vestnesis", which is also available electronically on the Internet (www.lv-laiks.lv).

II. SPECIFIC ELEMENTS

6. *Identify the specific provisions in your legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

Principles of national treatment and non-discrimination are reflected in Section 6 of the Law on State and Local Government Procurement.

7. *Article IX:2 of the Agreement foresees that the invitation to participate may take the form of a notice of proposed procurement. If your implementing legislation provides for this opportunity, give details.*

According to Section 15 of the Law on State and Local Government Procurement the tender notice has to follow certain models. The tender notice shall give details of the project, provide where and when the tenders shall be delivered and call for tenders or suppliers who wish to be considered to make tenders.

8. *Article IX:3 of the Agreement foresees that entities at the sub-central level as well as Annex 3 entities may use a notice of planned procurement or a notice regarding a qualification system as an invitation to participate. If your implementing legislation provides for this opportunity, give details.*

Latvian legislation does not provide for such an opportunity.

9. *In the case of selective tendering procedures: to what extent are entities allowed to use permanent list of suppliers or is there a requirement for list of suppliers to be selected on a contract-by-contract bases?*

Latvian legislation does not provide for use of permanent list of suppliers, the list of suppliers is selected on a contract-by-contract basis.

10. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

Negotiation process is foreseen in Section 24 of the Law on State and Local Government Procurement. The confidentiality of these negotiations shall be guaranteed.

11. *Article XI contains the time-limits for tendering and delivery. Time-limits shall normally be "not less than X days". Does the domestic legislation reflect the various minimum time-limits as set out in the Agreement? If not, give information or any longer time-limits which have been established.*

In tender (competition) procedures the time-limit for receipt of tenders shall not be less than 40 days from the publishing of notice. In urgent cases, the time-limit could be set shorter, but not less than 10 days. The time-limit for delivery is not fixed.

12. *To what extent does the implementing legislation allow entities, in pursuance of Article XII:1, to permit tenders to be submitted in several languages (one of which has to be a language of the WTO)? To what extent do entities use this flexibility?*

The entities are allowed to permit tenders to be submitted in any language parallel to the Latvian language, which is the official language in Latvia.

III. CHALLENGE PROCEDURES – ARTICLE XX

13. *Paragraph 3 of Article XX requires each Party to provide its challenge procedures in writing and make them generally available. Please provide this information.*

Section 30 of the Law on State and Local Government Procurement states that:

1. Any competitor that claims to have suffered loss or other damage due to an infringement of this Law by the procuring entity in the procurement proceedings may seek review except in cases mentioned in Paragraph 3 of this Article.
2. The complaints may be submitted to administrative institutions in accordance with the Regulations on Review for Public Procurement approved by the Cabinet of Ministers.

3. The following activities of the procuring entity shall not be subject to the review:
 - 3.1. the selection of a method of procurement;
 - 3.2. the selection of methods and criteria for comparison and evaluation of offers;
 - 3.3. the setting of limitations on the basis of nationality of competitors;
 - 3.4. the rejection of all offers;
 - 3.5. the selection of methods and criteria for checking the qualification of competitors;
 - 3.6. organizing of a request for proposals as a closed competition.
4. The decisions of state and municipal institutions on the submitted complaints may be subject to juridical review in the manner set by current legislation - e.g. in the regular court.

14. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so.*

- (i) *The time-limit to launch a complaint contained in the Agreement is "not less than 10 days". What are the limits in domestic legislation?*

The time-limit to launch a complaint in domestic legislation is 30 days.

- (ii) *What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:*

- *How are its members selected?*
- *Are its decisions subject to judicial review?*
- *If not, how are the requirements of paragraph 6 of Article XX taken into account?*

The Court is responsible for challenge procedures.

- (iii) *What is the applicable law by reference to which the challenge body will examine complaints?*

- Law on State and Local Government Procurement;
- Cabinet Regulations:
 - Regulations about Tendering and Competitions for Awarding a State and Local Government Procurement;
 - Regulations about Price Poll for Awarding a State and Local Government Procurement, Documentation Procedure of Awarding a State and Local Government Procurement;
- Law On the Procedures for Examination of Applications, Complaints and Proposals in State and Local Government Institutions;
- Civil Code;
- Civil Process Code.

(iv) Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial conditions?

- Do these measures include the possibility to suspend the procurement process? On what conditions?

The Law on State and Local Government Procurement doesn't foresee such rapid interim measures.

(v) How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?

Only a court may order compensation for losses and damages.

(vi) Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.

The complaint shall be examined within 15 days from the moment of its receipt by the institution. If deemed necessary, it is possible to extend the complaint processing term by another period of 15 days.

(vii) What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?

In the Court, the complainant must cover the state fee to conduct a challenge procedure. The fee depends on the value of the claim.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT
PAGES IN THE LOOSE-LEAF SYSTEM FOR APPENDICES
CONTAINING THE CERTIFIED MODIFICATIONS

I have the honour to furnish herewith certified true copies of replacement pages 1/5 to 5/5 of Annex 3 to Appendix I containing the certified modifications.

The modifications concern **Japan** and are effective as of **7 October 2005**.

Pascal Lamy
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/W/274) on 23 September 2003 pursuant to the procedures of Article XXIV:6, became effective as of **7 October 2005**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 to 5/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each Party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twentieth day of October, two thousand and five.

Pascal Lamy

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT
PAGES IN THE LOOSE-LEAF SYSTEM FOR APPENDICES
CONTAINING THE CERTIFIED MODIFICATIONS

I have the honour to furnish herewith certified true copies of replacement pages 1/5 to 5/5 of Annex 3 to Appendix I containing the certified modifications.

The modifications concern **Japan** and are effective as of **12 October 2005**.

Pascal Lamy
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/MOD/JPN/21) on 12 September 2005 pursuant to the procedures of Article XXIV:6, became effective as of **12 October 2005**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 to 5/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each Party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twentieth day of October, two thousand and five.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT PAGES
IN THE LOOSE-LEAF SYSTEM FOR APPENDICES
CONTAINING THE CERTIFIED MODIFICATIONS

I have the honour to furnish herewith certified true copies of replacement page 1/4 of Appendix III (in English, French and Spanish) containing the certified modifications.

The modifications concern **Hong Kong, China** and are effective as of **15 August 2005**.

Pascal Lamy
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS

It is hereby certified that the modifications to Appendix III of the Agreement on Government Procurement (1994) concerning **Hong Kong, China**, which were notified to the Committee on Government Procurement (GPA/MOD/HKG/3) on 15 July 2005 pursuant to the procedures of Article XXIV:6, became effective as of **15 August 2005**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace page 1/4 of Appendix III (in English, French and Spanish) of **Hong Kong, China** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with Article XXIV:14 of the Agreement on Government Procurement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this eighth day of September, two thousand and five.

Pascal Lamy

**TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT PAGES
IN THE LOOSE-LEAF SYSTEM FOR APPENDICES CONTAINING
THE CERTIFIED MODIFICATIONS TO THE AGREEMENT**

I have the honour to furnish herewith a certified true copy of replacement page 1/2 of Annex 3 to Appendix I containing the certified modifications.

The modifications concern **Korea** and became effective as of **26 May 2005**.

Supachai Panitchpakdi
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Korea**, which were notified to the Committee on Government Procurement (GPA/W/207) pursuant to the procedures of Article XXIV:6, became effective as of **26 May 2005**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement page to the loose-leaf system. Accordingly, the attached page replaces page 1/2 of Annex 3 to Appendix I of **Korea** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

The certification is deposited with the Director-General of the World Trade Organization, who hereby furnishes a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this ninth day of June, two thousand and five.

I have the honour to furnish herewith certified true copies of replacement page 1/1 of the Note to Appendix I containing the certified modifications.

The modifications concern **Israel** and are effective as of **16 December 2004**.

Supachai Panitchpakdi
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to the Note to Appendix I of the Agreement on Government Procurement (1994) concerning **Israel**, pursuant to the Decision of the Committee on Government Procurement (GPA/83) and to the procedures of Article XXIV:6, became effective as of **16 December 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached page replaces the Note to Appendix I of **Israel** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each Party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fifth day of January, two thousand and five.

Supachai Panitchpakdi

Director-General

NOTE

Offset

1. Having regard to Article XVI and to general policy considerations regarding development, Israel may operate provisions which require the limited incorporation of domestic content, offset procurement or transfer of technology, in the form of objective and clearly defined conditions for participation in procedures for the award of contracts, which do not discriminate between other Parties.

This shall be done under the following terms:

- (a) Israel shall ensure that its entities indicate the existence of such conditions in their tender notices and specify them clearly in the contract documents.
 - (b) Suppliers will not be required to purchase goods that are not offered on competitive terms, including price and quality, or to take any action which is not justified from a commercial standpoint.
 - (c) Offsets in any form may be required up to 35 per cent of the contract going down to 30 per cent after five years and 20 per cent after ten years, beginning from the date Israel implements the Agreement.
2.
 - (a) At the end of each period of five years Israel will submit a report concerning the implementation of this Note.
 - (b) When the level of the offset has reached 20 per cent, Israel will consult with the Parties to this Agreement on the level of the use of offset by Israel. The review shall take into consideration *inter alia* general and economic developments in Israel, its trade balance, the actual performance within the framework of this Agreement and the views of the other Parties.

Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Korea**, which were notified to the Committee on Government Procurement (GPA/W/250 and GPA/MOD/KOR/1) pursuant to the procedures of Article XXIV:6, became effective as of **6 October 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement page to the loose-leaf system. Accordingly, the attached page replaces page 1/2 of Annex 3 to Appendix I of **Korea** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

The certification is deposited with the Director-General of the World Trade Organization, who hereby furnishes a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twentieth day of October, two thousand and four.

80. Department of Defense, including the Corps of Army Engineers

This Agreement will not apply to the following purchases of the Department of Defense:

- (a) Federal Supply Classification (FSC) 83 - all elements of this classification other than pins, needles, sewing kits, flagstaffs, flagpoles, and flagstaff trucks;
- (b) FSC 84 - all elements other than sub-class 8460 (luggage);
- (c) FSC 89 - all elements other than sub-class 8975 (tobacco products);
- (d) FSC 2310 - (buses only);
- (e) Speciality metals, defined as steels melted in steel manufacturing facilities located in the United States or its possessions, where the maximum alloy content exceeds one or more of the following limits, must be used in products purchased by DOD: (1) manganese, 1.65 per cent; silicon, 0.60 per cent; or copper, 0.06 per cent; or which contains more than 0.25 per cent of any of the following elements: aluminium, chromium, cobalt, columbium, oylbdenum, nickel, titanium, tungsten, or vanadium; (2) metal alloys consisting of nickel, iron-nickel and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10 per cent; (3) titanium and titanium alloys; or (4) zirconium base alloys;
- (f) FSC 19 and 20 - that part of these classifications defined as naval vessels or major components of the hull or superstructure thereof;
- (g) FSC 51 and 52;
- (h) Following FSC categories are not generally covered due to application of Article XXIII, paragraph 1: 10, 12, 13, 14, 15, 16, 17, 19, 20, 28, 31, 58, 59, 95.

This Agreement will generally apply to purchases of the following FSC categories subject to United States Government determinations under the provisions of Article XXIII, paragraph 1.

ANNEX 3

*All Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Threshold: 400,000 SDRs for supplies and services (except as specified below)
5 million SDRs for construction

List of Entities:

The following entities at the SDR equivalent of \$250,000 for supplies and services:

Tennessee Valley Authority

Power Marketing Administrations of the Department of Energy

- Bonneville Power Administration
- Western Area Power Administration
- Southeastern Power Administration
- Southwestern Power Administration
- St. Lawrence Seaway Development Corporation

The following entities are 400,000 SDRs for supplies and services:

The Port Authority of New York and New Jersey with the following exceptions:

- Maintenance, repair and operating materials and supplies (e.g., hardware, tools, lamps/lighting, plumbing);
- In exceptional cases, individual procurements may require certain regional production of goods if authorized by the Board of Directors;
- Procurements pursuant to multi-jurisdictional agreement (i.e., for contracts which have initially been awarded by other jurisdictions).

The Port of Baltimore (subject to the conditions specified for the state of New York in Annex 2)

The New York Power Authority (subject to the conditions specified for the state of New York in Annex 2)

Rural Utilities Service Financing:

- (1) waiver of Buy American restriction on financing for all power generation projects (restrictions on financing for telecommunication projects are excluded from the Agreement);
- (2) application of Code-equivalent procurement procedures and national treatment to funded projects exceeding the thresholds specified above.

WT/Let/481

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Korea**, which were notified to the Committee on Government Procurement (GPA/W/250 and GPA/MOD/KOR/1) pursuant to the procedures of Article XXIV:6, became effective as of **6 October 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement page to the loose-leaf system. Accordingly, the attached page replaces page 1/2 of Annex 3 to Appendix I of **Korea** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

The certification is deposited with the Director-General of the World Trade Organization, who hereby furnishes a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twentieth day of October, two thousand and four.

77. Federal Crop Insurance Corporation
78. Federal Prison Industries, Inc.
79. Government National Mortgage Association
80. Uranium Enrichment Corporation
81. Department of Defense, including the Corps of Army Engineers

This Agreement will not apply to the following purchases of the Department of Defense:

- (a) Federal Supply Classification (FSC) 83 - all elements of this classification other than pins, needles, sewing kits, flagstuffs, flagpoles, and flagstaff trucks;
- (b) FSC 84 - all elements other than sub-class 8460 (luggage);
- (c) FSC 89 - all elements other than sub-class 8975 (tobacco products);
- (d) FSC 2310 - (buses only);
- (e) Speciality metals, defined as steels melted in steelmanufacturing facilities located in the United States or its possessions, where the maximum alloy content exceeds one or more of the following limits, must be used in products purchased by DOD: (1) manganese, 1.65 per cent; silicon, 0.60 per cent; or copper, 0.06 per cent; or which contains more than 0.25 per cent of any of the following elements: aluminium, chromium, cobalt, columbium, olybdenum, nickel, titanium, tungsten, or vanadium; (2) metal alloys consisting of nickel, iron-nickel and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10 per cent; (3) titanium and titanium alloys; or (4) zirconium base alloys;
- (f) FSC 19 and 20 - that part of these classifications defined as naval vessels or major components of the hull or superstructure thereof;
- (g) FSC 51 and 52;
- (h) Following FSC categories are not generally covered due to application of Article XXIII, paragraph 1: 10, 12, 13, 14, 15, 16, 17, 19, 20, 28, 31, 58, 59, 95.

This Agreement will generally apply to purchases of the following FSC categories subject to United States Government determinations under the provisions of Article XXIII, paragraph 1.

ANNEX 3

*All Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Threshold: 400,000 SDRs for supplies and services (except as specified below)
5 million SDRs for construction

List of Entities:

The following entities at the SDR equivalent of \$250,000 for supplies and services:

Tennessee Valley Authority

Power Marketing Administrations of the Department of Energy

- Bonneville Power Administration
- Western Area Power Administration
- Southeastern Power Administration
- Southwestern Power Administration
- St. Lawrence Seaway Development Corporation

The following entities are 400,000 SDRs for supplies and services:

The Port Authority of New York and New Jersey with the following exceptions:

- Maintenance, repair and operating materials and supplies (e.g., hardware, tools, lamps/lighting, plumbing);
- In exceptional cases, individual procurements may require certain regional production of goods if authorized by the Board of Directors;
- Procurements pursuant to multi-jurisdictional agreement (i.e., for contracts which have initially been awarded by other jurisdictions).

The Port of Baltimore (subject to the conditions specified for the state of New York in Annex 2)

The New York Power Authority (subject to the conditions specified for the state of New York in Annex 2)

Rural Utilities Service Financing:

- (1) waiver of Buy American restriction on financing for all power generation projects (restrictions on financing for telecommunication projects are excluded from the Agreement);
- (2) application of Code-equivalent procurement procedures and national treatment to funded projects exceeding the thresholds specified above.

WT/Let/475

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/MOD/JPN/5) pursuant to the procedures of Article XXIV:6, became effective as of **20 May 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 and 3/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fifth day of June, two thousand and four.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/MOD/JPN/2) pursuant to the procedures of Article XXIV:6, became effective as of **14 April 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 and 3/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fifth day of May, two thousand and four.

WT/Let/471

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/MOD/JPN/3) pursuant to the procedures of Article XXIV:6, became effective as of **16 April 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5, 3/5 and 4/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fifth day of May, two thousand and four.

ex 29.21: toxic products
ex 29.22: toxic products
ex 29.23: toxic products
ex 29.26: explosives
ex 29.27: toxic products
ex 29.29: explosives
- Chapter 30: Pharmaceutical products
- Chapter 31: Fertilizers
- Chapter 32: Tanning and dyeing extracts, tannings and their derivatives, dyes, colours, paints and varnishes, putty, fillers and stoppings, inks
- Chapter 33: Essential oils and resinoids, perfumery, cosmetic or toilet preparations
- Chapter 34: Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes polishing and scouring preparations, candles and similar articles, modelling pastes and 'dental waxes'
- Chapter 36 Explosives, pyrotechnic products, matches, pyrophoric alloys, certain combustible preparations (only Austria and Sweden)
- except (only Austria)
ex 36.01: propellant powders
ex 36.02: prepared explosives
ex 36.04: detonators
ex 36.08: explosives
- Chapter 35: Albuminoidal substances, glues, enzymes
- Chapter 37: Photographic and cinematographic goods
- Chapter 38: Miscellaneous chemical products
- except:
ex 38.19: toxic products (Not for Sweden)
- Chapter 39: Artificial resins and plastic materials, cellulose esters and ethers, articles thereof
- except:
ex 39.03: explosives (Not for Sweden)

- Chapter 40: Rubber, synthetic rubber, factice, and articles thereof
except:
ex 40.11: bullet-proof tyres (Not for Sweden)
- Chapter 41: Raw hides and skins (other than furskins) and leather: (Not for Austria)
- Chapter 42: Articles of leather, saddlery and harness, travel goods, handbags and similar containers, articles of animal gut (other than silk-worm gut): (Not for Austria)
- Chapter 43: Furskins and artificial fur, manufactures thereof
- Chapter 44: Wood and articles of wood, wood charcoal: (Not for Austria)
- Chapter 45: Cork and articles of cork
- Chapter 46: Manufactures of straw of esparto and of other plaiting materials, basketware and wickerwork
- Chapter 47: Paper-making material
- Chapter 48: Paper and paperboard, articles of paper pulp, of paper or of paperboard: (Not for Austria)
- Chapter 49: Printed books, newspapers, pictures and other products of the printing industry, manuscripts, typescripts and plans: (Not for Austria)
- Chapter 65: Headgear and parts thereof
except (only Austria):
ex 65.05: military headgear
- Chapter 66: Umbrellas, sunshades, walking-sticks, whips, riding-crops and parts thereof
- Chapter 67: Prepared feathers and down and articles made of feathers or of down, artificial flowers, articles of human hair
- Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica and of similar materials
- Chapter 69: Ceramic products
- Chapter 70: Glass and glassware

- Chapter 71: Pearls, precious and semi-precious stones, precious metals, rolled precious metals, and articles thereof; imitation jewellery
- Chapter 72: Coins (only Austria and Sweden)
- Chapter 73: Iron and steel and articles thereof
- Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof
- Chapter 76: Aluminium and articles thereof
- Chapter 77: Magnesium and beryllium and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals employed in metallurgy and articles thereof
- Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal, parts thereof
except:
ex 82.05: tools (Not for Austria)
ex 82.07: tools, parts
ex 82.08: hand tools (only Austria)
- Chapter 83: Miscellaneous articles of base metal
- Chapter 84: Boilers, machinery and mechanical appliances, parts thereof
except:
ex 84.06: engines
ex 84.08: other engines
ex 84.45: machinery
ex 84.53: automatic data-processing machines (Not for Austria)
ex 84.55: parts of machines under heading No 84.53 (Not for Austria and Sweden)
ex 84.59: nuclear reactors (Not for Austria and Sweden)

- Chapter 85: Electrical machinery and equipment, parts thereof
- except:
ex 85.03: electric cells and batteries (only Austria)
ex 85.13: telecommunication equipment
ex 85.15: transmission apparatus
- Chapter 86: Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway tracks fixtures and fittings, traffic signalling equipment of all kinds (not electrically powered)
- except:
ex 86.02: armoured locomotives, electric
ex 86.03: other armoured locomotives
ex 86.05: armoured wagons
ex 86.06: repair wagons
ex 86.07: wagons
- Chapter 87: Vehicles, other than railway or tramway rolling-stock, and parts thereof
- except:
ex 87.08: tanks and other armoured vehicles
ex 87.01: tractors
ex 87.02: military vehicles
ex 87.03: breakdown lorries
ex 87.09: motorcycles
ex 87.14: trailers
- Chapter 88: Aircraft and parts thereof (only Austria)
- Chapter 89: Ships, boats and floating structures
- except:
ex 89.01: warships (only Austria)
ex 89.01 A: warships (except Austria)
ex 89.03: floating structures (only Austria)
- Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus, parts thereof
- except:
ex 90.05: binoculars
ex 90.13: miscellaneous instruments, lasers
ex 90.14: telemeters
ex 90.28: electrical and electronic measuring instruments
ex 90.11: microscopes (Not for Sweden and Austria)

ex 90.17: medical instruments (Not for Sweden and Austria)
ex 90.18: mechano-therapy appliances (Not for Sweden and Austria)
ex 90.19: orthopaedic appliances (Not for Sweden and Austria)
ex 90.20: X-ray apparatus (Not for Sweden and Austria)

- Chapter 91: Clocks and watches and parts thereof
- Chapter 92: Musical instruments, sound recorders or reproducers, television image and sound recorders or reproducers, parts and accessories of such articles
- Chapter 94: Furniture and parts thereof, bedding, mattresses, mattress supports, cushions and similar stuffed furnishings
- except:
ex 94.01 A: aircraft seats (Not for Austria)
- Chapter 95: Articles and manufactures of carving or moulding material
- Chapter 96: Brooms, brushes, powder-puffs and sieves
- Chapter 97: Toys, games and sport requisites, parts thereof (only Austria and Sweden)
- Chapter 98: Miscellaneous manufactured articles

3. LISTE DES MATÉRIELS ACHETÉS PAR LES MINISTÈRES DE LA DÉFENSE DE LA BELGIQUE, RÉPUBLIQUE TCHÉQUE, DANEMARK, ALLEMAGNE, ESTONIE, GRÈCE, ESPAGNE, FRANCE, IRLANDE, ITALIE, CHYPRE, LETTONIE, LITUANIE, LUXEMBOURG, HONGRIE, MALTE, PAYS-BAS, AUTRICHE, POLOGNE, PORTUGAL, SLOVENIE, SLOVAQUIE, FINLANDE, SUEDE ET ROYAUME-UNI, ET SOUMIS À L'ACCORD
--

Chapitre 25: Sel, soufre, terres et pierres, plâtres, chaux et ciments

Chapitre 26: Minerais métallurgiques, scories et cendres

Chapitre 27: Combustibles minéraux, huiles minérales et produits de leur distillation, matières bitumineuses, cires minérales

à l'exception de:

ex 27.10: carburant spéciaux (sauf pour l'Autriche)

fuel-oils de chauffage et carburants (seulement pour l'Autriche)

Chapitre 28: Produits chimiques inorganiques, composés inorganiques ou organiques de métaux précieux, d'éléments radio-actifs, de métaux des terres rares et d'isotopes

à l'exception de:

ex 28.09: explosifs

3. LISTA DE MATERIALES COMPRADOS POR LOS MINISTERIOS DE DEFENSA DE BÉLGICA, REPÚBLICA CHECA, DINAMARCA, ALEMANIA, ESTONIA, GRECIA, ESPAÑA, FRANCIA, IRLANDA, ITALIA, CHIPRE, LETONIA, LITUANIA, LUXEMBURGO, HUNGRÍA, MALTA, PAÍSES BAJOS, AUSTRIA, POLONIA, PORTUGAL, ESLOVENIA, ESLOVAQUIA, FINLANDIA, SUECIA Y EL REINO UNIDO, Y SUJETOS AL ACUERDO

Capítulo 25: Sal, azufre, tierras y piedras, yesos, cales y cementos

Capítulo 26: Minerales metalúrgicos, escorias, cenizas

Capítulo 27: Combustibles minerales, aceites minerales y productos de su destilación, materias bituminosas, ceras minerales

excepto:

ex 27.10: carburantes especiales (salvo Austria)

combustibles para calefacción y carburantes (solamente Austria)

Capítulo 28: Productos químicos inorgánicos, compuestos inorgánicos u orgánicos de metales preciosos, de elementos radioactivos, de metales de las tierras raras y de isótopos

excepto:

ex 28.09: explosivos

ex 28.13: explosivos

ex 28.14: gases lacrimógenos

ex 28.28: explosivos

ex 28.32: explosivos

ex 28.39: explosivos

ex 28.50: productos tóxicos

ex 28.51: productos tóxicos

ex 28.54: explosivos

Capítulo 29: Productos químicos orgánicos

excepto:

ex 29.03: explosivos

ex 29.04: explosivos

ex 29.07: explosivos

ex 29.08: explosivos

ex 29.11: explosivos

ex 29.12: explosivos

ex 29.13: productos tóxicos

ex 29.14: productos tóxicos

- ex 29.15: productos tóxicos
ex 29.21: productos tóxicos
ex 29.22: productos tóxicos
ex 29.23: productos tóxicos
ex 29.26: explosivos
ex 29.27: productos tóxicos
ex 29.29: explosivos
- Capítulo 30: Productos farmacéuticos
- Capítulo 31: Abonos
- Capítulo 32: Extractos curtientes y tintóreos, taninos y sus derivados, materias colorantes, colores, pinturas, barnices y tintes, mástiques, tintas
- Capítulo 33: Aceites esenciales y resinoides, productos de perfumería o de tocador y cosméticos
- Capítulo 34: Jabones, productos orgánicos tensoactivos, preparaciones para lavar, preparaciones lubricantes, ceras artificiales, ceras preparadas, productos para lustrar y pulir, bujías y artículos análogos, pastas para modelar, y "ceras para el arte dental"
- Capítulo 35: Materias albuminoides y colas, enzimas
- Capítulo 36: Pólvoras y explosivos, artículos de pirotecnia, fósforos, aleaciones pirofóricas, materias inflamables (solamente Austria y Suecia)
- excepto (solamente Austria)
ex 36.01: pólvoras de proyección
ex 36.02: explosivos preparados
ex 36.04: detonadores
ex 36.08: explosivos
- Capítulo 37: Productos fotográficos y cinematográficos
- Capítulo 38: Productos diversos de las industrias químicas
- excepto:
ex 38.19: productos tóxicos (salvo Suecia)
- Capítulo 39: Materias plásticas artificiales, éteres y ésteres de la celulosa, resinas artificiales y manufacturas de estas materias
- excepto:
ex 39.03: explosivos (salvo Suecia)

- Capítulo 40: Caucho natural o sintético, caucho facticio y manufacturas de caucho
excepto:
ex 40.11: neumáticos a prueba de bala (salvo Suecia)
- Capítulo 41: Pieles y cuero: (salvo Austria)
- Capítulo 42: Manufacturas de cuero, artículos de guarnicionería y talabartería, artículos de viaje, bolsos de mano y continentes similares, manufacturas de tripas: (salvo Austria)
- Capítulo 43: Peletería y confecciones de peletería, peletería facticia
- Capítulo 44: Madera, carbón vegetal y manufacturas de madera: (salvo Austria)
- Capítulo 45: Corcho y sus manufacturas
- Capítulo 46: Manufacturas de espartería y cestería
- Capítulo 47: Materias utilizadas en la fabricación de papel
- Capítulo 48: Papel y cartón, manufacturas de pasta de celulosa, de papel y de cartón: (salvo Austria)
- Capítulo 49: Artículos de librería y productos de las artes gráficas: (salvo Austria)
- Capítulo 65: Sombreros y demás tocados y sus partes componentes
excepto (solamente Austria):
ex 65.05: sombreros, gorras y demás tocados militares
- Capítulo 66: Paraguas, quitasoles, bastones, látigos, fustas y sus partes componentes
- Capítulo 67: Plumas y plumón preparados y artículos de pluma o de plumón, flores artificiales, manufacturas de cabellos
- Capítulo 68: Manufacturas de piedra, yeso, cemento, amianto, mica y materias análogas

- Capítulo 71: Perlas finas, piedras preciosas y semipreciosas y similares, metales preciosos, chapados de metales preciosos y manufacturas de estas materias, bisutería de fantasía

- Capítulo 72: Monedas (solamente Austria y Suecia)
- Capítulo 73: Fundición, hierro y acero
- Capítulo 74: Cobre
- Capítulo 75: Níquel
- Capítulo 76: Aluminio
- Capítulo 77: Magnesio, berilio (glucinio)
- Capítulo 78: Plomo
- Capítulo 79: Zinc
- Capítulo 80: Estaño
- Capítulo 81: Otros metales comunes
- Capítulo 82: Herramientas, artículos de cuchillería y cubiertos de mesa, de metales comunes
- excepto:
ex 82.05: herramientas (salvo Austria)
ex 82.07: piezas de herramientas
ex 82.08: herramientas de mano (solamente Austria)
- Capítulo 83: Manufacturas diversas de metales comunes
- Capítulo 84: Calderas, máquinas, aparatos y artefactos mecánicos
- excepto:
ex 84.06: motores
ex 84.08: otros propulsores
ex 84.45: máquinas
ex 84.53: máquinas automáticas para tratamiento de la información (salvo Austria)
ex 84.55: piezas de las máquinas de la partida 84.53 (salvo Austria y Suecia)
ex 84.59: reactores nucleares (salvo Austria y Suecia)
- Capítulo 85: Máquinas y aparatos eléctricos y objetos destinados a usos electrotécnicos
- excepto:
ex 85.03: pilas eléctricas (solamente Austria)
ex 85.13: telecomunicaciones
ex 85.15: aparatos transmisores

- Capítulo 86: Vehículos y material para vías férreas, aparatos non eléctricos de señalización para vías de comunicación
- excepto:
ex 86.02: locomotoras blindadas
ex 86.03: las demás locomotoras de maniobra blindadas
ex 86.05: vagones blindados
ex 86.06: vagones talleres
ex 86.07: vagones
- Capítulo 87: Vehículos automóviles, tractores, velocípedos y otros vehículos terrestres
- excepto:
ex 87.08: carros y automóviles blindados
ex 87.01: tractores
ex 87.02: vehículos militares
ex 87.03: coches para arreglo de averías
ex 87.09: motocicletos
ex 87.14: remolques
- Capítulo 88: Navegación aérea (solamente Austria)
- Capítulo 89: Navegación marítima y fluvial
- excepto:
ex 89.01: buques de guerra (solamente Austria)
ex 89.01 A: buques de guerra (salvo Austria)
ex 89.03: artefactos flotantes (solamente Austria)
- Capítulo 90: Instrumentos y aparatos de óptica, de fotografía y de cinematografía, de medida, de comprobación y de precisión, instrumentos y aparatos médico-quirúrgicos,
- excepto:
ex 90.05: gemelos
ex 90.13: instrumentos diversos, lasers
ex 90.14: telémetros
ex 90.28: instrumentos de medida eléctricos o electrónicos
ex 90.11: microscopios (salvo Austria y Suecia)
ex 90.17: instrumentos de medicina (salvo Austria y Suecia)
ex 90.18: aparatos de mecanoterapia (salvo Austria y Suecia)
ex 90.19: aparatos de ortopedia (salvo Austria y Suecia)
ex 90.20: aparatos de rayos X (salvo Austria y Suecia)

- Capítulo 91: Relojería
- Capítulo 92: Instrumentos de música, aparatos para el registro y la reproducción del sonido o para el registro y reproducción en televisión de imágenes y sonido, partes y accesorios de esos instrumentos y aparatos
- Capítulo 94: Muebles, mobiliario médico-quirúrgico, artículos de cama y similares
excepto:
ex 94.01 A: asientos para aeronaves (salvo Austria)
- Capítulo 95: Materias para talla y moldeo, labradas (incluidas las manufacturas)
- Capítulo 96: Manufacturas de cepillería, pinceles, escobas, plumeros, borlas y cedazos
- Capítulo 97: Juguetes, juegos, artículos para recreo y para deportes (salvo Austria y Suecia)
- Capítulo 98: Manufacturas diversas

- Bildung (Umschulungs-, Aus-, Fort- und Weiterbildungseinrichtungen, Volkshochschulen) (education: training, further training and retraining establishments, adult evening classes),
- Wissenschaft, Forschung und Entwicklung (Großforschungseinrichtungen, wissenschaftliche Gesellschaften und Vereine, Wissenschaftsförderung) (science, research and development: large-scale research institutes, scientific societies and associations, bodies promoting science),
- Entsorgung (Straßenreinigung, Abfall- und Abwasserbeseitigung) (refuse and garbage disposal services: street cleaning, waste and sewage disposal),
- Bauwesen und Wohnungswirtschaft (Stadtplanung, Stadtentwicklung, Wohnungsunternehmen, Wohnraumvermittlung) (building, civil engineering and housing: town planning, urban development, housing enterprises, housing agency services),

- Wirtschaft (Wirtschaftsförderungsgesellschaften) (economy: organizations promoting economic development),
- Friedhofs- und Bestattungswesen (cemeteries and burial services),
- Zusammenarbeit mit den Entwicklungsländern (Finanzierung, technische Zusammenarbeit, Entwicklungshilfe, Ausbildung) (cooperation with developing countries: financing, technical cooperation, development aid, training).

IV. GREECE

Categories:

Other legal persons governed by public law whose public works contracts are subject to State control.

V. SPAIN

Categories:

- Entidades Gestoras y Servicios Comunes de la Seguridad Social (administrative entities and common services of the health and social services)
- Organismos Autónomos de la Administración del Estado (independent bodies of the national administration)
- Organismos Autónomos de las Comunidades Autónomas (independent bodies of the autonomous communities)
- Organismos Autónomos de las Entidades Locales (independent bodies of local authorities)
- Otras entidades sometidas a la legislación de contratos del Estado español (other entities subject to Spanish State legislation on procurement).

VI. FRANCE

Bodies:

1. National public bodies:

1.1. with scientific, cultural and professional character:

- Collège de France,
- Conservatoire national des arts et métiers,
- Observatoire de Paris.

1.2. Scientific and technological:

- Centre national de la recherche scientifique (CNRS),
- Institut national de la recherche agronomique,
- Institut national de la santé et de la recherche médicale,
- Institut français de recherche scientifique pour le développement en coopération (ORSTOM).

1.3. with administrative character:

- Agence nationale pour l'emploi,
- Caisse nationale des allocations familiales,
- Caisse nationale d'assurance maladie des travailleurs salariés,
- Caisse nationale d'assurance vieillesse des travailleurs salariés,
- Office national des anciens combattants et victimes de la guerre,
- Agences financières de bassins.

Categories:

1. National public bodies:

- universités (universities),
- écoles normales d'instituteurs (teacher training colleges).

2. Administrative public bodies at regional, departmental and local level:

- collèges (secondary schools),
- lycées (secondary schools),
- établissements publics hospitaliers (public hospitals),
- offices publics d'habitations à loyer modéré (OPHLM) (public offices for low-cost housing).

3. Groupings of territorial authorities:

- syndicats de communes (associations of local authorities),
- districts (districts),
- communautés urbaines (municipalities),
- institutions interdépartementales et interrégionales (institutions common to more than one Département and interregional institutions).

VII. IRELAND

Bodies:

- Shannon Free Airport Development Company Ltd,
- Local Government Computer Services Board,
- Local Government Staff Negotiations Board,
- Córas Tráchtála (Irish Export Board),
- Industrial Development Authority,
- Irish Goods Council (Promotion of Irish Goods),
- Córas Beostoic agus Feola (CBF) (Irish Meat Board),
- Bord Fáilte Éireann (Irish Tourism Board),
- Údarás na Gaeltachta (Development Authority for Gaeltacht Regions),
- An Bord Pleanála (Irish Planning Board).

Categories:

- Third level Educational Bodies of a Public Character,
- National Training, Cultural or Research Agencies,
- Hospital Boards of a Public Character,
- National Health & Social Agencies of a Public Character,
- Central & Regional Fishery Boards.

VIII. ITALY

Bodies:

- Agenzia per la promozione dello sviluppo nel Mezzogiorno.

Categories:

- Enti portuali e aeroportuali (port and airport authorities),
- Consorzi per le opere idrauliche (consortia for water engineering works),
- Le università statali, gli istituti universitari statali, i consorzi per i lavori interessanti le università (State universities, State university institutes, consortia for university development work),

Entities producing, transporting or distributing electricity as defined in §2 *Absatz 2 of the Gesetz zur Förderung der Energiewirtschaft (Energiewirtschaftsgesetz) of 13 December 1935. Last modified by the Gesetz of 19 December 1977, and auto-production of electricity so far as this is covered by the field of application of the Directive pursuant to Article 2, paragraph 5.*

GREECE

Δημόσια Επιχείρηση Ηλεκτρισμού (Dimosia Epicheirisi Ilektrismoy) (Public Power Corporation) set up pursuant to the law 1468 of 2 August 1950 *Περί ιδρύσεως Δημοσίας Επιχειρήσεως Ηλεκτρισμού (Peri idryseos Dimosias Epicheiriseos Ilektrismoy)*, and operating pursuant to *the law 57/85: Δομή ρόλος και τρόπος διοίκησης και λειτουργίας της κοινωνικοποιημένης Δημοσίας Επιχείρησης Ηλεκτρισμού (Domi, rolos kai tropos dioksis kai leitoyrgias tis koinonikopoimenis Dimosias Epicheiriseos Ilektrismoy).*

SPAIN

Entities producing, transporting or distributing electricity pursuant to *Article 1 of the Decreto de 12 de marzo de 1954, approving the Reglamento de verificaciones eléctricas y regularidad en el suministro de energía and pursuant to Decreto 2617/1966, de 20 de octubre, sobre autorización administrativa en materia de instalaciones eléctricas.*

Red Eléctrica de España SA, set up pursuant to *Real Decreto 91/1985 de 23 de enero.*

FRANCE

Électricité de France, set up and operating pursuant to *the loi 46/6288 du 8 avril 1946 sur la nationalisation de l'électricité et du gaz.*

Entities (sociétés d'économie mixte or régies) distributing electricity and referred to in *article 23 of the loi 48/1260 du 12 août 1948 portant modification des lois 46/6288 du 8 avril 1946 et 46/2298 du 21 octobre 1946 sur la nationalisation de l'électricité et du gaz.*

Compagnie nationale du Rhône.

IRELAND

The Electricity Supply Board (ESB) set up and operating pursuant to *the Electricity Supply Act 1927.*

ITALY

Ente nazionale per l'energia elettrica set up pursuant to *legge n. 1643, 6 dicembre 1962 approvato con Decreto n.1720, 21 dicembre 1965.*

Entities operating on the basis of a concession pursuant to *article 4, n.5 or 8 of legge 6 dicembre 1962, n.1643 - Istituzione dell'Ente nazionale per la energia elettrica e trasferimento ad esso delle imprese esercenti le industrie elettriche.*

Entities operating on the basis of concession pursuant to *article 20 of Decreto del Presidente della Repubblica 18 marzo 1965, n. 342 norme integrative della legge 6 dicembre 1962, n. 1643 e norme relative al coordinamento e all'esercizio delle attività elettriche esercitate da enti ed imprese diverse dell'Ente nazionale per l'energia elettrica.*

LUXEMBOURG

Compagnie grand-ducale d'électricité de Luxembourg, producing or distributing electricity pursuant to *the convention du 11 novembre 1927 concernant l'établissement et l'exploitation des réseaux de distribution d'énergie électrique dans le grand-duché du Luxembourg approuvée par la loi du 4 janvier 1928.*

Société électrique de l'Our (SEO).

Syndicat de Communes SIDOR.

NETHERLANDS

Elektriciteitsproductie Oost-Nederland.

Elektriciteitsbedrijf Utrecht-Noord-Holland-Amsterdam (UNA).

Elektriciteitsbedrijf Zuid-Holland (EZH)

Elektriciteitsproduktiemaatschappij Zuid-Nederland (EPZ).

Provinciale Zeeuwse Energie Maatschappij (PZEM).

Samenwerkende Elektriciteitsbedrijven (SEP).

Entities distributing electricity on the basis of a licence (vergunning) granted by the provincial authorities pursuant to the Provinciewet.

PORTUGAL

Electricidade de Portugal (EDP) , set up pursuant to the *Decreto-Lei no 502/76 de 30 de Junho de 1976*.

Entities distributing electricity pursuant to *artigo 1o do Decreto-Lei no 344-B/82 de 1 de Setembro de 1982, amended by Decreto-Lei no 297/86 de 19 de Setembro de 1986*. Entities producing electricity pursuant to *Decreto Lei no 189/88 de 27 de Maio de 1988*.

Independent producers of electricity pursuant to *Decreto Lei n o 189/88 de 27 de Maio de 1988*.

Empresa de Electricidade dos Açores - EDA, EP, created pursuant to the *Decreto Regional no 16/80 de 21 de Agosto de 1980*.

Empresa de Electricidade da Madeira, EP, created pursuant to the *Decreto-Lei no 12/74 de 17 de Janeiro de 1974 and regionalized pursuant to the Decreto-Lei no 31/79 de 24 de Fevereiro de 1979, Decreto-Lei no 91/79 de 19 de Abril de 1979*.

UNITED KINGDOM

Central Electricity Generating (CEGB), and the Areas Electricity Boards producing, transporting or distributing electricity pursuant to the Electricity Act 1947 and the Electricity Act 1957.

The North of Scotland Hydro-Electricity Board (NSHB), producing, transporting and distributing electricity pursuant to the Electricity (Scotland) Act 1979.

The South of Scotland Electricity Board (SSEB) producing, transporting and distributing electricity pursuant to the Electricity (Scotland) Act 1979.

The Northern Ireland Electricity Service (NIES), set up pursuant to the Electricity Supply (Northern Ireland) Order 1972.

AUSTRIA

Entities producing, transporting or distributing electricity pursuant to *the second Verstaatlichungsgesetz (BGBl. Nr. 81/1947), and the Elektrizitätswirtschaftsgesetz (BGBl. Nr. 260/1975), including the Elektrizitätswirtschaftsgesetze of the nine Länder.*

FINLAND

Entities producing, transporting or distributing electricity on the basis of a concession pursuant to *Article 27 of Sähkölaki (319/79) of 16 March 1979.*

SWEDEN

Entities which transport or distribute electricity on the basis of a concession pursuant to *lagen (1902:71 s. 1) innefattande vissa bestämmelser om elektriska anläggningar.*

CZECH REPUBLIC

The contracting authority is defined in section 2 b) of Act. No. 199/1994 Sb. on Public Procurement as České energetické závody, a.s. (Czech Power Works, producer) and 8 regional distribution companies: Středočeská energetická a.s. (Central-Bohemian Power Company), Východočeská energetická, a.s. (East-Bohemian Power Company), Severočeská energetická a.s. (North-Bohemian Power Company), Západočeská energetická, a.s. (West-Bohemian Power Company), Jihočeská a.s. (South-Bohemian Power Company), Pražské energetické závody, a.s. (Prague's Power Works), Jihomoravská energetická, a.s. (South-Moravian Company), Severomoravská energetická, a.s. (North Moravian Power Company); these entities produce or transport electricity on the basis of the Energy Act No. 458/2000 Sb.

ESTONIA

Entities operating pursuant to Article 5 of the Public Procurement Act (RT I 2001, 40, 224) and Article 14 of the Competition Act (RT I 2001, 56 332).

CYPRUS

The Electricity Authority of Cyprus established by the Electricity Development Law, Cap. 171. (Η Αρχή Ηλεκτρισμού Κύπρου που εγκαθιδρύθηκε από τον περί Αναπτύξεως Ηλεκτρισμού Νόμο, Κεφ. 171).

LATVIA

Valsts akciju sabiedrība "Latvenergo" (State public limited liability company "Latvenergo").

LITHUANIA

Entities producing, transporting or distributing electricity pursuant to the Lietuvos Respublikos elektros energetikos įstatymas (Žin., 2000, Nr. 66-1984) and being in compliance with the provisions of Lietuvos Respublikos viešųjų pirkimų įstatymas (Žin., 2002, Nr. 118-5296).

Valstybės įmonė Ignalinos atominė elektrinė (State Enterprise Ignalina Nuclear Power Plant) set up pursuant to the Lietuvos Respublikos branduolinės energijos įstatymas (Žin., 1996, Nr. 119-2771).

HUNGARY

Entities producing, transporting or distributing electricity on the basis of an authorisation pursuant to Act CX of 2001 on electricity (2001. évi CX. törvény a villamos energiáról).

MALTA

Korporazzjoni Enemalta (Enemalta Corporation).

POLAND

Przedsiębiorstwa energetyczne w rozumieniu ustawy z dnia 10 kwietnia 1997 r. Prawo energetyczne (Energy enterprises within the meaning of the Act of 10 April 1997 "Energy Law").

SLOVENIA

ELES- Elektro Slovenija, podjetja, ki proizvajajo električno energijo, skladno z Energetskim zakonom (Uradni list RS, 79/99), podjetja, ki izvajajo transport električne energije, skladno z Energetskim zakonom (Uradni list RS, 79/99), podjetja, ki dobavljajo električno energijo, skladno z Energetskim zakonom (Uradni list RS, 79/99) (ELES- Elektro Slovenija; entities producing, transporting or distributing electricity pursuant to the Energy Act (Official Journal of the Republic of Slovenia, 79/99)).

WT/Let/463

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/MOD/JPN/1) pursuant to the procedures of Article XXIV:6, became effective as of **4 March 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 to 5/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twenty-fourth day of March, two thousand and four.

Supachai Panitchpakdi

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 1 to Appendix I of the Agreement on Government Procurement (1994) concerning **United States**, which were notified to the Committee on Government Procurement (GPA/MOD/USA/1) pursuant to the procedures of Article XXIV:6, became effective as of **14 February 2004**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 to 5/5 of Annex 1 to Appendix I of **United States** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fourth day of March, two thousand and four.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

**TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT PAGES
IN THE LOOSE-LEAF SYSTEM FOR APPENDICES CONTAINING
CERTIFIED MODIFICATIONS TO THE AGREEMENT**

I have the honour to furnish herewith certified true copies of the following replacement pages (in English, French and Spanish) containing certified modifications:

- 3/4 of Appendix II
- 2/4 of Appendix III
- 4/5 of Appendix IV

These modifications concern **Korea** and are effective as of **12 December 2003**.

Supachai Panitchpakdi
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Appendices II, III and IV of the Agreement on Government Procurement (1994) in English, French and Spanish concerning **Korea**, which were notified to the Committee on Government Procurement (GPA/W/284) pursuant to the procedures of Article XXIV:6, became effective as of **12 December 2003**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages (in English, French and Spanish) replace pages:

- 3/4 of Appendix II
- 2/4 of Appendix III
- 4/5 of Appendix IV

concerning **Korea** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this twenty-third day of January, two thousand and four.

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

TRANSMISSION OF CERTIFIED TRUE COPIES OF REPLACEMENT PAGES
IN THE LOOSE-LEAF SYSTEM FOR APPENDICES CONTAINING
THE CERTIFIED MODIFICATIONS TO THE AGREEMENT

Revision

I have the honour to furnish herewith certified true copies of the following replacement pages in Appendix I containing the certified modifications:

- page 1/5 and 3/5 of Annex 3
- page 1/1 of Annex 5
- page 1/1 of the General Notes

The modifications concern **Japan** and are effective as of **14 October 2003**.

The certification and attached replacement pages transmitted under cover of document WT/Let/452, 23 December 2003, should be replaced by those contained in the present document. This revised certification covers modifications to Japan's schedule notified to the Committee on Government Procurement in GPA/W/255 and also takes into account modifications notified in GPA/W/252, 253 and 254 which were certified under cover of WT/Let/446.

Supachai Panitchpakdi
Director-General

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annexes 1 and 5, and the General Notes, to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/W/255) pursuant to the procedures of Article XXIV:6, became effective as of **14 October 2003**. This certification also takes into account modifications to Japan's schedule notified in documents GPA/W/252, 253 and 254 and certified under cover of WT/Let/446.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages:

- 1/5 and 3/5 of Annex 3,
- 1/1 of Annex 5,
- 1/1 of the General Notes

to Appendix I of **Japan** in the loose-leaf system of Appendices in conformity with the aforementioned decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this nineteenth day of January, two thousand and four.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All services listed in Division 51.

Threshold: 4,500 thousand SDR for entities set out in ANNEX 1;
15,000 thousand SDR for those in ANNEX 2;
4,500 thousand SDR for Japan Post in Group A in ANNEX 3;
15,000 thousand SDR for all other entities in Group A in ANNEX 3; and
4,500 thousand SDR for entities in Group B in ANNEX 3.

GENERAL NOTES

1. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3 (except for Japan Post in Group A and the entities in Group B set out in Annex 3).
2. In case Parties do not apply Article XX to suppliers or service providers of Japan in contesting the award of contract by entities, Japan may not apply the Article to suppliers or service providers of the Parties in contesting the award of contracts by the same kind of entities.

WT/Let/453

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to pages 1/2 and 2/2 of Annex 1 to Appendix I of the Agreement on Government Procurement (1994) concerning **Hong Kong, China**, which were notified to the Committee on Government Procurement (GPA/W/269) pursuant to the procedures of Article XXIV:6, became effective as of **6 August 2003**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/2 and 2/2 of Annex 1 to Appendix I of **Hong Kong, China** in the loose-leaf system of Appendices in conformity with the aforementioned decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this fifteenth day of December, two thousand and three.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All services listed in Division 51.

Threshold: 4,500 thousand SDR for entities set out in ANNEX 1;
15,000 thousand SDR for those in ANNEX 2;
4,500 thousand SDR for Japan Post in Group A in ANNEX 3;
15,000 thousand SDR for all other entities in Group A in ANNEX 3; and
4,500 thousand SDR for entities in Group B in ANNEX 3.

GENERAL NOTES

1. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3 (except for Japan Post in Group A and the entities in Group B set out in Annex 3).
2. In case Parties do not apply Article XX to suppliers or service providers of Japan in contesting the award of contract by entities, Japan may not apply the Article to suppliers or service providers of the Parties in contesting the award of contracts by the same kind of entities.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Annex 3 to Appendix I of the Agreement on Government Procurement (1994) concerning **Japan**, which were notified to the Committee on Government Procurement (GPA/W/252, GPA/W/253 and GPA/W/254) pursuant to the procedures of Article XXIV:6, became effective as of **9 May 2003**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/5 to 5/5 of Annex 3 to Appendix I of **Japan** in the Loose-Leaf System of Appendices in conformity with the aforementioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this sixteenth day of June, two thousand and three.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

CERTIFICATION OF MODIFICATIONS TO THE AGREEMENT

It is hereby certified that the modifications to Appendix I, Annex 2 and the General Notes, of the Agreement on Government Procurement (1994) concerning **Switzerland** which were notified to the Committee on Government Procurement (GPA/W/225) pursuant to the procedures of Article XXIV:6 became effective as of **7 February 2003**.

Pursuant to the Decision of the Committee on Government Procurement adopted on 4 June 1996 regarding the establishment of a loose-leaf system with legal effect to periodically update the Appendices to the Agreement on Government Procurement (GPA/M/2) and procedures with respect to the modifications to the loose-leaf system (GPA/M/5), these modifications are contained in the attached replacement pages to the loose-leaf system. Accordingly, the attached pages replace pages 1/2 and 2/2 of Annex 2 and pages 1/2 and 2/2 of the General Notes to Appendix I of **Switzerland** in the Loose-Leaf System of Appendices in conformity with the afore-mentioned Decisions.

This notification is furnished in accordance with paragraph 14 of Article XXIV of the Agreement.

This Certification is deposited with the Director-General of the World Trade Organization, who shall promptly furnish a certified true copy to each party to the Agreement on Government Procurement. It shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done at Geneva this tenth day of March, two thousand and three.

Note relative à l'Annexe 2

Le présent accord ne s'applique pas aux marchés passés par des entités mentionnées dans cette annexe et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports ou des télécommunications.

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS
DE L'ARTICLE III

1. La Suisse n'étendra pas le bénéfice des dispositions du présent accord:
 - en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs de produits et de services du Canada;
 - en ce qui concerne les marchés passés par les entités mentionnées au chiffre 3 de l'Annexe 2 aux fournisseurs de produits et de services des Etats-Unis d'Amérique; d'Israël; du Japon; de la Corée; de Hong Kong, Chine; de Singapour; et d'Aruba;
 - en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 3 dans les secteurs suivants:
 - eau: aux fournisseurs de produits et de services du Canada, des Etats-Unis d'Amérique et du Singapour;
 - électricité: aux fournisseurs de produits et de services du Canada, du Japon et du Singapour;
 - aéroports: aux fournisseurs de produits et de services du Canada, de la Corée et des Etats-Unis d'Amérique;
 - ports: aux fournisseurs de produits et de services du Canada;
 - transports urbains: aux fournisseurs de produits et de services du Canada, d'Israël, du Japon, de la Corée et des Etats-Unis d'Amérique;

tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises suisses un accès comparable et effectif aux marchés considérés;

 - aux fournisseurs de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.

2. Les dispositions de l'Article XX ne sont pas applicables aux fournisseurs de produits et de services des pays suivants:
 - Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication de marchés par les organismes mentionnés à l'Annexe 2, chiffre 2, tant que la Suisse n'a pas constaté que ces pays ont complété la liste des entités des gouvernements sous-centraux;
 - Japon, Corée et Etats-Unis d'Amérique en ce qui concerne les recours intentés contre l'adjudication de marchés à un fournisseur de produits ou de services d'autres Parties au présent accord, lorsque ledit fournisseur est une entreprise petite ou moyenne au sens du droit suisse, tant que la Suisse n'aura pas constaté que ces pays n'appliquent plus de mesures discriminatoires pour favoriser certaines petites entreprises nationales ou certaines entreprises nationales détenues par les minorités;
 - Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication par des entités suisses de marchés dont la valeur est inférieure au seuil appliqué à la même catégorie de marchés par lesdites Parties.

3. Tant que la Suisse n'aura pas constaté que les Parties concernées assurent l'accès de leurs marchés aux fournisseurs suisses de produits et de services suisses, elle n'étendra pas le bénéfice des dispositions du présent accord aux fournisseurs de produits et de services des pays suivants:
- Canada, en ce qui concerne les marchés portant sur les produits relevant des n° 36, 70 et 74 de la FSC (machines industrielles spéciales; matériel d'informatique général, logiciel, fournitures et matériel auxiliaire (sauf 7010: Configurations d'équipement de traitement automatique des données); machines de bureau, matériel de bureautique et d'informatique de bureau;
 - Canada, en ce qui concerne les marchés portant sur les produits relevant du n° 58 de la FSC (matériel de communications, matériel de détection des radiations et d'émission de rayonnement cohérent) et Etats-Unis d'Amérique en ce qui concerne les équipements de contrôle du trafic aérien;
 - Corée et Israël en ce qui concerne les marchés passés par les entités énumérées à l'Annexe 3, chiffre 2 pour les produits relevant des n° 8504, 8535, 8537 et 8544 du SH (transformateurs électriques, prises de courant, interrupteurs et câbles isolés); Israël, en ce qui concerne les produits relevant des n° 8501, 8536 et 902830 du SH;
 - Canada et Etats-Unis d'Amérique en ce qui concerne les marchés de fournitures et de services entrant dans le cadre de marchés qui, tout en étant passés par une entité relevant du champ d'application du présent accord, ne sont pas eux-mêmes soumis à ce dernier.
4. Le présent accord n'est pas applicable aux marchés passés en vertu:
- d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage par les Etats signataires;
 - de la procédure spécifique d'une organisation internationale.
5. Le présent accord n'est pas applicable aux marchés de produits agricoles passés en application de programmes de soutien à l'agriculture ou de programmes d'aide alimentaire.
6. Les engagements pris par la Suisse dans le domaine des services au titre du présent accord sont limités aux engagements initiaux spécifiés dans l'offre finale suisse présentée dans le cadre de l'Accord général sur le commerce des services.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III OF
APPENDIX I OF THE ECGeneral Notes and Derogations from the Provisions of Article III

1. The EC will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (a) (water) to the suppliers and service providers of Canada and the USA,
 - (b) (electricity) to the suppliers and service providers of Canada, and Japan,
 - (c) (airports) to the suppliers and service providers of Canada, Korea and the USA,
 - (d) (ports) to the suppliers and service providers of Canada,
 - (e) (urban transport) to the suppliers and service providers of Canada, Japan, Korea and the USA; to the suppliers and service providers of Israel, as regards bus services,until such time as the EC has accepted that the Parties concerned give comparable and effective access for EC undertakings to the relevant markets;
 - to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan and Korea in contesting the award of contracts by entities listed under Annex 2 paragraph 2, until such time as the EC accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium sized enterprises under the relevant provisions of EC law, until such time as the EC accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS DE L'ARTICLE III DE
L'APPENDICE I DE LA CENotes générales et dérogations aux dispositions de l'article III

1. La CE n'étendra pas le bénéfice des dispositions de cet accord:

- en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs et aux prestataires de services du Canada;
- en ce qui concerne les marchés passés, à l'exception des fournitures, énumérés à l'annexe 2 aux fournisseurs et aux prestataires de services des États-Unis;
- en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphes
 - (a) (eau), aux fournisseurs et aux prestataires de services du Canada et des États-Unis,
 - (b) (électricité), aux fournisseurs et aux prestataires de services du Canada, et du Japon,
 - (c) (aéroports), aux fournisseurs et aux prestataires de services du Canada, de la Corée et des États-Unis,
 - (d) (ports), aux fournisseurs et aux prestataires de services du Canada,
 - (e) (transport urbain), aux fournisseurs et aux prestataires de services du Canada, du Japon, de la Corée et des États-Unis d'Amérique; aux producteurs et fournisseurs de service d'Israël, pour ce qui est des services de transport de voyageurs par autobus,

tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises de la CE un accès comparable et effectif aux marchés considérés;

- aux prestataires de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.

2. Les dispositions de l'article XX ne sont pas applicables aux fournisseurs et aux prestataires de services des pays suivants:

- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication de marchés par les entités mentionnées à l'annexe 2 paragraphe 2, tant que la CE n'a pas constaté que ces pays ont complété la liste des entités sous-centrales;

NOTAS Y DEROGACIONES GENERALES DE LO PREVISTO EN EL ARTÍCULO III DEL
APÉNDICE I DE LA CENotas y derogaciones generales de lo previsto en el artículo III

1. La CE no concederá los beneficios de este Acuerdo:
 - por lo que se refiere a la adjudicación de los contratos por las entidades enumeradas en el anexo 2 a los proveedores y a los prestadores de servicios de Canadá;
 - por lo que se refiere a la adjudicación de los contratos, con excepción de contratos de suministros, enumerados en el anexo 2 a los proveedores y a los prestadores de servicios de los EE.UU.;
 - por lo que se refiere a la adjudicación de los contratos por entidades enumeradas en el anexo 3 párrafos
 - (a) (agua), a los proveedores y a los prestadores de servicios de Canadá y de los EE.UU.,
 - (b) (electricidad), a los proveedores y a los prestadores de servicios de Canadá y Japón,

Notes to Annex 2

In addition to the conditions specified in the General Notes, the following conditions apply:

1. For those states marked by an asterisk with pre-existing restrictions, the Agreement does not apply to procurement of construction-grade steel (including requirements on subcontracts), motor vehicles and coal.
2. The Agreement shall not apply to preferences or restrictions associated with programs promoting the development of distressed areas and businesses owned by minorities, disabled veterans and women.
3. Nothing in this annex shall be construed to prevent any state entity from applying restrictions that promote the general environmental quality in that state, as long as such restrictions are not disguised barriers to international trade.
4. The Agreement shall not apply to any procurement made by a covered entity on behalf of non-covered entities at a different level of government.
5. The Agreement shall not apply to restrictions attached to Federal funds for mass transit and highway projects.

**AGREEMENT ON GOVERNMENT PROCUREMENT
DONE AT MARRAKESH ON 15 APRIL 1994**

**CERTIFICATION OF THE APPENDICES TO THE
AGREEMENT ON GOVERNMENT PROCUREMENT**

RECTIFICATION

I have the honour to draw your attention to technical errors which appear in the authentic text of the above-mentioned Appendices to the Agreement on Government Procurement done at Marrakesh on 15 April 1994 as subsequently rectified or modified in accordance with the procedures of Article XXIV:6 of the Agreement, in the form of a loose-leaf system established pursuant to the decision of the Committee on Government Procurement of 4 June 1996 (GPA/M/2), a certified true copy of which was transmitted on 1 March 2000.

The errors which require rectification are the following:

Japan, Appendix I, Annex 3, Page 1/4, under List of entities, delete Nippon Telegraph and Telephone Co. East (f) and Nippon Telegraph and Telephone Co. West (f) and insert Nippon Telegraph and Telephone Co. (f).

Japan, Appendix I, Annex 3, page 2/4, under List of entities which procure the services, specified in Annex 4, delete Nippon Telegraph and Telephone East Co. (f)(g) and Nippon Telegraph and Telephone West Co. (f)(g).

Pages 1/4 and 2/4 of Appendix I, Annex 3 of Japan in the loose-leaf system for Appendices should be replaced by the attached pages.

As depositary of the Agreement on Government Procurement, I shall cause the corrections to be made to the certified true copy of the Appendices, unless any government notifies me of an objection thereto within thirty days from the date of this document. In due course, the corrections will be certified by a Procès-Verbal of Rectification.

Mike Moore
Director-General

ANNEX 3

*All Other Entities which Procure in Accordance
with the Provisions of this Agreement*

94. Non-metallic crude materials
96. Ores, minerals and their primary products
99. Miscellaneous

Note to Annex 1

The General Notes apply to this Annex.

ANNEX 2

Sub-Central Government Entities

<i>Thresholds:</i>	355,000 SDRs	-	Goods
	355,000 SDRs	-	Services to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.
	5,000,000 SDRs	-	Construction Services to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

List of Entities:

The Canadian Government offers to cover entities in all ten provinces on the basis of commitments obtained from provincial governments. The initial provincial entities list will be specified on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

Notes to Annex 2

1. Exceptions for all Provinces: steel, motor vehicles and coal

Province-specific exceptions: in addition, a limited number of individual provincial exceptions may be specified at a later date in accordance with commitments received from such provinces.

2. Nothing in this offer shall be construed to prevent any provincial entity from applying restrictions that promote the general environmental quality in that province, as long as such restrictions are not disguised barriers to international trade.

3. This offer shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

4. The General Notes apply to this Annex.

ANNEX 3

Government Enterprises

<i>Thresholds:</i>	355,000 SDRs	-	Goods
	355,000 SDRs	-	Services covered in Annex 4
	5,000,000 SDRs	-	Construction covered in Annex 5

Federal Enterprises

1. Canada Post Corporation
2. National Capital Commission
3. St. Lawrence Seaway Authority (For greater certainty, Article XIX:4 applies to procurements by St. Lawrence Seaway Authority respecting the protection of the commercial confidentiality of information provided.)
4. Royal Canadian Mint (not including procurement by or on behalf of the Royal Canadian Mint of direct inputs for use in minting anything other than Canadian legal tender. For greater certainty, Article XIX:4 applies to procurements by the Royal Canadian Mint respecting the protection of the commercial confidentiality of information provided.)
5. Canadian Museum of Civilization
6. Canadian Museum of Nature
7. National Gallery of Canada
8. National Museum of Science and Technology
9. Defence Construction (1951) Ltd.

Sub-central Enterprises

Coverage of Sub-central Enterprises for Goods, Services and Construction Services is to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

Note to Annex 3

The General Notes apply to this Annex.

ANNEX 4

Services

Canada offers to include in this "Services" Annex Federal entities listed under Annex 1 and Federal enterprises listed under Annex 3. The inclusion of "Services" for sub-central entities under Annex 2 and sub-central enterprises under Annex 3 are to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement. With respect to the terms of this Agreement, those services to be included are as identified within the document MTN.GNS/W/120. Domestically, Canada will be utilizing the "Common Classification System" for purposes of implementing this Agreement. This list of services may be revised following further technical work among the Parties and adjustments, as appropriate, to establish equitable coverage.

Canada offers to cover the following services with respect to the CPC services classification system:

- 861 Legal Services (advisory services on foreign and international law only)
- 862 Accounting, auditing and book-keeping services
- 863 Taxation Services (excluding legal services)
- 8671 Architectural services
- 8672 Engineering services
- 8673 Integrated engineering services (excluding 86731 Integrated engineering services for transportation infrastructure turnkey projects)
- 8674 Urban planning and landscape architectural services
- 841 Consultancy services related to the installation of computer hardware
- 842 Software implementation services, including systems and software consulting services, systems analysis, design, programming and maintenance services
- 843 Data processing services, including processing, tabulation and facilities management services
- 844 Data base services
- 845 Maintenance and repair services of office machinery and equipment including computers
- 849 Other computer services
- 821 Real estate services involving own or leased property
- 822 Real estate services on a fee or contract basis

1 March 2000 (WT/Let/330)

83106 to 83109 only	Leasing or rental services concerning machinery and equipment without operator
83203 to 83209 only	Leasing or rental services concerning personal and household goods
86501	General management consulting services
86503	Marketing management consulting services
86504	Human resources management consulting services
86505	Production management consulting services
8660	Services related to management consulting (except 86602 Arbitration and conciliation services)
8676	Technical testing and analysis services including quality control and inspection (except with reference to FSC 58 and transportation equipment)
8814	Services incidental to forestry and logging, including forest management
883	Services incidental to mining, including drilling and field services
633	Repair services of personal and household goods
8861 to 8864, and 8866	Repair services incidental to metal products, machinery and equipment
874	Building-cleaning services
876	Packaging services
7512	Commercial courier services (including multi-modal)
7523	Electronic mail
7523	Voice mail
7523	On-line information and data base retrieval
7523	Electronic data interchange (EDI)
7523	Enhanced/value-added facsimile services, including store and forward, store and retrieve
	Code and protocol conversion

843	On-line information and/or data processing (including transaction processing)
940	Sewage and refuse disposal, sanitation and similar services
641	Hotel and similar accommodation services
642/3	Food and beverage serving services
7471	Travel agency and tour operator services

Notes to Annex 4

1. The General Notes apply to this Annex.
2. This offer is subject to the terms and conditions set out in the Canadian offer on trade in services.
3. Canada's offer in telecommunications is limited to enhanced or value added services for the supply of which the underlying telecommunications facilities are leased from providers of public telecommunications transport networks.
4. The Canadian offer does **not** include the following:
 - * management and operation contracts of certain government or privately-owned facilities used for government purposes, including federally-funded research and development;
 - * coin minting;
 - * public utilities;
 - * architectural and engineering related to airfield, communications and missile facilities;
 - * shipbuilding and repair and related architectural and engineering services;
 - * all services, with reference to those goods purchased by the Department of National Defence, the Royal Canadian Mounted Police and the Canadian Coast Guard which are not identified as subject to coverage by this agreement;
 - * services procured in support of military forces located overseas;
 - * printing and publishing services; and,
 - * procurement of transportation services that form a part of, or are incidental to, a procurement contract.

ANNEX 5

Construction Services

Canada offers to include in this "Construction Services" Annex, Federal entities listed under Annex 1 and Federal enterprises listed under Annex 3. The inclusion of "Construction Services" for sub-central entities under Annex 2 and sub-central enterprises under Annex 3 are to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new government procurement agreement.

Definition:

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

All services contained in Division 51 CPC.

Notes to Annex 5

1. Notwithstanding anything in this Agreement, this Agreement does not apply to procurements in respect of:
 - (a) Dredging; and
 - (b) Construction contracts tendered on behalf of the Departments of Transport.
2. The General Notes apply to this Annex.

GENERAL NOTES

1. Notwithstanding anything in these Annexes, the Agreement does not apply to procurements in respect of:
 - (a) shipbuilding and repair;
 - (b) urban rail and urban transportation equipment, systems, components and materials incorporated therein as well as all project related materials of iron or steel;
 - (c) contracts respecting FSC 58 (communications, detection and coherent radiation equipment);
 - (d) set-asides for small and minority businesses;
 - (e) agricultural products made in furtherance of agricultural support programs or human feeding programs;
 - (f) national security exemptions include oil purchases related to any strategic reserve requirements; and,
 - (g) national security exceptions including procurements made in support of safeguarding nuclear materials or technology.
2. Procurement in terms of Canadian coverage is defined as contractual transactions to acquire property or services for the direct benefit or use of the government. The procurement process is the process that begins after an entity has decided on its requirement and continues through to and including contract award. It does not include non-contractual agreements or any form of government assistance, including but not limited to, cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and government provision of goods and services, given to individuals, firms, private institutions, and sub-central governments. It does not include procurements made with a view to commercial resale or made by one entity or enterprise from another entity or enterprise of Canada.
3. Any exclusion that is related either specifically or generally to Federal or sub-central entities or enterprises in Annex 1, Annex 2 or Annex 3 will also apply to any successor entity or entities, enterprise or enterprises, in such a manner as to maintain the value of this offer.
4. Until such time as there is a mutually agreed list of services to be covered by all Parties, a service listed in Annex 4 is covered with respect to a particular Party only to the extent that such Party has provided reciprocal access to that service.
5. Where a contract to be awarded by an entity is not covered by this Agreement, this Agreement shall not be construed to cover any good or service component of that contract.
6. The offer by Canada, with respect to goods and services (including construction) in Annexes 2 and 3, is subject to negotiation of mutually acceptable commitments (including

thresholds) with other Parties, with initial commitments to be specified on or before 15 April 1994 and specific commitments to be confirmed within eighteen months after the conclusion of the new Government Procurement Agreement.

7. The Agreement shall not apply to contracts under an international agreement and intended for the joint implementation or exploitation of a project.
8. For the European Union, Canada's offer excludes procurements of FSC 70, 74 and 36 until such time as reciprocal access is provided.
9. For the European Union, this Agreement shall not apply to contracts awarded by entities in Annexes 1 and 2 in connection with activities in the field of drinking water, energy, transport or telecommunications.

99. Divers

Note relative à l'Annexe 1

Les Notes générales s'appliquent à la présente annexe.

ANNEXE 2

Entités des gouvernements sous-centraux

<i>Valeurs de seuil:</i>	355 000 DTS	-	Produits
	355 000 DTS	-	Services dont la liste initiale sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel accord sur les marchés publics.
	5 000 000 DTS	-	Services de construction dont la liste initiale sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel accord sur les marchés publics.

Liste des entités:

Le gouvernement canadien offre d'inclure des entités des dix provinces sur la base des engagements obtenus des gouvernements provinciaux. La liste initiale des entités provinciales sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Notes relatives à l'Annexe 2

1. Exceptions valables pour toutes les provinces: acier, véhicules automobiles et charbon.

Exceptions propres à certaines provinces: en outre, un nombre limité d'exceptions concernant les différentes provinces pourront être spécifiées à une date ultérieure, conformément aux engagements reçus des provinces.
2. Rien dans la présente offre ne sera interprété comme empêchant une entité d'une province d'appliquer des restrictions visant à promouvoir la qualité générale de l'environnement dans cette province, pour autant que ces restrictions ne constituent pas des obstacles déguisés au commerce international.
3. La présente offre ne s'applique pas aux marchés passés par une entité visée pour le compte d'une entité non visé e.
4. Les Notes générales s'appliquent à la présente annexe.

ANNEXE 3

Entreprises publiques

<i>Valeurs de seuil:</i>	355 000 DTS	-	Produits
	355 000 DTS	-	Services visés à l'Annexe 4
	5 000 000 DTS	-	Travaux visés à l'Annexe 5

Entreprises fédérales

1. Société canadienne des postes
2. Commission de la capitale nationale
3. Administration de la voie maritime du Saint-Laurent. (Pour plus de précision, les dispositions du paragraphe 4 de l'article XIX s'appliquent aux marchés passés par l'Administration de la voie maritime du Saint-Laurent, aux fins de la protection des renseignements commerciaux communiqués à titre confidentiel.)
4. Monnaie royale canadienne (à l'exclusion des marchés passés par la Monnaie royale canadienne, ou en son nom, pour l'achat de matières premières destinées à être utilisées directement pour frapper de la monnaie n'ayant pas cours légal au Canada. Pour plus de précision, les dispositions du paragraphe 4 de l'article XIX s'appliquent aux marchés passés par la Monnaie royale canadienne aux fins de la protection des renseignements commerciaux communiqués à titre confidentiel).
5. Musée canadien des civilisations
6. Musée canadien de la nature
7. Musée des beaux-arts du Canada
8. Musée national des sciences et de la technologie
9. Construction de Défense (1951) Limitée.

Entreprises sous-centrales

La liste initiale des entreprises sous-centrales qui entrent dans le champ d'application de l'accord pour ce qui est des produits, des services et des services de construction sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Note relative à l'Annexe 3

Les Notes générales s'appliquent à la présente annexe.

ANNEXE 4

Services

Le Canada offre d'inclure dans la présente annexe relative aux "Services" les entités fédérales énumérées à l'Annexe 1 et les entreprises fédérales énumérées à l'Annexe 3. Pour ce qui est des entités sous-centrales visées à l'Annexe 2 et des entreprises sous-centrales visées à l'Annexe 3, la liste initiale des services entrant dans le champ d'application de l'accord sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics. S'agissant des termes du présent accord, les services qui seront inclus sont ceux qui sont indiqués dans le document MTN.GNS/W/120. Sur le plan intérieur, le Canada utilisera le "Système commun de classification" aux fins de la mise en oeuvre du présent accord. La présente liste de services pourra être révisée à la suite d'autres travaux techniques entre les Parties et des ajustements pourront y être apportés, selon qu'il sera approprié, afin que le contenu en soit équitable.

Le Canada offre d'inclure les services suivants classés selon le système de classification des services de la CPC:

- 861 Services juridiques (conseils juridiques en matière de droit international et de droit étranger uniquement)
- 862 Services comptables, d'audit et de tenue de livres
- 863 Services de conseil fiscal (à l'exclusion des services juridiques)
- 8671 Services d'architecture
- 8672 Services d'ingénierie
- 8673 Services intégrés d'ingénierie (sauf 86731: Services intégrés d'ingénierie pour les projets de construction clés en main d'infrastructures de transport)
- 8674 Services d'aménagement urbain et d'architecture paysagère
- 841 Services de consultations en matière d'installation des matériels informatiques
- 842 Services de réalisation de logiciels, y compris les services de consultations en matière de systèmes et de logiciels, ainsi que les services d'analyse de systèmes, de conception, de programmation et de maintenance
- 843 Services de traitement de données, y compris les services de traitement, de tabulation et de gestion des installations
- 844 Services de base de données
- 845 Services d'entretien et de réparation de machines et de matériel de bureau, y compris les ordinateurs

849	Autres services informatiques
821	Services immobiliers se rapportant à des biens propres ou loués
822	Services immobiliers à forfait ou sous contrat
83106 à 83109 uniquement	Services de location simple ou en crédit-bail de machines et de matériel, sans opérateurs
83203 à 83209 uniquement	Services de location simple ou en crédit-bail d'articles personnels et domestiques
86501	Services de consultations en matière de gestion générale
86503	Services de consultations en matière de gestion de la commercialisation
86504	Services de consultations en matière de gestion des ressources humaines
86505	Services de consultations en matière de gestion de la production
8660	Services connexes aux services de consultations en matière de gestion (sauf 86602: Services d'arbitrage et de conciliation)
8676	Services d'essais et d'analyses techniques, y compris d'inspection et de contrôle de la qualité (à l'exclusion du matériel de transport et du numéro 58 de la FSC)
8814	Services annexes à la sylviculture et à l'exploitation forestière, y compris la gestion des forêts
883	Services annexes aux industries extractives, y compris les services d'exploration et de forage
633	Services de réparation d'articles personnels et domestiques
8861 à 8864 et 8866	Services de réparation annexes à la fabrication de produits en métaux, de machines et de matériel
874	Services de nettoyage de bâtiments
876	Services de conditionnement
7512	Services commerciaux de courrier (y compris les services de courrier multimodaux)
7523	Services de courrier électronique
7523	Services d'audiomessagerie téléphonique

7523	Services directs de recherche d'informations permanente et de serveur de base de données
7523	Services d'échange électronique de données
7523	Services améliorés/à valeur ajoutée de télécopie, y compris enregistrements et retransmission et enregistrement et recherche
	Services de conversion de codes et de protocoles
843	Services de traitement en direct de l'information et/ou de données (y compris traitement de transactions)
940	Services d'assainissement et d'enlèvement des ordures, services de voirie et services analogues
641	Services d'hôtellerie et services d'hébergement analogues
642-643	Services de restauration et de vente de boissons
7471	Services d'agences de voyages et d'organismes touristiques

Notes relatives à l'Annexe 4

1. Les Notes générales s'appliquent à la présente annexe.
2. La présente offre est faite sous réserve des conditions énoncées dans l'offre du Canada relative au commerce des services.
3. Dans le domaine des télécommunications, l'offre du Canada se limite aux services améliorés ou à valeur ajoutée qui sont fournis au moyen d'installations de télécommunications de base louées à des fournisseurs de réseaux publics de transport des télécommunications.
4. L'offre du Canada ne comprend **pas** ce qui suit:
 - * les contrats de gestion et d'exploitation de certaines installations publiques ou privées utilisées à des fins publiques, y compris la recherche-développement financée par le gouvernement fédéral;
 - * la frappe de la monnaie;
 - * les services d'utilité publique;
 - * les services d'architecture et d'ingénierie se rapportant à des aéroports ainsi qu'à des installations de communications ou de missiles;
 - * la construction navale et la réparation de navires ainsi que les services d'architecture et d'ingénierie s'y rapportant;

- * s'agissant des produits achetés par le Ministère de la défense nationale, la Gendarmerie royale du Canada et la Garde côtière canadienne, tous les services qui ne sont pas indiqués comme entrant dans le champ d'application du présent accord;
- * les services achetés pour appuyer les forces militaires se trouvant à l'étranger;
- * les services d'imprimerie et d'édition; et
- * les marchés de services de transport qui font partie d'un marché ou qui y sont accessoires.

ANNEXE 5

Services de construction

Le Canada offre d'inclure dans la présente annexe relative aux "Services de construction" les entités fédérales énumérées à l'Annexe 1 et les entreprises fédérales énumérées à l'Annexe 3. Pour ce qui est des entités sous-centrales visées à l'Annexe 2 et des entreprises sous-centrales visées à l'Annexe 3, la liste initiale des services de construction entrant dans le champ d'application de l'accord sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Définition:

Un contrat de services de construction est un contrat qui a pour objectif la réalisation, par quelque moyen que ce soit, de travaux de construction d'ouvrages de génie civil ou de bâtiments, au sens de la division 51 de la Classification centrale de produits (CPC).

Liste de services relevant de la division 51 de la CPC:

Tous les services énumérés dans la division 51 de la CPC.

Notes relatives à l'Annexe 5

1. Nonobstant les dispositions du présent accord, celui-ci ne s'applique pas:
 - a) aux marchés portant sur des travaux de dragage; ni
 - b) aux marchés de travaux passés pour le compte des ministères des transports.
2. Les Notes générales s'appliquent à la présente annexe.

NOTES GENERALES

1. Nonobstant les présentes annexes, l'accord n'est pas applicable dans les cas suivants:
 - a) construction navale et réparation de navires;
 - b) chemins de fer urbains et matériel de transport urbain, systèmes, composants et matériaux entrant dans leur fabrication, ainsi que tout le matériel en fer ou en acier destiné à des ouvrages;
 - c) marchés portant sur les produits relevant du n° 58 de la Classification fédérale des approvisionnements (matériel de communication, matériel de détection des radiations et d'émission de rayonnement cohérent);
 - d) marchés réservés aux petites entreprises et aux entreprises détenues par des minorités;
 - e) marchés de produits agricoles passés en application de programmes de soutien à l'agriculture ou de programmes d'aide alimentaire;
 - f) exemptions pour des raisons de sécurité nationale, visant notamment les achats de pétrole nécessaires au maintien de réserves stratégiques;
 - g) exceptions pour des raisons de sécurité nationale, visant notamment les marchés passés aux fins du contrôle des matières ou des technologies nucléaires.
2. Pour le Canada, les marchés entrant dans le champ d'application s'entendent de transactions contractuelles visant l'acquisition de biens ou de services devant bénéficier directement au gouvernement ou être utilisés directement par celui-ci. Le processus de passation d'un marché débute après qu'une entité a défini ses besoins et se poursuit jusqu'à et y compris l'adjudication. Ne sont pas compris les accords non contractuels et toute forme d'aide publique, y compris, mais pas uniquement, les accords de coopération, les subventions, les prêts, les apports en capital, les garanties, les incitations fiscales et la fourniture par le gouvernement fédéral de produits et de services à des particuliers, des entreprises, des institutions privées et des gouvernements sous-centraux. Ne sont pas compris non plus les achats réalisés à des fins de revente commerciale ou effectués par une entité ou une entreprise auprès d'une autre entité ou d'une autre entreprise du Canada.
3. Toute exclusion liée expressément ou d'une manière générale à des entités ou à des entreprises fédérales ou sous-centrales énumérées à l'Annexe 1, à l'Annexe 2 ou à l'Annexe 3 s'appliquera également à toute entité ou entreprise qui pourrait leur succéder, afin de maintenir la valeur de la présente offre.
4. Tant que toutes les Parties ne seront pas convenues d'un commun accord d'une liste des services entrant dans le champ d'application, un service énuméré à l'Annexe 4 ne sera visé pour ce qui concerne une Partie donnée que dans la mesure où cette Partie aura accordé un accès réciproque au service considéré.
5. Dans le cas où une entité adjudgera un marché qui n'est pas visé par le présent accord, celui-ci ne sera pas interprété comme s'appliquant à tout produit ou service entrant dans ce marché.

6. S'agissant des produits et des services (y compris les travaux) énumérés aux Annexes 2 et 3, l'offre du Canada est subordonnée à la négociation avec les autres Parties d'engagements mutuellement acceptables (y compris de seuils), les engagements initiaux devant être spécifiés au plus tard pour le 15 avril 1994 et les engagements spécifiques confirmés dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.
7. L'accord ne s'applique pas aux marchés passés en vertu d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage.
8. En ce qui concerne l'Union européenne, le Canada exclut de son offre les marchés portant sur les produits relevant des n° 70, 74 et 36 de la FSC tant qu'un accès réciproque ne lui aura pas été accordé.
9. En ce qui concerne l'Union européenne, le présent accord ne s'applique pas aux marchés passés par les entités visées aux Annexes 1 et 2 et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports et des télécommunications.

- Chapter 71: Pearls, precious and semi-precious stones, precious metals, rolled precious metals, and articles thereof; imitation jewellery
- Chapter 72: Coins (only Austria and Sweden)
- Chapter 73: Iron and steel and articles thereof
- Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof

- Chapter 76: Aluminium and articles thereof
- Chapter 77: Magnesium and beryllium and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals employed in metallurgy and articles thereof
- Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal, parts thereof
except:
ex 82.05: tools (Not for Austria)
ex 82.07: tools, parts
ex 82.08: hand tools (only Austria)
- Chapter 83: Miscellaneous articles of base metal
- Chapter 84: Boilers, machinery and mechanical appliances, parts thereof
except:
ex 84.06: engines
ex 84.08: other engines
ex 84.45: machinery
ex 84.53: automatic data-processing machines (Not for Austria)
ex 84.55: parts of machines under heading No 84.53 (Not for Austria and Sweden)
ex 84.59: nuclear reactors (Not for Austria and Sweden)
- Chapter 85: Electrical machinery and equipment, parts thereof
except:
ex 85.03: electric cells and batteries (only Austria)
ex 85.13: telecommunication equipment
ex 85.15: transmission apparatus
- Chapter 86: Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway tracks fixtures and fittings, traffic signalling equipment of all kinds (not electrically powered)
except:
ex 86.02: armoured locomotives, electric
ex 86.03: other armoured locomotives
ex 86.05: armoured wagons

- ex 86.06: repair wagons
ex 86.07: wagons
- Chapter 87: Vehicles, other than railway or tramway rolling-stock, and parts thereof
- except:
ex 87.08: tanks and other armoured vehicles
ex 87.01: tractors
ex 87.02: military vehicles
ex 87.03: breakdown lorries
ex 87.09: motorcycles
ex 87.14: trailers
- Chapter 88: Aircraft and parts thereof (only Austria)
- Chapter 89: Ships, boats and floating structures
- except:
ex 89.01: warships (only Austria)
ex 89.01 A: warships (except Austria)
ex 89.03: floating structures (only Austria)
- Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus, parts thereof
- except:
ex 90.05: binoculars
ex 90.13: miscellaneous instruments, lasers
ex 90.14: telemeters
ex 90.28: electrical and electronic measuring instruments
ex 90.11: microscopes (Not for Sweden and Austria)
ex 90.17: medical instruments (Not for Sweden and Austria)
ex 90.18: mechano-therapy appliances (Not for Sweden and Austria)
ex 90.19: orthopaedic appliances (Not for Sweden and Austria)
ex 90.20: X-ray apparatus (Not for Sweden and Austria)
- Chapter 91: Clocks and watches and parts thereof
- Chapter 92: Musical instruments, sound recorders or reproducers, television image and sound recorders or reproducers, parts and accessories of such articles
- Chapter 94: Furniture and parts thereof, bedding, mattresses, mattress supports, cushions and similar stuffed furnishings
- except:
ex 94.01 A: aircraft seats (Not for Austria)
- Chapter 95: Articles and manufactures of carving or moulding material

- Chapter 96: Brooms, brushes, powder-puffs and sieves
- Chapter 97: Toys, games and sport requisites, parts thereof (only Austria and Sweden)

ex 29.21: produits toxicologiques

ex 29.22: produits toxicologiques

ex 29.23: produits toxicologiques

- ex 29.26: explosifs
ex 29.27: produits toxicologiques
ex 29.29: explosifs
- Chapitre 30: Produits pharmaceutiques
- Chapitre 31: Engrais
- Chapitre 32: Extraits tannants et tinctoriaux, tanins et leur dérivés, matières colorantes, couleurs, peintures, vernis et teintures, mastics, encres
- Chapitre 33: Huiles essentielles et sésinoïdes, produits de parfumerie ou de toilette et cosmétiques
- Chapitre 34: Savons, produits organiques tensio-actifs, préparations pour lessives, préparations lubrifiantes, cires artificielles, cires préparées, produits d'entretien, bougies et articles similaires, pâtes à modeler et "cires pour l'art dentaire"
- Chapitre 35: Matières albuminoïdes, colles, enzymes
- Chapitre 36 Poudres et explosifs, articles de pyrotechnie, allumettes, alliages pyrophoriques, matières inflammables (seulement pour l'Autriche and Suède)
- à l'exception de (seulement pour l'Autriche)
ex 36.01: poudres à tirer
ex 36.02: explosifs préparés
ex 36.04: détonateurs
ex 36.08: explosifs
- Chapitre 37: Produits photographiques et cinématographiques
- Chapitre 38: Produits divers des industries chimiques
- à l'exception de:
ex 38.19: produits toxicologiques (sauf pour la Suède)
- Chapitre 39: Matières plastiques artificielles, éthers et esters de la cellulose, résines artificielles et ouvrages en ces matières
- à l'exception de:
ex 39.03: explosifs (sauf pour la Suède)
- Chapitre 40: Caoutchouc naturel ou synthétique, factice pour caoutchouc et ouvrages en caoutchouc
- à l'exception de:
ex 40.11: pneus pour automobiles (sauf pour la Suède)

- Chapitre 41: Peaux and cuirs: (sauf pour l'Autriche)
- Chapitre 42: Ouvrages en cuir, articles de bourrellerie et de sellerie, articles de voyage, sacs à main et contenants similaires, ouvrages en boyaux: (sauf pour l'Autriche)
- Chapitre 43: Pelleteries et fourrures, pelleteries factices
- Chapitre 44: Bois, charbon de bois et ouvrages en bois: (sauf pour l'Autriche)
- Chapitre 45: Liège et ouvrages en liège
- Chapitre 46: Ouvrages de sparterie et de vannerie
- Chapitre 47: Matières servant à la fabrication du papier
- Chapitre 48: Papier et cartons, ouvrages en pâte de cellulose, en papier et en carton: (sauf pour l'Autriche)
- Chapitre 49: Articles de librairie et produits des arts graphiques: (sauf pour l'Autriche)
- Chapitre 65: Coiffures et parties de coiffures
à l'exception de (seulement pour l'Autriche):
ex 65.05: coiffures militaires
- Chapitre 66: Parapluies, parasols, cannes, fouets, cravaches et leurs parties
- Chapitre 67: Plumes et duvet apprêtés et articles en plumes ou en duvet, fleurs artificielles, ouvrages en cheveux
- Chapitre 68: Ouvrages en pierres, plâtre, ciment, amiante, mica et matières analogues
- Chapitre 69: Produits céramiques
- Chapitre 70: Verres et ouvrages en verre
- Chapitre 71: Perles fines, pierres gemmes et similaires, métaux précieux, plaqués ou doublés de métaux précieux et ouvrages en ces matières; bijouterie de fantaisie
- Chapitre 72: Monnaies (seulement pour l'Autriche et la Suède)
- Chapitre 73: Fonte, fer et acier
- Chapitre 74: Cuivre

- Chapitre 75: Nickel
- Chapitre 76: Aluminium
- Chapitre 77: Magnésium, béryllium
- Chapitre 78: Plomb
- Chapitre 79: Zinc
- Chapitre 80: Etain
- Chapitre 81: Autres métaux communs
- Chapitre 82: Outillage, articles de coutellerie et couverts de table, en métaux communs
- à l'exception de:
ex 82.05: outillage (sauf Autriche)
ex 82.07: pièces d'outillage
ex 82.08: outillage à main (seulement pour l'Autriche)
- Chapitre 83: Ouvrages divers en métaux communs
- Chapitre 84: Chaudières, machines, appareils et engins mécaniques
- à l'exception de:
ex 84.06: moteurs
ex 84.08: autres propulseurs
ex 84.45: machines
ex 84.53: machines automatiques de traitement de l'information (sauf pour l'Autriche)
ex 84.55: pièces No 84.53 (sauf pour l'Autriche et la Suède)
ex 84.59: réacteurs nucléaires (sauf pour l'Autriche et la Suède)
- Chapitre 85: Machines et appareils électriques et objets servant à des usages électrotechniques
- à l'exception de:
ex 85.03: piles électriques (seulement pour l'Autriche)
ex 85.13: télécommunication
ex 85.15: appareils de transmission
- Chapitre 86: Véhicules et matériel pour voies ferrées, appareils de signalisation non électriques pour voies de communication
- à l'exception de:
ex 86.02: locomotives blindées
ex 86.03: autres locoblindés
ex 86.05: wagons blindés

- ex 86.06: wagons ateliers
ex 86.07: wagons
- Chapitre 87: Voitures automobiles, tracteurs, cycles et autres véhicules terrestres
- à l'exception de:
ex 87.08: chars et automobiles blindés
ex 87.01: tracteurs
ex 87.02: véhicules militaires
ex 87.03: voitures de dépannage
ex 87.09: motocycles
ex 87.14: remorques
- Chapitre 88: Navigation aérienne (seulement pour l'Autriche)
- Chapitre 89: Navigation maritime et fluviale
- à l'exception de:
ex 89.01: bateaux de guerre (seulement pour l'Autriche)
ex 89.01A: bateaux de guerre (sauf pour l'Autriche)
ex 89.03: engins flottants (seulement pour l'Autriche)
- Chapitre 90: Instruments et appareils d'optique, de photographie et de cinématographie, de mesure, de vérification, de précision, instruments et appareils médico-chirurgicaux
- à l'exception de:
ex 90.05: jumelles
ex 90.13: instruments divers, lasers
ex 90.14: télémètres
ex 90.28: instruments de mesures électriques ou électroniques
ex 90.11: microscopes (sauf pour l'Autriche et la Suède)
ex 90.17: instruments médicaux (sauf pour l'Autriche et la Suède)
ex 90.18: appareils de mécanothérapie (sauf pour l'Autriche et la Suède)
ex 90.19: appareils d'orthopédie (sauf pour l'Autriche et la Suède)
ex 90.20: appareils rayon X (sauf pour l'Autriche et la Suède)
- Chapitre 91: Horlogerie
- Chapitre 92: Instruments de musique, appareils d'enregistrement ou de reproduction du son; appareils d'entregistrement ou de reproduction des images et du son en télévision, parties et accessoires de ces instruments et appareils
- Chapitre 94: Meubles, mobilier médico-chirurgical, articles de literie et similaires
- à l'exception de:
ex 94.01A: sièges d'aérodyne (sauf pour l'Autriche)

- Chapitre 95: Matières à tailler et à mouler, à l'état travaillé (y compris les ouvrages)
- Chapitre 96: Ouvrages de broserie et pinceaux, balais, houppes et articles de tamiserie
- Chapitre 97: Jouets, jeux, articles pour divertissements et pour sports (seulement pour l'Autriche and Suède)
- Chapitre 98: Ouvrages divers

3. LISTA DE MATERIALES COMPRADOS POR LOS MINISTERIOS DE DEFENSA DE AUSTRIA, BELGICA, DINAMARCA, ALEMANIA, ESPAÑA, FINLANDIA, FRANCIA, GRECIA, IRLANDA, ITALIA, LUXEMBURGO, PAÍSES BAJOS, PORTUGAL, SUECIA Y EL REINO UNIDO, Y SUJETOS AL ACUERDO

Capítulo 25: Sal, azufre, tierras y piedras, yesos, cales y cementos

Capítulo 26: Minerales metalúrgicos, escorias, cenizas

Capítulo 27: Combustibles minerales, aceites minerales y productos de su destilación, materias bituminosas, ceras minerales

excepto:

ex 27.10: carburantes especiales (salvo Austria)

combustibles para calefacción y carburantes (solamente Austria)

Capítulo 28: Productos químicos inorgánicos, compuestos inorgánicos u orgánicos de metales preciosos, de elementos radioactivos, de metales de las tierras raras y de isótopos

excepto:

ex 28.09: explosivos

ex 28.13: explosivos

ex 28.14: gases lacrimógenos

ex 28.28: explosivos

ex 28.32: explosivos

ex 28.39: explosivos

ex 28.50: productos tóxicos

ex 28.51: productos tóxicos

ex 28.54: explosivos

Capítulo 29: Productos químicos orgánicos

excepto:

ex 29.03: explosivos

ex 29.04: explosivos

ex 29.07: explosivos

ex 29.08: explosivos

ex 29.11: explosivos

ex 29.12: explosivos

ex 29.13: productos tóxicos

ex 29.14: productos tóxicos

ex 29.15: productos tóxicos

ex 29.21: productos tóxicos

ex 29.22: productos tóxicos

ex 29.23: productos tóxicos

- ex 29.26: explosivos
ex 29.27: productos tóxicos
ex 29.29: explosivos
- Capítulo 30: Productos farmacéuticos
- Capítulo 31: Abonos
- Capítulo 32: Extractos curtientes y tintóreos, taninos y sus derivados, materias colorantes, colores, pinturas, barnices y tintes, mástiques, tintas
- Capítulo 33: Aceites esenciales y resinoides, productos de perfumería o de tocador y cosméticos
- Capítulo 34: Jabones, productos orgánicos tensoactivos, preparaciones para lavar, preparaciones lubricantes, ceras artificiales, ceras preparadas, productos para lustrar y pulir, bujías y artículos análogos, pastas para modelar, y "ceras para el arte dental"
- Capítulo 35: Materias albuminoides y colas, enzimas
- Capítulo 36: Pólvoras y explosivos, artículos de pirotecnia, fósforos, aleaciones pirofóricas, materias inflamables (solamente Austria y Suecia)
- excepto (solamente Austria)
ex 36.01: pólvoras de proyección
ex 36.02: explosivos preparados
ex 36.04: detonadores
ex 36.08: explosivos
- Capítulo 37: Productos fotográficos y cinematográficos
- Capítulo 38: Productos diversos de las industrias químicas
- excepto:
ex 38.19: productos tóxicos (salvo Suecia)
- Capítulo 39: Materias plásticas artificiales, éteres y ésteres de la celulosa, resinas artificiales y manufacturas de estas materias
- excepto:
ex 39.03: explosivos (salvo Suecia)
- Capítulo 40: Caucho natural o sintético, caucho facticio y manufacturas de caucho
- excepto:
ex 40.11: neumáticos a prueba de bala (salvo Suecia)

- Capítulo 41: Pieles y cuero: (salvo Austria)
- Capítulo 42: Manufacturas de cuero, artículos de guarnicionería y talabartería, artículos de viaje, bolsos de mano y continentes similares, manufacturas de tripas: (salvo Austria)
- Capítulo 43: Peletería y confecciones de peletería, peletería facticia
- Capítulo 44: Madera, carbón vegetal y manufacturas de madera: (salvo Austria)
- Capítulo 45: Corcho y sus manufacturas
- Capítulo 46: Manufacturas de espartería y cestería
- Capítulo 47: Materias utilizadas en la fabricación de papel
- Capítulo 48: Papel y cartón, manufacturas de pasta de celulosa, de papel y de cartón: (salvo Austria)
- Capítulo 49: Artículos de librería y productos de las artes gráficas: (salvo Austria)
- Capítulo 65: Sombreros y demás tocados y sus partes componentes
excepto (solamente Austria):
ex 65.05: sombreros, gorras y demás tocados militares
- Capítulo 66: Paraguas, quitasoles, bastones, látigos, fustas y sus partes componentes
- Capítulo 67: Plumas y plumón preparados y artículos de pluma o de plumón, flores artificiales, manufacturas de cabellos
- Capítulo 68: Manufacturas de piedra, yeso, cemento, amianto, mica y materias análogas
- Capítulo 69: Productos cerámicos
- Capítulo 70: Vidrio y manufactura de vidrio
- Capítulo 71: Perlas finas, piedras preciosas y semipreciosas y similares, metales preciosos, chapados de metales preciosos y manufacturas de estas materias, bisutería de fantasía
- Capítulo 72: Monedas (solamente Austria y Suecia)
- Capítulo 73: Fundición, hierro y acero
- Capítulo 74: Cobre
- Capítulo 75: Níquel

- Capítulo 76: Aluminio
- Capítulo 77: Magnesio, berilio (glucinio)
- Capítulo 78: Plomo
- Capítulo 79: Zinc
- Capítulo 80: Estaño
- Capítulo 81: Otros metales comunes
- Capítulo 82: Herramientas, artículos de cuchillería y cubiertos de mesa, de metales comunes
- excepto:
- ex 82.05: herramientas (salvo Austria)
- ex 82.07: piezas de herramientas
- ex 82.08: herramientas de mano (solamente Austria)
- Capítulo 83: Manufacturas diversas de metales comunes
- Capítulo 84: Calderas, máquinas, aparatos y artefactos mecánicos
- excepto:
- ex 84.06: motores
- ex 84.08: otros propulsores
- ex 84.45: máquinas
- ex 84.53: máquinas automáticas para tratamiento de la información (salvo Austria)
- ex 84.55: piezas de las máquinas de la partida 84.53 (salvo Austria y Suecia)
- ex 84.59: reactores nucleares (salvo Austria y Suecia)
- Capítulo 85: Máquinas y aparatos eléctricos y objetos destinados a usos electrotécnicos
- excepto:
- ex 85.03: pilas eléctricas (solamente Austria)
- ex 85.13: telecomunicaciones
- ex 85.15: aparatos transmisores
- Capítulo 86: Vehículos y material para vías férreas, aparatos non eléctricos de señalización para vías de comunicación
- excepto:
- ex 86.02: locomotoras blindadas
- ex 86.03: las demás locomotoras de maniobra blindadas
- ex 86.05: vagones blindados
- ex 86.06: vagones talleres

- ex 86.07: vagones
- Capítulo 87: Vehículos automóviles, tractores, velocípedos y otros vehículos terrestres
- excepto:
ex 87.08: carros y automóviles blindados
ex 87.01: tractores
ex 87.02: vehículos militares
ex 87.03: coches para arreglo de averías
ex 87.09: motocicletas
ex 87.14: remolques
- Capítulo 88: Navegación aérea (solamente Austria)
- Capítulo 89: Navegación marítima y fluvial
- excepto:
ex 89.01: buques de guerra (solamente Austria)
ex 89.01 A: buques de guerra (salvo Austria)
ex 89.03: artefactos flotantes (solamente Austria)
- Capítulo 90: Instrumentos y aparatos de óptica, de fotografía y de cinematografía, de medida, de comprobación y de precisión, instrumentos y aparatos médico-quirúrgicos,
- excepto:
ex 90.05: gemelos
ex 90.13: instrumentos diversos, lasers
ex 90.14: telémetros
ex 90.28: instrumentos de medida eléctricos o electrónicos
ex 90.11: microscopios (salvo Austria y Suecia)
ex 90.17: instrumentos de medicina (salvo Austria y Suecia)
ex 90.18: aparatos de mecanoterapia (salvo Austria y Suecia)
ex 90.19: aparatos de ortopedia (salvo Austria y Suecia)
ex 90.20: aparatos de rayos X (salvo Austria y Suecia)
- Capítulo 91: Relojería
- Capítulo 92: Instrumentos de música, aparatos para el registro y la reproducción del sonido o para el registro y reproducción en televisión de imágenes y sonido, partes y accesorios de esos instrumentos y aparatos
- Capítulo 94: Muebles, mobiliario médico-quirúrgico, artículos de cama y similares
- excepto:
ex 94.01 A: asientos para aeronaves (salvo Austria)
- Capítulo 95: Materias para talla y moldeo, labradas (incluidas las manufacturas)

- Capítulo 96: Manufacturas de cepillería, pinceles, escobas, plumeros, borlas y cedazos
- Capítulo 97: Juguetes, juegos, artículos para recreo y para deportes (salvo Austria y Suecia)
- Capítulo 98: Manufacturas diversas

2. ***BODIES GOVERNED BY PUBLIC LAW AS DEFINED IN DIRECTIVE 93/37;
LES ORGANISMES DE DROIT PUBLIC TELS QUE DÉFINIS PAR LA DIRECTIVE 93/37;
LOS ORGANISMOS DE DERECHO PÚBLICO SEGÚN LA DEFINICIÓN DE LA DIRECTIVA
93/37:***

- A "**body governed by public law**" means any body
 - established for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character, and
 - having legal personality, and
 - financed, for the most part, by the State, or regional or local authorities, or other bodies governed by public law, or subject to management supervision by those bodies, or having an administrative, managerial or supervisory board; more than half of whose members are appointed by the State, regional or local authorities or by other bodies governed by public law.

The lists of bodies and categories of bodies governed by public law which fulfill the criteria referred to are set out in Annex I to Directive 93/37. These lists are indicative only (see Official Journal of the European Communities n° L 199/56, 09.08.1993 and n° C 241/228, 29.08.1994).

- On entend par "**organisme de droit public**" tout organisme:
 - créé pour satisfaire spécifiquement des besoins d'intérêt général ayant un caractère autre qu'industriel ou commercial, et
 - doté de la personnalité juridique, et
 - dont l'activité et financée majoritairement par l'Etat, les collectivités territoriales ou d'autres organismes de droit public, soit la gestion est soumise à un contrôle par ces derniers, soit l'organe d'administration, de direction ou de surveillance est composé de membres dont plus de la moitié est désignée par l'Etat, les collectivités territoriales ou d'autres organismes de droit public.

Les listes des organismes et des catégories d'organismes de droit public qui remplissent les ces critères figurent à l'annexe I de la Directive 93/37. Ces listes sont uniquement indicatives (voir Journal officiel des Communautés Européennes n° L 199/54, 09.08.1993 et n° C 241/228, 29.08.1994).

- "**Organismo de derecho público**" cualquier organismo:
 - creado para satisfacer específicamente necesidades de interés general que no tengan carácter industrial o mercantil, y
 - dotado de personalidad jurídica, y

- cuya actividad esté mayoritariamente financiada por el Estado, los entes territoriales u otros organismos de derecho público, o bien, cuya gestión se halle sometida a un control por parte de estos últimos, o bien, cuyo órgano de administración, de dirección o de vigilancia esté compuesto por miembros de los cuales más de la mitad sean nombrados por el Estado los entes territoriales u otros organismos de derecho público.

En el Anexo I a la Directiva 93/37 figuran las listas de los organismos y de las categorías de organismos de derecho público que reúnen estos criterios. Estas listas son únicamente indicativas (véase Diario Oficial de las Comunidades Europeas Oficial n° L 199/56, 09.08.1993 y n° C 241/228, 29.08.1994).

List of Entities / Liste des entités / Lista de las entidades:

The contracting entities within the meaning of Article 2 of Directive 93/38/EEC which are public authorities or public undertakings and which have as one of their activities any of those referred to below or any combination thereof:

- (a) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of drinking water or the supply of drinking water to such networks;
- (b) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of electricity or the supply of electricity to such networks;
- (c) the provision of airport or other terminal facilities to carriers by air;
- (d) the provision of maritime or inland port or other terminal facilities to carriers by sea or inland waterway;
- (e) the operation of networks providing a service to the public in the field of urban transport by railway¹, automated systems, tramway, trolley bus, bus or cable in accordance with Directive 93/38/EEC.

The public authorities or public undertakings listed in Annex I (production, transport or distribution of drinking water), Annex II (production, transport or distribution of electricity), Annex VII (contracting entities in the field of urban railway, tramway, trolley bus or bus services), Annex VIII (contracting entities in the field of airport facilities) and Annex IX (contracting entities in the field of maritime or inland port or other terminal facilities) of Directive 93/38/EEC fulfill the criteria set out above. Those lists are indicative only (see Official Journal of the European Communities n° L 199/84, 09.08.1993 and n° C 241/228, 29.08.1994).

List of Entities / Liste des entités / Lista de las entidades:

Les autorités adjudicatrices au sens de l'article 2 de la directive 93/38/CEE qui sont des pouvoirs publics ou des entreprises publiques et qui exercent une des activités visées ci-dessous ou plusieurs de ces activités:

- (a) la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'eau potable ou l'alimentation de ces réseaux en eau potable;

¹ Not including the entities listed in Annex VI of Directive 93/38/EEC (copy attached)

- (b) la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'électricité ou l'alimentation de ces réseaux en électricité;
- (c) la mise à disposition des transporteurs aériens des aéroports ou d'autres terminaux de transport;
- (d) la mise à disposition des transporteurs maritimes ou fluviaux des ports maritimes ou intérieurs ou d'autres terminaux de transport;
- (e) la exploitation de réseaux destinés à fournir un service au public dans le domaine du transport urbain par chemin de fer², systèmes automatiques, tramway, trolleybus ou autobus ou câble, en accord avec la directive 93/38/CEE.

Les pouvoirs publics ou autorités publiques énumérées aux annexes I (production, transport ou distribution d'eau potable), II (production, transport ou distribution d'électricité), VII (entités adjudicatrices dans le domaine des services de chemin de fer), VIII (entités adjudicatrices dans le domaine des installations aéroportuaires) et IX (entités adjudicatrices dans le domaine des installations portuaires maritimes ou intérieures ou autres terminaux) de la directive 93/38 répondent aux critères énoncés ci-dessus. Ces listes sont uniquement indicatives (voir Journal officiel des Communautés Européennes n° L 199/54, 09.08.1993 et n° C 241/228, 29.08.1994).

List of Entities / Liste des entités / Lista de las entidades:

Las entidades contractantes según el sentido del artículo 2 de la directiva 93/38/CEE que sean poderes públicos o empresas públicas y que realicen alguna de la actividades contempladas en los párrafos siguientes o varias de estas actividades:

- (a) la puesta a disposición o la explotación de redes fijas que presten un servicio al público en relación con la producción, transporte o distribución de agua potable o el suministro de agua potable a dichas redes;
- (b) la puesta a disposición o la explotación de redes fijas que presten un servicio al público en relación con la producción, transporte o distribución de electricidad o el suministro de electricidad a dichas redes;
- (c) la puesta a disposición de los transportistas aéreos de los aeropuertos o de otras terminales de transporte;
- (d) la puesta a disposición de los transportistas marítimos o fluviales de los puertos marítimos o interiores o de otras terminales de transporte;
- (e) la explotación de redes que presten un servicio público en el campo del transporte urbano por ferrocarril³, sistemas automáticos, tranvía, trolebús, autobús o cable.

² Ne sont pas inclus les entités énumérées dans l'annexe VI de la directive 93/38/CEE (copie annexée)

³ No se incluyen las entidades enumeradas en el anexo VI de la directiva 93/38/CEE (copia anexa)

Las entidades contractantes enumeradas en los anexos I (producción, transporte o distribución de agua potable), II (producción, transporte o distribución de electricidad), VII (entidades contractantes del sector de los servicios de ferrocarriles urbanos, tranvías, trolebuses o autobuses), VIII (entidades contractantes del sector de los aeropuertos) y IX (entidades contractantes del sector de los puertos marítimos o fluviales u otras terminales) de la directiva 93/38/CEE reúnen los criterios enunciados anteriormente. Estas listas son únicamente indicativas (véase Diario Oficial de las Comunidades Europeas Oficial n° L 199/56, 09.08.1993 y n° C 241/228, 29.08.1994).

ANNEX I

LISTS OF BODIES AND CATEGORIES OF BODIES GOVERNED BY PUBLIC LAW
REFERRED TO IN ARTICLE 1(b)

I. BELGIUM

Bodies

- Archives générales du Royaume et Archives de l'État dans les Provinces - Algemeen Rijksarchief en Rijksarchief in de Provinciën,
- Conseil autonome de l'enseignement communautaire - Autonome Raad van het Gemeenschapsonderwijs,
- Radio et télévision belges, émissions néerlandaises - Belgische Radio en Televisie, Nederlandse uitzendingen,
- Belgisches Rundfunk- und Fernsehzentrum der Deutschsprachigen Gemeinschaft (Centre de radio et télévision belge de la Communauté de langue allemande - Centrum voor Belgische Radio en Televisie voor de Duitstalige Gemeenschap),
- Bibliothèque royale Albert Ier - Koninklijke Bibliotheek Albert I,
- Caisse auxiliaire de paiement des allocations de chômage - Hulpkas voor Werkloosheidsuitkeringen,
- Caisse auxiliaire d'assurance maladie-invalidité - Hulpkas voor Ziekte- en Invaliditeitsverzekeringen,
- Caisse nationale des pensions de retraite et de survie - Rijkskas voor Rust- en Overlevingspensioenen,
- Caisse de secours et de prévoyance en faveur des marins naviguant sous pavillon belge - Hulp- en Voorzorgskas voor -Zeevarenden onder Belgische Vlag,
- Caisse nationale des calamités - Nationale Kas voor de Rampenschade,
- Caisse spéciale de compensation pour allocations familiales en faveur des travailleurs de l'industrie diamantaire - Bijzondere Verrekenkas voor Gezinsvergoedingen ten bate van de Arbeiders der Diamantnijverheid,
- Caisse spéciale de compensation pour allocations familiales en faveur des travailleurs de l'industrie du bois - Bijzondere Verrekenkas voor Gezinsvergoedingen ten bate van Arbeiders in de Houtnijverheid,
- Caisse spéciale de compensation pour allocations familiales en faveur des travailleurs occupés dans les entreprises de batellerie - Bijzondere Verrekenkas voor Gezinsvergoedingen ten bate van Arbeiders der Ondernemingen voor Binnenscheepvaart,
- Caisse spéciale de compensation pour allocations familiales en faveur des travailleurs occupés dans les entreprises de chargement, déchargement et manutention de marchandises dans les ports débarcadères, entrepôts et stations (appelée habituellement «Caisse spéciale de compensation pour allocations familiales des régions maritimes») - Bijzondere Verrekenkas voor Gezinsvergoedingen ten bate van de Arbeiders gebezigd door Ladings- en Lossingsondernemingen en door de Stuwadoors in de Havens, Losplaatsen, Stapelplaatsen en Stations (gewoonlijk genoemd: Bijzondere Compensatiekas voor kindertoeslagen van de zeevaartgewesten),
- Centre informatique pour la Région bruxelloise - Centrum voor Informatica voor het Brusselse Gewest,

- Commissariat général de la Communauté flamande pour la coopération internationale - Commissariaat-generaal voor Internationale Samenwerking van de Vlaamse Gemeenschap,
- Commissariat général pour les relations internationales de la Communauté française de Belgique - Commissariaat-generaal bij de Internationale Betrekkingen van de Franse Gemeenschap van België,
- Conseil central de l'économie - Centrale Raad voor het Bedrijfsleven,
- Conseil économique et social de la Région wallonne - Sociaal-economische Raad van het Waals Gewest,
- Conseil national du travail - Nationale Arbeidsraad,
- Conseil supérieur des classes moyennes - Hoge Raad voor de Middenstand,
- Office pour les travaux d'infrastructure de l'enseignement subsidié - Dienst voor Infrastructuurwerken van het Gesubsidieerd Onderwijs,
- Fondation royale - Koninklijke Schenking,
- Fonds communautaire de garantie des bâtiments scolaires - Gemeenschappelijk Waarborgfonds voor Schoolgebouwen,
- Fonds d'aide médicale urgente - Fonds voor Dringende Geneeskundige Hulp,
- Fonds des accidents du travail - Fonds voor Arbeidsongevallen,
- Fonds des maladies professionnelles - Fonds voor Beroepsziekten,
- Fonds des routes - Wegenfonds,
- Fonds d'indemnisation des travailleurs licenciés en cas de fermeture d'entreprises - Fonds tot Vergoeding van de in geval van Sluiting van Ondernemingen Ontslagen Werknemers,
- Fonds national de garantie pour la réparation des dégâts houillers - Nationaal Waarborgfonds inzake Kolenmijnschade,
- Fonds national de retraite des ouvriers mineurs - Nationaal Pensioenfonds voor Mijnwerkers,
- Fonds pour le financement des prêts à des États étrangers - Fonds voor Financiering van de Leningen aan Vreemde Staten,
- Fonds pour la rémunération des mousses enrôlés à bord des bâtiments de pêche - Fonds voor Scheepsjongens aan Boord van Vissersvaartuigen,
- Fonds wallon d'avances pour la réparation des dommages provoqués par des pompages et des prises d'eau souterraine - Waals Fonds van Voorschotten voor het Herstel van de Schade veroorzaakt door Grondwaterzuiveringen en Afpompingen,
- Institut d'aéronomie spatiale - Instituut voor Ruimte-aëronomie,

- Fonds flamand du logement des familles nombreuses - Vlaams Woningfonds van de Grote Gezinnen.

Categories

- les centres publics d'aide sociale,
- les fabriques d'église (church councils).

II. DENMARK

Bodies

- Københavns Havn,
- Danmarks Radio,
- TV 2/Danmark,
- TV2 Reklame A/S,
- Danmarks Nationalbank,
- A/S Storebæltsforbindelsen,
- A/S Øresundsforbindelsen (alene tilslutningsanlæg i Danmark),
- Københavns Lufthavn A/S,
- Byfornyelsesselskabet København,
- Tele Danmark A/S with subsidiaries:
- Fyns Telefon A/S,
- Jydsk Telefon Aktieselskab A/S,
- Kjøbenhavns Telefon Aktieselskab,
- Tele Sønderjylland A/S,
- Telecom A/S,
- Tele Danmark Mobil A/S.

Categories

- De kommunale havne (municipal ports),
- Andre Forvaltningssubjekter (other public administrative bodies).

III. GERMANY

1. Legal persons governed by public law

Authorities, establishments and foundations governed by public law and created by federal, State or local authorities in particular in the following sectors:

1.1. Authorities

- Wissenschaftliche Hochschulen und verfaßte Studentenschaften (universities and established student bodies),
- berufsständige Vereinigungen (Rechtsanwalts-, Notar-, Steuerberater-, Wirtschaftsprüfer-, Architekten-, Ärzte- und Apothekerkammern) (professional associations representing lawyers, notaries, tax consultants, accountants, architects, medical practitioners and pharmacists),
- Wirtschaftsvereinigungen (Landwirtschafts-, Handwerks-, Industrie- und Handelskammern, Handwerksinnungen, Handwerkerschaften) (business and trade associations: agricultural and craft associations, chambers of industry and commerce, craftsmen's guilds, tradesmen's associations),
- Sozialversicherungen (Krankenkassen, Unfall- und Rentenversicherungsträger) (social security institutions: health, accident and pension insurance funds), kassenärztliche Vereinigungen (associations of panel doctors),

- Genossenschaften und Verbände (cooperatives and other associations).

1.2. Establishments and foundations

Non-industrial and non-commercial establishments subject to state control and operating in the general interest, particularly in the following fields:

- Rechtsfähige Bundesanstalten (federal institutions having legal capacity),
- Versorgungsanstalten und Studentenwerke (pension organizations and students' unions),
- Kultur-, Wohlfahrts- und Hilfsstiftungen (cultural, welfare and relief foundations).

2. Legal persons governed by private law

Non-industrial and non-commercial establishments subject to State control and operating in the general interest (including kommunale Versorgungsunternehmen, municipal utilities), particularly in the following fields:

- Gesundheitswesen (Krankenhäuser, Kurmittelbetriebe, medizinische Forschungseinrichtungen, Untersuchungs- und Tierkörperbeseitigungsanstalten) (health: hospitals, health resort establishments, medical research institutes, testing and carcasse-disposal establishments),
- Kultur (öffentliche Bühnen, Orchester, Museen, Bibliotheken, Archive, zoologische und botanische Gärten) (culture: public theatres, orchestras, museums, libraries, archives, zoological and botanical gardens),
- Soziales (Kindergärten, Kindertagesheime, Erholungseinrichtungen, Kinder- und Jugendheime, Freizeiteinrichtungen, Gemeinschafts- und Bürgerhäuser, Frauenhäuser, Altersheime, Obdachlosenunterkünfte) (social welfare: nursery schools, children's playschools, rest-homes, children's homes, hostels for young people, leisure centres, community and civic centres, homes for battered wives, old people's homes, accommodation for the homeless),
- Sport (Schwimmbäder, Sportanlagen und -einrichtungen) (sport: swimming baths, sports facilities),
- Sicherheit (Feuerwehren, Rettungsdienste) (safety: fire brigades, other emergency services),
- Bildung (Umschulungs-, Aus-, Fort- und Weiterbildungseinrichtungen, Volkshochschulen) (education: training, further training and retraining establishments, adult evening classes),
- Wissenschaft, Forschung und Entwicklung (Großforschungseinrichtungen, wissenschaftliche Gesellschaften und Vereine, Wissenschaftsförderung) (science, research and development: large-scale research institutes, scientific societies and associations, bodies promoting science),
- Entsorgung (Straßenreinigung, Abfall- und Abwasserbeseitigung) (refuse and garbage disposal services: street cleaning, waste and sewage disposal),
- Bauwesen und Wohnungswirtschaft (Stadtplanung, Stadtentwicklung, Wohnungsunternehmen, Wohnraumvermittlung) (building, civil engineering and housing: town planning, urban development, housing enterprises, housing agency services),
- Wirtschaft (Wirtschaftsförderungsgesellschaften) (economy: organizations promoting economic development),
- Friedhofs- und Bestattungswesen (cemeteries and burial services),

- Zusammenarbeit mit den Entwicklungsländern (Finanzierung, technische Zusammenarbeit, Entwicklungshilfe, Ausbildung) (cooperation with developing countries: financing, technical cooperation, development aid, training).

IV. GREECE

Categories

Other legal persons governed by public law whose public works contracts are subject to State control.

V. SPAIN

Categories

- Entidades Gestoras y Servicios Comunes de la Seguridad Social (administrative entities and common services of the health and social services)
- Organismos Autónomos de la Administración del Estado (independent bodies of the national administration)
- Organismos Autónomos de las Comunidades Autónomas (independent bodies of the autonomous communities)
- Organismos Autónomos de las Entidades Locales (independent bodies of local authorities)
- Otras entidades sometidas a la legislación de contratos del Estado español (other entities subject to Spanish State legislation on procurement).

VI. FRANCE

Bodies

1. National public bodies:

1.1. with scientific, cultural and professional character:

- Collège de France,
- Conservatoire national des arts et métiers,
- Observatoire de Paris.

1.2. Scientific and technological:

- Centre national de la recherche scientifique (CNRS),
- Institut national de la recherche agronomique,
- Institut national de la santé et de la recherche médicale,
- Institut français de recherche scientifique pour le développement en coopération (ORSTOM).

1.3. with administrative character:

- Agence nationale pour l'emploi,
- Caisse nationale des allocations familiales,

- Caisse nationale d'assurance maladie des travailleurs salariés,
- Caisse nationale d'assurance vieillesse des travailleurs salariés,
- Office national des anciens combattants et victimes de la guerre,
- Agences financières de bassins.

Categories

1. National public bodies:

- universités (universities),
- écoles normales d'instituteurs (teacher training colleges).

2. Administrative public bodies at regional, departmental and local level:

- collèges (secondary schools),
- lycées (secondary schools),
- établissements publics hospitaliers (public hospitals),
- offices publics d'habitations à loyer modéré (OPHLM) (public offices for low-cost housing).

3. Groupings of territorial authorities:

- syndicats de communes (associations of local authorities),
- districts (districts),
- communautés urbaines (municipalities),
- institutions interdépartementales et interrégionales (institutions common to more than one Département and interregional institutions).

VII. IRELAND

Bodies

- Shannon Free Airport Development Company Ltd,
- Local Government Computer Services Board,
- Local Government Staff Negotiations Board,
- Córas Tráchtála (Irish Export Board),
- Industrial Development Authority,
- Irish Goods Council (Promotion of Irish Goods),
- Córas Beostoic agus Feola (CBF) (Irish Meat Board),
- Bord Fáilte Éireann (Irish Tourism Board),
- Údarás na Gaeltachta (Development Authority for Gaeltacht Regions),

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III OF
APPENDIX I OF THE ECGeneral Notes and Derogations from the Provisions of Article III

1. The EC will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (a) (water) to the suppliers and service providers of Canada and the USA,
 - (b) (electricity) to the suppliers and service providers of Canada, and Japan,
 - (c) (airports) to the suppliers and service providers of Canada, Korea and the USA,
 - (d) (ports) to the suppliers and service providers of Canada,
 - (e) (urban transport) to the suppliers and service providers of Canada, Japan, Korea and the USA; to the suppliers and service providers of Israel, as regards bus services,until such time as the EC has accepted that the Parties concerned give comparable and effective access for EC undertakings to the relevant markets;
 - to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2 paragraph 2, until such time as the EC accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium sized enterprises under the relevant provisions of EC law, until such time as the EC accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;

- Israel, Japan and Korea in contesting that award of contracts by EC entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as the EC has accepted that the Parties concerned provide access for EC suppliers and service providers to their own markets, the EC will not extend the benefits of this Agreement to suppliers and service providers of:

- Canada, as regards procurement of FSC 36, 70 and 74 (special industry machinery, general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations), office machines, visible record equipment and ADP equipment);
- Canada, as regards procurement of FSG 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment;
- Korea and Israel as regards procurement by entities listed in Annex 3 paragraph (b), as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos. 8501, 8536 and 902830;
- the USA, as regards procurement by entities listed in Annex 3 paragraph (d), as regards procurement of dredging services and procurement related to shipbuilding;
- Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.

4. The Agreement shall not apply to contracts awarded under:

- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
- an international agreement relating to the stationing of troops;
- the particular procedure of an international organization.

5. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.

6. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.

7. This Agreement shall not apply to contracts awarded by entities in Annex 3:

- for the purchase of water and for the supply of energy or of fuels for the production of energy;

- for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-member country;
 - for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
8. This Agreement shall not be applicable to contracts:
- for the acquisition or rental of land, existing buildings, or other immovable property or concerning rights thereon;
 - for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time.
9. This Agreement shall not be applicable to the award of service contracts by Spanish entities listed in Annex 3 before 1 January 1997 or to the award of contracts by Greek or Portuguese entities listed in Annex 3 before 1 January 1998.
10. The provision of services, including construction services, in the context of procurement procedures according to this Agreement is subject to the conditions and qualifications for market access and national treatment as will be required by Austria in conformity with her commitments under the GATS.
11. This Agreement shall not apply to contracts awarded to an entity in Finland which itself is a contracting authority within the meaning of the Public Procurement Act: "Laki julkisista hankinnoista" (1505/92), or in Sweden within the meaning of the "Lag om offentlig upphandling" (1992:1528), on the basis of an exclusive right which it enjoys pursuant to a law, regulation or administrative provision or to contracts of employment in Finland and Sweden.
12. When a specific procurement may impair important national policy objectives, the Finnish or Swedish Governments may consider it necessary in singular procurement cases to deviate from the principle of national treatment in the Agreement. A decision to this effect will be taken at Cabinet level. Finland also reserves its position with regard to the application of this Agreement to the Åland Islands (Ahvenanmaa).

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS DE L'ARTICLE III DE
L'APPENDICE I DE LA CENotes générales et dérogations aux dispositions de l'article III

1. La CE n'étendra pas le bénéfice des dispositions de cet accord:

- en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs et aux prestataires de services du Canada;
- en ce qui concerne les marchés passés, à l'exception des fournitures, énumérés à l'annexe 2 aux fournisseurs et aux prestataires de services des États-Unis;
- en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphes
 - (a) (eau), aux fournisseurs et aux prestataires de services du Canada et des États-Unis,
 - (b) (électricité), aux fournisseurs et aux prestataires de services du Canada, et du Japon,
 - (c) (aéroports), aux fournisseurs et aux prestataires de services du Canada, de la Corée et des États-Unis,
 - (d) (ports), aux fournisseurs et aux prestataires de services du Canada,
 - (e) (transport urbain), aux fournisseurs et aux prestataires de services du Canada, du Japon, de la Corée et des États-Unis d'Amérique; aux producteurs et fournisseurs de service d'Israël, pour ce qui est des services de transport de voyageurs par autobus,

tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises de la CE un accès comparable et effectif aux marchés considérés;

- aux prestataires de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.

2. Les dispositions de l'article XX ne sont pas applicables aux fournisseurs et aux prestataires de services des pays suivants:

- Israël, Japon, Corée et Suisse en ce qui concerne les recours intentés contre l'adjudication de marchés par les entités mentionnées à l'annexe 2 paragraphe 2, tant que la CE n'a pas constaté que ces pays ont complété la liste des entités sous-centrales;

- Japon, Corée et États-Unis en ce qui concerne les recours intentés contre l'adjudication de marchés à un fournisseur ou à un prestataire de services d'autres parties, lorsque ledit fournisseur est une entreprise petite ou moyenne au sens du droit communautaire, tant que la CE n'aura pas constaté que ces pays n'appliquent plus de mesures discriminatoires pour favoriser certaines petites entreprises nationales ou certaines entreprises nationales détenues par les minorités;
- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication par des entités de la CE de marchés dont la valeur est inférieure au seuil appliqué à la même catégorie de marchés par lesdites Parties.

3. Tant que la CE n'aura pas constaté que les Parties concernées assurent l'accès de leurs marchés aux fournisseurs et aux prestataires de services de la CE, elle n'étendra pas le bénéfice des dispositions du présent accord aux fournisseurs et aux prestataires de services des pays suivants:

- Canada, en ce qui les marchés portant sur les produits relevant des n° 36, 70 et 74 de la FSC (machines industrielles spéciales, matériel d'informatique général, logiciel, fournitures et matériel auxiliaire (sauf 7010 configurations d'équipement de traitement automatique des données), machines de bureau, matériel de bureautique et d'informatique de bureau;
- Canada, en ce qui concerne les marchés portant sur les produits relevant du FSG 58 (matériel de communications, matériel de détection des radiations et d'émission de rayonnement cohérent) et États-Unis en ce qui concerne les équipements de contrôle du trafic aérien;
- Corée et Israël en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphe (b), pour les produits relevant des n° 8504, 8535, 8537 et 8544 du SH (transformateurs électriques, prises de courant, interrupteurs et câbles isolés); et Israël en ce qui concerne les produits relevant des n° 8501, 8536 et 902830 du SH;
- États-Unis, en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphe (d), en ce qui concerne l'acquisition des services de dragage et l'acquisition relative à la construction navale;
- Canada et États-Unis en ce qui concerne les marchés de fournitures et de services entrant dans le cadre de marchés qui, tout en étant passés par une entité relevant du champ d'application du présent accord, ne sont pas eux-mêmes soumis à ce dernier.

4. Le présent accord n'est pas applicable aux marchés passés en vertu:

- d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage par les Etats signataires;
- d'un accord international conclu en relation avec le stationnement des troupes;
- de la procédure spécifique d'une organisation internationale.

5. Le présent accord n'est pas applicable aux marchés des produits agricoles passés en application des programmes de soutien à l'agriculture ou de programmes d'aide alimentaire.

6. Les marchés passés par les entités mentionnées aux annexes 1 et 2 dans les secteurs de l'eau potable, de l'énergie, du transport ou des télécommunications, ne sont pas inclus.

7. Le présent accord n'est pas applicable aux marchés passés par les entités mentionnées à l'annexe 3:

- pour l'acquisition d'eau et la fourniture d'énergie ou de combustibles destinés à la production d'énergie;
- à des fins autres que la poursuite de leurs activités selon la description donnée dans cette annexe ou pour la poursuite de ces activités dans un pays tiers;
- à des fins de revente ou de location à des tiers, lorsque l'entité adjudicatrice ne bénéficie d'aucun droit spécial ou exclusif pour vendre ou louer l'objet de ces marchés et lorsque d'autres entités peuvent librement le vendre ou le louer dans les mêmes conditions que l'entité adjudicatrice.

8. Le présent accord n'est pas applicable aux marchés passés:

- pour l'acquisition ou la location de terrains, de bâtiments existants, ou d'autres biens immeubles ou qui concernent des droits sur ces biens;
- pour l'acquisition, le développement, la production ou la coproduction du matériel destiné à la radiodiffusion et la télédiffusion et des contrats de temps d'émission.

9. Le présent accord n'est pas applicable à la passation des marchés de service par les entités espagnoles énumérées à l'annexe 3 avant le 1er janvier 1997 ou à la passation des marchés par les entités grecques ou portugaises énumérées à l'annexe 3 avant le 1er janvier 1998.

10. La prestation des services, y compris les services de construction, dans le contexte des procédures de passation de marchés en vertu cet accord est soumise aux conditions et aux qualifications pour l'accès au marché et le traitement national exigées par l'Autriche conformément à ses engagements sous l'AGCS.

11. Cet accord n'est pas applicable aux marchés attribués à une entité en Finlande qui est elle-même un pouvoir adjudicateur au sens de la loi sur les marchés publics: "Laki julkisista hankinnoista" (1505/92), ou en Suède au sens de la "Lag om offentlig upphandling" (1992:1528), sur la base d'un droit exclusif dont elle bénéficie en vertu des dispositions législatives, réglementaires ou administratives ou en vertu des contrats de travail en Finlande ou Suède.

12. Lorsqu'une acquisition spécifique peut altérer des objectifs politiques nationaux importants, les gouvernements finlandais et suédois pourront considérer nécessaire de s'écarter du principe de traitement national de l'Accord dans des cas particuliers. Une telle décision sera prise au niveau du Cabinet. La Finlande réserve également sa position en ce qui concerne l'application de cet accord aux îles Åland (Ahvenanmaa).

NOTAS Y DEROGACIONES GENERALES DE LO PREVISTO EN EL ARTÍCULO III DEL
APÉNDICE I DE LA CENotas y derogaciones generales de lo previsto en el artículo III

1. La CE no concederá los beneficios de este Acuerdo:

- por lo que se refiere a la adjudicación de los contratos por las entidades enumeradas en el anexo 2 a los proveedores y a los prestadores de servicios de Canadá;
- por lo que se refiere a la adjudicación de los contratos, con excepción de contratos de suministros, enumerados en el anexo 2 a los proveedores y a los prestadores de servicios de los EE.UU.;
- por lo que se refiere a la adjudicación de los contratos por entidades enumeradas en el anexo 3 párrafos
 - (a) (agua), a los proveedores y a los prestadores de servicios de Canadá y de los EE.UU.,
 - (b) (electricidad), a los proveedores y a los prestadores de servicios de Canadá y Japón,
 - (c) (aeropuertos), a los proveedores y a los prestadores de servicios de Canadá, Corea y los EE.UU.,
 - (d) (puertos), a los proveedores y a los prestadores de servicios de Canadá,
 - (e) (transporte urbano), a los proveedores y a los prestadores de servicios de Canadá, Japón, Corea y los EE.UU.; a los proveedores en general y a los proveedores de servicios de Israel, respecto de los servicios de autobús,hasta que la CE haya aceptado que las partes afectadas garantizan un acceso comparable y efectivo de empresas de la Comunidad a los mercados pertinentes;
- a los prestadores de servicios de las Partes que no incluyen los contratos de servicio adjudicados por las entidades enumeradas en anexos 1 a 3 y la categoría pertinente de servicio conforme a los anexos 4 y 5 en su propia cobertura.

2. Lo previsto en el artículo XX no se aplicará a los proveedores y a los prestadores de servicios de los siguiente países:

- Israel, Japón, Corea y Suiza por lo que se refiere a la impugnación de la adjudicación de contratos por las entidades enumeradas en el anexo 2 párrafo 2º, hasta que la CE acepte que estos países han completado su cobertura de entidades subcentrales;
- Japón, Corea y los EE.UU. por lo que se refiere a la impugnación de la adjudicación de los contratos a un proveedor o a un prestador de servicios de las otras Partes, que sean empresas pequeñas o medianas conforme a las disposiciones pertinentes del

derecho comunitario, hasta que la CE acepte que ya no aplican medidas discriminatorias a favor de ciertas pequeñas empresas y ciertas empresas de minoría;

- Israel, Japón y Corea por lo que se refiere a la impugnación de la adjudicación de los contratos por las entidades de la CE cuyo valor es inferior al umbral aplicable en la misma categoría de contratos por estas partes.

3. Hasta que la CE haya aceptado que las partes afectadas proporcionan el acceso de los proveedores y los prestadores de servicios de la CE a sus propios mercados, la CE no concederá los beneficios de este Acuerdo a los proveedores y a los prestadores de servicios de los países siguientes:

- Canadá, por lo que se refiere a la adquisición de FSC 36, 70 y 74 (maquinaria industrial especial, material general de proceso de datos automáticos, soporte lógico, suministros y material auxiliar (excepto 7010 configuraciones ADPE), máquinas de oficina, material de ofimática y de informática de oficina);
- Canadá, por lo que se refiere a la adquisición de FSG 58 (material de comunicaciones, material de detección de radiaciones y de emisión de radiación coherente) y los EE.UU. por lo que se refiere al material de control de tráfico aéreo;
- Corea e Israel por lo que se refiere a la adquisición por entidades enumeradas en el anexo 3 párrafo (b), por lo que se refiere a la adquisición de nos. 8504, 8535, 8537 y 8544 HS (transformadores eléctricos, enchufes, interruptores y cables aislantes); y para Israel, nos. 8501, 8536 y 902830 HS;
- los EE.UU., por lo que se refiere a la adquisición por entidades enumeradas en el anexo 3 párrafo (d), por lo que se refiere a la adquisición de servicios de dragado y a la adquisición relacionada con la construcción naval;
- Canadá y los EE.UU. por lo que se refiere a los contratos de bienes o de servicios componentes de contratos que, aunque sean concedidos por una entidad cubierta por este Acuerdo, no están ellos mismos sujetos a este Acuerdo.

4. El presente Acuerdo no se aplicará a los contratos adjudicados en virtud de:

- un acuerdo internacional destinado a la ejecución o explotación conjunta de un proyecto por los Estados signatarios;
- un acuerdo internacional relativo al estacionamiento de tropas;
- un procedimiento específico de una organización internacional.

5. El presente Acuerdo no se aplicará a la adquisición de productos agrícolas hecha en aplicación de programas de ayuda a la agricultura y de programas de ayuda alimentaria.

6. Los contratos adjudicados por las entidades en los anexos 1 y 2 con respecto a actividades en los sectores del agua potable, la energía, el transporte o las telecomunicaciones, no están incluidos.

7. El presente Acuerdo no se aplicará a los contratos que las entidades enumeradas en el anexo 3 adjudiquen:

- para la compra de agua y para el suministro de energía o de combustibles destinados a la producción de energía;
- para fines distintos de la prosecución de sus actividades según lo descrito en este anexo o para la prosecución de tales actividades en un país tercero;
- a efectos de reventa o arrendamiento a terceros siempre y cuando la entidad contratante no goce de derechos especiales o exclusivos de venta o arrendamiento del objeto de dichos contratos, y existan otras entidades que puedan venderlos o arrendarlos libremente en las mismas condiciones que la entidad contratante.

8. El presente Acuerdo no será aplicable a contratos:

- para la adquisición o el arrendamiento de terrenos, edificios ya existentes, u otros bienes inmuebles o relativos a derechos sobre estos bienes;
- para la adquisición, el desarrollo, la producción o coproducción de material de programa por emisores de ondas y contratos de tiempo de emisión.

9. El presente Acuerdo no será aplicable a la adjudicación de contratos de servicio por entidades españolas enumeradas en el anexo 3 antes del 1 de enero de 1997 o a la adjudicación de los contratos por entidades griegas o portuguesas enumeradas en el anexo 3 antes del 1 de enero de 1998.

10. La prestación de servicios, incluidos los servicios de construcción, en el contexto de los procedimientos de contratación en virtud este Acuerdo está sujeta a las condiciones y calificaciones para el acceso al mercado y el trato nacional requeridas por Austria de conformidad con sus compromisos bajo el ACCS.

11. Este Acuerdo no se aplicará a los contratos adjudicados a una entidad en Finlandia que sea a su vez una entidad adjudicadora en el sentido de la Ley de Contratación Pública: "Hankinnoista de julkisista Laki" (1505/92), o en Suecia en el sentido del "Lag om offentlig upphandling" (1992:1528), basándose en un derecho exclusivo del que goce en virtud de disposiciones legales, reglamentarias o administrativas, o en virtud de un contrato laboral en Finlandia y Suecia.

12. Cuando una adquisición específica puede alterar objetivos importantes de política nacional, los gobiernos finés o sueco podrán considerar necesario desviarse en casos concretos del principio del trato nacional del Acuerdo. Decisiones de este tipo se tomarán a nivel de gabinete. Finlandia también se reserva su posición por lo que se refiere a la aplicación de este Acuerdo a las islas Aland (Ahvenanmaa).

HONG KONG, CHINA

*All Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies	<i>Threshold:</i>	355,000 SDR
Services (specified in Annex 4)	<i>Threshold:</i>	355,000 SDR
Construction (specified in Annex 5)	<i>Threshold:</i>	8,500,000 SDR

List of Entities:

Israel Airports Authority
 Israel Ports and Railways Authority (1)
 Israel Broadcasting Authority
 Israel Educational Television
 Postal Authority
 Bezek (Israel Communication Company) (1) (2)
 Israel Electricity Company (2a)
 Mekoroth Water Resources Ltd.
 Sports' Gambling Arrangement Board
 Israel Standards Institute
 National Insurance Institute
 All entities operating in the field of urban transport, except those operating in the field of bus services (2b)

Notes to Annex 3

- (1) Procurement of cables is excluded.
- (2) With regard to procurement by Bezek, this Agreement shall apply only to goods and services of the US.

Israel is willing to negotiate the opening of its telecommunication sector also to other Code members under the condition of reciprocity.

- (2a) Excluded products: cables (H.S. 8544), electro-mechanic meters (ex. H.S. 9028), transformers (H.S. 8504), disconnectors and switchers (H.S. 8535-8537), electric motors (H.S. 8501).
- (2b) With regard to procurement by entities operating in the field of urban transport, except those operating in the field of bus services, this Agreement shall apply only to goods and services, including construction services, of the European Community.

Israel is willing to negotiate the opening of procurement by entities operating in the field of urban transport, except those operating in the field of bus services, to other Parties to the Agreement under the condition of reciprocity.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:

<i>CPC</i>	<i>Description</i>
6112, 6122, 633, 886	Maintenance and repair services
8672-3	Architectural services
8671	Engineering services
8674	Urban planning
841-3	Computer and related services
871	Advertising services
864	Market research and public opinion
865-6	Management consulting
874, 82201-82206	Building-cleaning services and property management services
88442	Publishing and printing services on a fee or contract basis
9401-5	Environmental services

Note to Annex 4

The offer regarding services (including construction) is subject to the limitation and conditions specified in Israel's offer under the GATS negotiation.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

Threshold: 8,500,000 SDR

List of construction services offered

<i>CPC</i>	<i>Description</i>
511	Pre-erection work at construction sites
512	Construction work for buildings
513	Construction work for civil engineering
514	Assembly and erection of prefabricated construction
515	Special trade construction work
516	Installation work
517	Building completion and finishing work
518	Renting services related to equipment for construction

GENERAL NOTES

- (1) The Agreement shall not apply to contracts awarded for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
- (2) The Agreement shall not apply to contracts for the purchase of water and for the supply of energy and of fuels for the production of energy.
- (3) The Agreement shall not apply to the acquisition or rental of land, buildings or other immovable property, or concerning rights thereon.

NOTE

Offset

1. Having regard to Article XVI and to general policy considerations regarding development, Israel may operate provisions which require the limited incorporation of domestic content, offset procurement or transfer of technology, in the form of objective and clearly defined conditions for participation in procedures for the award of contracts, which do not discriminate between other Parties.

This shall be done under the following terms:

- (a) Israel shall ensure that its entities indicate the existence of such conditions in their tender notices and specify them clearly in the contract documents.
 - (b) Suppliers will not be required to purchase goods that are not offered on competitive terms, including price and quality, or to take any action which is not justified from a commercial standpoint.
 - (c) Offsets in any form may be required up to 35 per cent of the contract going down to 30 per cent after five years and 20 per cent after nine years, beginning from the date Israel implements the Agreement.
2.
 - (a) At the end of each period of five and four years Israel will submit a report concerning the implementation of this Note.
 - (b) When the level of the offset has reached 20 per cent, Israel will consult with the Parties to this Agreement on the level of the use of offset by Israel. The review shall take into consideration *inter alia* general and economic developments in Israel, its trade balance, the actual performance within the framework of this Agreement and the views of the other Parties.

JAPAN

 - (d) Procurement of advertising services, construction services and real estate services is not included.
 - (e) Procurement of ships to be jointly owned with private companies is not included.
 - (f) Procurement of public electrical telecommunications equipment and of services related to operational safety of telecommunications is not included.
 - (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:

(Provisional Central
Product Classification
(CPC), 1991)

- 51 Construction work
- 6112 Maintenance and repair services of motor vehicles^{Note 1}
- 6122 Maintenance and repair services of motorcycles and snowmobiles^{Note 1}
- 712 Other land transport services (except 71235 Mail transportation by land)
- 7213 Rental services of sea-going vessels with operator
- 7223 Rental services of non-sea-going vessels with operator
- 73 Air transport services (except 73210 Mail transportation by air)
- 748 Freight transport agency services
- 7512 Courier services^{Note 2}
- Telecommunications services
- MTN.GNS/W/120
 - Corresponding CPC
 - 2.C.h. - 7523 Electronic mail;
 - 2.C.i. - 7521 Voice mail;
 - 2.C.j. - 7523 On-line information and data base retrieval;
 - 2.C.k. - 7523 Electronic data interchange (EDI);
 - 2.C.l. - 7529 Enhanced facsimile services;
 - 2.C.m. - 7523 Code and protocol conversion; and
 - 2.C.n. - 7523 On-line information and/or data processing (including transaction processing)
- 84 Computer and related services
- 864 Market research and public opinion polling services
- 867 Architectural, engineering and other technical services^{Note 3}
- 871 Advertising services
- 87304 Armoured car services
- 874 Building-cleaning services
- 88442 Publishing and printing services^{Note 4}
- 886 Repair services incidental to metal products, machinery and equipment
- 94 Sewage and refuse disposal, sanitation and other environmental protection services

1 March 2000 (WT/Let/330)

Notes to Annex 4

1. Maintenance and repair services are not included with respect to those motor vehicles, motorcycles and snowmobiles which are specifically modified and inspected to meet regulations of the entities.
2. Courier services are not included with respect to letters.
3. Architectural, engineering and other technical services related to construction services, with the exception of the following services when procured independently, are included:
 - Final design services of CPC 86712 Architectural design services;
 - CPC 86713 Contract administration services;
 - Design services consisting of one or a combination of final plans, specifications and cost estimates of either CPC 86722 Engineering design services for the construction of foundations and building structures, or CPC 86723 Engineering design services for mechanical and electrical installations for buildings, or CPC 86724 Engineering design services for the construction of civil engineering works; and
 - CPC 86727 Other engineering services during the construction and installation phase.
4. Publishing and printing services are not included with respect to materials containing confidential information.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All services listed in Division 51.

Threshold: 4,500 thousand SDR for entities set out in ANNEX 1;
15,000 thousand SDR for those in ANNEX 2; and
15,000 thousand SDR for those in ANNEX 3.

GENERAL NOTES

1. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3.
2. In case Parties do not apply Article XX to suppliers or service providers of Japan in contesting the award of contract by entities, Japan may not apply the Article to suppliers or service providers of the Parties in contesting the award of contracts by the same kind of entities.

KOREA

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: 130,000 SDR

List of Entities:

- Board of Audit and Inspection
- Prime Minister's Secretariat
- Office of Administrative Coordination
- First Minister of Political Affairs
- Second Minister of Political Affairs
- Ministry of Finance and Economy
- National Unification Board
- Ministry of Government Administration
- Ministry of Science and Technology
- Ministry of Information
- Government Legislation Agency
- Patriots and Veterans Affairs Agency
- Ministry of Foreign Affairs
- Ministry of Home Affairs
- Ministry of Justice
- Ministry of National Defense
- Ministry of Education
- Ministry of Culture and Sports
- Ministry of Agriculture and Forestry
- Ministry of Trade, Industry and Energy
- Ministry of Health and Welfare
- Ministry of Labor
- Ministry of Construction and Transportation
- Ministry of Maritime Affairs and Fisheries
- Ministry of Information and Communications
- Ministry of Environment
- Office of Supply (limited to purchases for entities in this list only. Regarding procurement for entities in Annex 2 and Annex 3 in this list, the coverages and thresholds for such entities thereunder shall be applied.)
- National Tax Administration
- Customs Administration
- National Statistical Office

1 March 2000 (WT/Let/330)

- Korea Meteorological Administration
- National Police Administration (except purchases for the purpose of maintaining public order, as provided in Article XXIII of the Code)
- Supreme Public Prosecutors' Office
- Military Manpower Administration
- Rural Development Administration
- Forestry Administration
- Korea Industrial Property Office
- Small and Medium Business Administration
- Korea National Railroad Administration (The Korean Government plans to change the NRA into a public corporation in 1996, in which case the Korean Government has the right to transfer the NRA from Annex 1 to Annex 3 without any consultation and/or compensatory measures.)
- National Maritime Police Agency (except purchases for the purpose of maintaining public order, as provided in Article XXIII of the Agreement)

Services

Threshold: 130,000 SDR

List of Entities which Procure Services Specified in Annex 4:

Same as "Supplies" section

Construction Services

Threshold: 5,000,000 SDR

List of Entities which Procure Services Specified in Annex 5:

Same as "Supplies" section

Notes to Annex 1

1. The above central government entities include their subordinate linear organizations, special local administrative organs, and attached organs as prescribed in the Government Organization Act of the Republic of Korea.
2. This Agreement does not apply to the products and services procured with a view to resale or to use in the production of goods or provision of services for sale.
3. This Agreement does not apply to the single tendering procurement including set-asides for small- and medium-sized businesses according to the Act Relating to Contracts to which the State is a Party and its Presidential Decree, and the procurement of agricultural, fishery and livestock products according to the Foodgrain Management Law, the Law Concerning Marketing and Price Stabilization of Agricultural and Fishery Products, and the Livestock Law.

1 March 2000 (WT/Let/330)

4. This Agreement does not apply to the procurement of satellites according to the Aviation and Space Industry Development Promotion Law for five years from its entry into force for Korea.
5. The Defense Logistics Agency shall be considered as part of the Ministry of National Defense. Subject to the decision of the Korean Government under the provisions of paragraph 1, Article XXIII, for MND purchases, this Agreement will generally apply to the following FSC categories only, and for services and construction services listed in Annex 4 and Annex 5, it will apply only to those areas which are not related to national security and defense.

<i>FSC</i>	<i>Description</i>
2510	Vehicular cab, body, and frame structural components
2520	Vehicular power transmission components
2540	Vehicular furniture and accessories
2590	Miscellaneous vehicular components
2610	Tires and tubes, pneumatic, nonaircraft
2910	Engine fuel system components, nonaircraft
2920	Engine electrical system components, nonaircraft
2930	Engine cooling system components, nonaircraft
2940	Engine air and oil filters, strainers and cleaners, nonaircraft
2990	Miscellaneous engine accessories, nonaircraft
3020	Gears, pulleys, sprockets and transmission chain
3416	Lathes
3417	Milling machines
3510	Laundry and dry cleaning equipment
4110	Refrigeration equipment
4230	Decontaminating and impregnating equipment
4520	Space heating equipment and domestic water heaters
4940	Miscellaneous maintenance and repair shop specialized equipment
5120	Hand tools, nonedged, nonpowered
5410	Prefabricated and portable buildings
5530	Plywood and veneer
5660	Fencing, fences and gates
5945	Relays and solenoids
5965	Headsets, handsets, microphones and speakers
5985	Antennae, waveguide, and related equipment
5995	Cable, cord, and wire assemblies: communication equipment
6505	Drugs and biologicals
6220	Electric vehicular lights and fixtures
6840	Pest control agents disinfectants
6850	Miscellaneous chemical, specialties
7310	Food cooking, baking, and serving equipment
7320	Kitchen equipment and appliances
7330	Kitchen hand tools and utensils
7350	Table ware
7360	Sets, kits, outfits, and modules food preparation and serving
7530	Stationery and record forms

7920	Brooms, brushes, mops, and sponges
7930	Cleaning and polishing compounds and preparations
8110	Drums and cans
9150	Oils and greases: cutting, lubricating, and hydraulic
9310	Paper and paperboard

ANNEX 2

*Sub-Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: 200,000 SDR

List of Entities:

- Seoul Metropolitan Government
- City of Pusan
- City of Taegu
- City of Incheon
- City of Kwangju
- City of Taejon
- Kyonggi-do
- Kang-won-do
- Chungchongbuk-do
- Chungchongnam-do
- Kyongsangbuk-do
- Kyongsangnam-do
- Chollabuk-do
- Chollanam-do
- Cheju-do

Services

Threshold: 200,000 SDR

List of Entities which Procure Services Specified in Annex 4:

Same as "Supplies" section

Construction Services

Threshold: SDR 15,000,000

List of Entities which Procure Services Specified in Annex 5:

Same as "Supplies" section

Notes to Annex 2

1. The above sub-central administrative government entities include their subordinate organizations under direct control and offices as prescribed in the Local Autonomy Law of the Republic of Korea.

11.I.	-	Freight forwarding for rail transport

Note to Annex 4

Asterisks (*) designate "part of" as described in detail in the Revised Conditional Offer of the Republic of Korea Concerning Initial Commitments on Trade in Services.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

Threshold: 5,000,000 SDR for entities set out in Annex 1
15,000,000 SDR for entities set out in Annex 2
15,000,000 SDR for entities set out in Annex 3

List of construction services offered:

<i>CPC</i>	<i>Description</i>
511	Pre-erection work at construction sites
512	Construction work for buildings
513	Construction work for civil engineering
514	Assembly and erection of prefabricated construction
515	Special trade construction work
516	Installation work
517	Building completion and finishing work

GENERAL NOTES

1. Korea will not extend the benefits of this Agreement
 - (a) as regards the award of contracts by the National Railroad Administration,
 - (b) as regards procurement for airports by the entities listed in Annex 1,
 - (c) as regards procurement for urban transportation (including subways) by the entities listed in Annexes 1 and 2

to the suppliers and service providers of member States of the European Communities, Austria, Norway, Sweden, Finland and Switzerland, until such time as Korea has accepted that those countries give comparable and effective access for Korean undertakings to their relevant markets.
2. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3. Korea is prepared to amend this note at such time as coverage with respect to these Annexes can be resolved with Canada.
3. A service listed in Annex 4 is covered with respect to a particular party only to the extent that such party has included that service in its Annex 4.

LIECHTENSTEIN

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance With
the Provisions of this Agreement*

<i>Supplies</i>	<i>Threshold:</i>	SDR 130,000
<i>Services</i> (specified in Annex 4)	<i>Threshold:</i>	SDR 130,000
<i>Construction services</i> (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

Government of the Principality of Liechtenstein

Note to Annex 1

The Agreement shall not apply to contracts awarded by contracting authorities in the field of drinking water, energy, transport or telecommunications.

ANNEX 2

*Sub-Central Entities which Procure in Accordance With
the Provisions of this Agreement*

<i>Supplies</i>	<i>Threshold:</i>	SDR 200,000
<i>Services</i> (specified in Annex 4)	<i>Threshold:</i>	SDR 200,000
<i>Construction services</i> (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

1. Public Authorities at local level
2. Bodies governed by public law and not having an industrial or commercial character at the local level.

Note to Annex 2

The Agreement shall not apply to contracts awarded by contracting authorities in connection with activities in the field of drinking water, energy, transport or telecommunications.

ANNEX 3

*All Other Entities which Procure in Accordance With
the Provisions of this Agreement*

Supplies	Threshold:	SDR 400,000
Services	Threshold:	SDR 400,000
Works (specified in Annex 5)	Threshold:	SDR 5,000,000

List of Entities:

The contracting entities which are public authorities¹ or public undertakings² and which have as at least one of their activities any of those referred to below:

1. the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of drinking water or the supply of drinking water to such networks (as specified under title I);
2. the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of electricity or the supply of electricity to such networks (as specified under title II);
3. the operation of fixed networks providing a service to the public in the field of transport by urban railway, automated systems, tramway, trolleybus, bus or cable (as specified under title III);

¹ Public authorities means the State, regional or local authorities, bodies governed by public law, or associations formed by one or more of such authorities or bodies governed by public law. A body is considered to be governed by public law where it:

- is established for the specific purpose of meeting needs in the general interest, not being of an industrial or commercial nature;
- has legal personality; and
- is financed for the most part by the State, or regional or local authorities, or other bodies governed by public law, or is subject to management supervision by those bodies, or has an administrative, managerial or supervisory board more than half of whose members are appointed by the State, regional or local authorities, or other bodies governed by public law.

² Public undertakings means any undertaking over which the public authorities may exercise directly or indirectly a dominant influence by virtue of their ownership of it, their financial participation therein, or the rules which govern it. A dominant influence on the part of the public authorities shall be presumed when these authorities, directly or indirectly, in relation to an undertaking:

- hold the majority of the undertaking's subscribed capital; or
- control the majority of the votes attaching to shares issued by the undertaking; or
- can appoint more than half of the members of the undertaking's administrative, managerial or supervisory body.

4. the exploitation of a geographical area for the purpose of the provision of airport or other terminal facilities to carriers by air (as specified under title IV);
5. the exploitation of a geographical area for the purpose of the provision of inland port or other terminal facilities to carriers by sea or inland waterway (as specified under title V).

I. Production, transport or distribution of drinking water

Public authorities and public undertakings producing, transporting and distributing drinking water. Such public authorities and public undertakings are operating under local legislation or under individual agreements based thereupon.

- Gruppenwasserversorgung Liechtensteiner Oberland
- Gruppenwasserversorgung Liechtensteiner Unterland

II. Production, transport or distribution of electricity

Public authorities and public undertakings for the production, transport and distribution of electricity operating on the basis of authorizations for expropriation pursuant to the "Gesetz vom 16. Juni 1947 betreffend die "Liechtensteinischen Kraftwerke" (LKWG)".

- Liechtensteinische Kraftwerke

III. Contracting entities in the field of urban railway, automated systems, tramway, trolley bus, bus or cable services

Liechtensteinische Post-, Telefon- und Telegrafbetriebe (PTT)

according to "Vertrag vom 9. Januar 1978 zwischen dem Fürstentum Liechtenstein und der Schweizerischen Eidgenossenschaft über die Besorgung der Post- und Fernmeldedienste im Fürstentum Liechtenstein durch die Schweizerischen Post-, Telefon- und Telegrafbetriebe (PTT).

IV. Contracting entities in the field of airport facilities

None

Notes to Annex 3

This Agreement shall not apply:

1. to contracts which the contracting entity awards for purposes other than the pursuit of their activities as described in this Annex.
2. to contracts awarded for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
3. to contracts for the purchase of water.
4. to contracts of contracting entities other than a public authority exercising the supply of drinking water or electricity to networks which provide a service to the public, if they produce these services by themselves and consume them for the purpose of carrying out other activities than those described under this Annex under I and II and provided that the supply to the public network depends only on the entity's own consumption and does not exceed 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years.
5. to contracts for the supply of energy or of fuels for the production of energy.
6. to contracts awarded by contracting entities providing a bus service if other entities are free to offer the same service either in general or in a specific geographical area and under the same conditions.

ANNEX 4

Services

The following services from the services sectoral classification list contained in document MTN.GNS/W/120 are included:

Subject

Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752 ¹
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services ²	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866 ³
Architectural services; engineering services and integrated engineering services; urban planning and landscape architectural services; related scientific and technical consulting services; technical testing and analysis services	867
Advertising services	871

¹ Except voice telephony, telex, radiotelephony, paging and satellite services

² Except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services

³ Except arbitration and conciliation services

Building-cleaning services and property management services	874, 82201-82206
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

The Agreement shall not apply to:

1. service contracts awarded to an entity which is itself a procuring entity listed in Annex 1 or 2 on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision.
2. service contracts which a contracting entity awards to an affiliated undertaking or which are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out an activity within the meaning of Annex 3 or to an undertaking which is affiliated with one of these contracting entities. At least 80 per cent of the average turnover of that undertaking for the preceding three years has to derive from the provision of such services to undertakings with which it is affiliated. Where more than one undertaking affiliated with the contracting entity provides the same service, the total turnover deriving from the provision of services by those undertakings shall be taken into account.
3. contracts for the acquisition or rental, by whatever means, of land, existing buildings, or other immovable property or concerning rights thereon.
4. to contracts of employment.
5. for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

General construction work for buildings	512
General construction work for civil engineering	513
Installation and assembly work	514 + 516
Building completion and finishing work	517
Other	511 + 515 + 518

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. The Principality of Liechtenstein will not extend the benefits of this Agreement:

- as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada and the United States of America,
- as regards the award of contracts by entities listed in Annex 3 in the following sectors:
 - water: to the suppliers and service providers of Canada and the United States of America;
 - electricity: to the suppliers and service providers of Canada, Japan and the United States of America;
 - urban transport: to the suppliers and service providers of Canada, Israel, Japan, Korea and the United States of America

until such time as the Principality of Liechtenstein has accepted that the Parties concerned give comparable and effective access for undertakings of the Principality of Liechtenstein to the relevant markets;

- to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.

2. The provisions of Article XX shall not apply to suppliers and service providers of:

- Israel, Japan and Korea in contesting the award of contracts by bodies governed by public law and not having an industrial or commercial character listed in Annex 2, paragraph 2, until such time as the Principality of Liechtenstein accepts that they have completed coverage of sub-central entities;
- Canada, Japan, Korea and the United States of America in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small- or medium-sized enterprises under the relevant provisions of the law of Liechtenstein until such time as the Principality of Liechtenstein accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
- Israel, Japan and Korea in contesting the award of contracts by entities of the Principality of Liechtenstein, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as the Principality of Liechtenstein has accepted that the Parties concerned provide access for suppliers and service providers to their own markets, the Principality of Liechtenstein will not extend the benefits of this Agreement to suppliers and service providers of:
 - Canada, as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);
 - Canada, as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the United States of America as regards air traffic control equipment;
 - Korea and Israel as regards procurement by entities listed in Annex 3, paragraph (B) as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the United States of America as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. The Agreement shall not apply to contracts awarded under:
 - an international agreement and intended for the joint implementation or exploitation of a project by signatory States;
 - the particular procedure of an international organization.
5. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.
6. The provision of services, including construction services, in the context of procurement procedures according to this Agreement is subject to the conditions and qualifications for market access and national treatment as will be required by the Principality of Liechtenstein in conformity with its commitments under the GATS.

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting authorities of the regional or local public authorities (all counties (19) and municipalities (435)).
2. Bodies governed by public law, or associations formed by one or more such authorities or bodies governed by public law¹, including:

Norsk Rikskringkastning
Norges Bank
Statistisk Sentralbyrå
Norges Forskningsråd
Statens Pensjonskasse

The Norwegian Broadcasting Corporation
Norges Bank
Statistics Norway
Research Council of Norway
Norwegian Public Service Pension Fund

¹ A body is considered to be governed by public law when it:

- is established for the specific purpose of meeting needs in the general interest, not being of a commercial or industrial nature, and
- has legal personality, and
- is financed for the most part by the State, or regional or local authorities, or other bodies governed by public law, or is subject to management supervision by those bodies, or has an administrative, managerial or supervisory board more than half of whose members are appointed by the State, regional or local authorities, or other bodies governed by public law.

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services (specified in Annex 4)*

Threshold: SDR 400,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

*List of Sectors:*1. *The electricity sector:***

Public entities producing, transporting or distributing electricity pursuant to Lov om bygging og drift av elektriske anlegg (LOV 1969-06-19), Lov om erverv av vannfall, bergverk og annen fast eiendom m.v., Kap. I, jf. kap. V (LOV 19-17-24 16, kap. I), or Vassdragsreguleringsloven (LOV 1917-12-14 17) or Energiloven (LOV 1990-06-29 50).

2. *Urban transport:*

Public entities which have as one of their activities the operation of networks providing a service to the public in the field of transport by automated systems, urban railway, tramway, trolley bus, bus or cable according to Lov om anlegg og drift av jernbane, herunder sporvei, tunellbane og forstadsbane m.m. (LOV 1993-06-11 100), or Lov om samferdsel (LOV 1976-06-04 63) or Lov om anlegg av taugbaner og løipestrenger (LOV 1912-06-14 1).

3. *Airports:*

Public entities providing airport facilities pursuant to Lov om luftfart (LOV 1960-12-16 1).

Luftfartsverket

National Civil Aviation Administration

4. *Ports:*

Public entities operating pursuant to Havneloven (LOV 1984-06-08 51).

5. *Water supply:***

Public entities producing or distributing water pursuant to Forskrift om Drikkevann og Vannforsyning (FOR 1951 - 09-28).

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex, and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*
